[Daily to touch fish]

Original Syn is also origami daily 2019-07-05

Hello friends, I have met you again. Here is still Syn. Today, I bring you a kind of interesting and cute fish-river wren.

"

River bream (Tetraodontidae; puffer fishes) is a collective name for the fishes of the family Osteidae, commonly known as puffer fish. (Note: The name of pufferfish is wrong, but it is widely used. Pufferfish can also refer to a freshwater mammal.) Since ancient times, pufferfish that have been eaten in China have been living in rivers. They are snoring like pigs when they capture water Named the river "dolphin". There are also "bubble fish", "blowfish", "puffer fish", "air drum fish" (Jiangsu, Zhejiang), "good fish and chicken" (Guangdong), "chicken hug" (Guangdong), " "Turtlefish" (Guangxi), "Street Fish" (read in Southern Fujian dialect) (Fujian), "wax head" (Hebei), "boat fish" and other names. In ancient times it was called "lung fish".

River salamanders are warm temperate and tropical offshore bottom fishes. They inhabit the middle and lower layers of the ocean, and a few species enter the freshwater rivers. When they encounter external dangers, they make the whole body spherically float on the water surface, and small spines on the skin stand up To defend yourself. Common red-finned eastern salamander (Takifugu rubripes), dark-striped eastern salamander (T.fasciatus), black-gill rabbit salamander (Lagocephalus inermis), concave nose salamander (Chelonodon patoca), Aronthron nigropunctatus, etc.

"

It is recommended that you prepare 20 ~ 25cm orange and white two-color paper, not too thick. The paper used in this real shot is 15cm muji. The real shot part starts from a double square (friends who do n't know the double square can Baidu):
