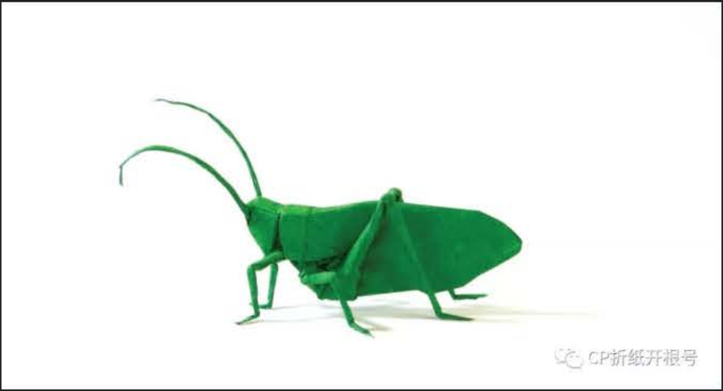
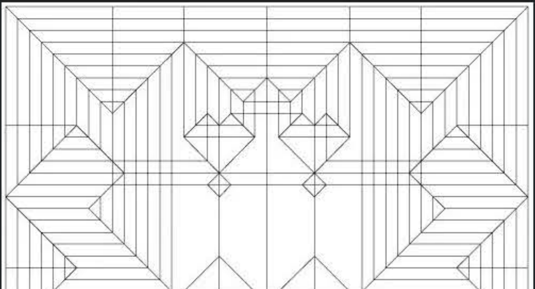
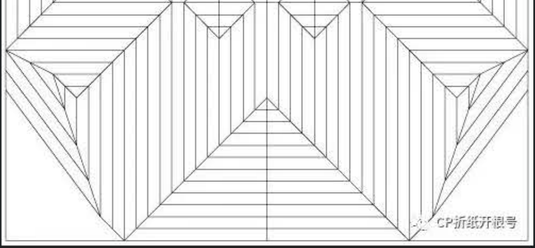
Original origami student Takayama CP origami opening number2019-08-11

Hello everyone and welcome to CP Opening Numbers!
Today, we opened a new bug worm, which is slightly different from the previous Luo, but it is not too difficult. I believe that most students who like to fold CP can fold it out. !!



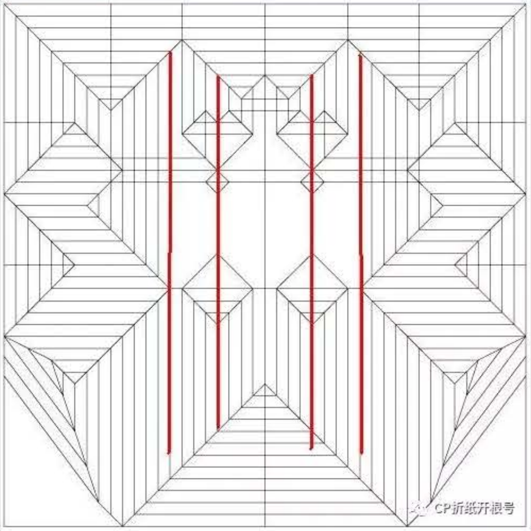




44 pieces in this issue

Here I choose yellow oily paper
The time to play the grid is very fast, and the line together is less than an hour, everyone as soon as possible!

First of all, we start with the part that is relatively wide in the middle, which can represent the characteristics of the back.



The left and right corners can be folded directly to the back or cut off. It's up to you.

Below we start to aggregate the black lines in the CP according to the following figure. Here are two semi-closed zigzag structures that are relatively simple.

Next we deal with the part in the red area in the figure below

One thing to pay special attention to here is the continuous problem of peaks and valleys.

After the two sides are aggregated, we continue to aggregate, first complete the upper fold line in the following figure, and then pull open the middle paper layer to complete a closed sink.

Below we complete the two long legs in the lower part, and pull the paper layer in the middle and upper part to finish the final trimming.

Let's look at the paper layer diagram on the side again.

From here we can make a big fold from the back. Be careful not to break. This step is critical.

Let's start plastic surgery. After adjusting the angle of the body, we will first arrange the two antennae and then pull down the two branches to make the face and chin.

We deal with the lower legs while waiting for the head and face to dry.

It should be said that the overall is not too difficult, but it is still not included in the entry series, because personally I think there are a few setbacks or it is slightly difficult. Some people may not see it, so take it slowly. Some will be released, don't worry!

Come on, origami gentlemen!

See you next time!

I posted a lot of life sketches and origami sketches, and of course there are original works on display🤭
My Taobao Online Store
Although there is no decoration in the online store and the pictures are not very beautiful, the works are still complete, and I can order CP works that are not in the store. Of course, it also includes the aggregated semi-finished products and finished products of almost all the works explained by the public account. And line paper for sale.
