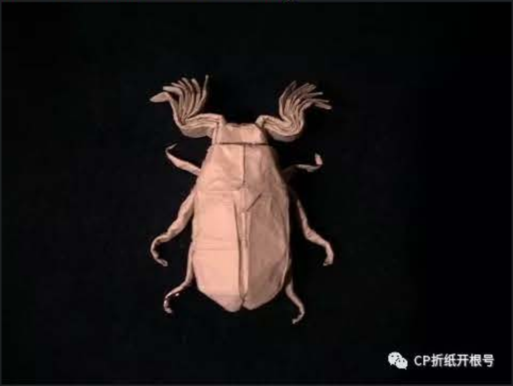
Origami Sharing Series No 07 Total Thirty-second Insect CP

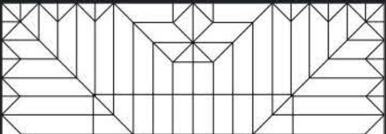
Origami students Takayama CP origami opening number 2018-05-05

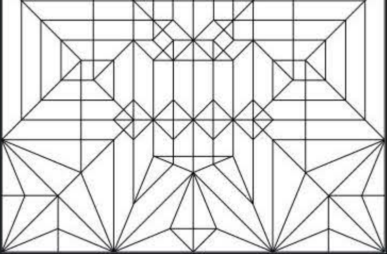
Today, let's nostalgic, make an early and early drawing, I believe people with age will know this drawing!
I don't really know the originals, but this is a collection I collected at Snake Cave when I was just learning CP.

In the next series, I will make origami of categories according to my plan, and at the same time save some drawings that everyone may soon forget, nostalgic with the "old" and "early adopters" with the "new"

Let's take a look at this drawing!







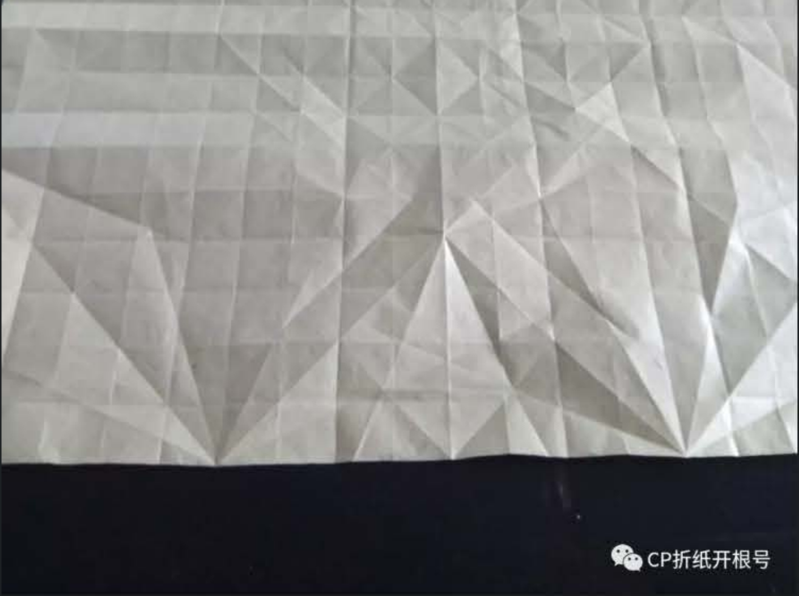
This is a very simple Cp, but in the end plastic surgery requires everyone to work hard.
In the first step, everyone divides the paper into five equal parts, and then divides them into 20 equal parts.

Features of this issue

Let's wire together, come with me!

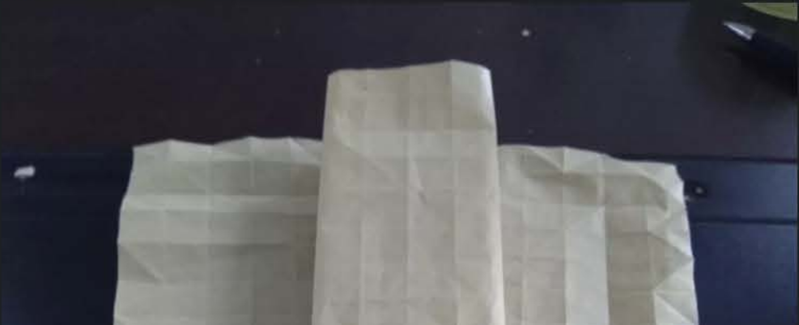
This has always been said in the past, first hit the line, then unfold the paper and press lightly!

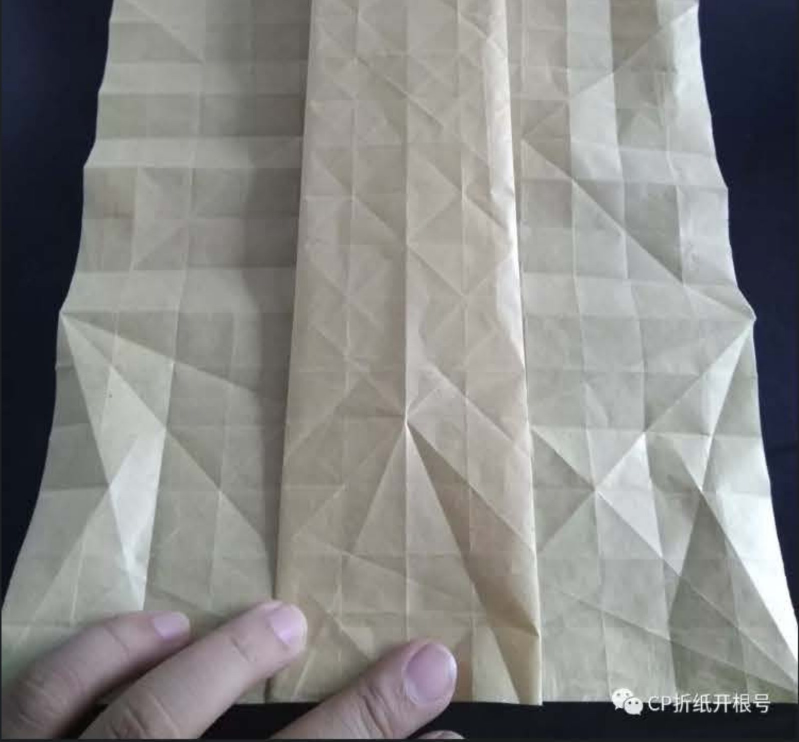
Ready to aggregate



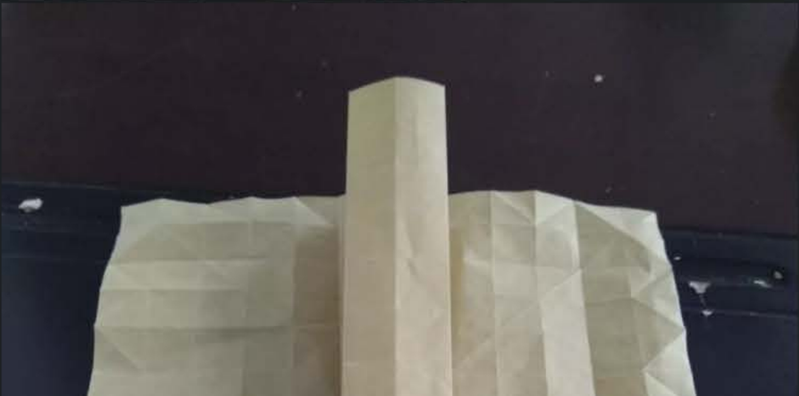
CP折纸开根号

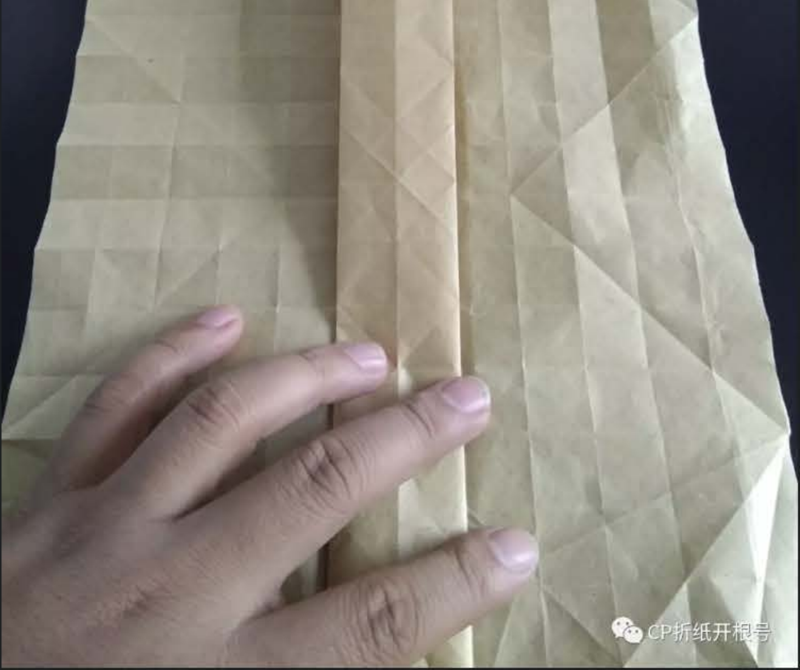
Still starting from the center axis, this time we take two squares to start, and one square after the peak and valley, in order to match the 45-degree and 22.5-degree angles below





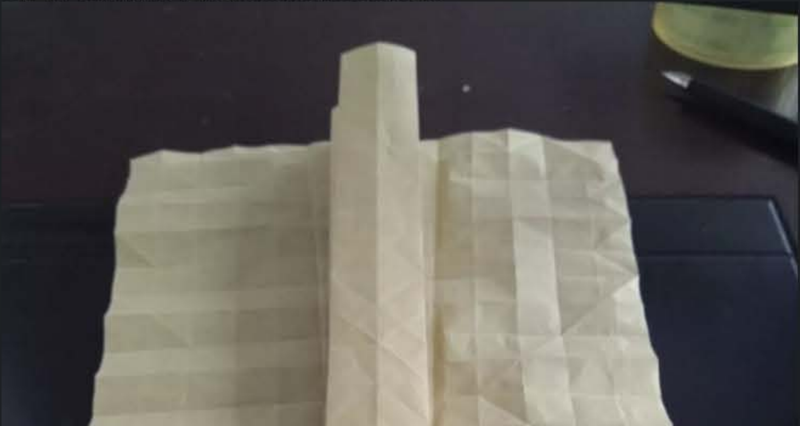
CP折纸开根号

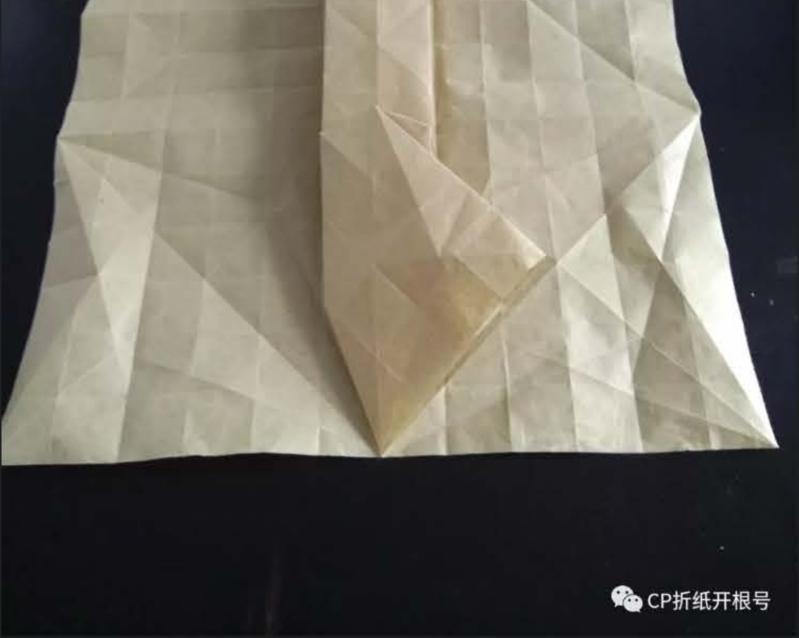




CP折纸开根号

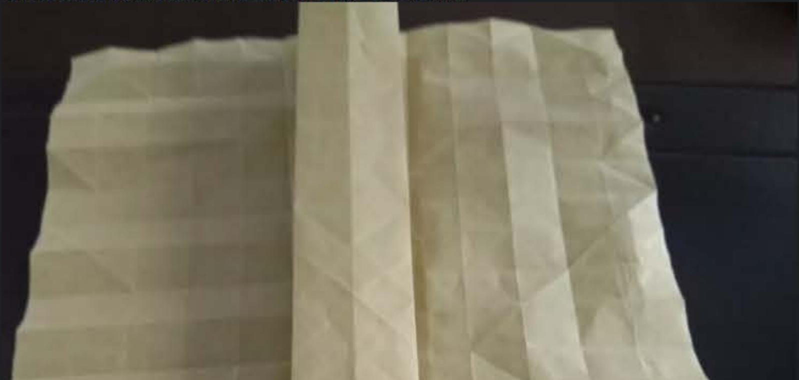
Pull up 45 degrees below, then fold the sides in

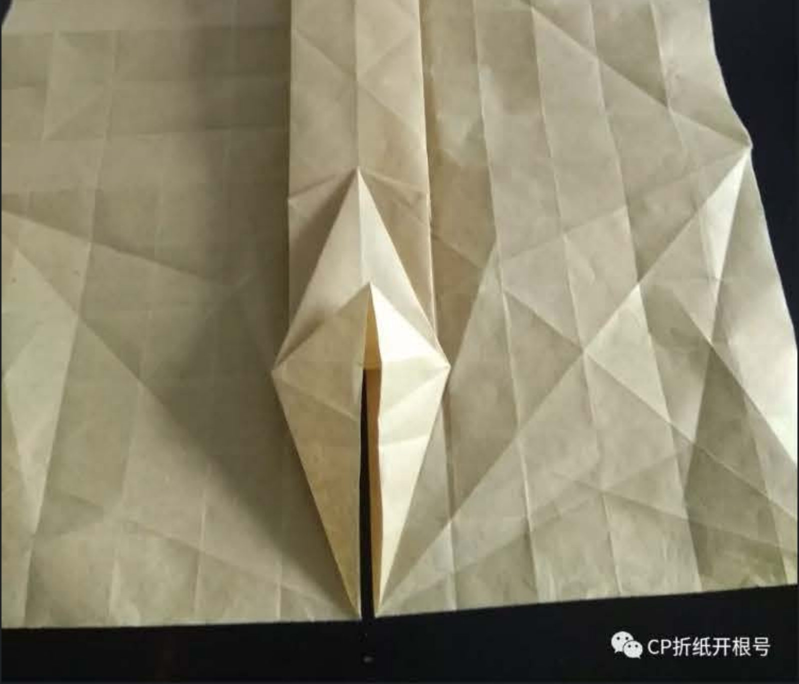




CP折纸开根号

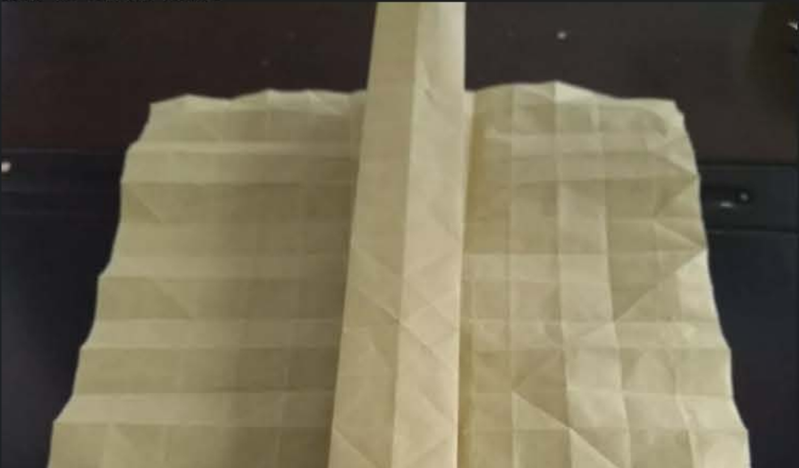
The following figure makes a crane-type basic type

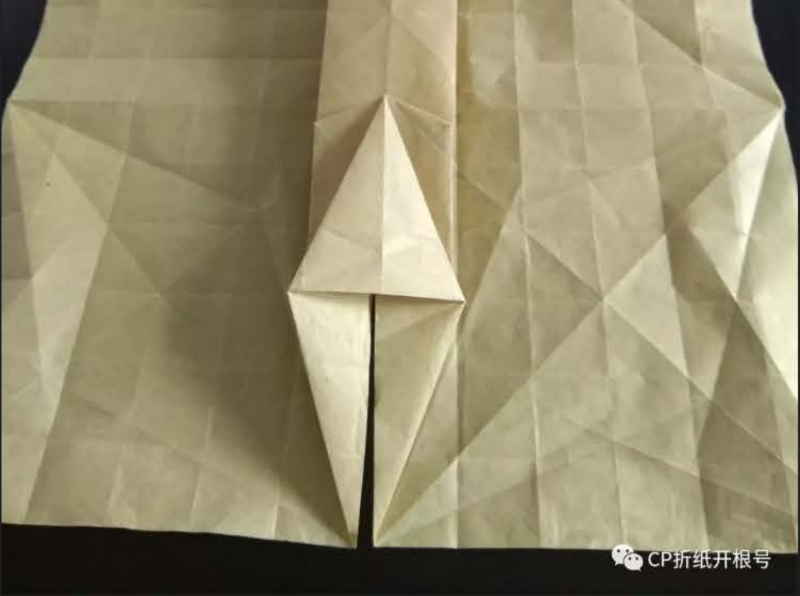




CP折纸开根号

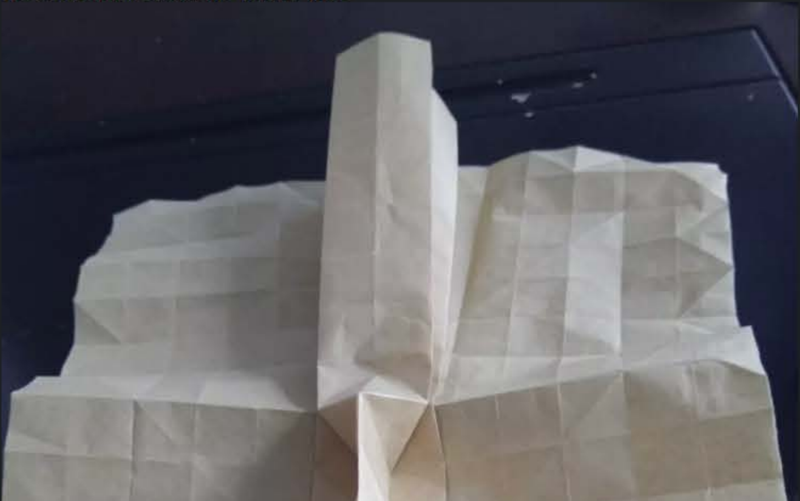
Stuff the outside corner

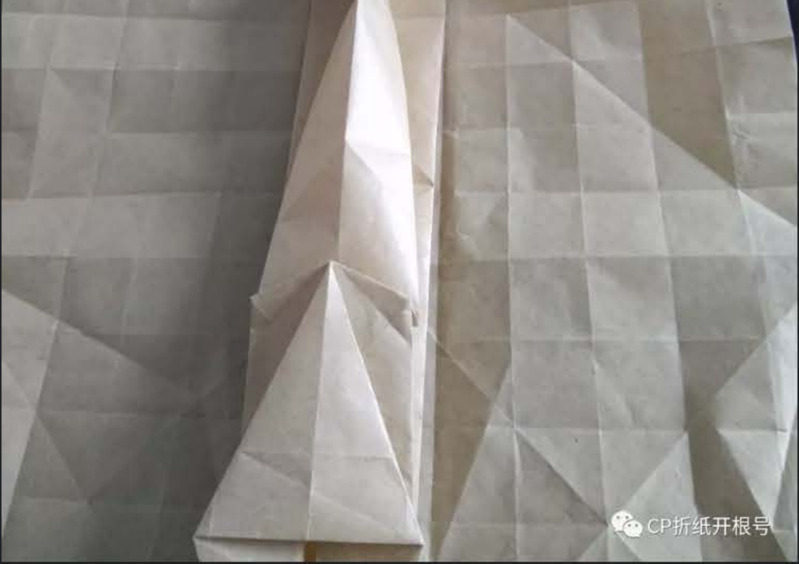




CP折纸开根号

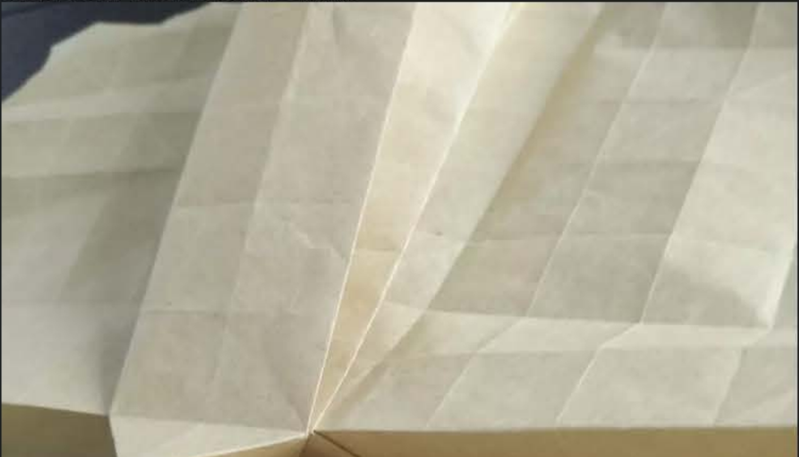
Let's start processing the middle part



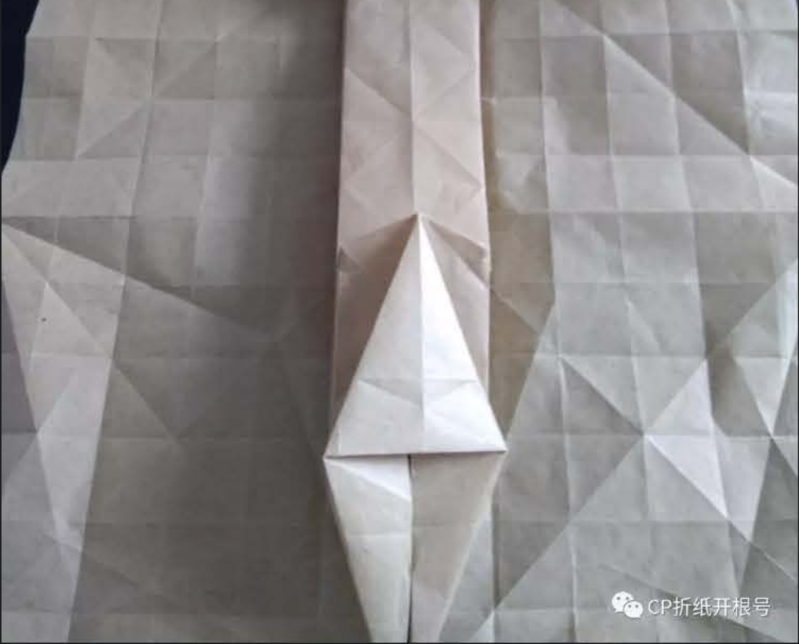


CP折纸开根号

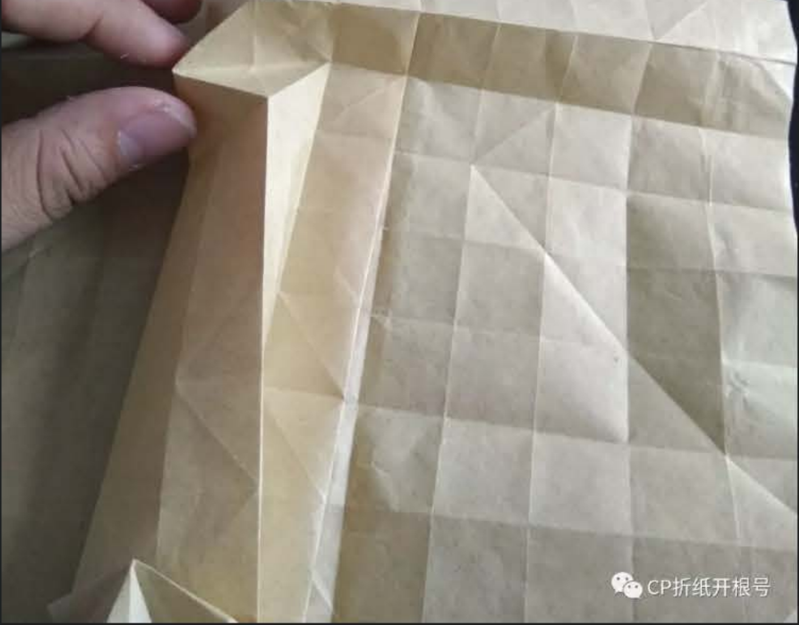
Lateral break with small square change



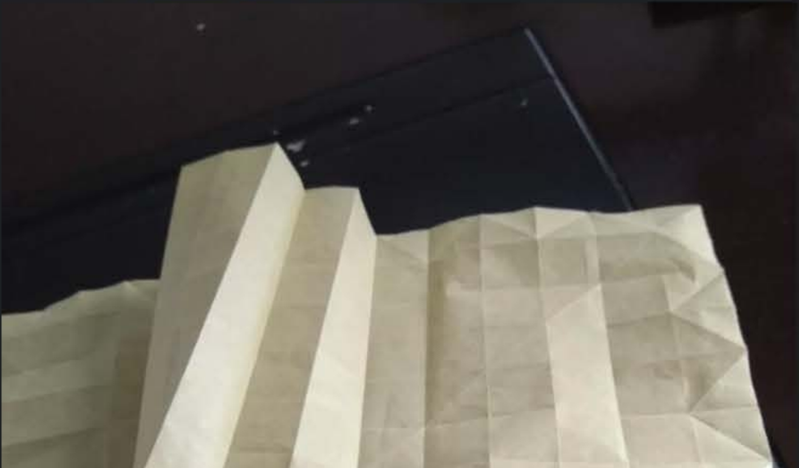
CP折纸开根号



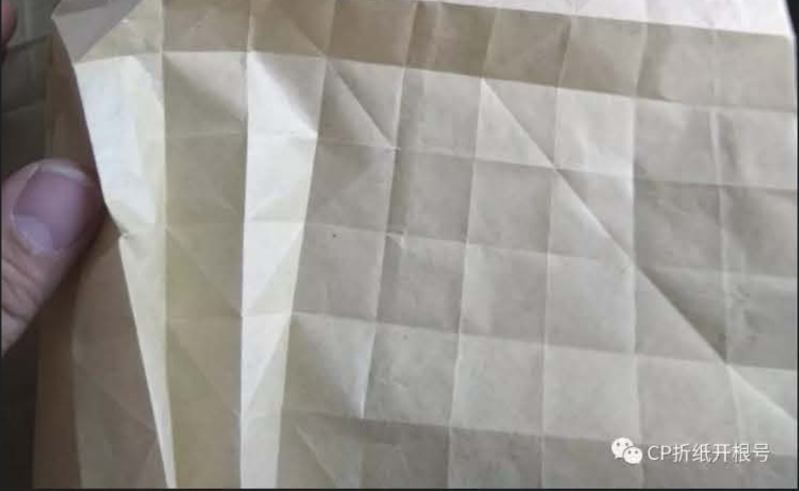
CP折纸开根号



CP折纸开根号

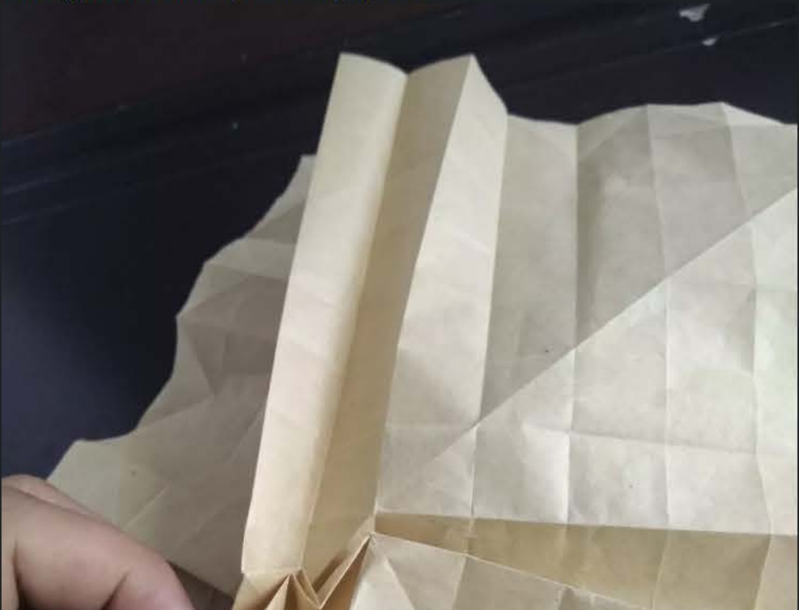


CP折纸开根号



CP折纸开根号

Here we will fold out the common peaks and valleys according to CP, mainly to adjust the staggered relationship between graphics.



CP折纸开根号

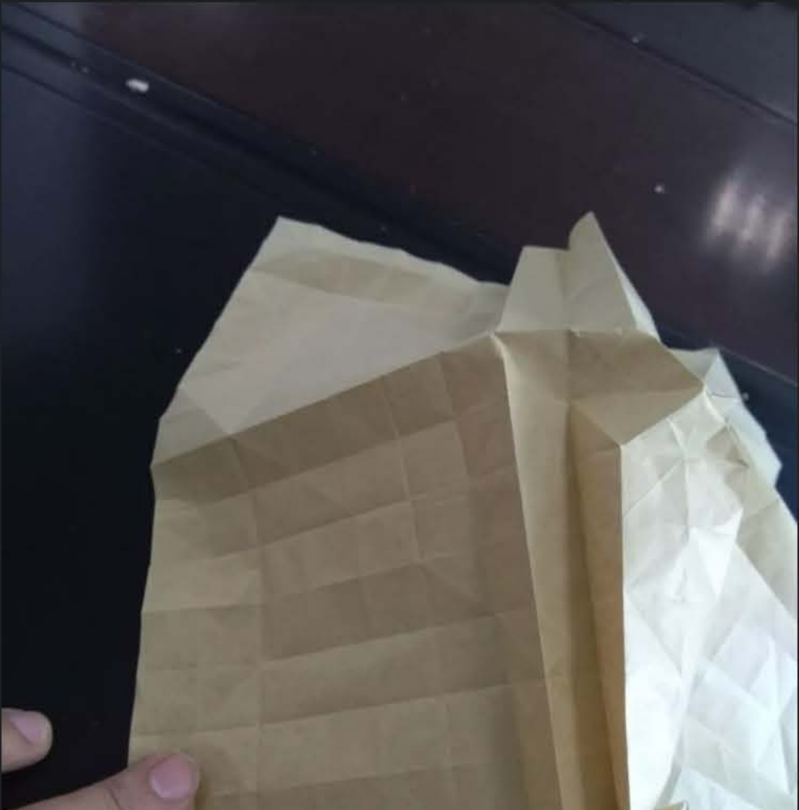
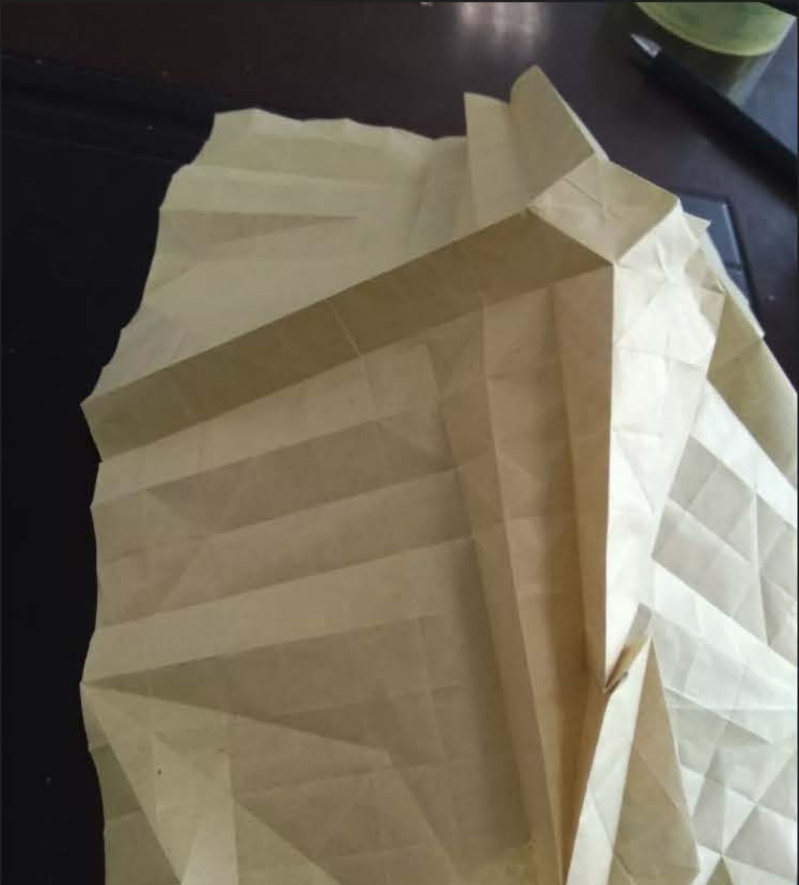
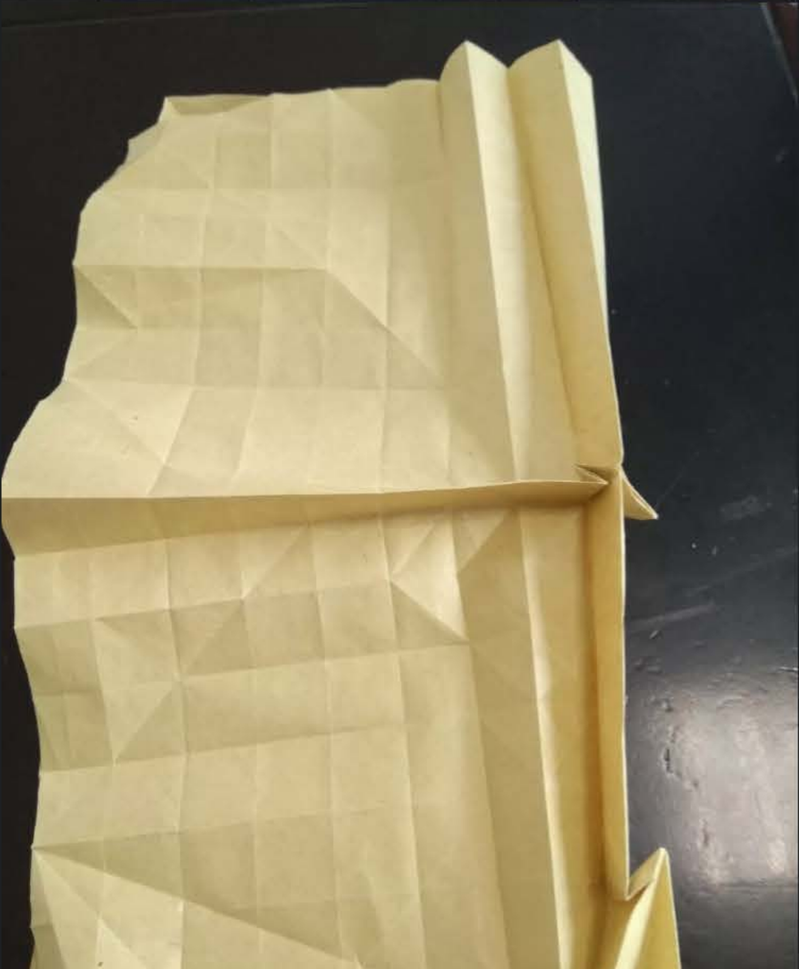
View from the other side



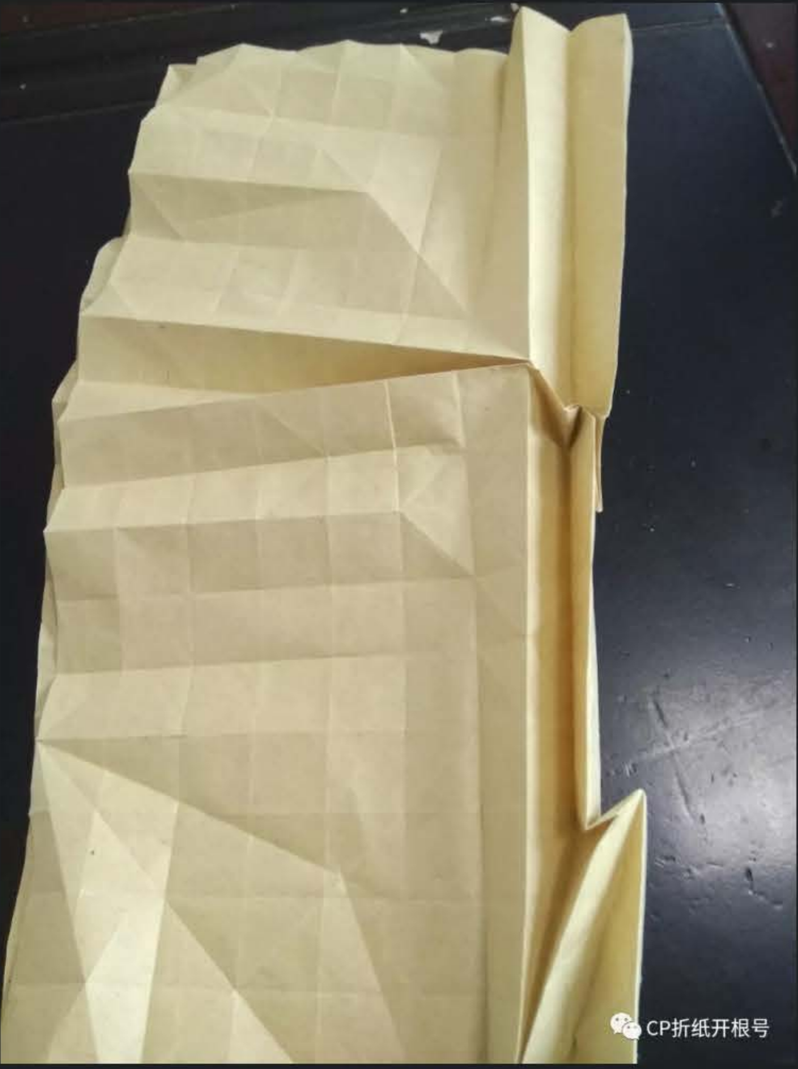
CP折纸开根号



CP折纸开根号

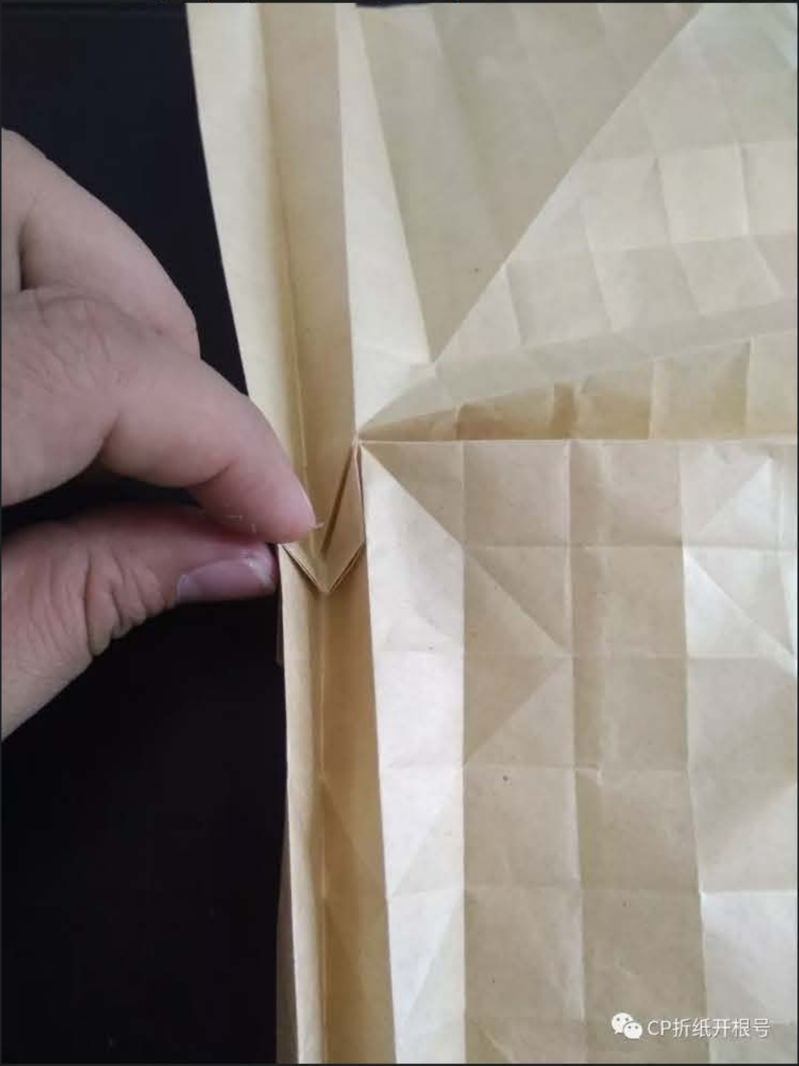


CP折纸开根号

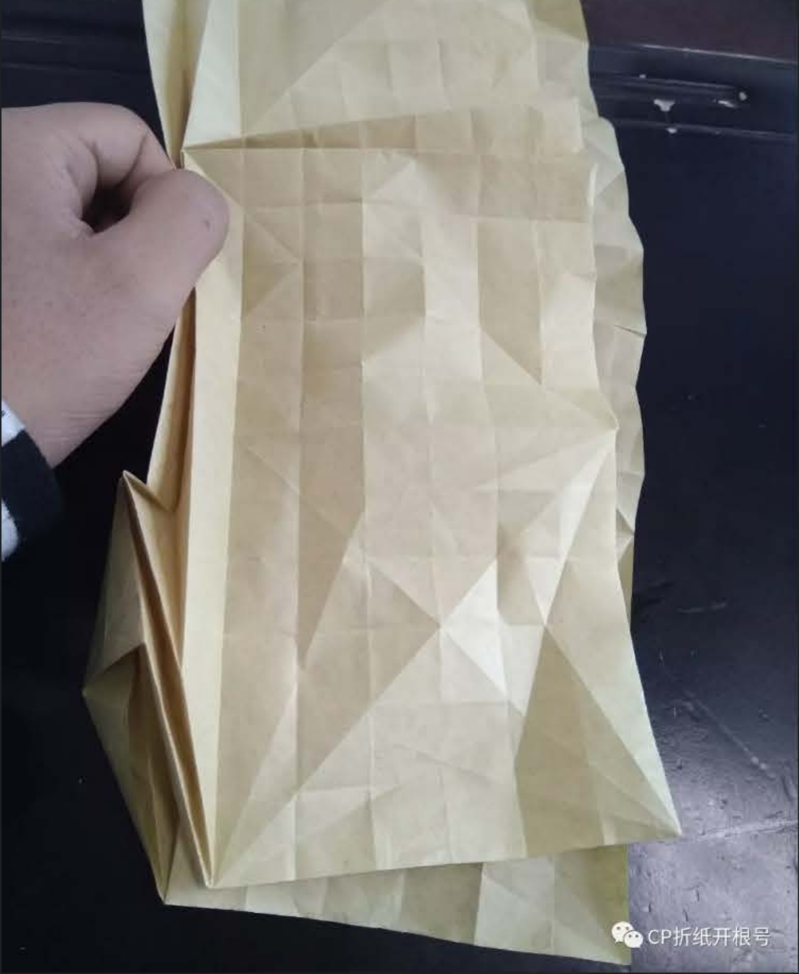


CP折纸开根号

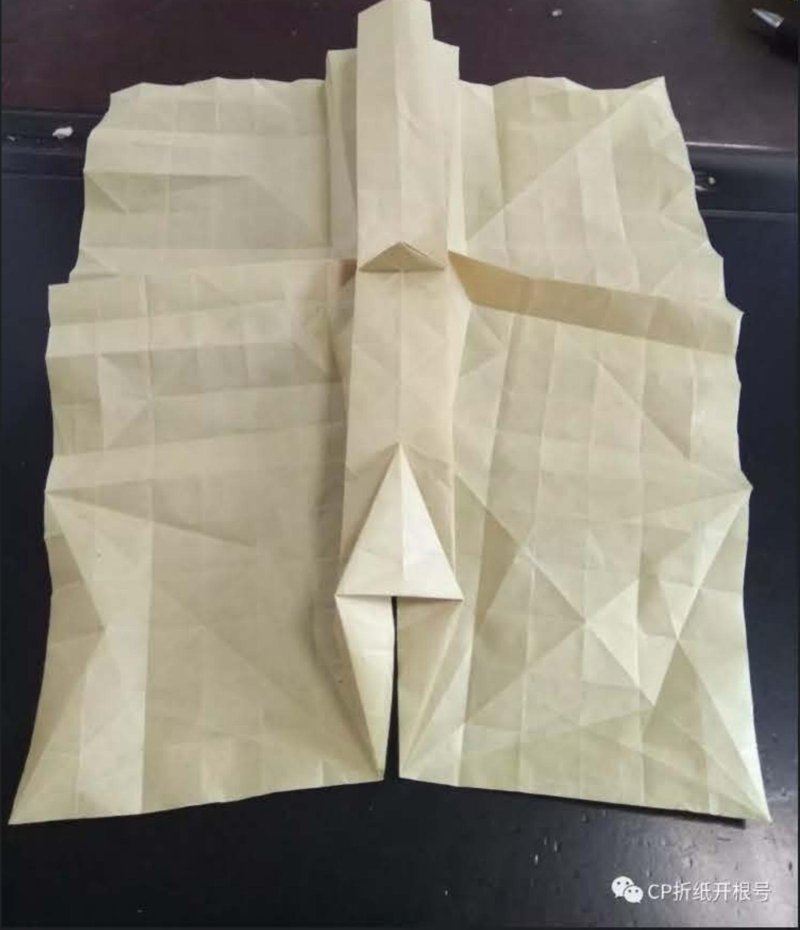
Return to the original perspective and adjust the position



CP折纸开根号

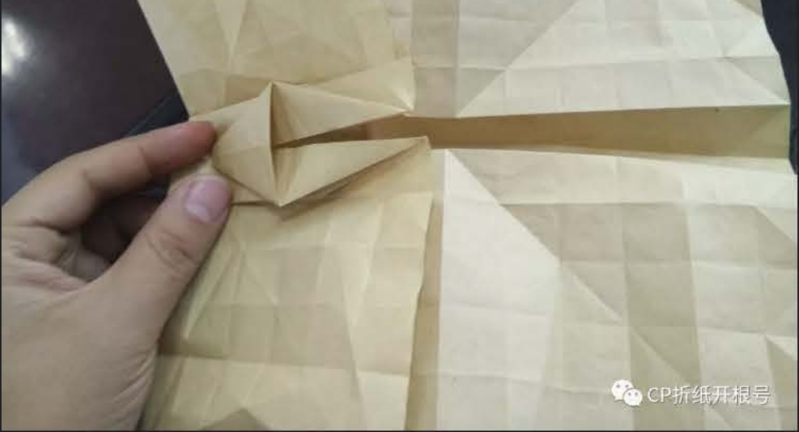


CP折纸开根号



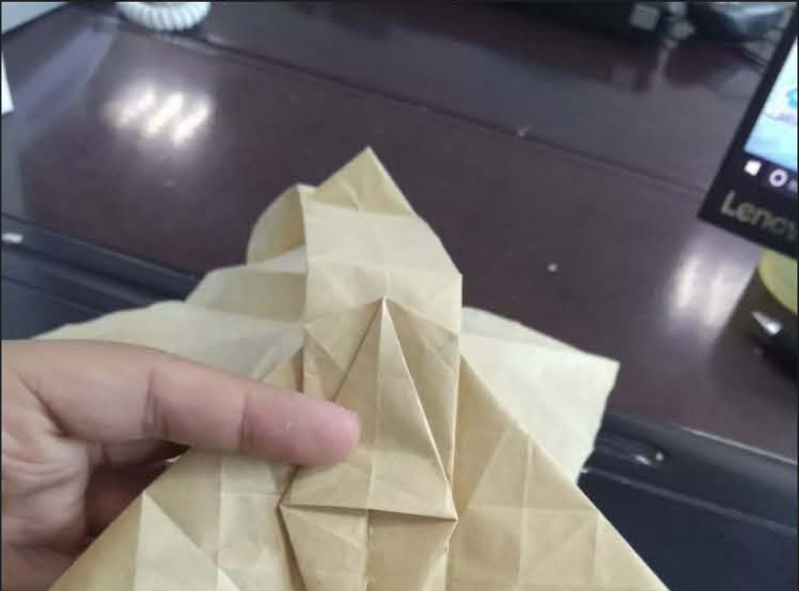
CP折纸开根号

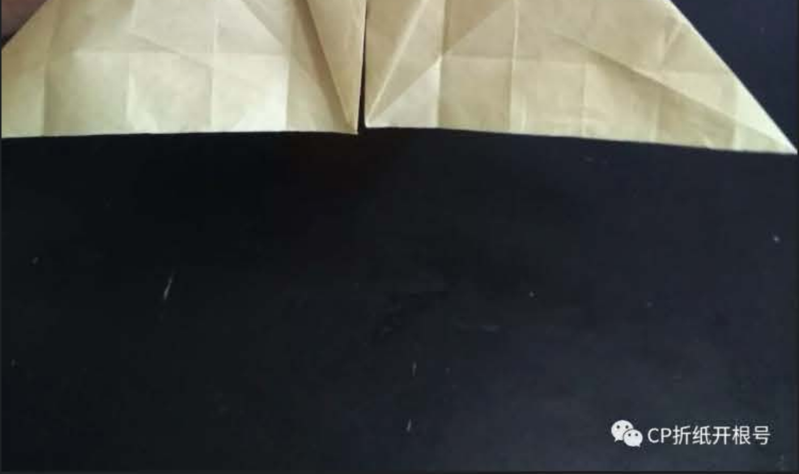
Fold the bottom back first



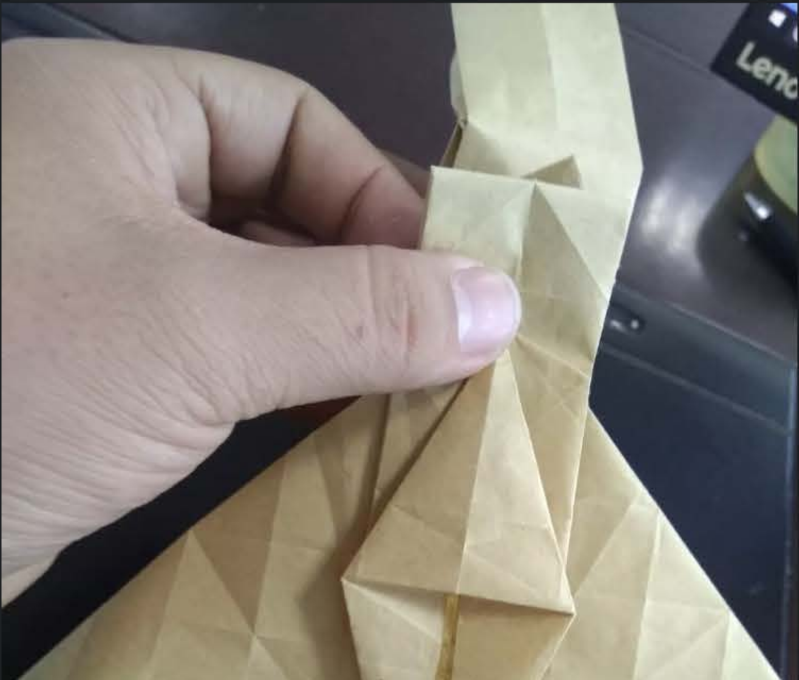
CP折纸开根号

Below, adjust the 45-degree line and fold the long lines in CP.

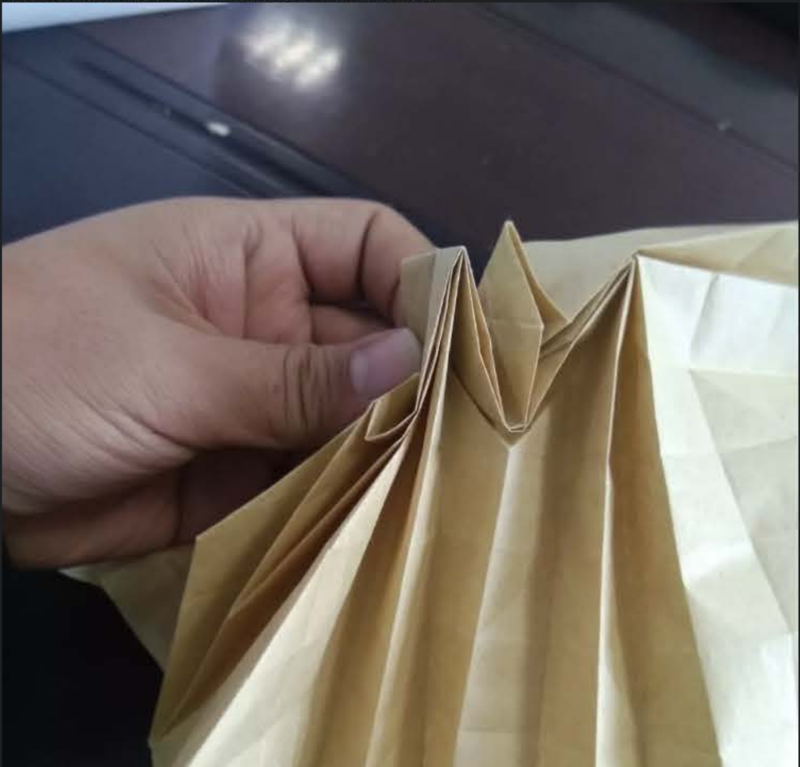




CP折纸开根号

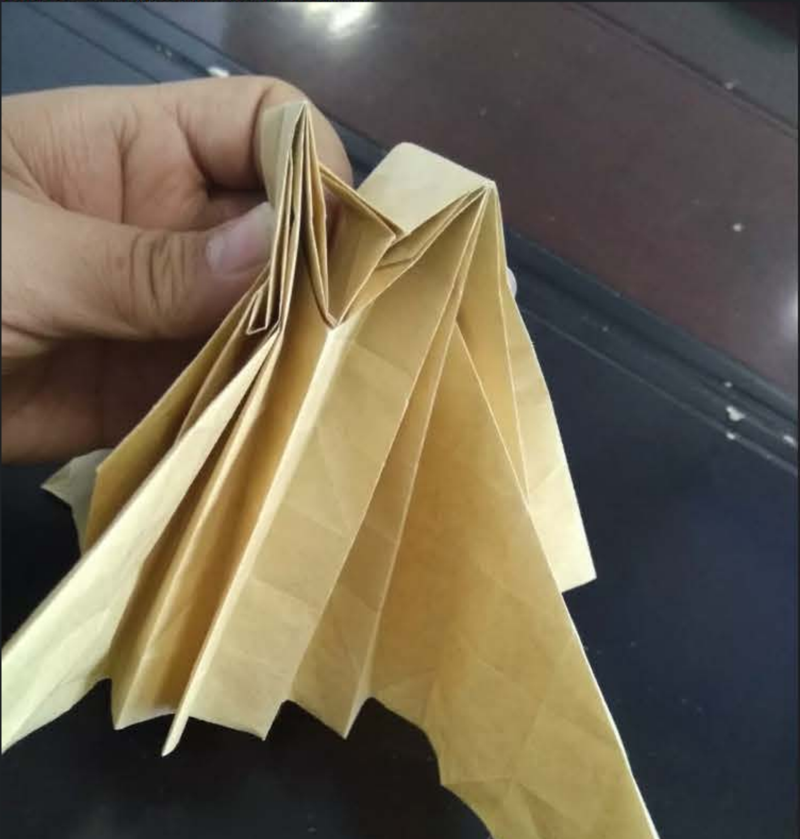


Side view, adjusted position on the central axis

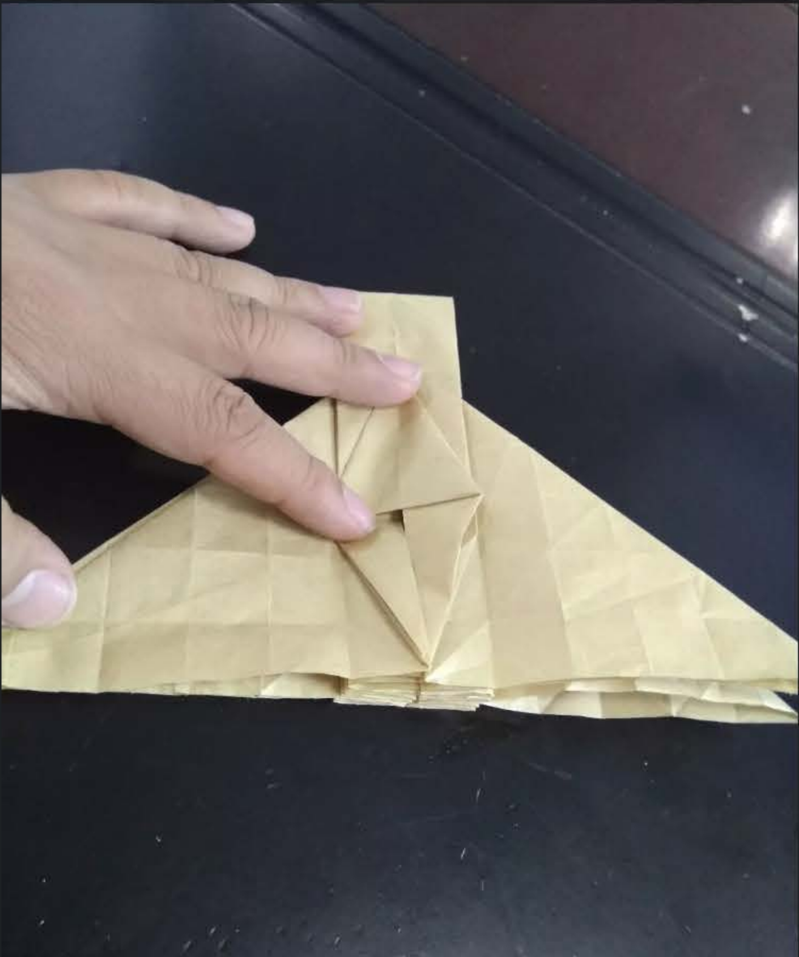


CP折纸开根号

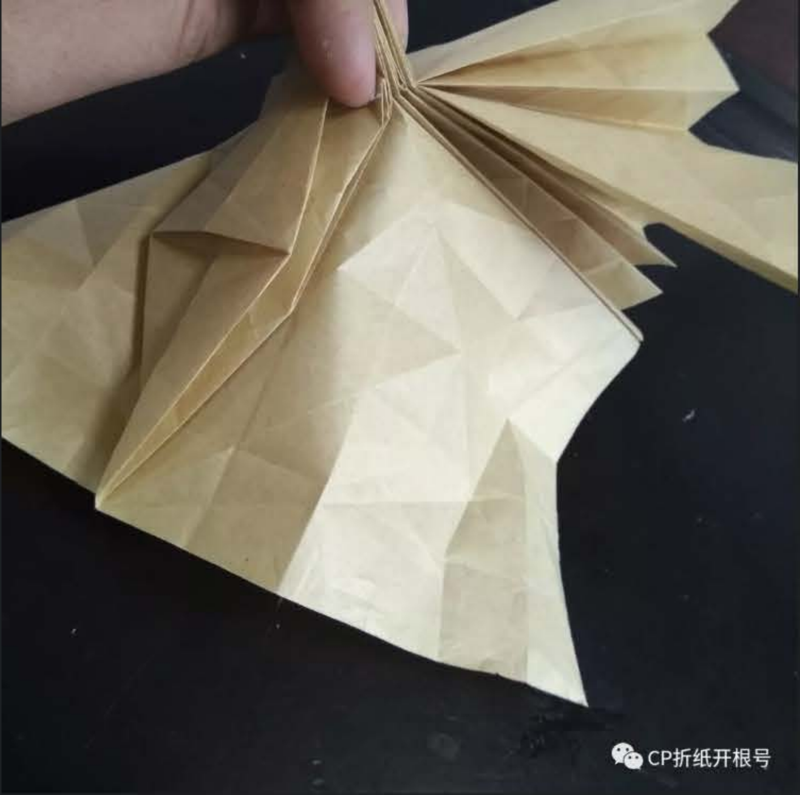
Fold the 45-degree line on the other side



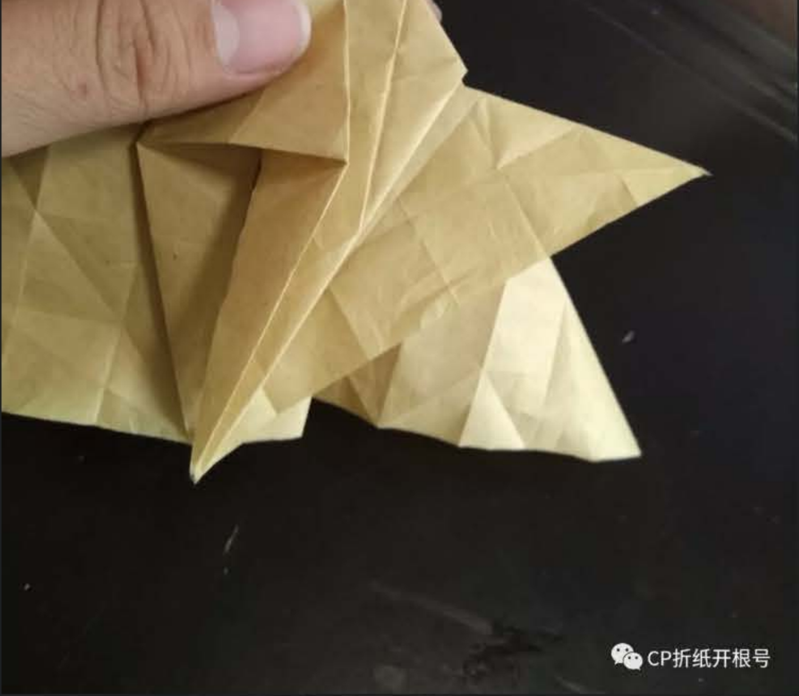
CP折纸开根号



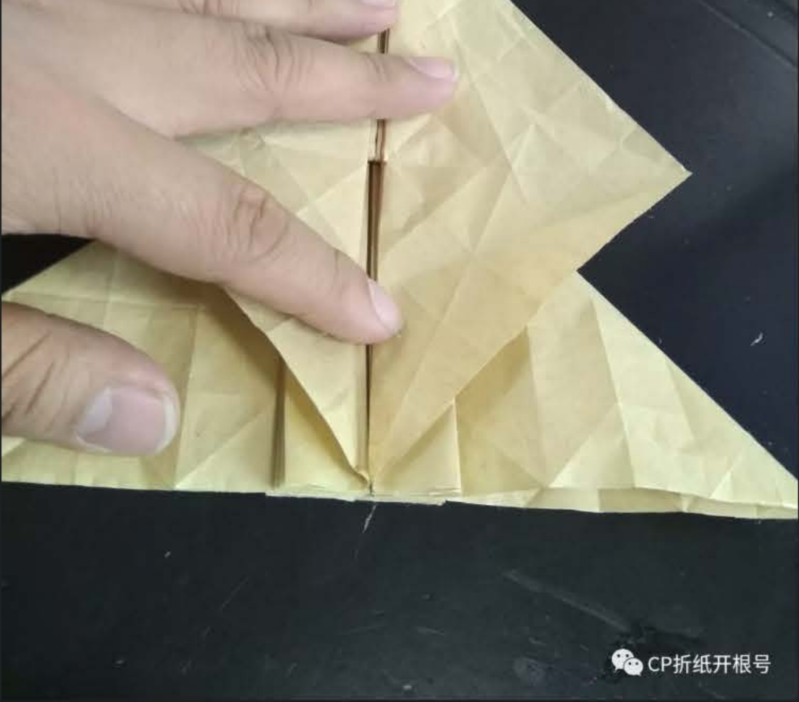
Prioritize the parts facing us closer and aggregate inward



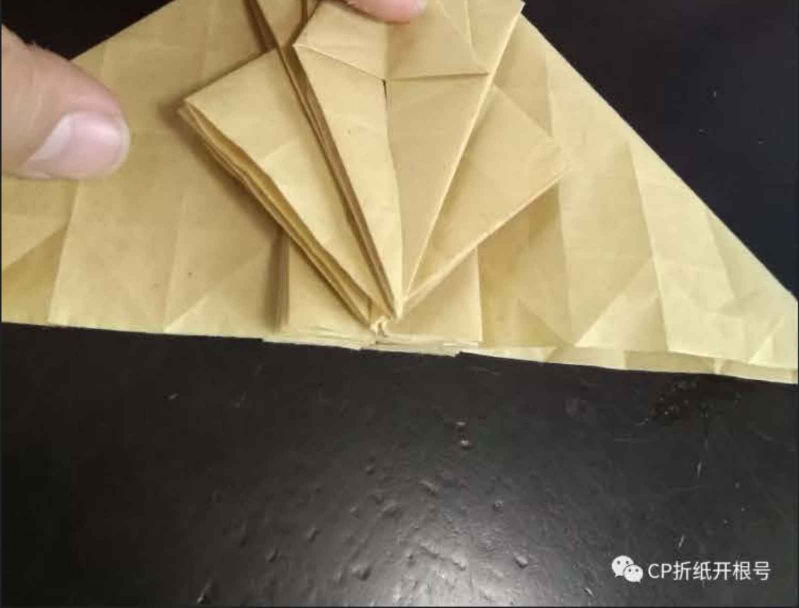
CP折纸开根号



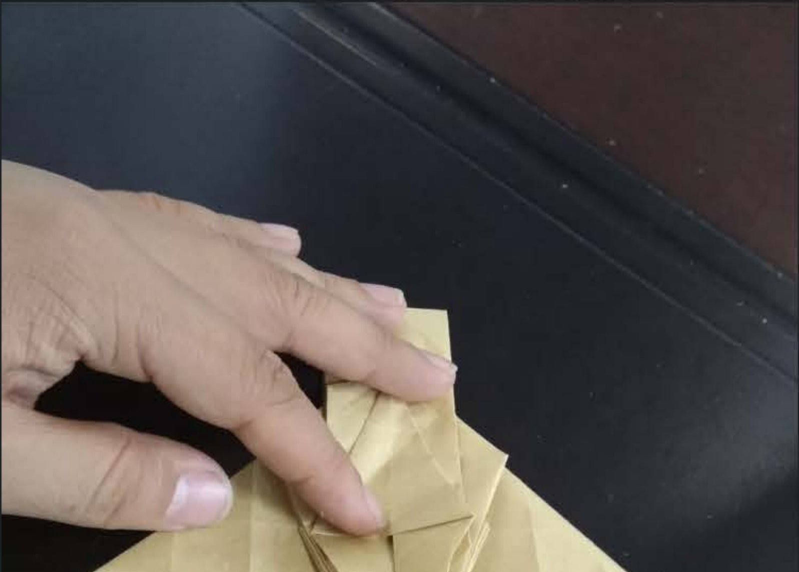
CP折纸开根号

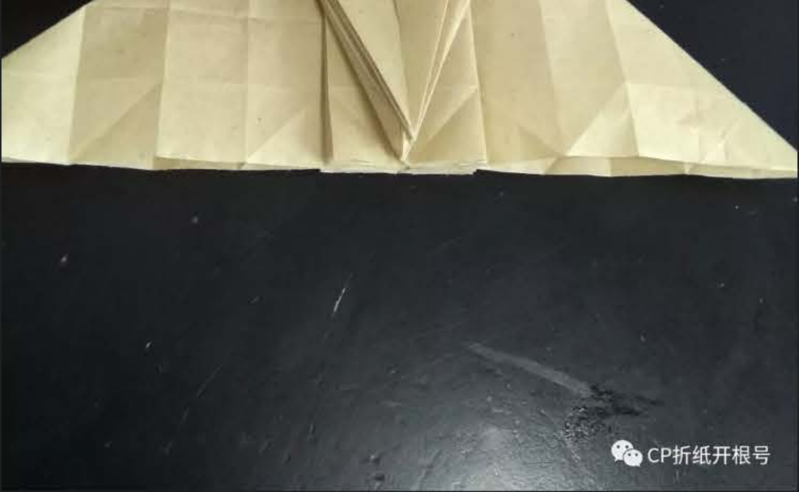


CP折纸开根号



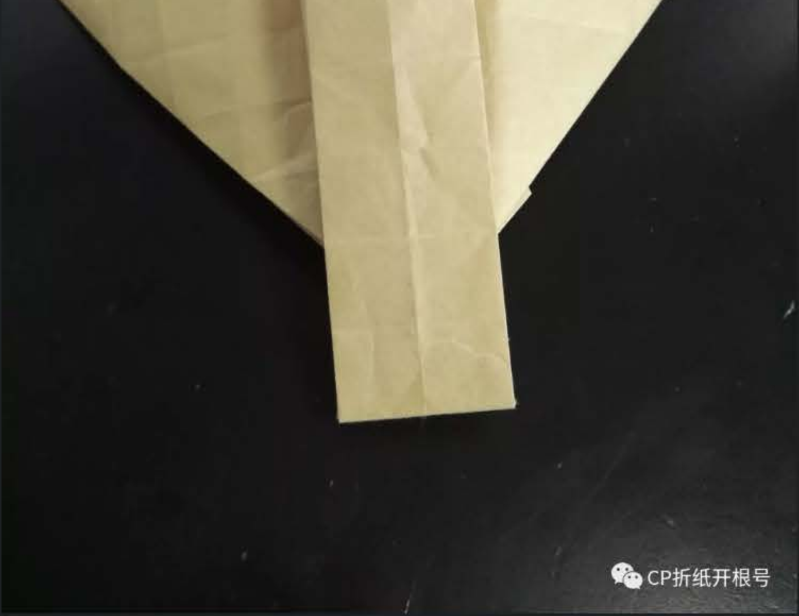
CP折纸开根号



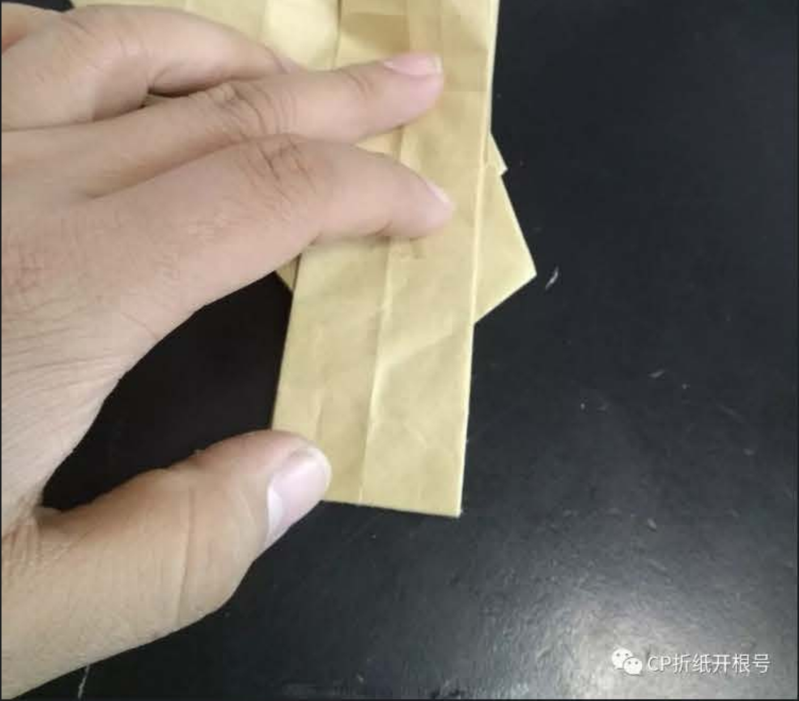


CP折纸开根号

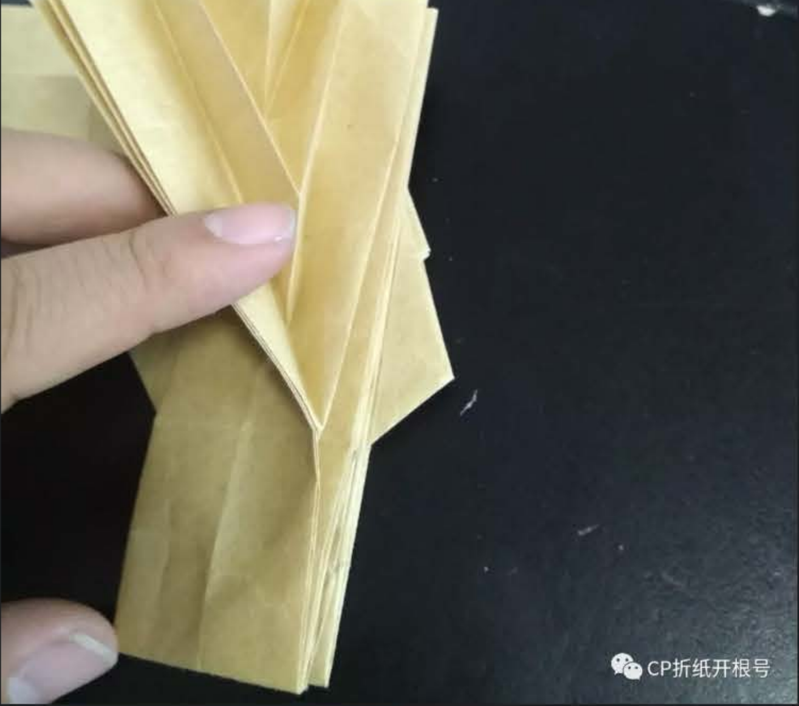
After flipping process



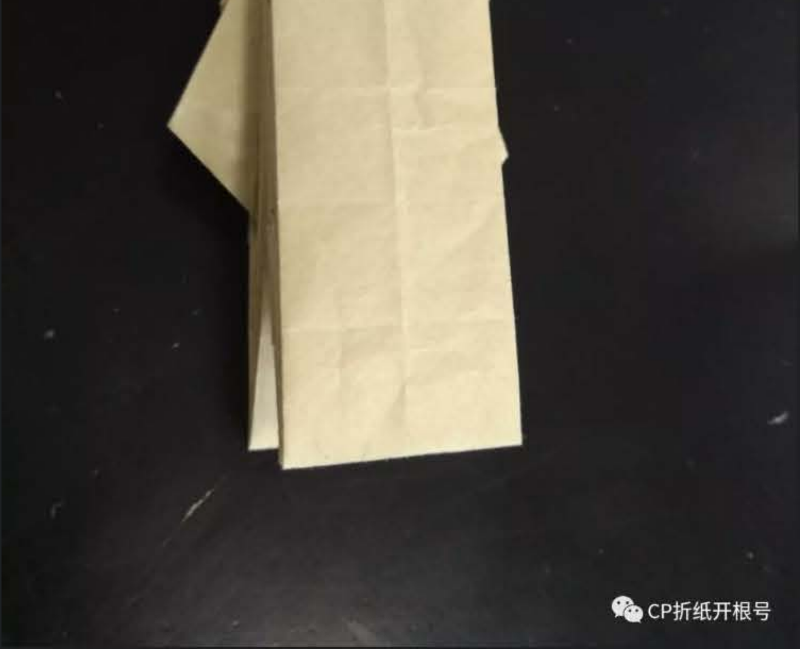
CP折纸开根号



CP折纸开根号

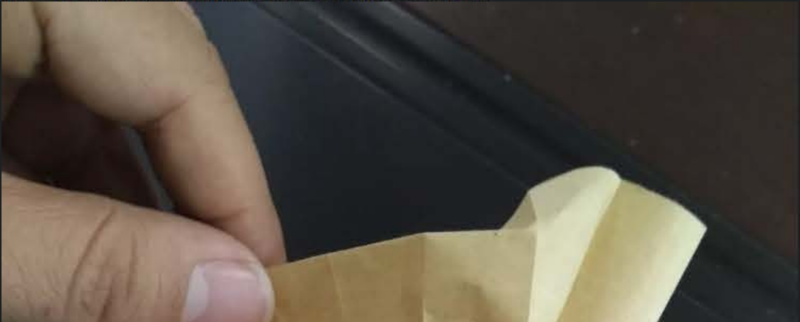


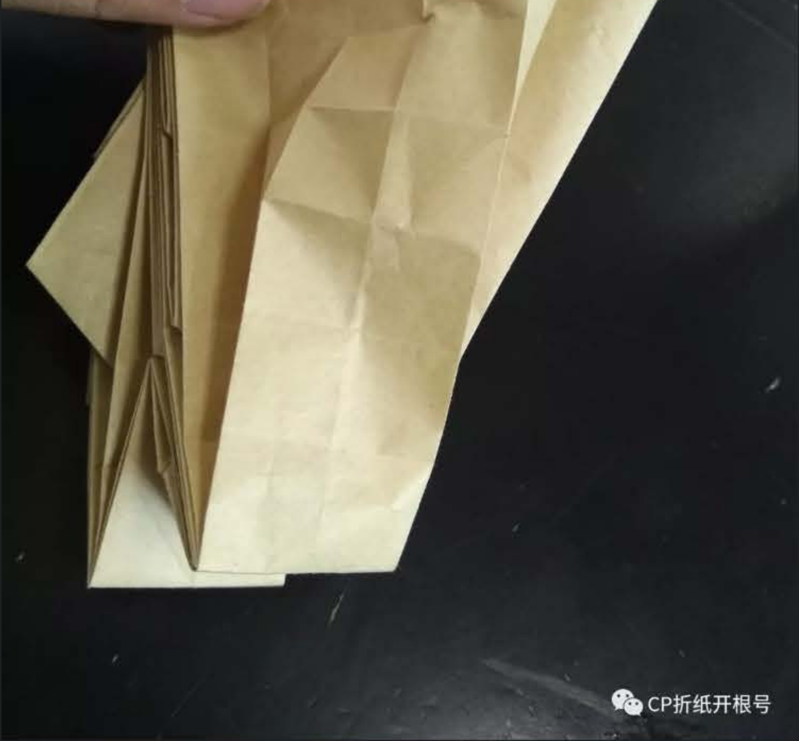
CP折纸开根号



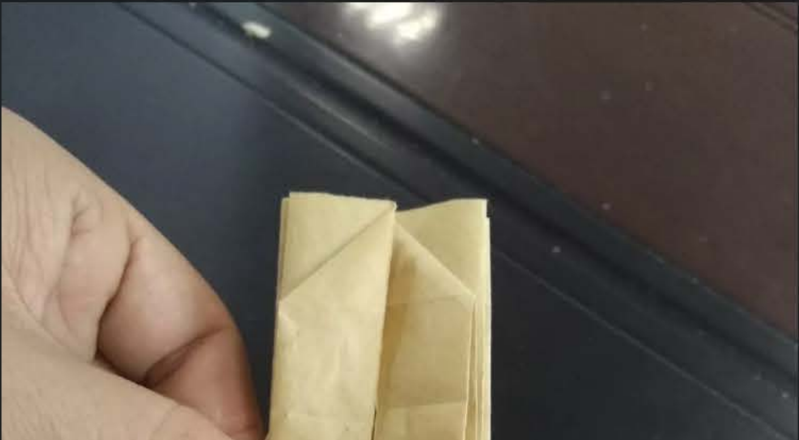
CP折纸开根号

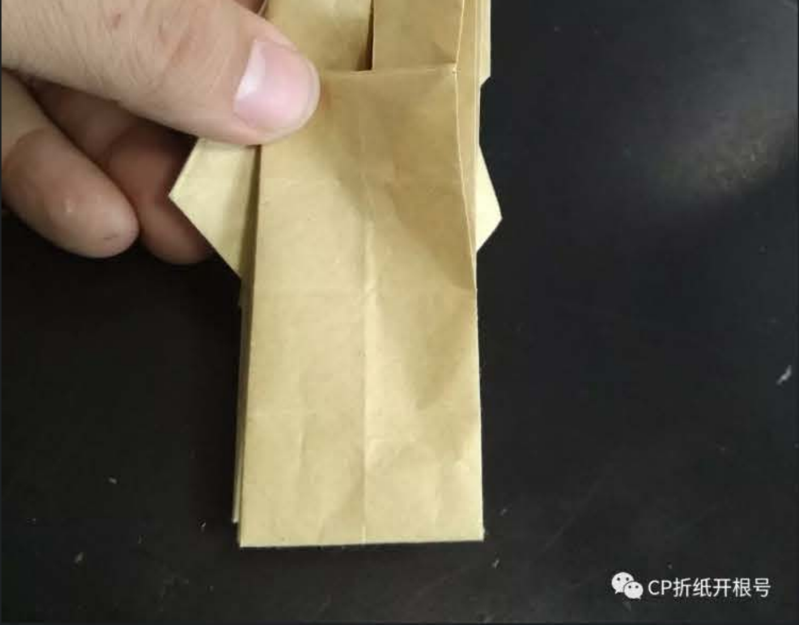
After the aggregation, pull the line inside the trimmer





CP折纸开根号





CP折纸开根号

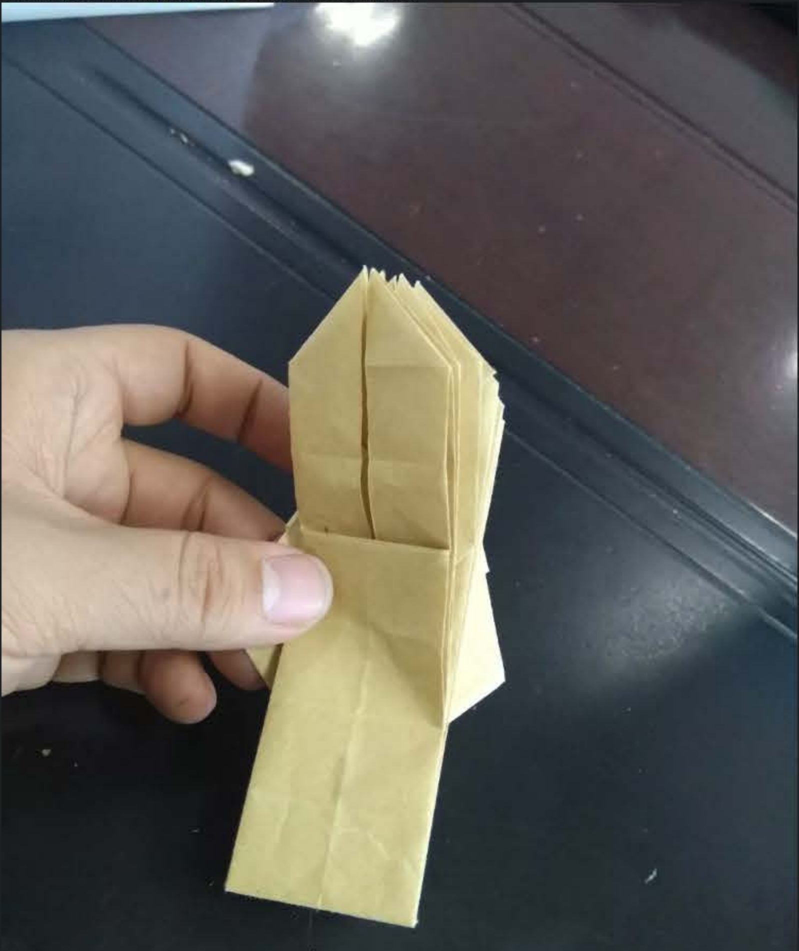
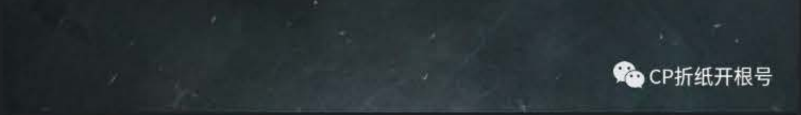
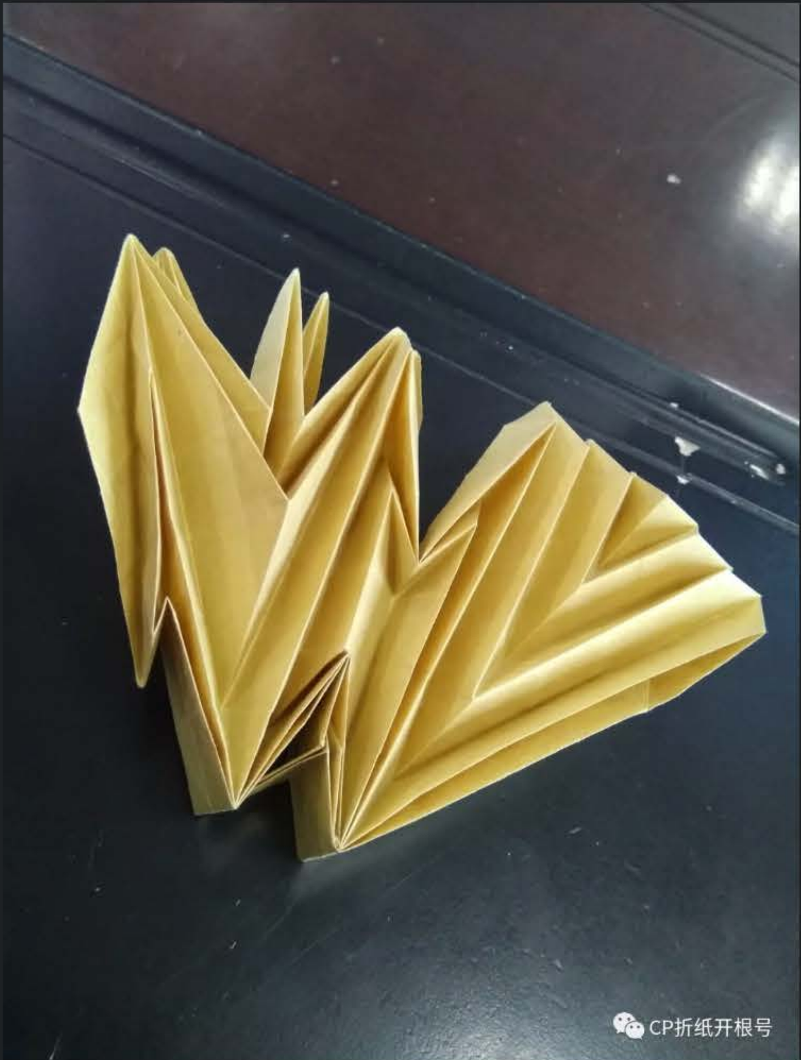
The following figure, adjustment is complete

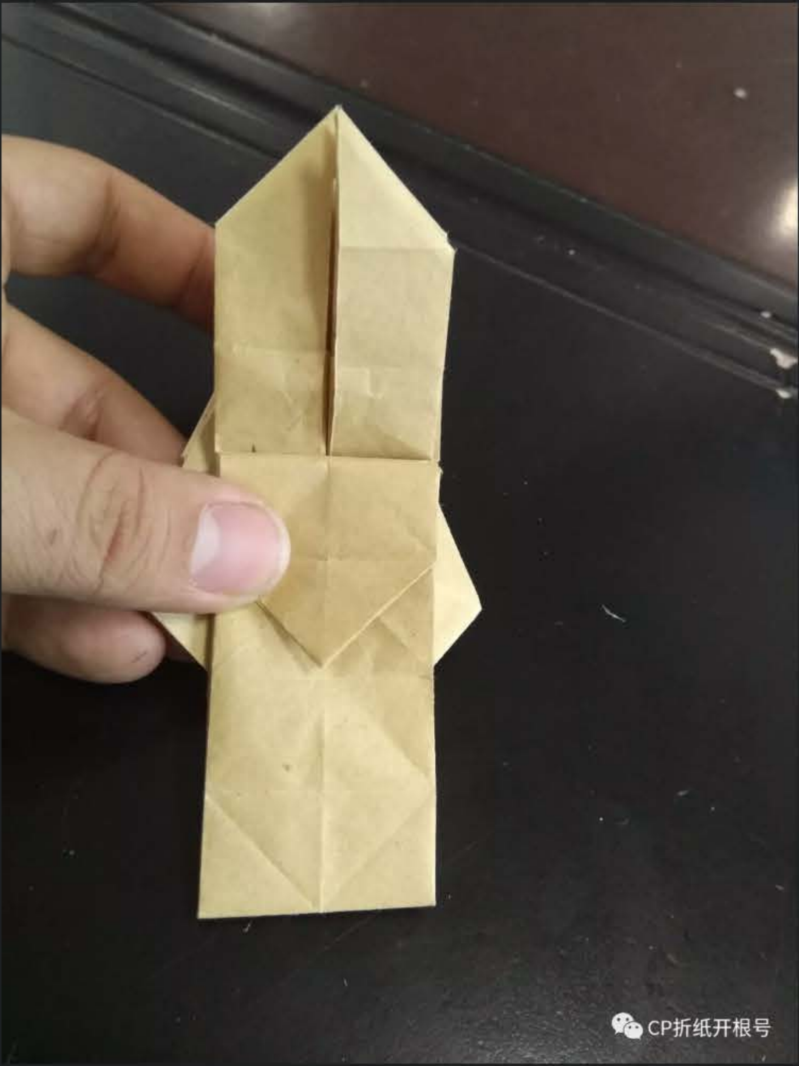




CP折纸开根号

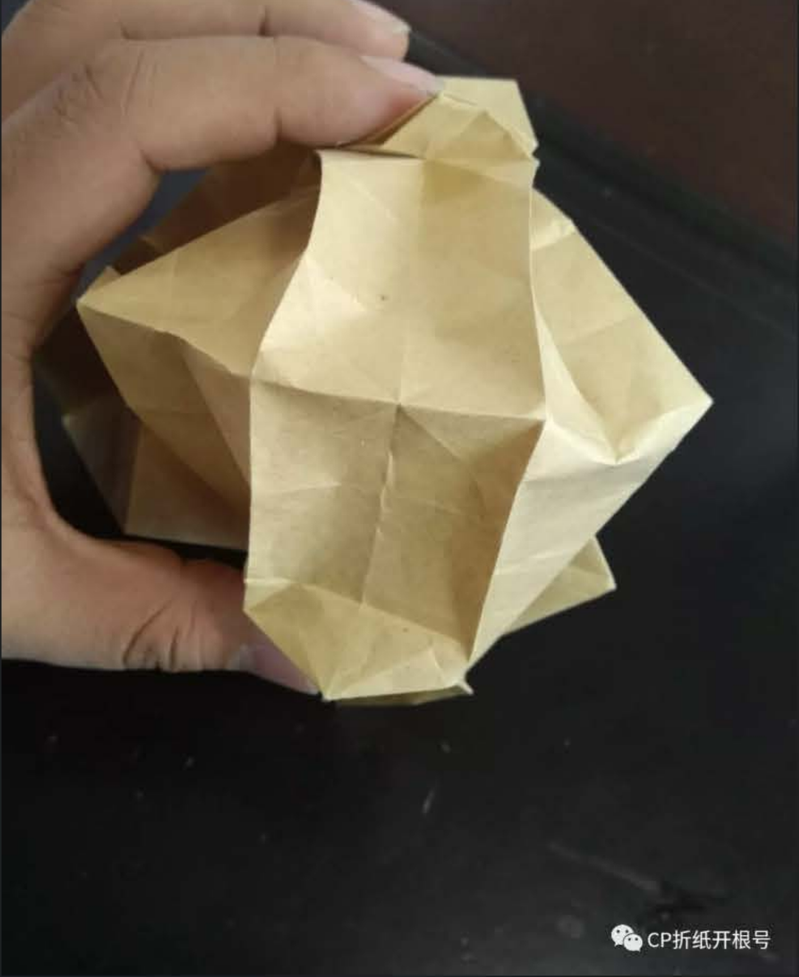


CP折纸开根号



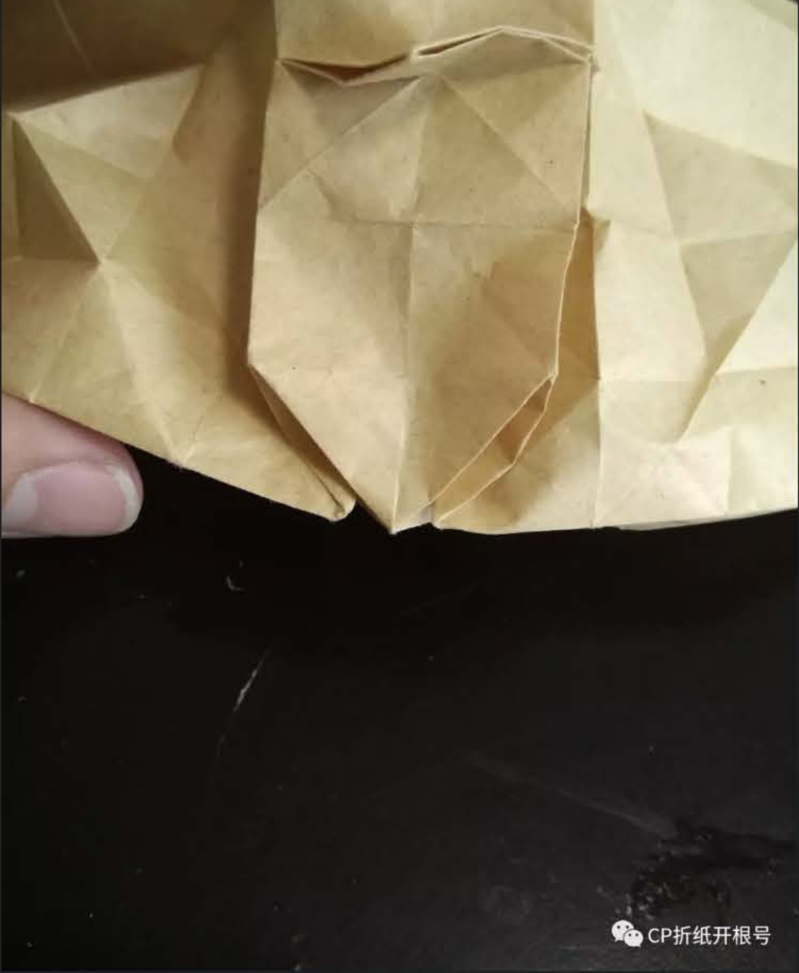
CP折纸开根号

Pull open the middle part and fold out the small square in the CP



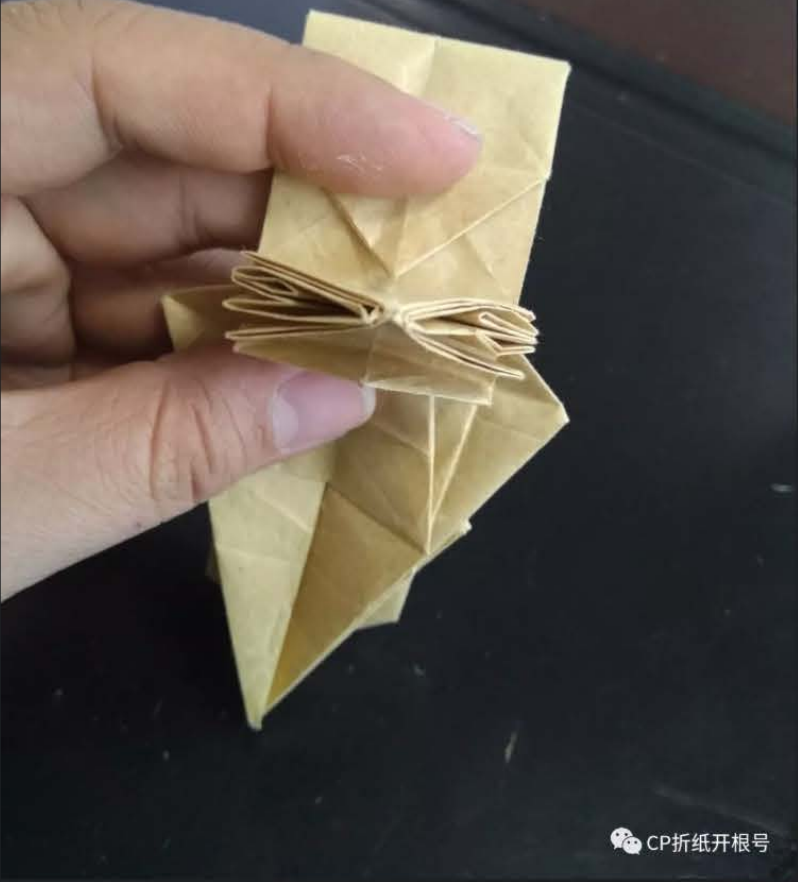
CP折纸开根号

CP折纸开根号

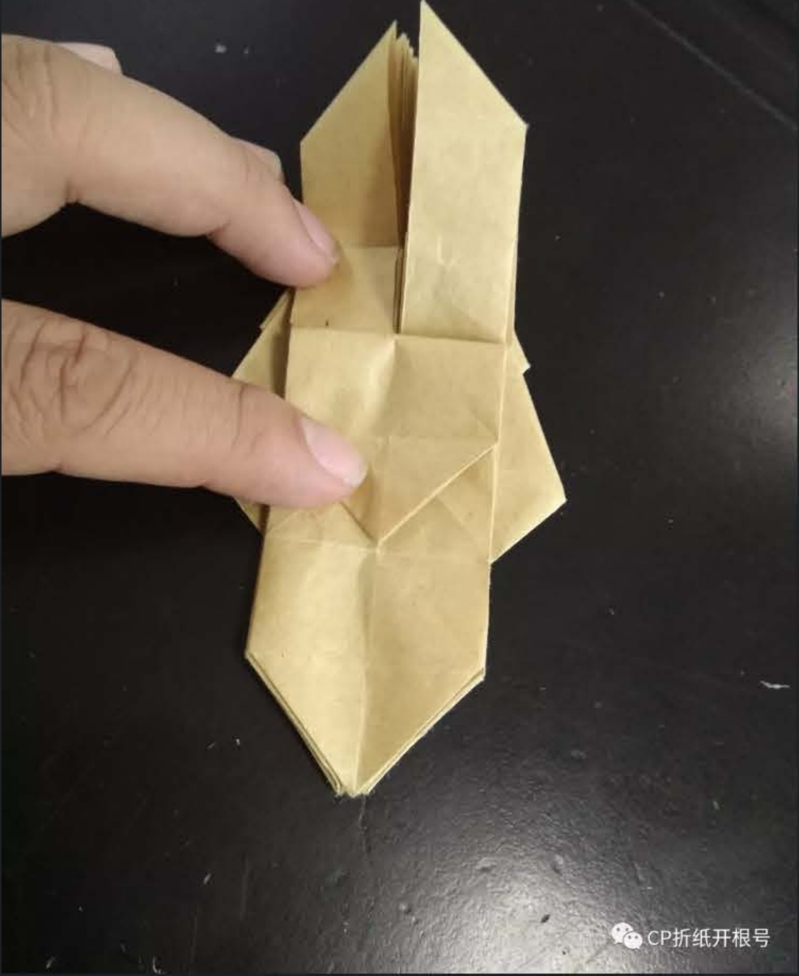


CP折纸开根号

CP折纸开根号

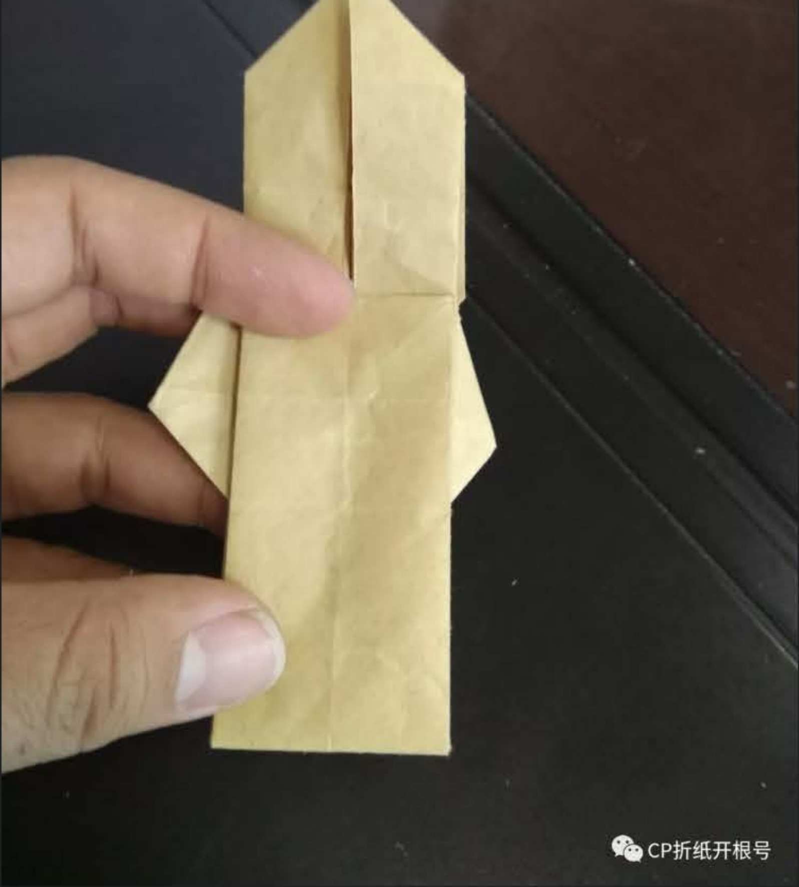


CP折纸开根号

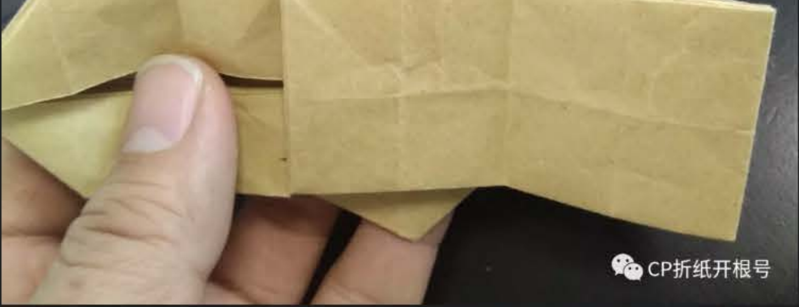


CP折纸开根号

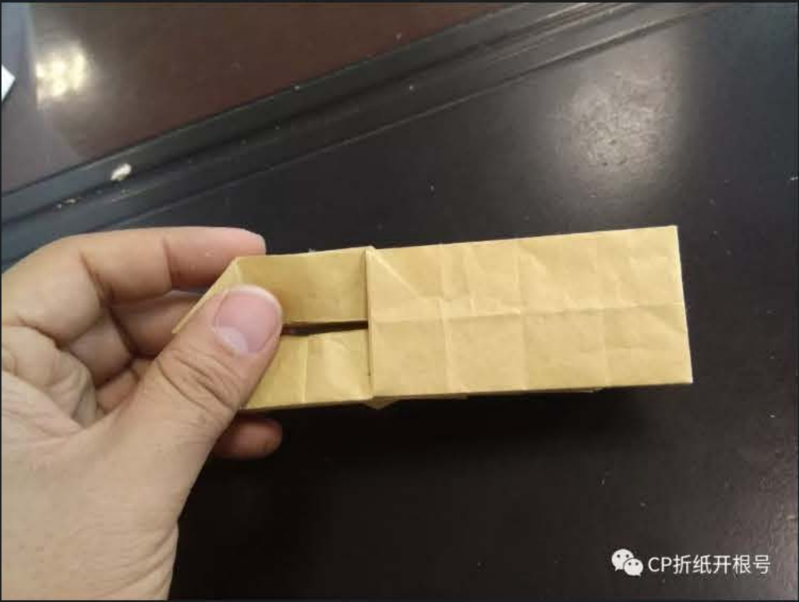
Fold in the protruding corners on both sides



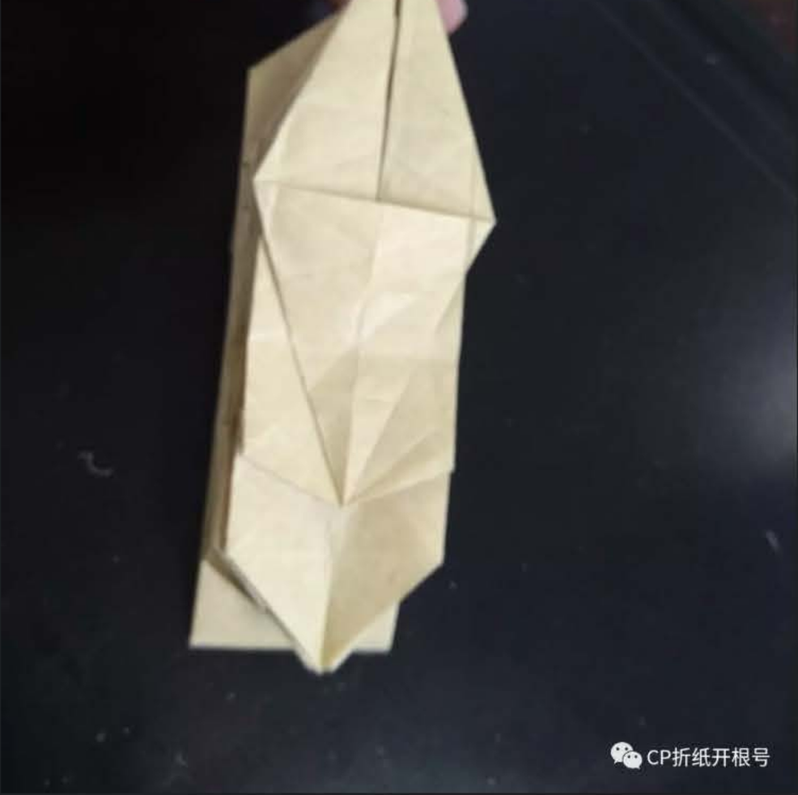
CP折纸开根号



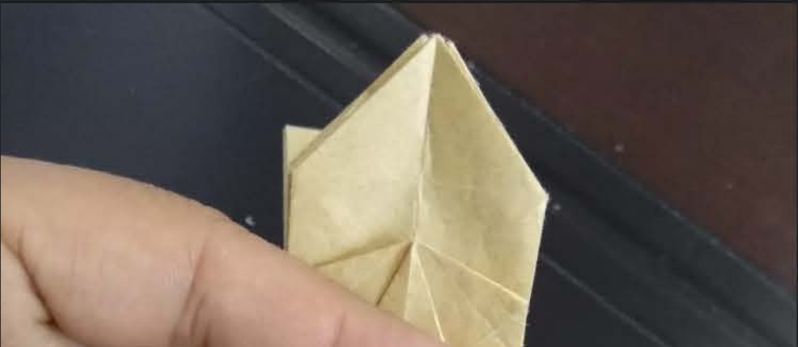
CP折纸开根号

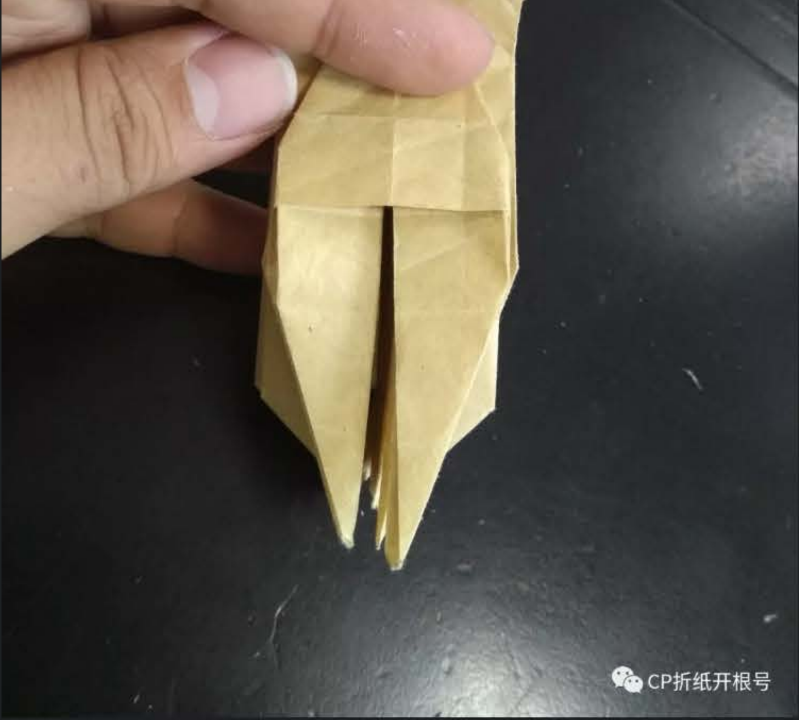


CP折纸开根号

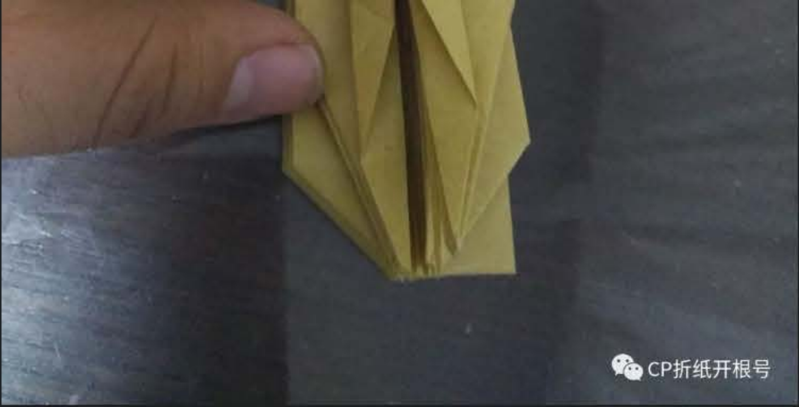


CP折纸开根号

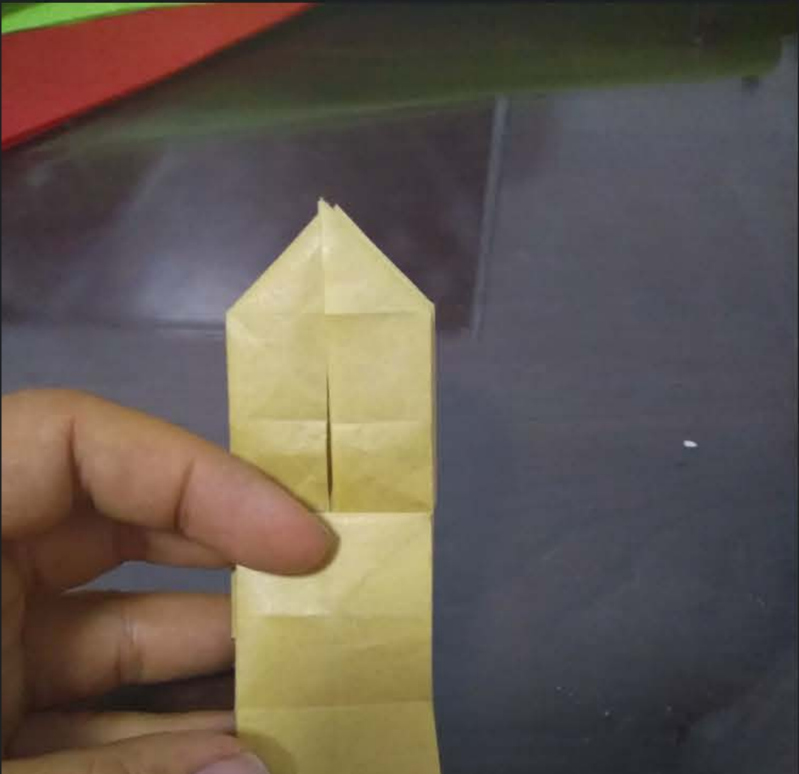




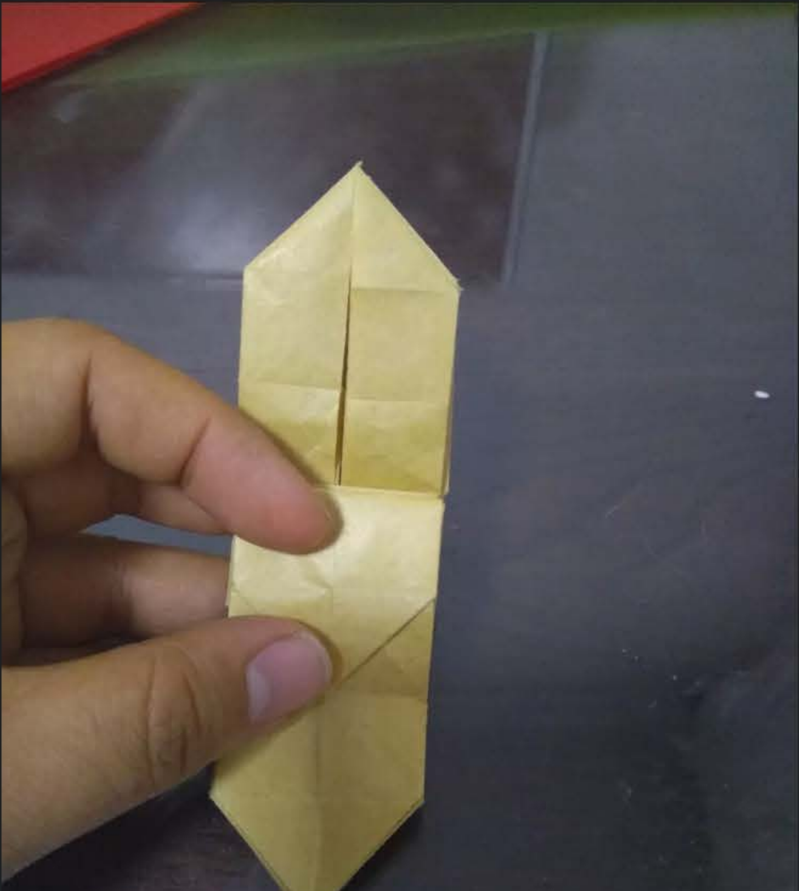
The following is actually the stage of free play, you can trim each part yourself



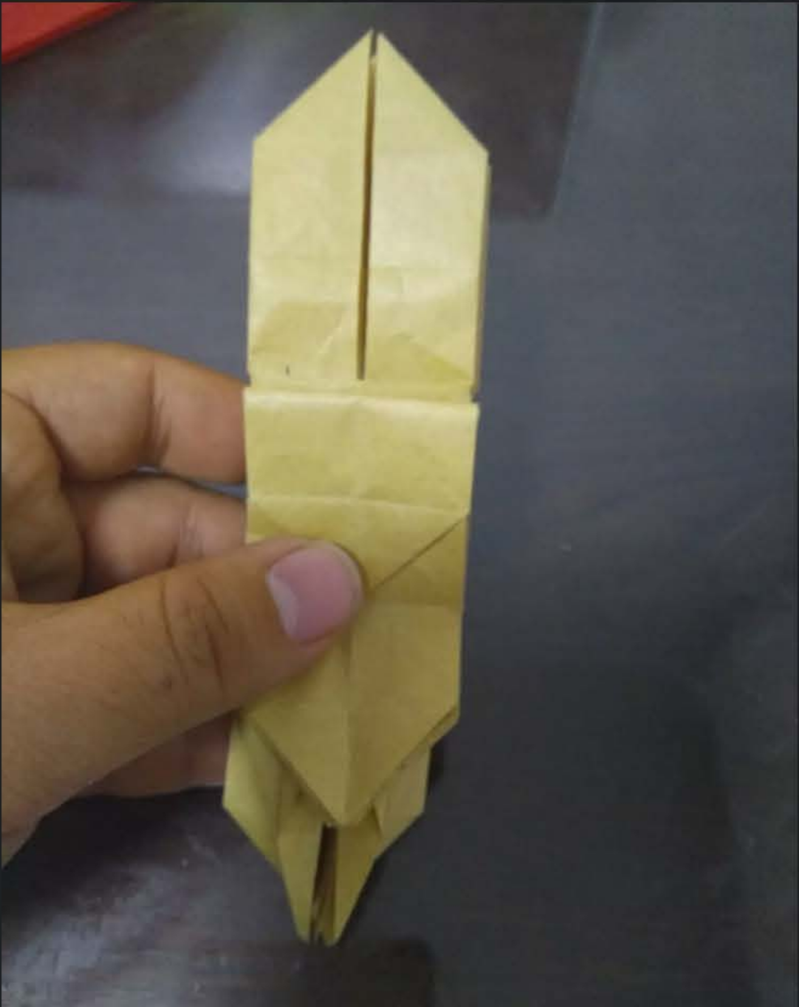
CP折纸开根号



CP折纸开根号

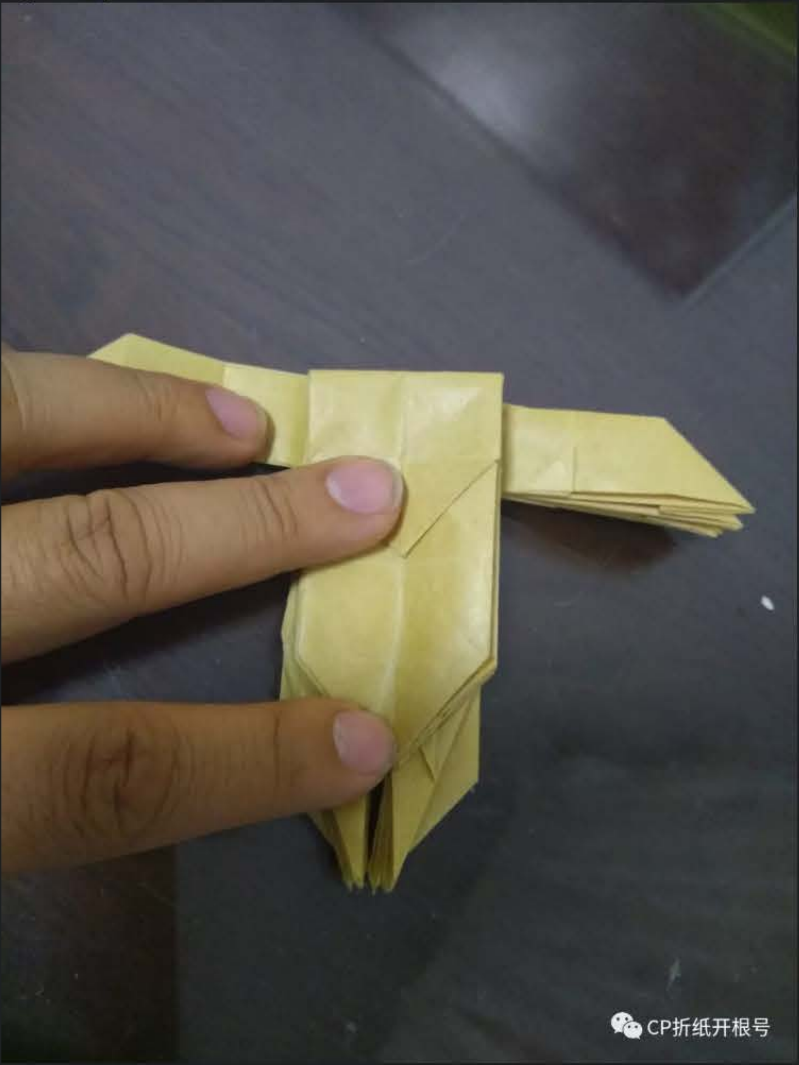


CP折纸开根号

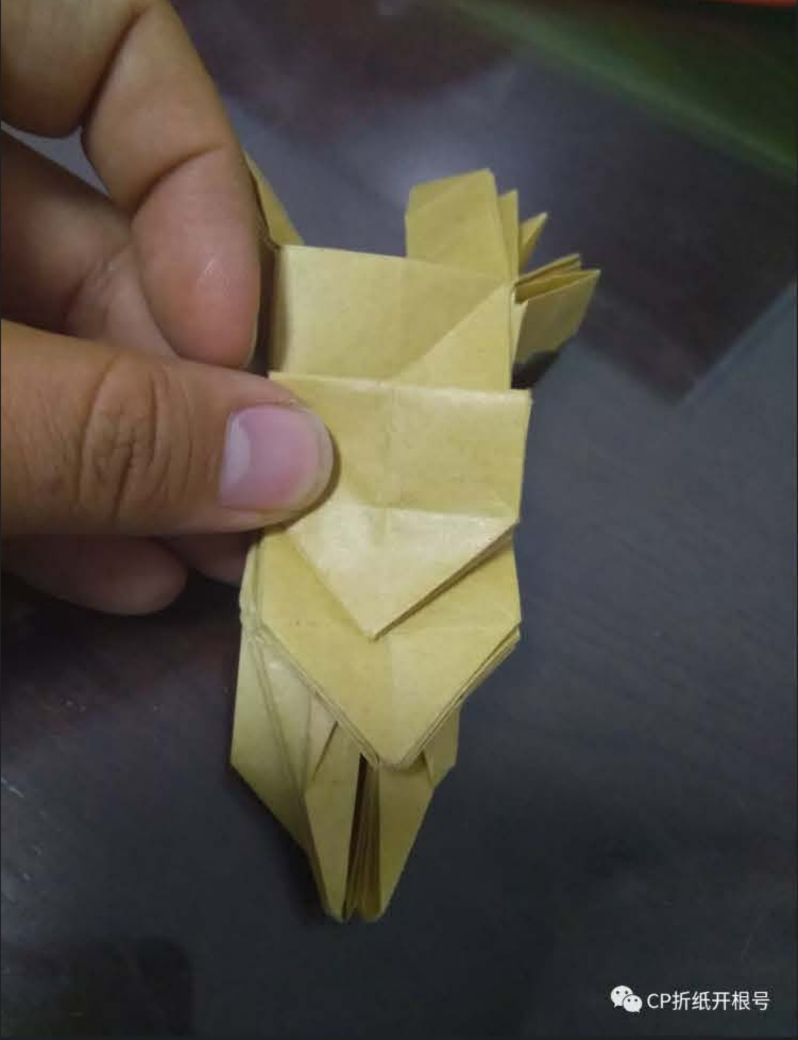


CP折纸开根号

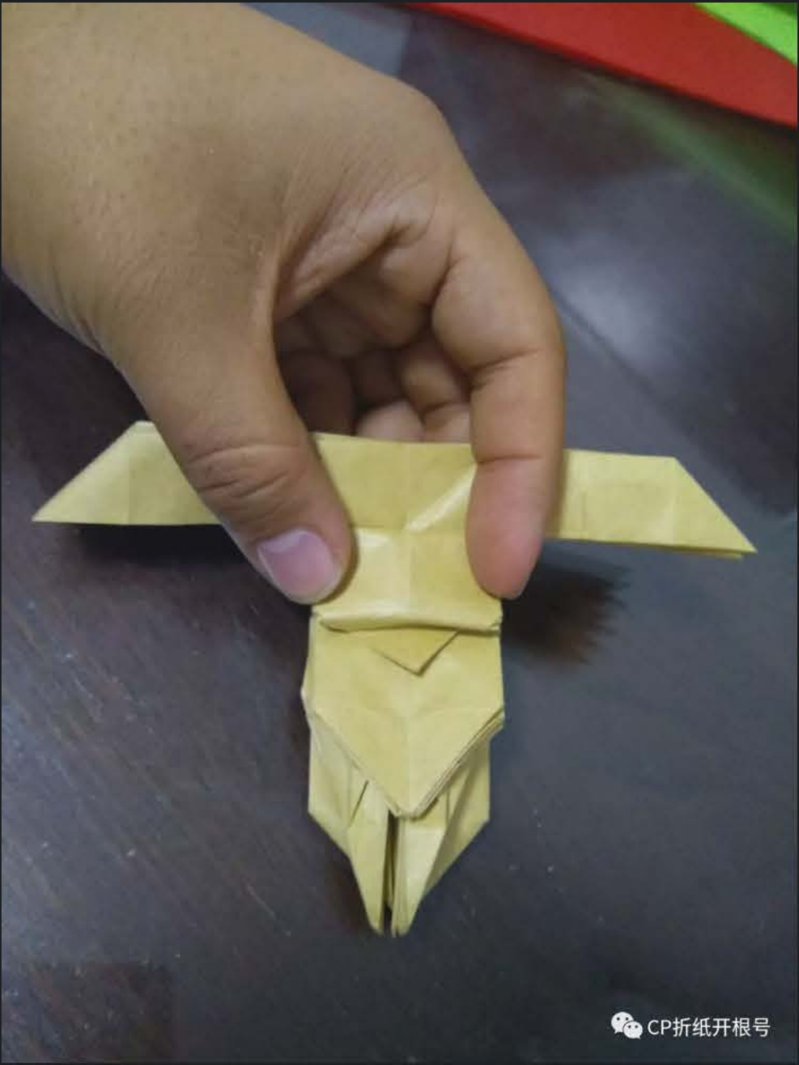
Adjust the position and fold out the middle corner



CP折纸开根号

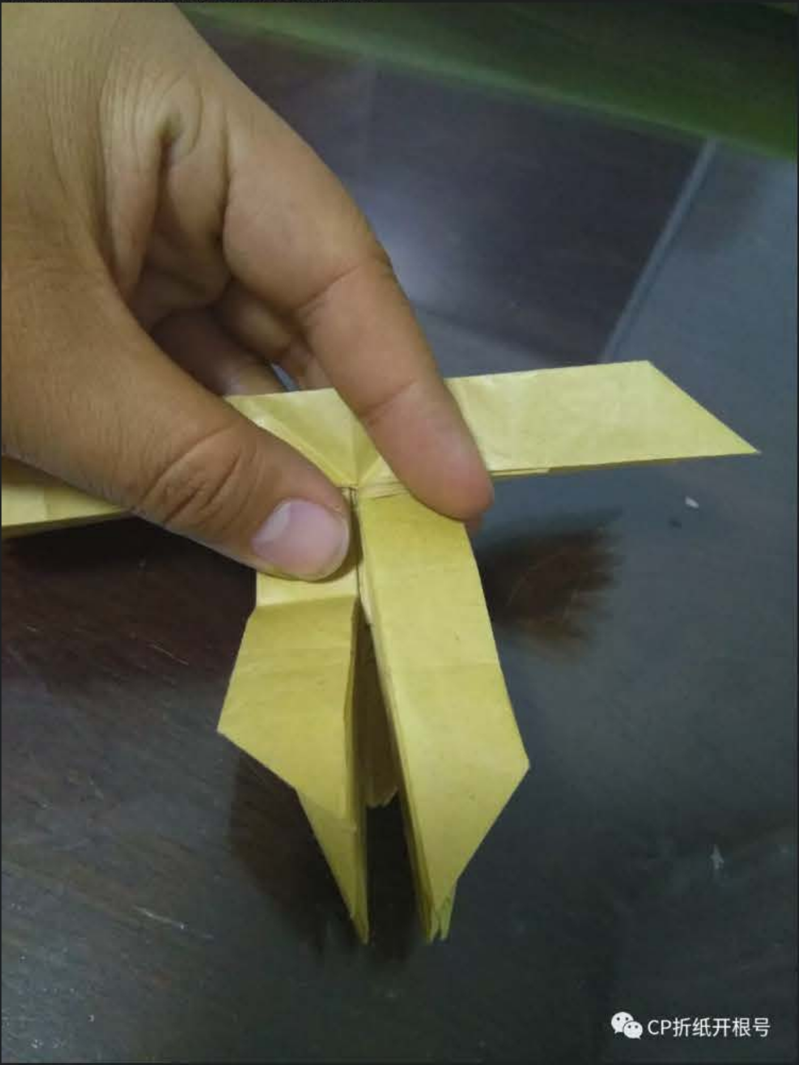


CP折纸开根号



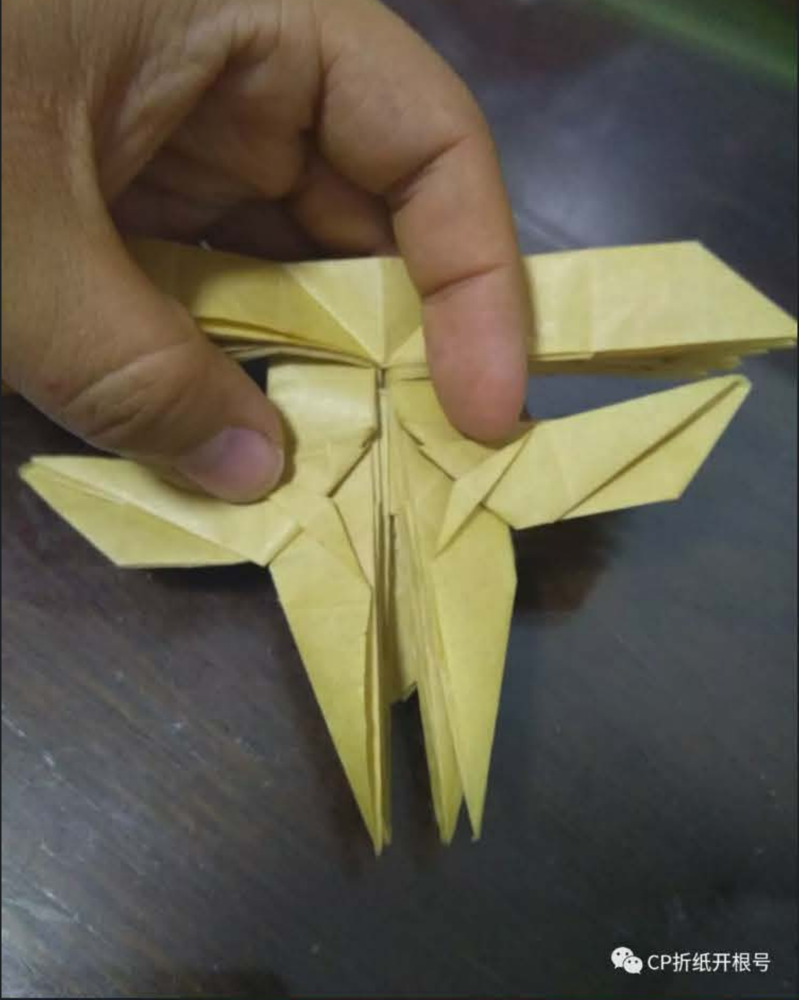
CP折纸开根号

The picture above may be a bit thick here

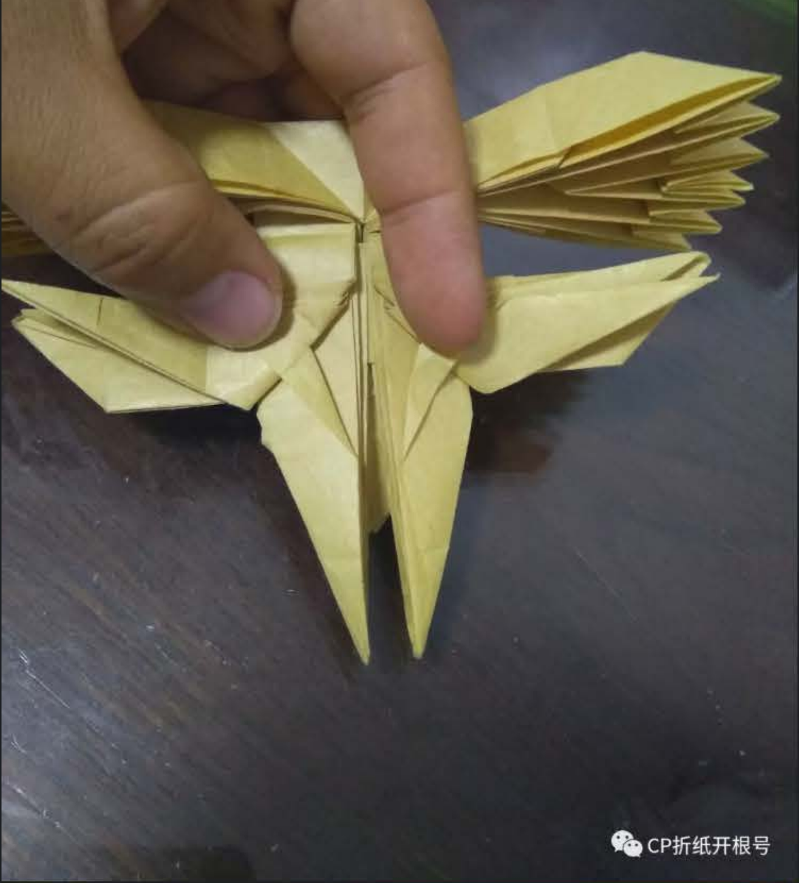


CP折纸开根号

Let's start to sort out the position of each leg



CP折纸开根号



CP折纸开根号

CP折纸开根号

CP折纸开根号

Finally, the last thing is to add glue and shape it.
