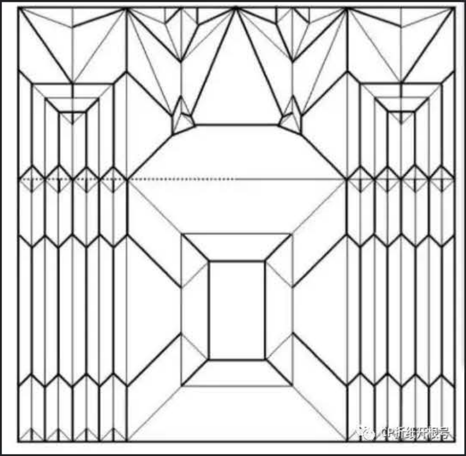
CP折纸开根号

The above folding map should not be difficult, but if a friend is really stuck at a certain step, he can leave a message to me. I won't do the actual shooting of the folding map here.

~~~~~~

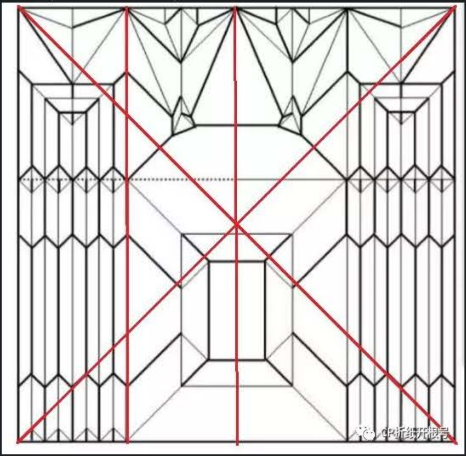
Next, we come to the third part of the book, the CP of the bear. If you still have an impression, we should remember that our public account has produced a bear's CP as early as a year ago. Now it is the second one. It may be in the future. There will be more!

The works in this issue have been partially color-changed so that they look lifelike. You may also wish to prepare a two-color paper, preferably black and white. When you are ready, follow me to fold the bear!

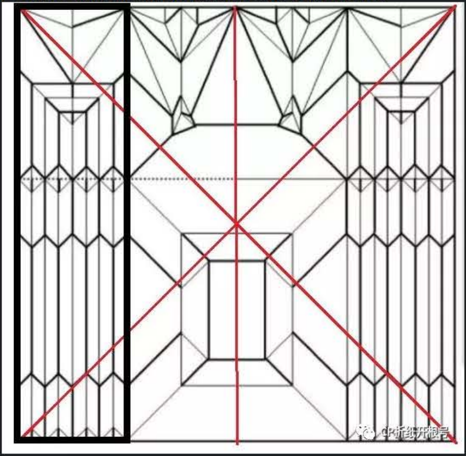


Current Issue CP Quarterly Square

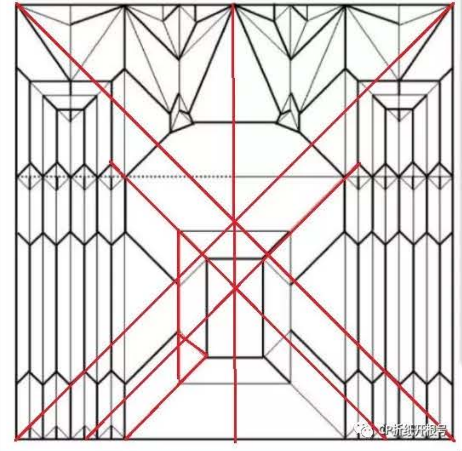
First, let's analyze this CP briefly.



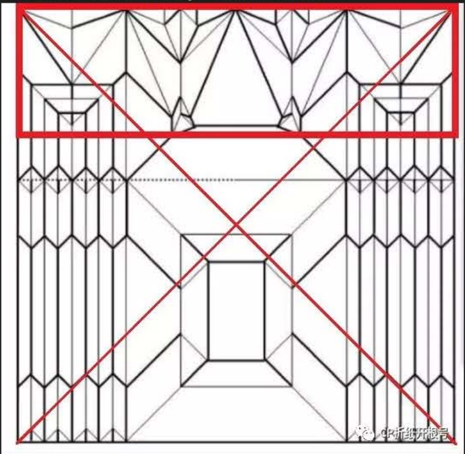
First, draw a line as shown in the figure above, fold it in half a meter, and then divide it into quarters vertically. Then, as shown in the figure below, the quarters on both sides are partially divided into eight parts.



Next, as shown in the figure below, draw the corresponding 45-degree line according to the different grid positions of the eight equal divisions.



Finally, the inner line of the red frame in the upper part of the figure below is drawn out. Some of them are angular lines and some are points and points. Therefore, be clear when you draw the lines.



After finishing most of the lines, we are ready to converge

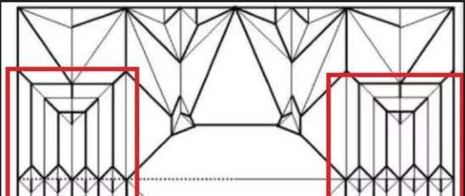
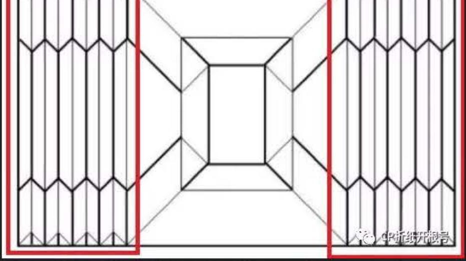
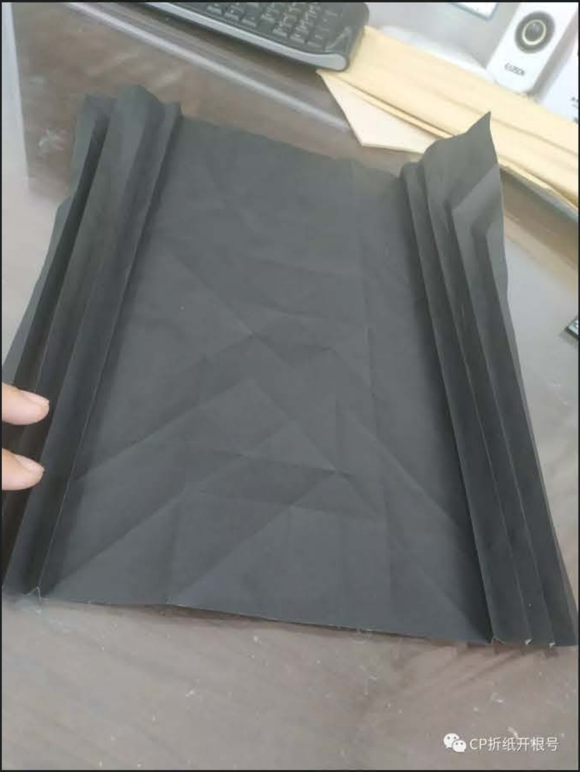
Two-color paper, we fold from the reverse side, giving priority to the feet on both sides.

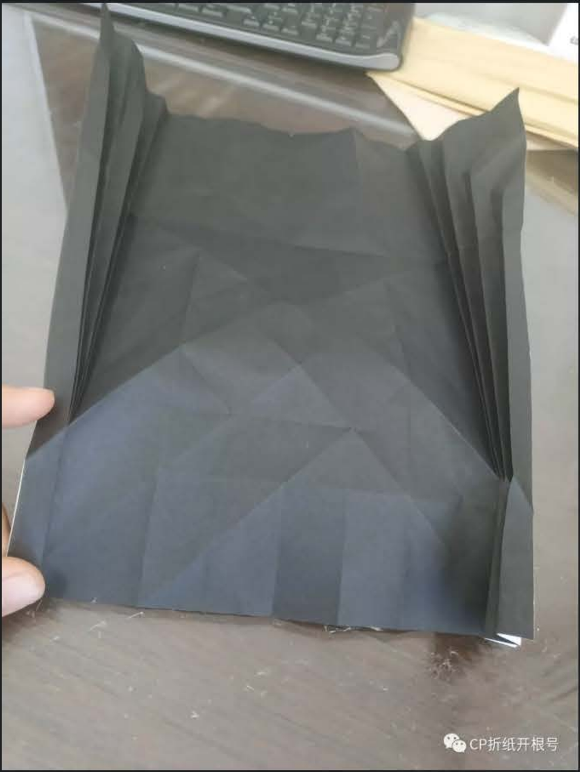




CP折纸开根号



CP折纸开根号



After the two sides are equally divided, pinch them into the middle, and then refer to the following figure. Let's start from the middle and do the peak break and link the bottom.

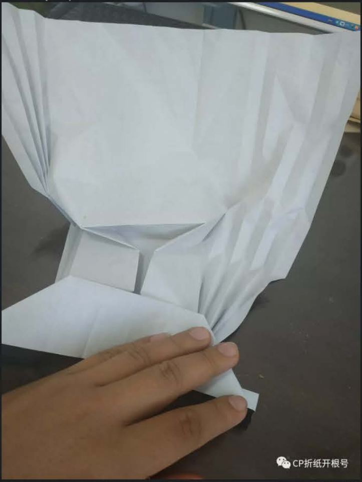
Now we can turn the paper to the front. According to the Cp, we will deal with the details of the four legs, and then twist the neck part, which is a double-layer operation.



CP折纸开根号

CP折纸开根号

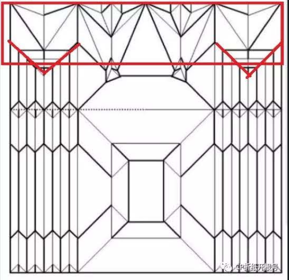
Finally we will fold the neck and head



CP折纸开根号

First we fold the peaks and valleys of the neck once and then start processing the head.

Well, the rest is to keep trimming, which is what everyone needs to do.

Please pay more attention and valuable comments on the new series of this issue!

While my public account is following, please wish me happy birthday haha!

CP折纸开根号

Well,
That's it for this issue!
See you next time! The following is our appreciation code, welcome to reward!🤭😜

I posted a lot of life sketches and origami sketches, and of course there are original works on display🤭
My Taobao Online Store
Although there is no decoration in the online store and the pictures are not very beautiful, the works are still complete, and I can order CP works that are not in the store. Of course, it also includes the aggregated semi-finished products and finished products of almost all the works explained by the public account. And line paper for sale.
