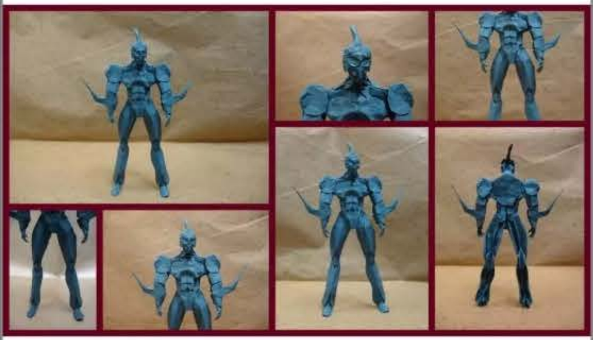
Origami Sharing Series No.38 Total 103rd Strong Colony Armor CP2

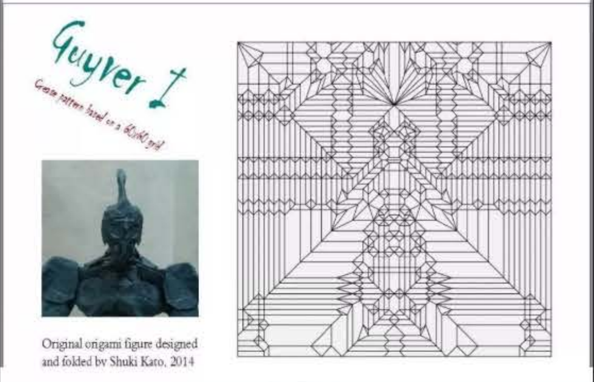
Original origami student Takayama CP origami opening number2019-06-30

Hello everyone, welcome to CP Opening!

This issue will then share with you the second paragraph of Kato's works of the Evangelion. Many of the introductions we have said in the previous issue, I will not talk about this issue, let's go straight to the topic!

Please come to know this issue of CP60 * 60





Original origami figure designed and folded by Shuki Kato, 2014

First of all, let's take a look at this stack of paper after I've finished the line. This is what we want to aggregate!

In the first step, we unfold the paper to be aggregated, and aggregate with me!

CP折纸开根号

First we turn the paper upside down and start from the head, folding the red line at half a meter.

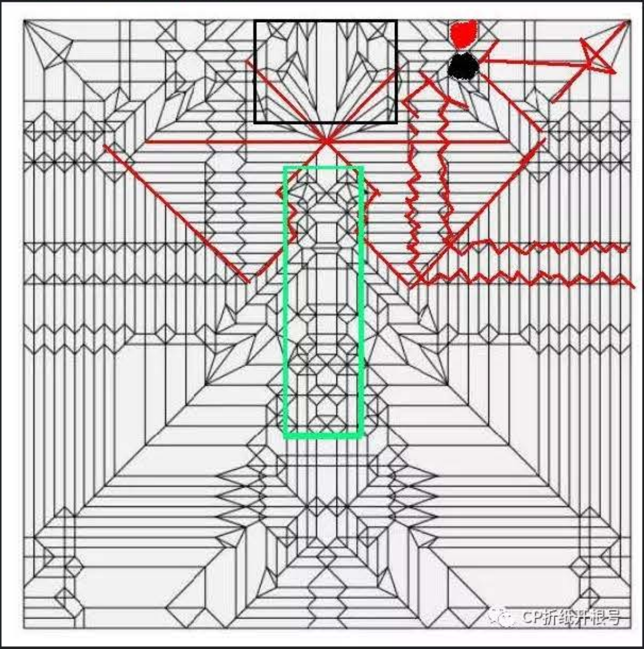
Next, we must pay special attention when converging to the shoulder, that is, the red and black two pieces in the picture below. Here is the large square muscle of the shoulder, and the order of the aggregation is best to first put the two corner parts. Fold it out and gather up again.



CP折纸开根号

Next we deal with the two legs in the left and right corners according to the following figure. What needs to be done here is to aggregate the connection first, and then aggregate down.

Let 's gather the students to adjust the paper layer and position of each part and prepare for plastic surgery.
When shaping, we start with the lower body first, we must be optimistic about each branch, paper layer and so on.
