Let's take another foreign work!

This piece of work is not too difficult, and the shaping is also very simple. The basic type is a crane type, and then each corner is connected.

Simply talk about the lines, fold the square meters, and then make 22.5 lines at each corner, and then make 22.5 degree lines at the intersections with the sides, determine the four small squares on the four sides, and then refine all the lines.

This is the good process, let's start!

In this issue, I used the old white kraft paper turned out of the box. It looked like it could be thrown away. Unfortunately, you can choose some less thick paper to fold this work.

As for the process of plastic surgery, you can feel free to think about other action expressions and open your brains!

Come on, origami gentlemen!

See you next time!

I posted a lot of life sketches and origami sketches, and of course there are original works on display🤔
My Taobao Online Store
Although there is no decoration in the online store and the pictures are not very beautiful, the works are still complete, and I can order CP works that are not in the store. Of course, it also includes the aggregate semi-finished products and finished products of almost all the works explained by the public account. And line paper for sale.
