Origami student Takayama CP origami opening number 2019-11-10

Hello everyone, welcome to CP Opening!

Today we will continue to talk about a character origami, Lingshen 's small sleeve hand. In fact, I was not sure when I folded this piece of plastic, but after doing some communication with Lingshen, I basically confirmed the original idea , Now we can finally meet you!

First enter this issue to talk about:
The hand of a small sleeve is one of the R-level gods of the 3D Japanese-style Japanese-style RPG mobile game " Yin and Yang Master " developed by NetEase .

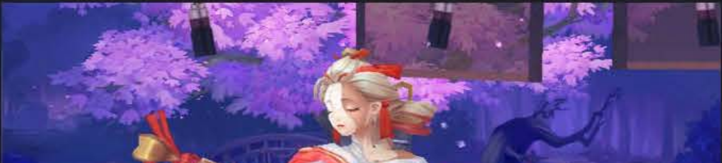
Skill introduction

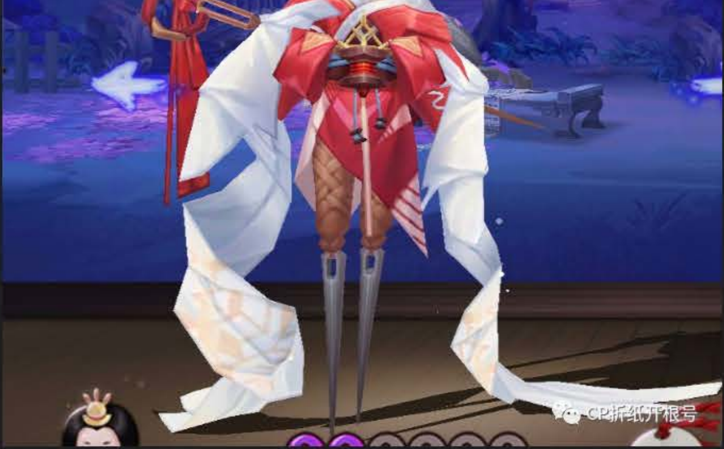
1.Hidden needle in cotton

The effect has not yet returned, and it seems that today will not be the exception. The small sleeved hand controls the needle thread through the enemy's body, dealing 100% damage to the attack.

2. Needle lead

Effect When will this war end! I will always wait for you ... The small sleeved hand manipulates the needle and thread to attack the enemy once, causing 100% of the damage, and then makes an additional attack on the selected enemy. Deals 100% damage.





Above, we have a brief look at the background of the story behind this work. I hope everyone can have some knowledge of this character's origami.

Next, let's meet the CP of the work!

Works in this issue 54--54

I hope everyone will prepare a large two-color paper, check the grid, and the line, and start polymerization with me!

First of all, the aggregation of this work is not difficult, but plastic surgery is more difficult. So please spend some time with me first.

As shown in the following figure, we first divide the area according to the red line.

After we have dealt with each part, let's compare the paper layer structure through the above three pictures.

Let's sort out the branches and prepare for shaping.

From the perspective of branches, we can roughly make a preliminary judgment on the basic process of plastic surgery.

Start with the easiest to shape, with two legs.

Did you succeed?

In order to be able to shoot continuously, each time I reshape is too fast, so some places may not wait for the glue to dry, but if you want to seriously reshape a work, my personal recommendation is to wait for five to ten minutes to process one place , The glue is completely dry, settle down and go down, come on, you can be sure, this work plastic surgery again thanks to the design and help of Ling Shen! Looking forward to more works of Lingshen!

Come on, origami gentlemen!
See you next time!
