Origami Sharing Series No.33 The 93rd Issue of Eater CP

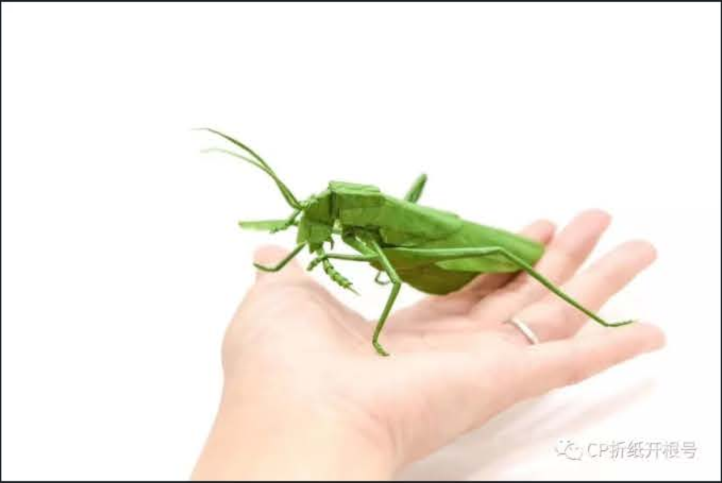
Original origami student Takayama CP origami opening number2019-04-26

Hello everyone, welcome to CP Opening!

Today we talk about the CP of insects. The works in this issue should be tadpoles or locusts. I don't know a bit about this, so I named them gnaws according to their status.

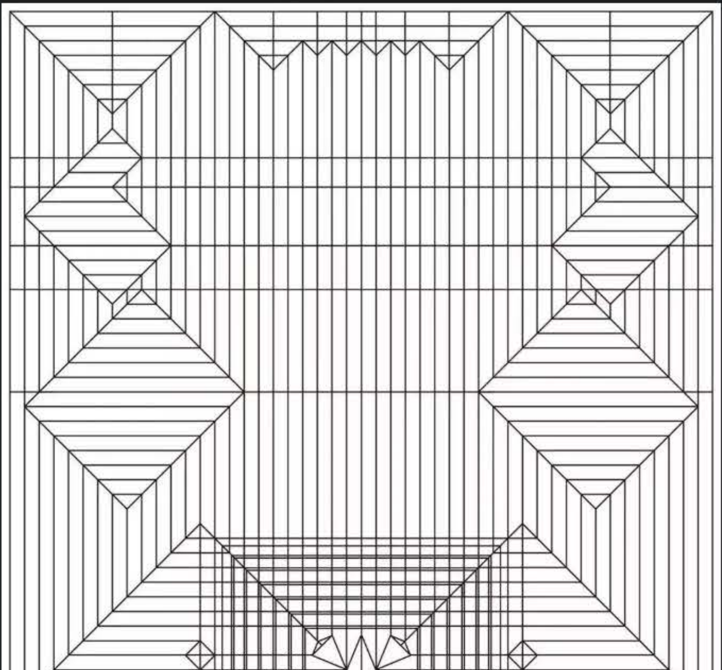
In fact, no matter what kind of bug, most of them are harmful to our food crops. Now that we ca n't eat them, let 's fold them first! !! !!

Let 's take a look at the CP we are talking about today!



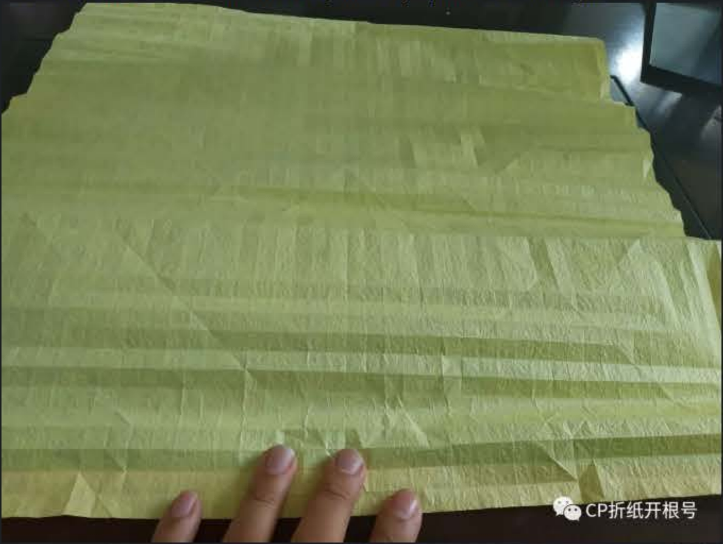
CP折纸开根号

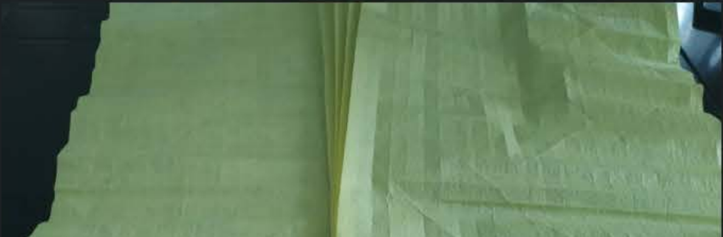
CP折纸开根号



CP 48 * 48 square

First of all, find paper, the size is preferably around 40, if it is wax paper, it can be around 30
48 halves, then tie the line, then expand to prepare for convergence.

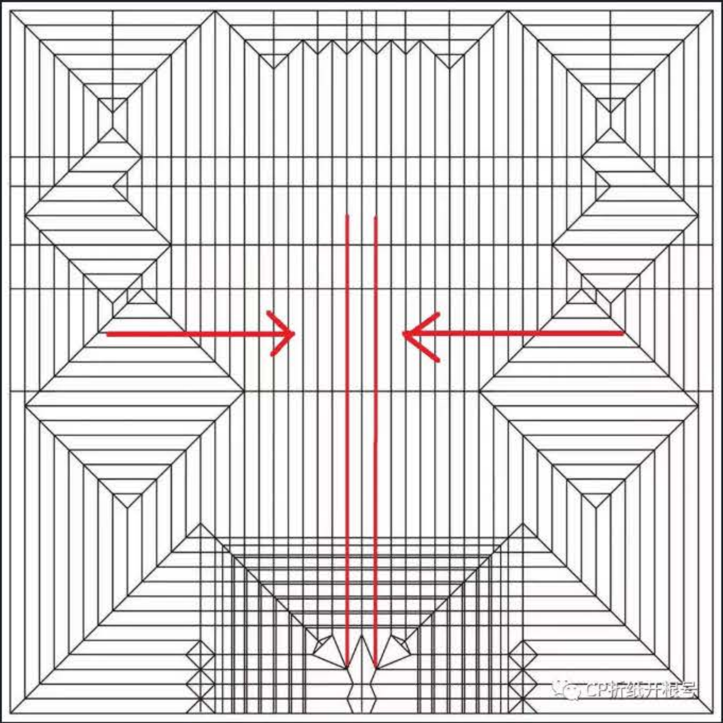




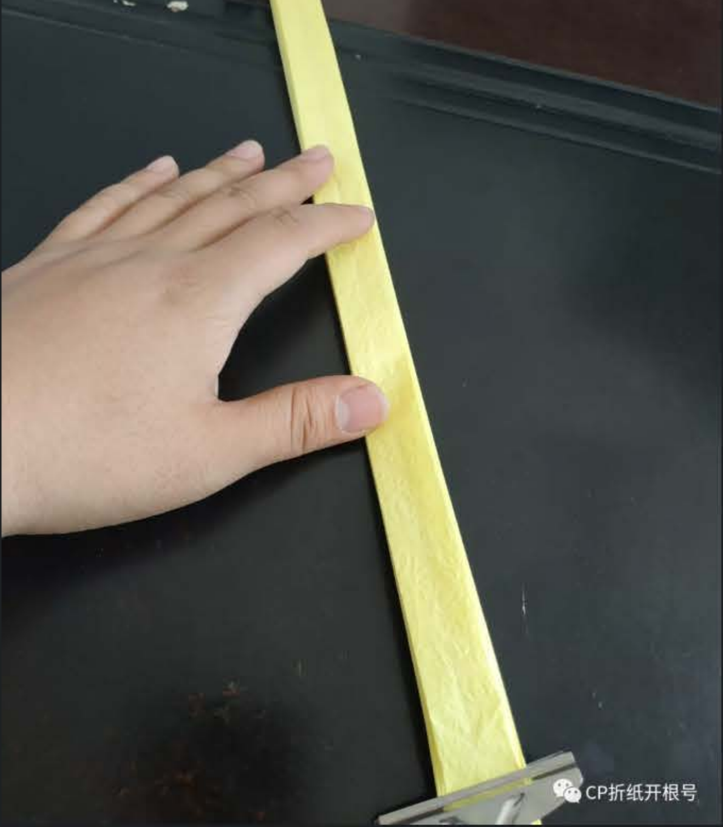
CP折纸开根号

CP折纸开根号

From the middle, peaks and valleys are aggregated toward the middle in units of one division.

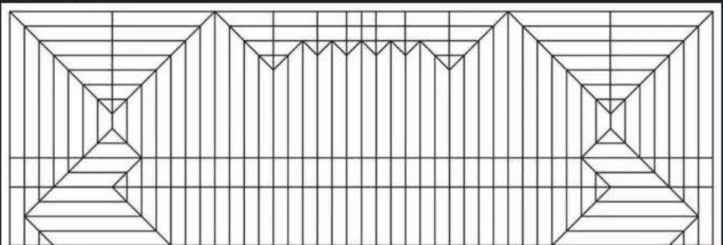


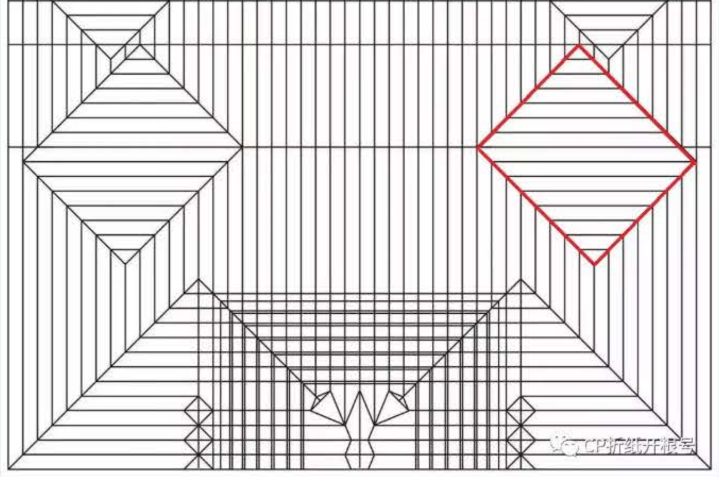
CP折纸开根号



CP折纸开根号

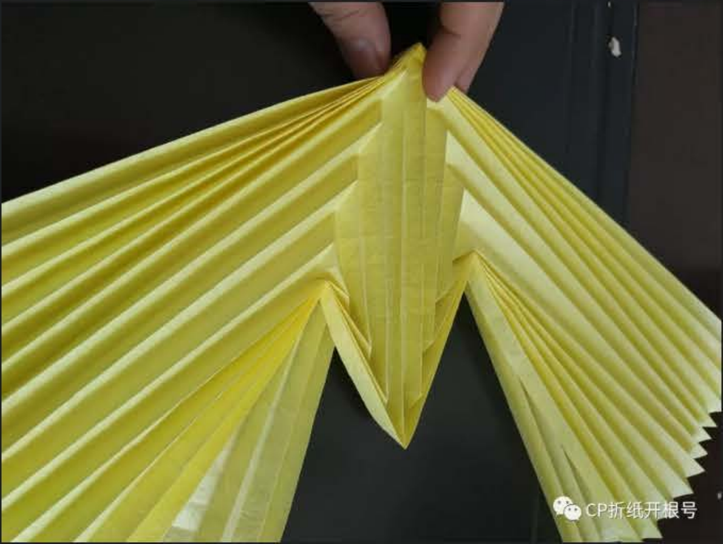
Next we follow the picture below to pull apart the part we just gathered
As shown in red





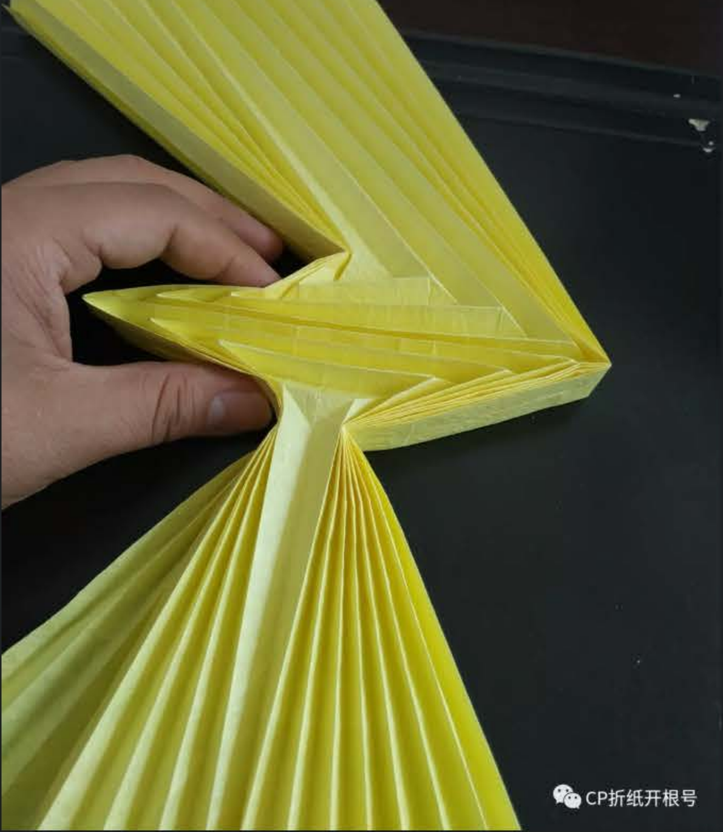
CP折纸开根号

CP折纸开根号

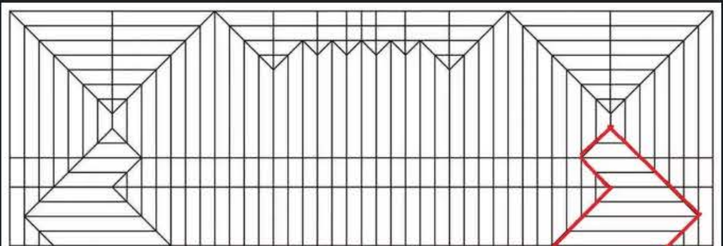


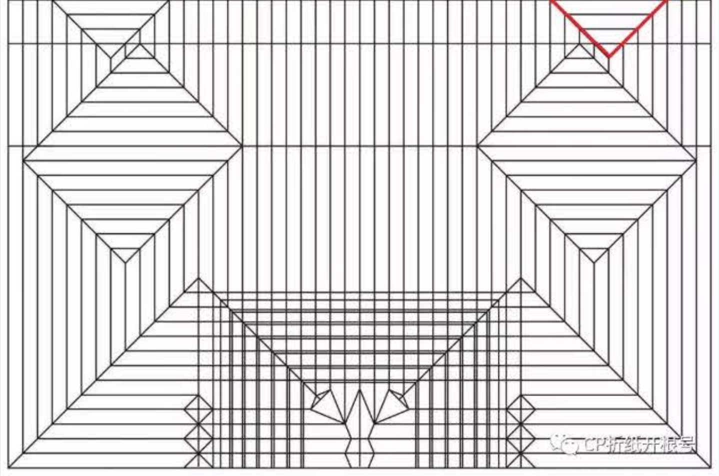
CP折纸开根号

Same practice on both sides

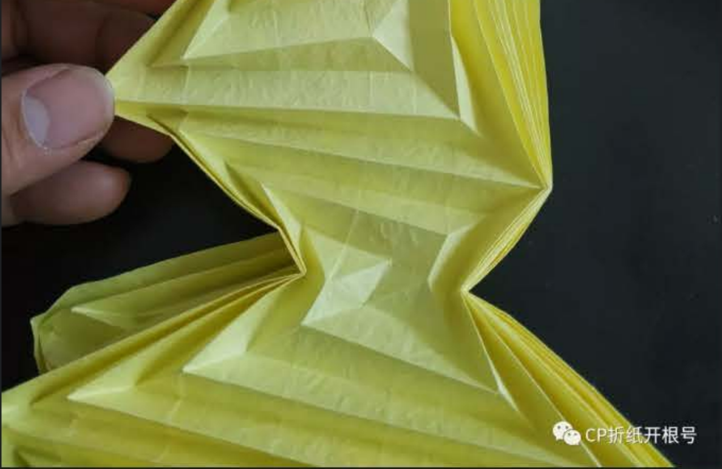


Below we aggregate upwards, the specific opening part is the red part in the figure below (the same approach on both sides)

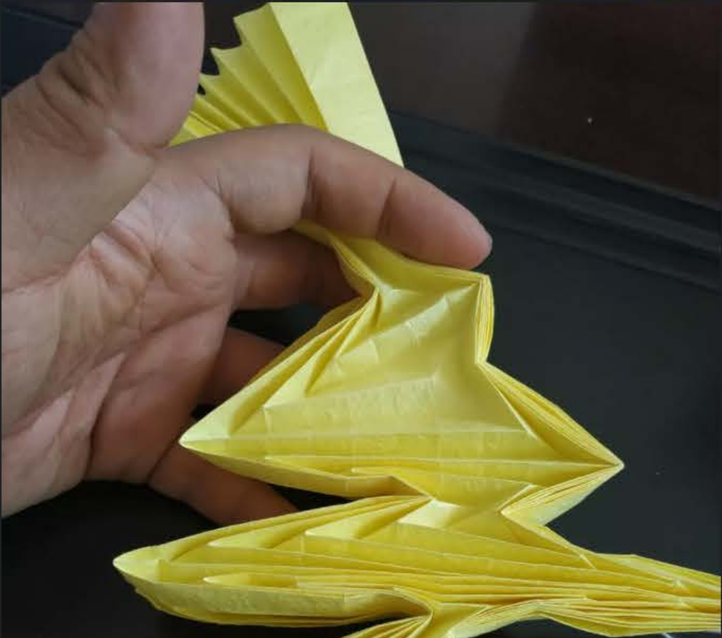




CP折纸开根号

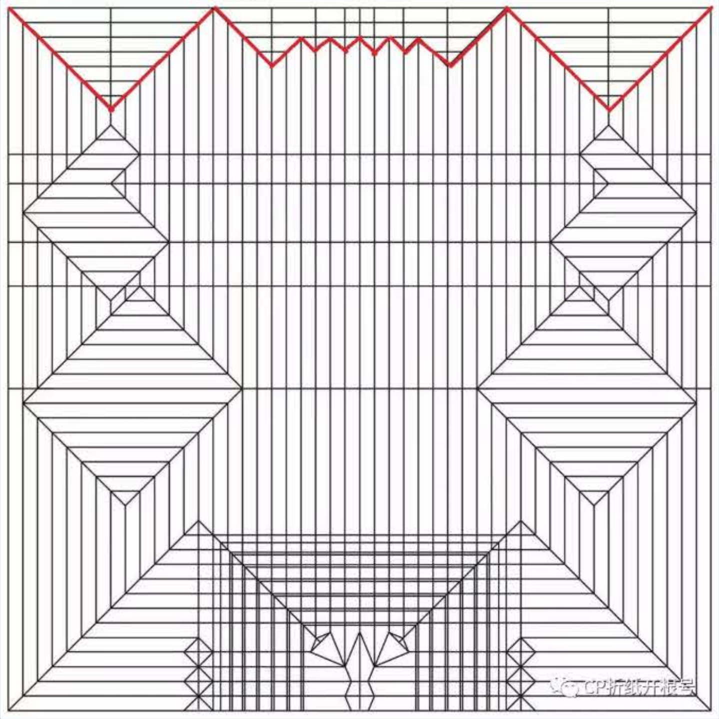


CP折纸开根号

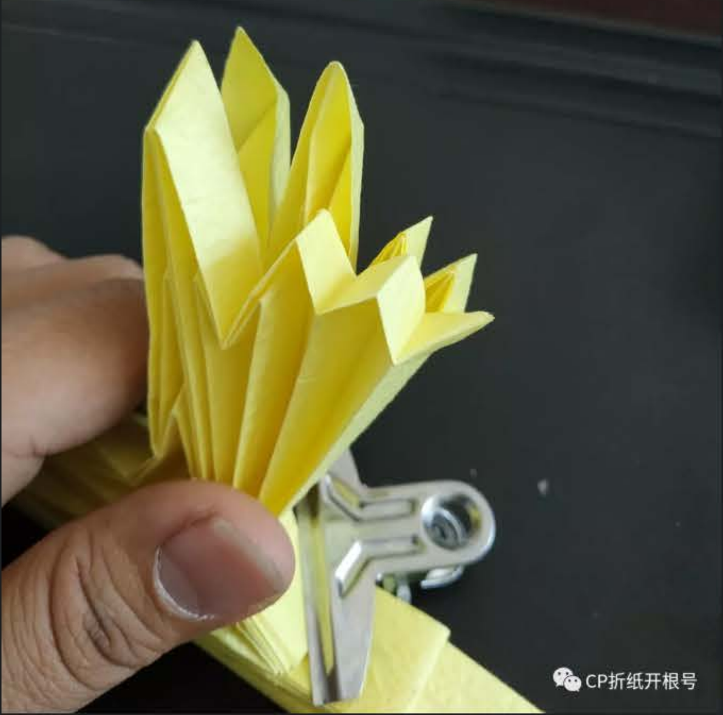


CP折纸开根号

Next aggregate some small branches on top
Pull apart first and slowly aggregate



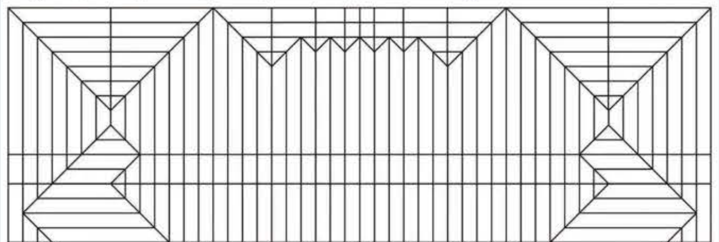
CP折纸开根号

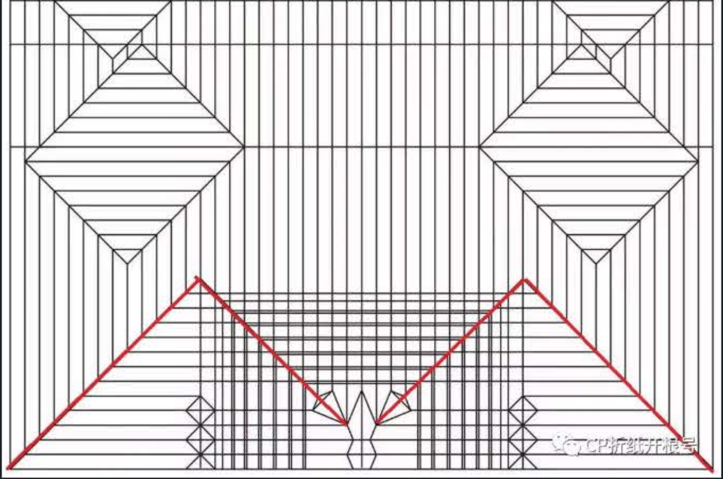


CP折纸开根号

After the aggregation is completed, we slightly fix the upper part, and then aggregate the lower part.

Here we give priority to long lines, the red part of the figure below

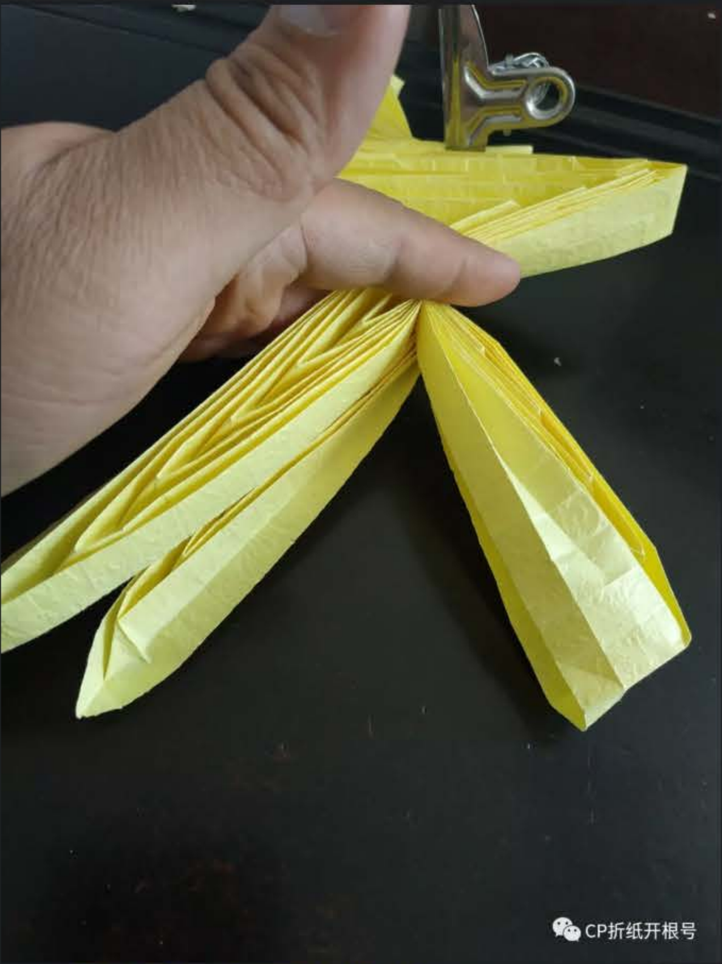




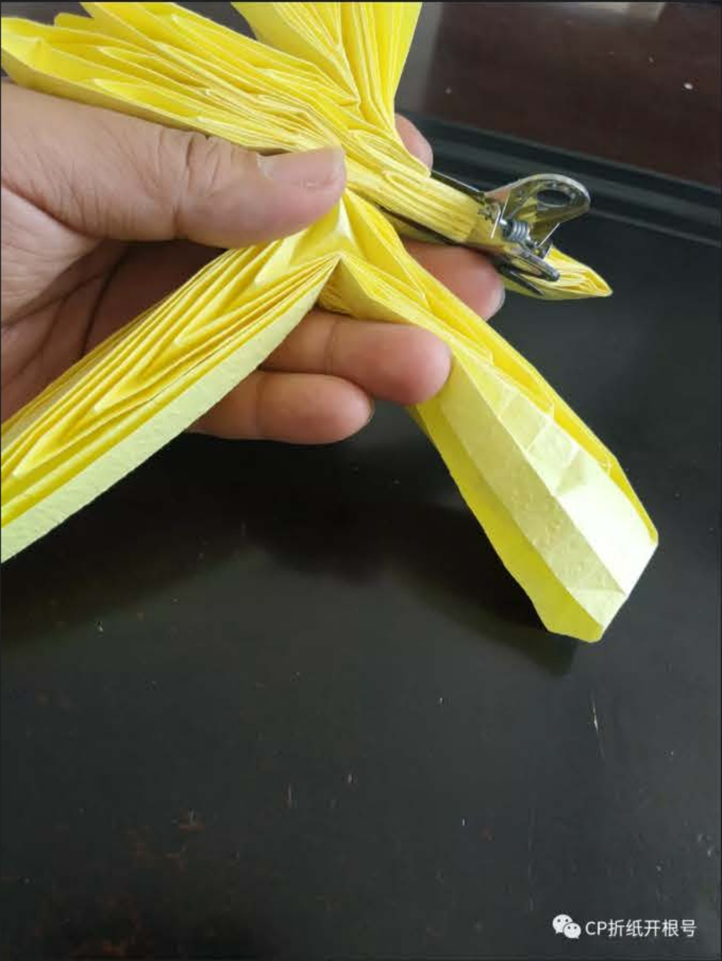
CP折纸开根号

CP折纸开根号

CP折纸开根号

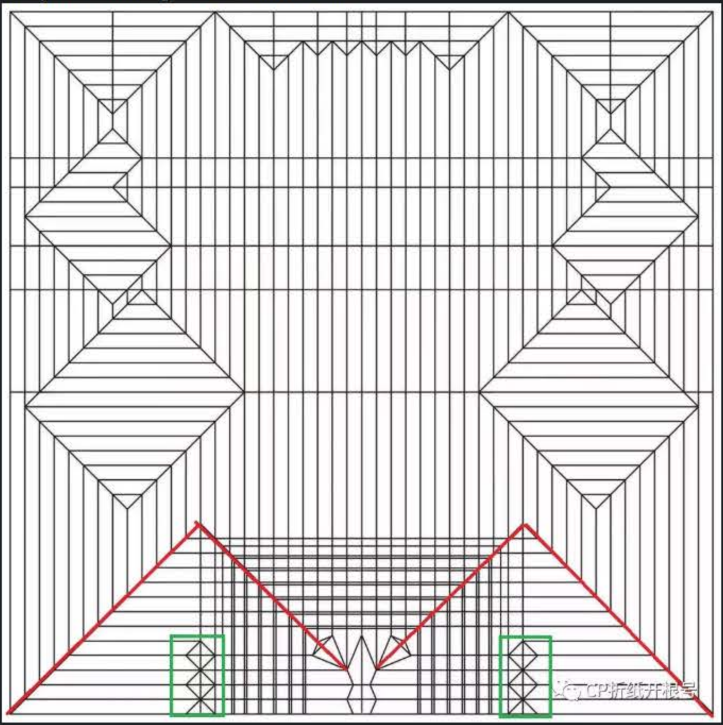


CP折纸开根号



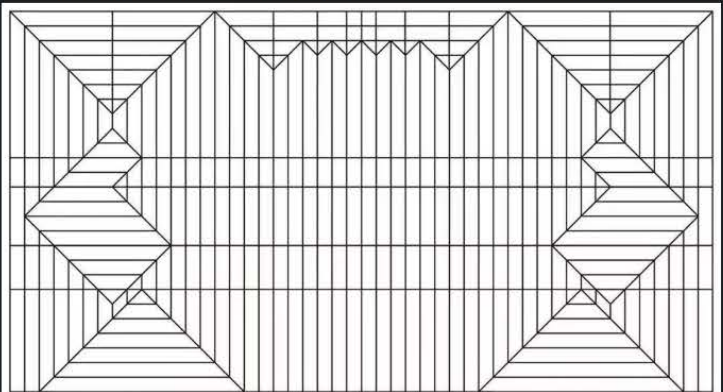
CP折纸开根号

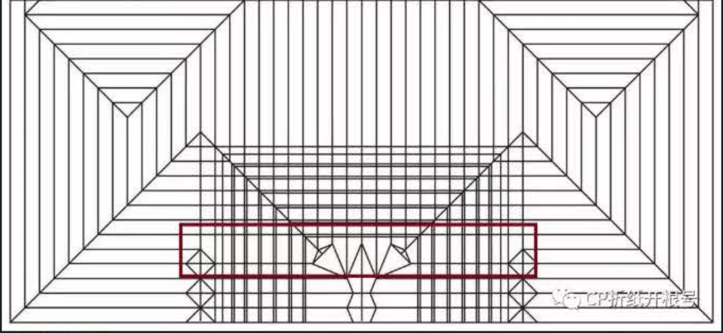
Then gently pull away the part that has just been gathered, and then deal with the several squares in the green as shown below



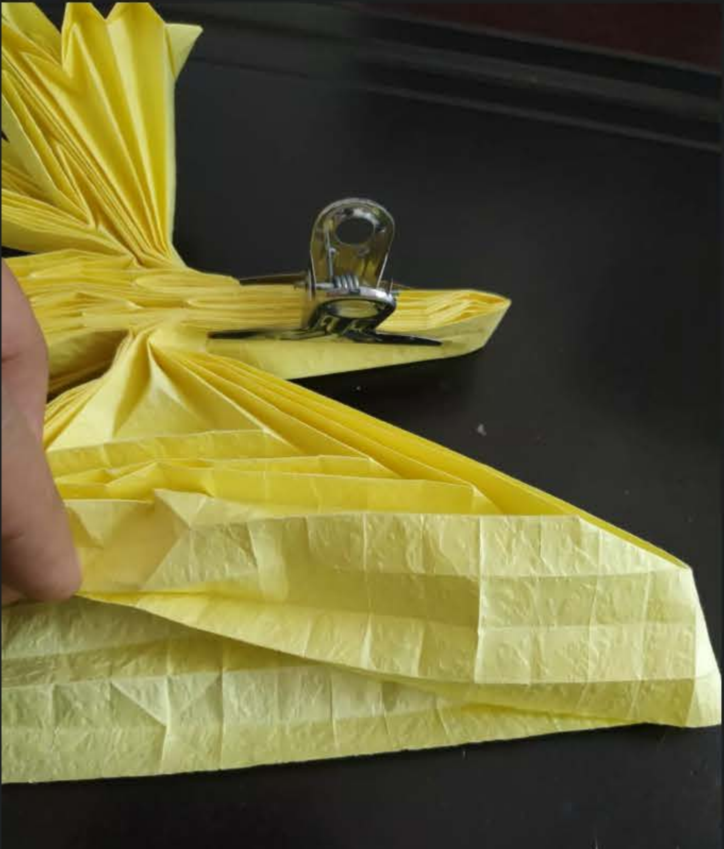
CP折纸开根号

It is important to note here that part of the two unit widths in the picture below



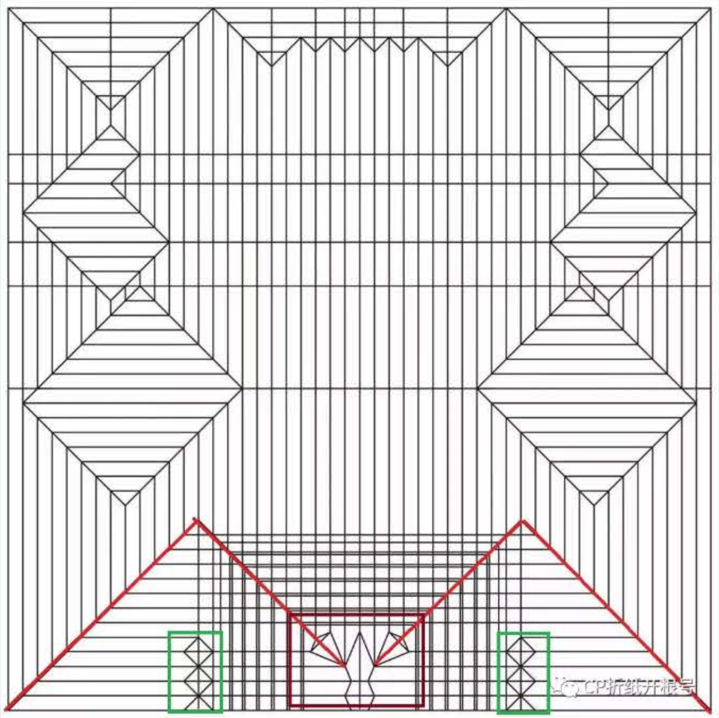


CP折纸开根号

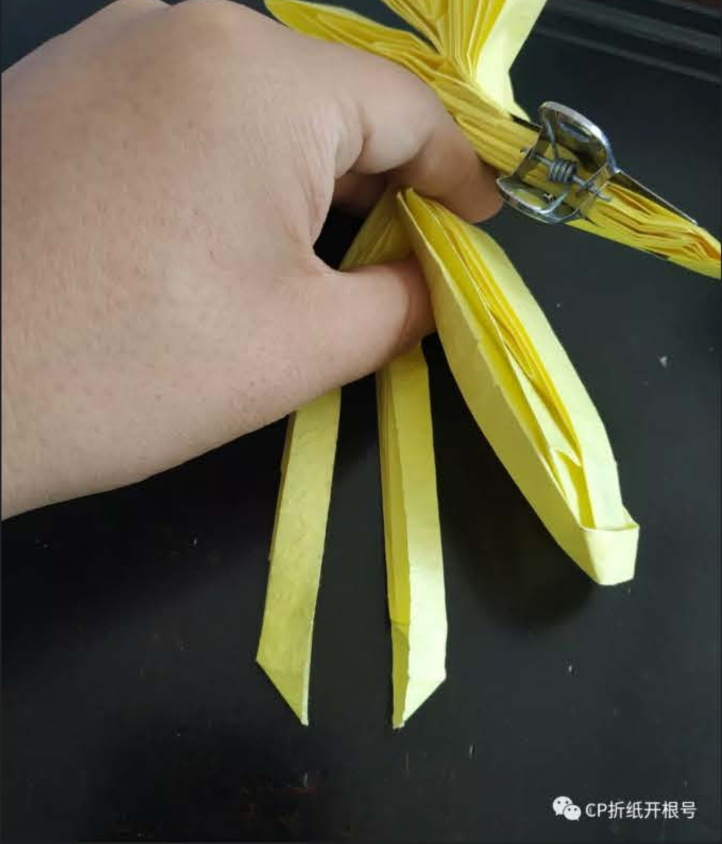


CP折纸开根号

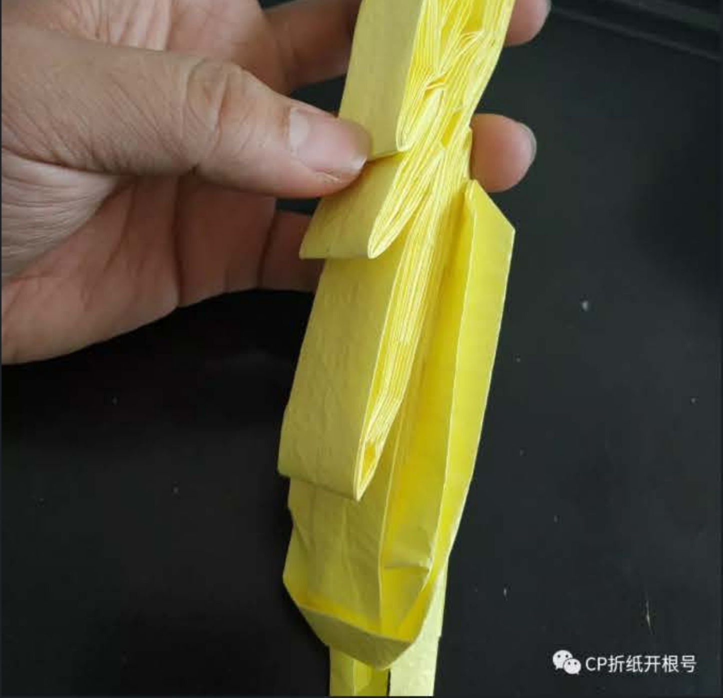
Finally, we can aggregate the small corners in the box in the following figure as shown below. This is to adjust the width and angle of the tail.



CP折纸开根号

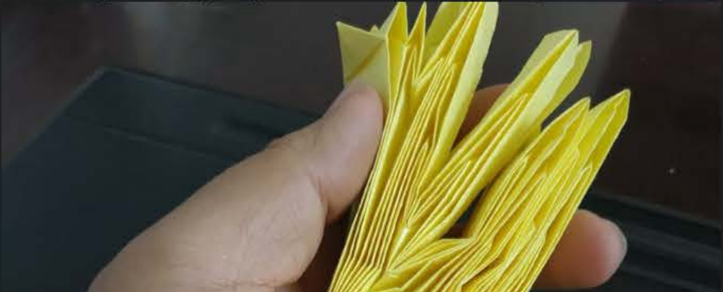


CP折纸开根号

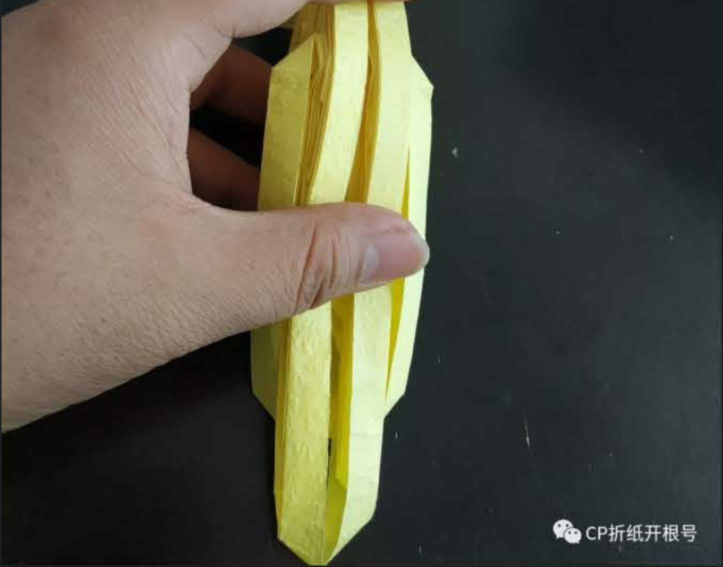


CP折纸开根号

Next we adjust the paper layers and branches, first identify the various parts



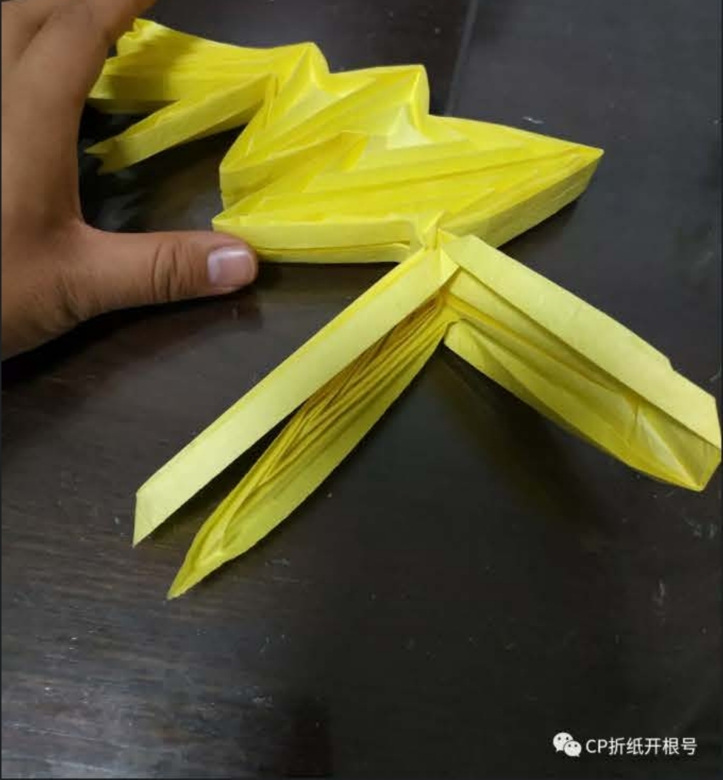
CP折纸开根号



CP折纸开根号

The aggregation is over here. You should be successful, because this work can only be considered as an entry level from the perspective of aggregation, but it is really difficult for plastic surgery!

Then let's plastic surgery!
are you ready?
The first step is to identify the branch.



CP折纸开根号

After branching off, we started to organize slowly. First, we made the branches of the belly several times to show the state on the belly, and then we pulled out the multiple layers of paper on the back as a few layers. Both sides

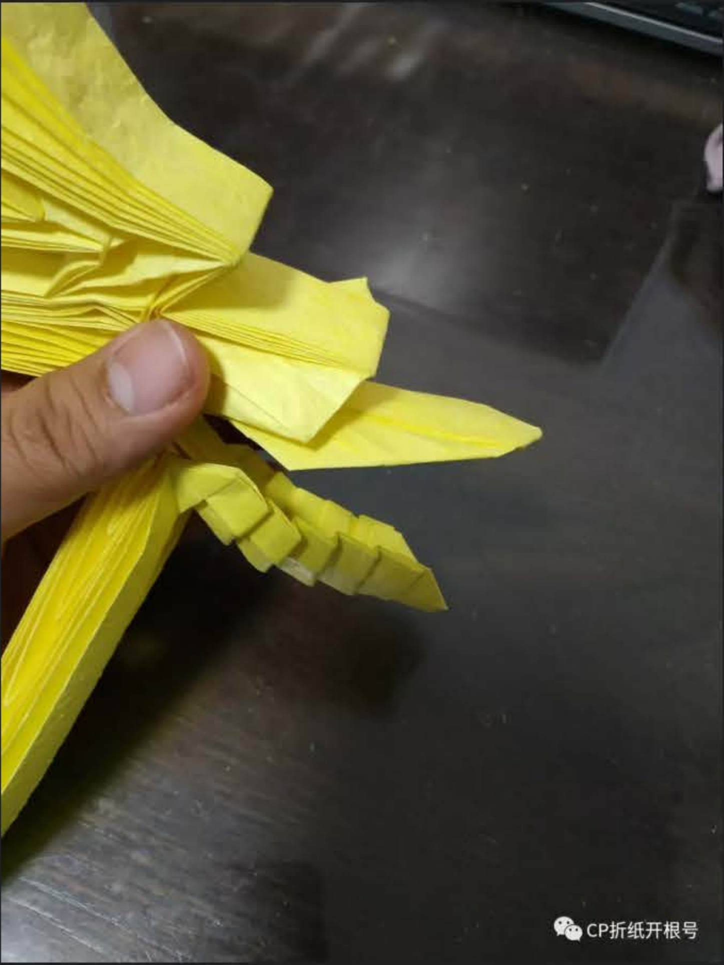
The following pictures are exploded views

CP折纸开根号

CP折纸开根号

CP折纸开根号

CP折纸开根号



CP折纸开根号

After the belly and back are clearly separated, we fix it with a small amount of glue first, and then come to the front to deal with the head

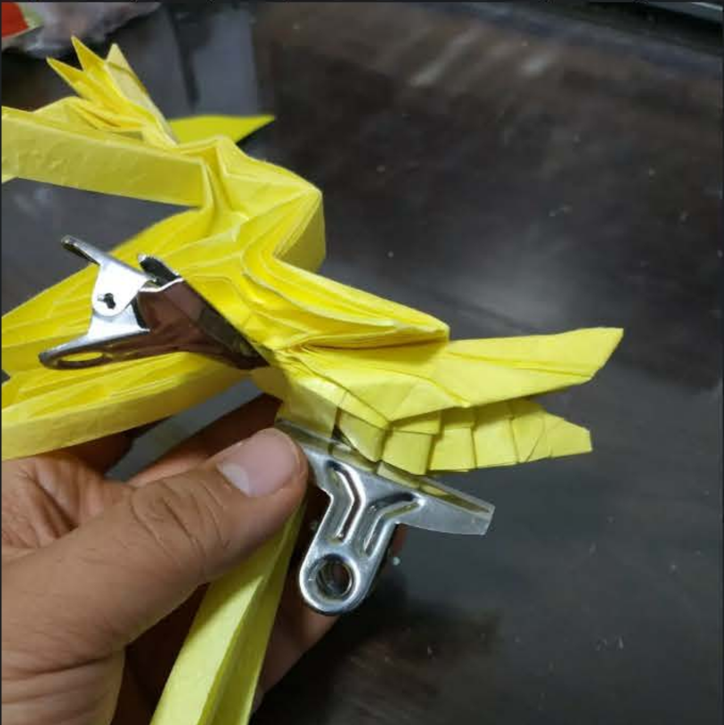
CP折纸开根号

CP折纸开根号

CP折纸开根号

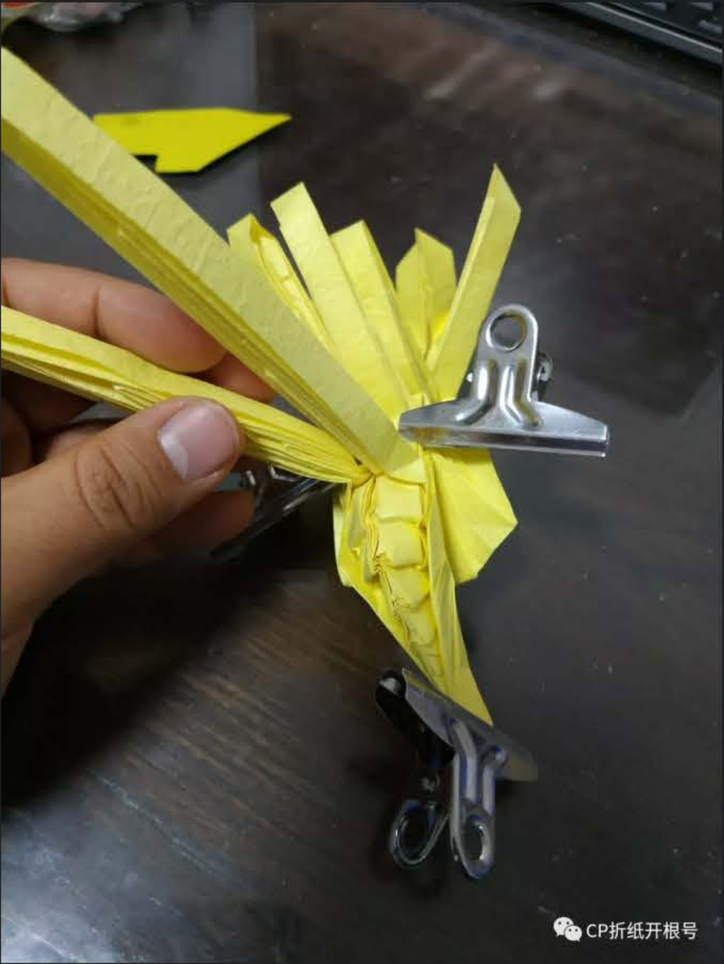
CP折纸开根号

The above pictures are repositioning of the branches of the head
After the head branch is determined, we return to the back half of the body, and then shape the belly and adjust the position of the tail and back, and add glue to shape



CP折纸开根号

CP折纸开根号

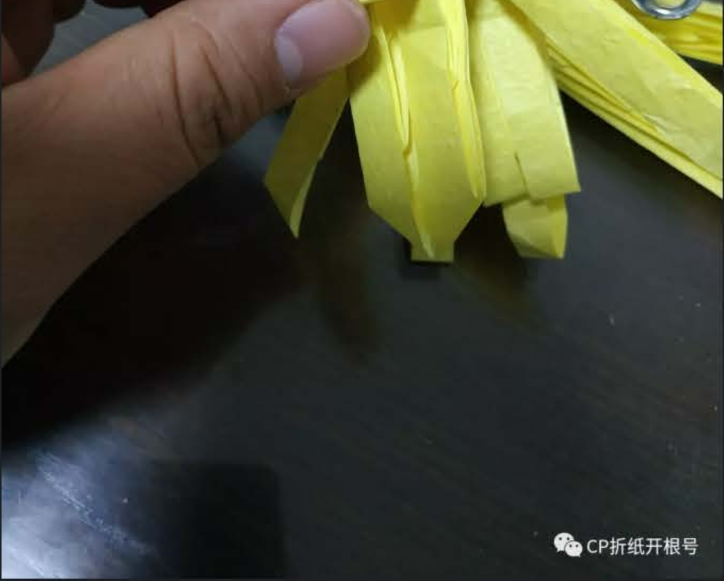


CP折纸开根号

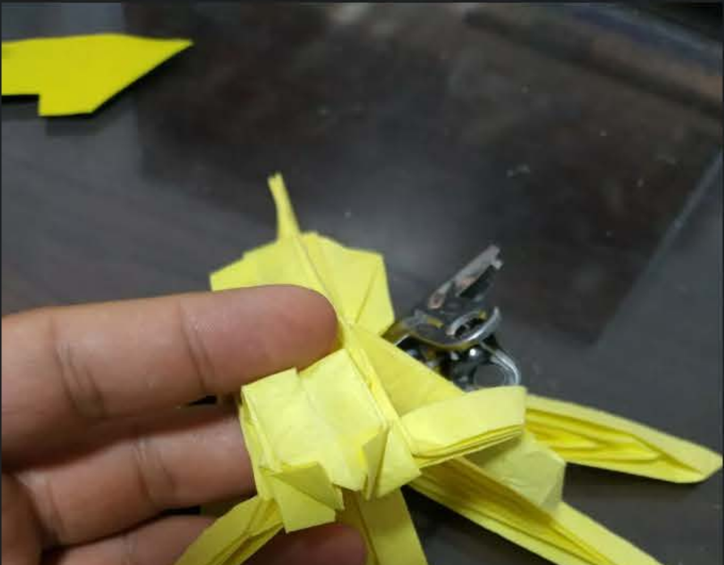
When the rubber is fixed in the back part, we go back to the first half and continue to organize, or continue to deal with the first part.

CP折纸开根号

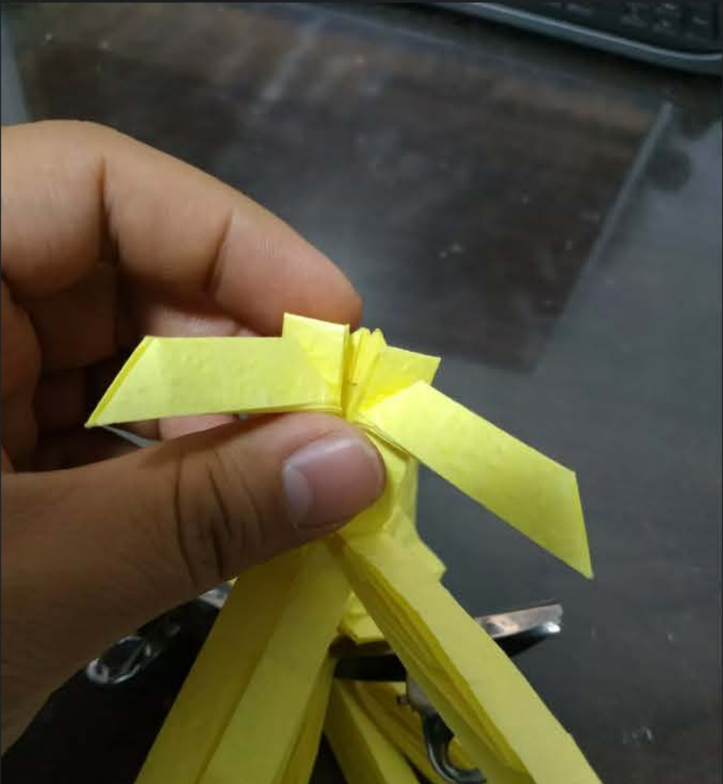
CP折纸开根号

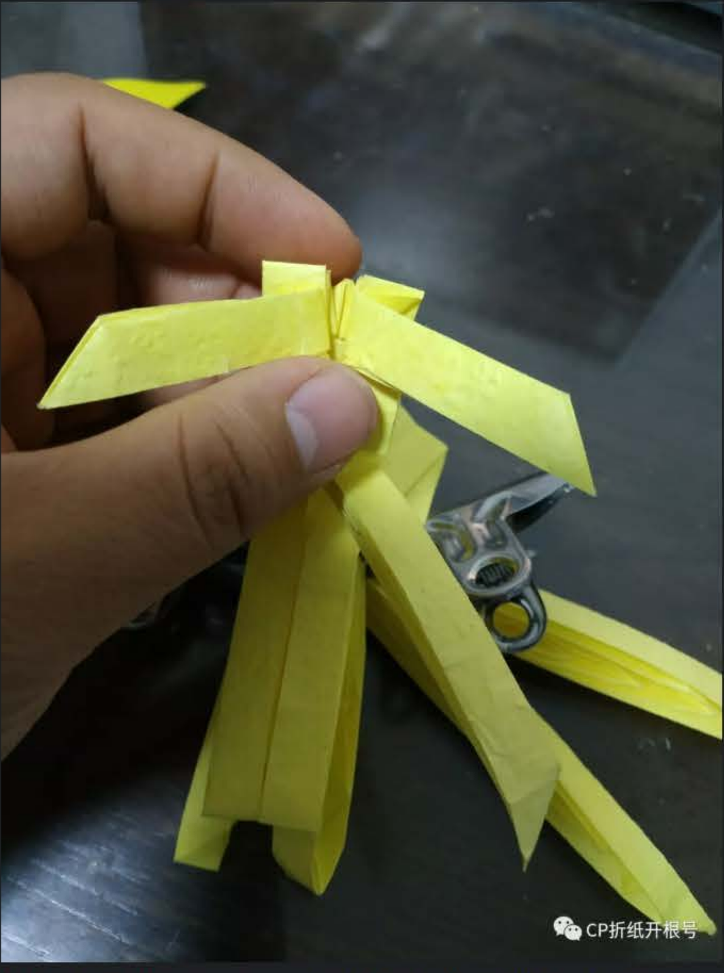


CP折纸开根号



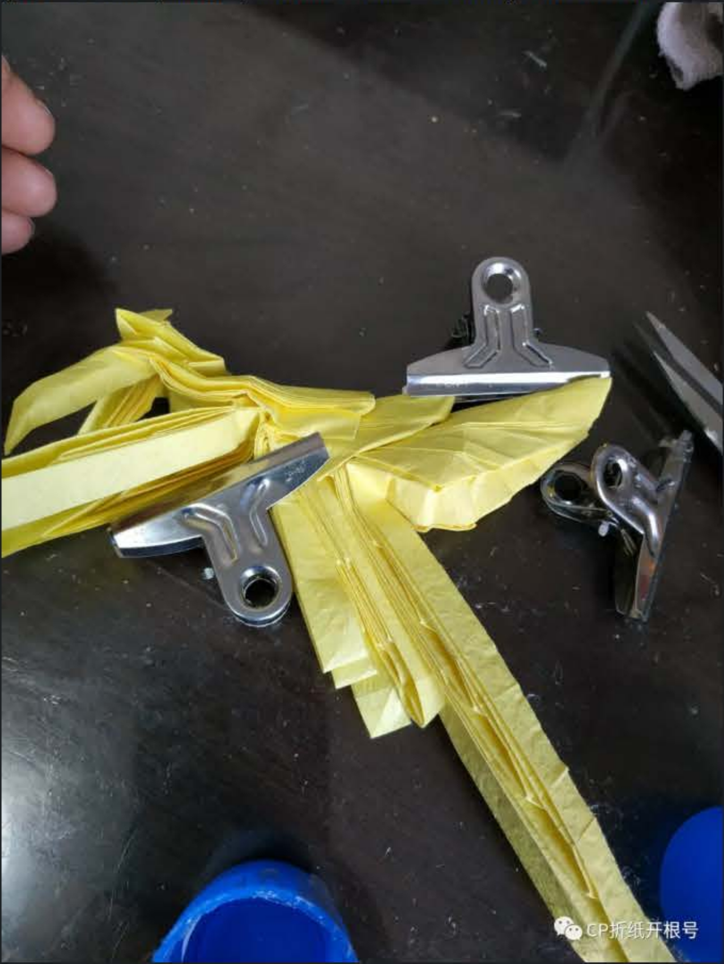
CP折纸开根号





In the above pictures, we have separated the teeth and blades of grass

At this time, the glue on the back is a little bit dry. Let's clean it up again, add some glue to fix some positions, and then come back and organize the head.



CP折纸开根号

First pull out the whisker part, then make the blade of grass, then handle the thighs

CP折纸开根号

Everyone must believe that there is no problem in making this by hand kneading paper.

Well,
That's it for this issue!

See you next time!
