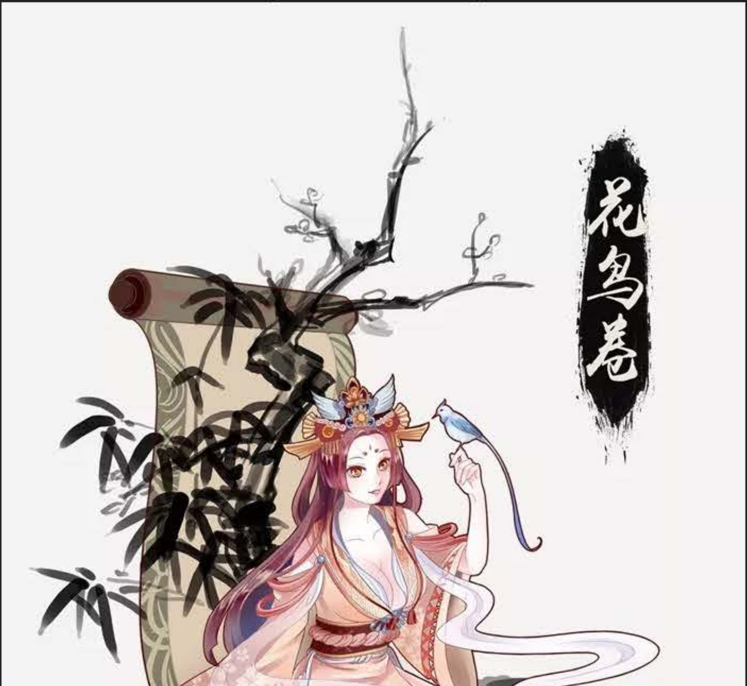
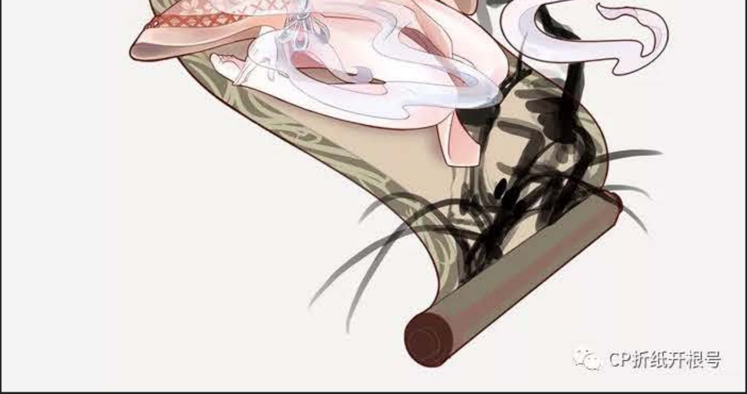
Interactive Origami No.17 Interpretation of CP

Original Origami Student Takayama **CP Origami Opening Number** 2018-09-19

Hi everyone, welcome to CP Opening!
Before, many netizens personally wrote that I wanted to fold this character origami. Recently, I finally have time to do an issue. First of all, I would like to pay tribute to the spirit.

Before introducing CP, let 's talk about this issue:
Flower Bird Roll is one of the SSR-level gods in the 3D Japanese-style Japanese-style turn-based RPG mobile game "Yin and Yang Master" developed by NetEase.
Flowers and birds roll, according to legend, was painted by a talented artist. When he painted it, he devoted his whole life. After the painting was finished, he stayed in the study every day and accompanied the painting. But the scroll was not a living thing, and the girl could not respond to the painter. He felt resentful and died. Finally, the scroll has aura and becomes a living creature. He had long since fallen into dust.





Next, let's get to know this CP

CP 40 equally divided

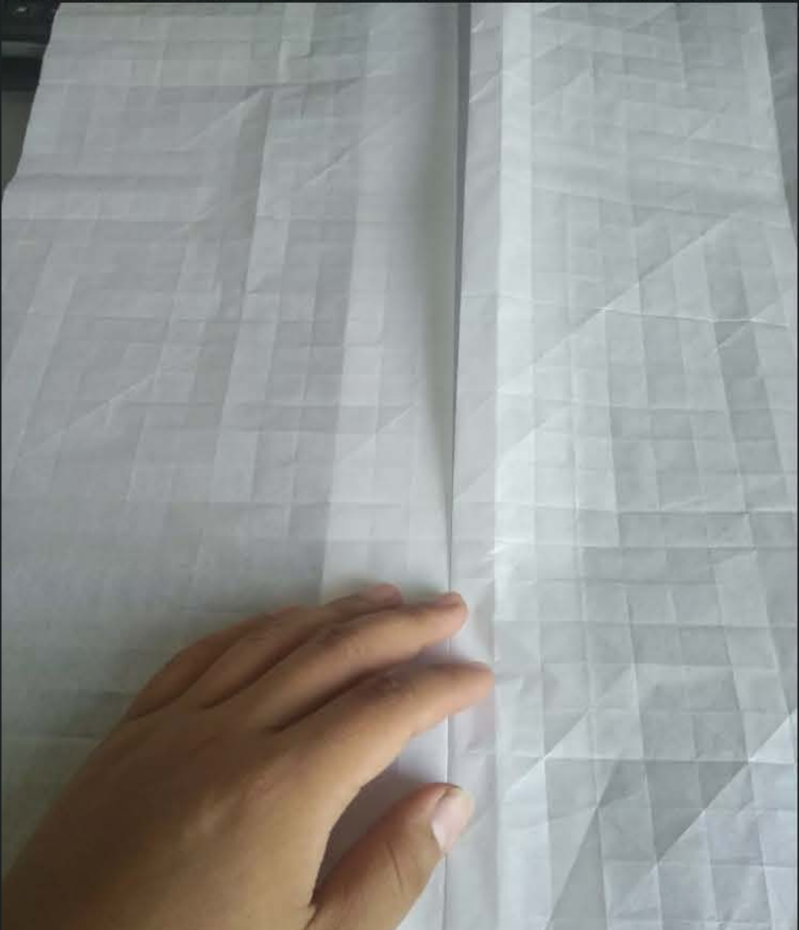
The first step is to fold from both sides to the middle according to the figure above.



Fold the horizontal section once, as shown below

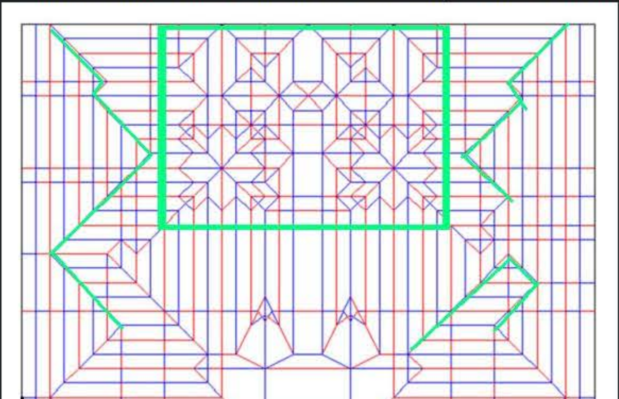
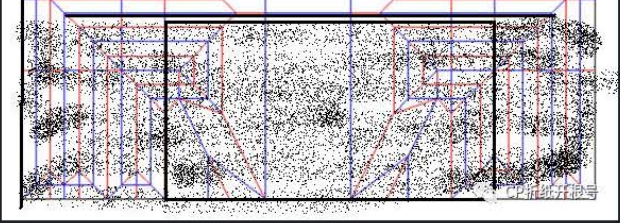
As shown below, we deal with the black shaded parts in the following figure





CP折纸开根号

As shown in the figure below, after pulling the segment folds apart, the black lines are aggregated.

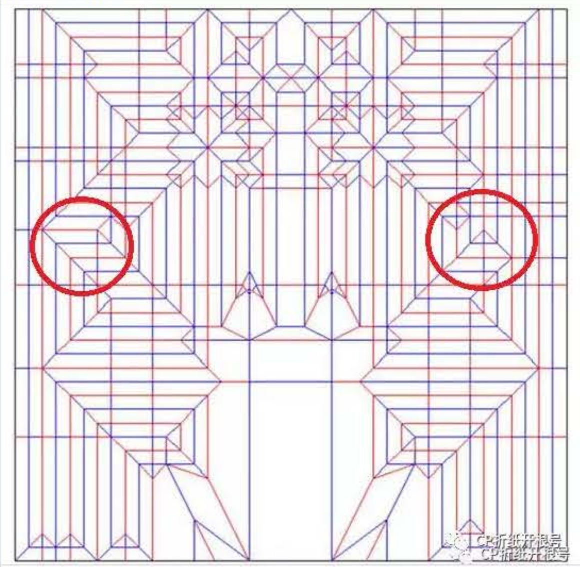
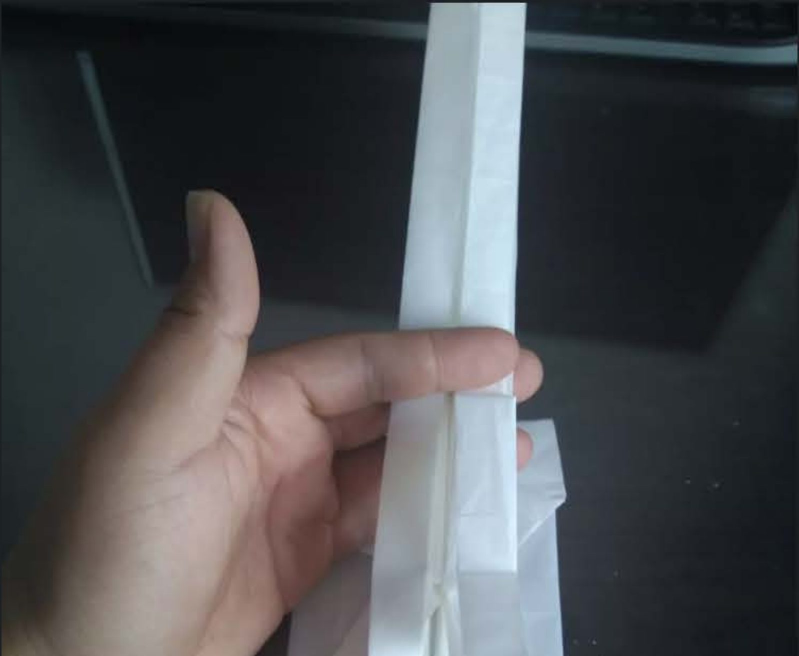
It is still pulled first and then aggregated, but pay attention to the aggregation, and then down.

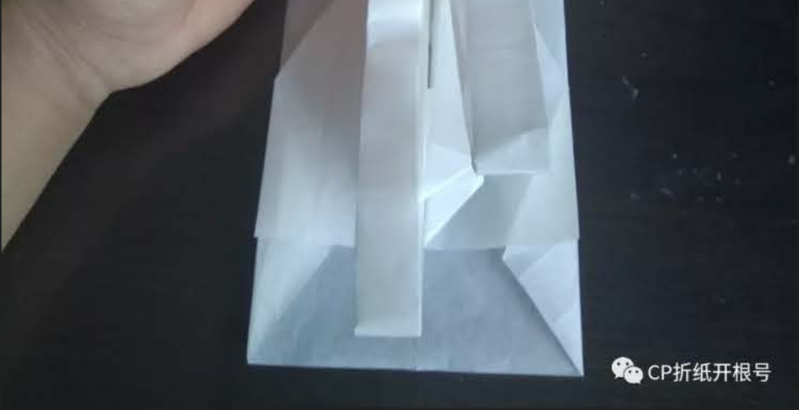
The picture above is different



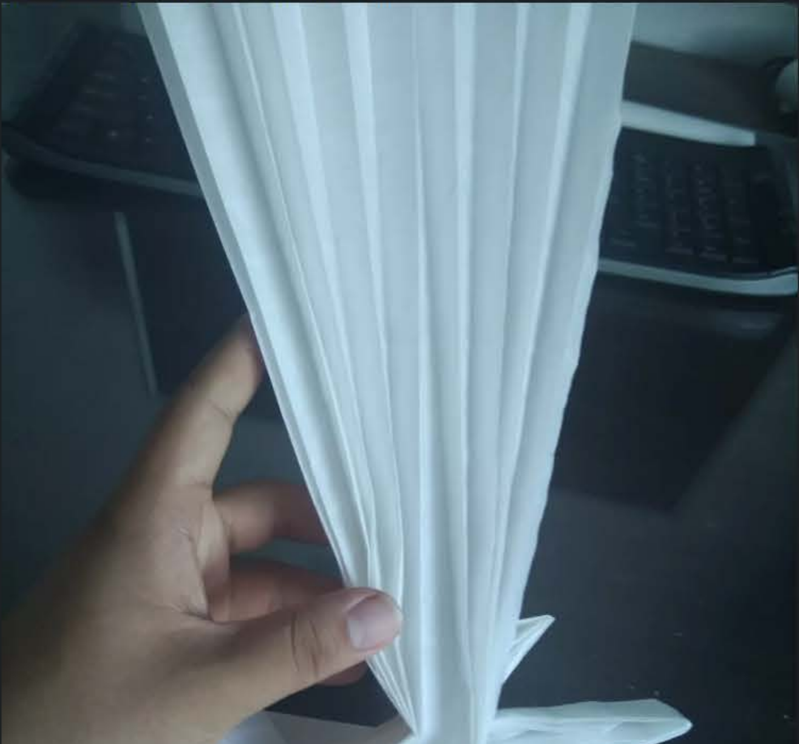
CP折纸开根号

It is because of this difference that the following figure has two branches, one long and one short.





Below we start to aggregate the upper part



At the same time, the red lines on the two sides of the aggregation must pay attention to the middle folds.
