I personally think that it is better to use single-color paper. The two-tone color feels a bit weird. Of course, it may be because the color tone of my aggregation is reversed, but the process must be correct. I ca n't find it after the aggregation, and I do n't want to refold.

Now let 's talk about the second work. Walrus

If you do n't have the right paper in your hand, you can do the same as me. You just need to make a sticker on the head where you need to turn the color. In fact, of course, you can stick white to thicken the place.

There is not much skill in plastic surgery, just make it look like a fat man!

In the future, there is no guarantee that real shots of small works will be released every month, but there will definitely be some series for the entry-level CP. Please pay attention to those who want to play the small CP! So ,,,,,,,

Come on, origami gentlemen!

See you next time!
