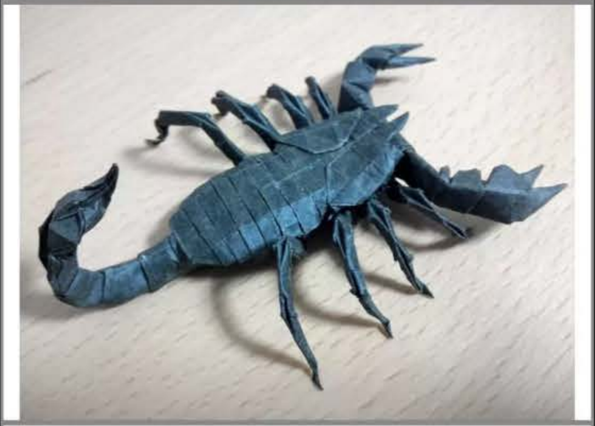
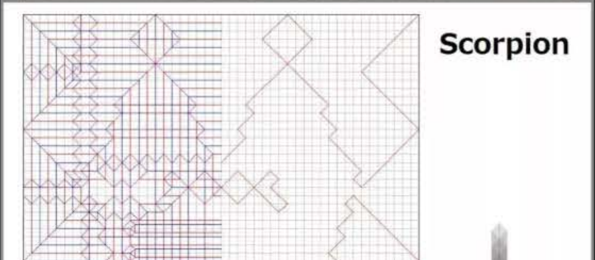
Origami Sharing Series No.22 Total Seventy-first Issue Scorpion 04

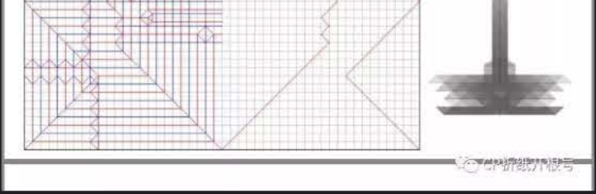
Original Origami Student Takayama CP Origami Opening Number 2018-11-29

Hello everyone, welcome to CP Opening!
November was a super fast, and I feel that there are a lot of things every day. To be original, to participate in the Origami Olympiad, to be a public account, to live, and to work. Fortunately, the last period was completed by the end of the month. Disappoint everyone.
Today we continue to talk about the scorpion. From the beginning of the beetle to the current scorpion, everyone should have a deep understanding of the basic folding method of insect origami. Speaking of bugs, but in the interaction, people's attention is still added to the origami of people, so everyone can rest assured! Do not worry!

Next, let's enter the scorpion that will be folded today!







CP折纸八根号

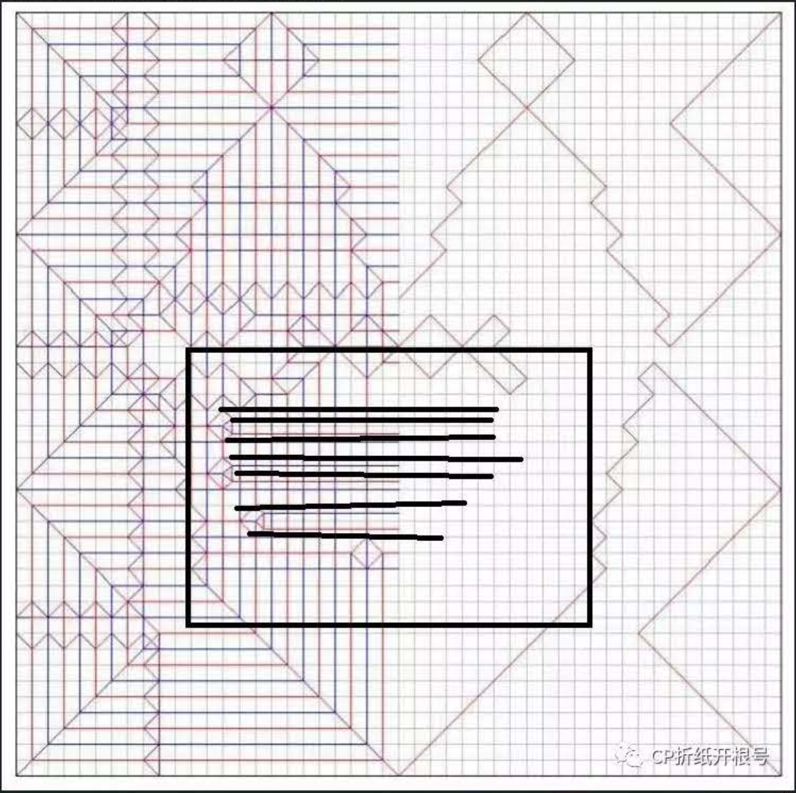
Works in this issue 48 * 48

Everyone has a good grid and a good line, let me start together!

CP折纸开根号

First, as shown in the following figure, we first complete the peak-valley break in CP, and then determine the knot on the scorpion's back.

The reason is to fold this part first. I believe that everyone along the way should understand it without me saying that it is worth mentioning here that during the folding process, everyone folds together on both sides as much as possible to ensure the parallelity of the paper layer. Even.



CP折纸开根号

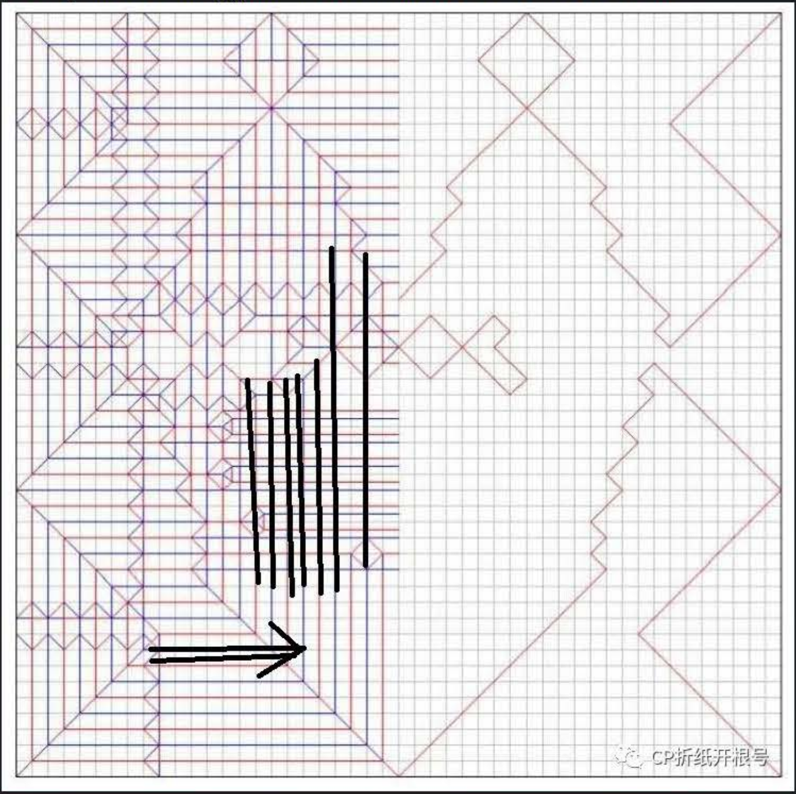
After the peaks and valleys of the "knot" section are pressed, we fix each vertically with two cells, and then slowly gather in the middle from one side to the middle.



CP折纸开根号

When we enter the diamond shape as shown in the figure below, we change the term from two and a half cells to one cell. This is to turn and connect with the zigzag structure.

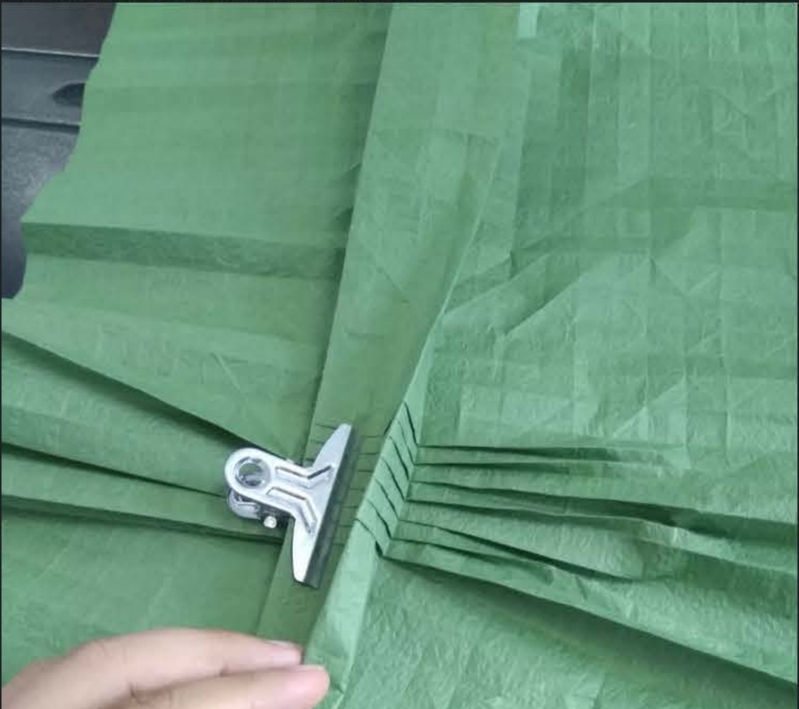
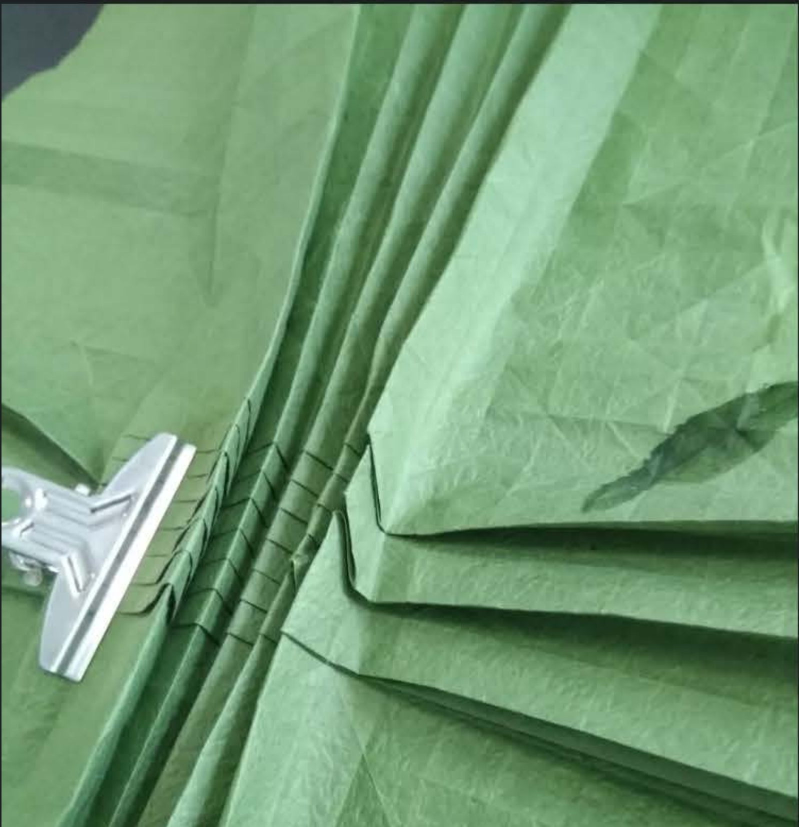
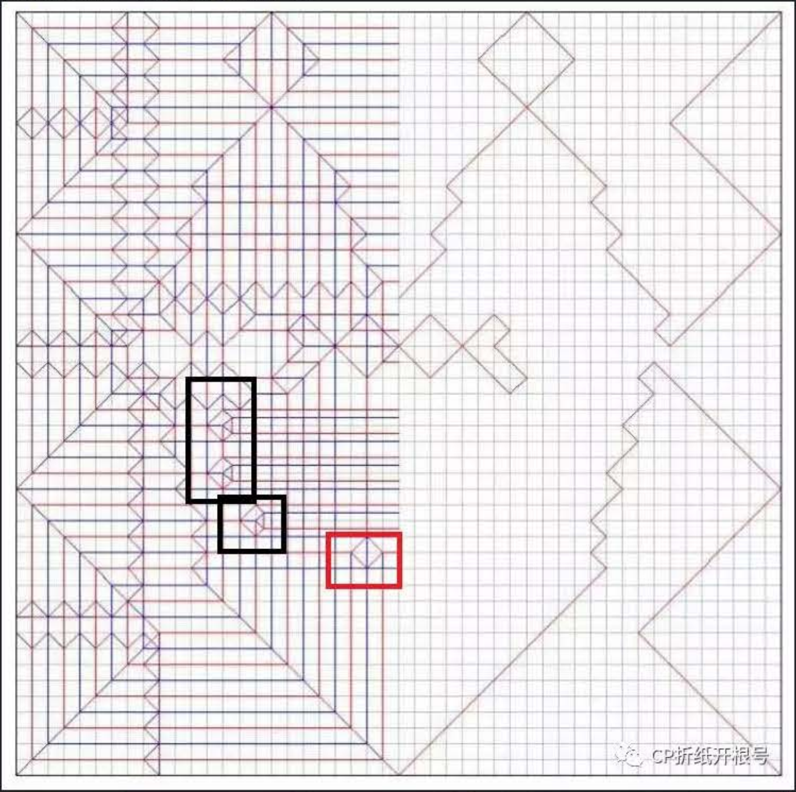
Next we do the same thing on the other side



CP折纸开根号



Let's deal with the small red square structure in the figure below, so that the vertical transition from two cells to one cell



CP折纸开根号

CP折纸开根号

Next, we aggregate the red zigzag structure from bottom to top.

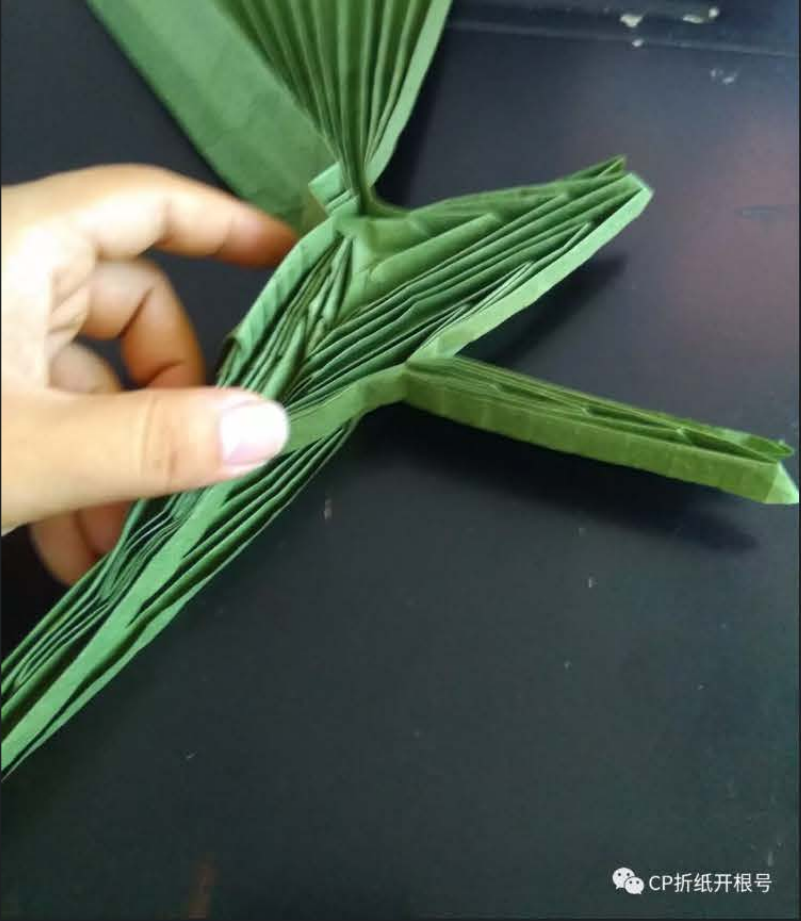
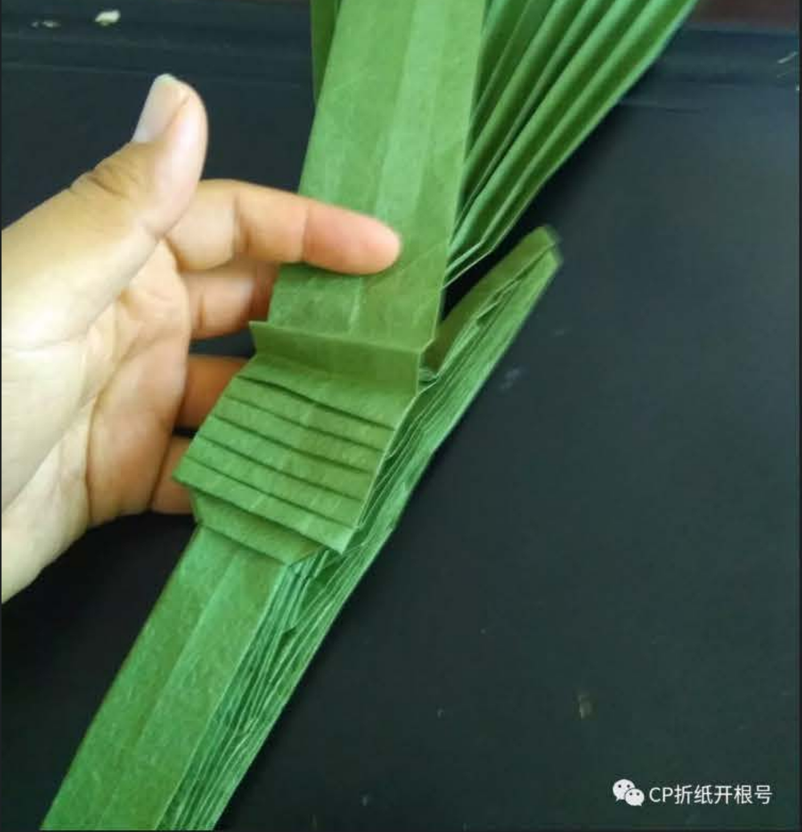
At the same time, we divide out a few good legs

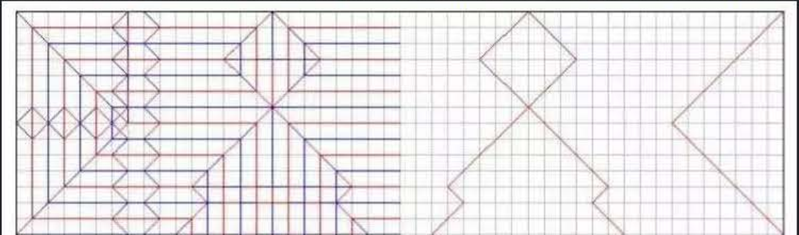


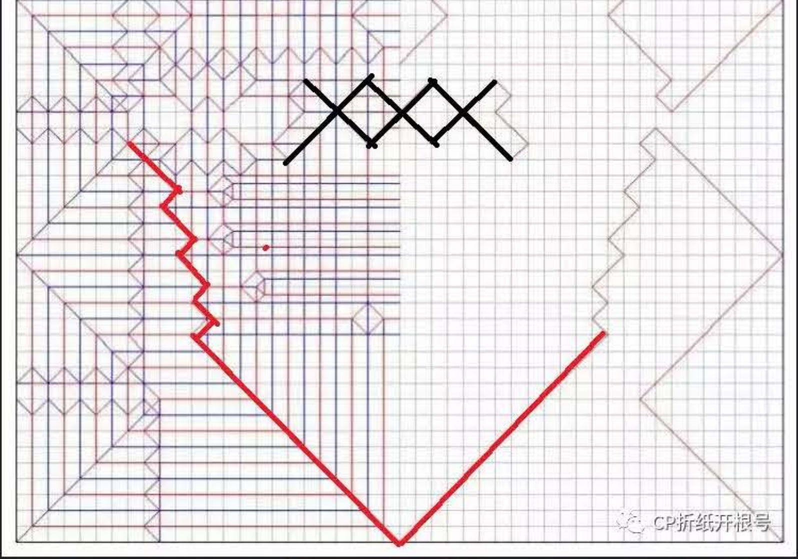
CP折纸开根号

Aggregate the "sections"

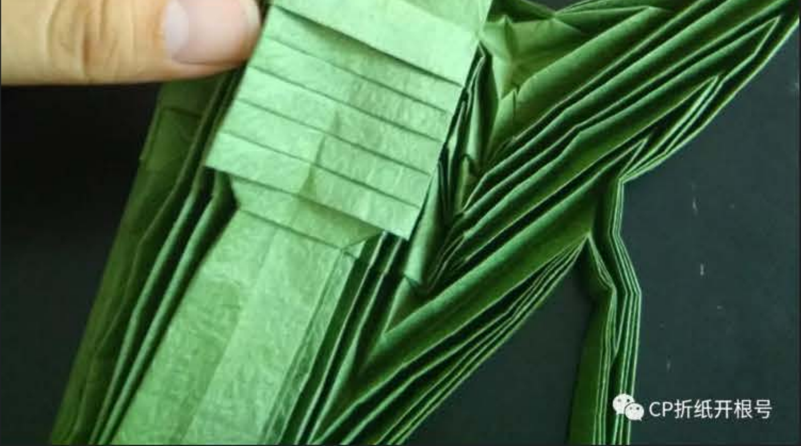


Start processing the black part in the picture below, here is the head of the scorpion

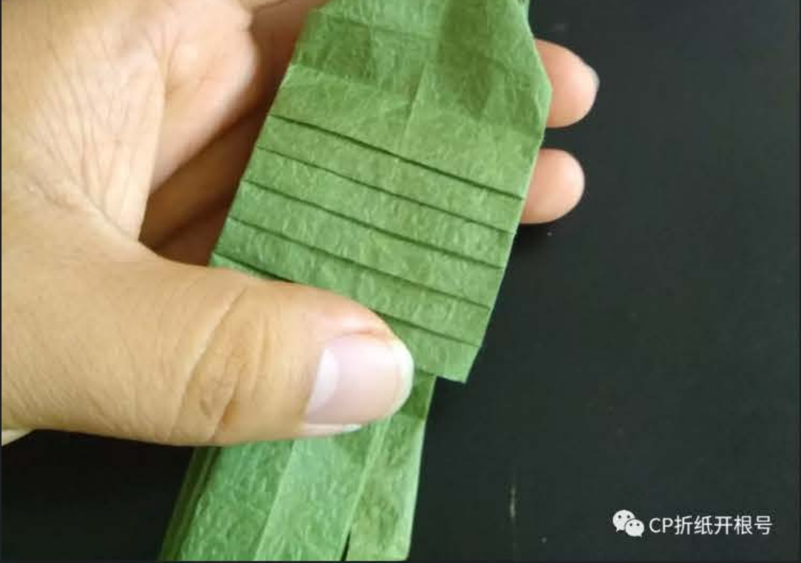




CP折纸开根号



CP折纸开根号



Next, we need to pull out the green area inside the aggregation from the side, pay attention to the prominent part here, so we should focus on the use of peak lines during aggregation.

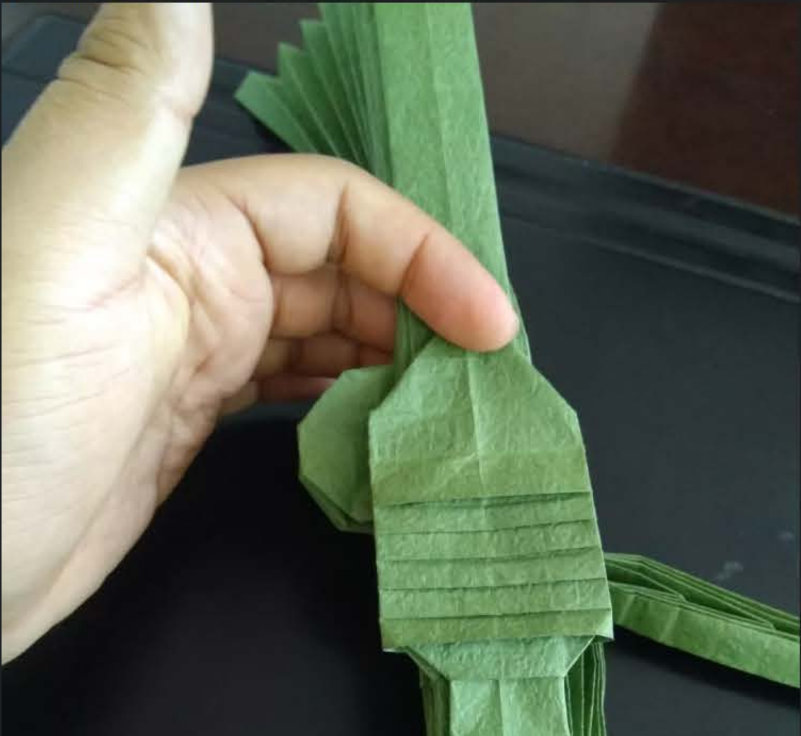
Let's start on the other side

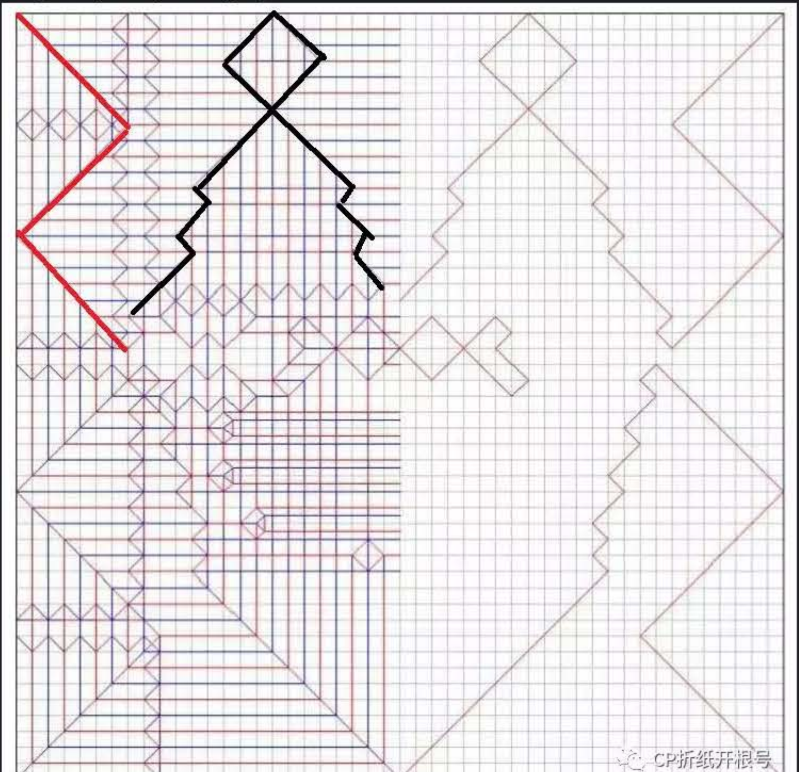


CP折纸开根号

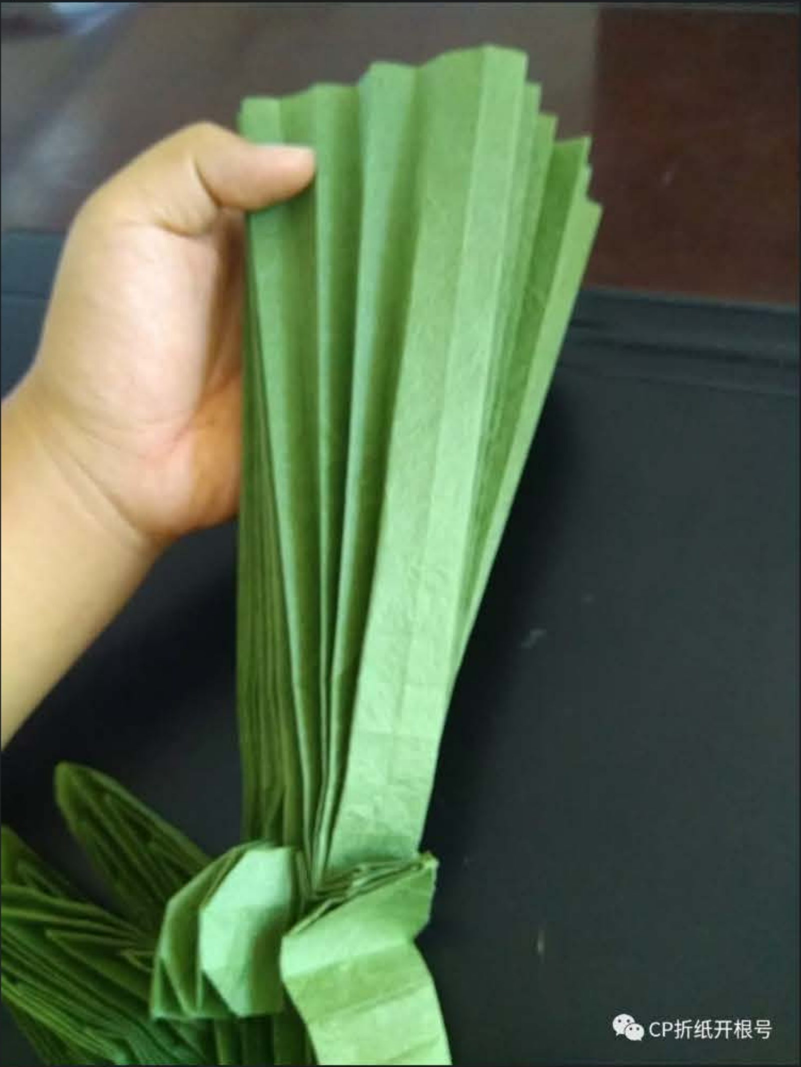
CP折纸开根号

CP折纸开根号

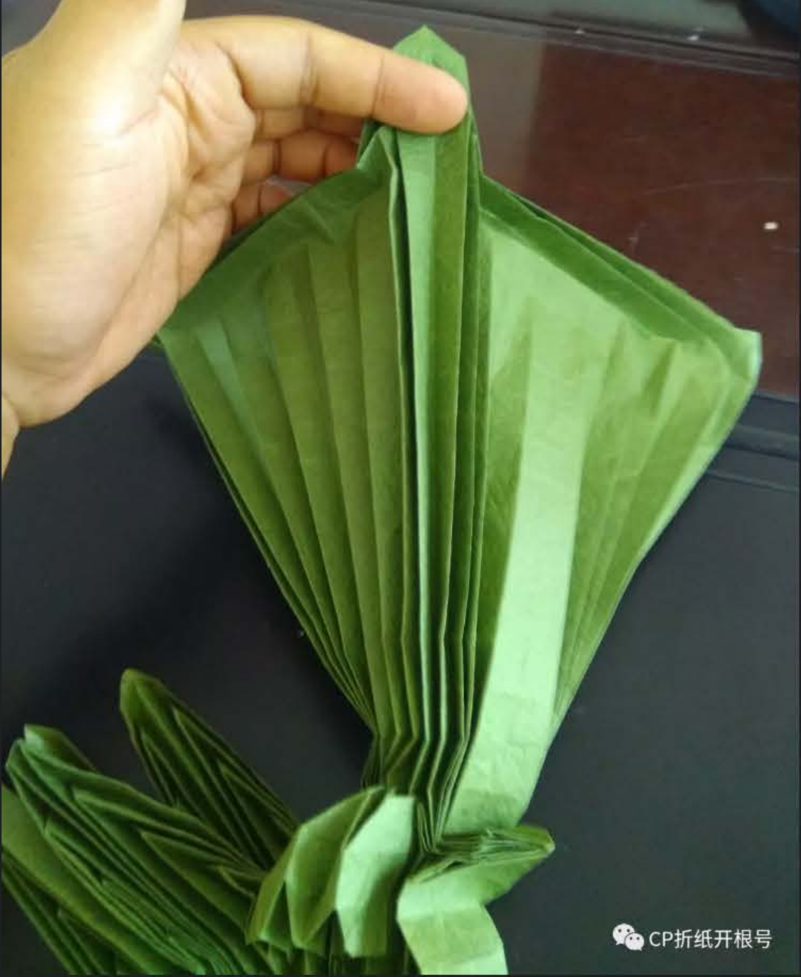
Next, we first deal with the black part according to the following figure. Here there are two zigzag structures in it. During the aggregation, we focus on the coordinated changes, especially the zigzag lines on both sides.



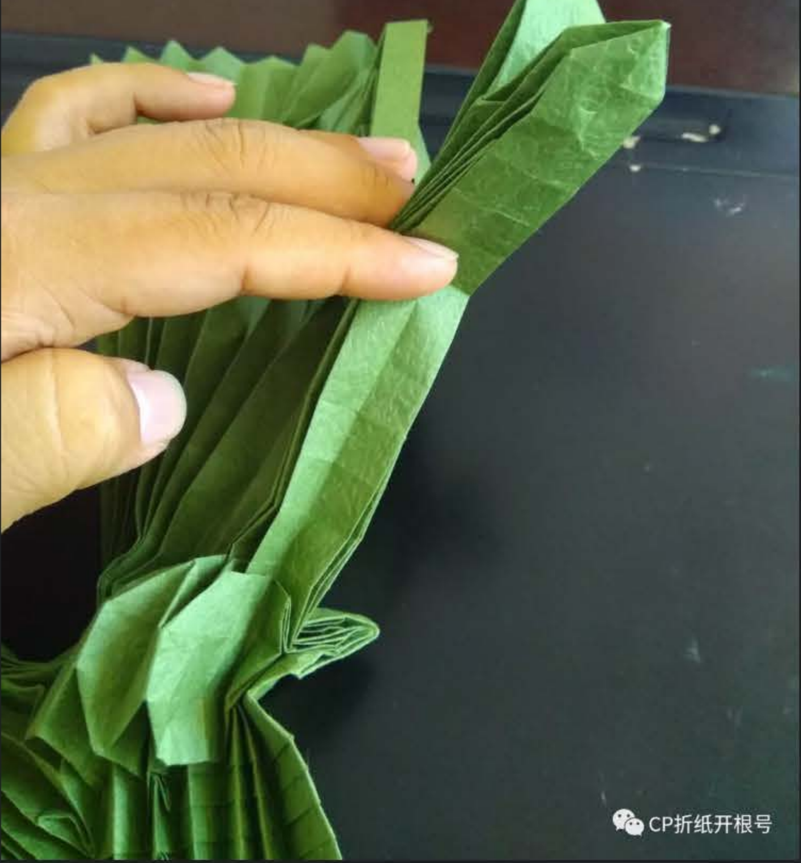
CP折纸开根号



CP折纸开根号

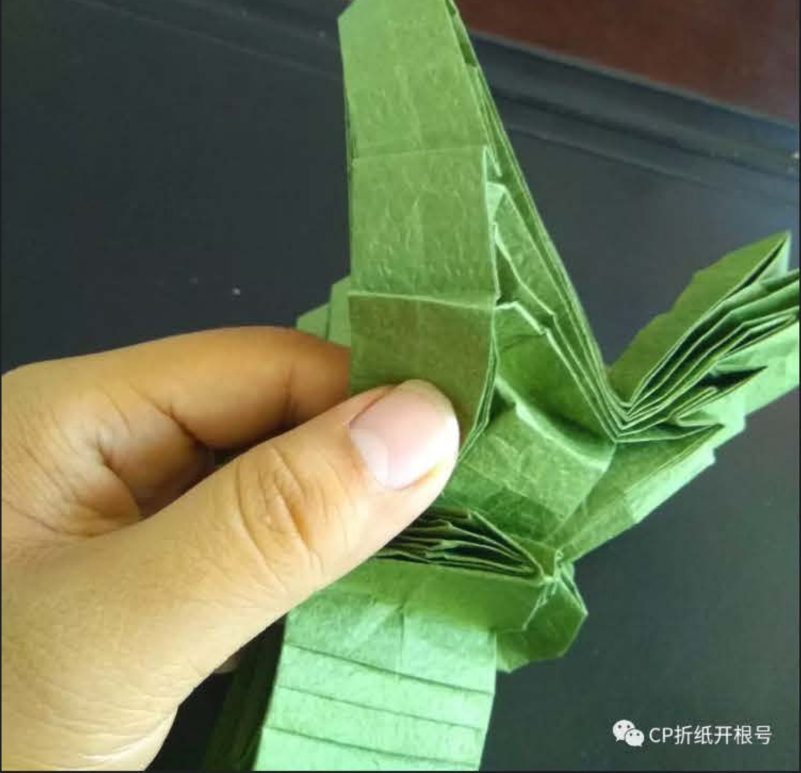


CP折纸开根号



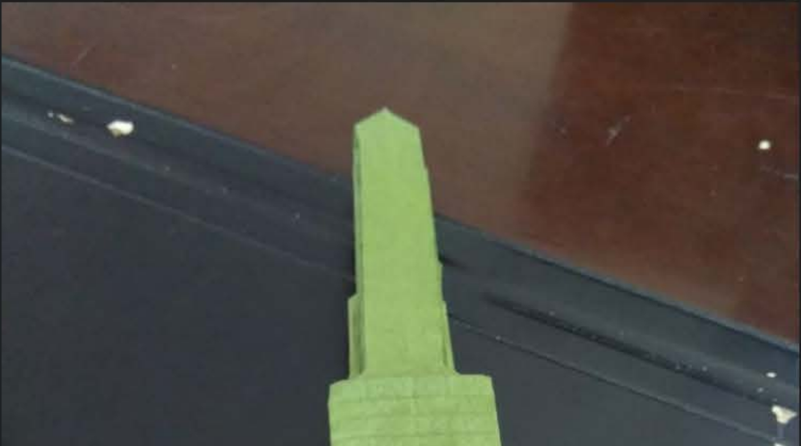
CP折纸开根号

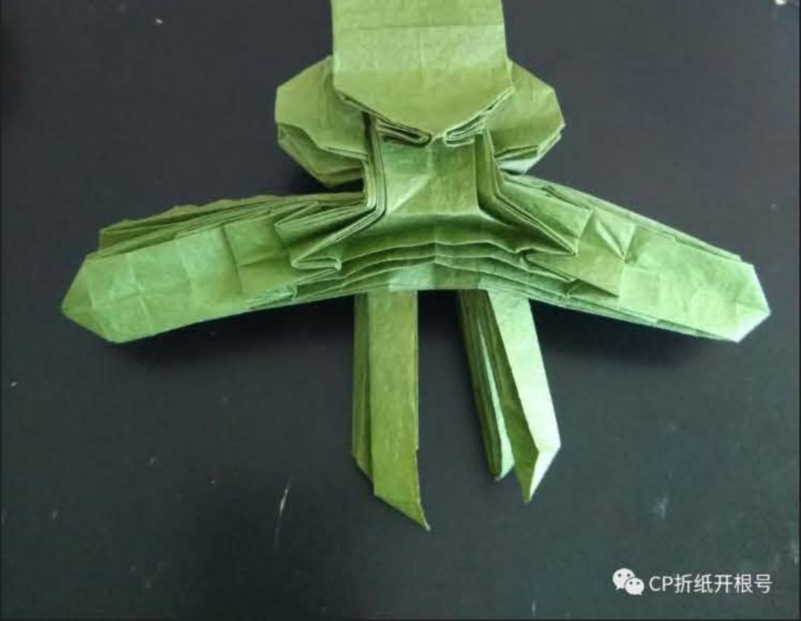
The following figure starts to deal with aliasing



After polymerization, fold to both sides according to CP.

CP折纸开根号





CP折纸开根号

Seeing the shaping here is very simple. Where else is not clear, you can find the key from the front and side paper layers. Come on!
Then

See you next time!

I posted a lot of life sketches and origami sketches, and of course there are original works on display🤔
My Taobao Online Store
Although there is no decoration in the online store and the pictures are not very beautiful, the works are still complete, and I can order CP works that are not in the store. Of course, it also includes the aggregated semi-finished products and finished products of almost all the works explained by the public account. And line paper for sale.
