Origami sharing series No.54 CP explanation of the 142nd chameleon

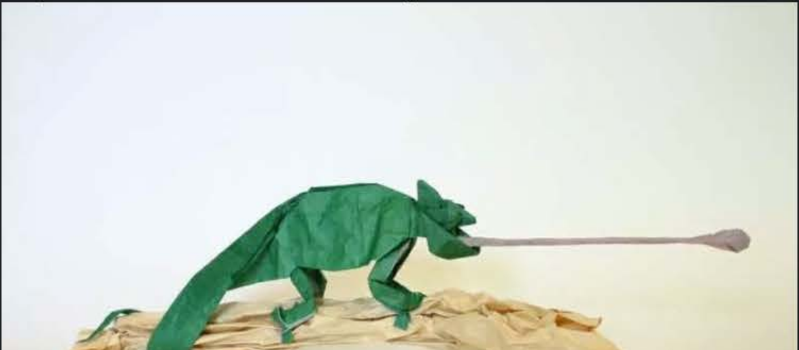
Original origami student Takayama CP origami opening root February 4

Hello everyone, welcome to CP Opening!

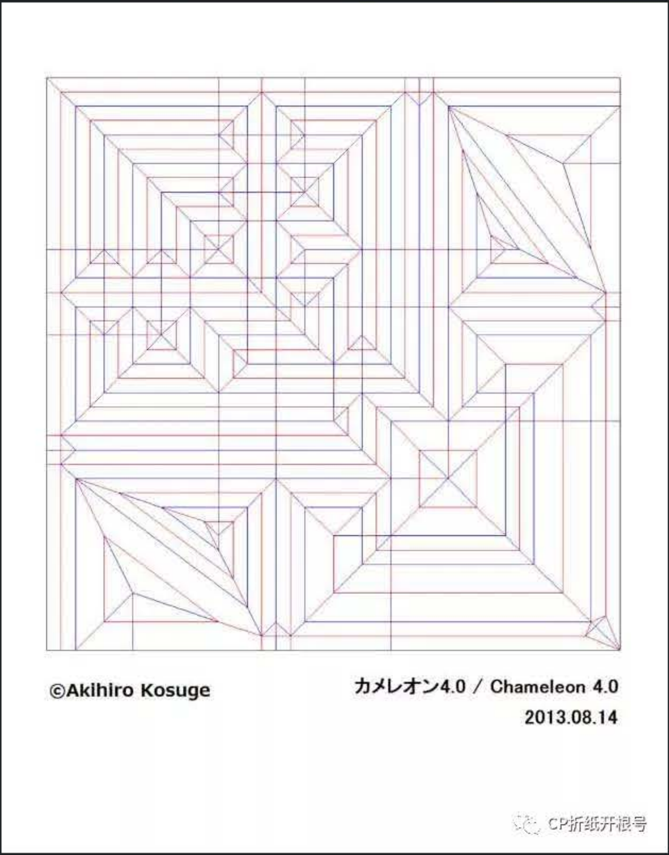
The works to be discussed in this issue have really been delayed for a long time, and now I have to talk about them, otherwise someone must take the pass! (The amount may have been closed already!)

Talk about this issue: chameleon. Chameleons (scientific name : Chamaeleonidae) (English : chameleon) commonly known as the chameleon , the lizard chameleon (scientific name: Chamaeleonidae) (English: chameleon), commonly known as Chameleon, Sauria (Sauria) chameleons Branch (Chamaeleontidae) reptiles, produced in the Eastern Hemisphere , Mainly arboreal. Characterized by the ability to discolor. Every 2 ~ 3 toes merge into two groups of opposite toes and terminal teeth, and the tongue is slender and stretchable. Anoles from the Iguanidae family are produced in the Western Hemisphere and are also known as fake refuges. There are two genera of true refuge: Brookesia (19 species) and refuge (Chamaeleo, 70 species). About half of them are found only in Madagascar, and most of them are found in sub-Saharan Africa. Two species are distributed in western Asia; one species is in southern India and Sri Lanka; the other (general refuge [Chamaeleo chamaeleon]) is distributed in the near east and west across North Africa and southern Spain. The chameleon in the tropical rain forest of Hara Island in northeast Madagascar has a total length of 29 mm from the tip of the nose to the tail. The length of the adult torso is only the size of a fingernail.

Alright, let's start with the text and knowledge.



CP折纸开根号



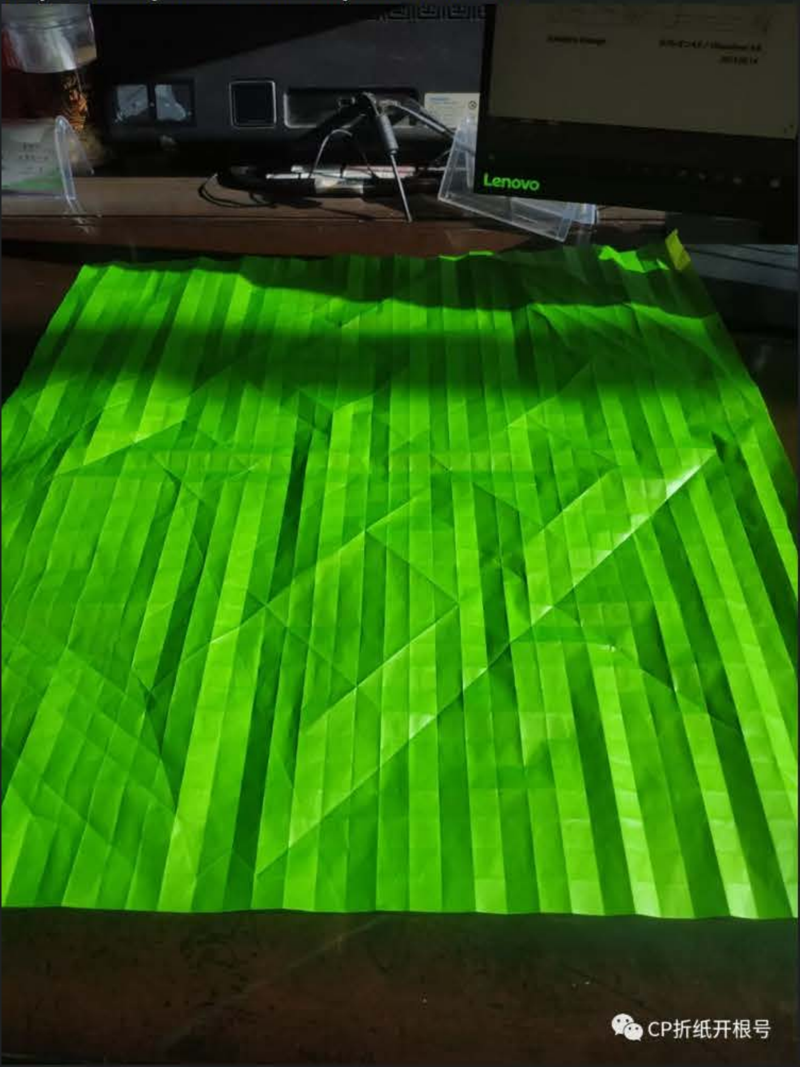
CP折纸开根号

Works in this issue 40--40 Square
In fact, this work is not difficult, but in the past, we have started to aggregate from the

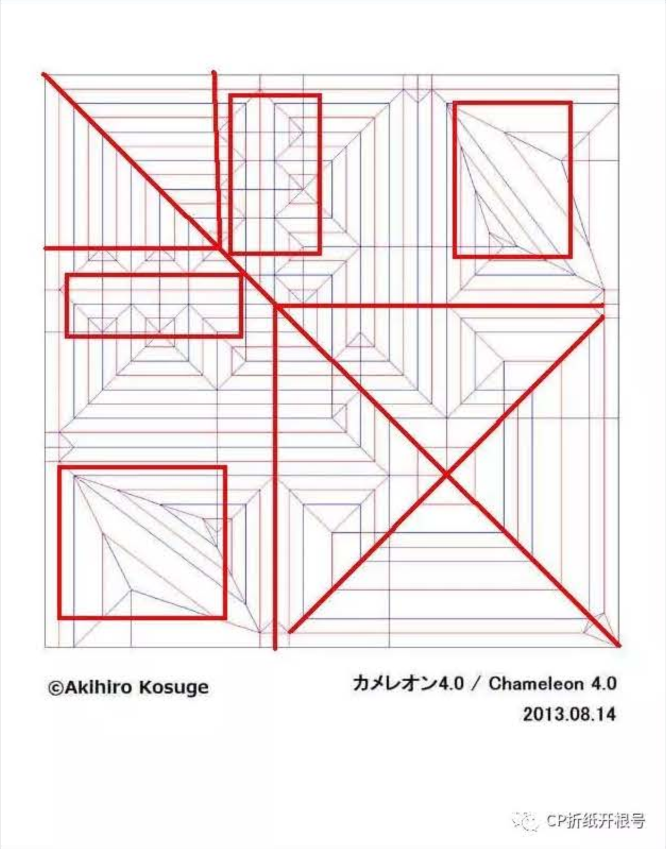
middle. But ,,,,

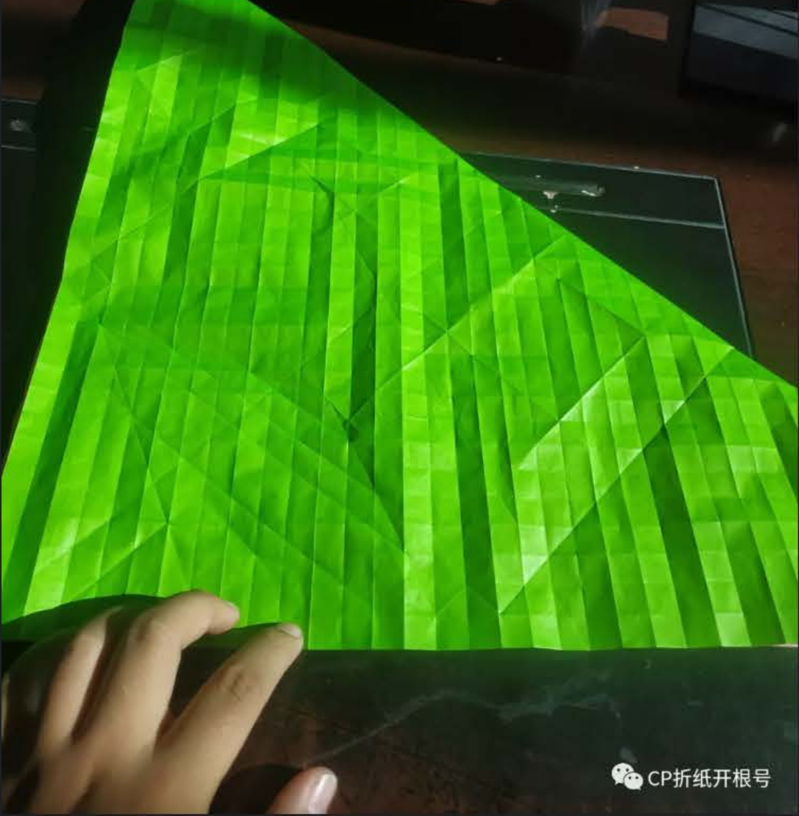
Let's have a gathering from the inside out today!

Everyone is ready to make a line and join hands with me!

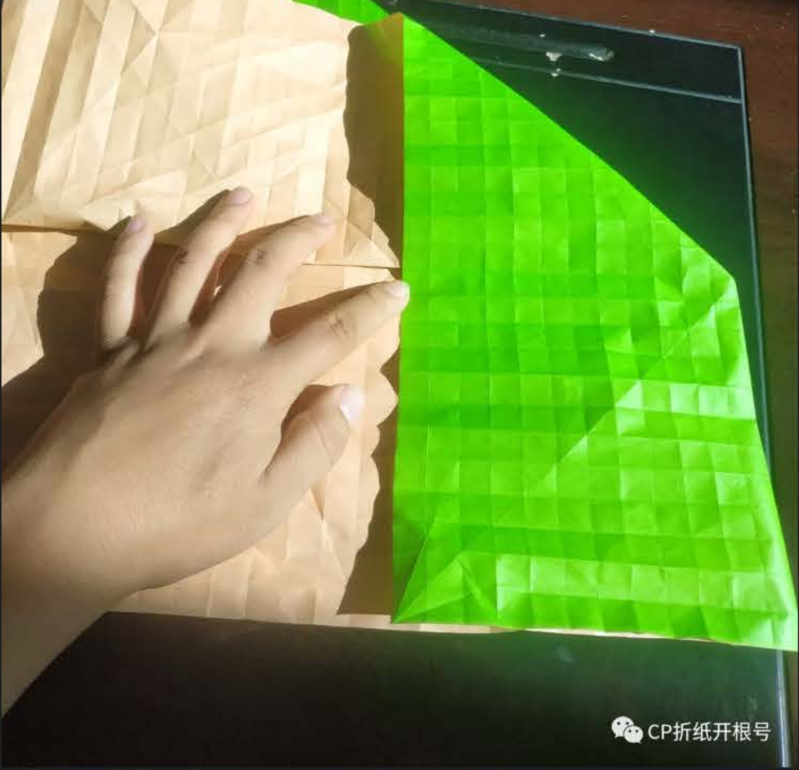


First, let's roughly make a simple partition for the following picture





CP折纸开根号



CP折纸开根号

From one side, let's get together officially!

Let's start from the upper left corner, let's add some fuel!

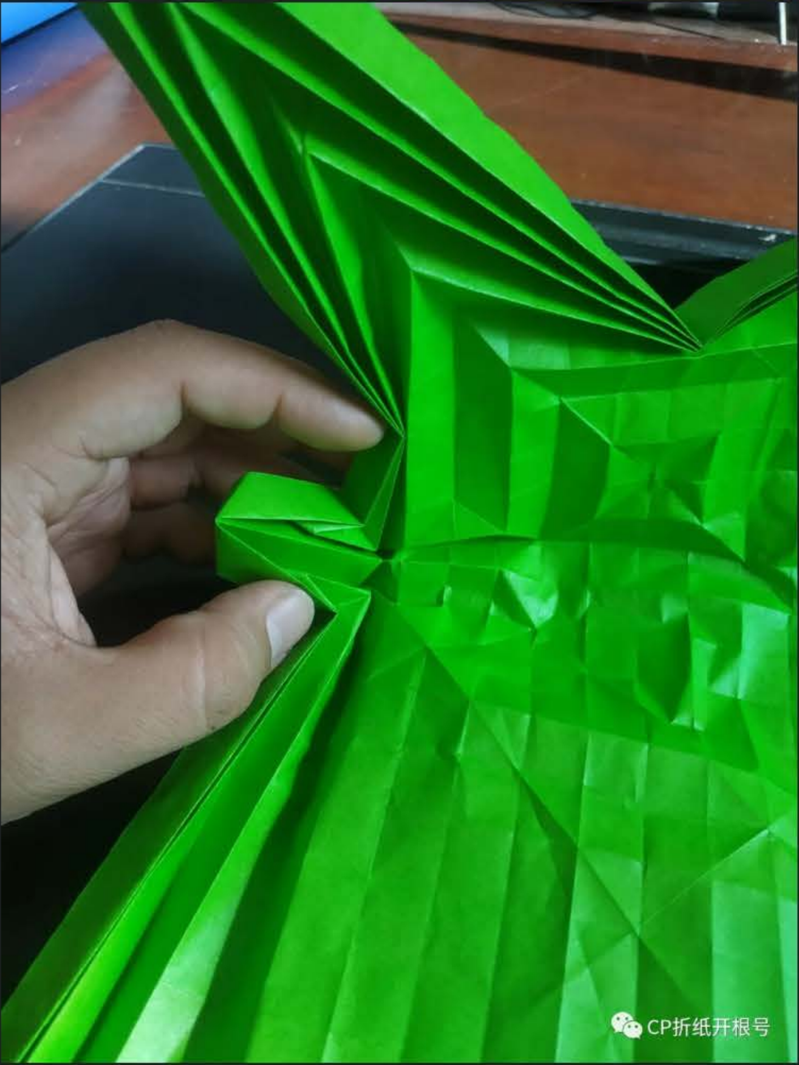
CP折纸开根号

CP折纸开根号

CP折纸开根号

CP折纸开根号

CP折纸开根号



CP折纸开根号

Next, we will start to converge from this corner to both sides. Let's converge from the outside to the inside!

CP折纸开根号

CP折纸开根号

CP折纸开根号

CP折纸开根号

CP折纸开根号

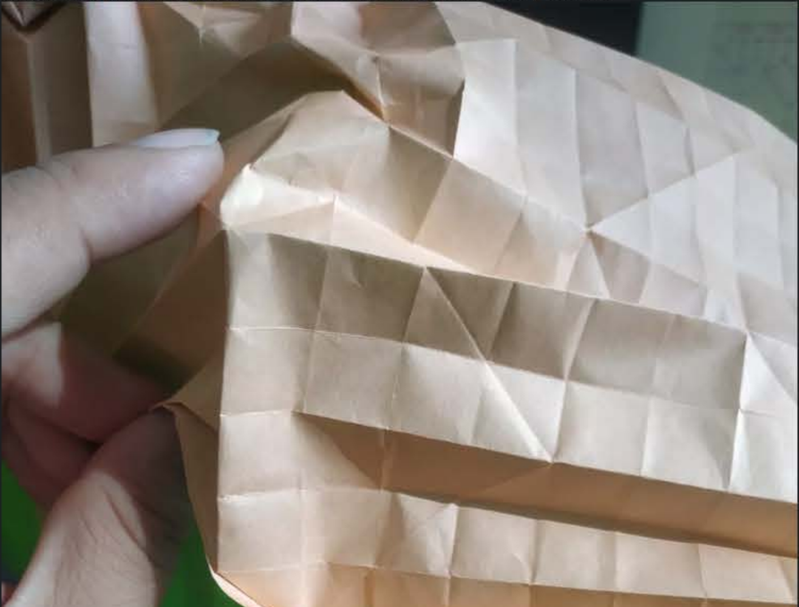
CP折纸开根号

CP折纸开根号

CP折纸开根号

CP折纸开根号

According to CP, we aggregate these two small parts from the back. Usually, there are many valley lines connected on the front. We can basically do this.



CP折纸开根号

CP折纸开根号

Back to a positive perspective

CP折纸开根号

CP折纸开根号

Now we can aggregate the other three corners, and finally deal with the center.

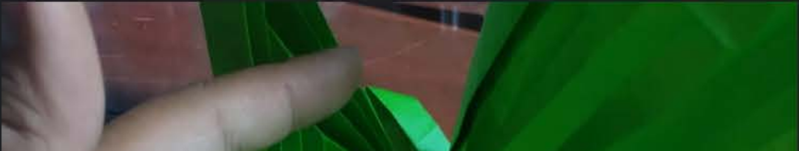
CP折纸开根号

CP折纸开根号

CP折纸开根号

CP折纸开根号



CP折纸开根号

CP折纸开根号

CP折纸开根号

There are many collaborative aggregations here, and everyone also takes this opportunity to practice this multi-paper layer and several directions of cooperative operations.

CP折纸开根号

CP折纸开根号

CP折纸开根号

CP折纸开根号

Here we also have to deal with the details of the corners that have been aggregated by the way.

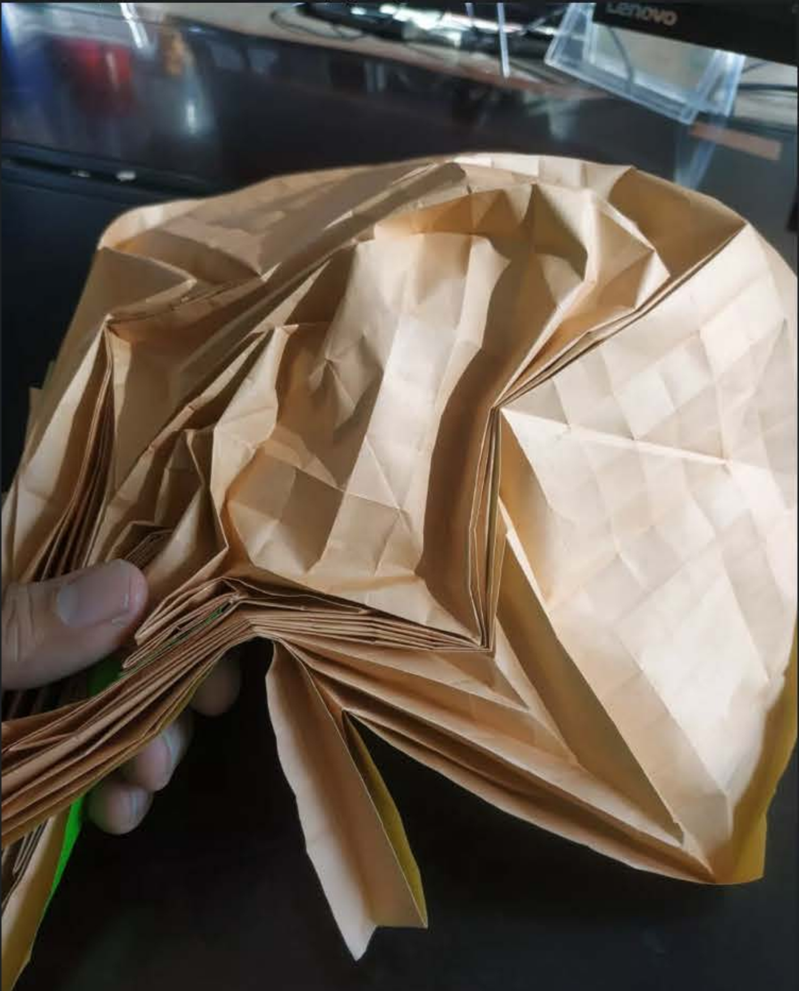
CP折纸开根号

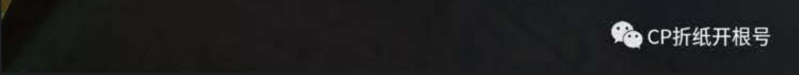
CP折纸开根号

CP折纸开根号

CP折纸开根号

Next we flip to the back to see the paper layer.

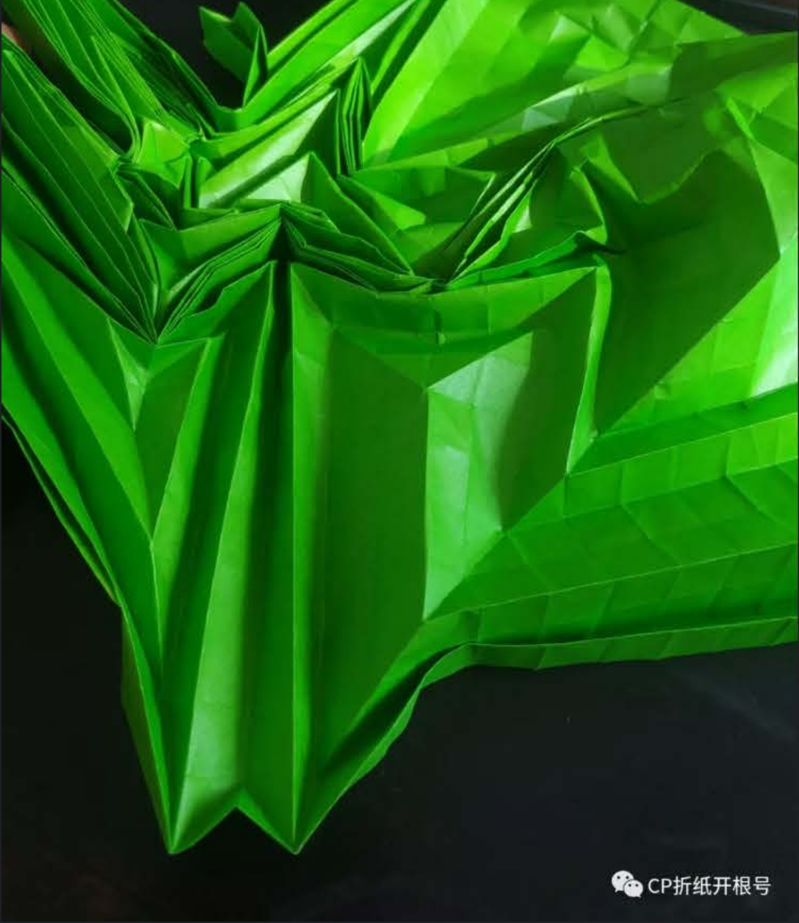




CP折纸开根号

CP折纸开根号

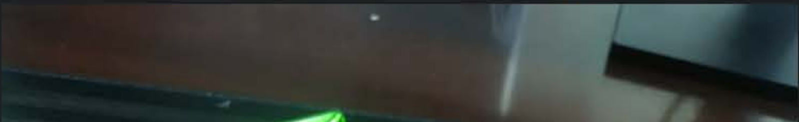
CP折纸开根号

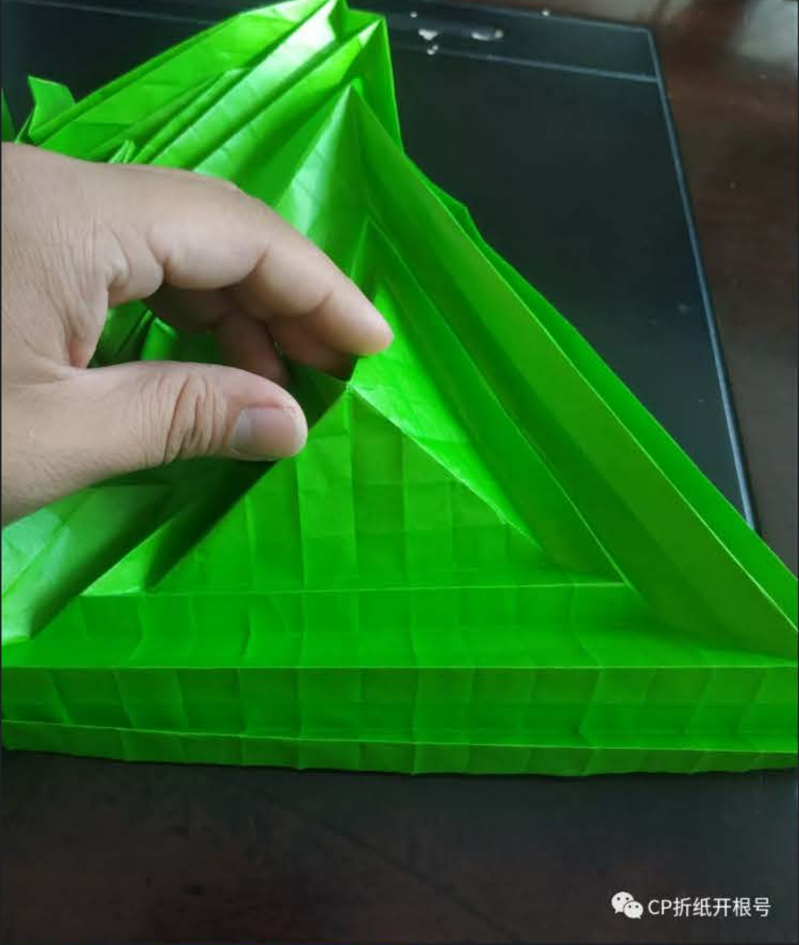


CP折纸开根号

Below is the lower right corner, which is also the most important fourth corner.

CP折纸开根号





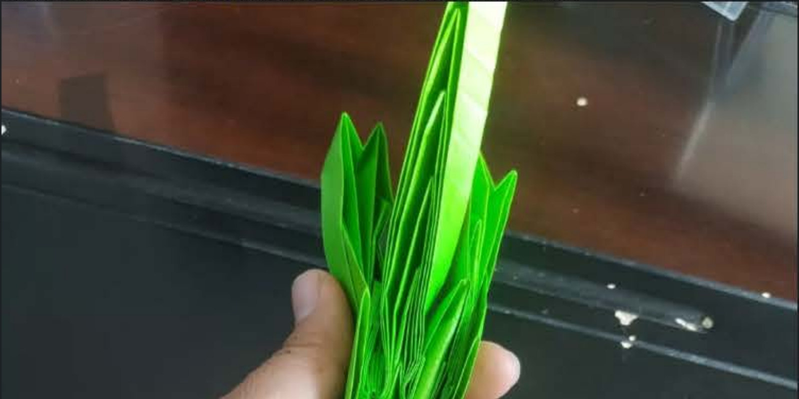
CP折纸开根号

CP折纸开根号

CP折纸开根号

CP折纸开根号

The last corner is basically a setback with the other two corners, which is relatively easy here, but the stack of paper layers should be paid attention to.



CP折纸开根号

CP折纸开根号

Although it is a bit thick, it is recommended that you do not use too thin paper.

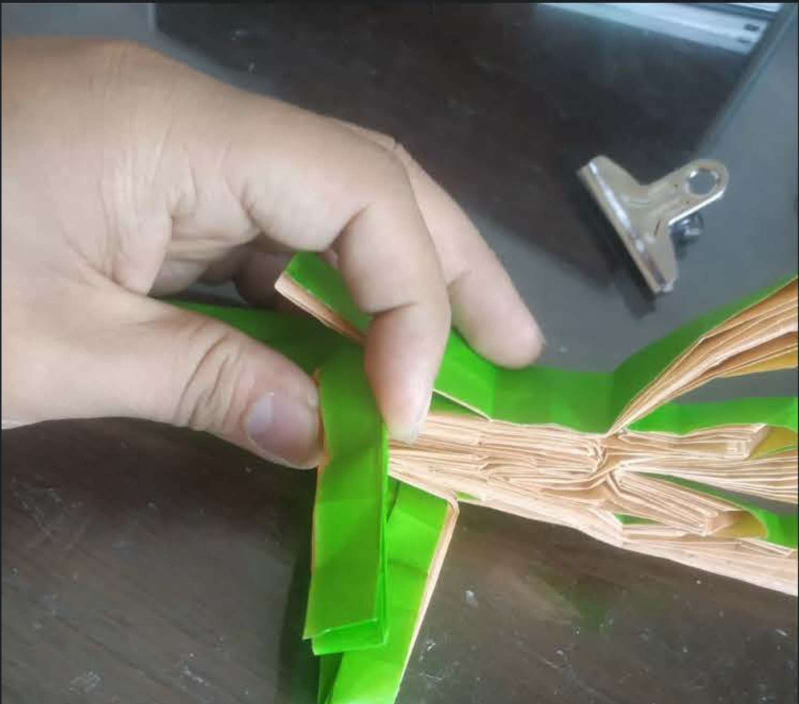
CP折纸开根号

CP折纸开根号

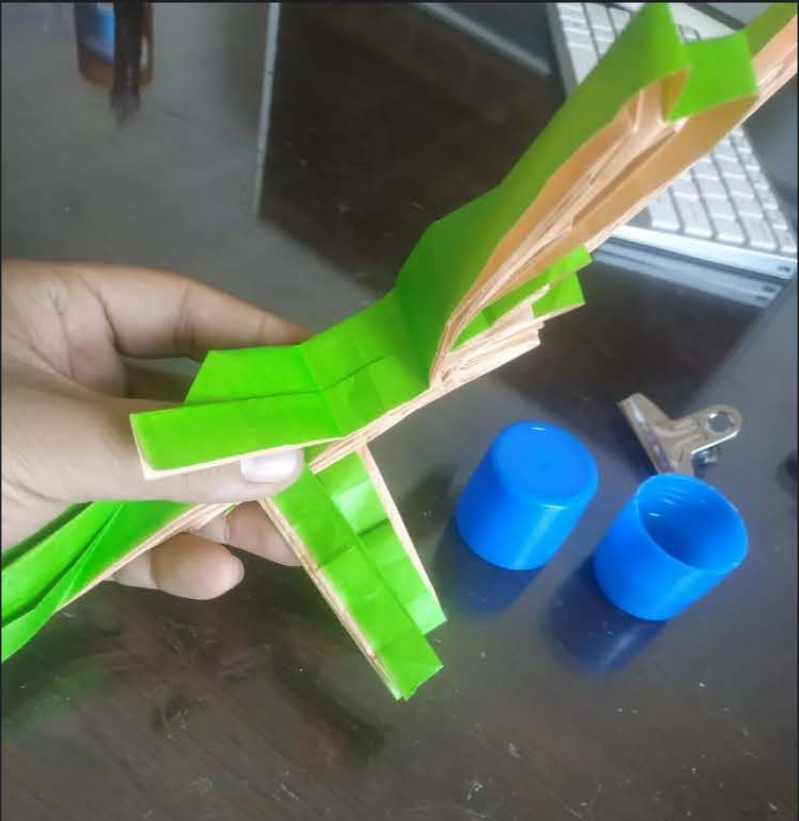
Now we sort out the branches and prepare for plastic surgery!

CP折纸开根号

CP折纸开根号



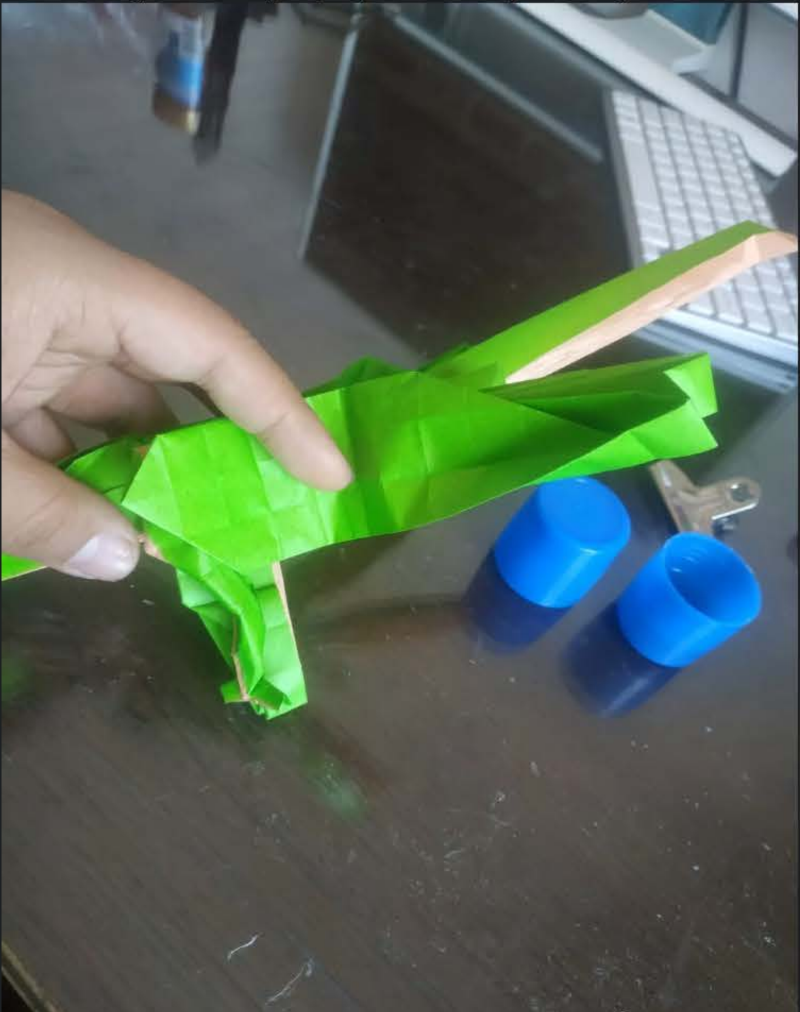
CP折纸开根号



CP折纸开根号

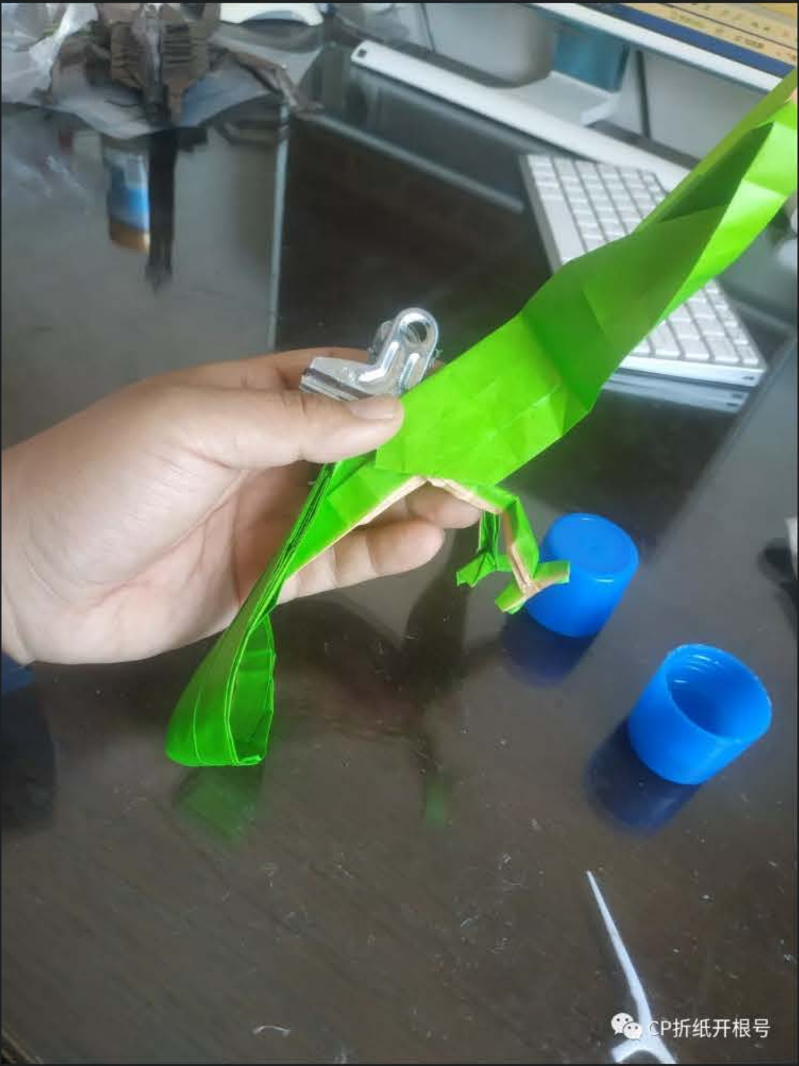
CP折纸开根号

Needless to say where the legs are, maybe the most important thing is the head!



CP折纸开根号

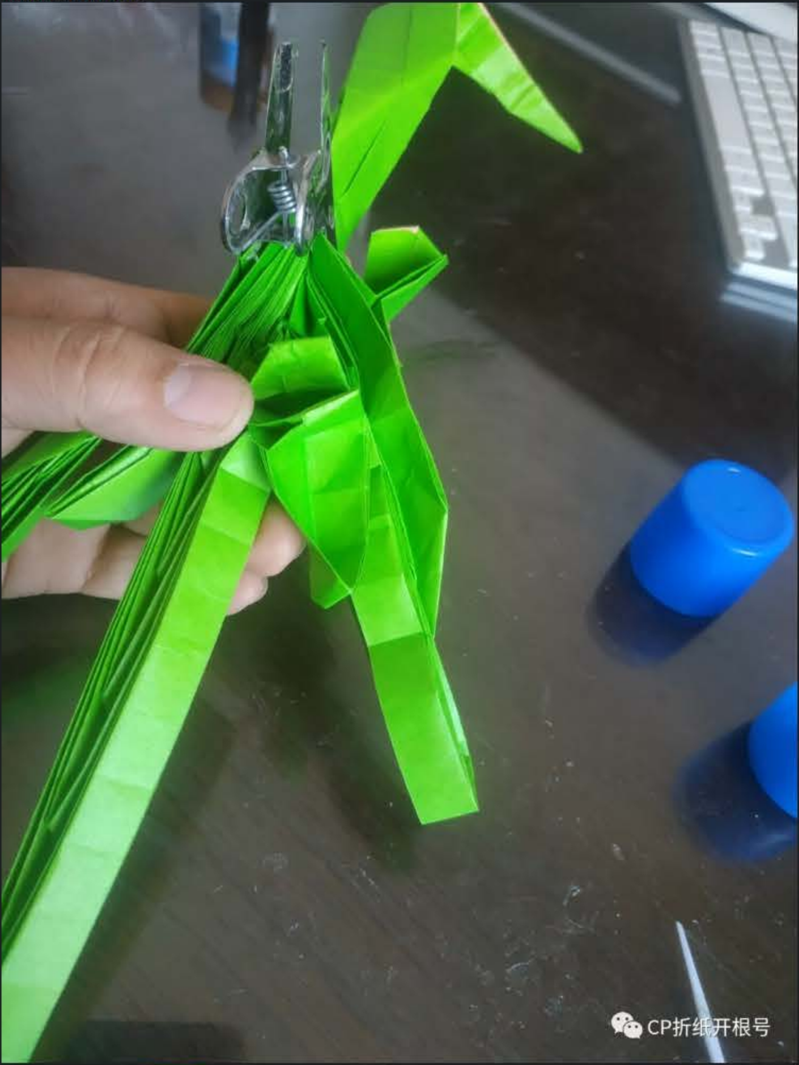
CP折纸开根号



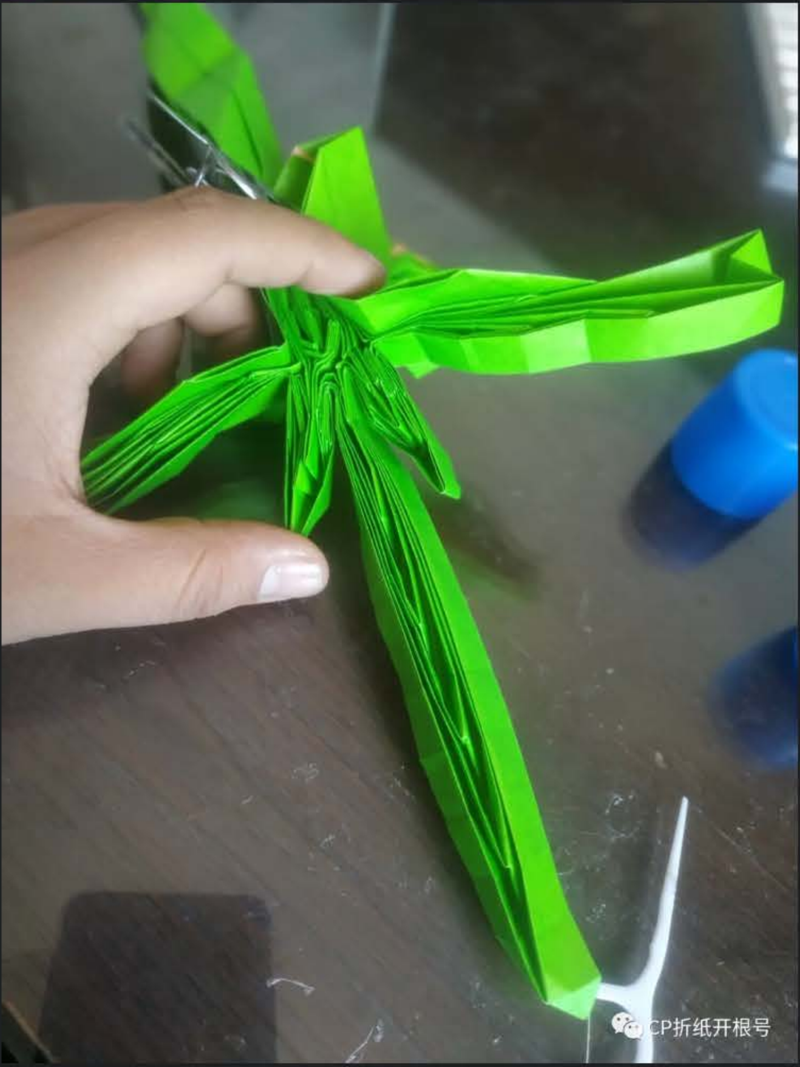
Here we pull a branch out of the paper layer and then shape it.

CP折纸开根号

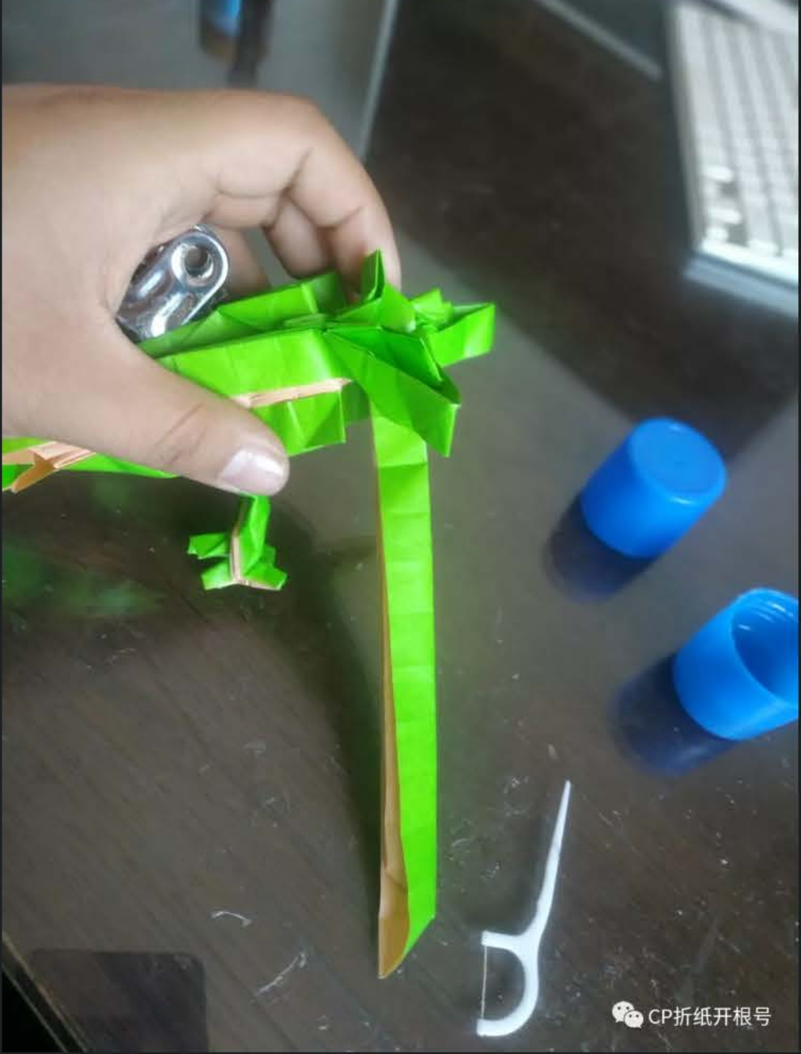
Adjust position



CP折纸开根号



The branches on the inside of the two small pieces are drawn at a small angle.



CP折纸开根号

Here everyone notice that the head is composed of two pieces on both sides, which can also be said to be inserted together. Such a folding method is handled like this in many animals, such as Kato Nanyu

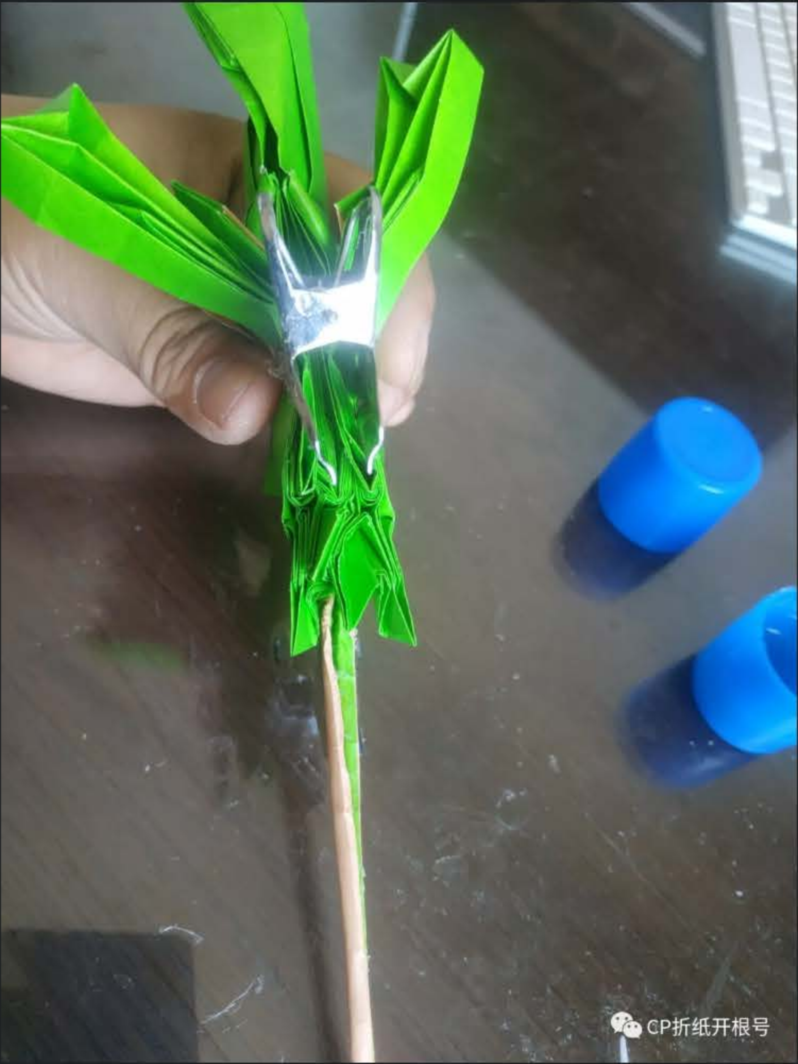
CP折纸开根号

CP折纸开根号

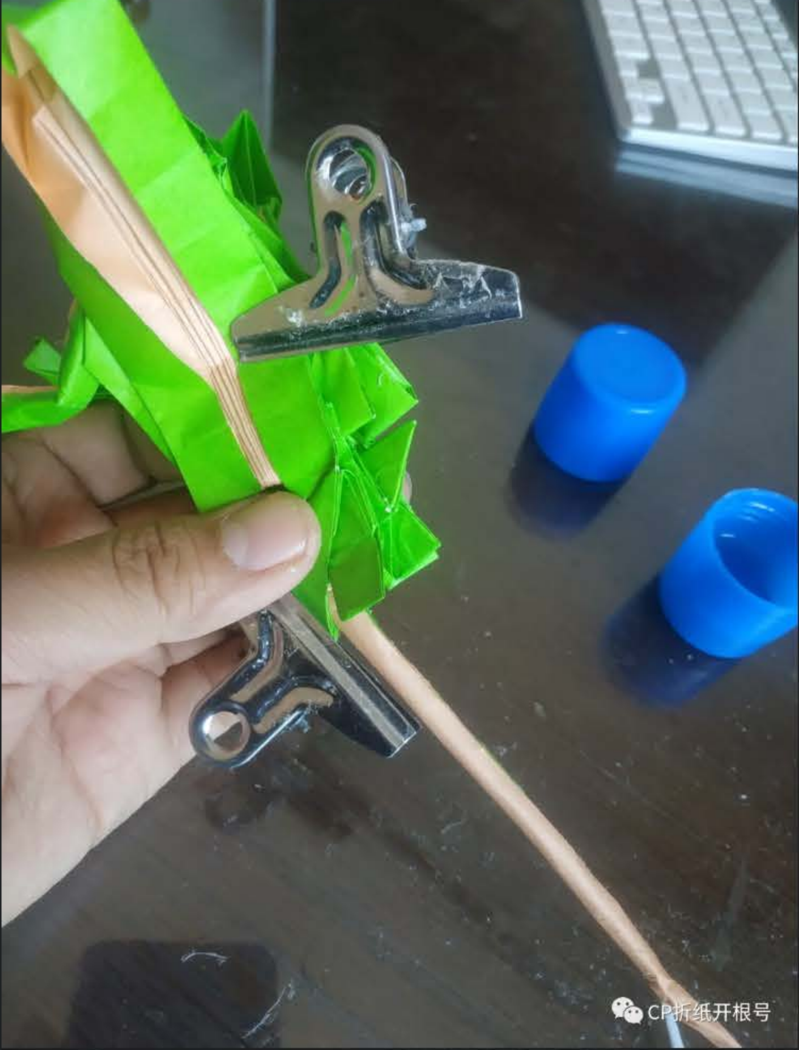
CP折纸开根号

CP折纸开根号

CP折纸开根号



CP折纸开根号



CP折纸开根号

CP折纸开根号

CP折纸开根号

CP折纸开根号

I will put it on the dead trunk of my house when I wait for the glue to dry. Where will you put it?

Okay, that 's it. The plastic surgery is a bit quick. It 's been shared for 30 minutes. Do n't wait for the glue to dry. Do n't be like me!

Come on, origami gentlemen!
See you next time!
