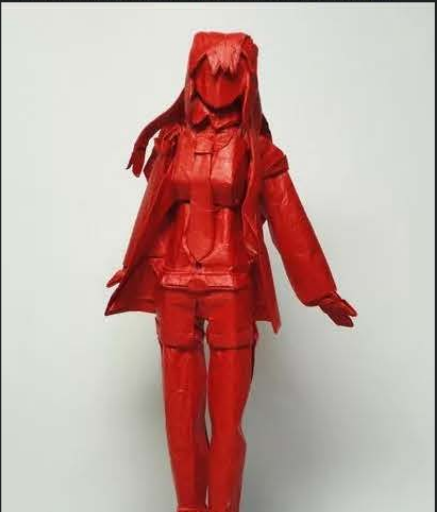
Interactive Origami No.16 Total 55th Character Origami Makase Honglisu

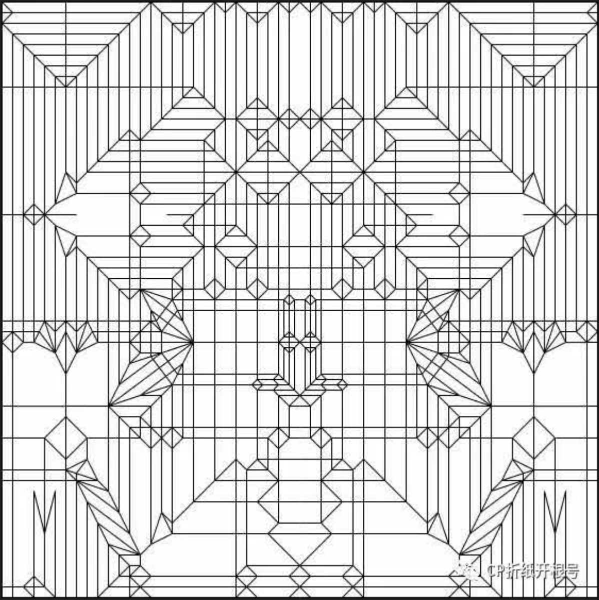
Original origami student Takayama CP origami opening number 2018-09-09

Hi everyone, welcome to CP Opening.
Today we are going to fold the masterpiece, Makase!
In this issue:
Makase Hongliqi played in the AVG text adventure game and the adaptation of the TV anime "Gate of Destiny Stone". She is the heroine of the game "Gate of Destiny" and its derivative works. Researcher of Brain Science at the University of Victor Contoria Institute of Researchers.
Researcher at the Institute of Brain Science of the University of Victor Condolia. Although he specializes in brain science, his physics accomplishments are also very high. Participate in research on "Amadeus". At the invitation of Okabe, it became Labmem No.004 of the Future Props Research Institute.
Addition and subtraction can be easily performed at the age of two, and interest in physics was very young. Different talents are called "geniuses" and "child prodigies" by the people around them, but they are also separated from their peers. In order to avoid the jealous eyes of those around me, I jumped to college. Even after entering the institute, there was an inaccessible atmosphere until he became friends with Zhenfan.

Next, let's meet the works we want to fold



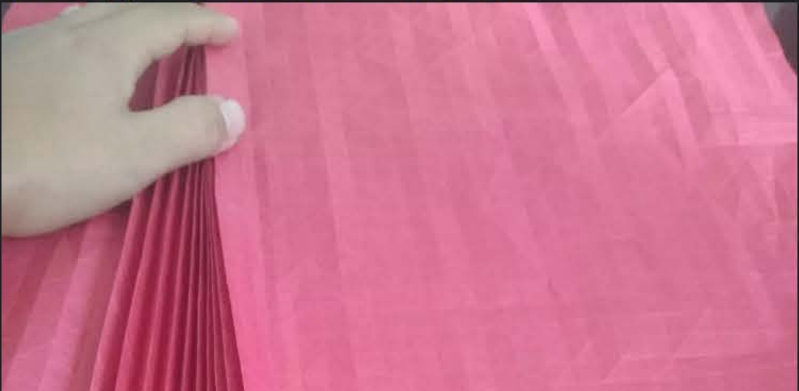
CP折纸开根号



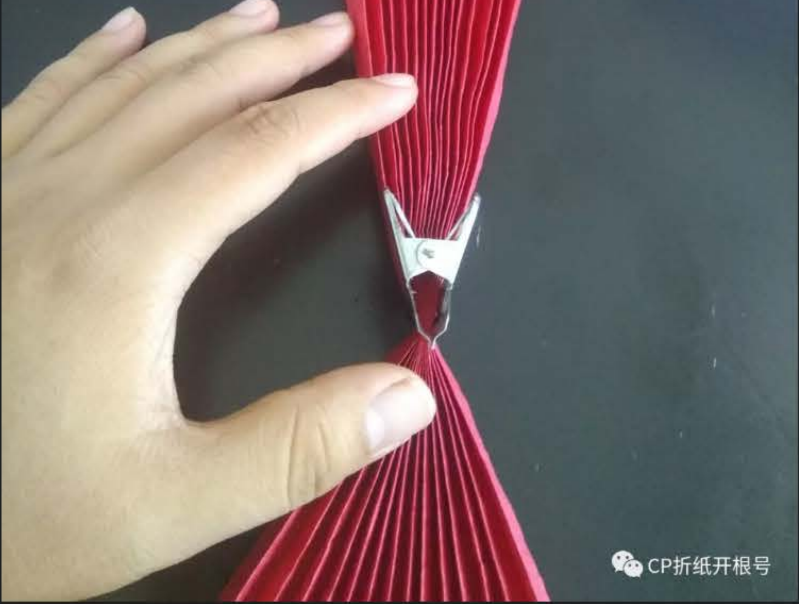
CP折纸开根号

This work is a 56 * 56 work. It usually takes an hour to make the grid and line. Please prepare the paper. I personally use red hand-kneaded paper PS: The poor can't afford good paper!

After making the line, we use a traditional method to aggregate. The first step is to collect the paper in one unit from the sides to the middle.



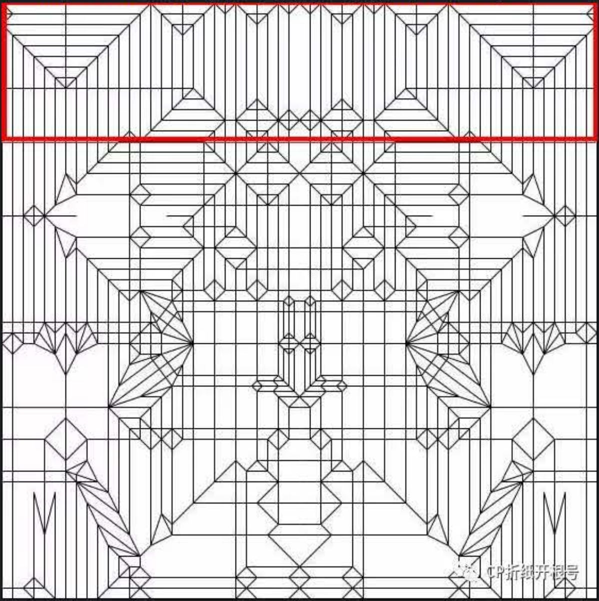
CP折纸开根号



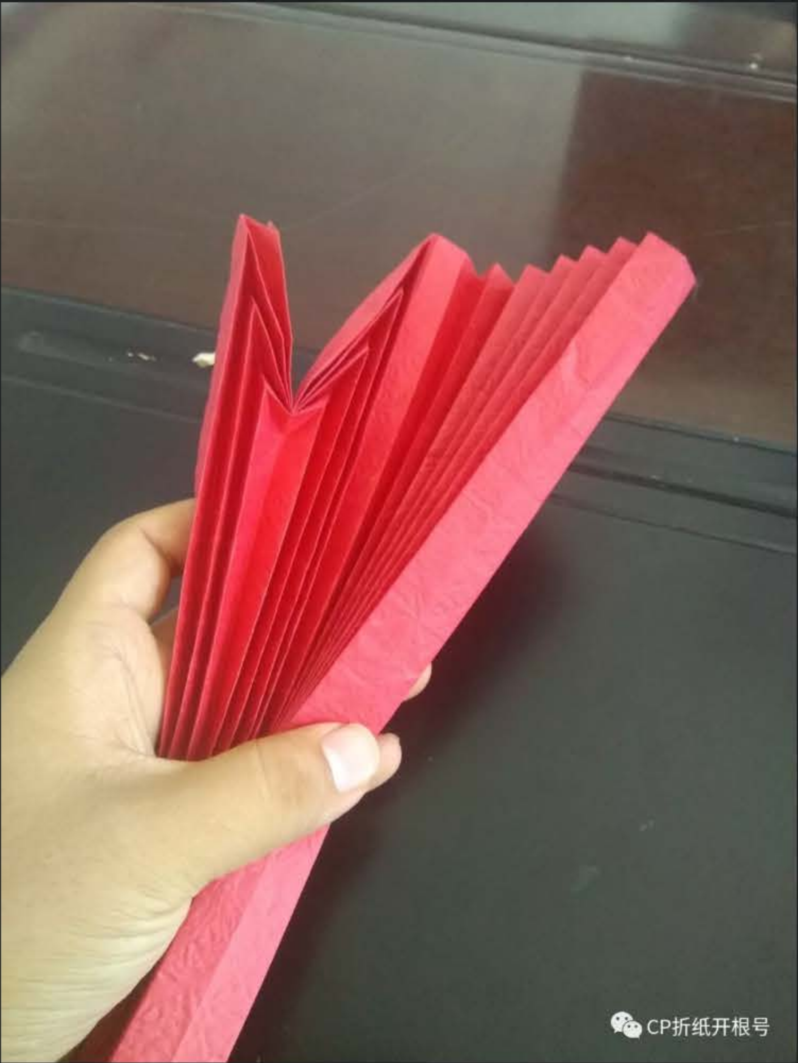
After putting all the cells in, we started to aggregate

CP折纸开根号

As shown in the figure below, pull it open from the top.

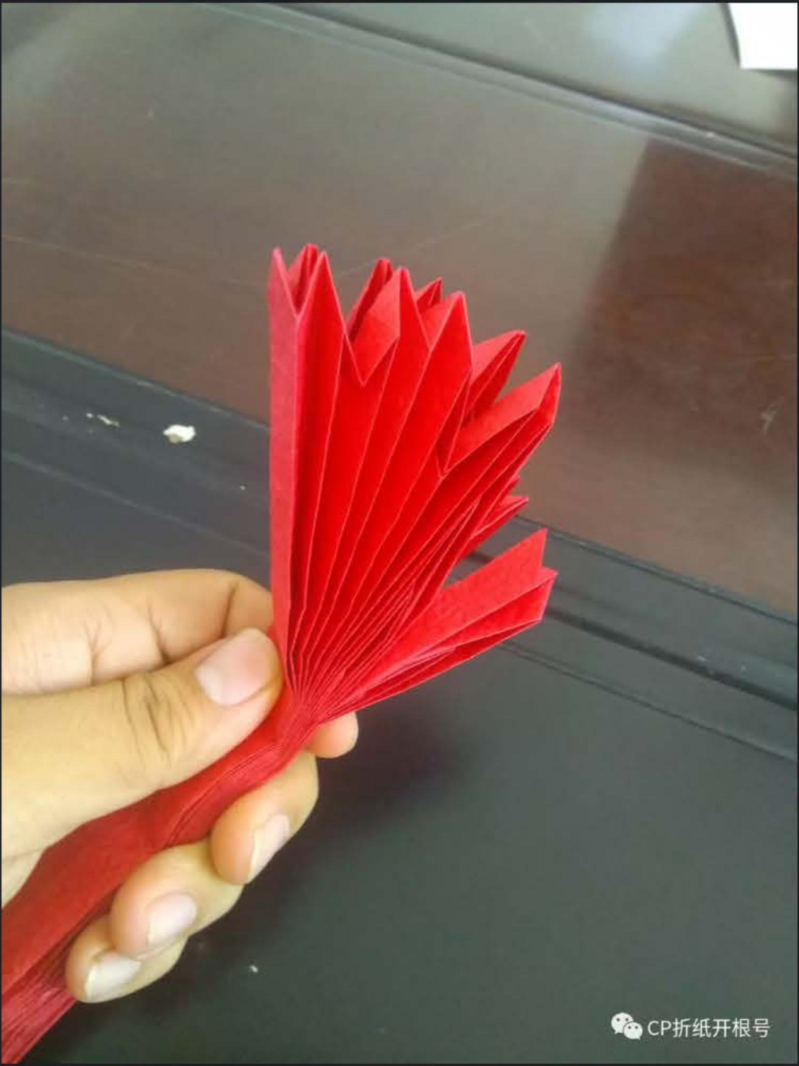


CP折纸开根号

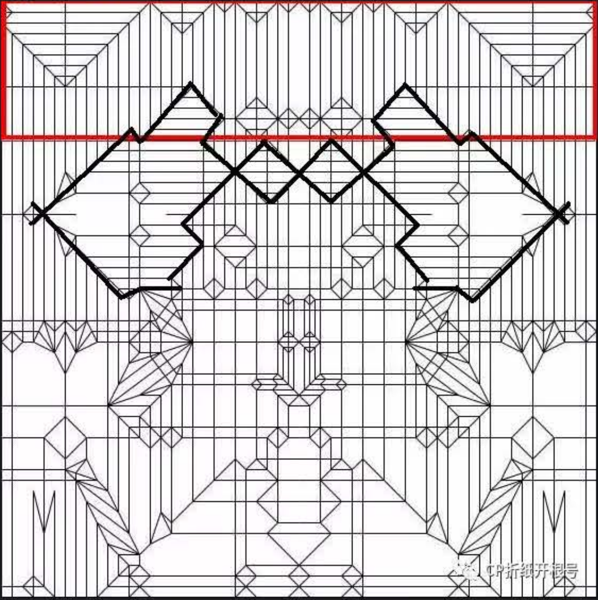


CP折纸开根号

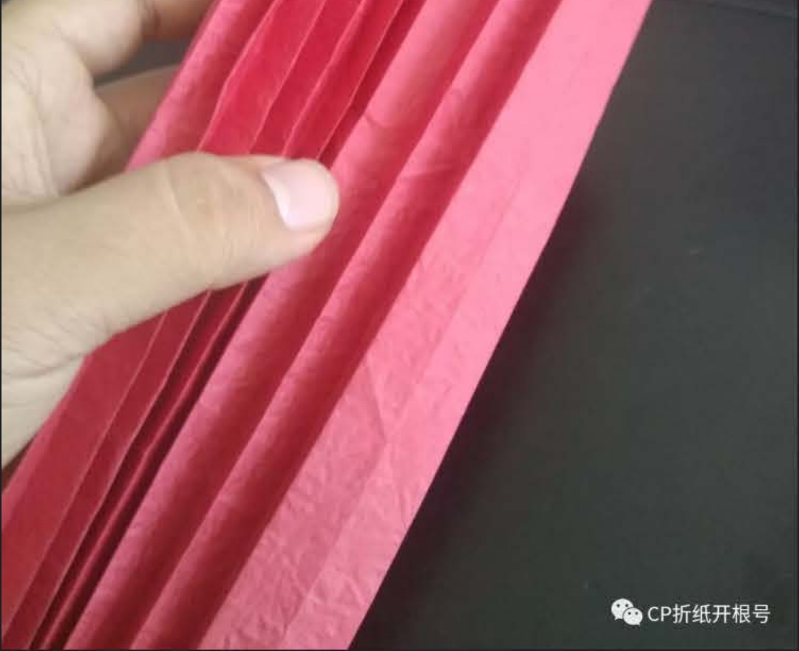
CP折纸开根号



As shown in the figure below, we have aggregated the inner part of the red box. Next, let 's go down and process the four squares in the lower part of the red box, and then aggregate to the sides

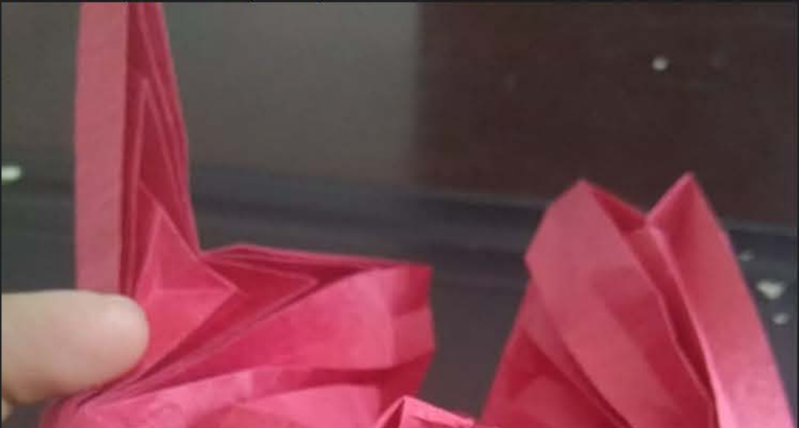


CP折纸开根号

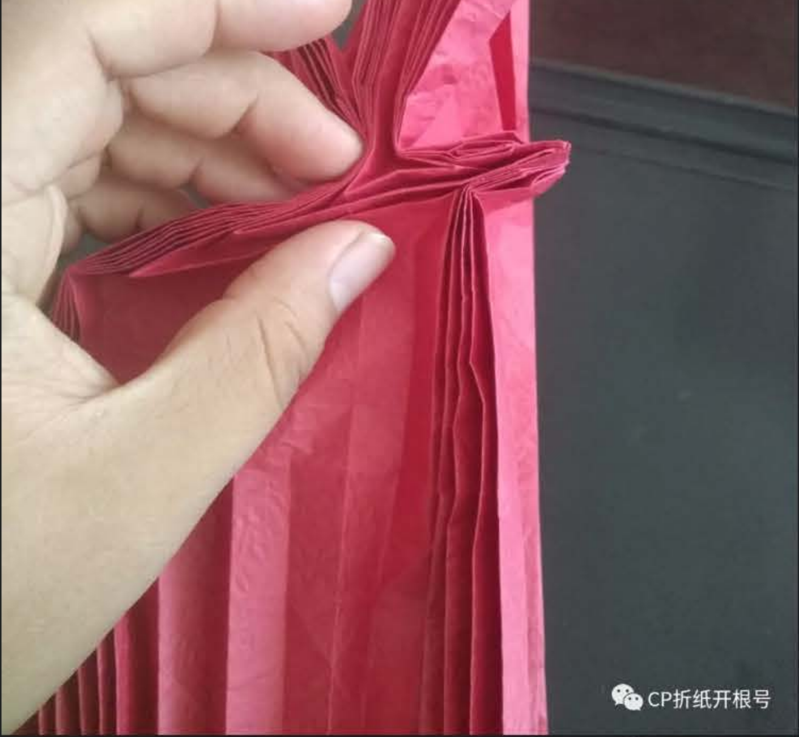


CP折纸开根号

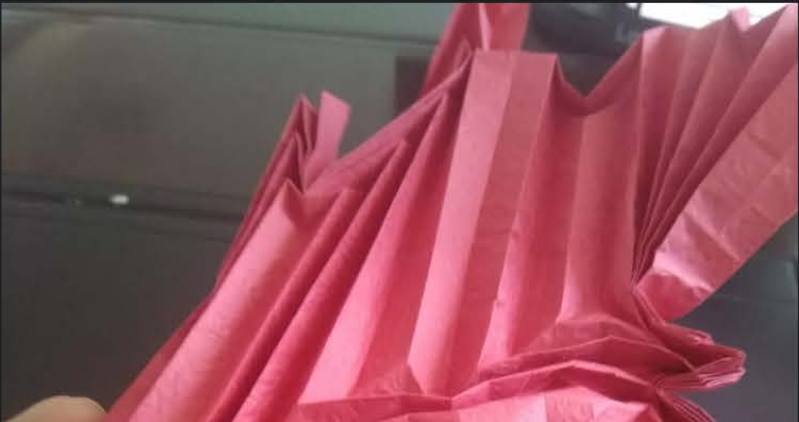
After finishing the middle, pull it open to both sides



CP折纸开根号

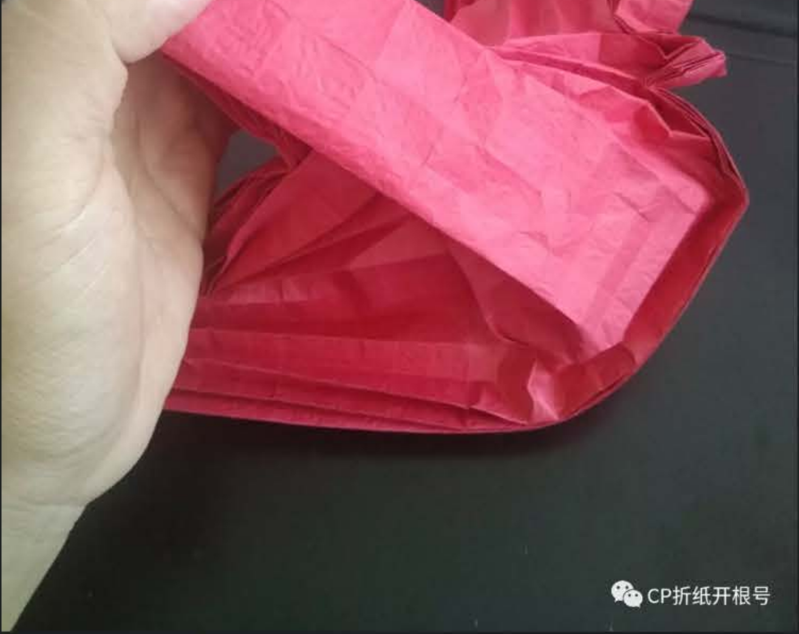


CP折纸开根号

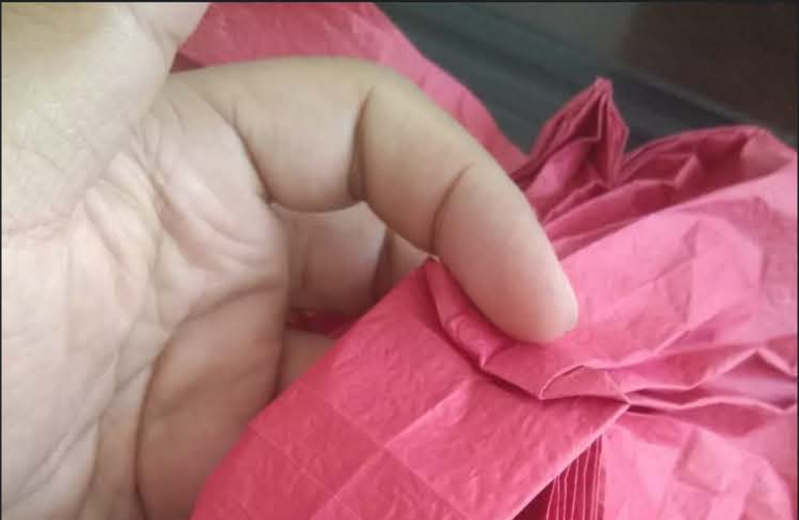


The figure below, the graphics in CP must be complete after opening

CP折纸开根号

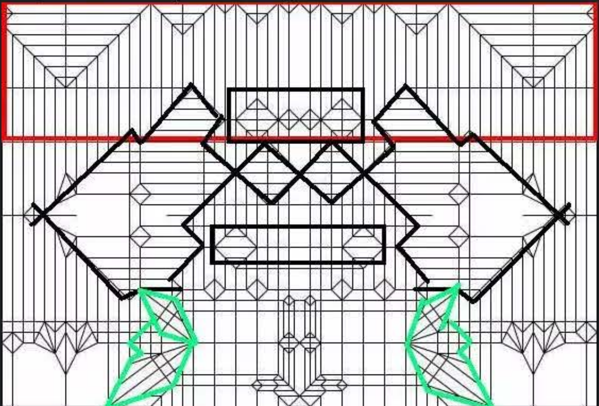


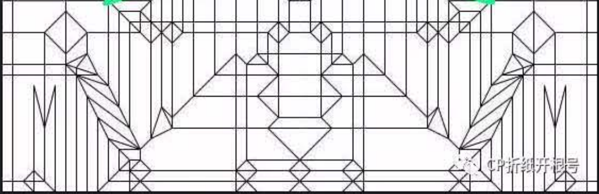
Let 's do a segment break and change the four cells into two cells.



CP折纸开根号

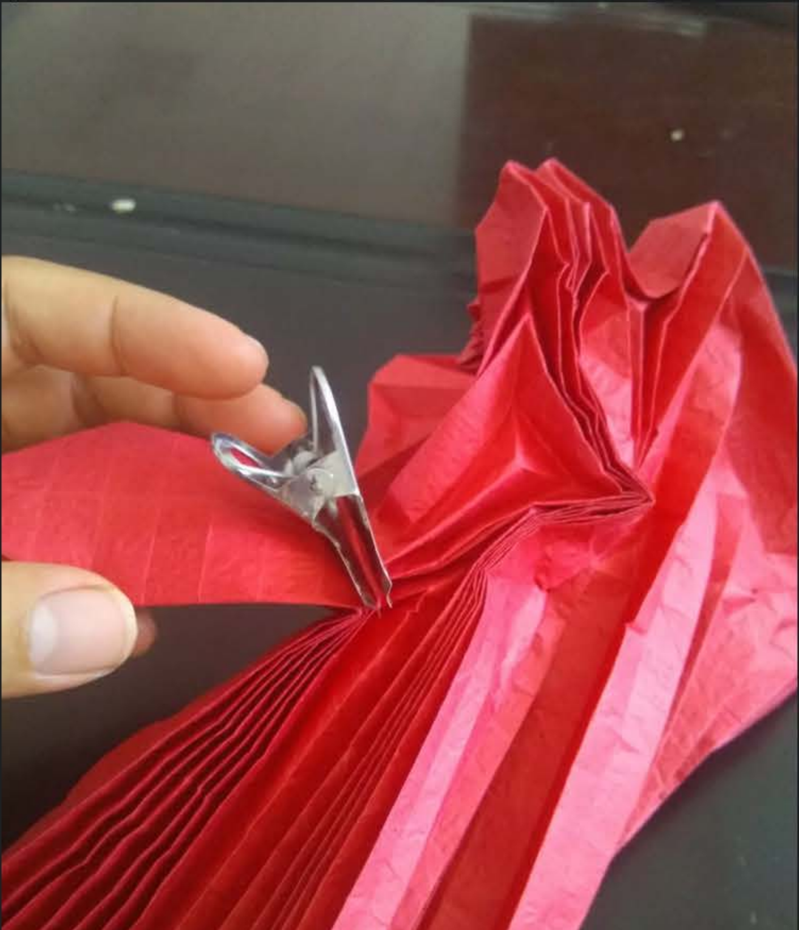
Below we follow the picture and continue to converge, the two squares inside the black box, and then the green turning structure



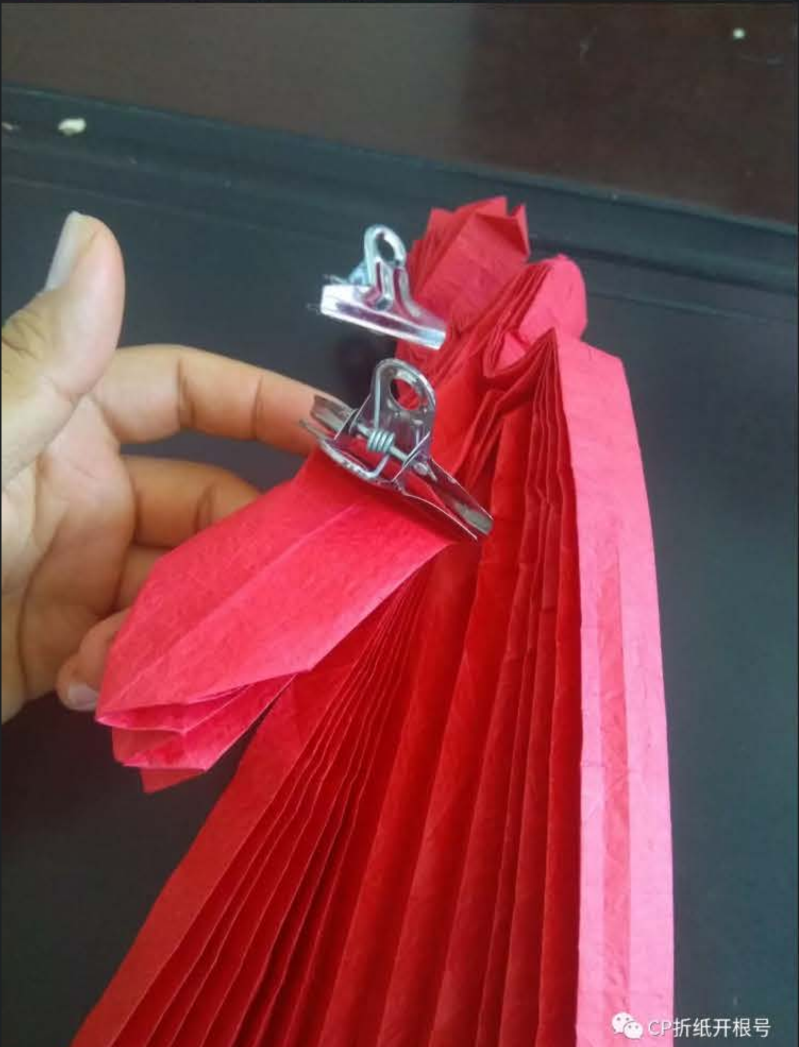


CP折纸开眼号

Hold the arm here with a clip to prevent the sides from loosening, then pull the middle apart

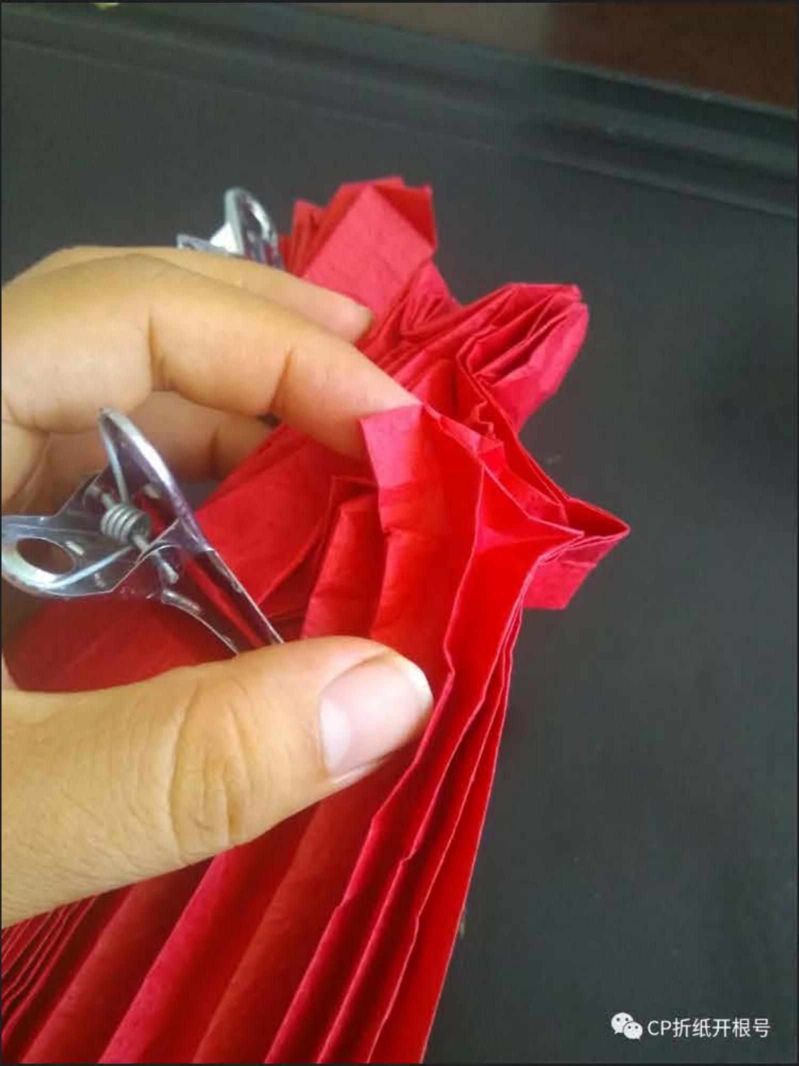


CP折纸开根号

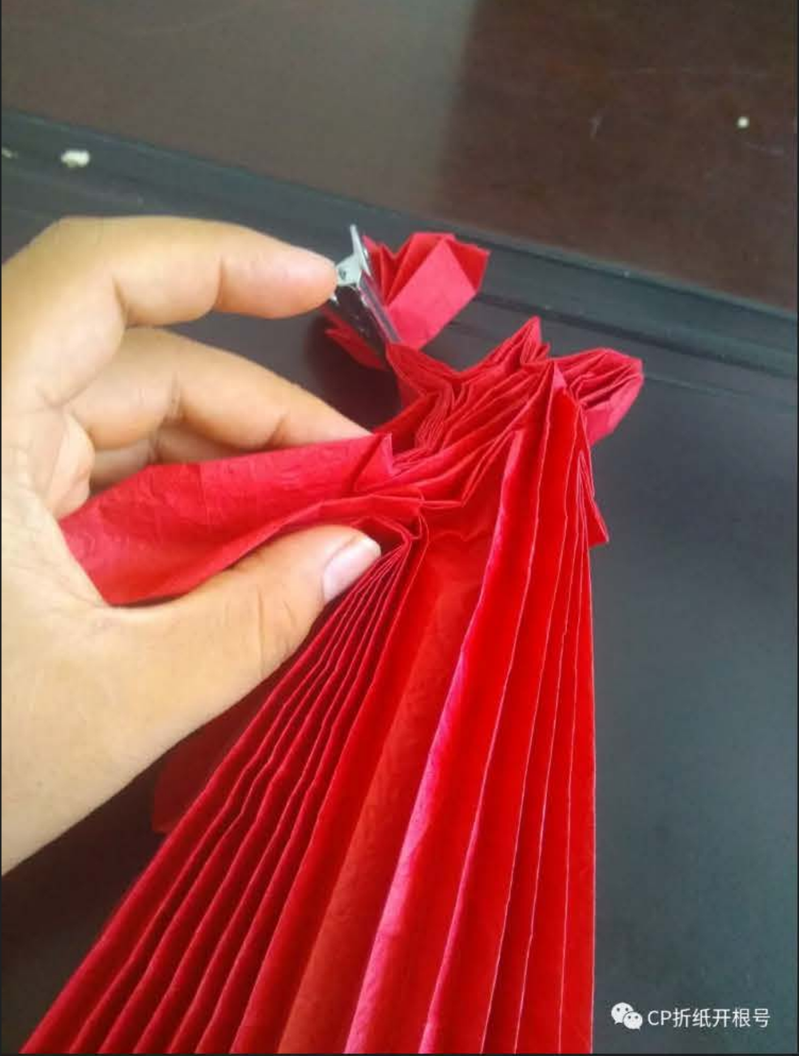


CP折纸开根号

The picture below is a real shot of the first square. After pulling it out, you can naturally push it back.

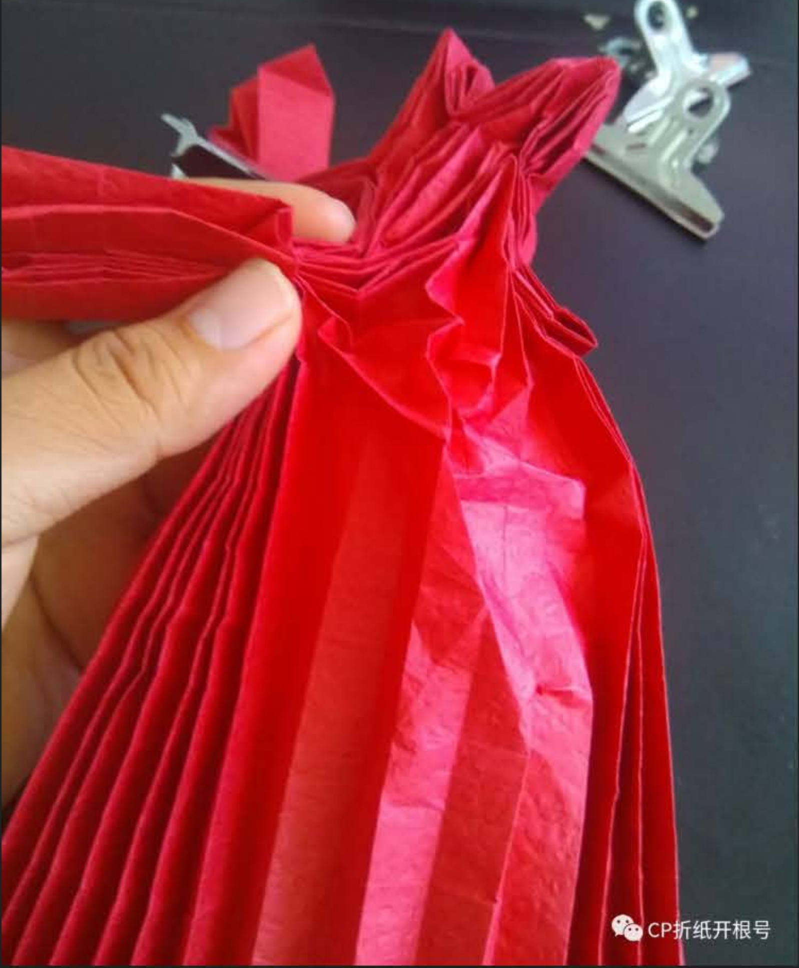


Fold on both sides



CP折纸开根号

Continue down, pull away, and aggregate the green part in the picture above

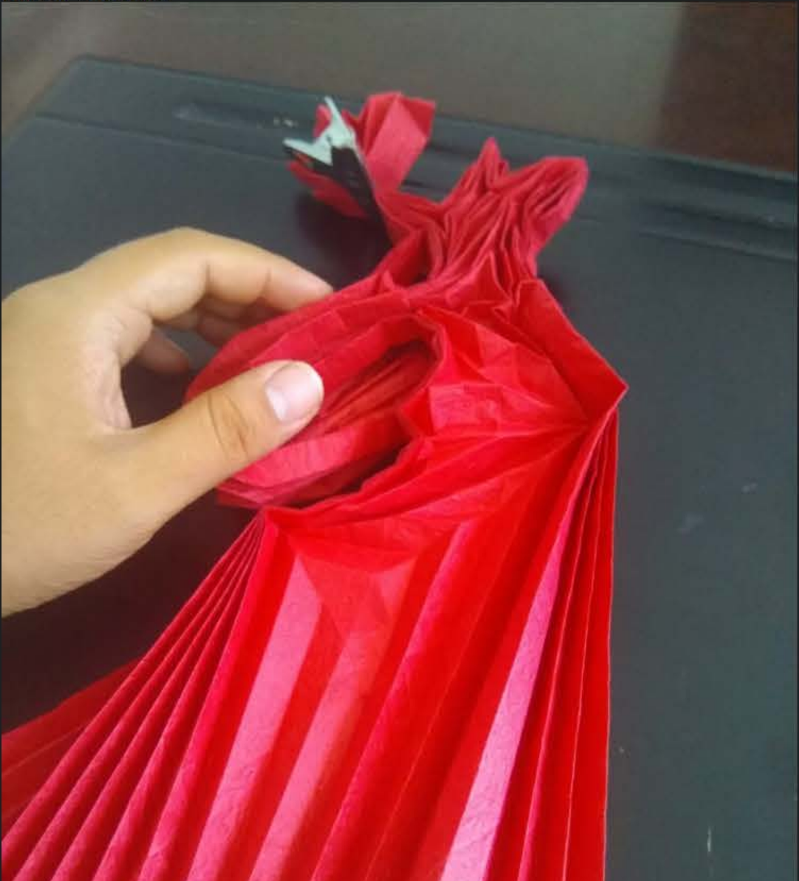


CP折纸开根号

CP折纸开根号

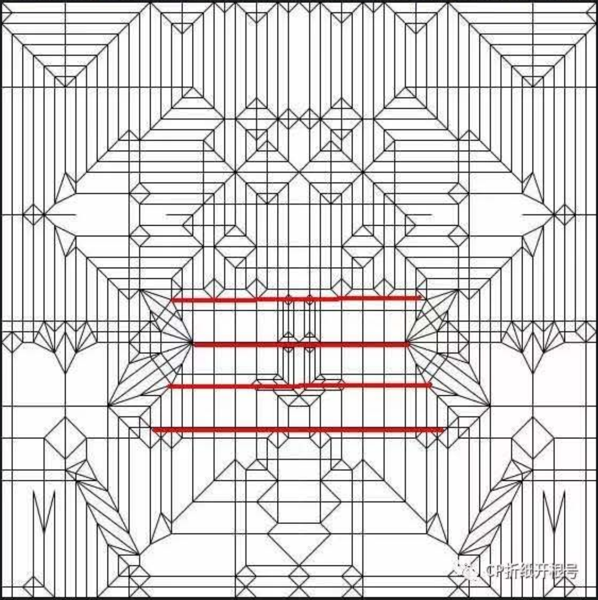
CP折纸开根号

Fold on both sides

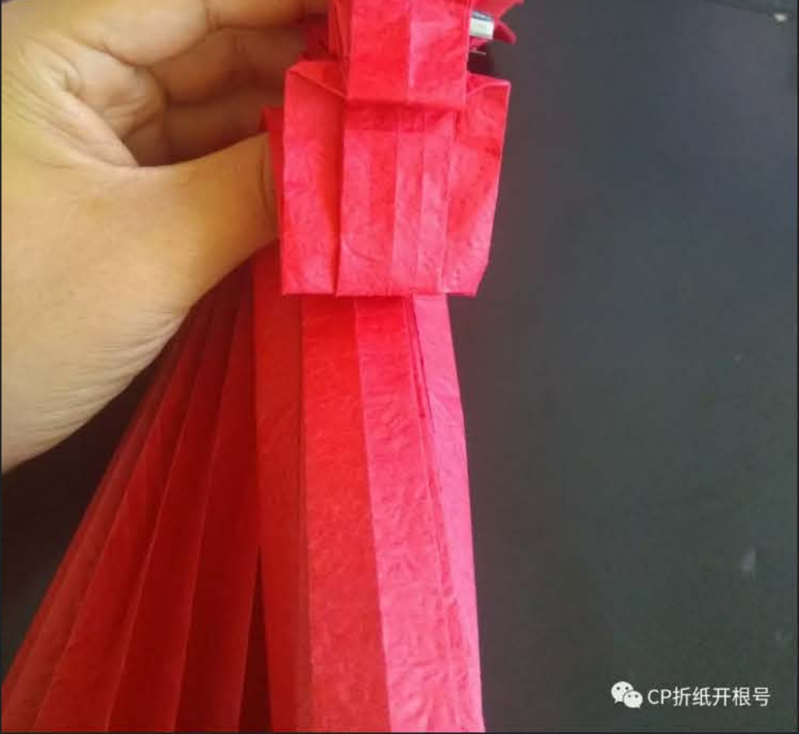


CP折纸开根号

According to the figure below, we deal with the peaks and valleys of the four red lines.

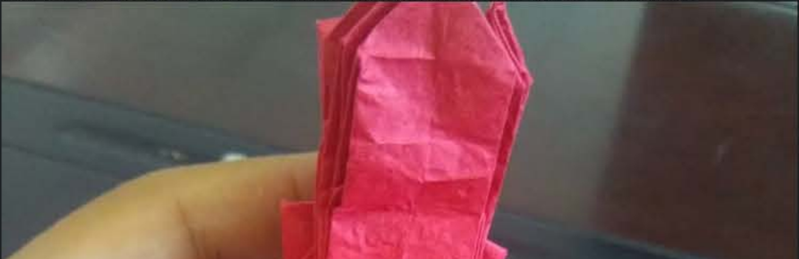


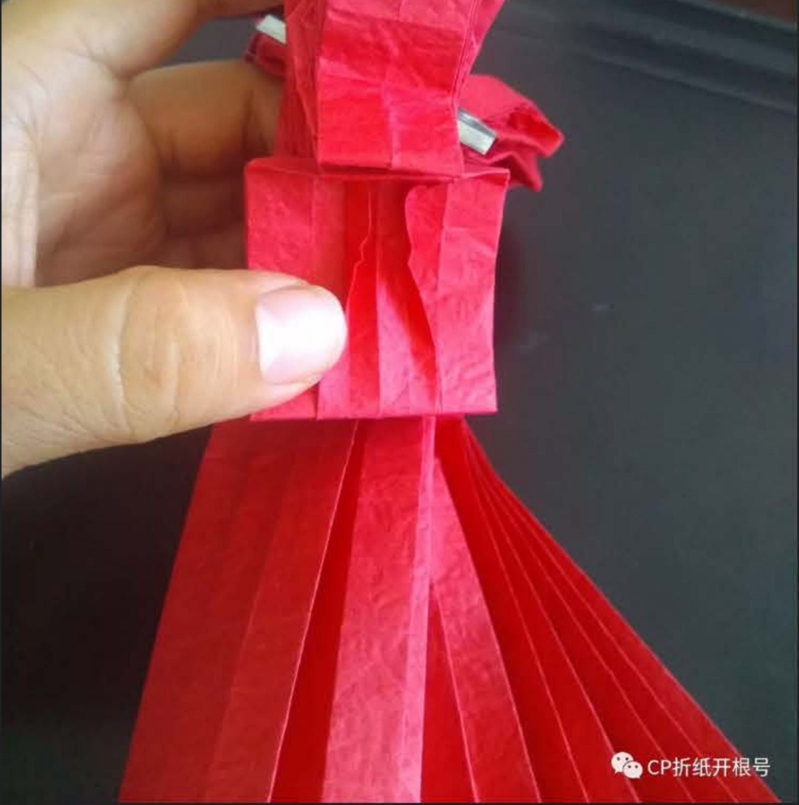
CP折纸开根号



CP折纸开根号

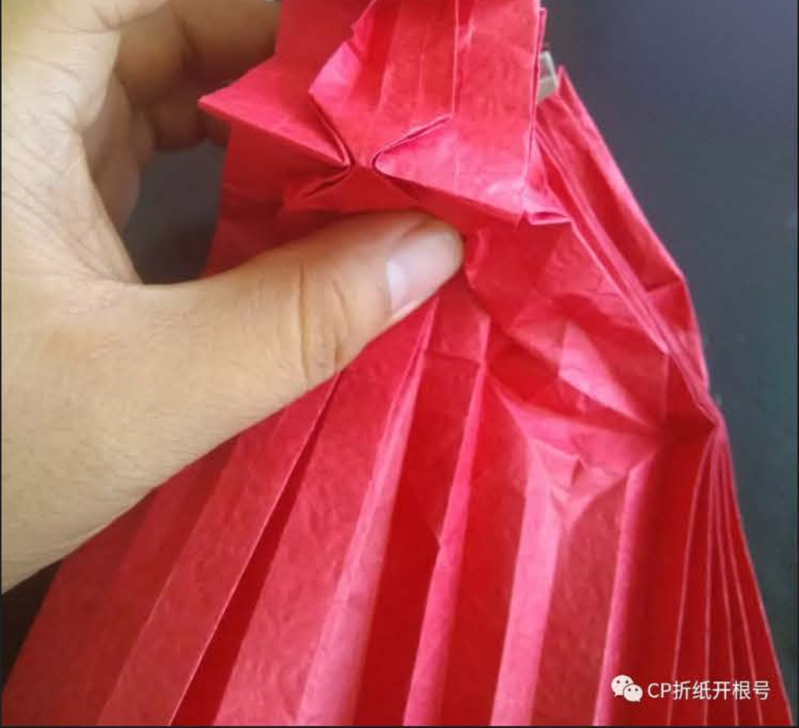
Pull the middle apart and treat the small squares as cross peaks and valleys





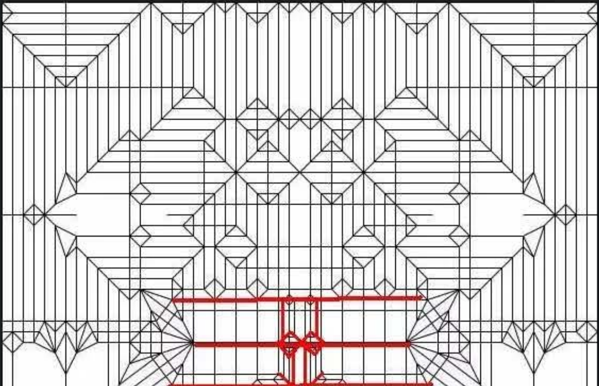
CP折纸开根号

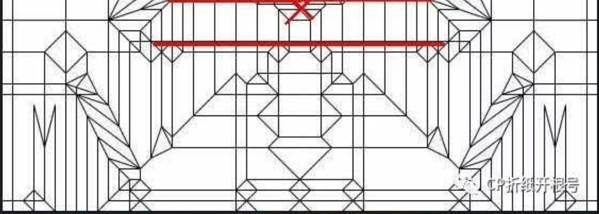
CP折纸开根号



CP折纸开根号

Follow the picture below to continue processing the structure in the middle of the four red lines



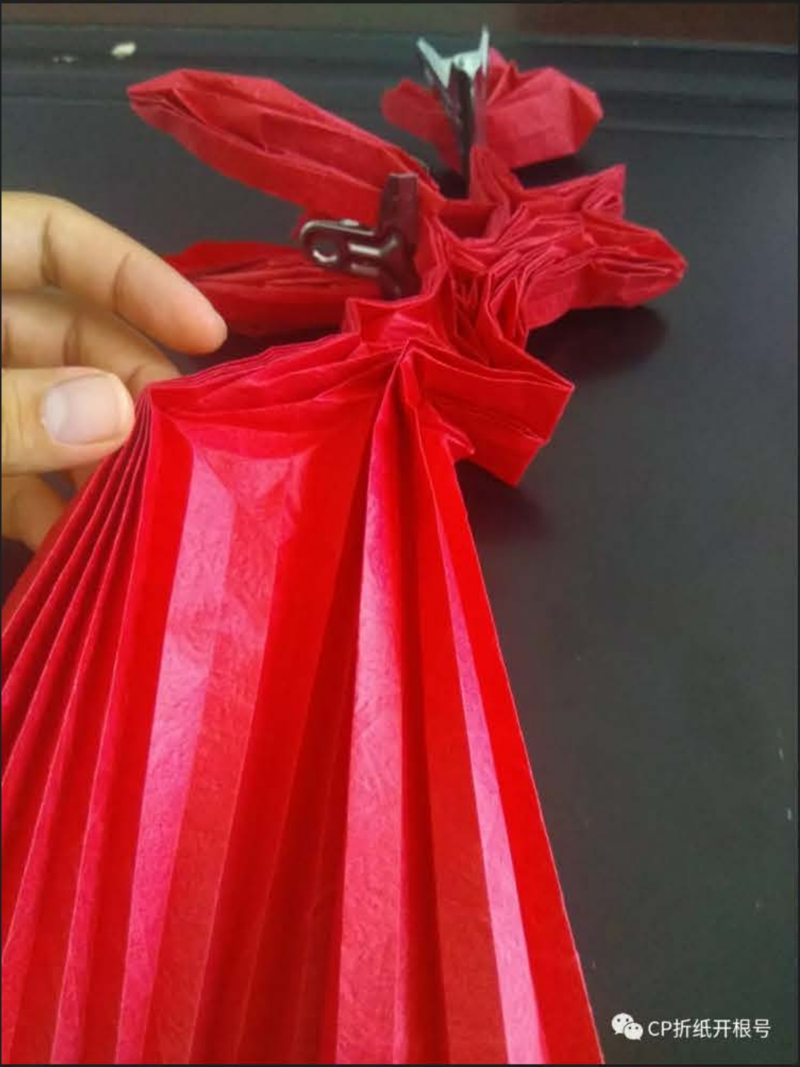


CP折纸开根号

CP折纸开根号

CP折纸开根号

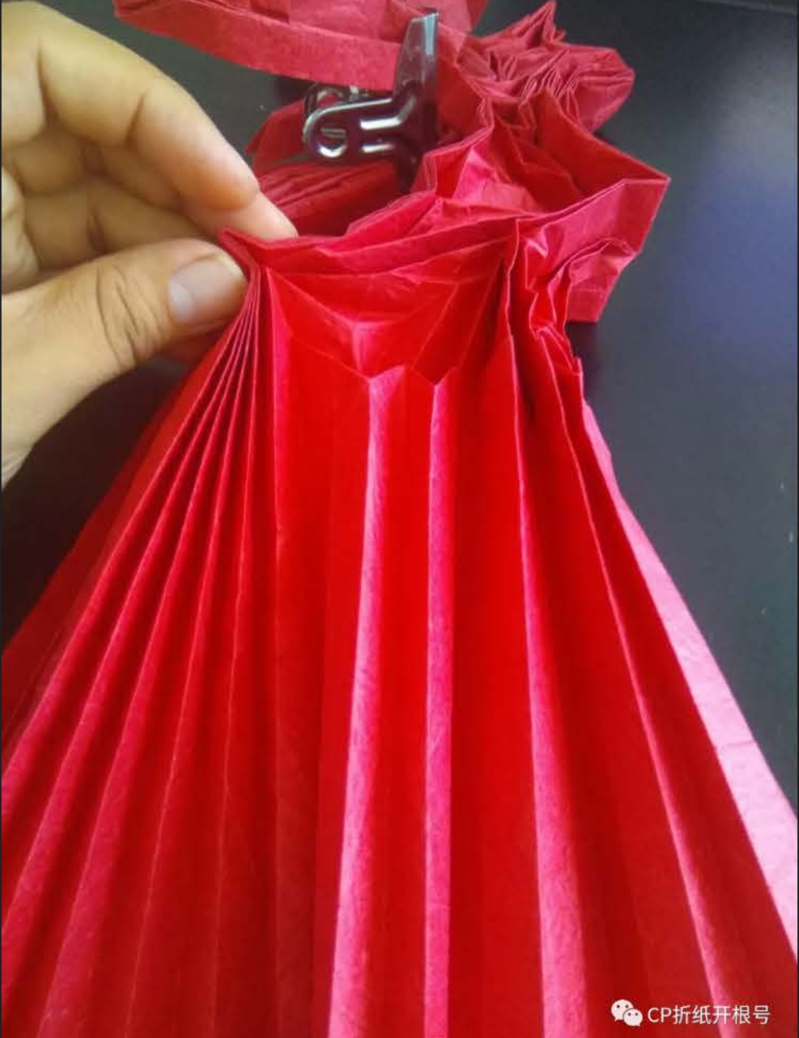
Aggregate the half-lattice structure in the middle while processing the diagonal structure on both sides



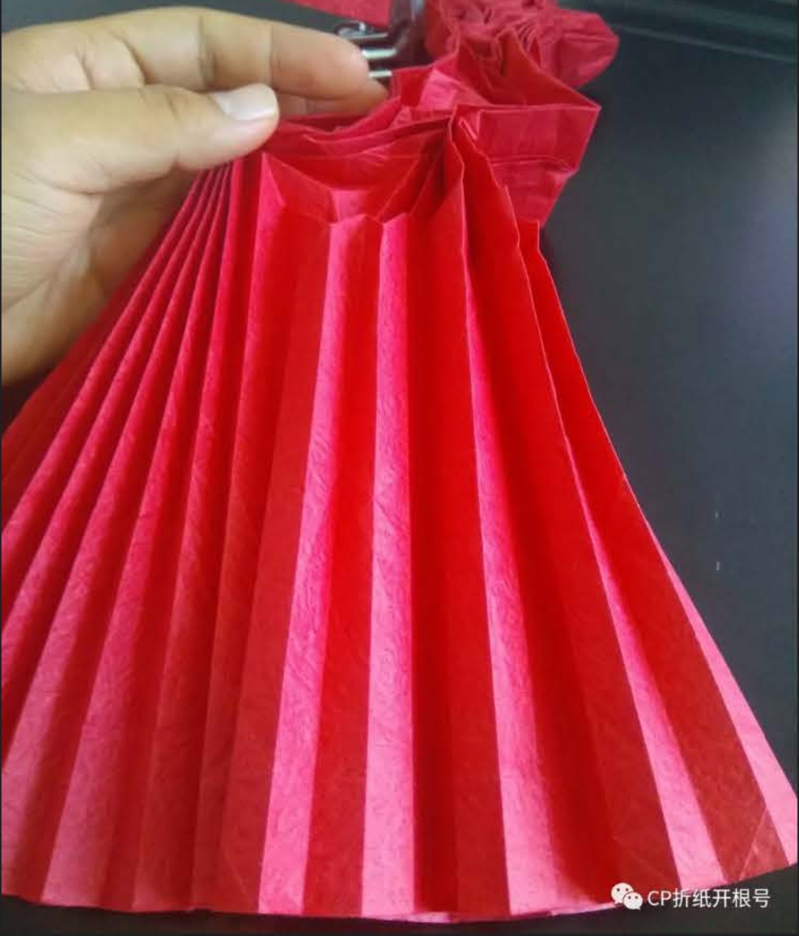
CP折纸开根号

Fold a peak upward from below

CP折纸开根号



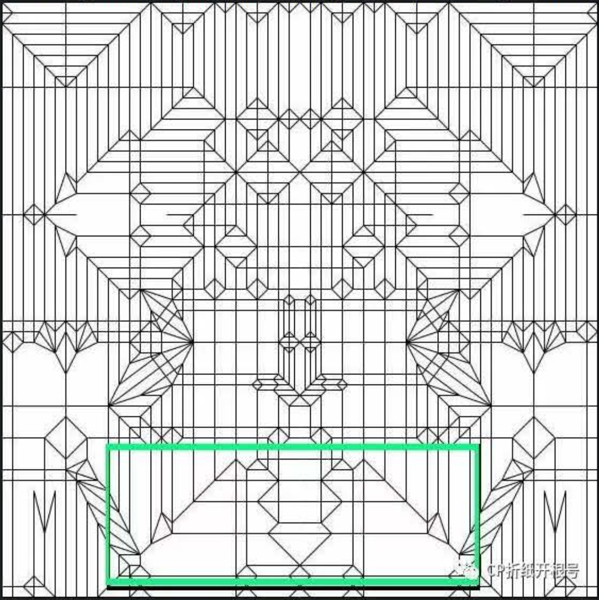
CP折纸开根号



CP折纸开根号

And finally the lower leg

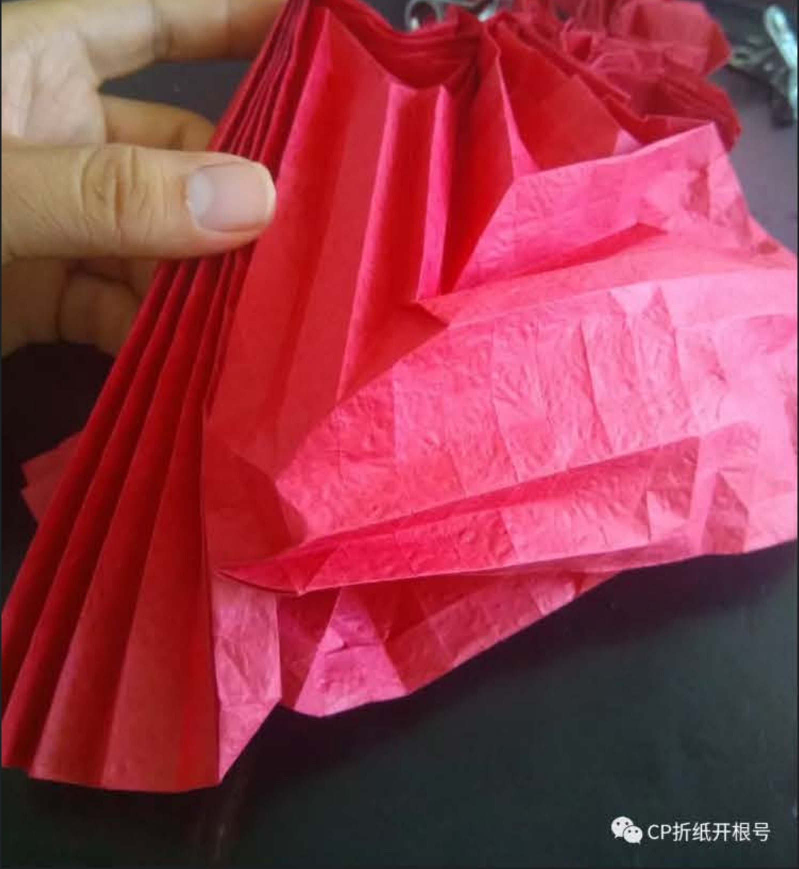
According to the figure below, first process the green part, which is two grids wide.



CP折纸开根号

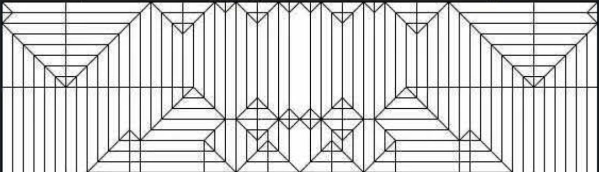
CP折纸开根号

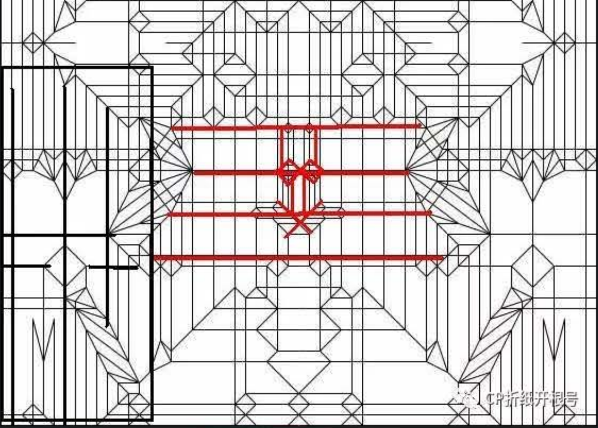
Although it is dark CP, the lines on the legs are still obvious, so it is easy to see where the peak line is and where the valley line is.



CP折纸开根号

After the inside of the legs is aggregated, according to the black frame internal structure, we start to aggregate the outside of the legs and the outside of the clothes.

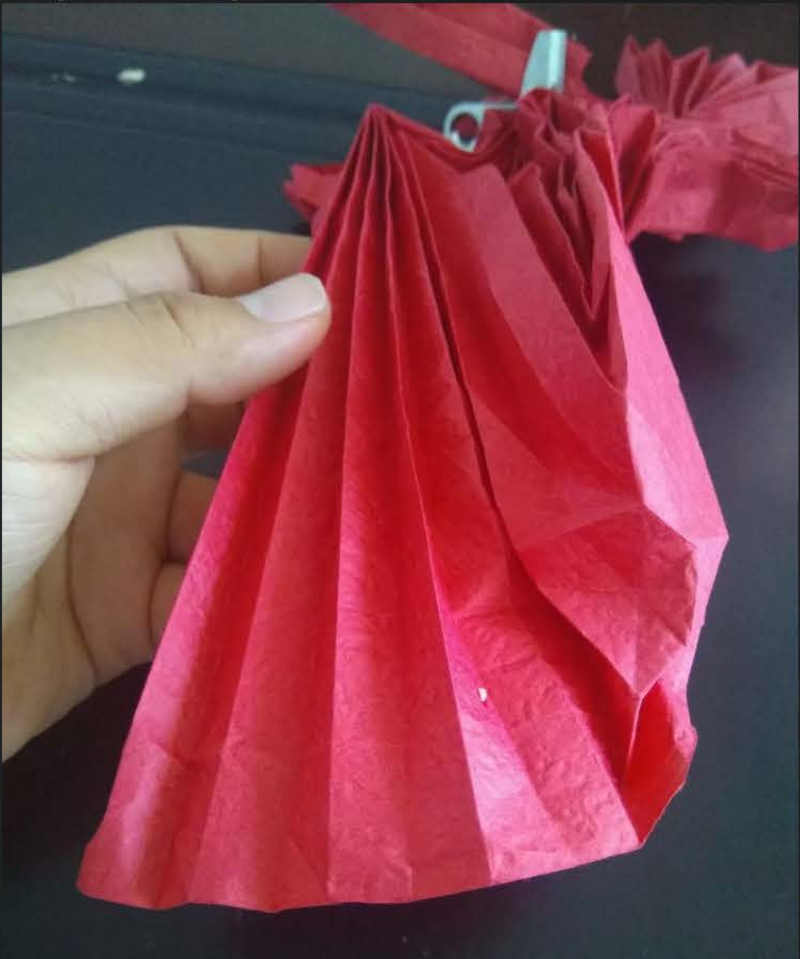




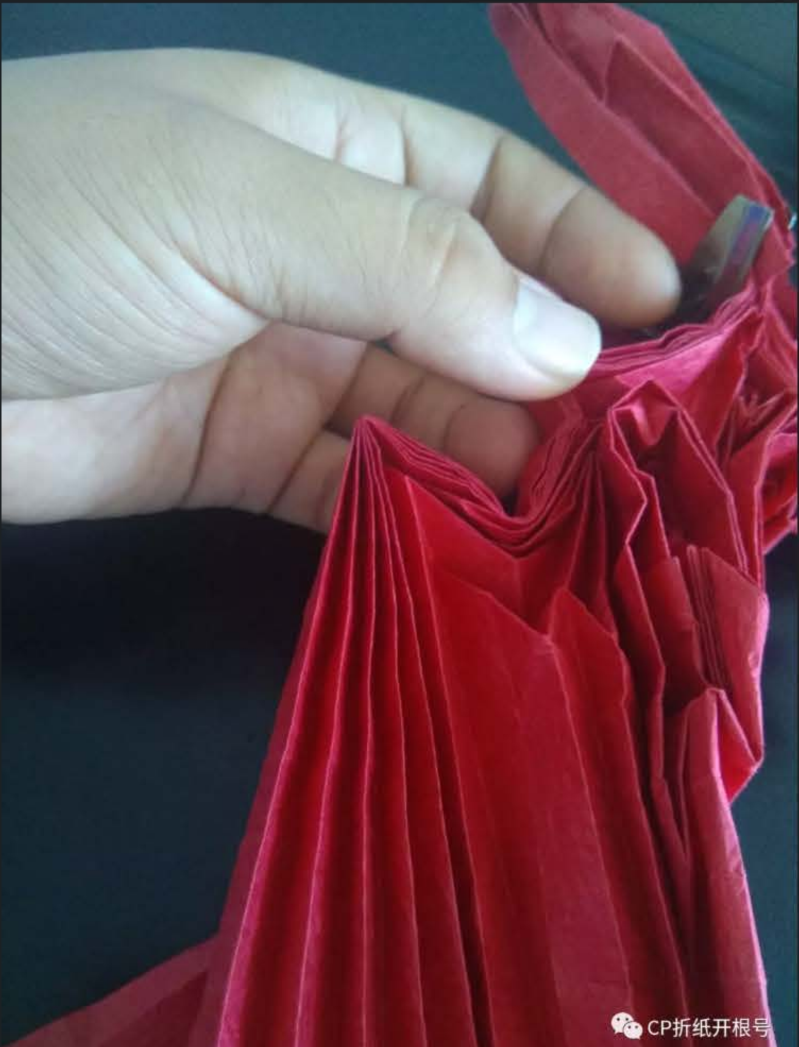
CP折纸开眼号

CP折纸开根号

Next, gather the other leg

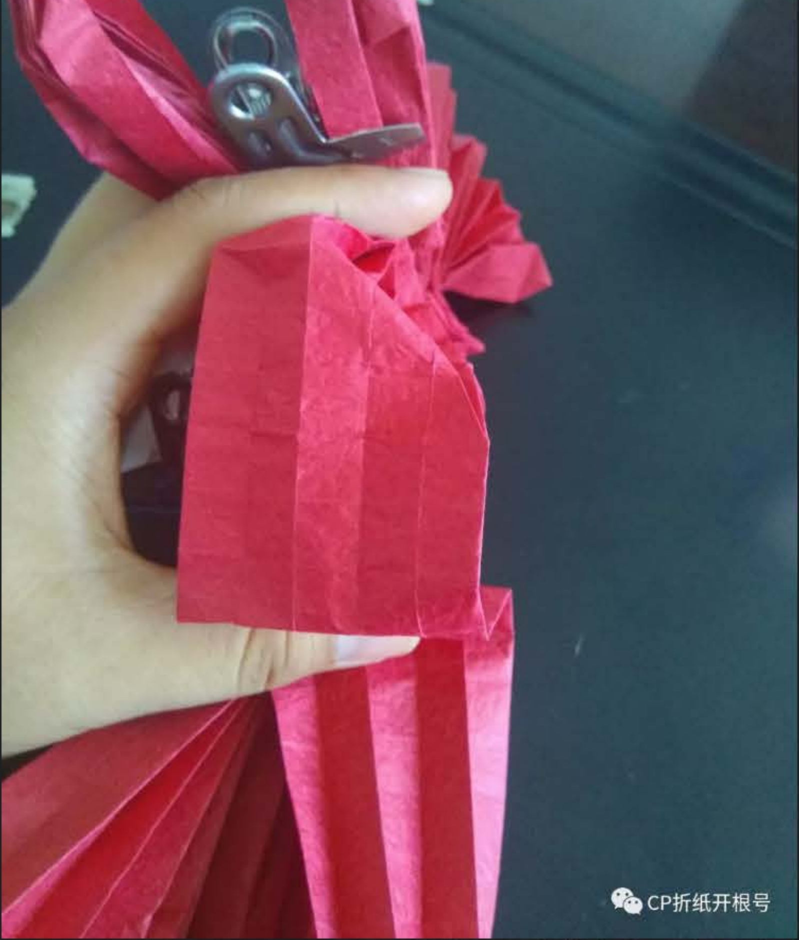


CP折纸开根号



CP折纸开根号

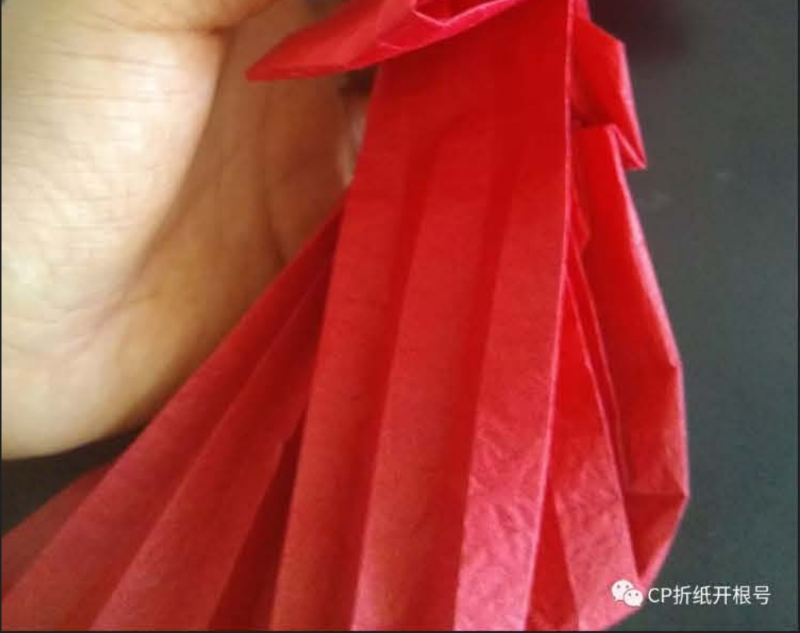
CP折纸开根号



CP折纸开根号

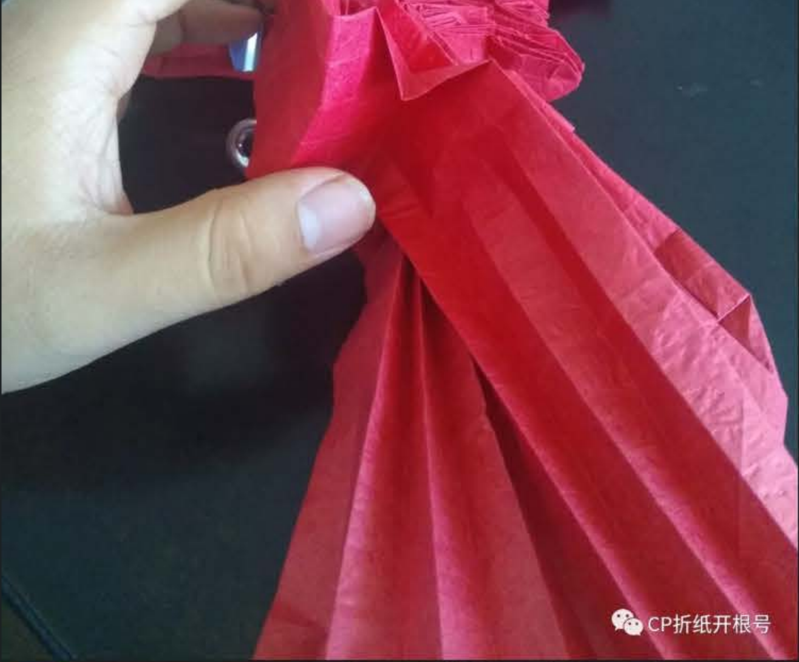
CP折纸开根号

CP折纸开根号

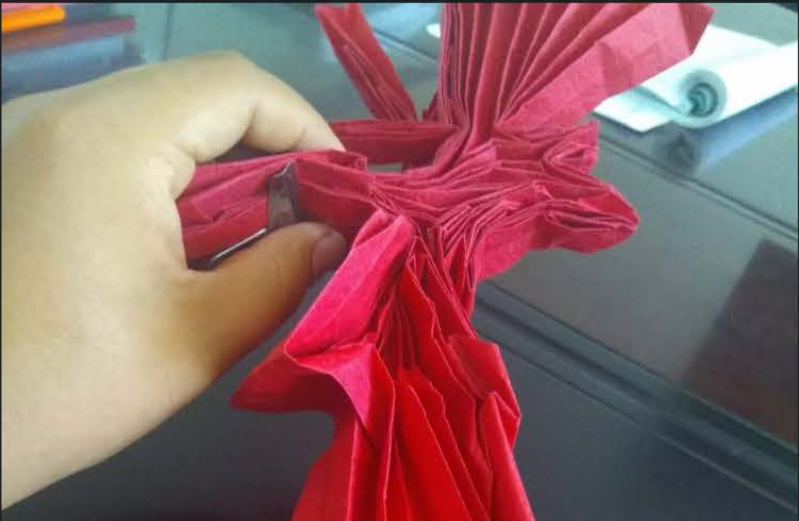


CP折纸开根号

The following figure, make a sink to realize the transformation of two cells to one cell



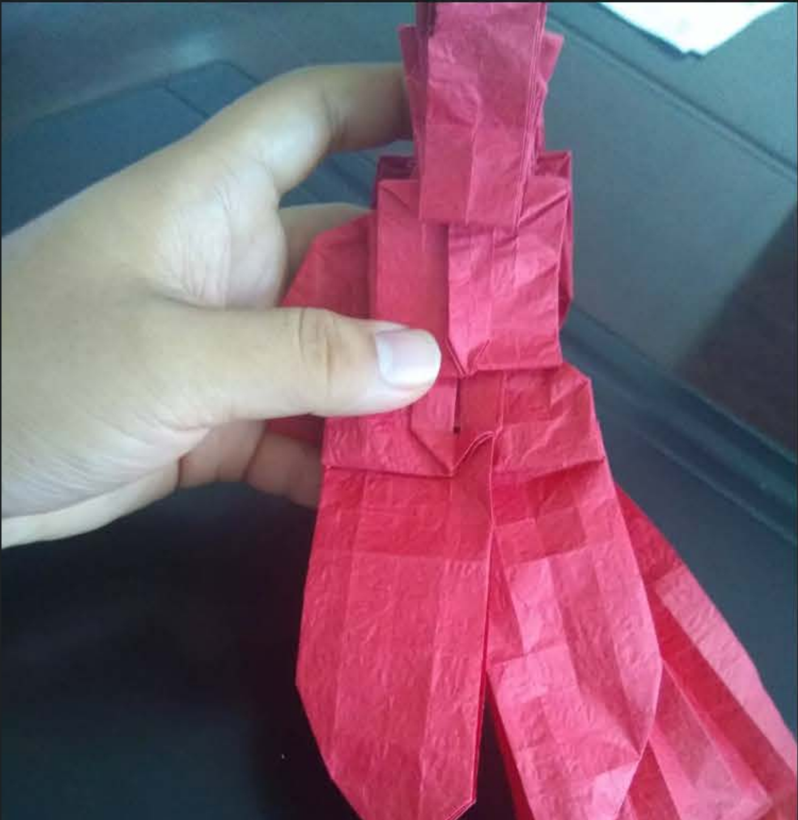
CP折纸开根号



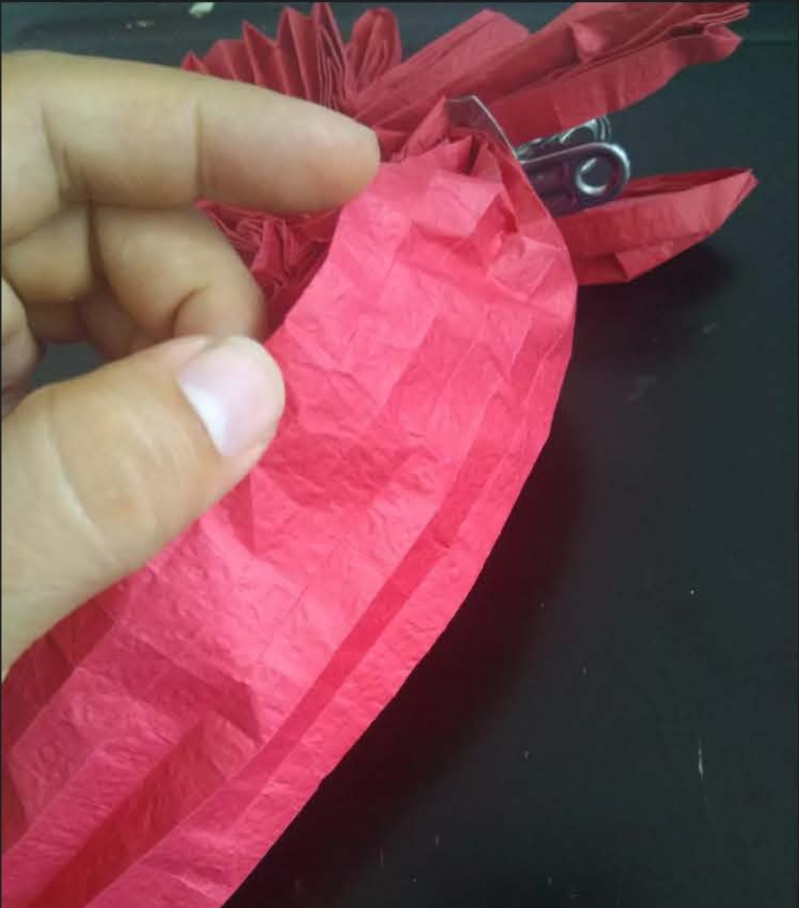
CP折纸开根号

CP折纸开根号

CP折纸开根号

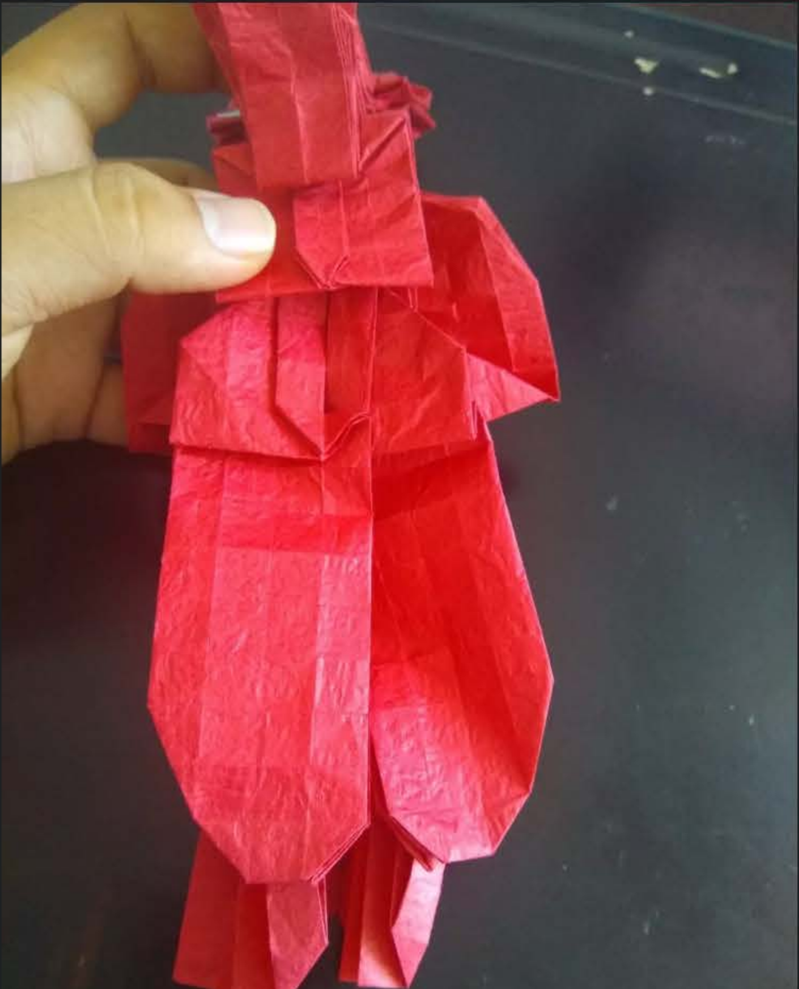


Next on the other side



CP折纸开根号

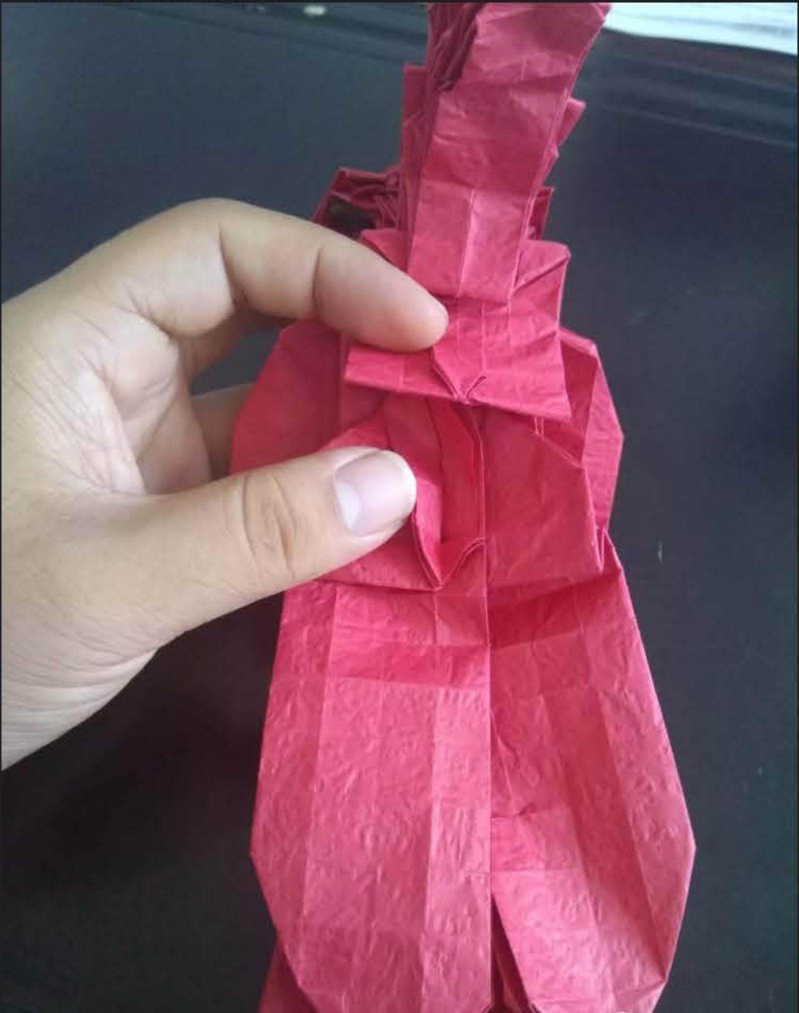
CP折纸开根号



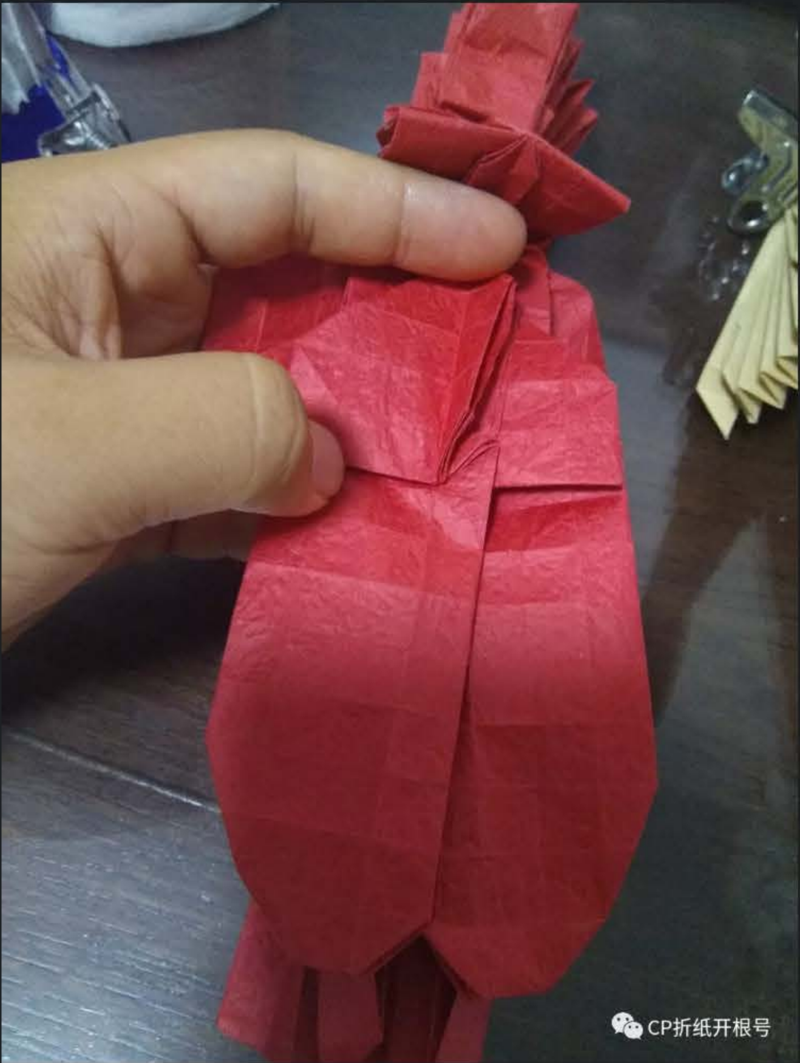
CP折纸开根号

With both legs resolved, I began to refine the structure of the lower body to prepare for plastic surgery.

Fold the sides of the shorts inward

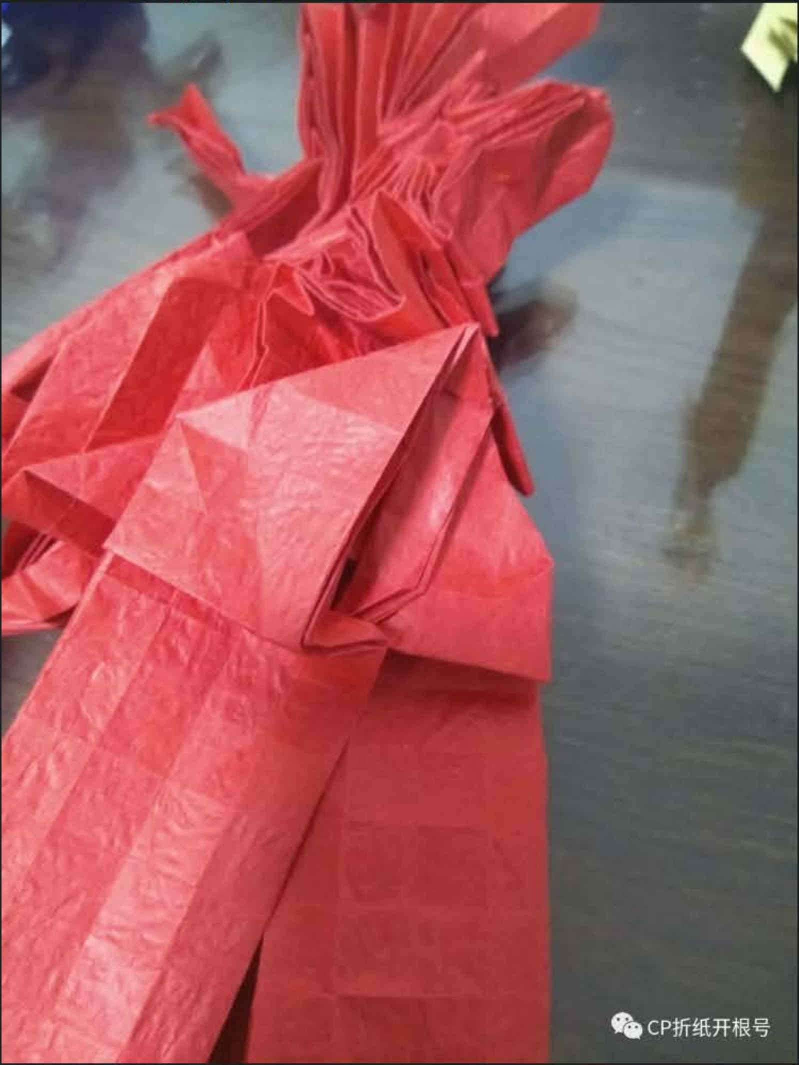


CP折纸开根号

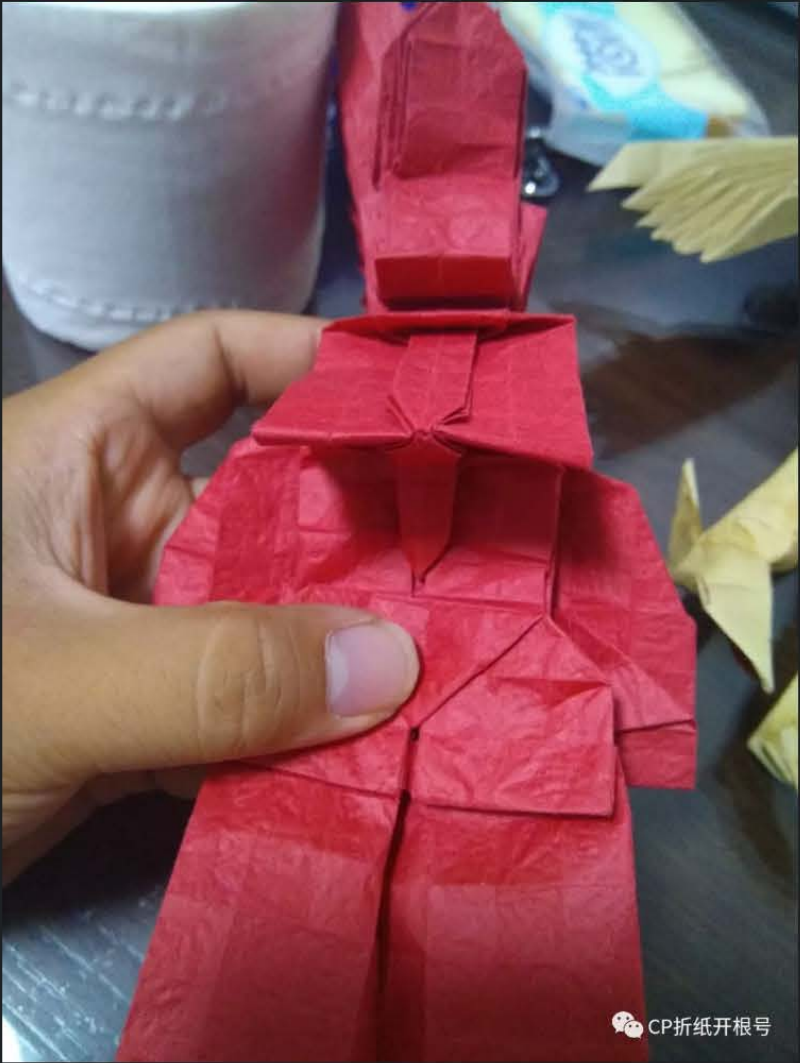


CP折纸开根号

Pull the inside triangle up and fold down two more

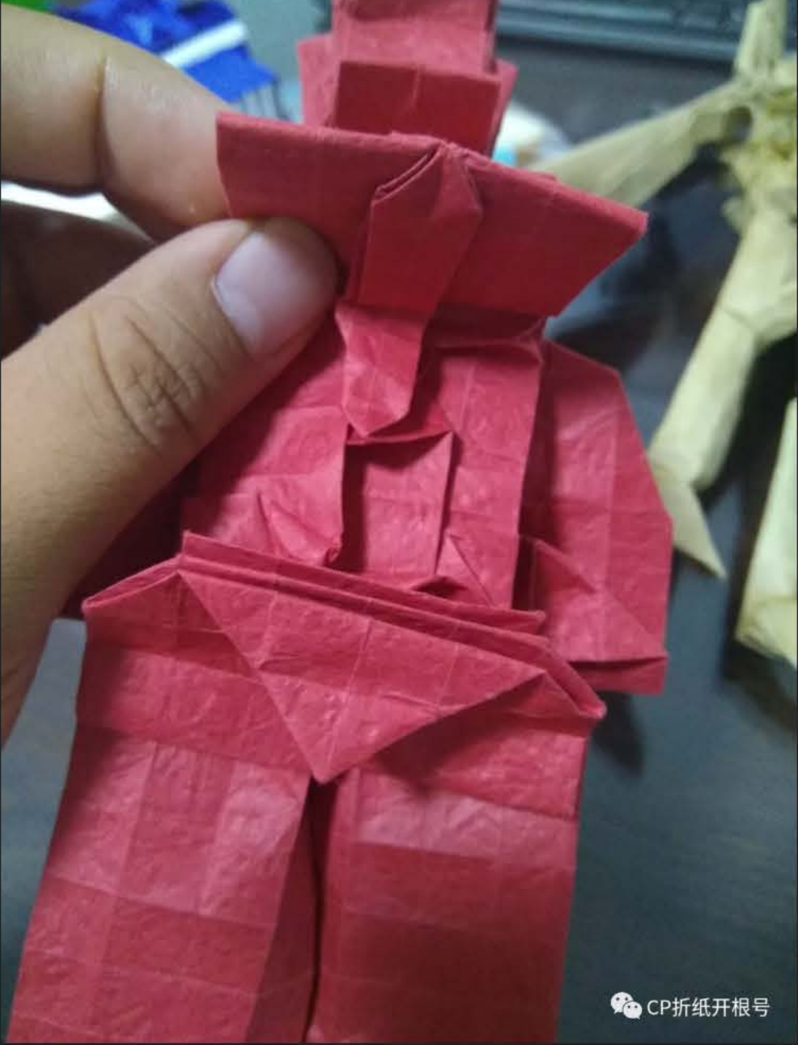


CP折纸开根号



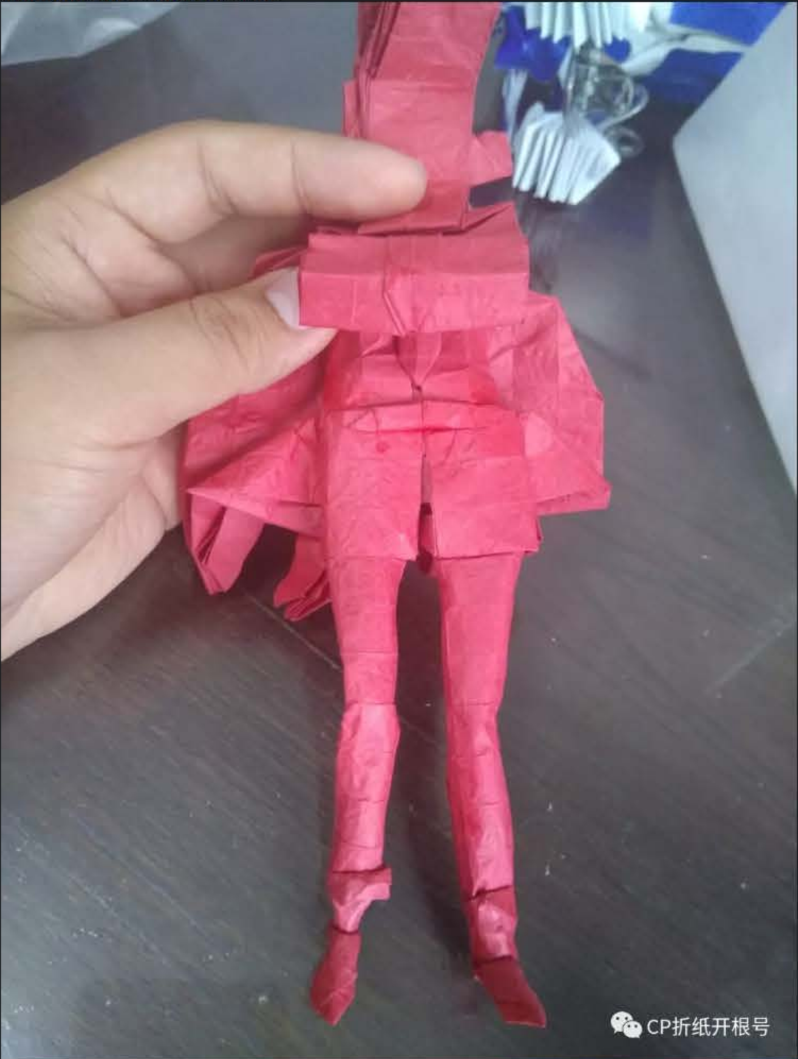
CP折纸开根号

Lift this layer of the chest up and make a bulge of the chest

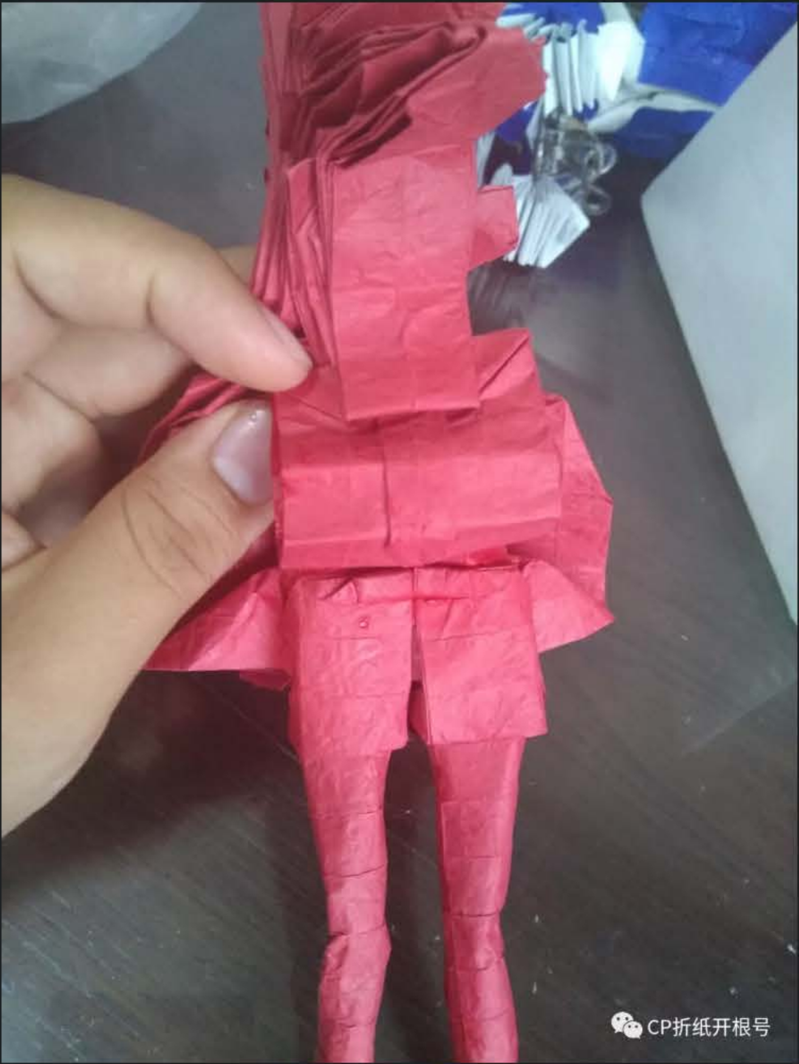


Here the tie is fixed with glue, and the drop-down triangle is made into the form of a belt

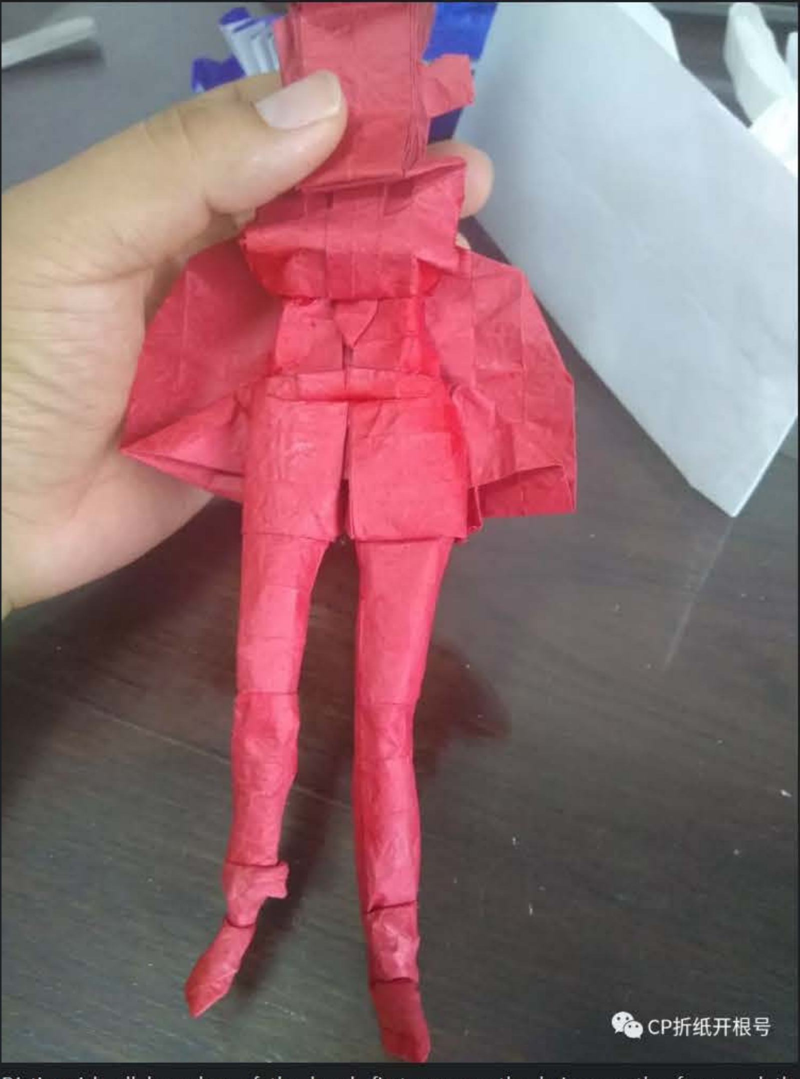
Homeopathy shaping the legs



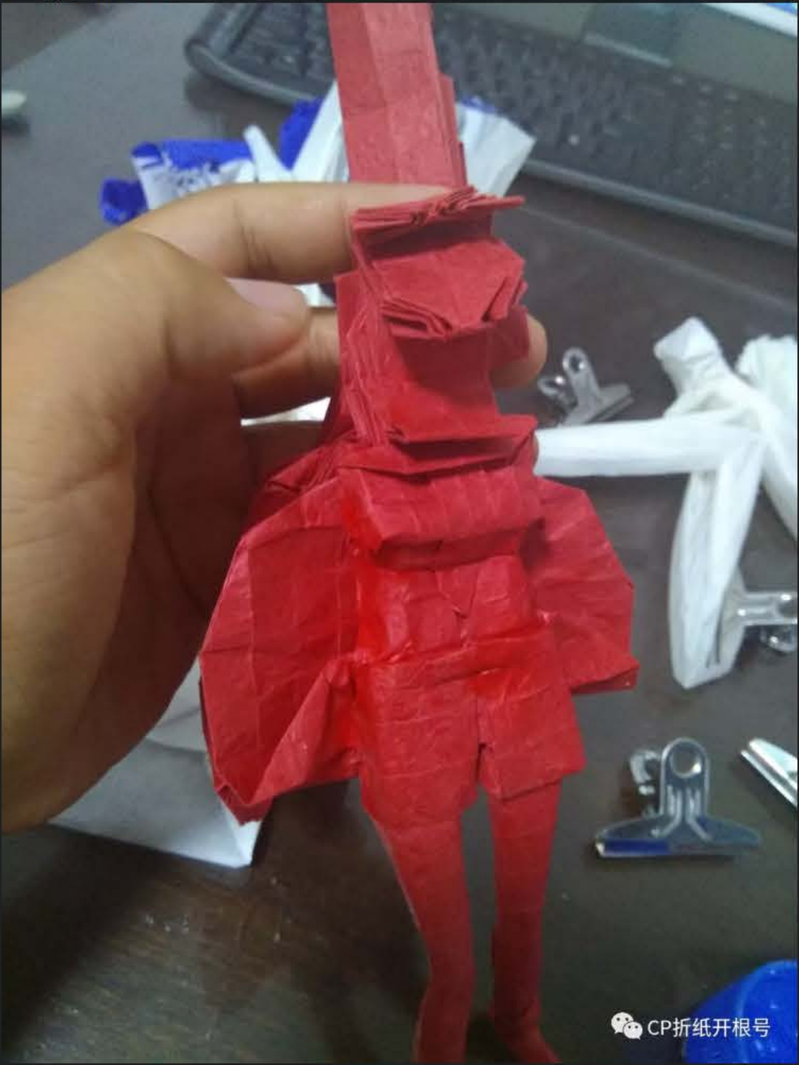
CP折纸开根号



CP折纸开根号

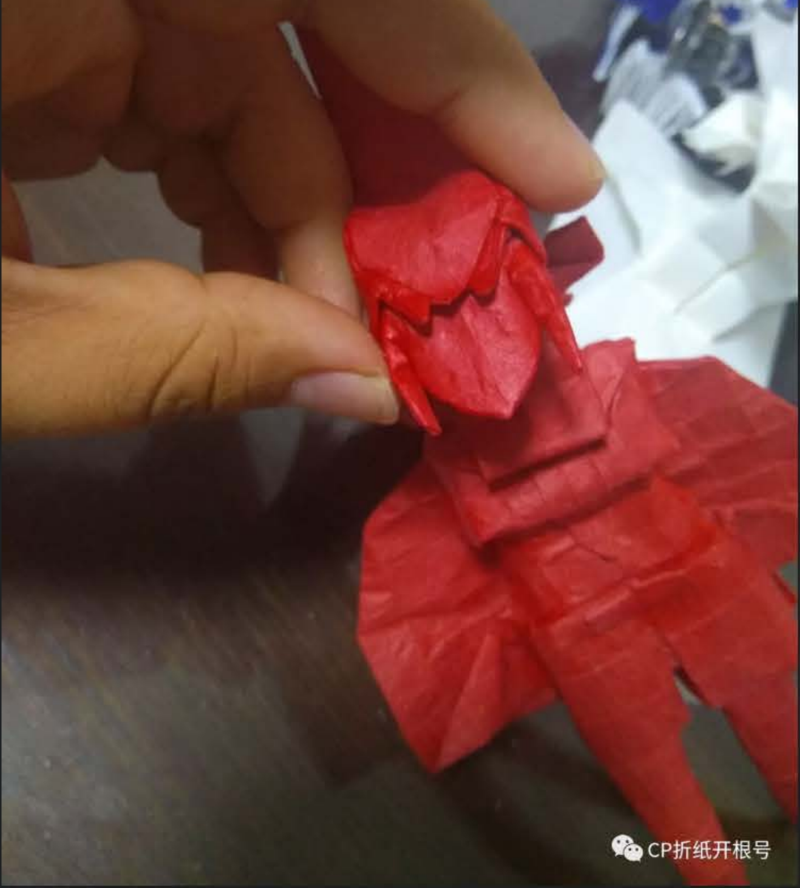


Distinguish all branches of the head, first arrange the hair near the face, and then arrange the curtain



CP折纸开根号

CP折纸开根号



CP折纸开根号

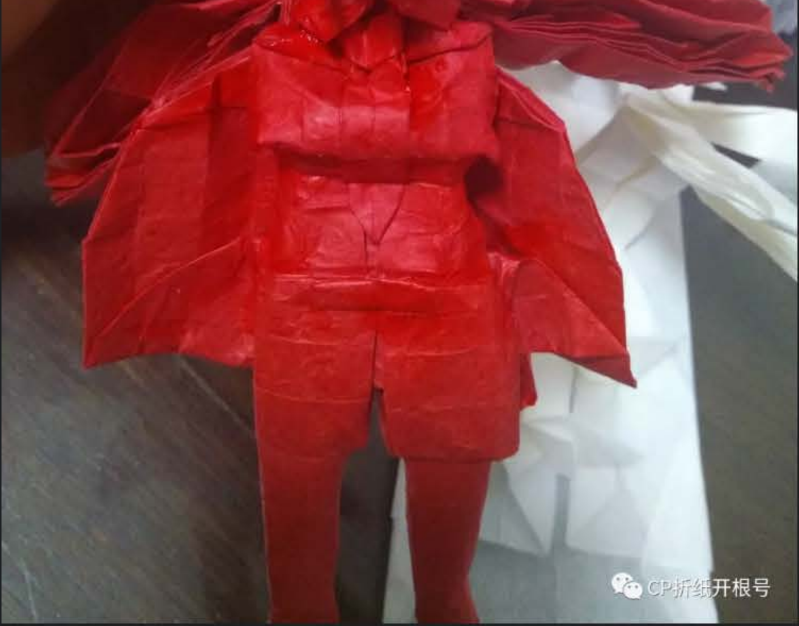
Raise your head and organize your neck and collar

CP折纸开根号

CP折纸开根号

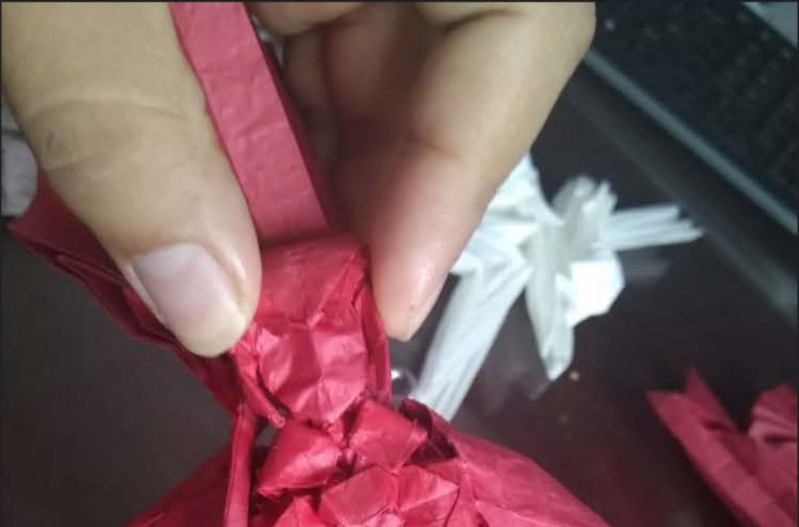
CP折纸开根号

CP折纸开根号



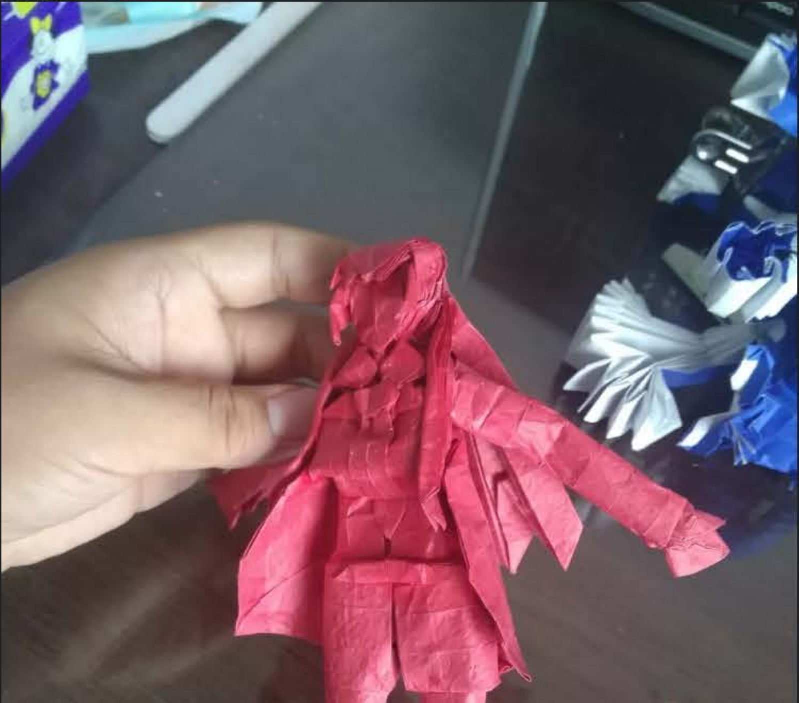
CP折纸开根号

Pull the long hair back to the front



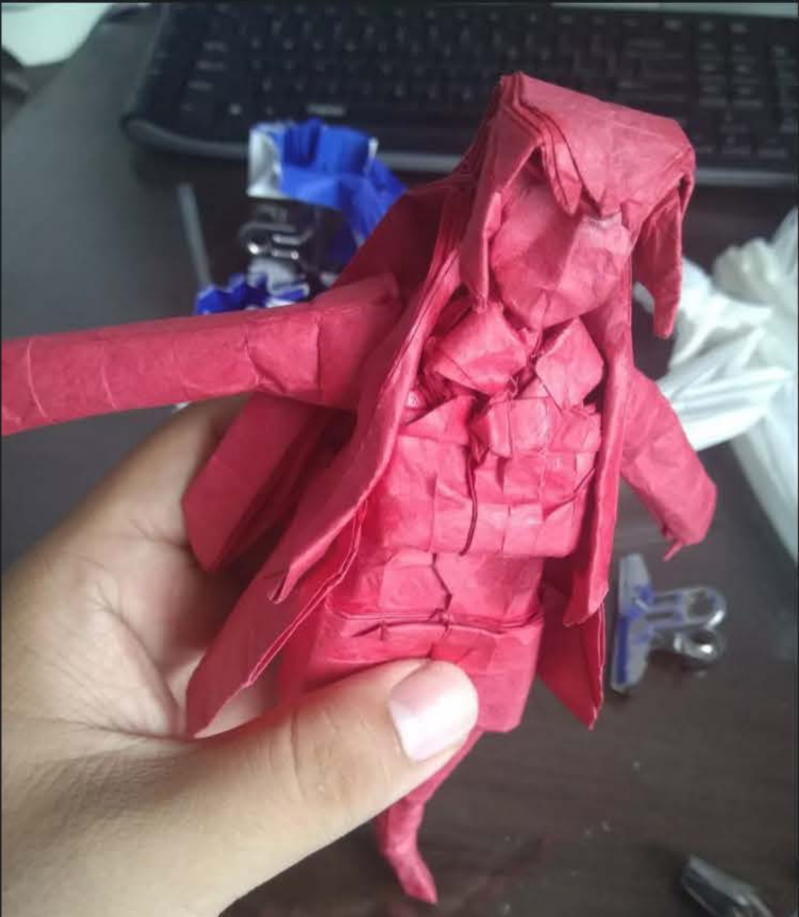
CP折纸开根号

Raise the arm at an angle, and then plasticize, it is recommended to add from top to bottom.

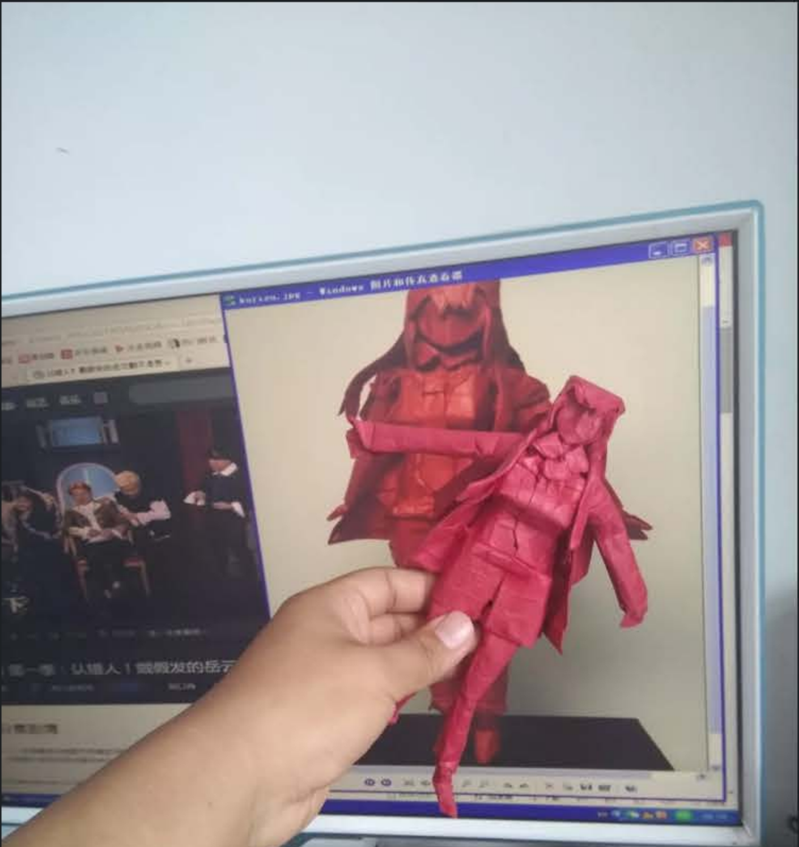


CP折纸开根号

CP折纸开根号



CP折纸开根号



I'll take these for my plastic surgery ideas, I believe everyone must handle it better than me, come on!

See you next time!

Once again, the name of the volcano 515650243 is the mountain origami player
Tremolo 29248204gaoshan name is origami player
I posted a lot of life sketches and origami sketches, and of course there are original works on display🤔
My Taobao Online Store
Although there is no decoration in the online store and the pictures are not very beautiful, the works are still complete, and I can order CP works that are not in the store. Of course, it also includes the aggregated semi-finished products and finished products of almost all the works explained by the public account. And line paper for sale.
