
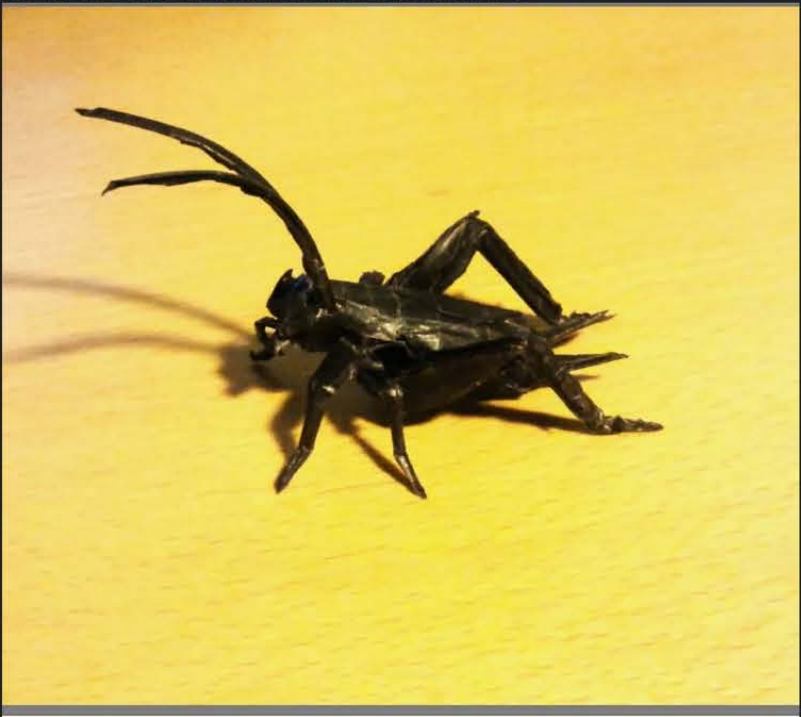
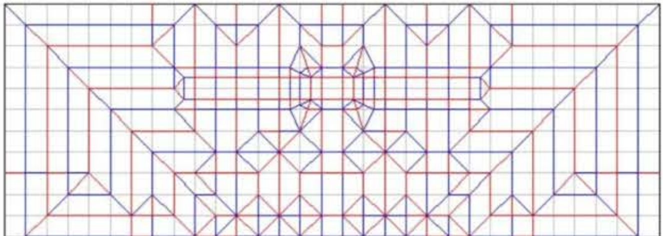
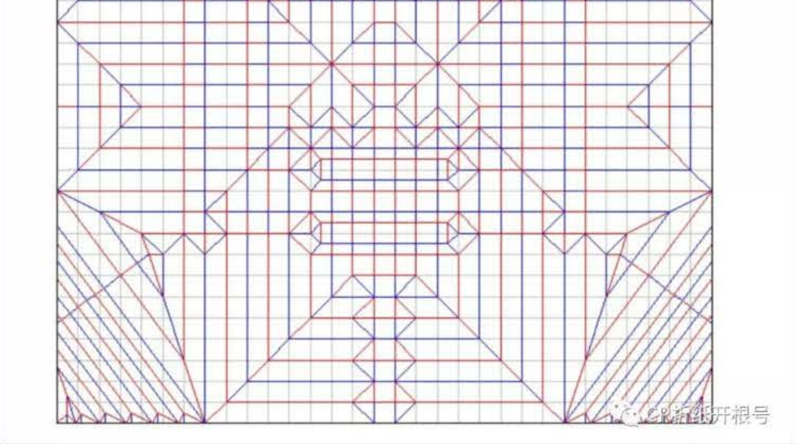
Here we can see the effect of aggregation!

Let's talk about another one from almost the same period.







CP折纸开根号

This work: 31--31 aliquots The ideal method is 32 aliquots

Let 's start the aggregation

Since it is the same bug in two different models, the polymerization method is of course basically the same.
It is still horizontal and vertical first, and then the zigzag structure is completed.

I posted a lot of life sketches and origami sketches, and of course there are original works🤭
My Taobao Online Store
Although there is no decoration in the online store and the pictures are not very beautiful, the works are still complete, and I can order CP works that are not in the store. Of course, it also includes the aggregate semi-finished products and finished products of almost all the works explained by the public account And line paper for sale.
