Origami Interactive Series No.52 Kobayashi's Dog

Original origami student Takayama CP origami opening root February 3

Hello everyone, welcome to CP Opening!

Today we are talking about two basic sketches of origami. The original author is still Mr. Kobayashi. Since he is still working from home, he has a lot of time.

There are still two works without plastic surgery in this issue. I hope you can handle it yourself. To be honest, I think the first dog can basically be made, and the second one is ,,,,,

Let 's take a look at this dog that has better plastic surgery!
Recommended paper black and white color 30 cm or less, about one and a half hours

This work is equally divided into five plus two roots square
It is recommended that people without mathematical foundation can make such a line
A rectangle --- the wide side is 8 equals to one eighth (or nine equals to one ninth) and then the 22.5 degree line to get one plus the root number two, in order to get 1, / 2, 1 ,

/ 2, 1, 1, 1, 1 The remaining small side is cut out.

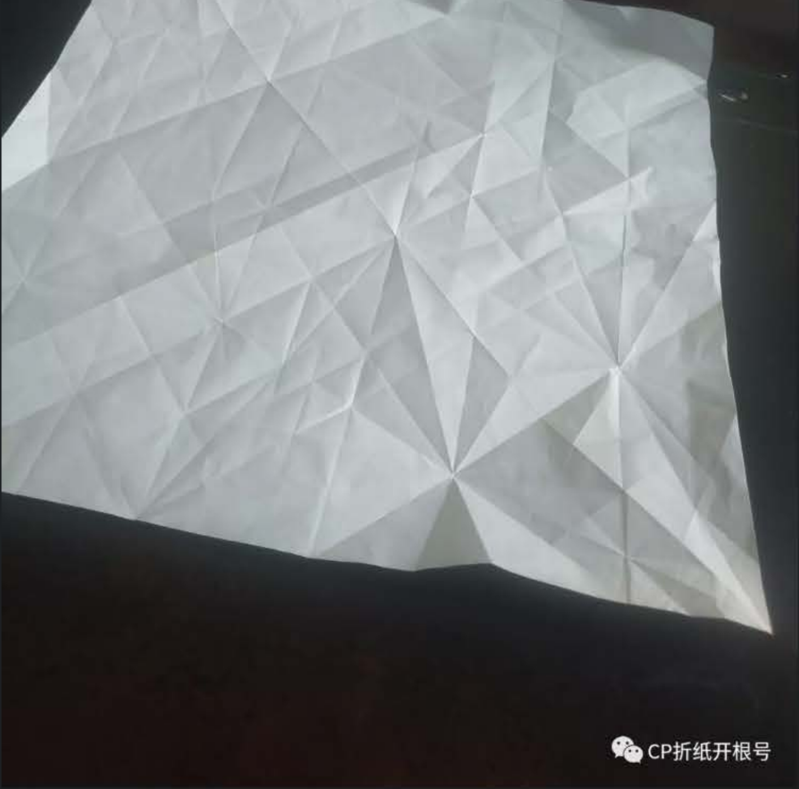
Everyone may spend 20 to 30 minutes to make a line. Let ‘s get together together!



CP折纸开根号

As shown in the following figure, we start with black, but we need to make details in the red area by the way.

CP折纸开根号

Fold the lower part in half, and then concentrate on organizing your head and neck. There are many short lines here. You should pay attention to the peaks and valleys.
