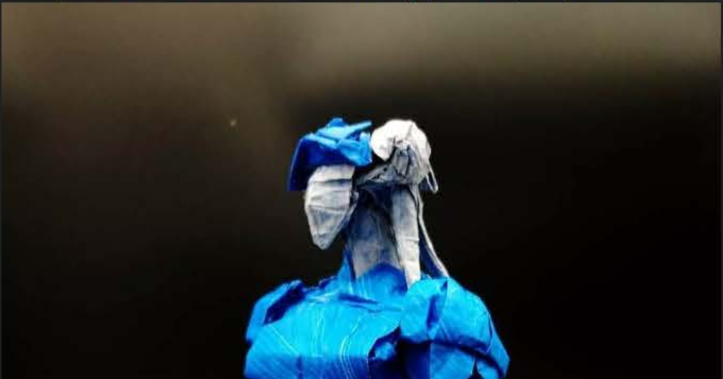
Origami Sharing Series No.35 The 98th Issue of the Origami Character Return Chunli CP

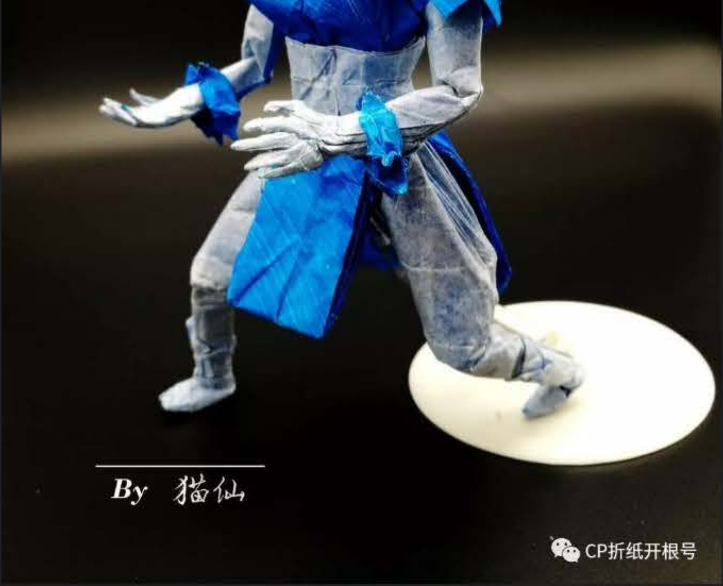
Original origami student Takayama CP origami opening number2019-06-01

Hello everyone, welcome to CP Opening!
The character origami is here again,
and so,
Talk about this issue: Chunli
Chun Li (Japanese: チューリー) is an original virtual female character in the classic fighting game "Street Fighter" series produced by CAPCOM. Chun Li represents a Chinese fighting player in the game.

Chunli is a beautiful ICPO (Interpol) special investigator. In order to avenge her father who was killed by the evil leader Vega who tried to conquer the world, she resolutely joined the criminal police industry. Gentle and kind, she often cried for her missing father.

In addition to being proficient in Chinese martial arts, Chunli also won the International Police Shooting Competition with her sixth place and was awarded the title of "The World's Strongest Woman". She is a very powerful female martial artist. She independently researched the boxing techniques taught by her father, added her own understanding, and hone her skillful jumping skills to form a unique Chunli combat. The most prominent is the use of her foot strength, balance, and palm.





CP折纸开根号

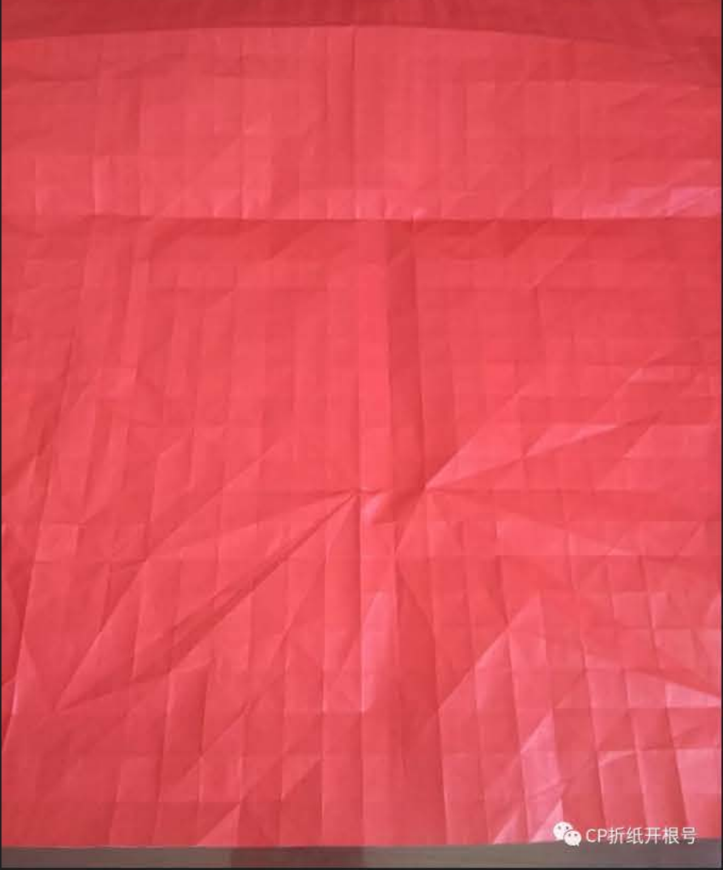
Works in this issue 40--40 squares, partial 80 equal parts

Now, please prepare a piece of two-color paper of more than 50 centimeters.

CP折纸开根号

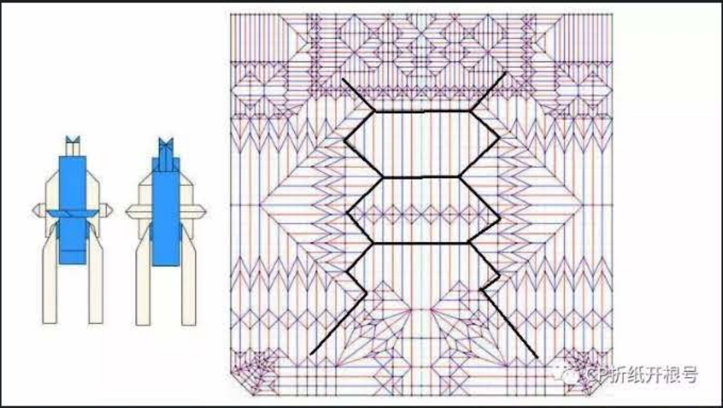


CP折纸开根号

First, start with the long line in the middle, and move 4 squares to the center.

CP折纸开根号

Below we follow the picture below, the black line part does a large sawtooth operation, and then the two sides are gathered together

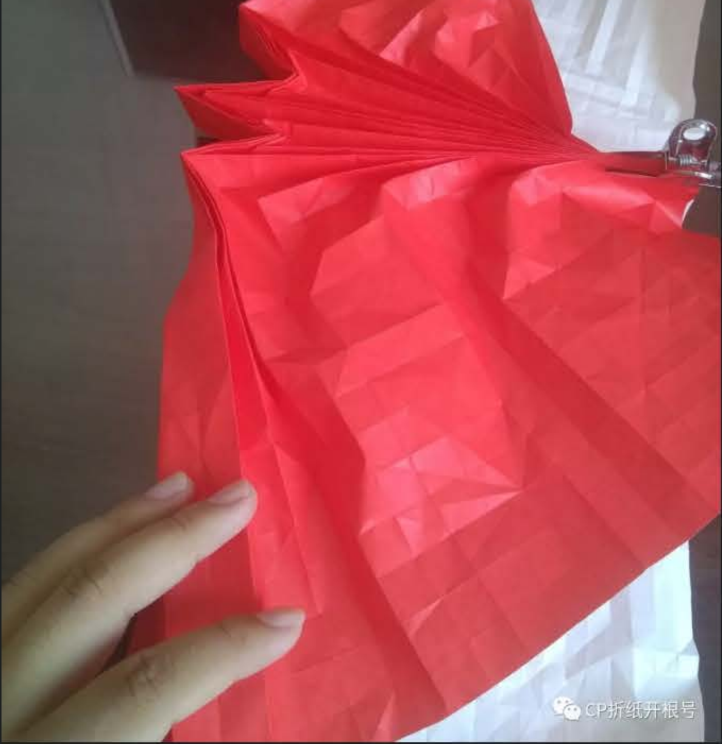


CP折纸开根号

CP折纸开根号

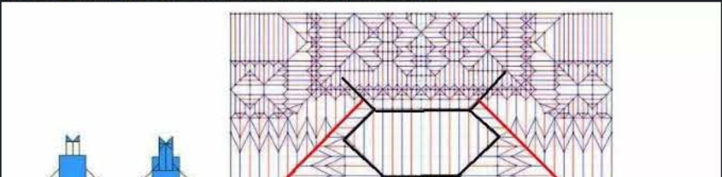
CP折纸开根号

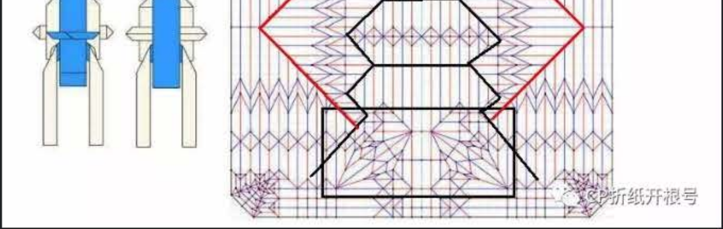
CP折纸开根号



CP折纸开根号

Do the same on both sides. After that, the red line part is preferentially converged, and then the part inside the black frame is converged.





CP折纸开根号

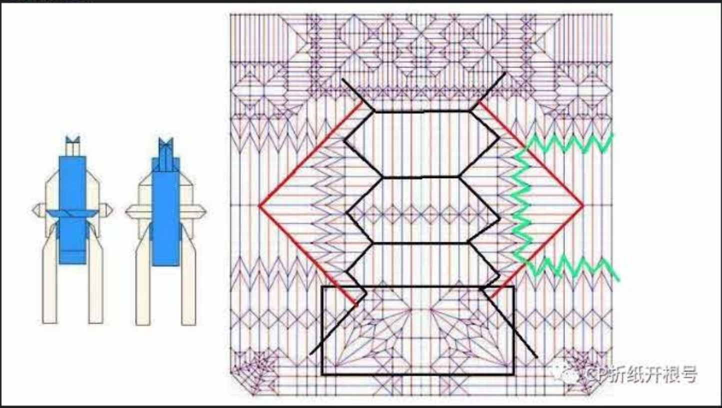
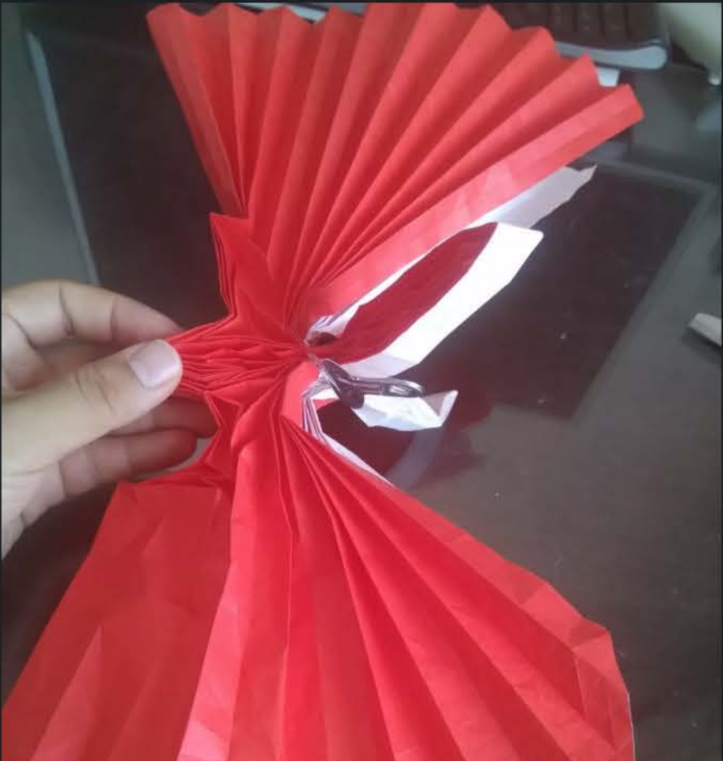
There are relatively many short lines here. Before we said that there are similar structures, we must first deal with those same peaks and valleys, and then consider the opposite and connected short lines with peaks and valleys, which is exactly this structure.



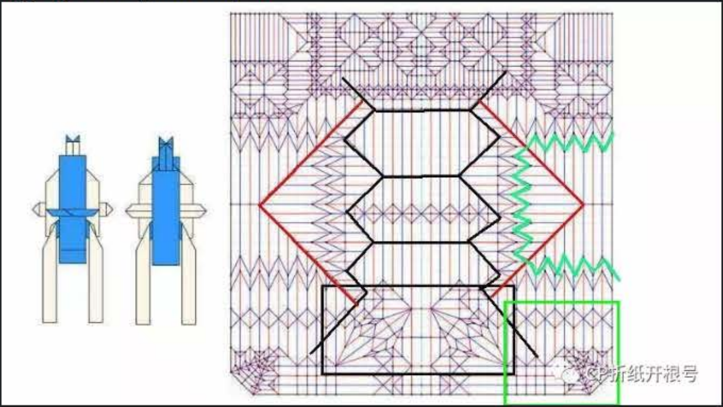
CP折纸开根号

CP折纸开根号



CP折纸开根号

Next we aggregate the black box part of the figure below, and then synergistically aggregate the green box part



CP折纸开根号

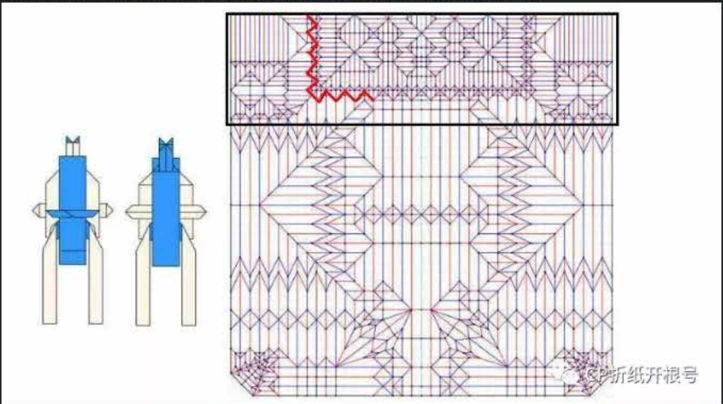
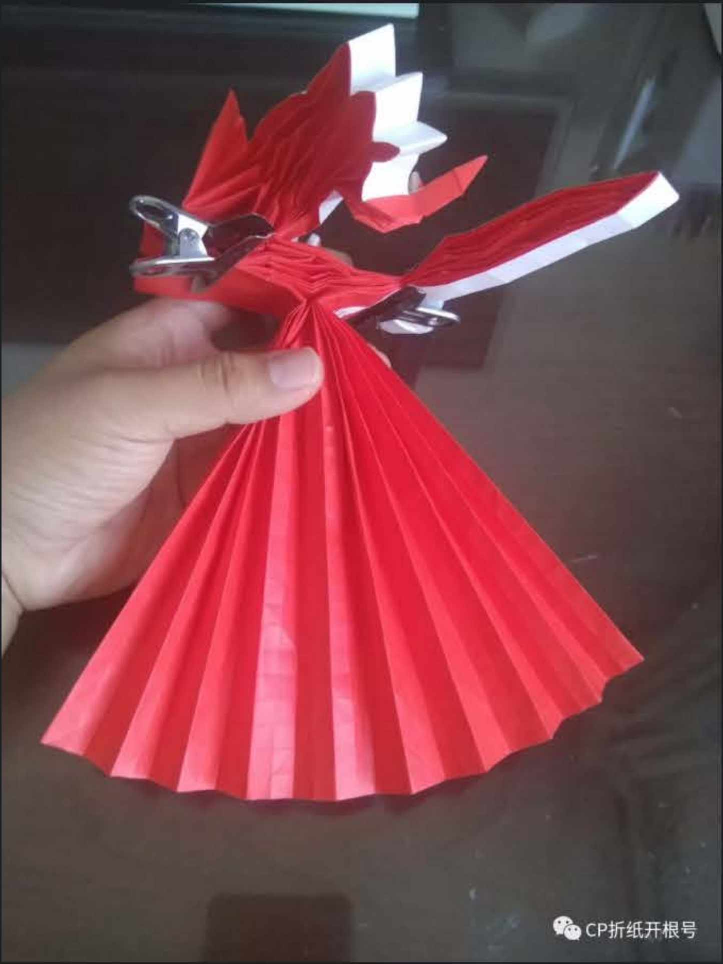
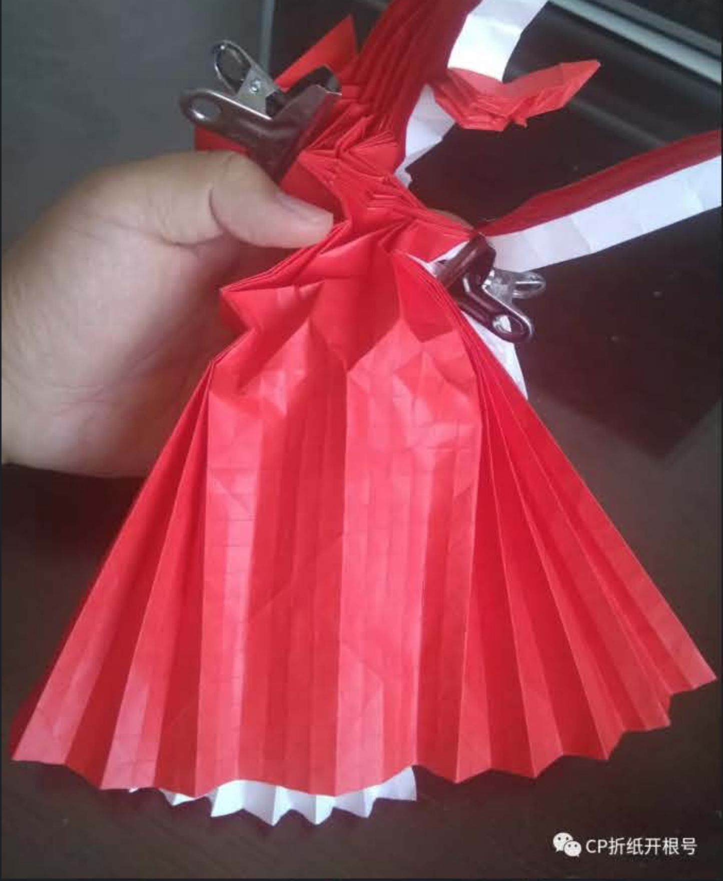
Let's start with the upper half, which is the head and chest.



CP折纸开根号



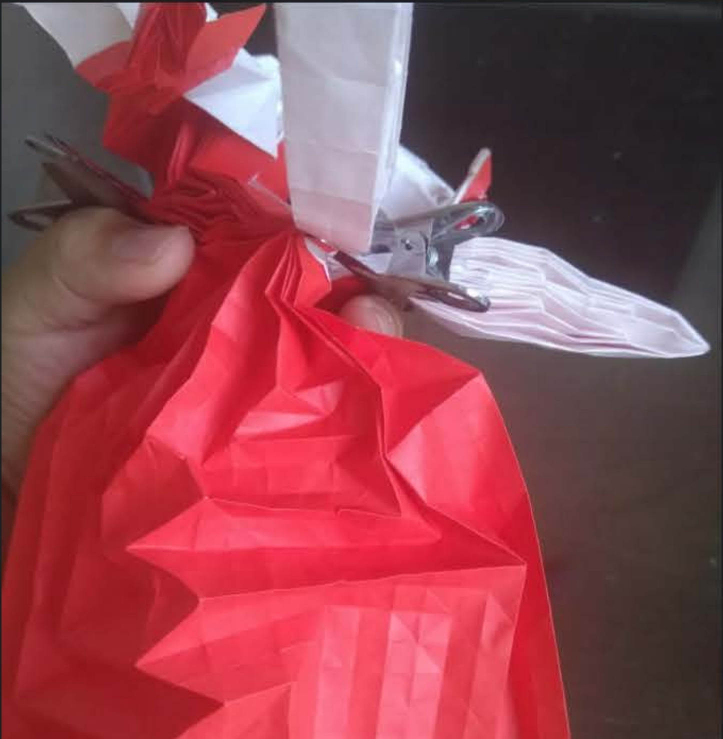
Fix the other parts, and then gently pull apart the part we want to aggregate, because there are reversed colors and 80 equal parts of the sublimation treatment, so you need to be careful during the polymerization.



CP折纸开根号

CP折纸开根号

CP折纸开根号



CP折纸开根号

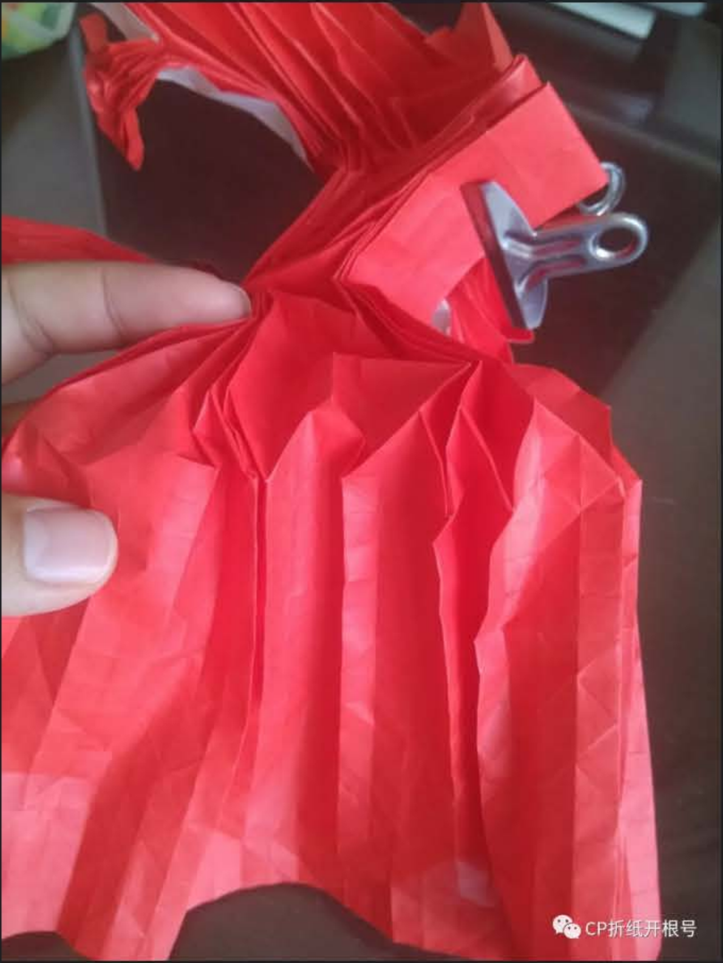
So far we have operated on the basis of 40 equal divisions, but in the process from 40 to 80, we must pay attention to the structural changes of other cooperative lattices.

CP折纸开根号

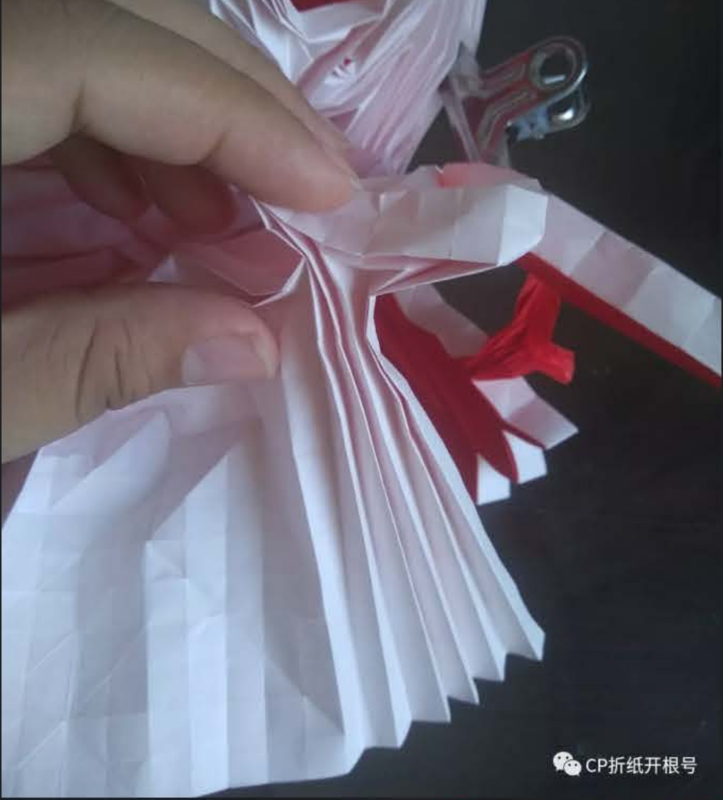
CP折纸开根号

CP折纸开根号

CP折纸开根号



CP折纸开根号



CP折纸开根号

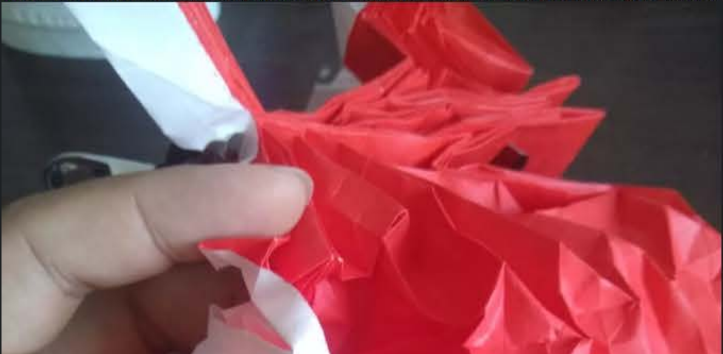
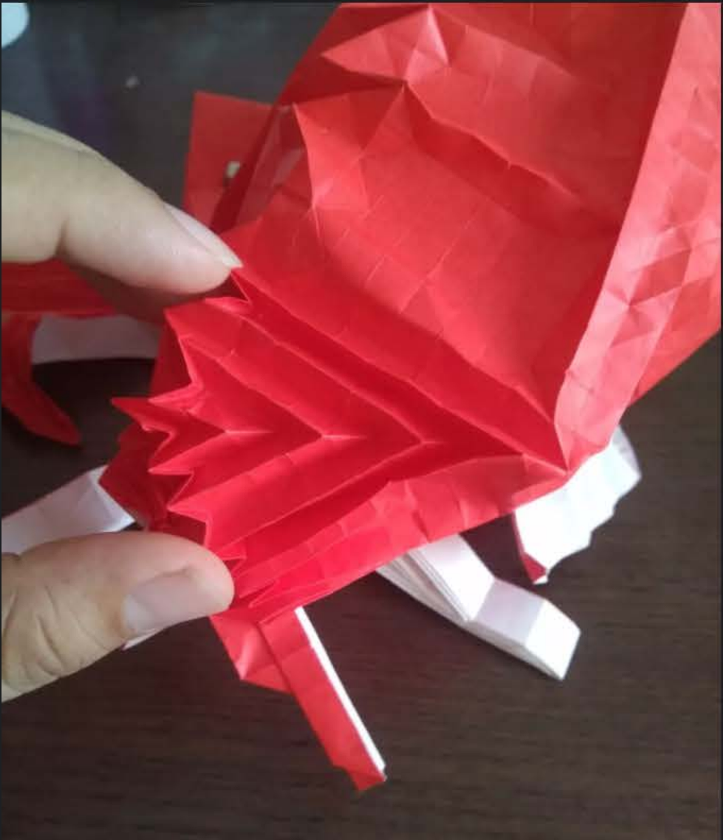
After both sides are pulled apart, it is still the edge of the priority aggregation



CP折纸开根号

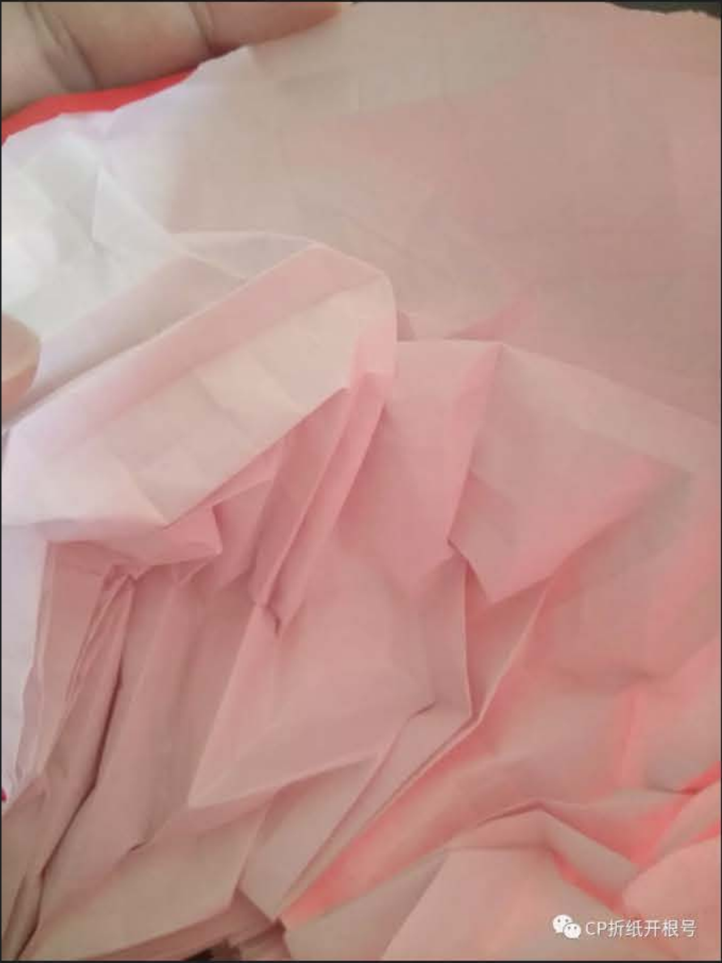
CP折纸开根号

The upgrade process starts below, from 40 --- 80



CP折纸开根号

Because there are many inversion operations, you can use white surface to aggregate here.



CP折纸开根号

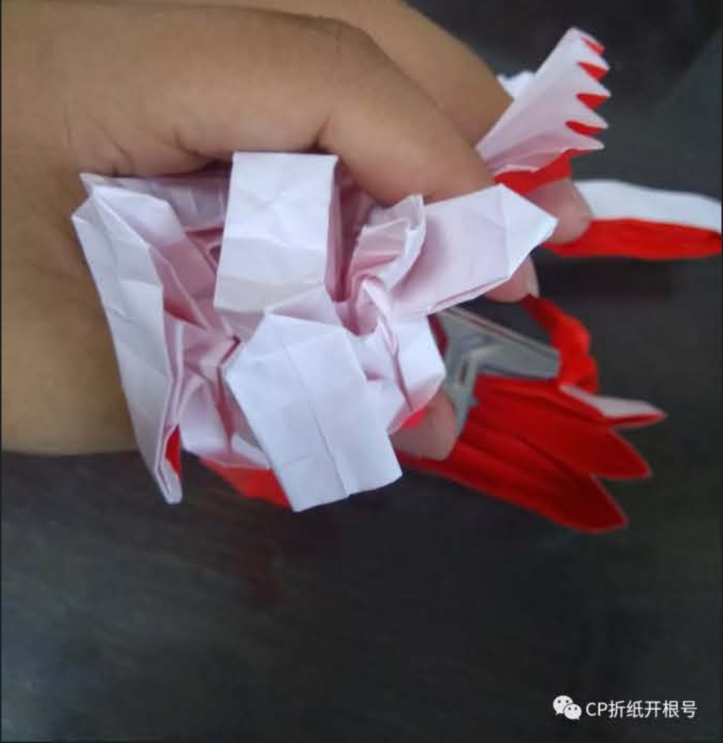
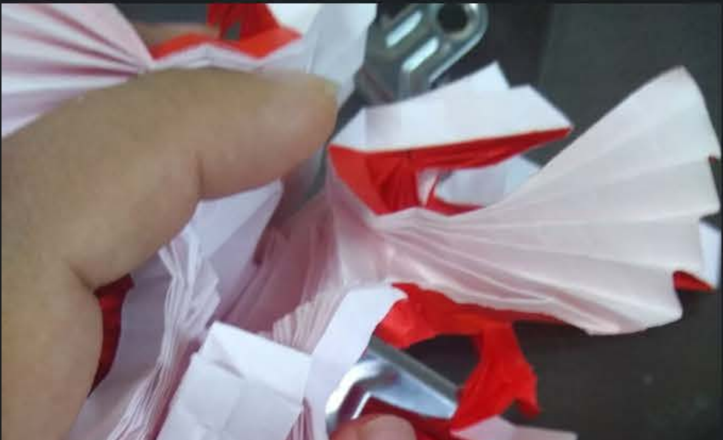
After converging to the middle face, it's almost all done. Now we need to organize branches according to CP.

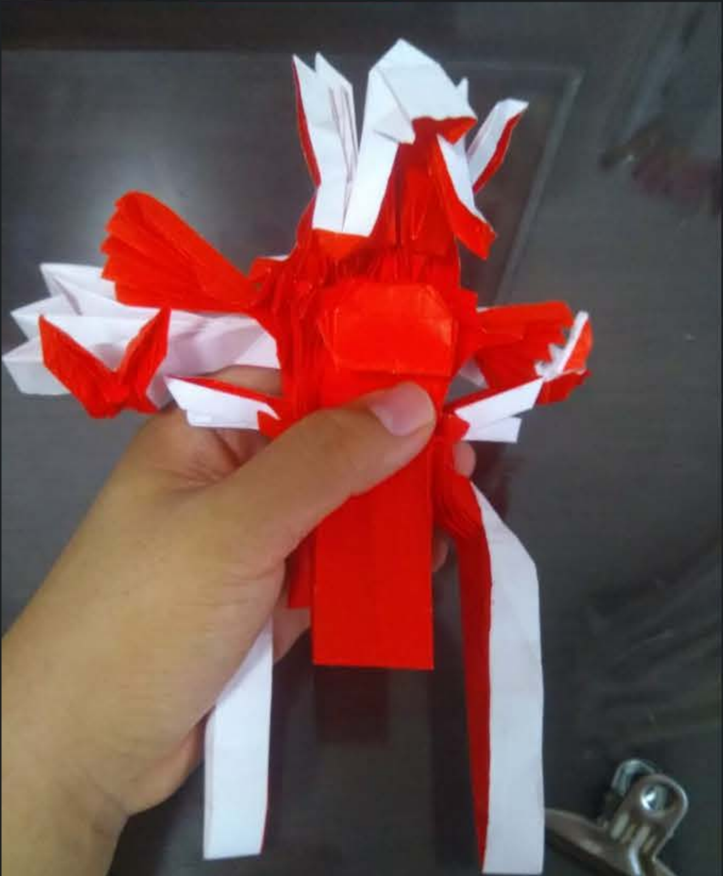


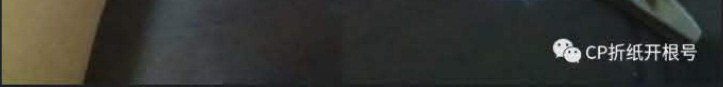
CP折纸开根号



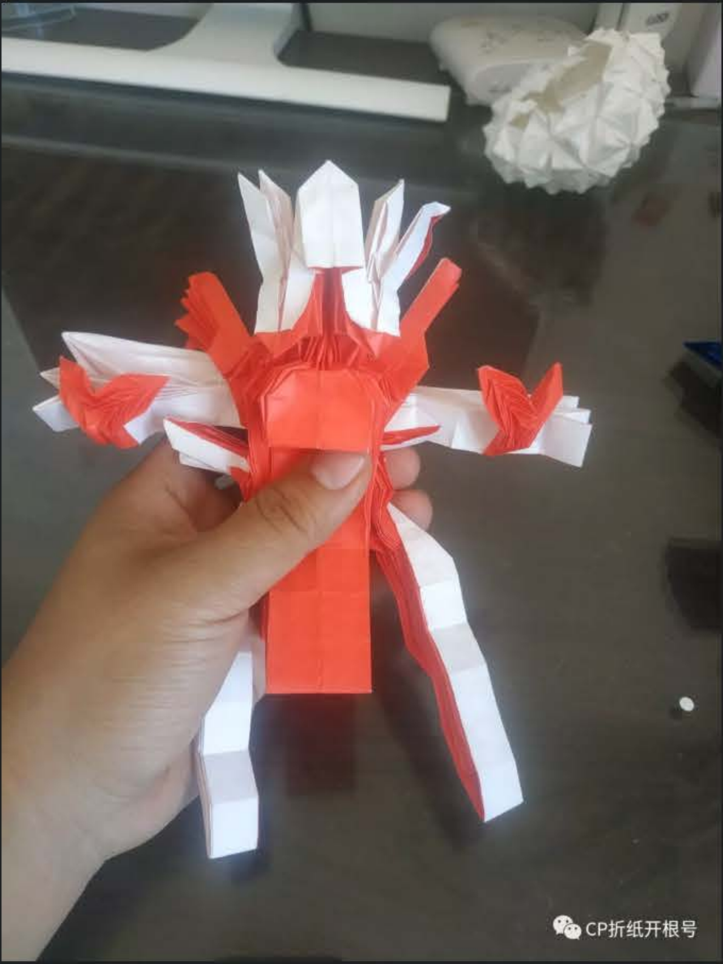
CP折纸开根号

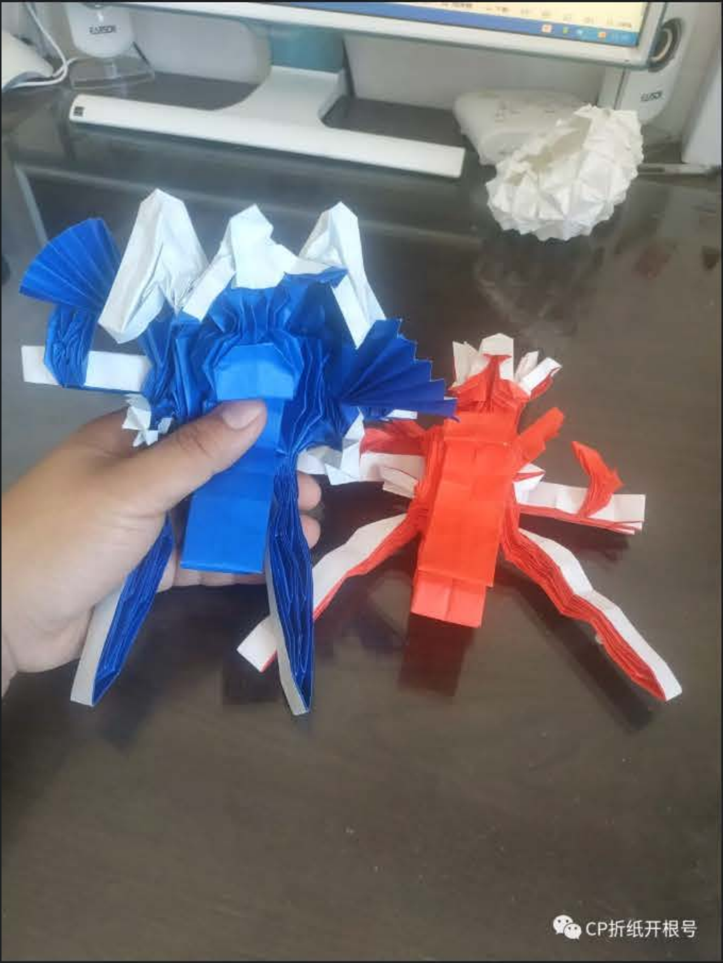
CP折纸开根号





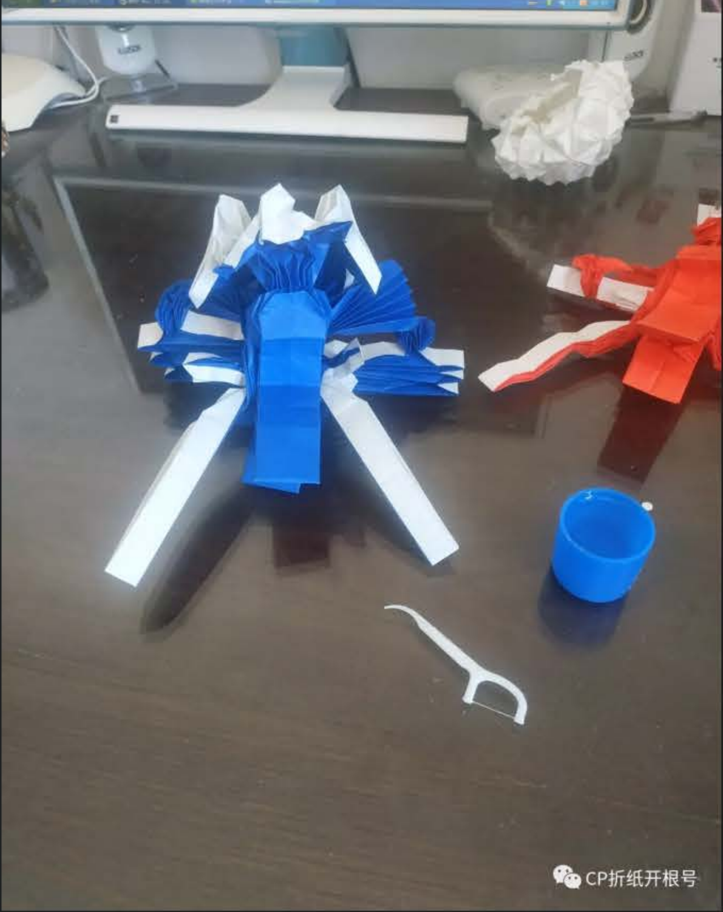
Convergence is basically complete here, but we still have to carefully adjust the branch position





CP折纸开根号

In order to get closer to the original, I took the time to fold another blue and white, the plastic process only represents personal preference.



CP折纸开根号

** ****************

Here are some real shots of the shaping process. The basic idea is to first pull out the paper layer in the middle of the arm and pinch out the fingers, and then make the pointed bracelet on the hand. Here I only do the right hand

Then put the waist out, straighten the legs, arrange the head and chest after finishing, and finally the shoulders.

In general, the paper is still a bit thick. In the process of waiting for the glue to dry, you have to fine-tune the body lines, the size and shape of the chest, and then the face shape. My entire model looks a little weak and not so strong. Everyone can Make your breasts smaller, your arms thicker, and adjust your face a bit wider, not so fine. As a result, you will find that you are much stronger immediately. In short, everyone has different ideas. Come on, Minasan!

Well,
That's it for this issue!

See you next time!
