Original origami student Takayama CP origami opening number2019-07-15

Hello everyone, welcome to CP Opening!
We have talked about some shrimp discounts before, so in this issue, we will not introduce the types of shrimps, their characteristics, their distribution, etc. Recently, I went to ** hui prawns at the home side to eat After a meal, let's talk about the practice of shrimp this month!

This issue **talks** about **the practice of prawns with oil**

You simmer prawns, a dish of Shandong cuisine . The main ingredients are prawns from the former Bohai Bay of the Qingming Dynasty , using the unique method of Luzhou cuisine. This is a famous dish with a long history. The four flavors of fresh, sweet and salty complement each other, and the aftertaste is endless. In recent years, the popular scallion prawn is an E dish that originated in Qianjiang , Hubei . It is made from freshwater oyster shrimp (commonly known as crayfish), which is different from the scallion prawn of Shandong cuisine .

In Shandong cuisine, oil simmering is a method of simmering mainly with seasoning oil and seasoning sauce. The amount of soup added during braising is less than that of other braising methods, and the braising time is shorter. The initial cooking is generally done by braising or frying. Oil soup requires raw materials that are tender and easy to be cooked, and the color of the finished vegetables is light red and bright.

Ingredients: Fresh prawns 750g.

Ingredients: 15g cooking wine, 2g refined salt, 10g white sugar, 60g pork oil, 10g pepper oil, 25g garlic segment, 3g ginger, 5g ginger juice, 75g broth.

Process: knife processing → stir-fried prawns → into miso system → harvest juice and plate.

Steps:

1. Cut and match. Wash the prawns, cut the head and beard from the eyes, cut off the legs, claws and tail, remove the sandbags and sand threads, cut each prawn into two sections;
2. Cook. Set a stir-fry spoon on medium heat, add pork oil and pepper oil to heat, add ginger and prawns, stir fry a few times, then gently press the shrimp head with a spoon, squeeze the shrimp brain, and then add cooking wine, broth, Ginger juice, white sugar, refined salt, and MSG continue to stir fry a few times, cover, cover, and transfer the spoon to a low heat to cook;
3. When the shrimp is simmered until it is cooked thoroughly, when the juice is thick and red, transfer the frying spoon to the hot fire to collect the juice.

If I knew I was going to eat, I would fold a few with big red! It's 10:28 in the evening, and it says hungry.

Forget about it, let's take a look at the drawings of this issue with me!

Works in this issue: 48 * 48 square works

First of all, you choose a piece of paper that you think is the right size (I did n't know how to choose it before, and you still do n't remember). Here I use 40 cm paper, which is divided into three equal parts and then 16 equal parts. It usually takes 10 minutes to complete the 48-division grid. Everyone can record the time each time, and then go to the line according to the CP, and make a record. After such a long time, you can see how long you have finished the CP. .

Okay, the classmates who are on line will gather with me

First of all, everyone starts from the following picture. It is still a classic start. Because it has a structure of peak and valley lines, we start horizontally and then fold vertically.
