

Let's make a
Ryujin 1.2

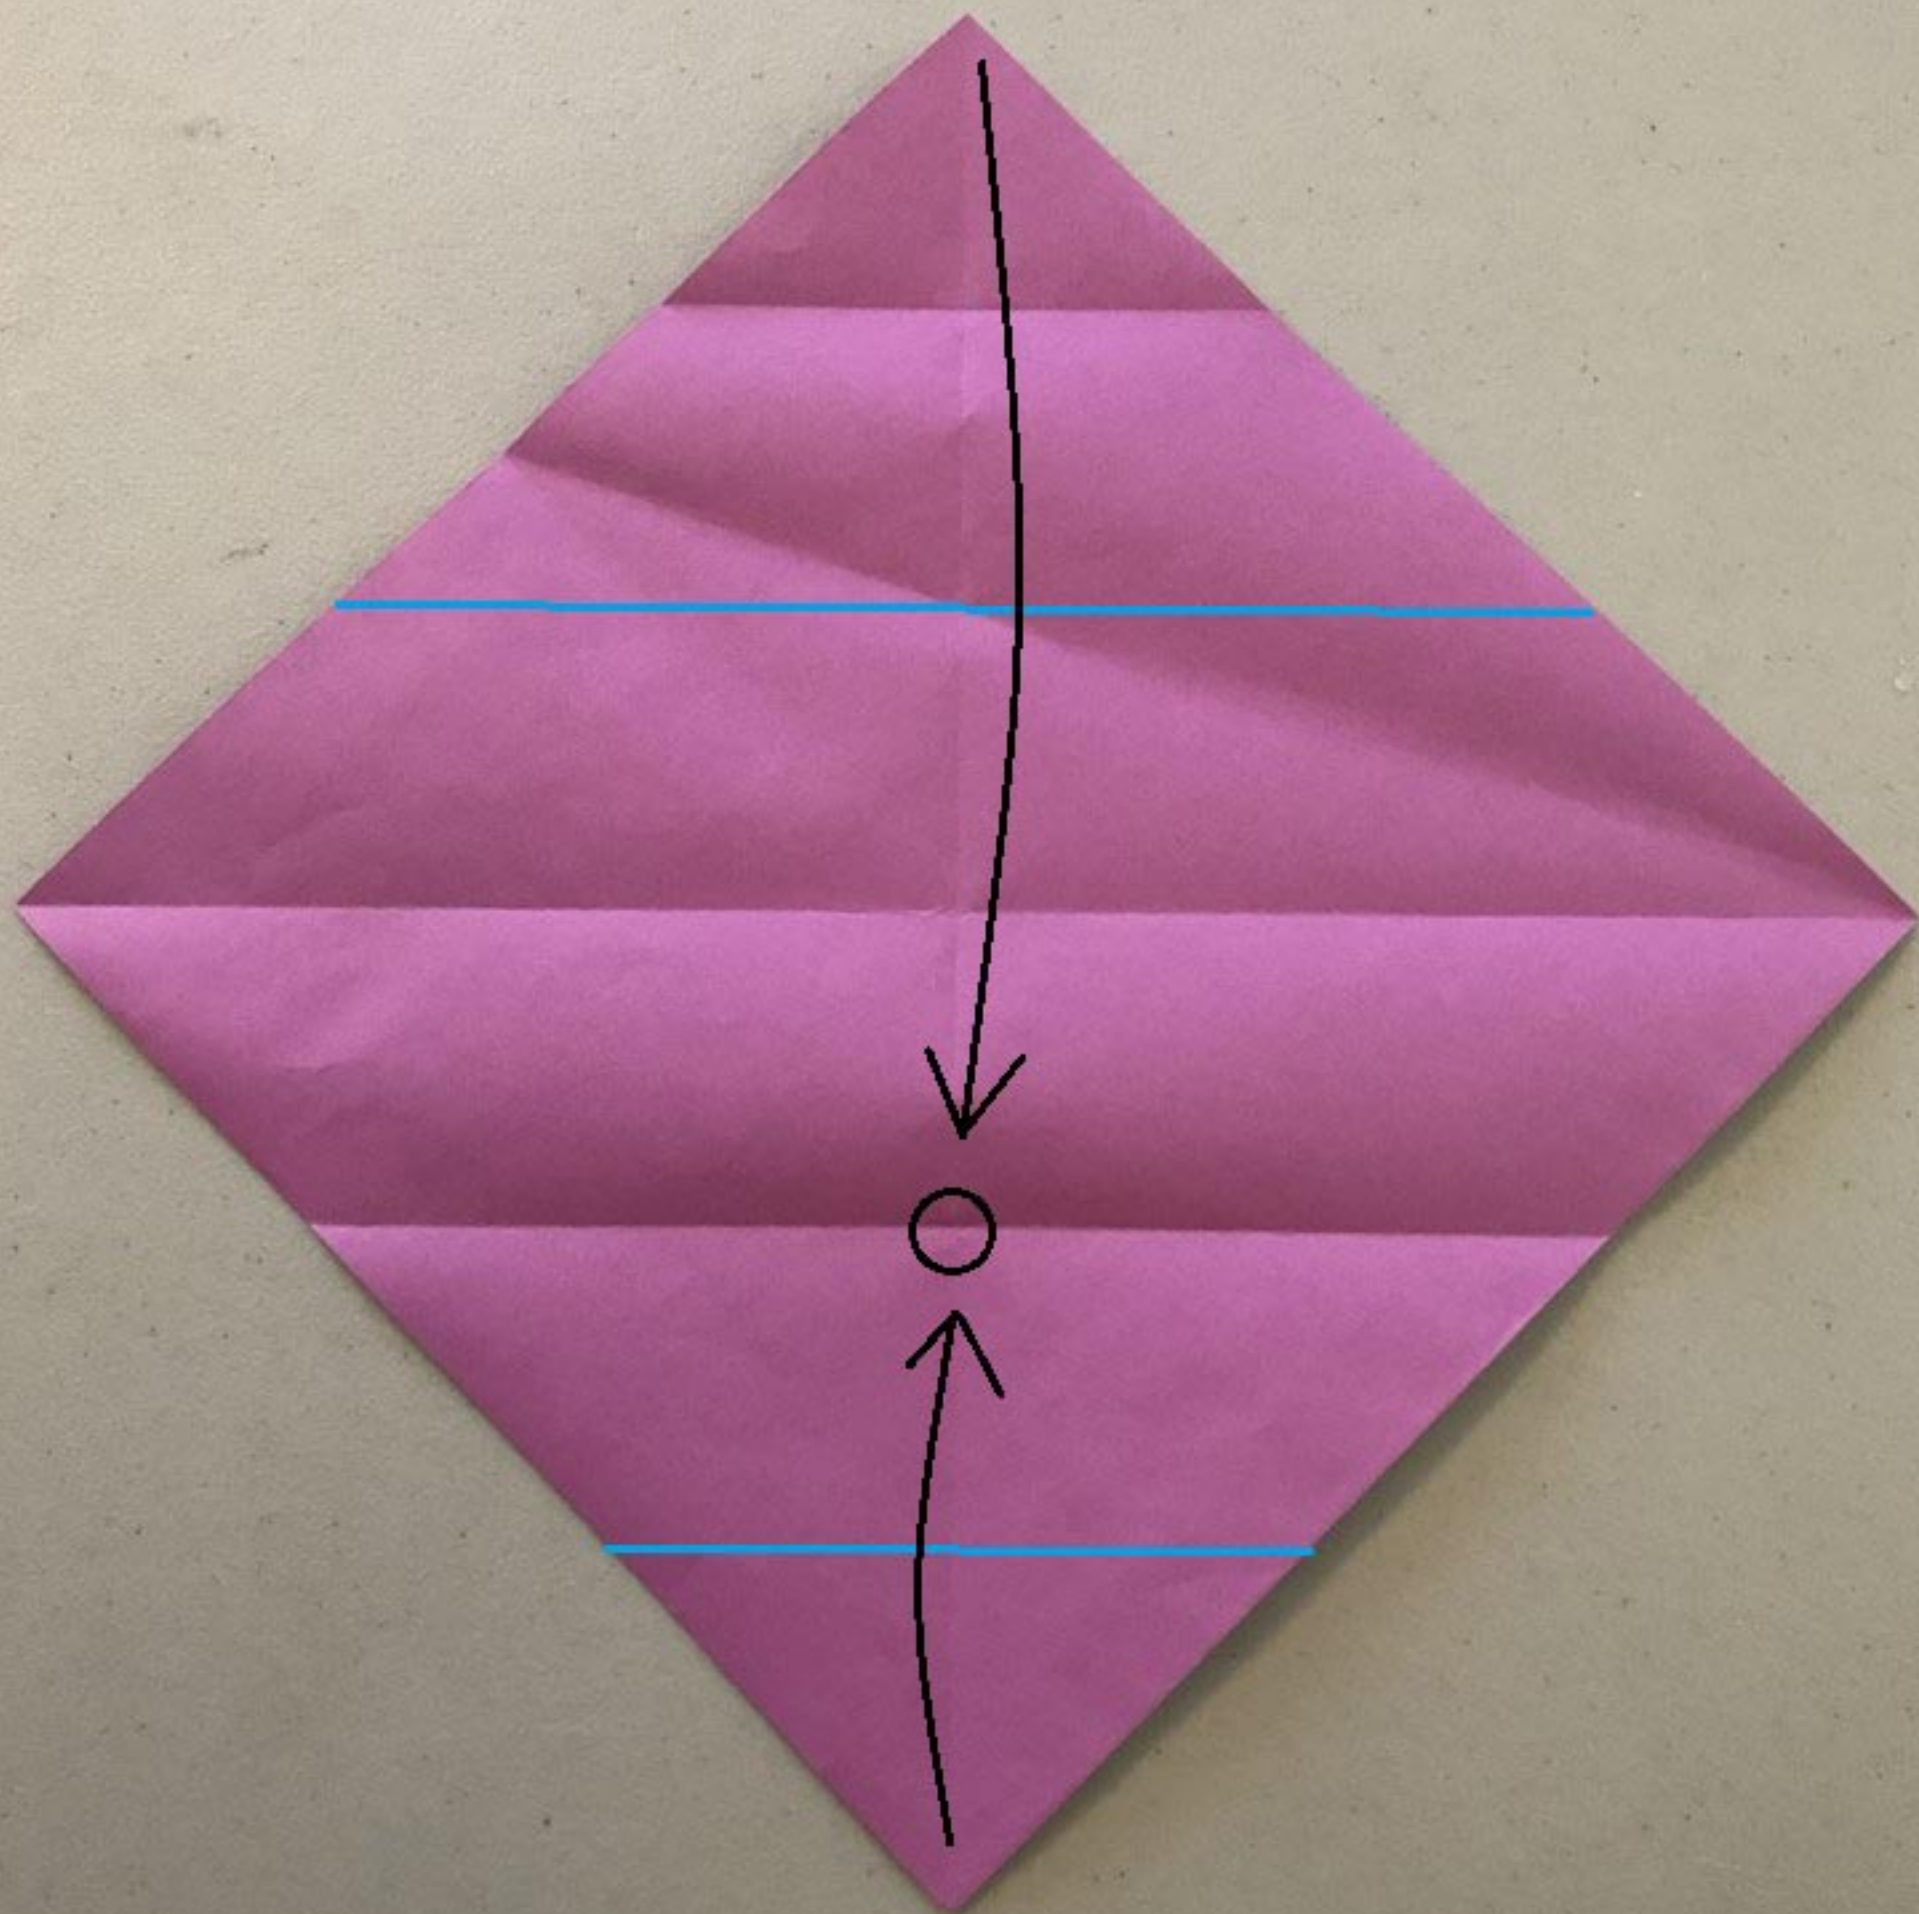

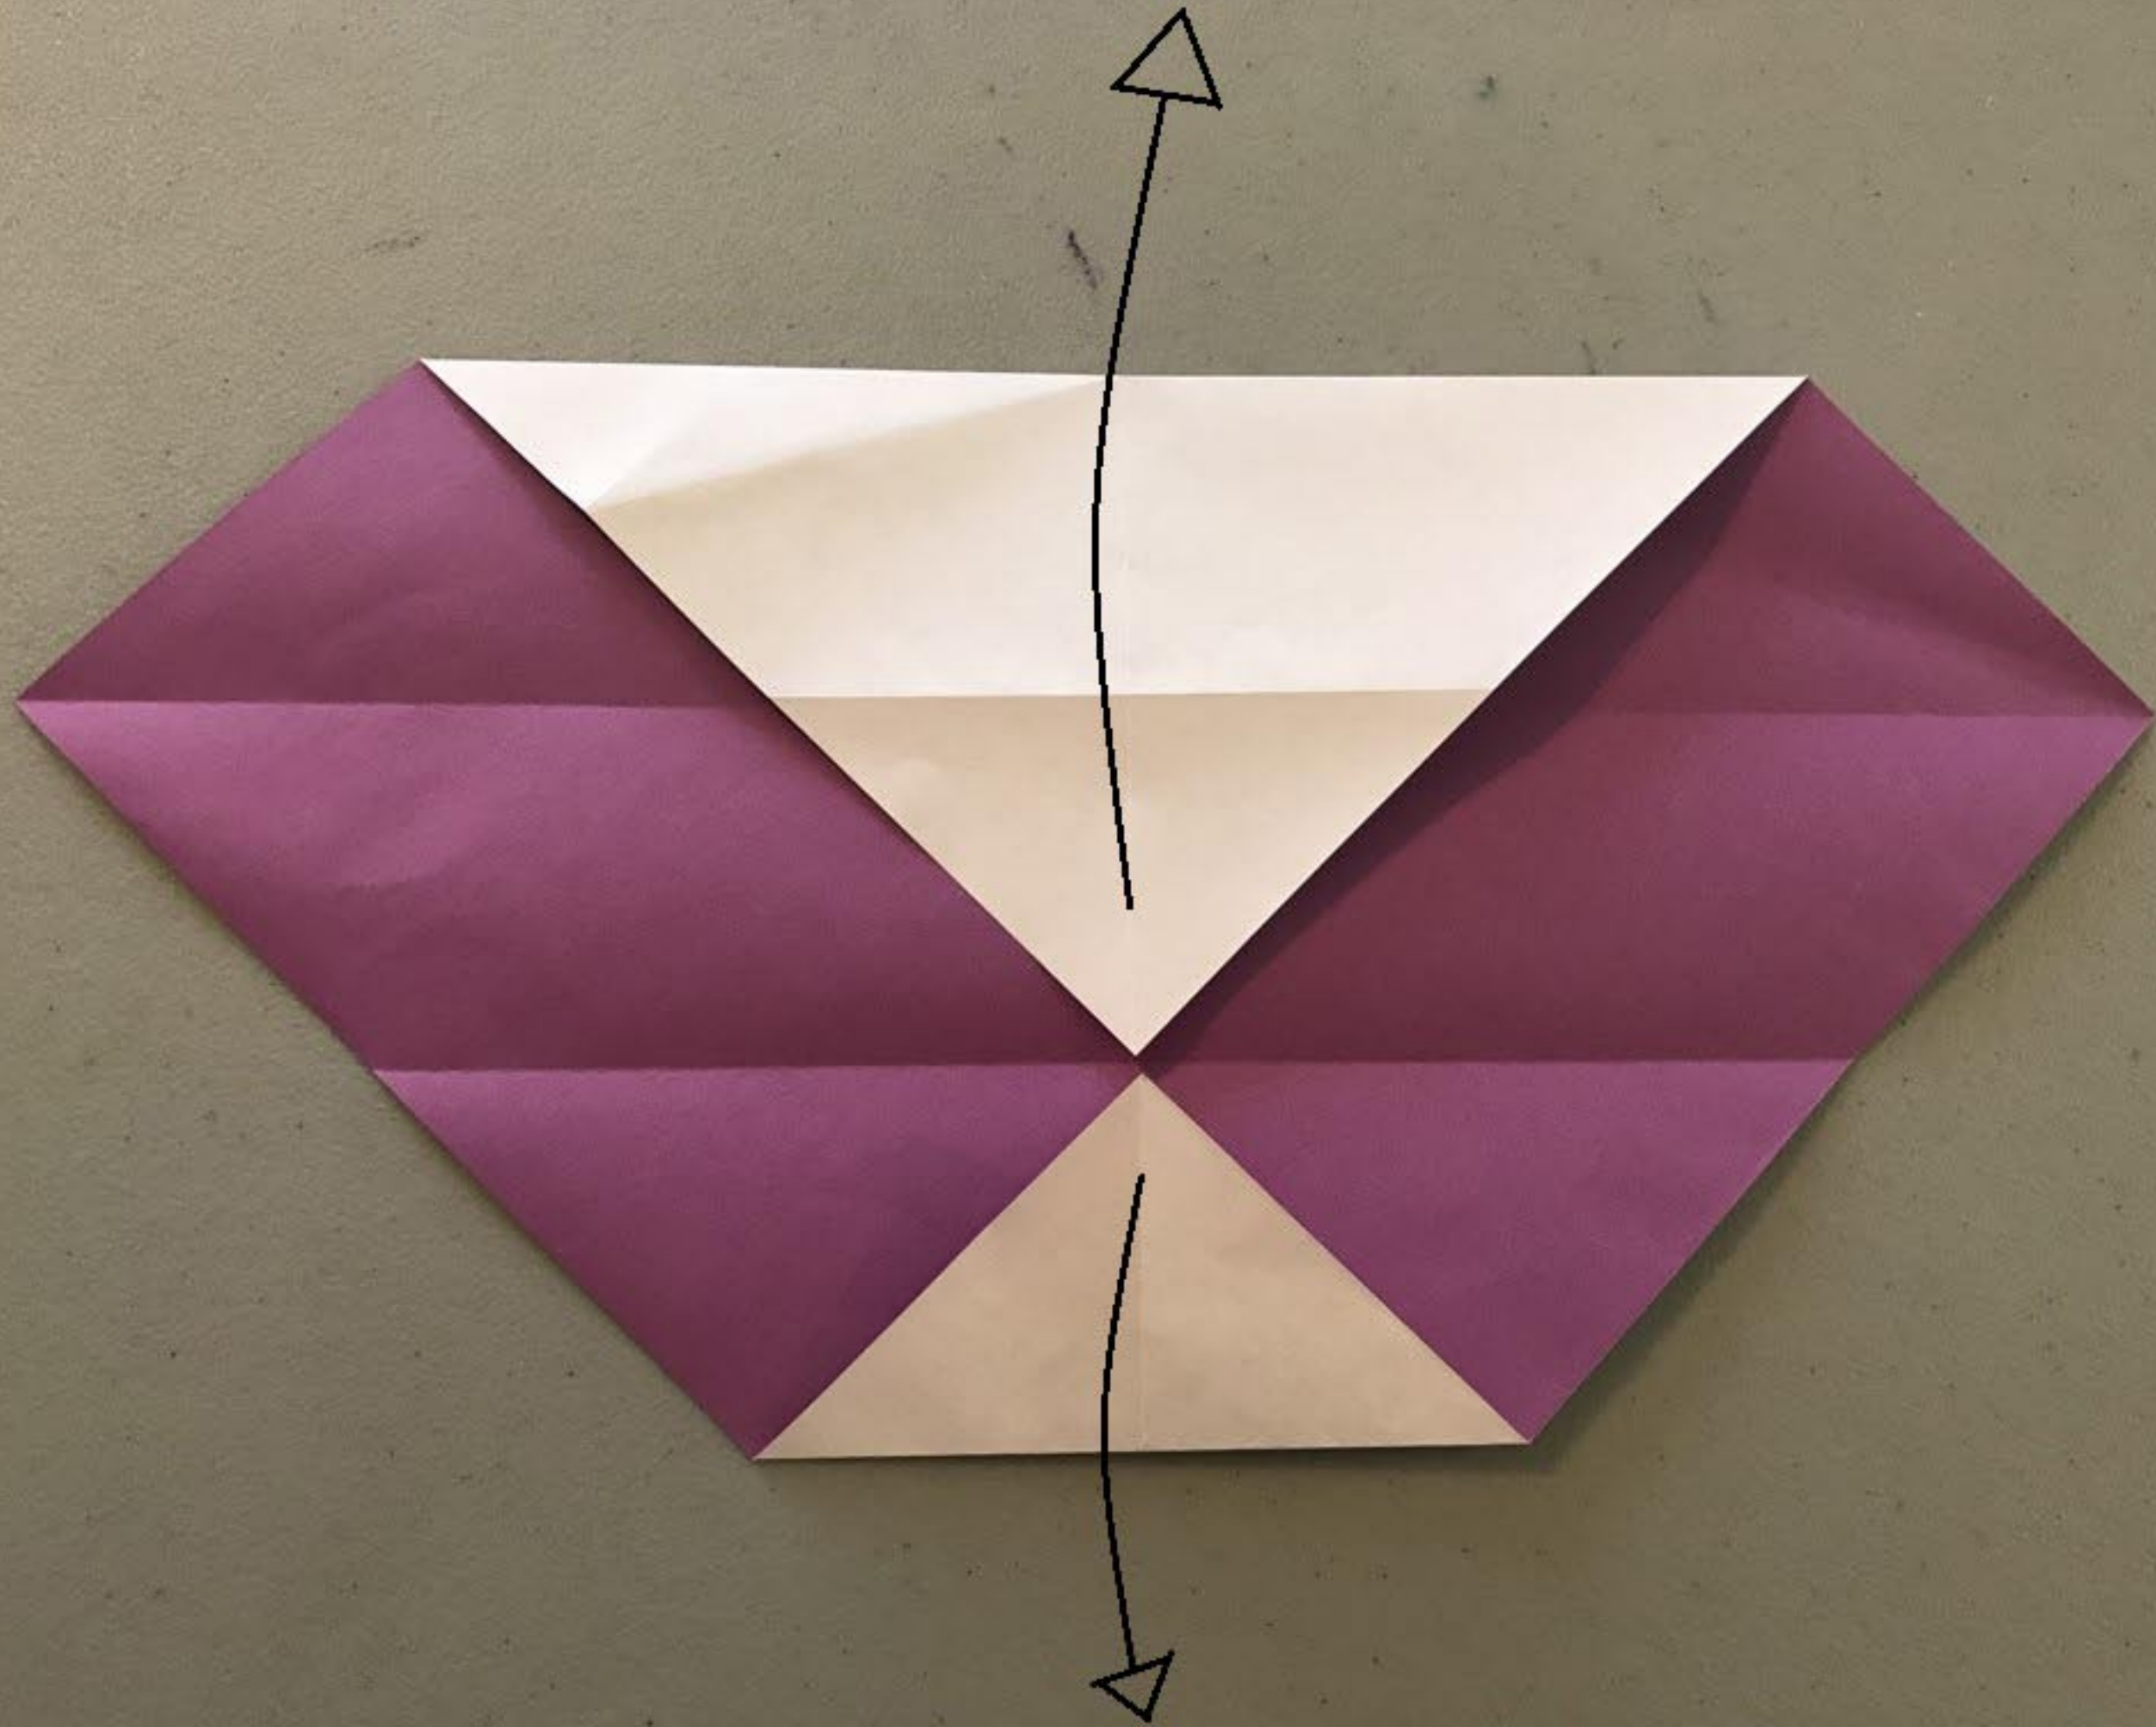

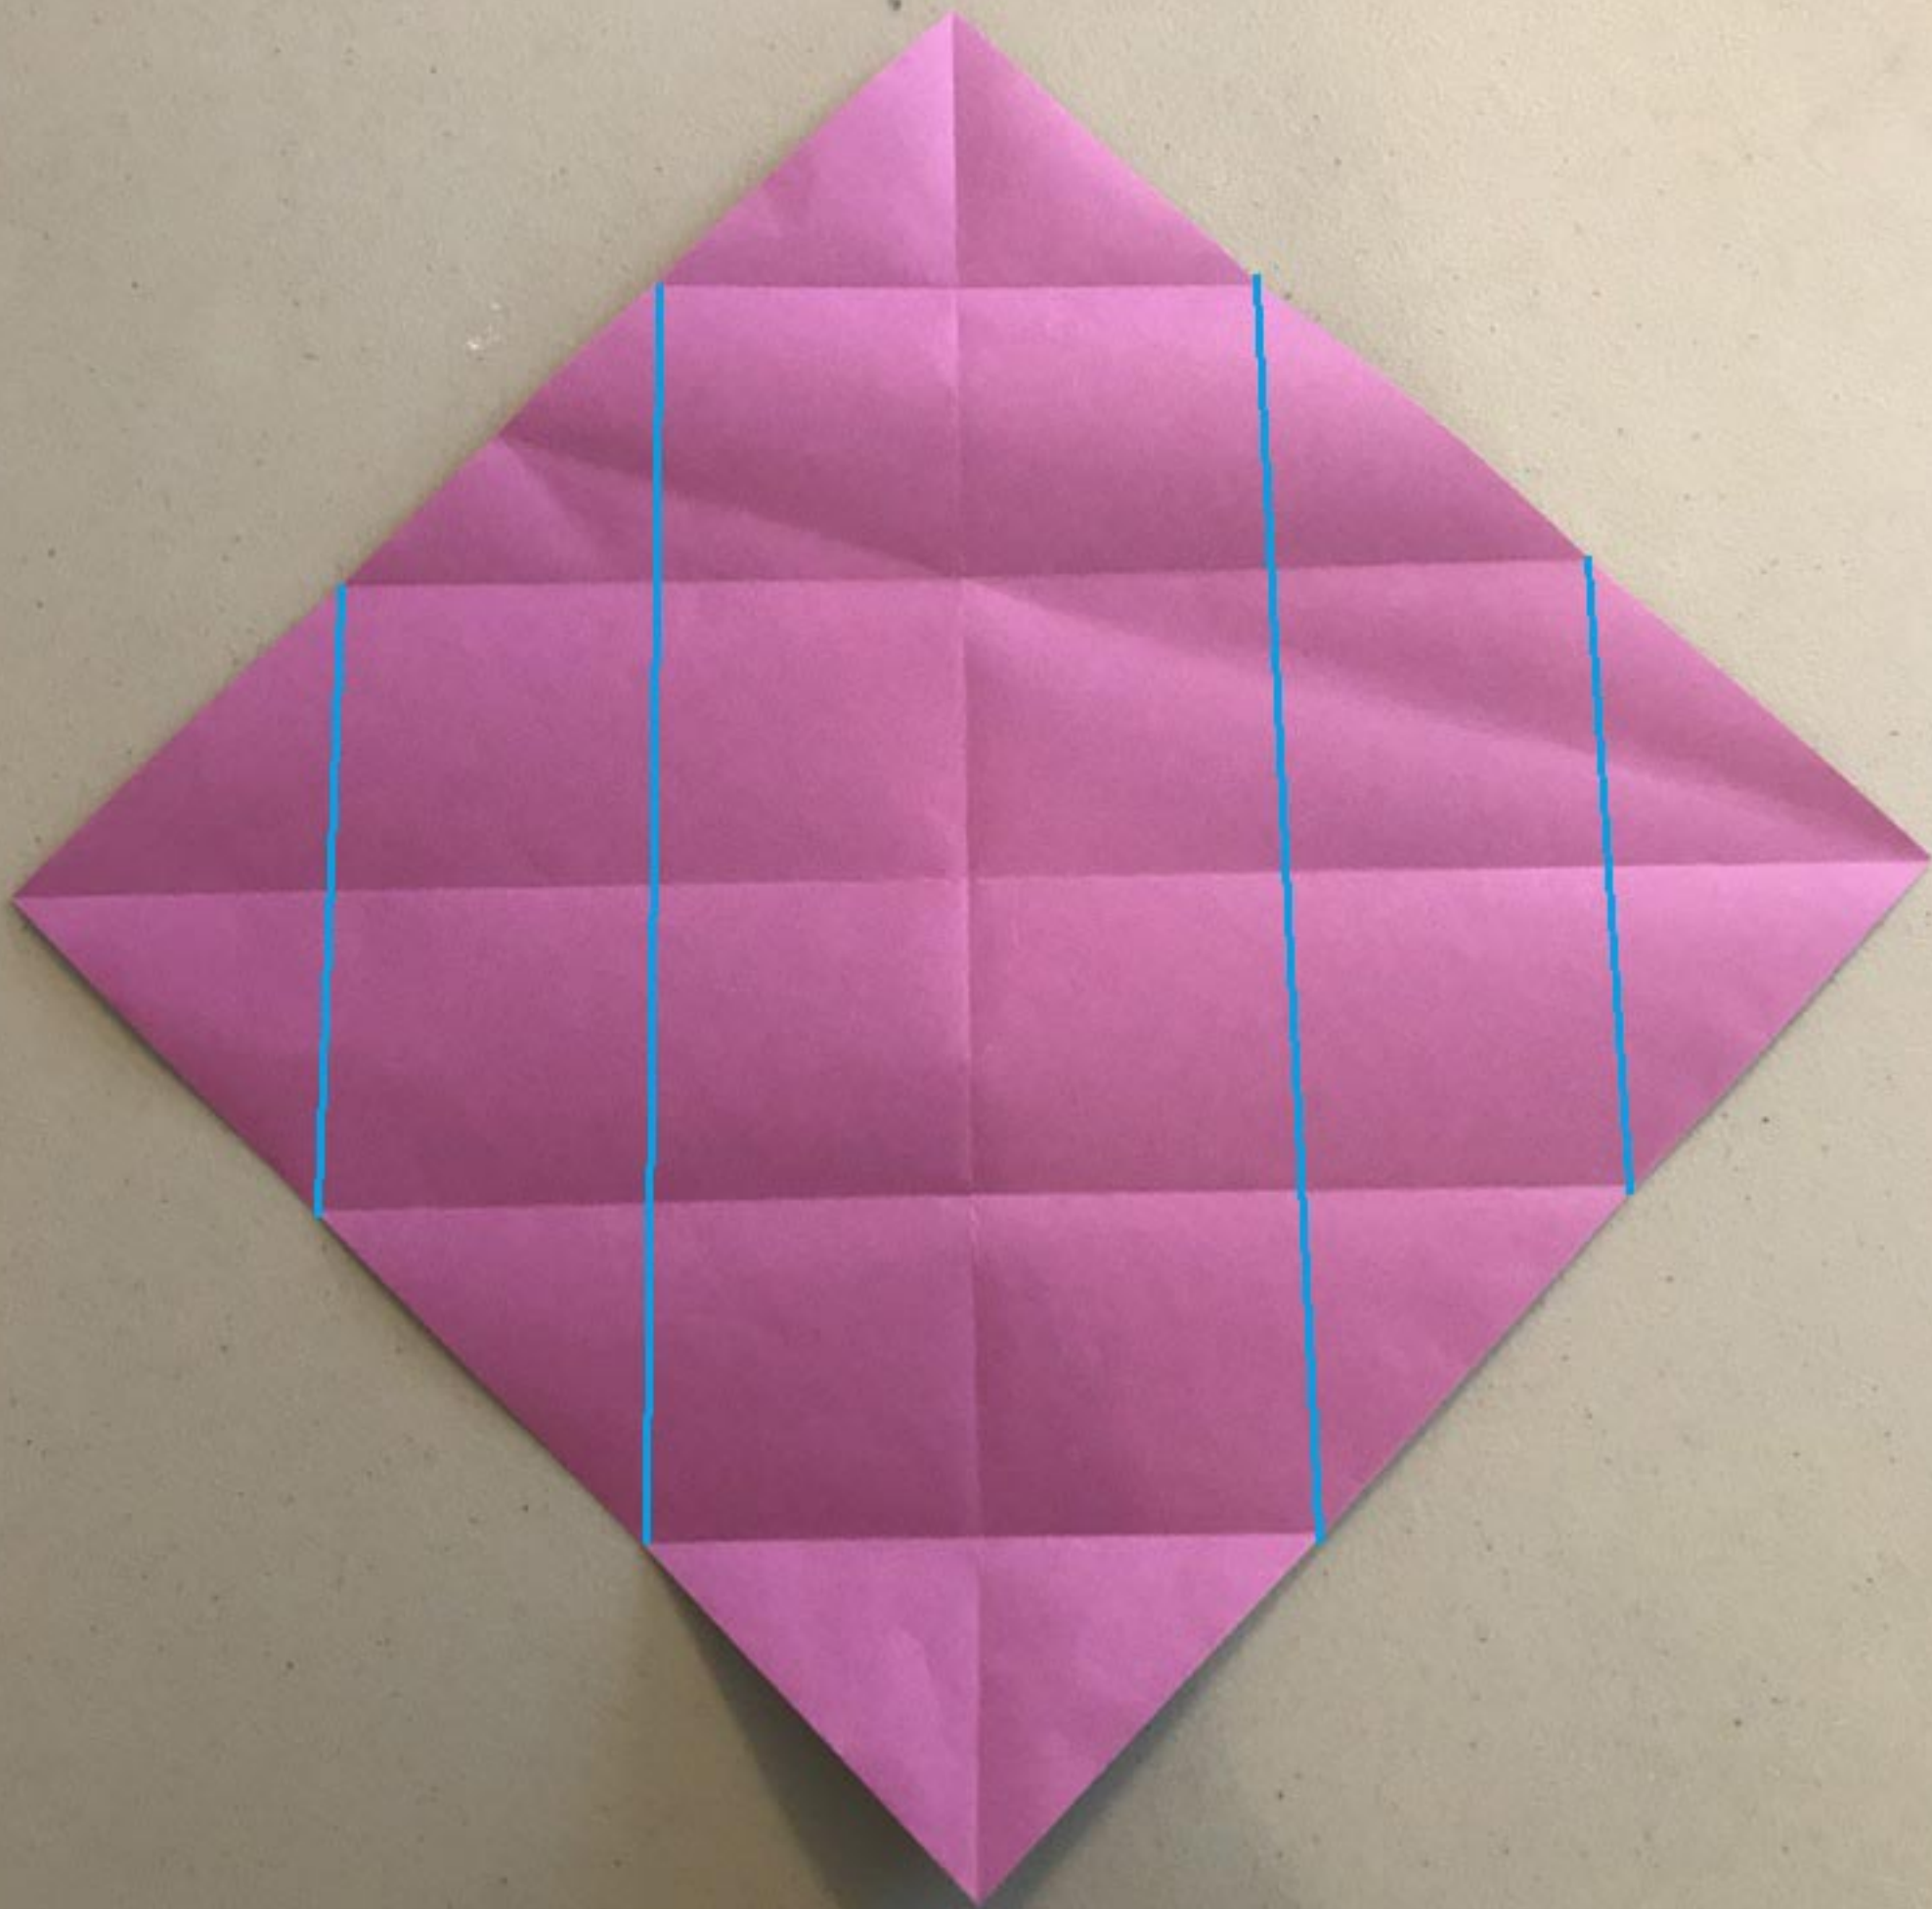

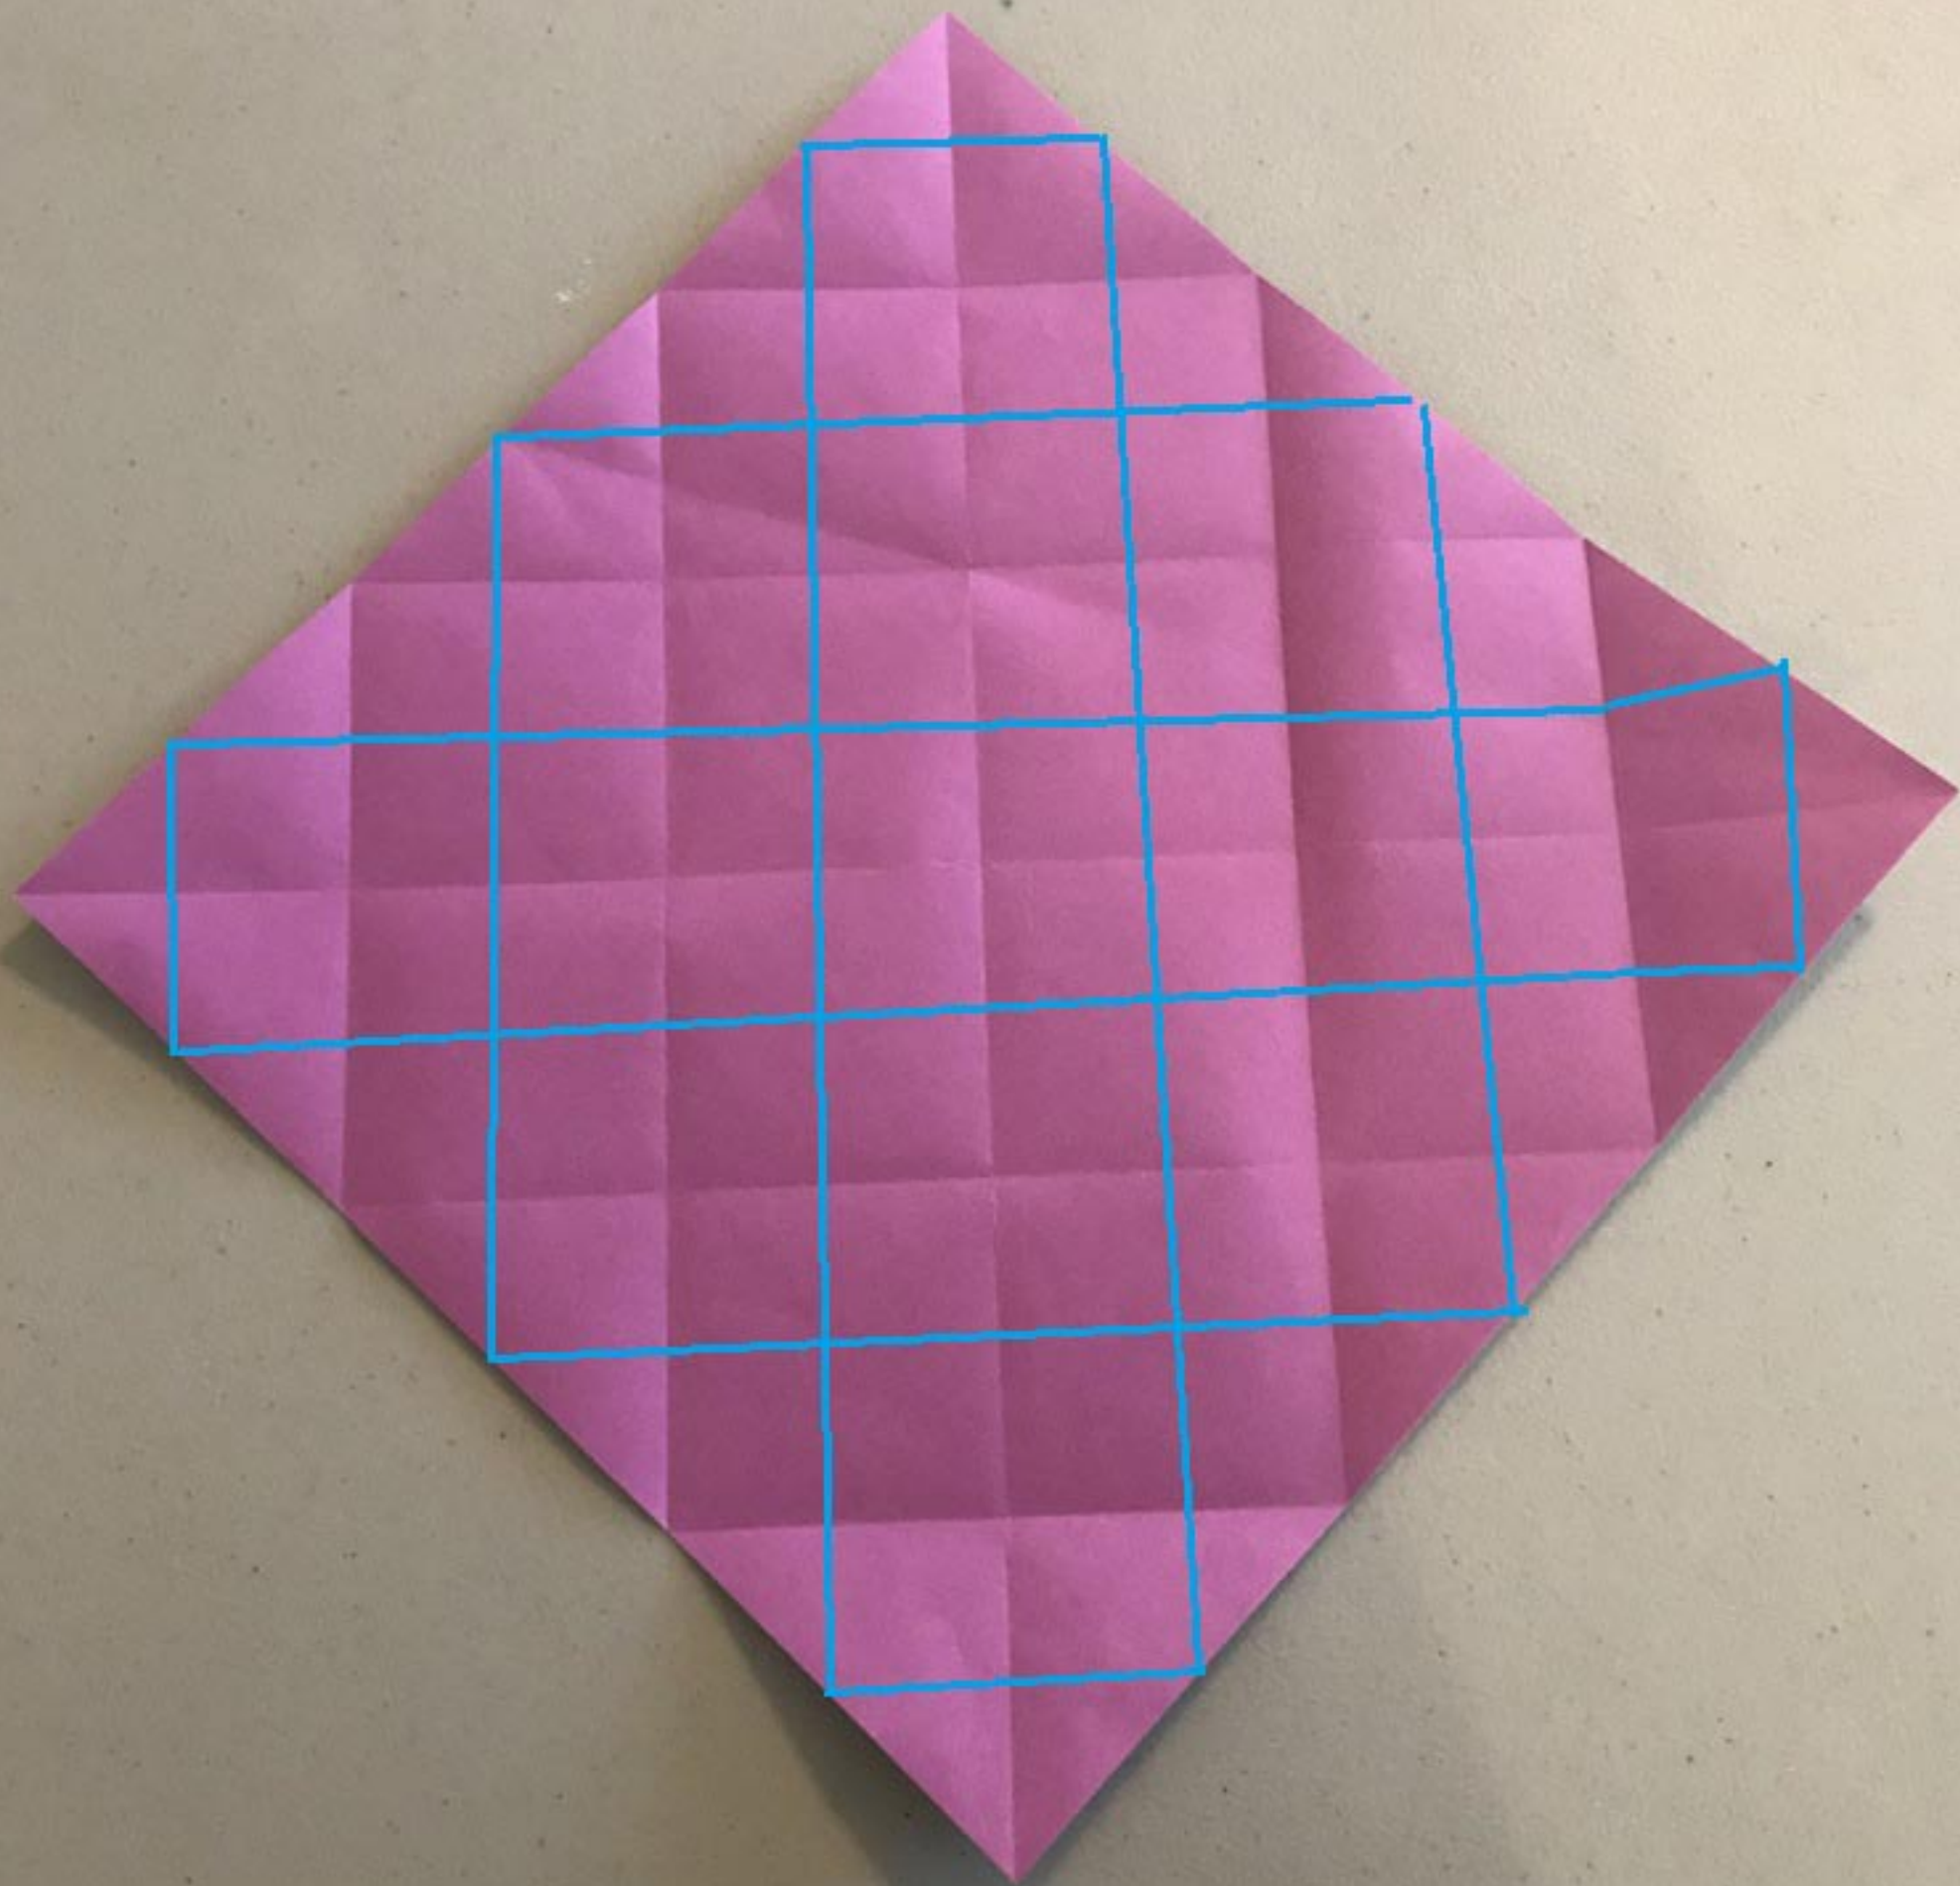

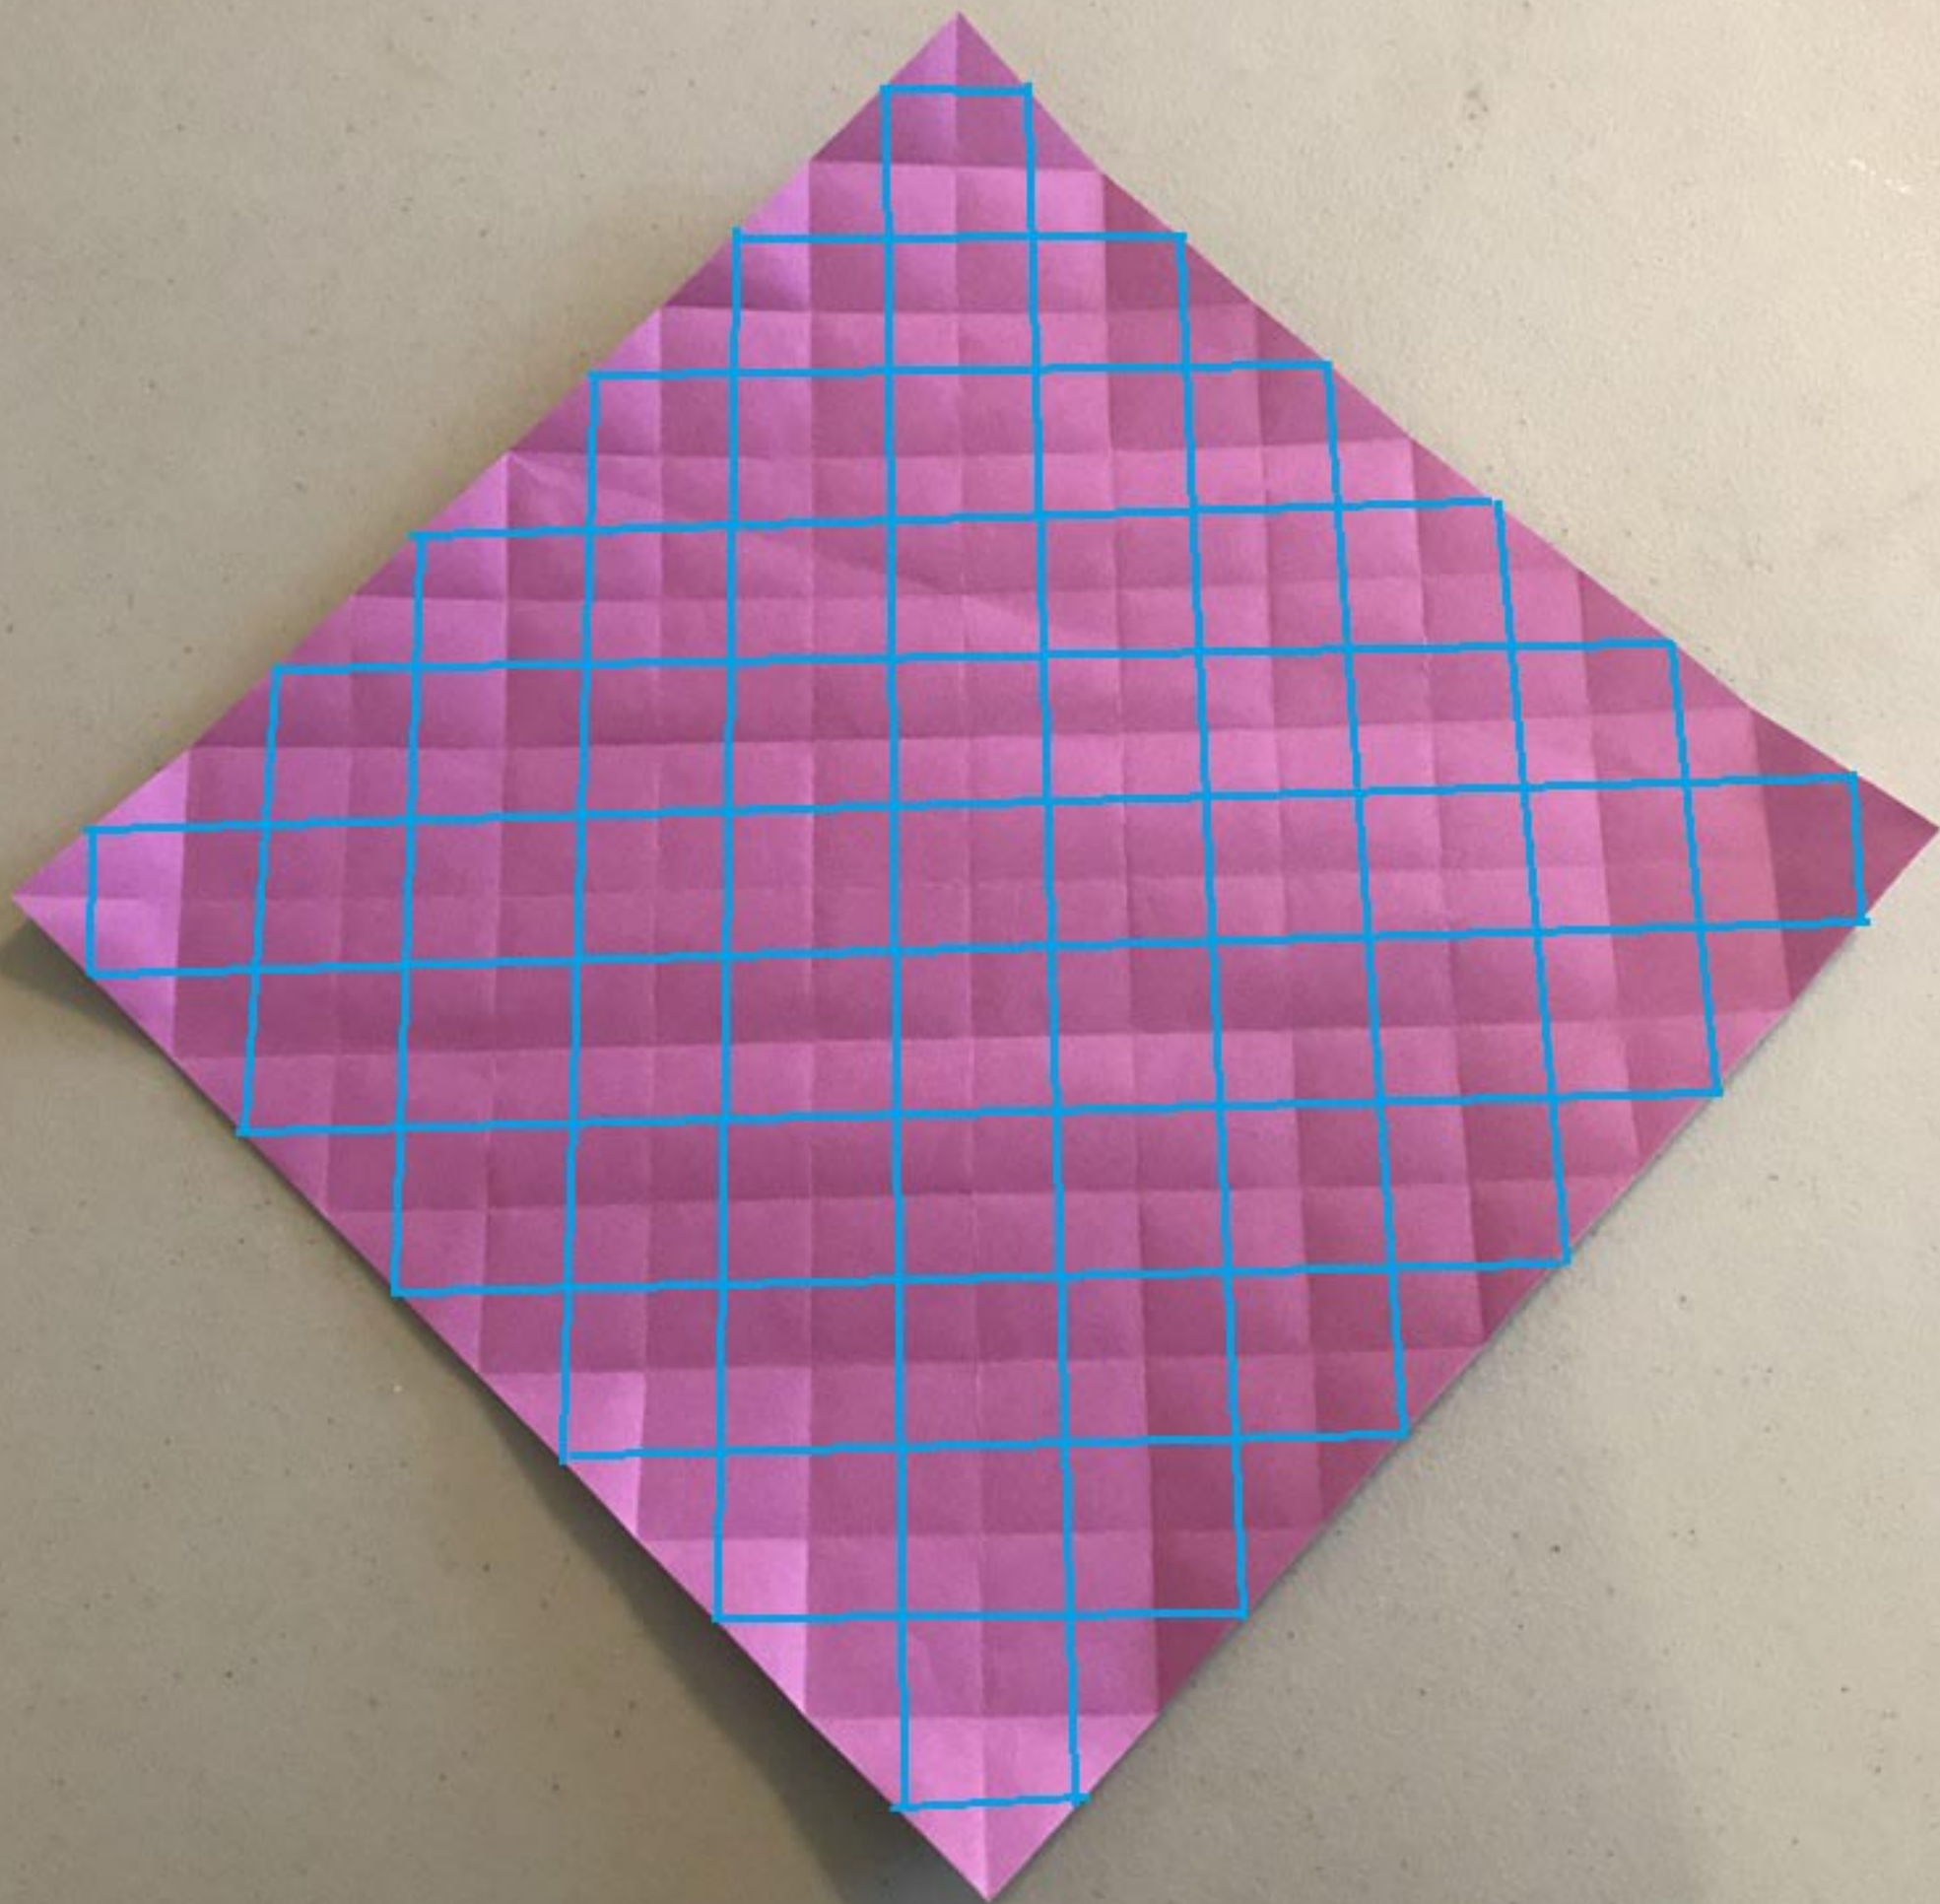

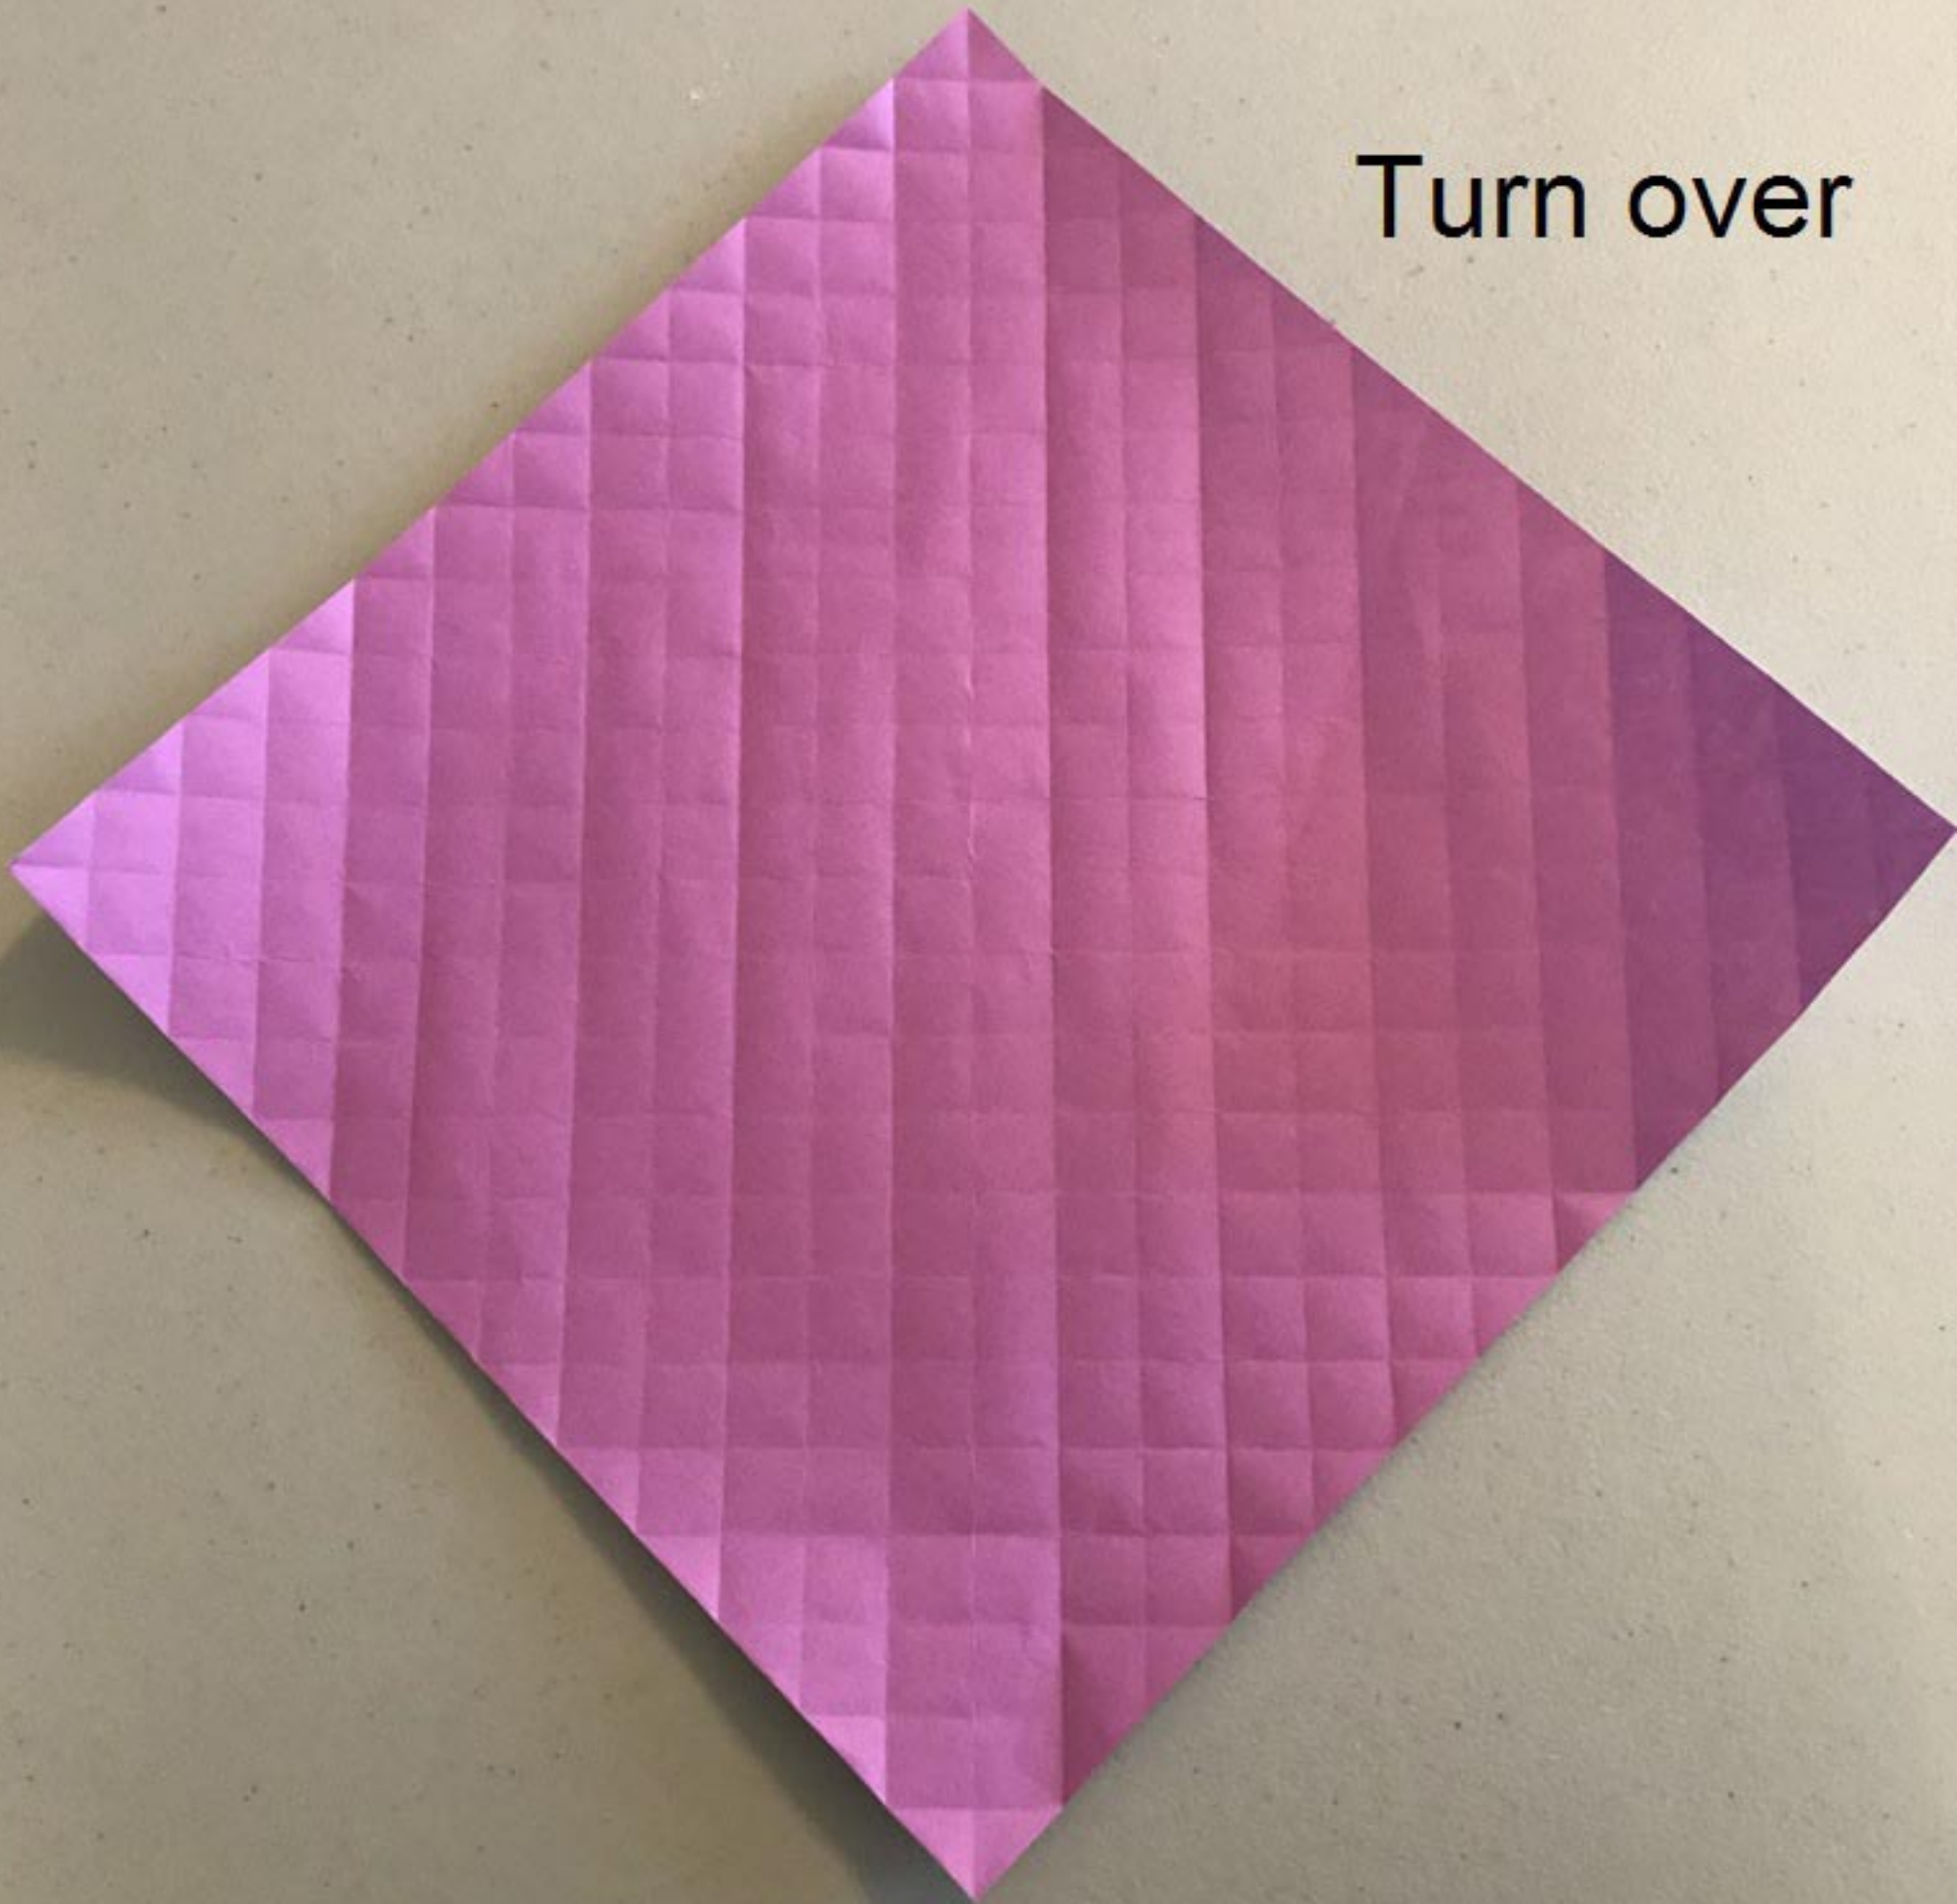

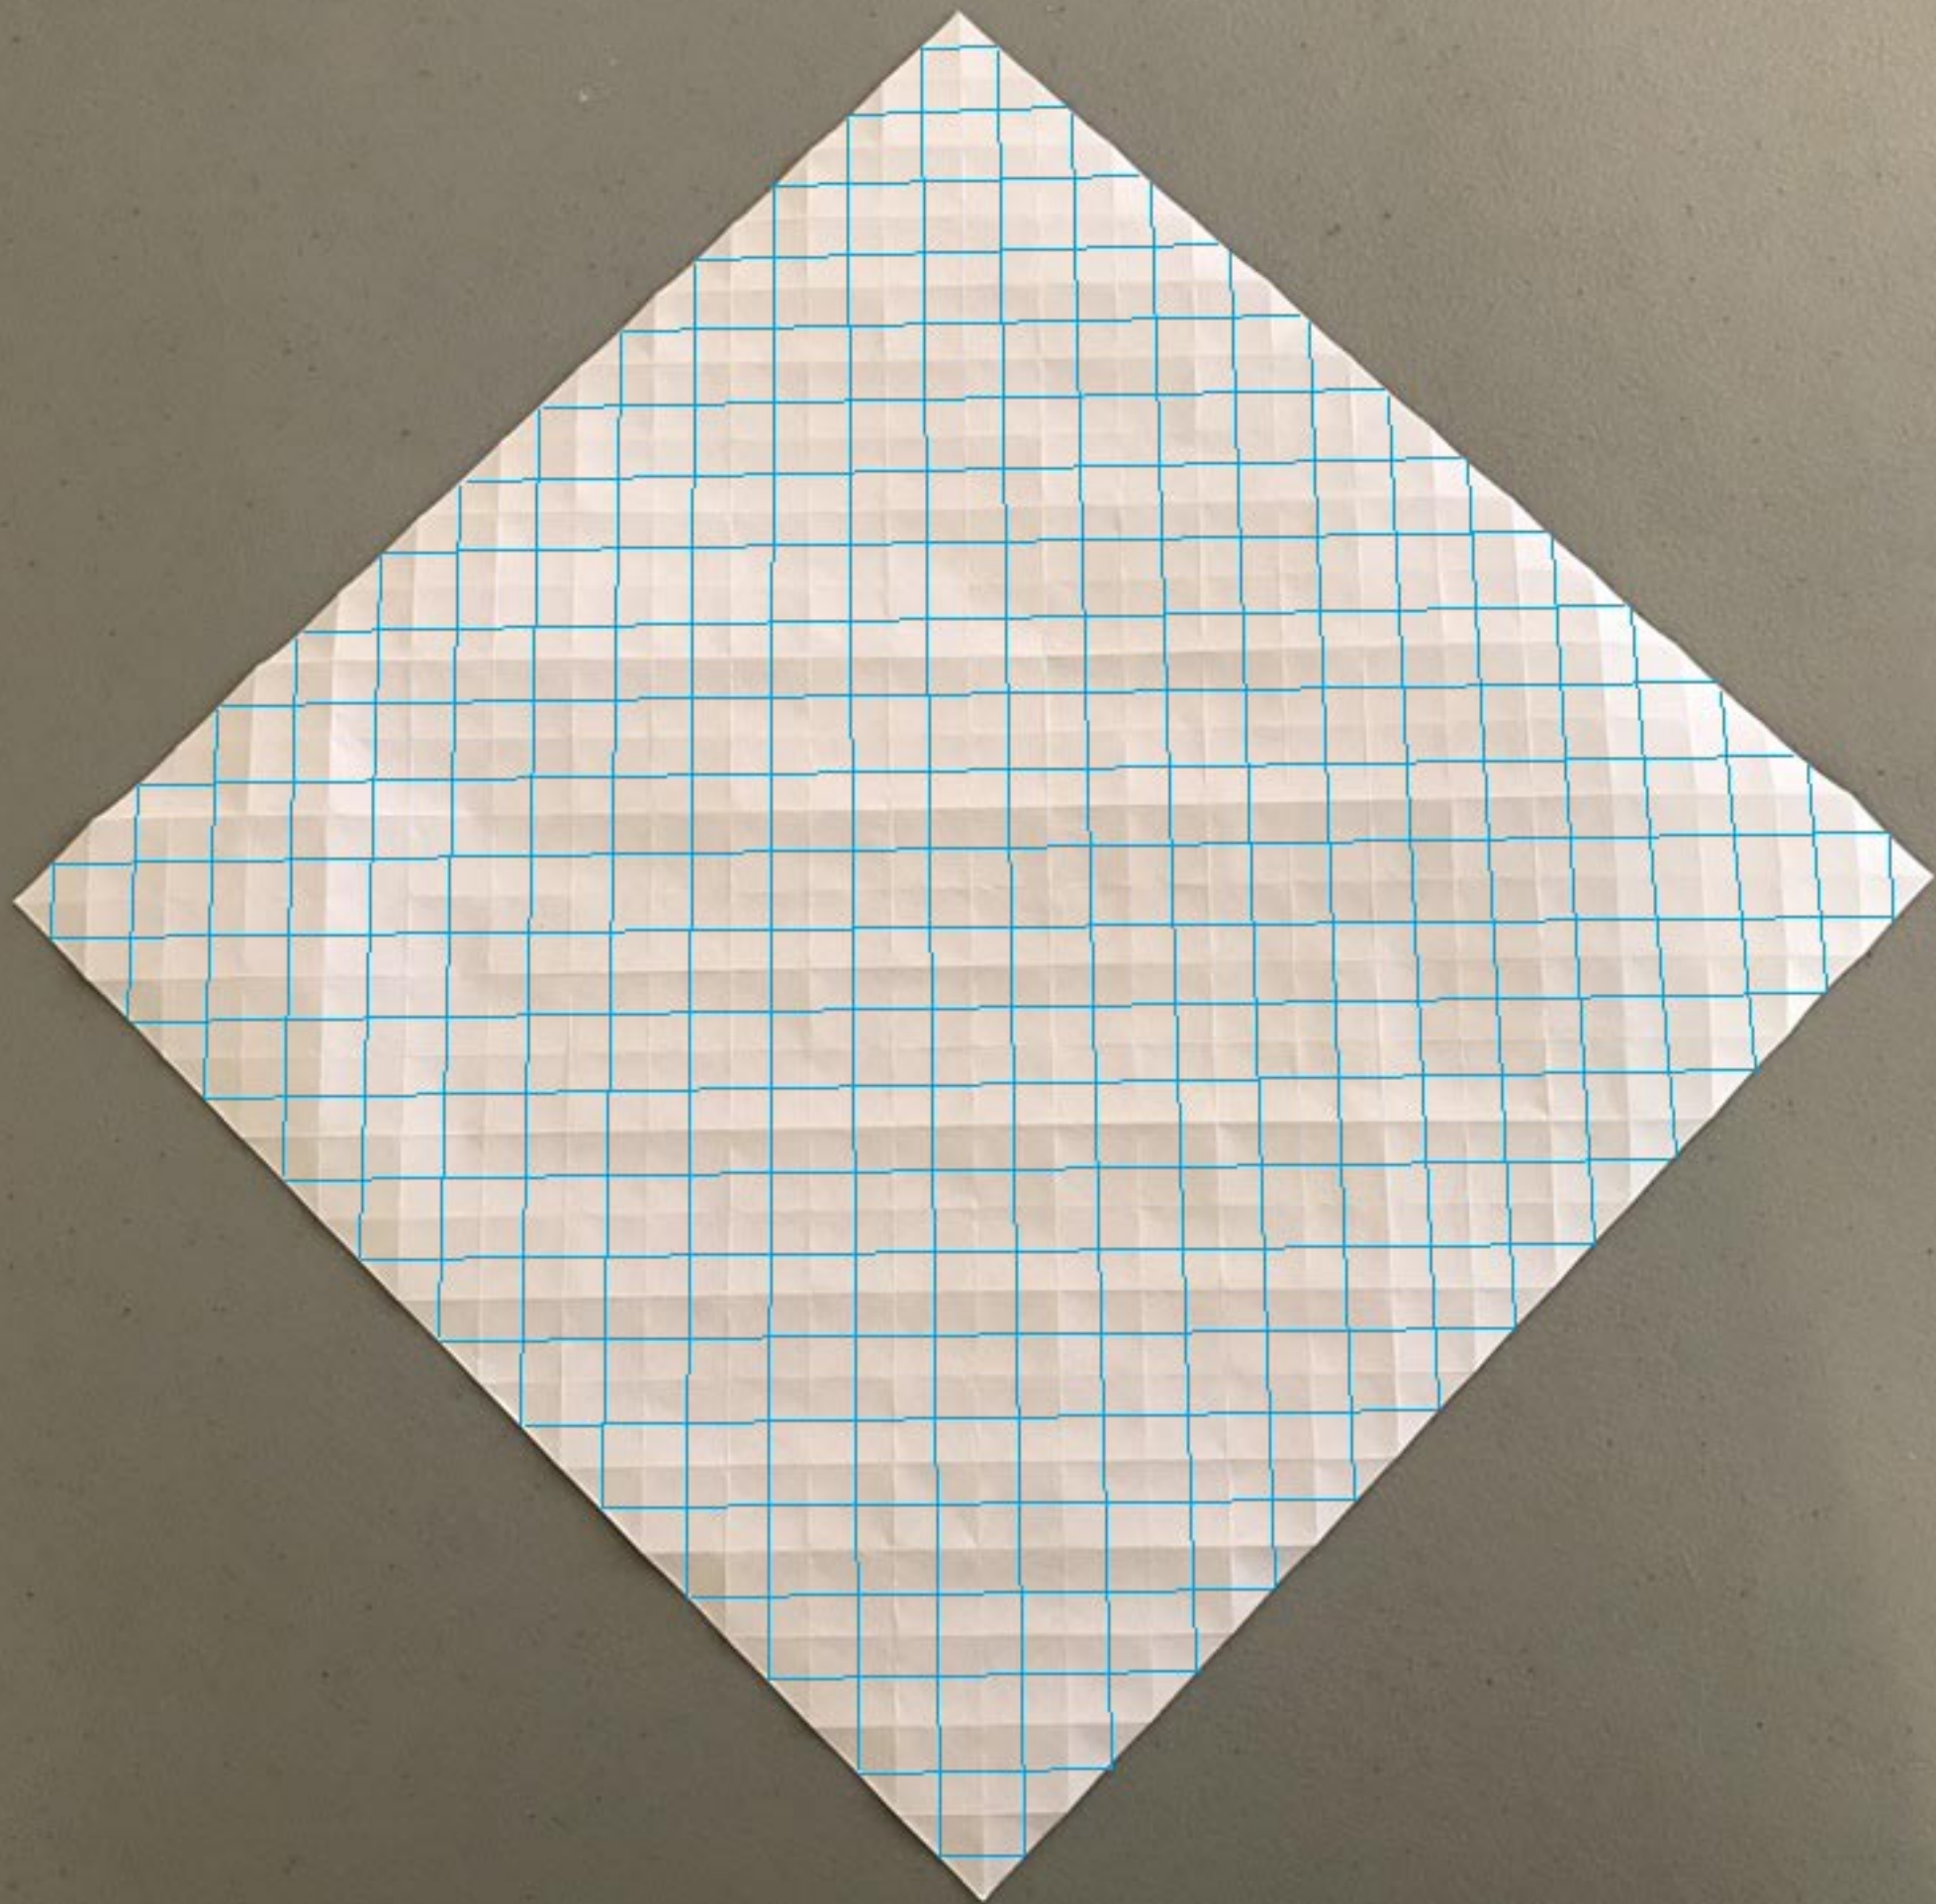

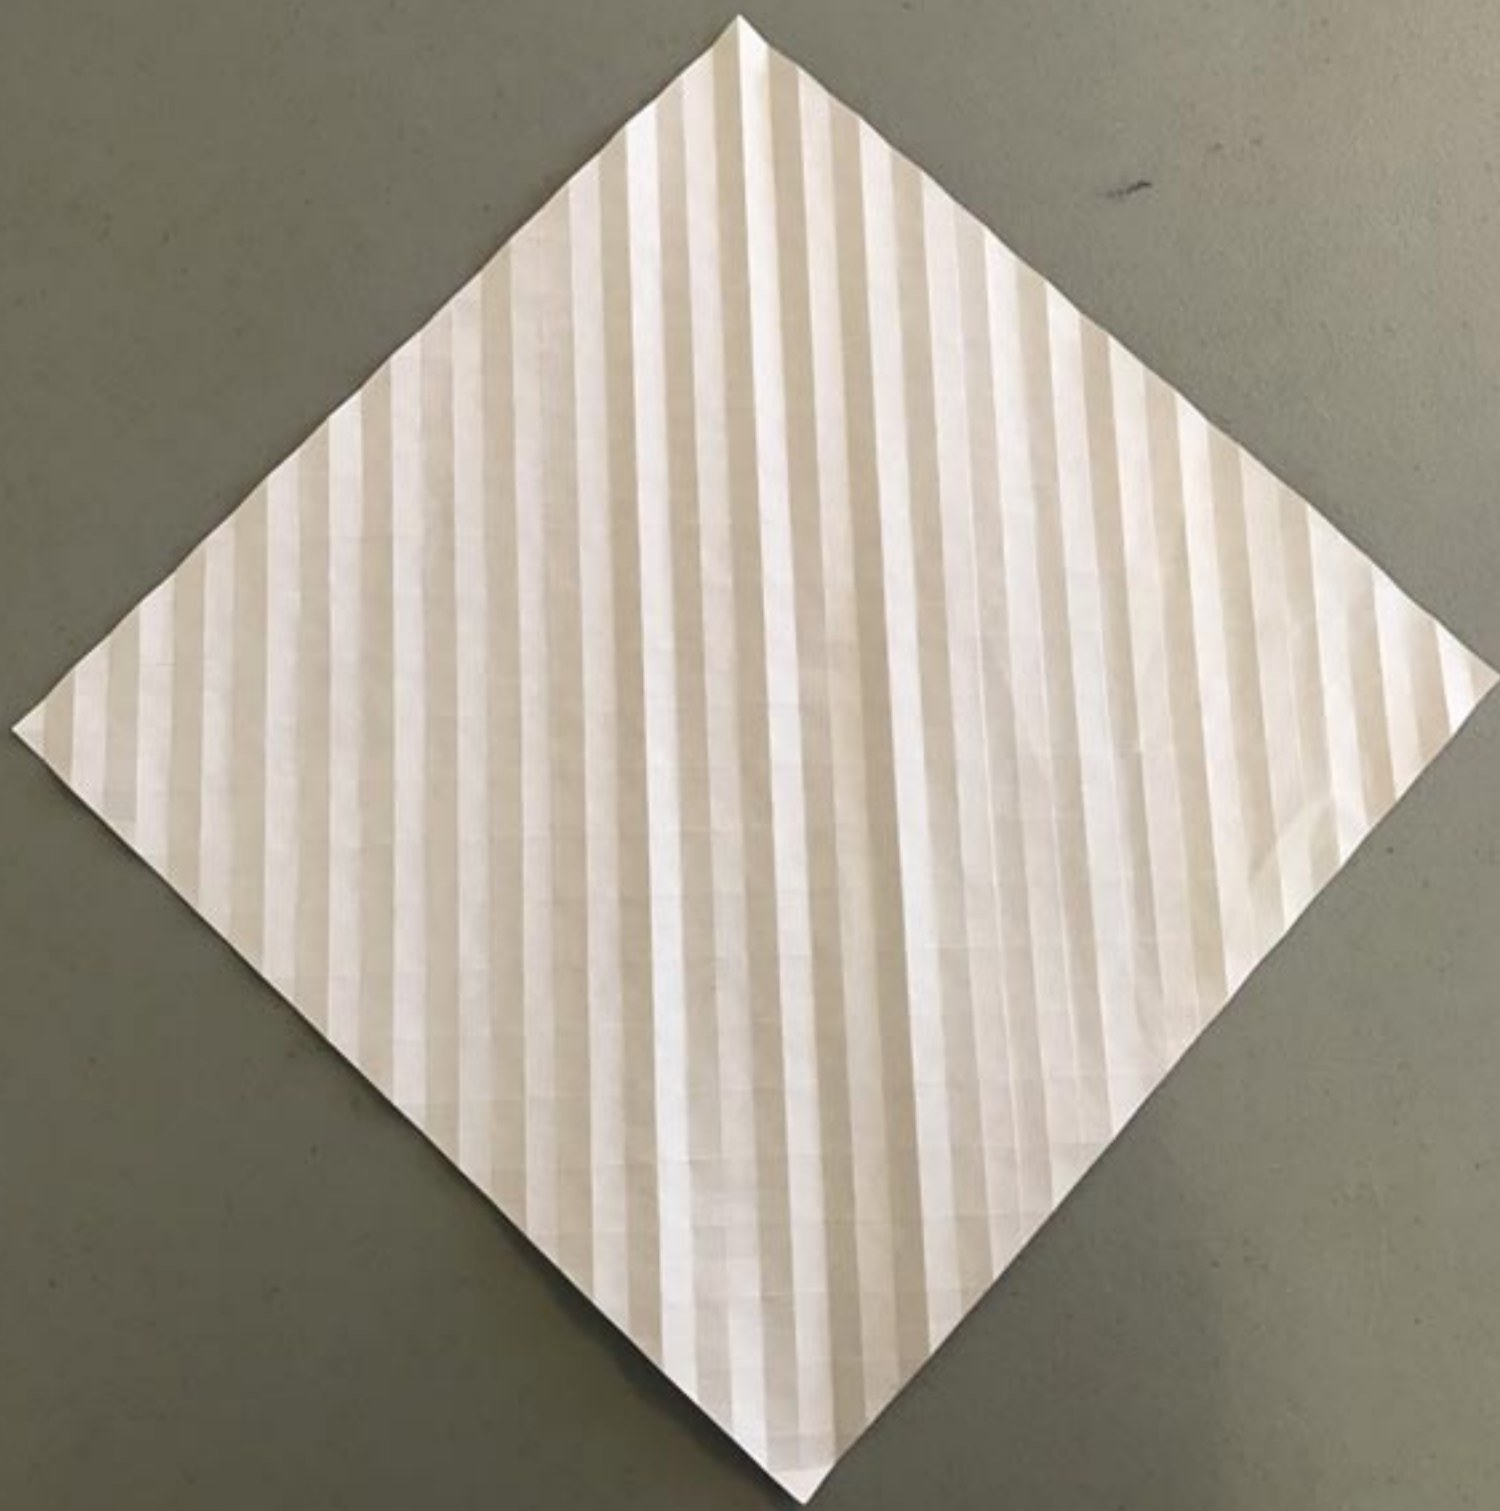

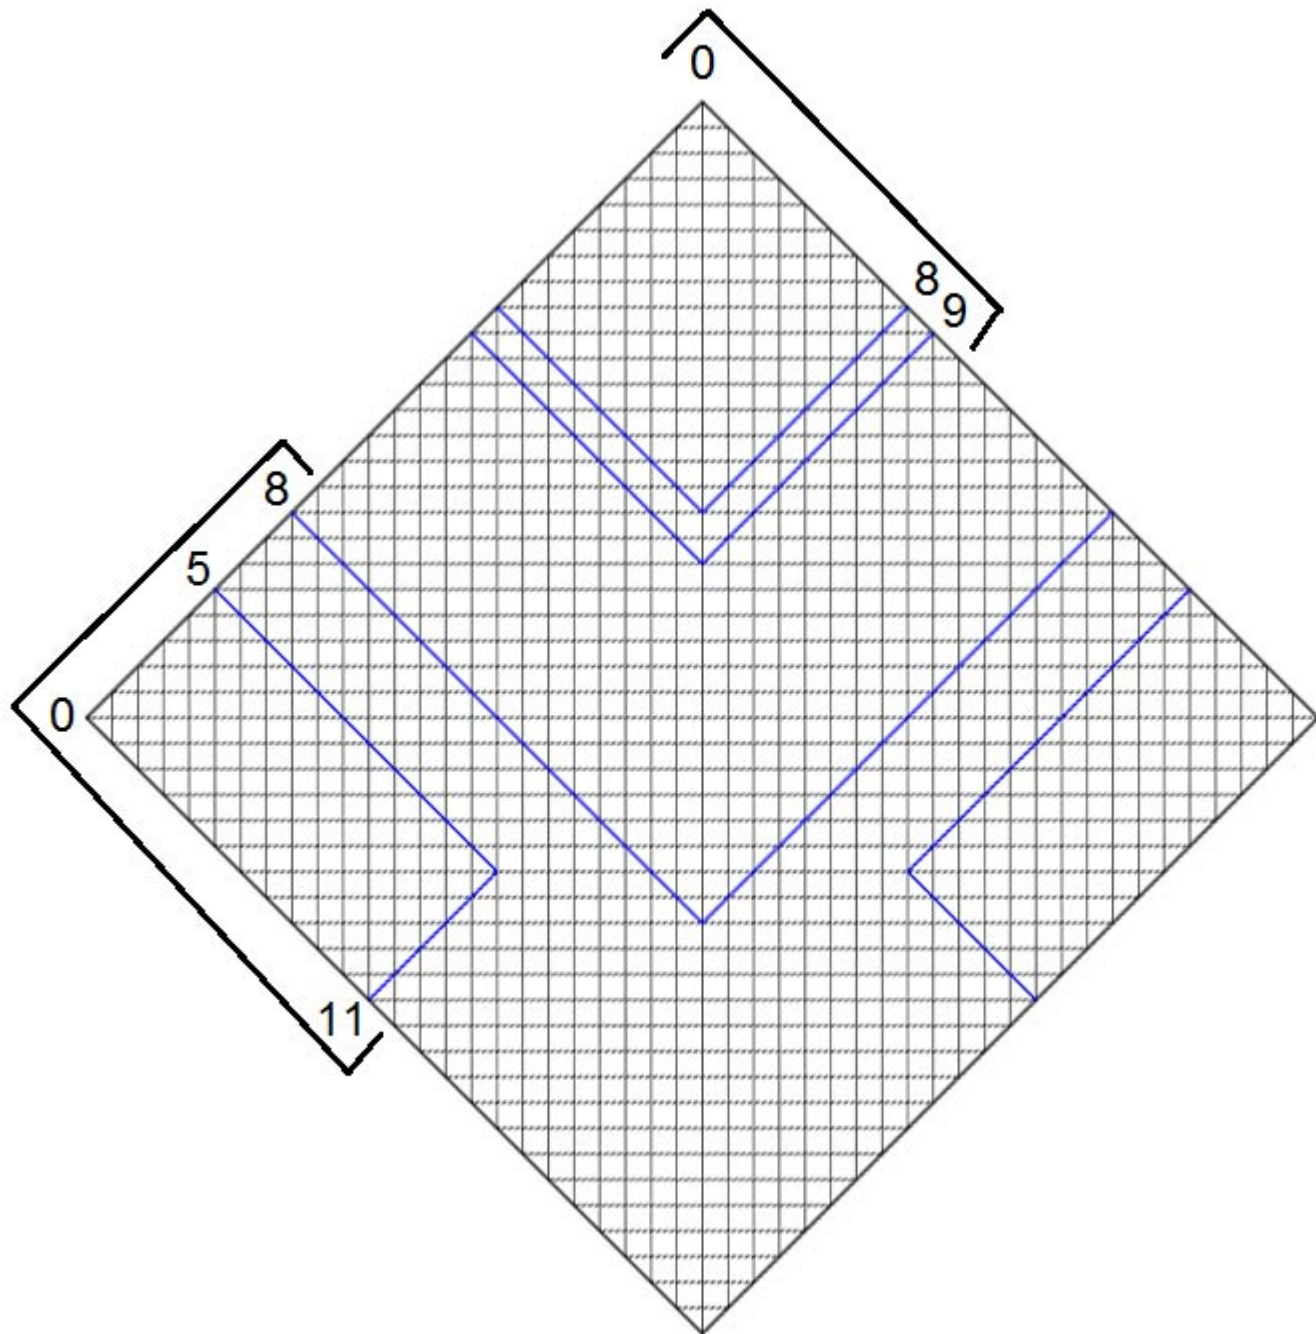

Turn over

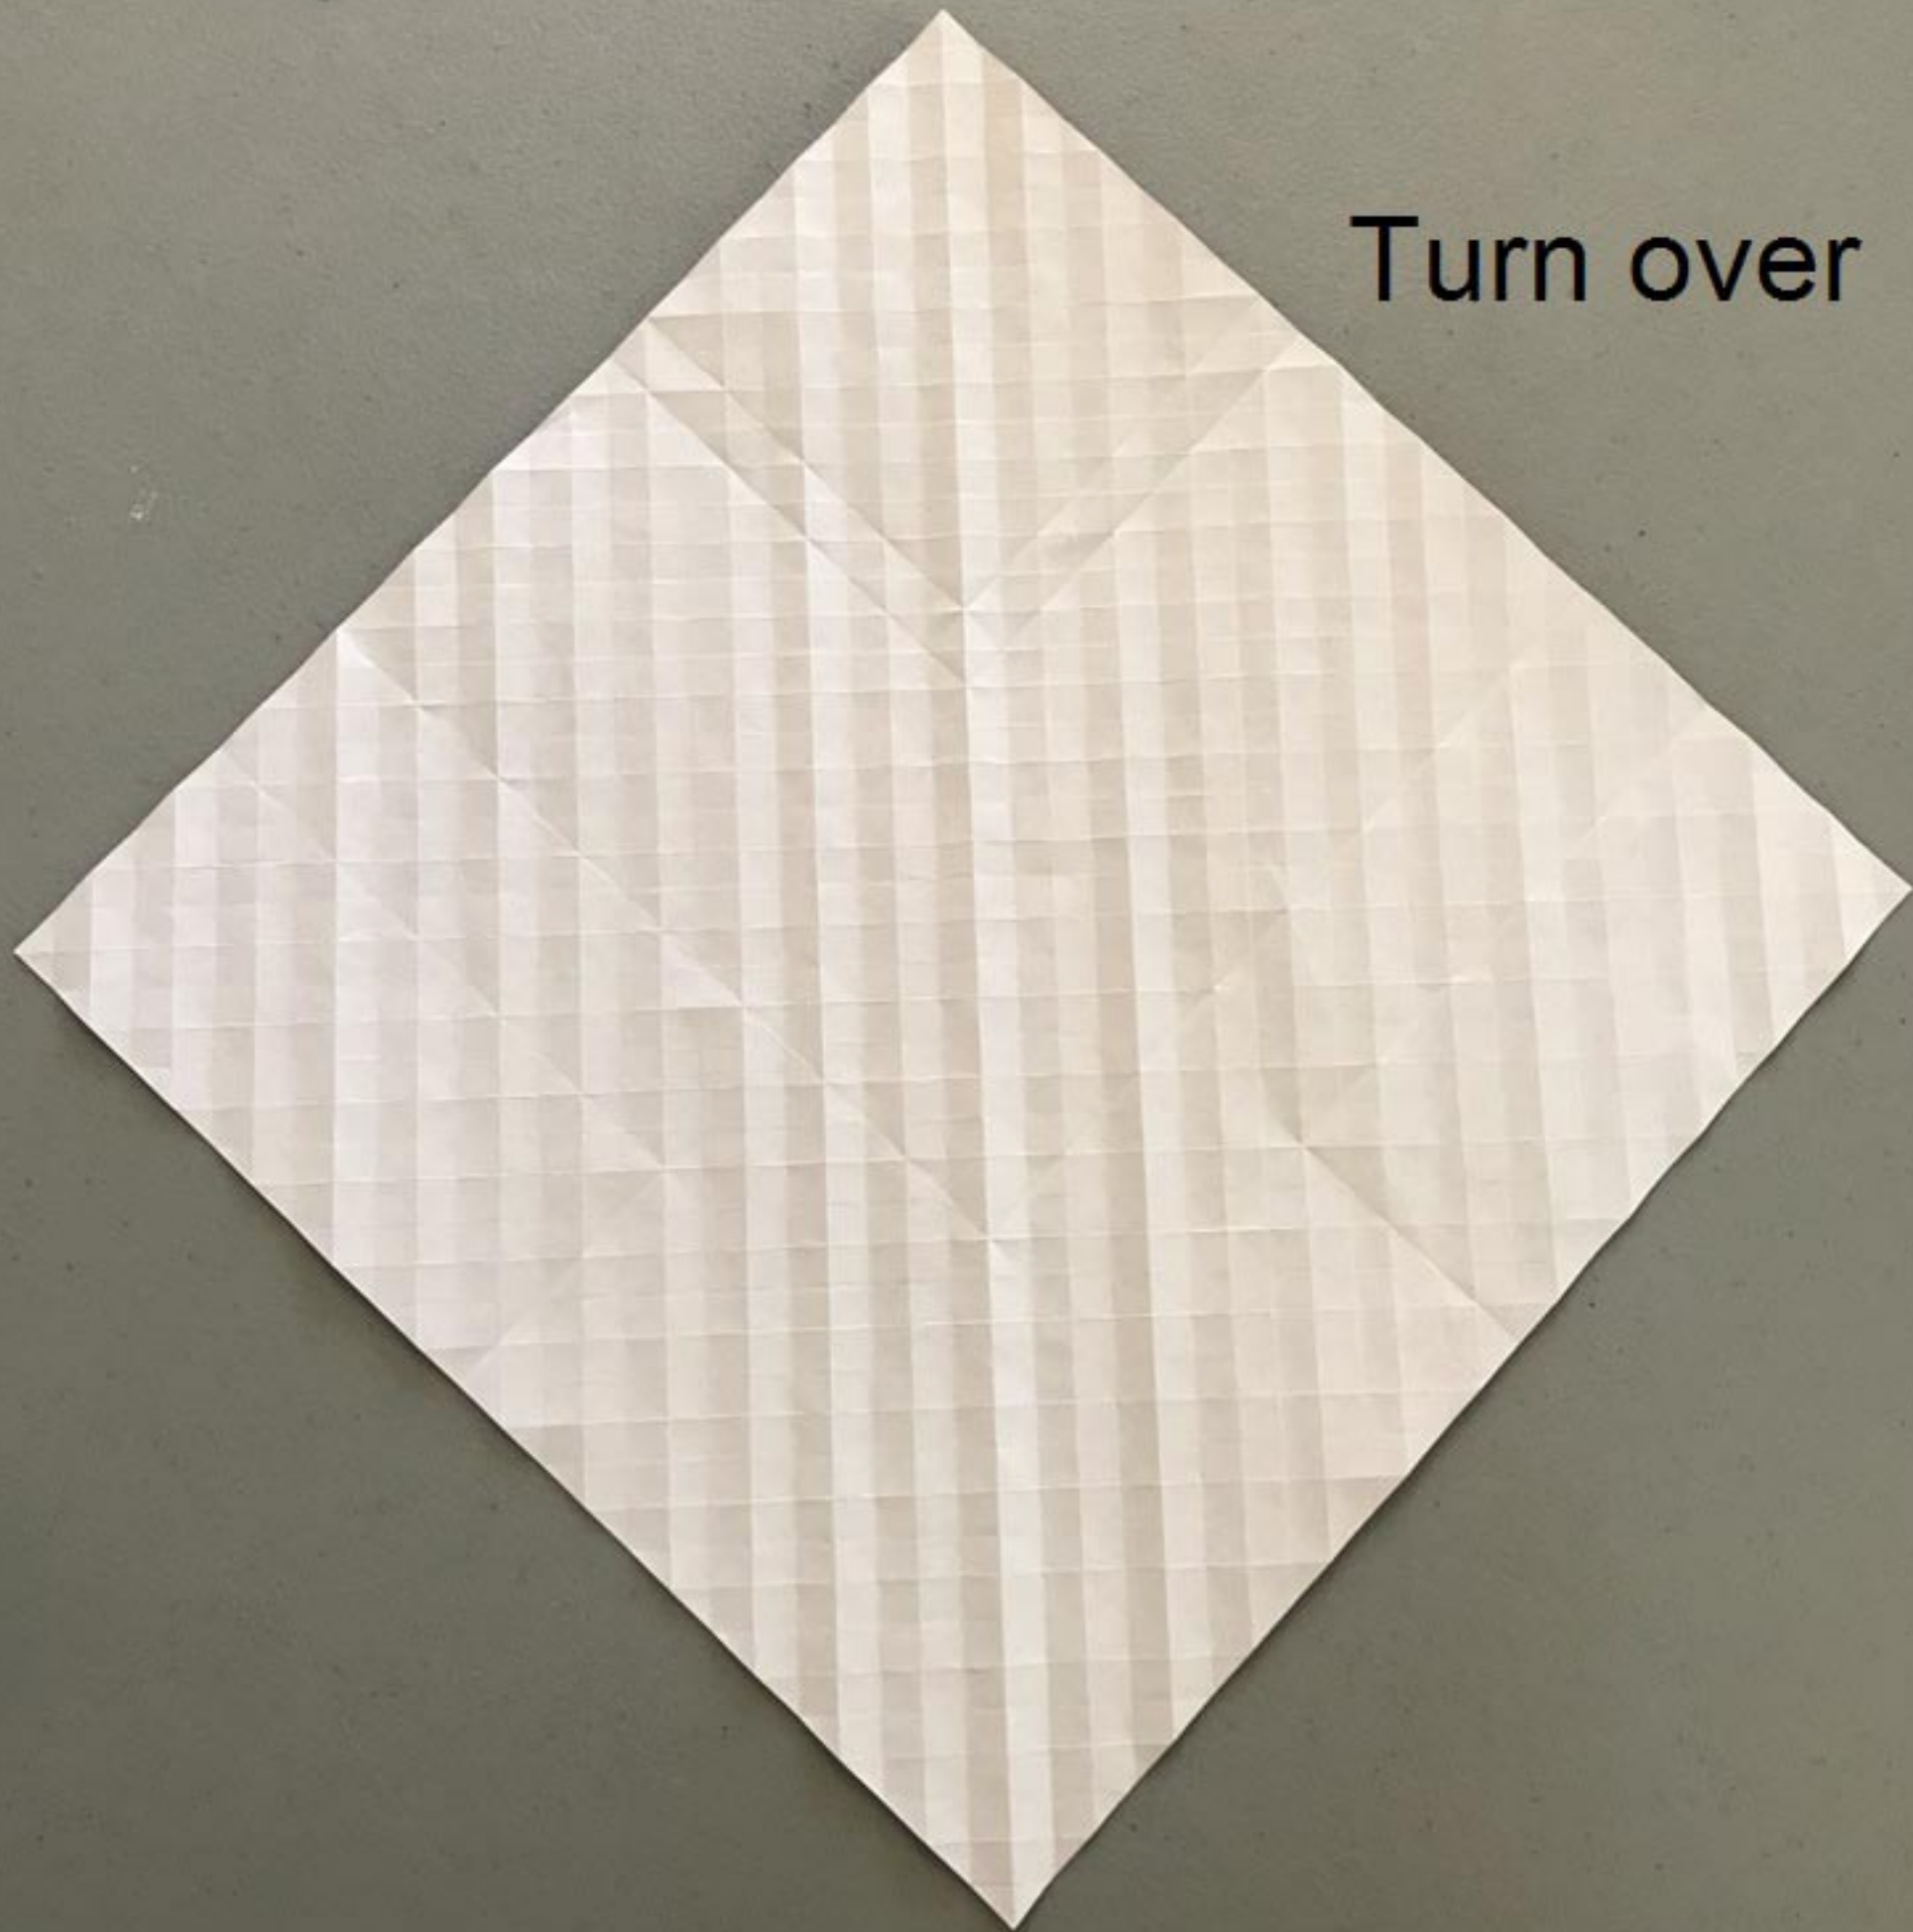

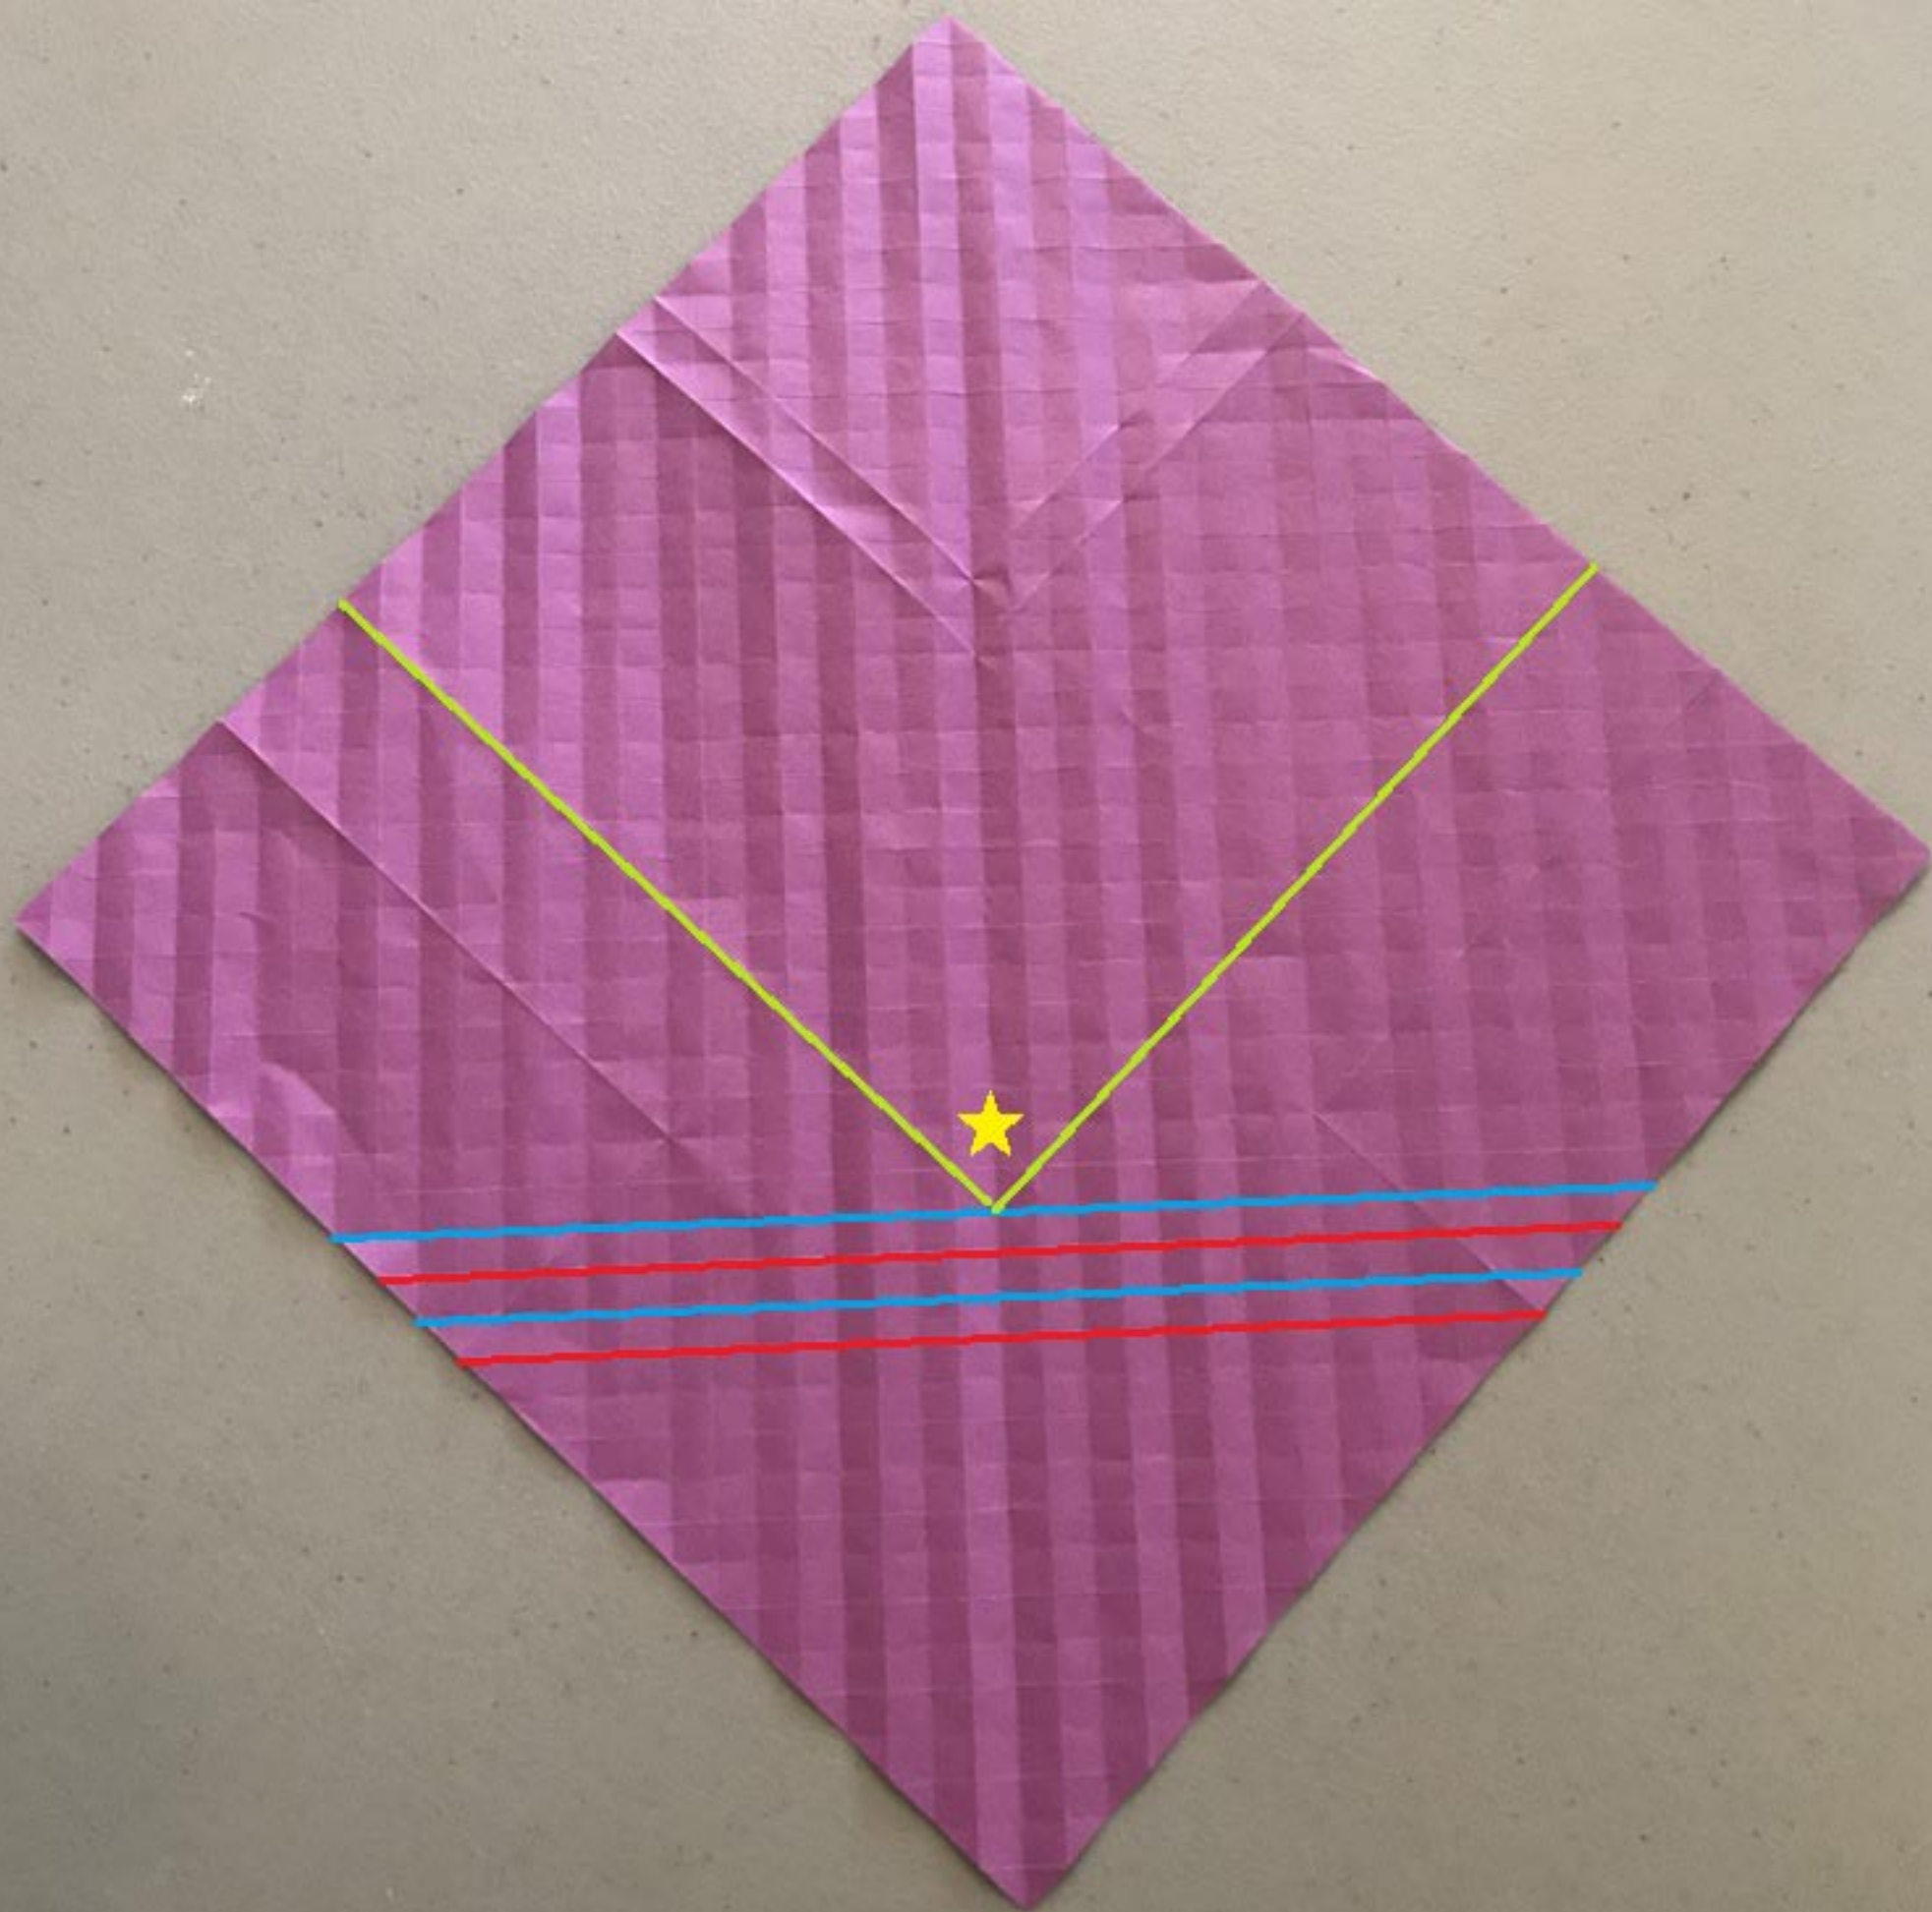

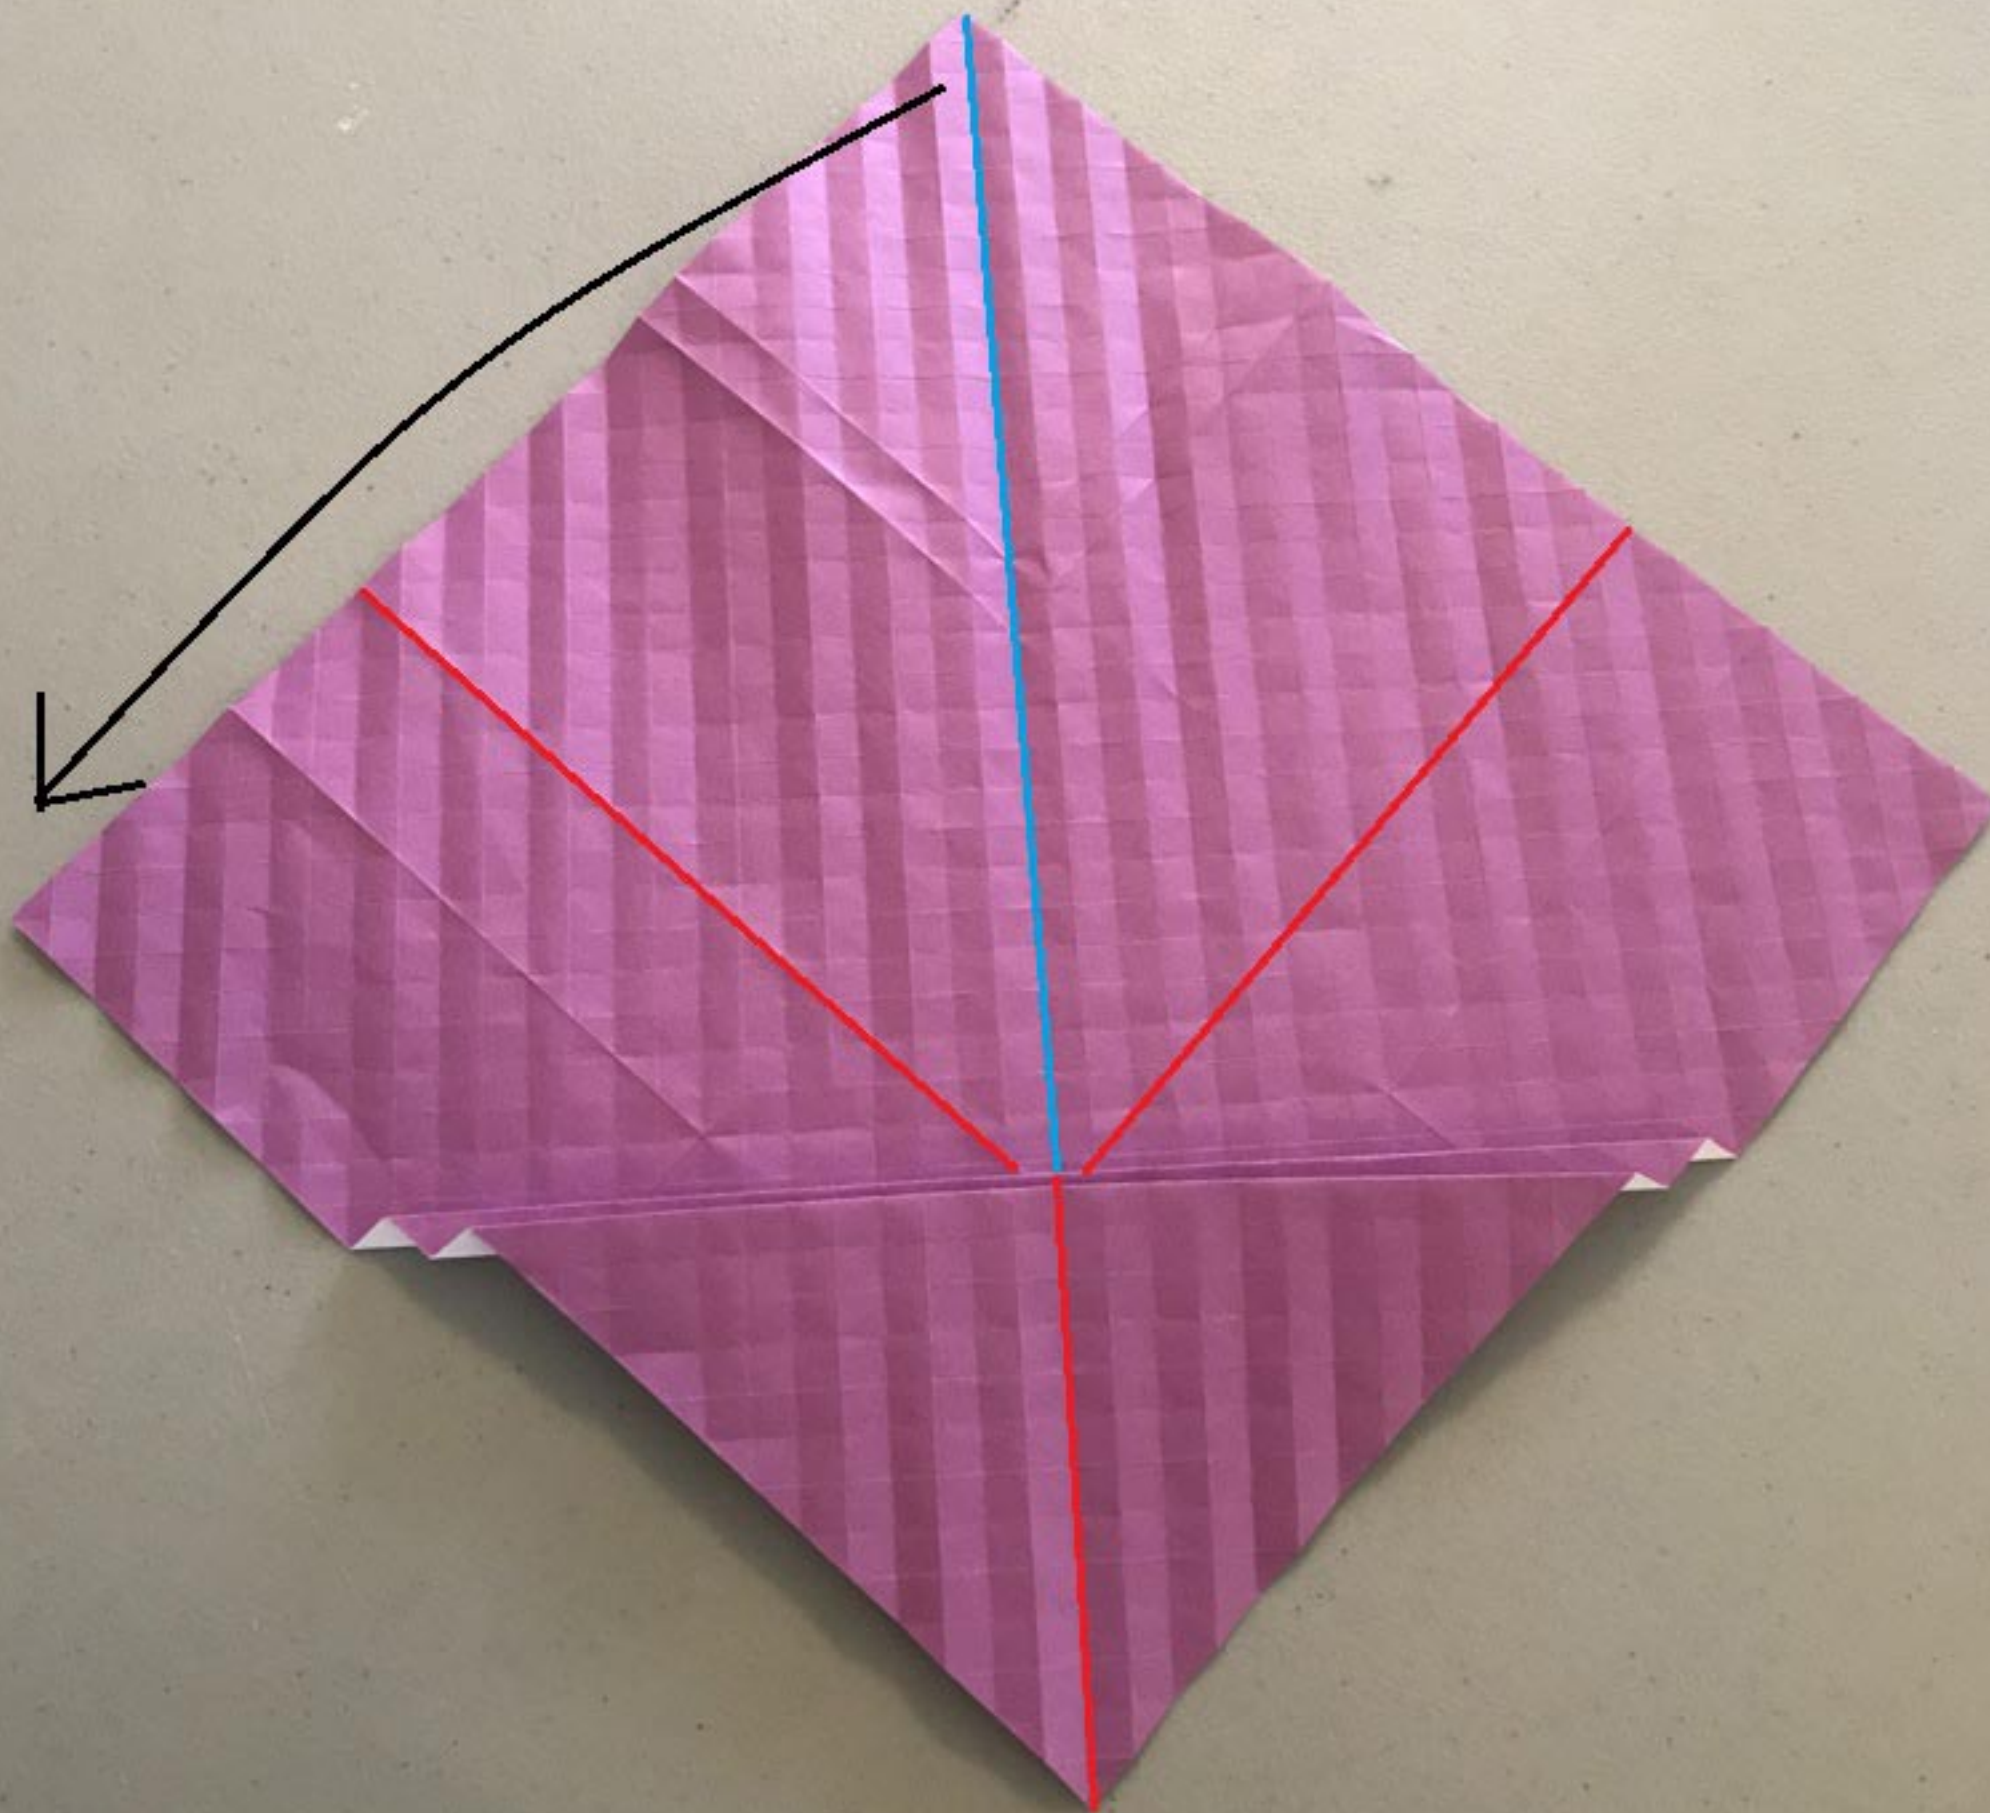

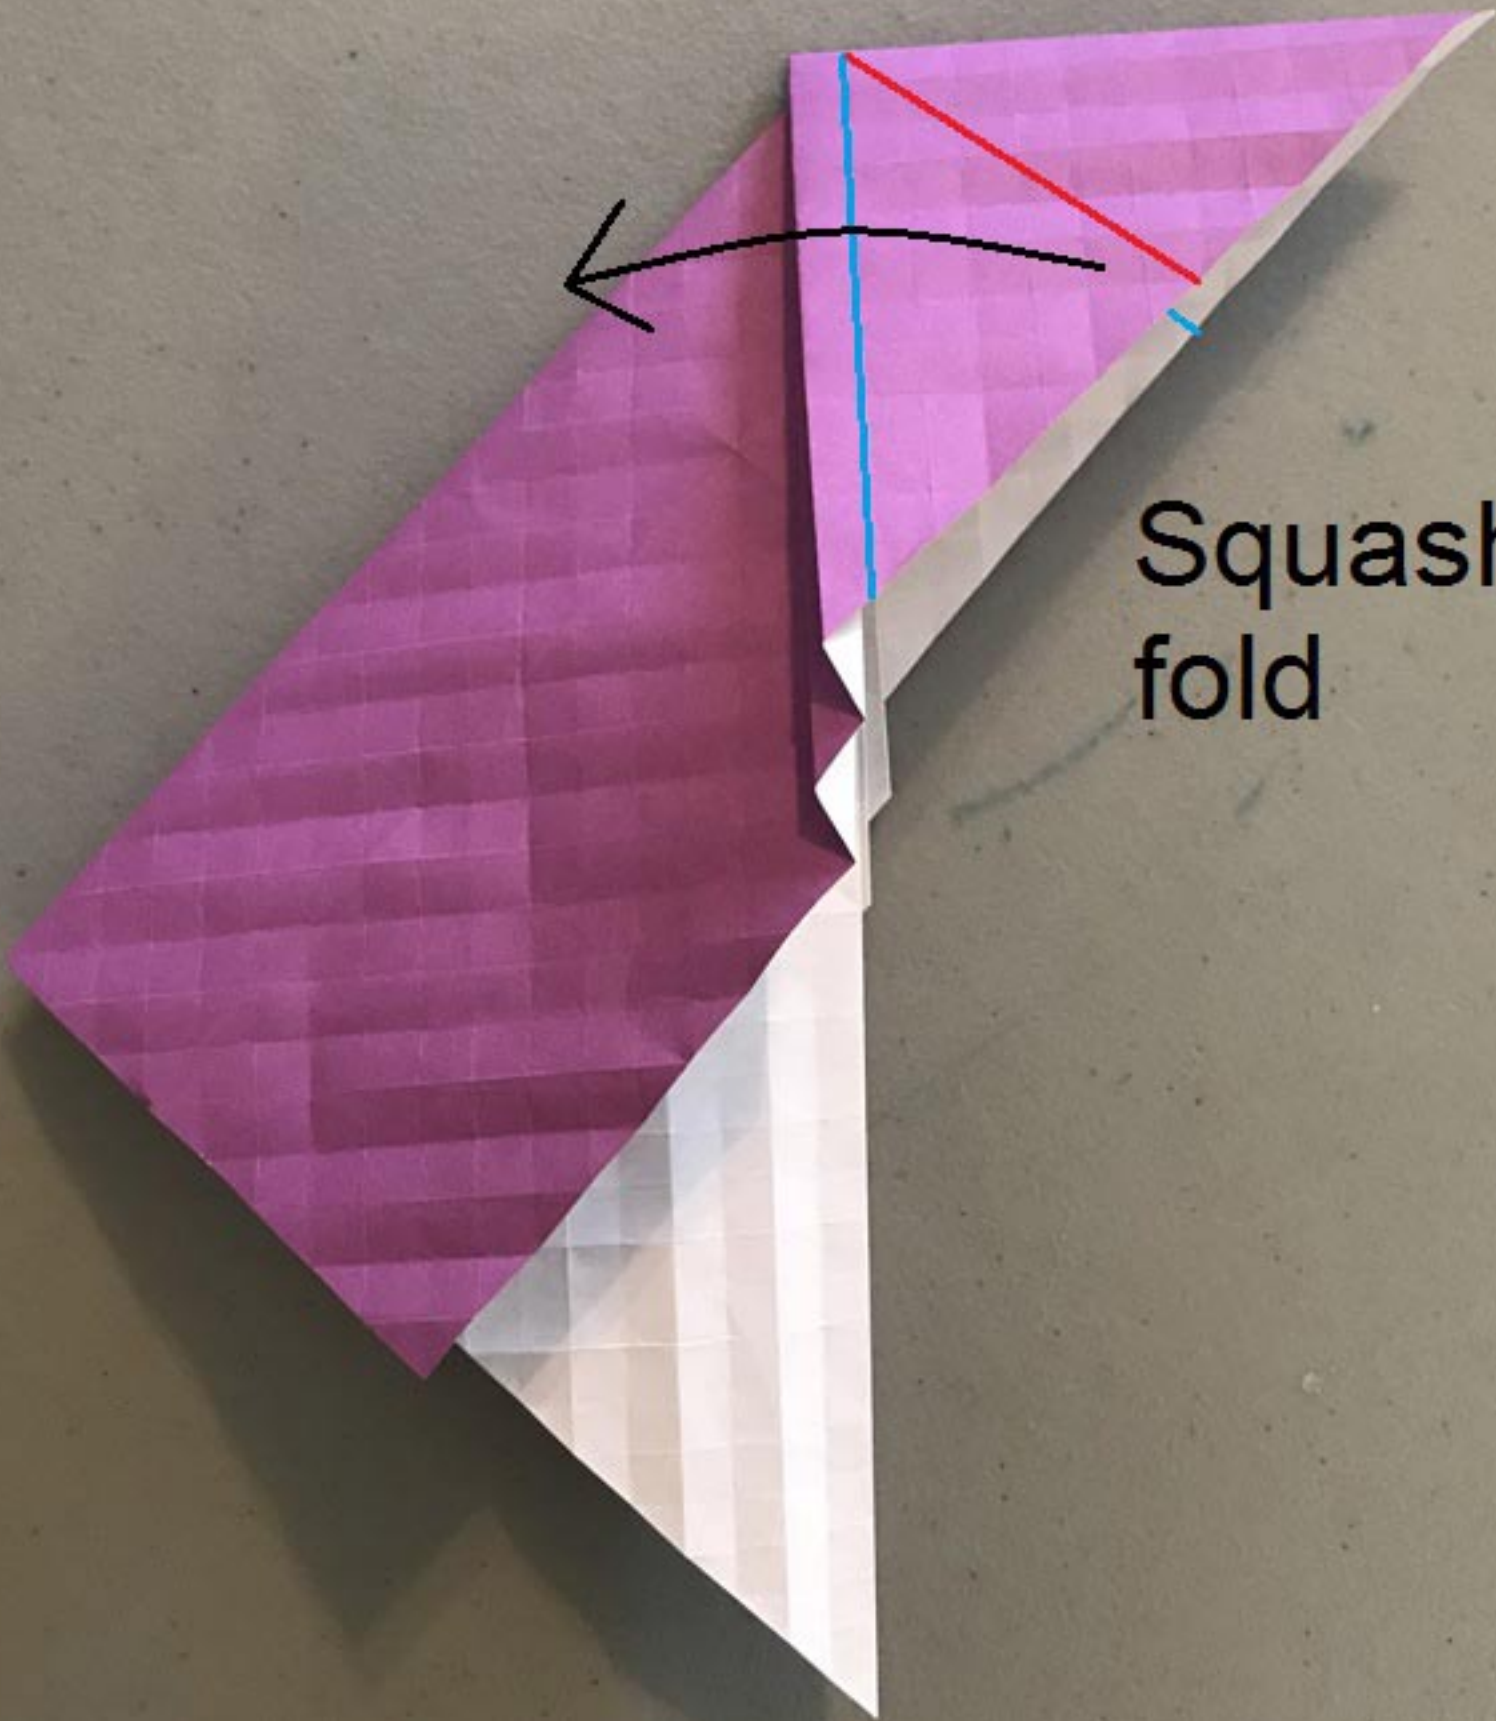

Turn over

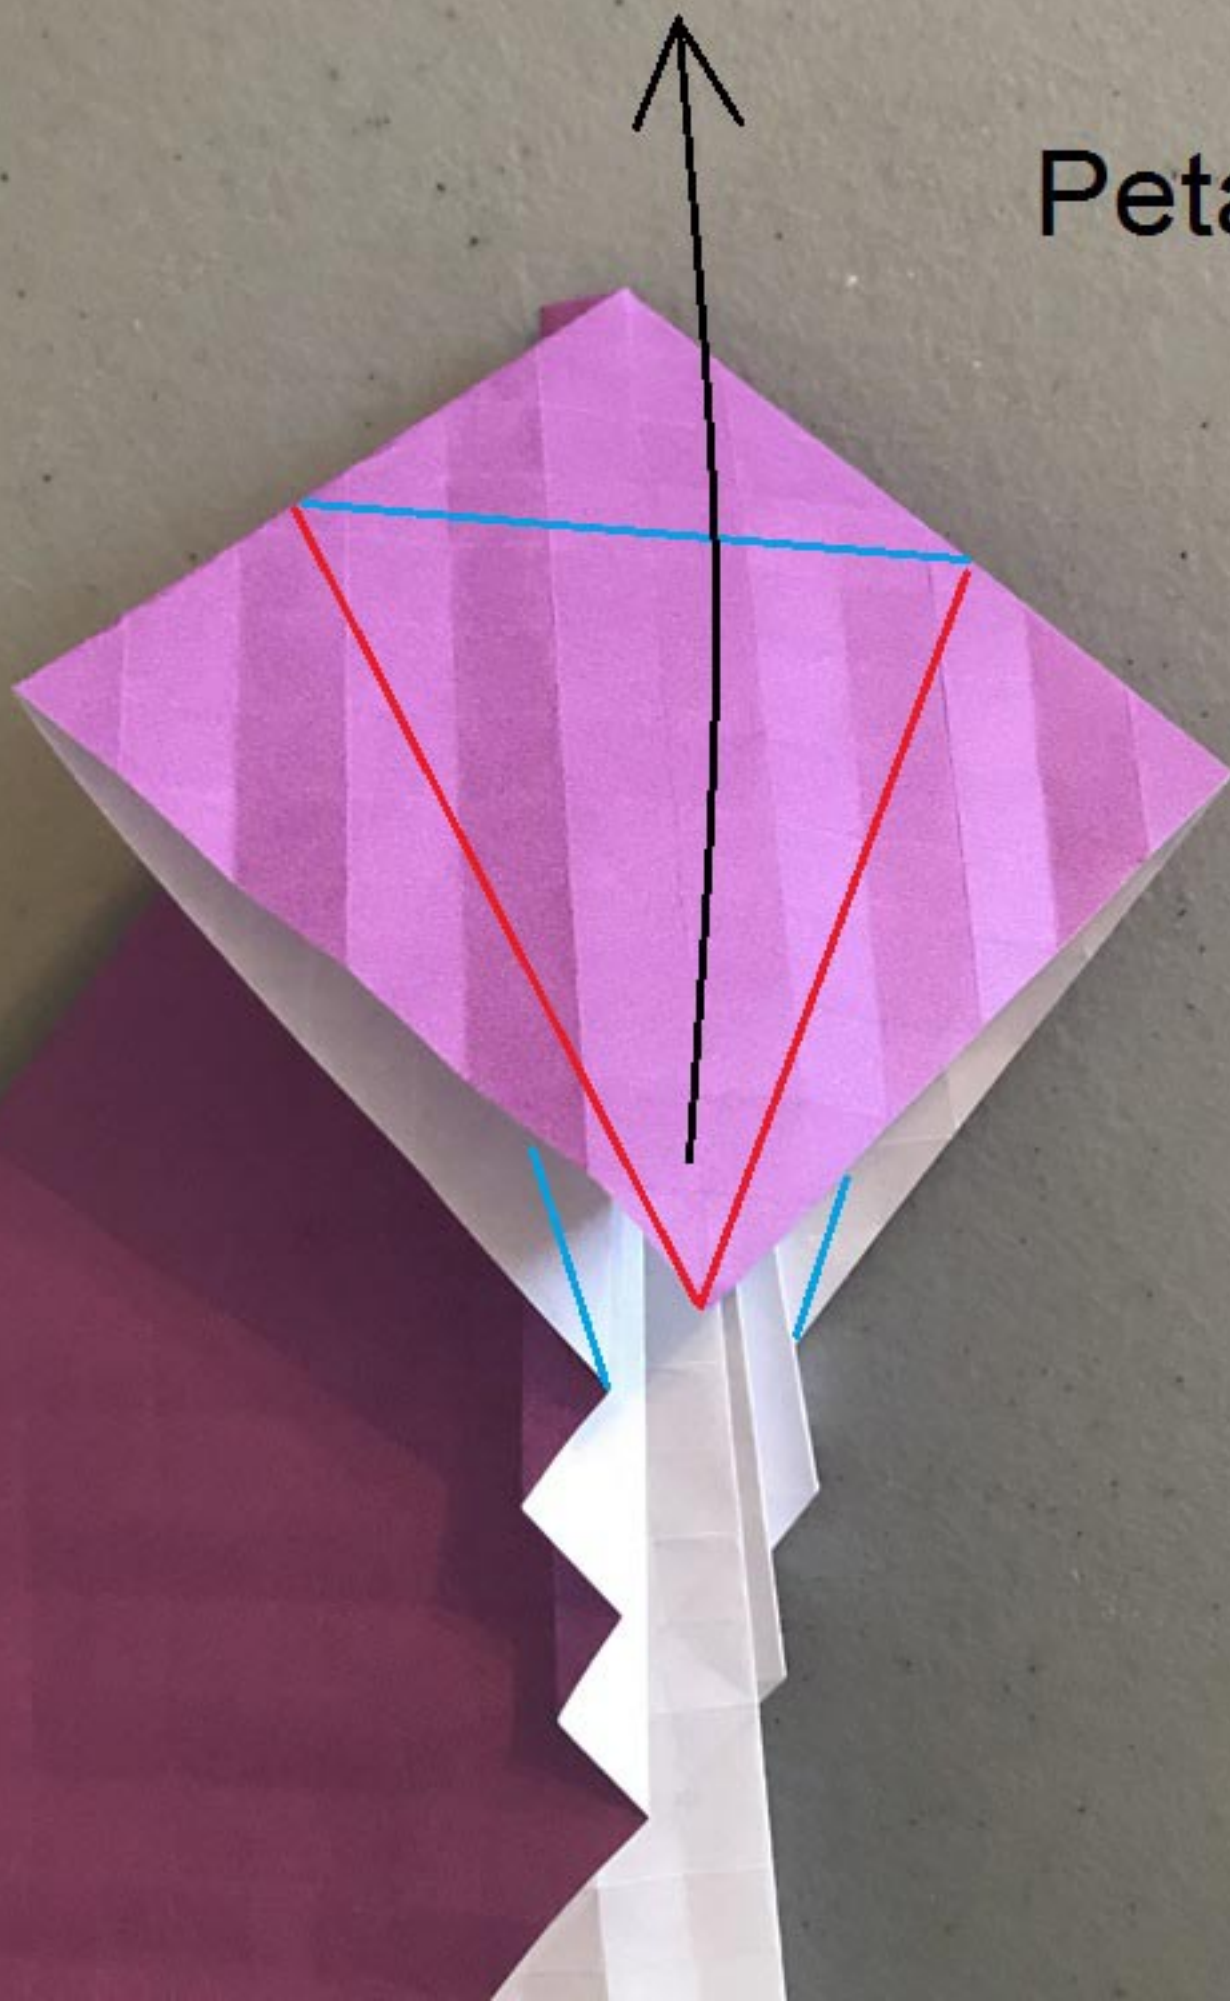

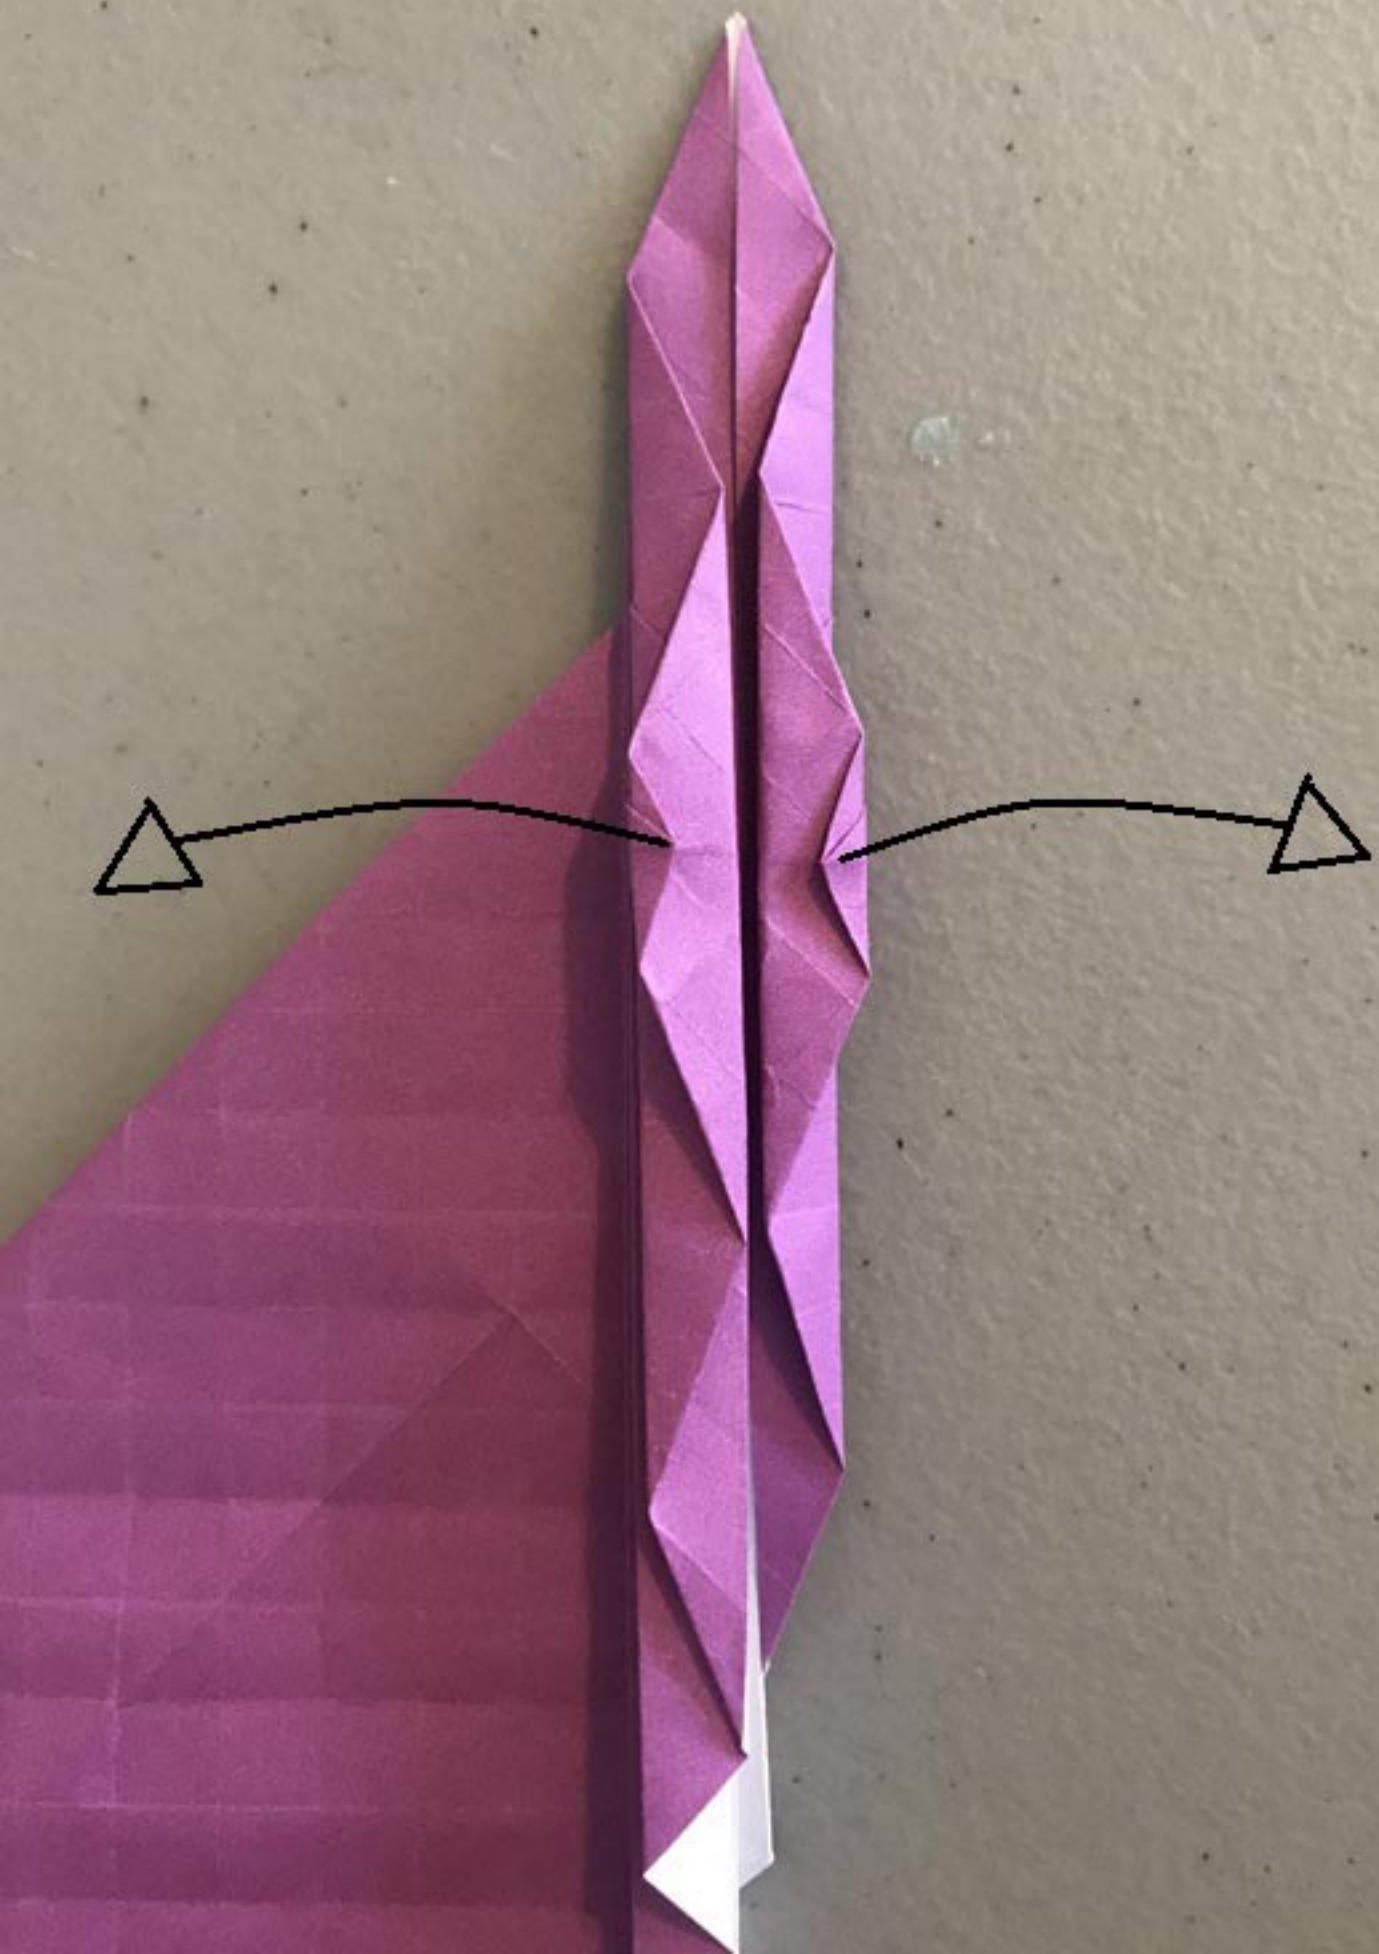

Squash
fold

Petal fold

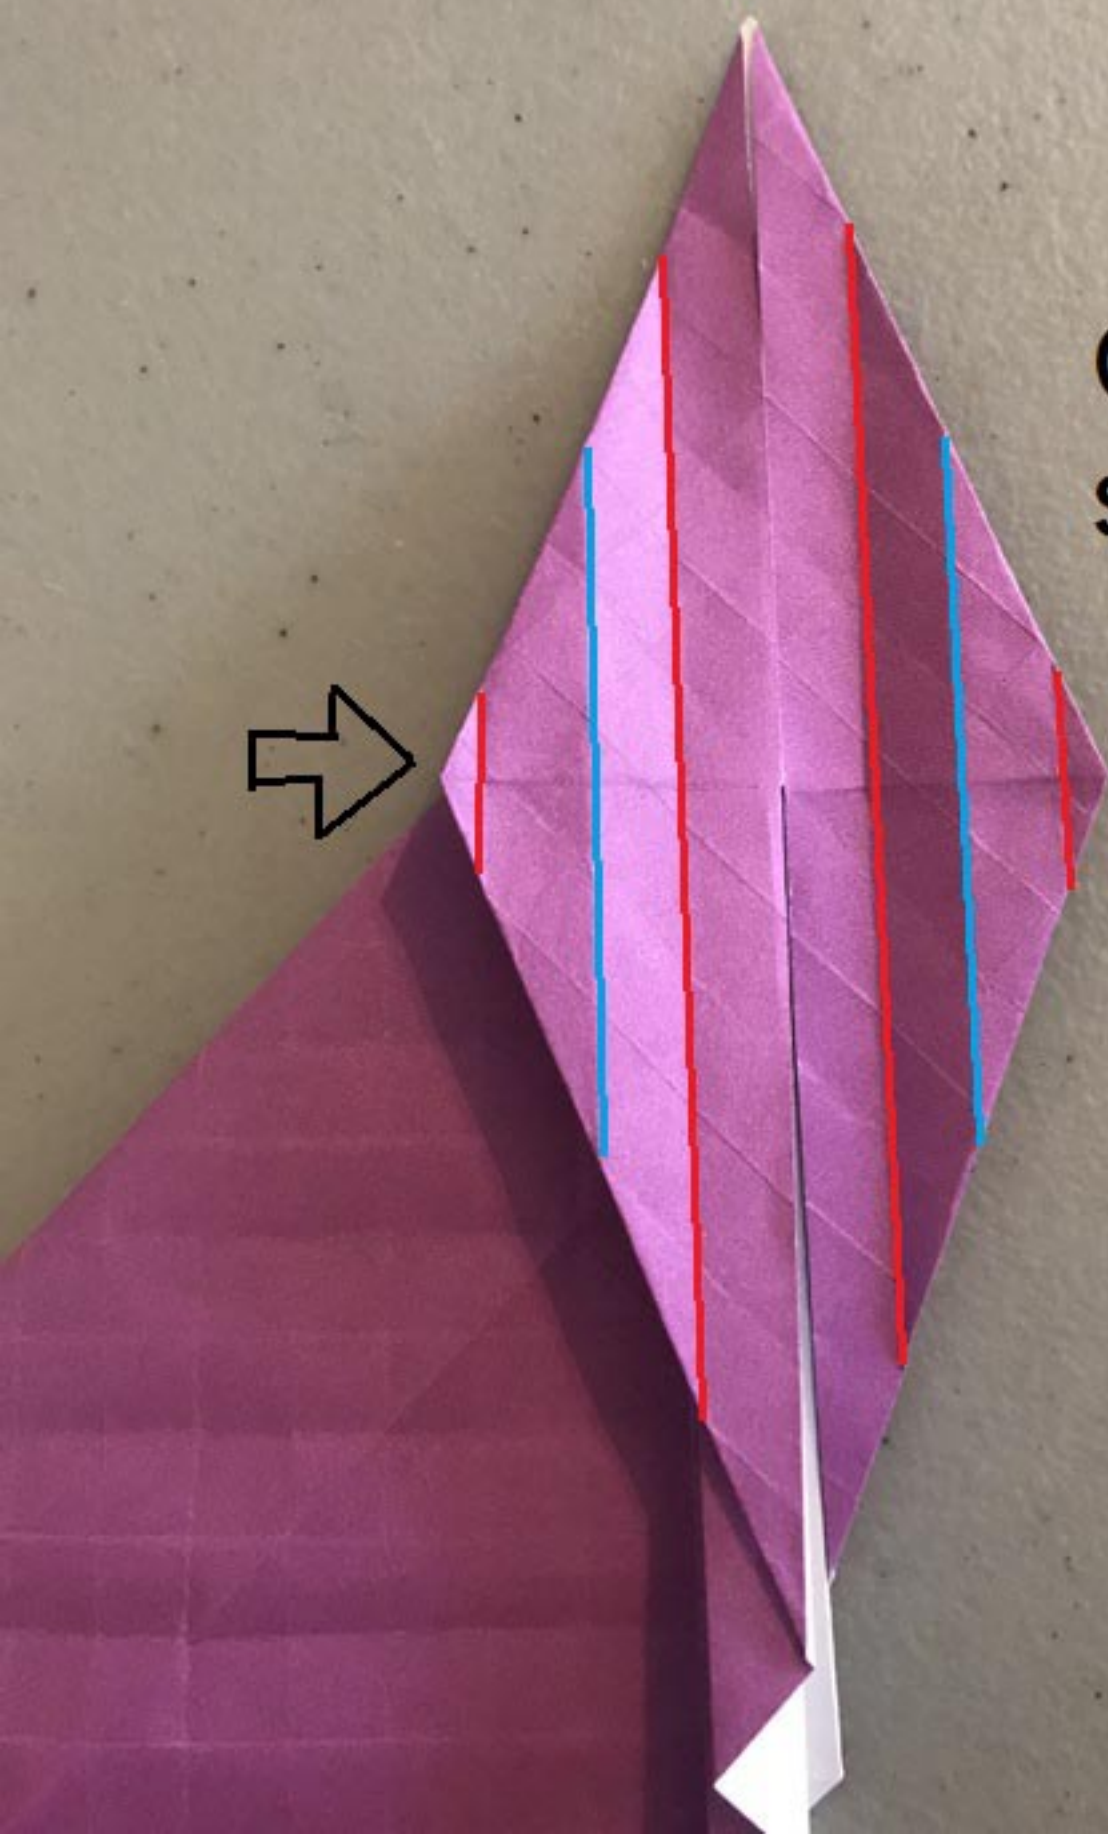

Follow
existing
creases
on rear
layer

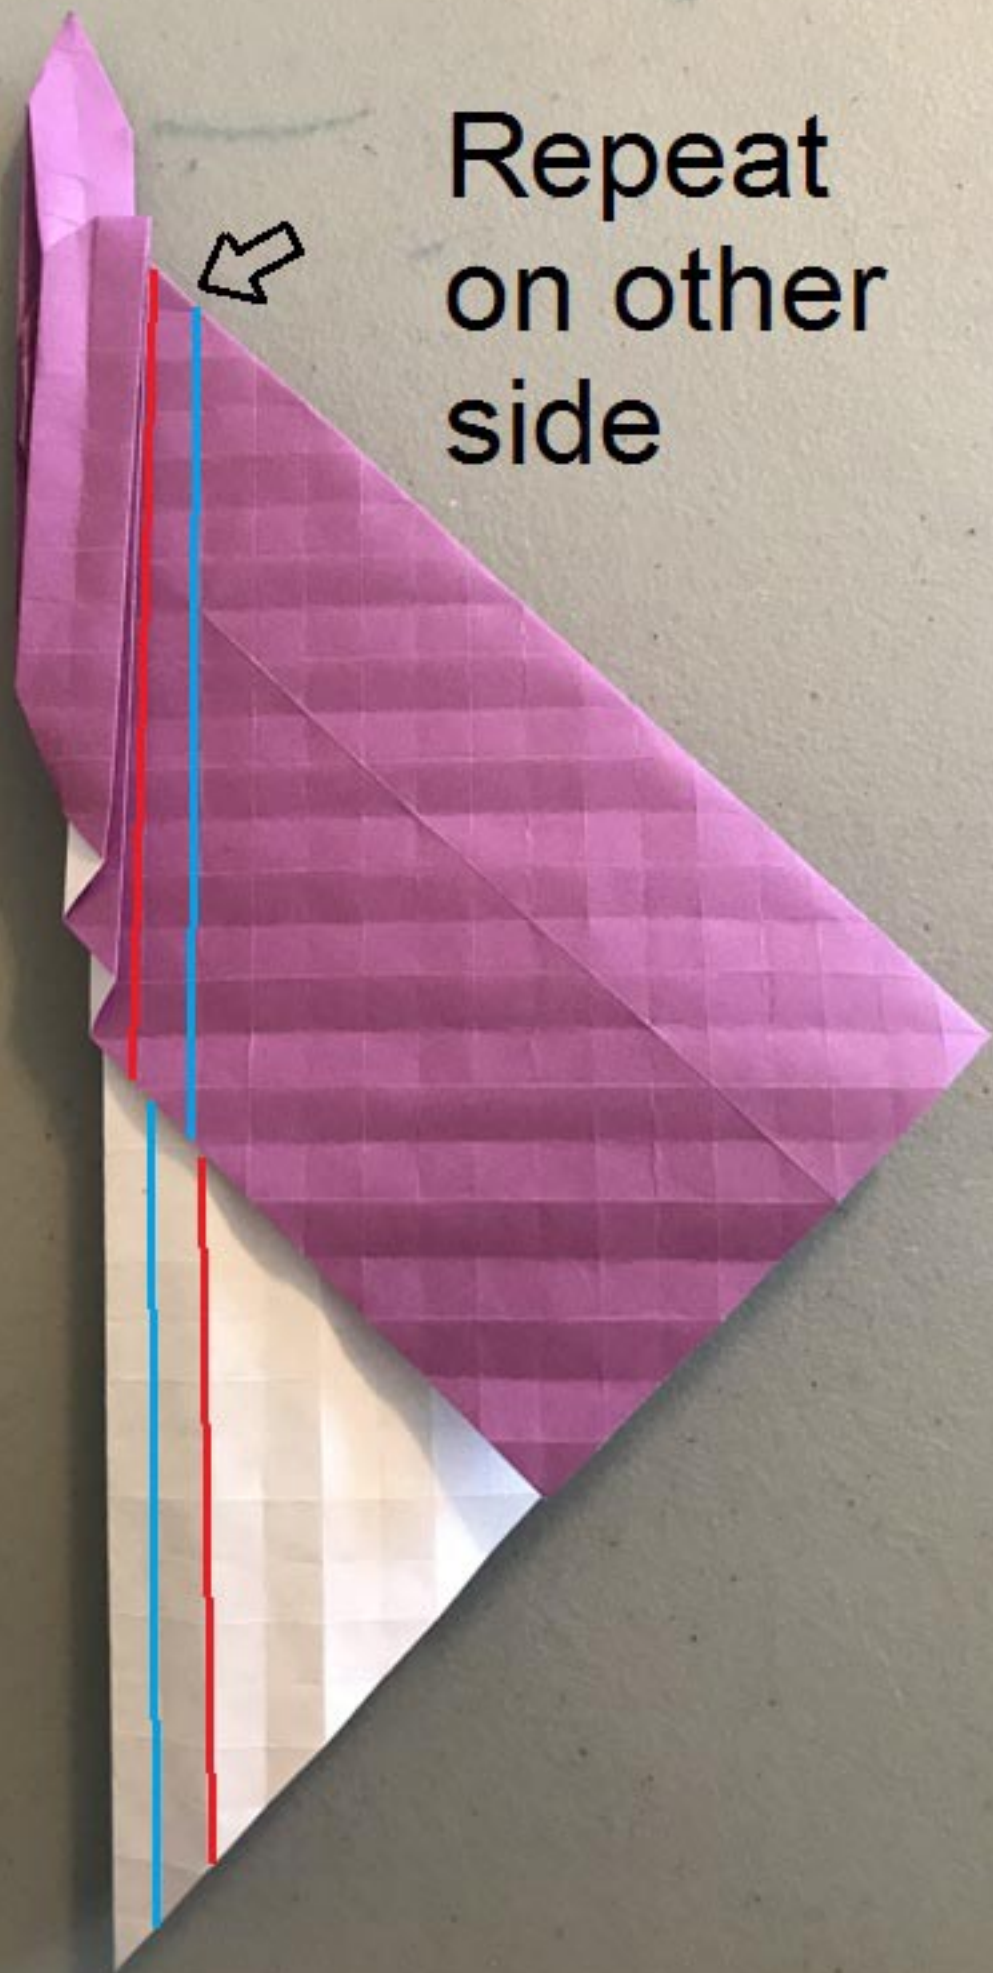

Closed
sinks

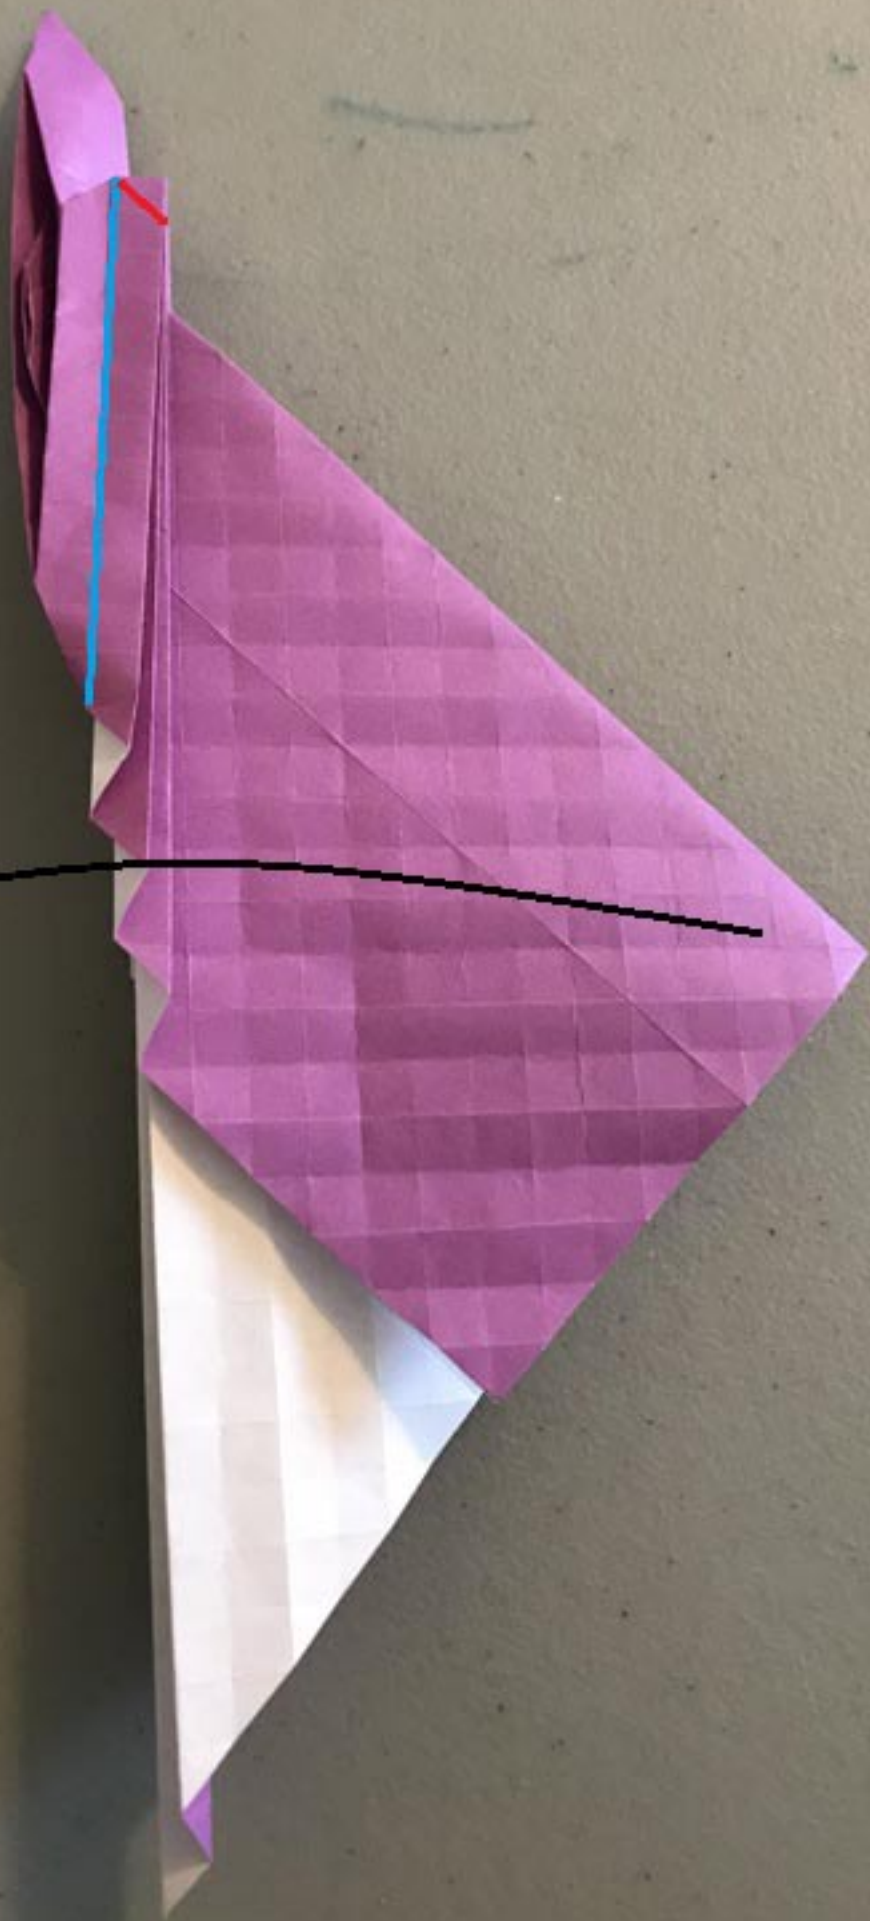

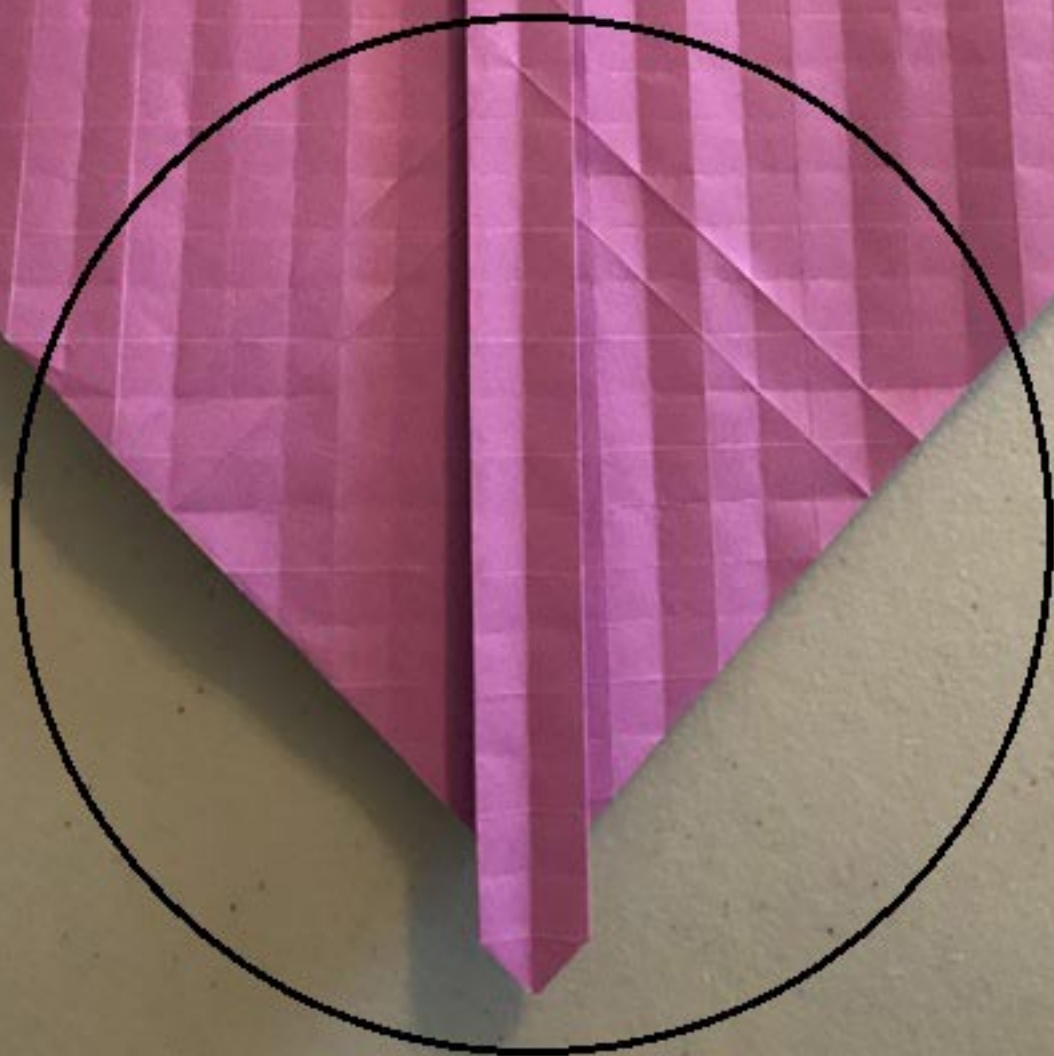

Turn
over

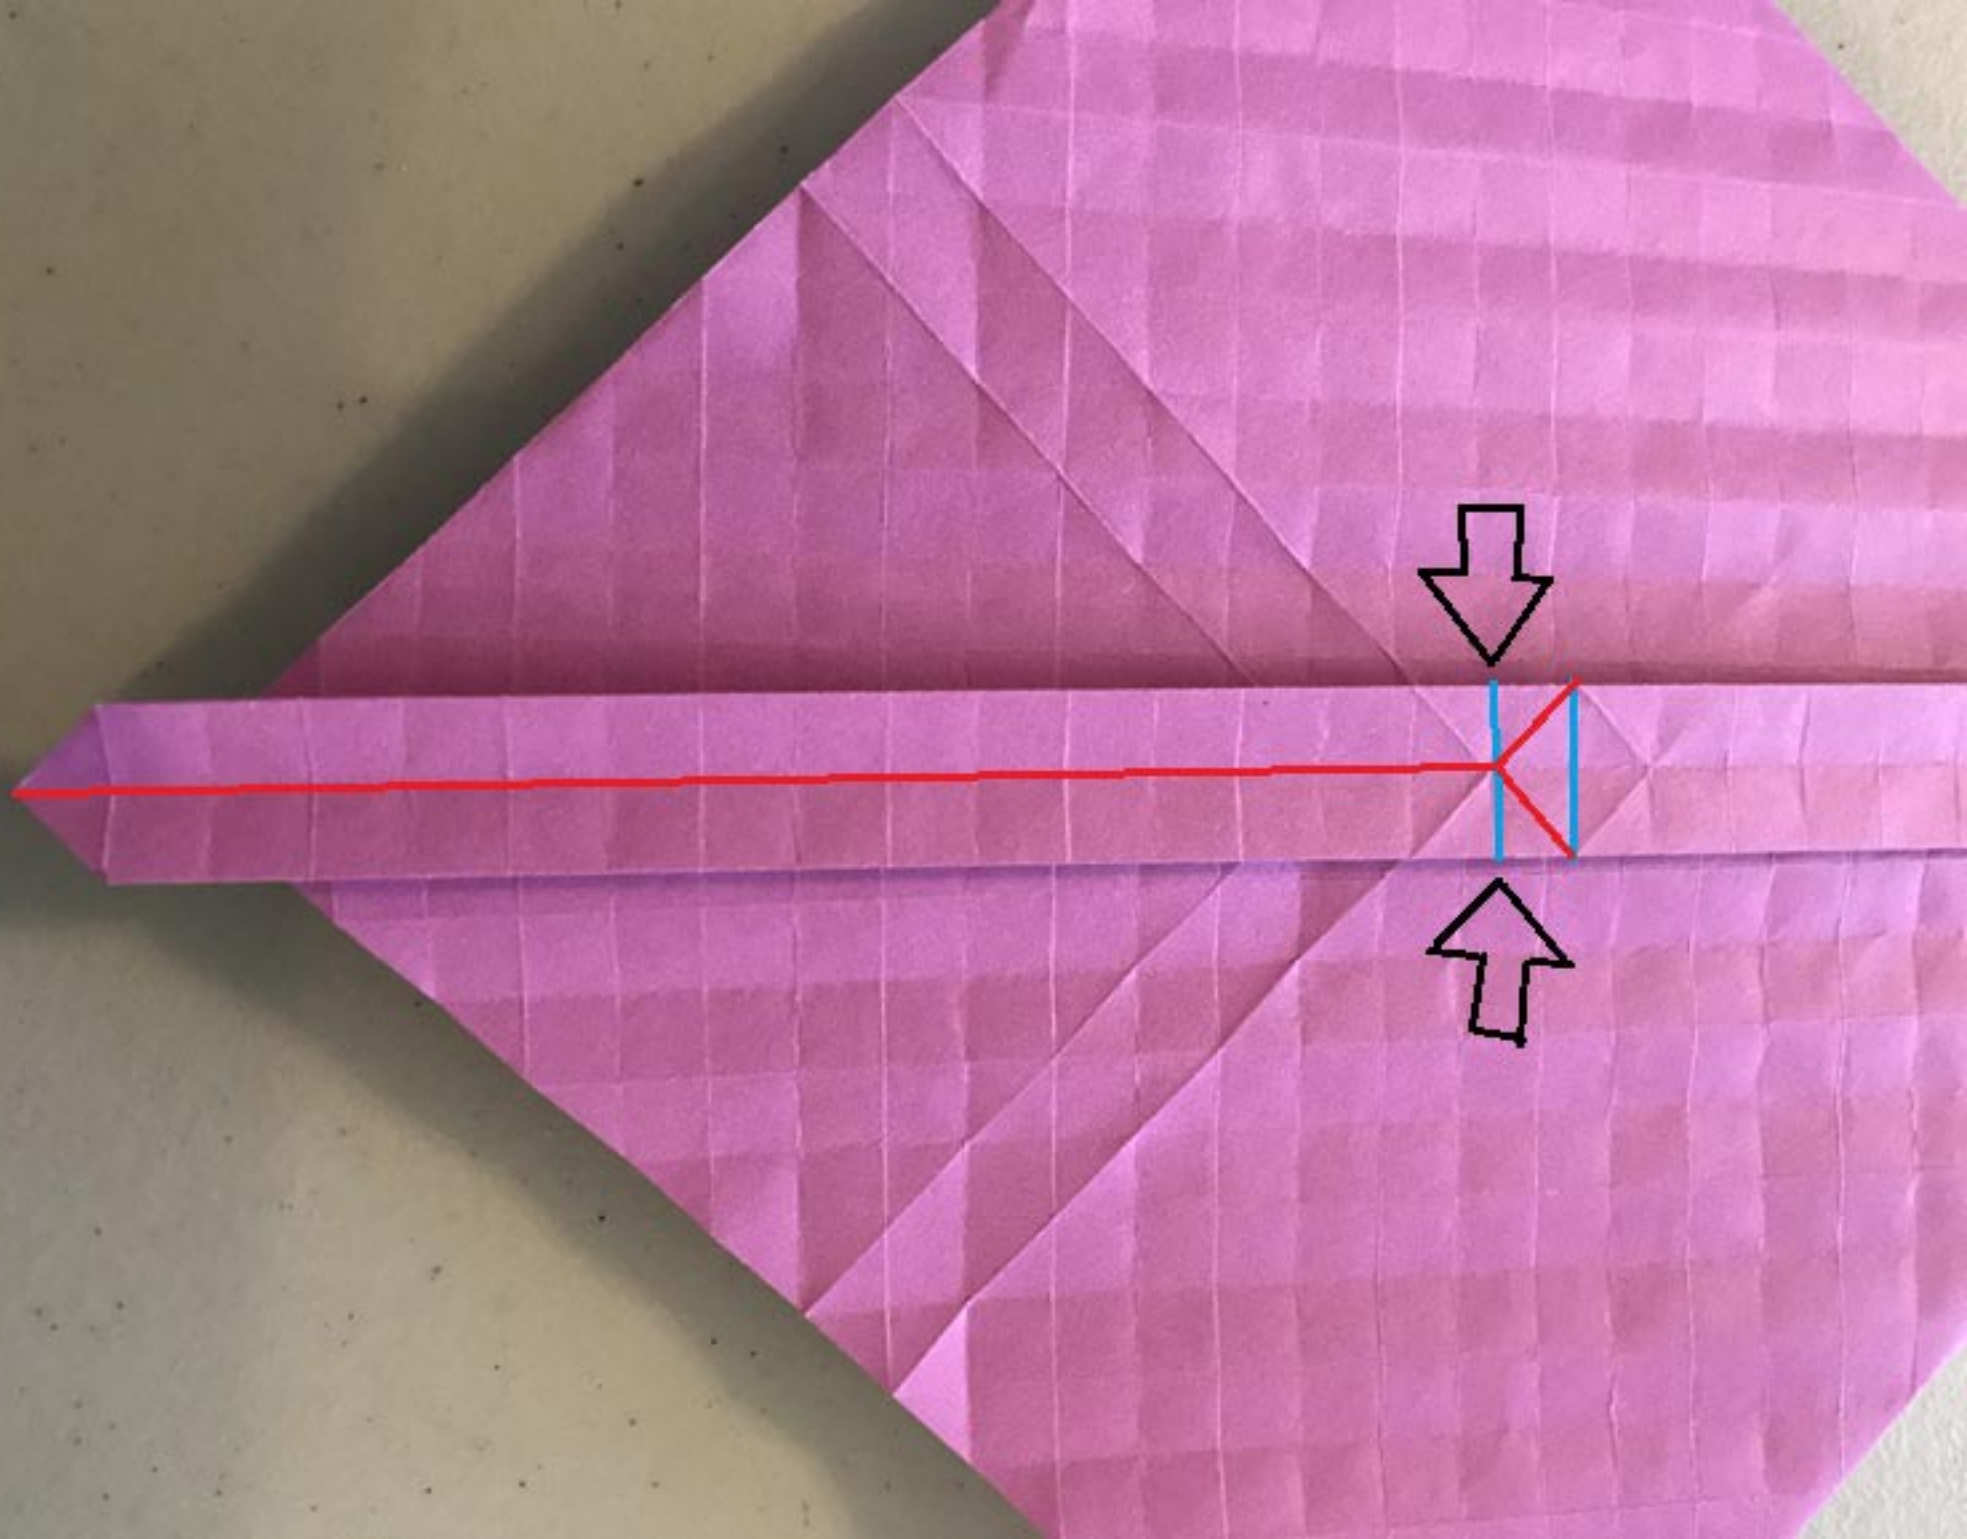

Repeat
on other
side

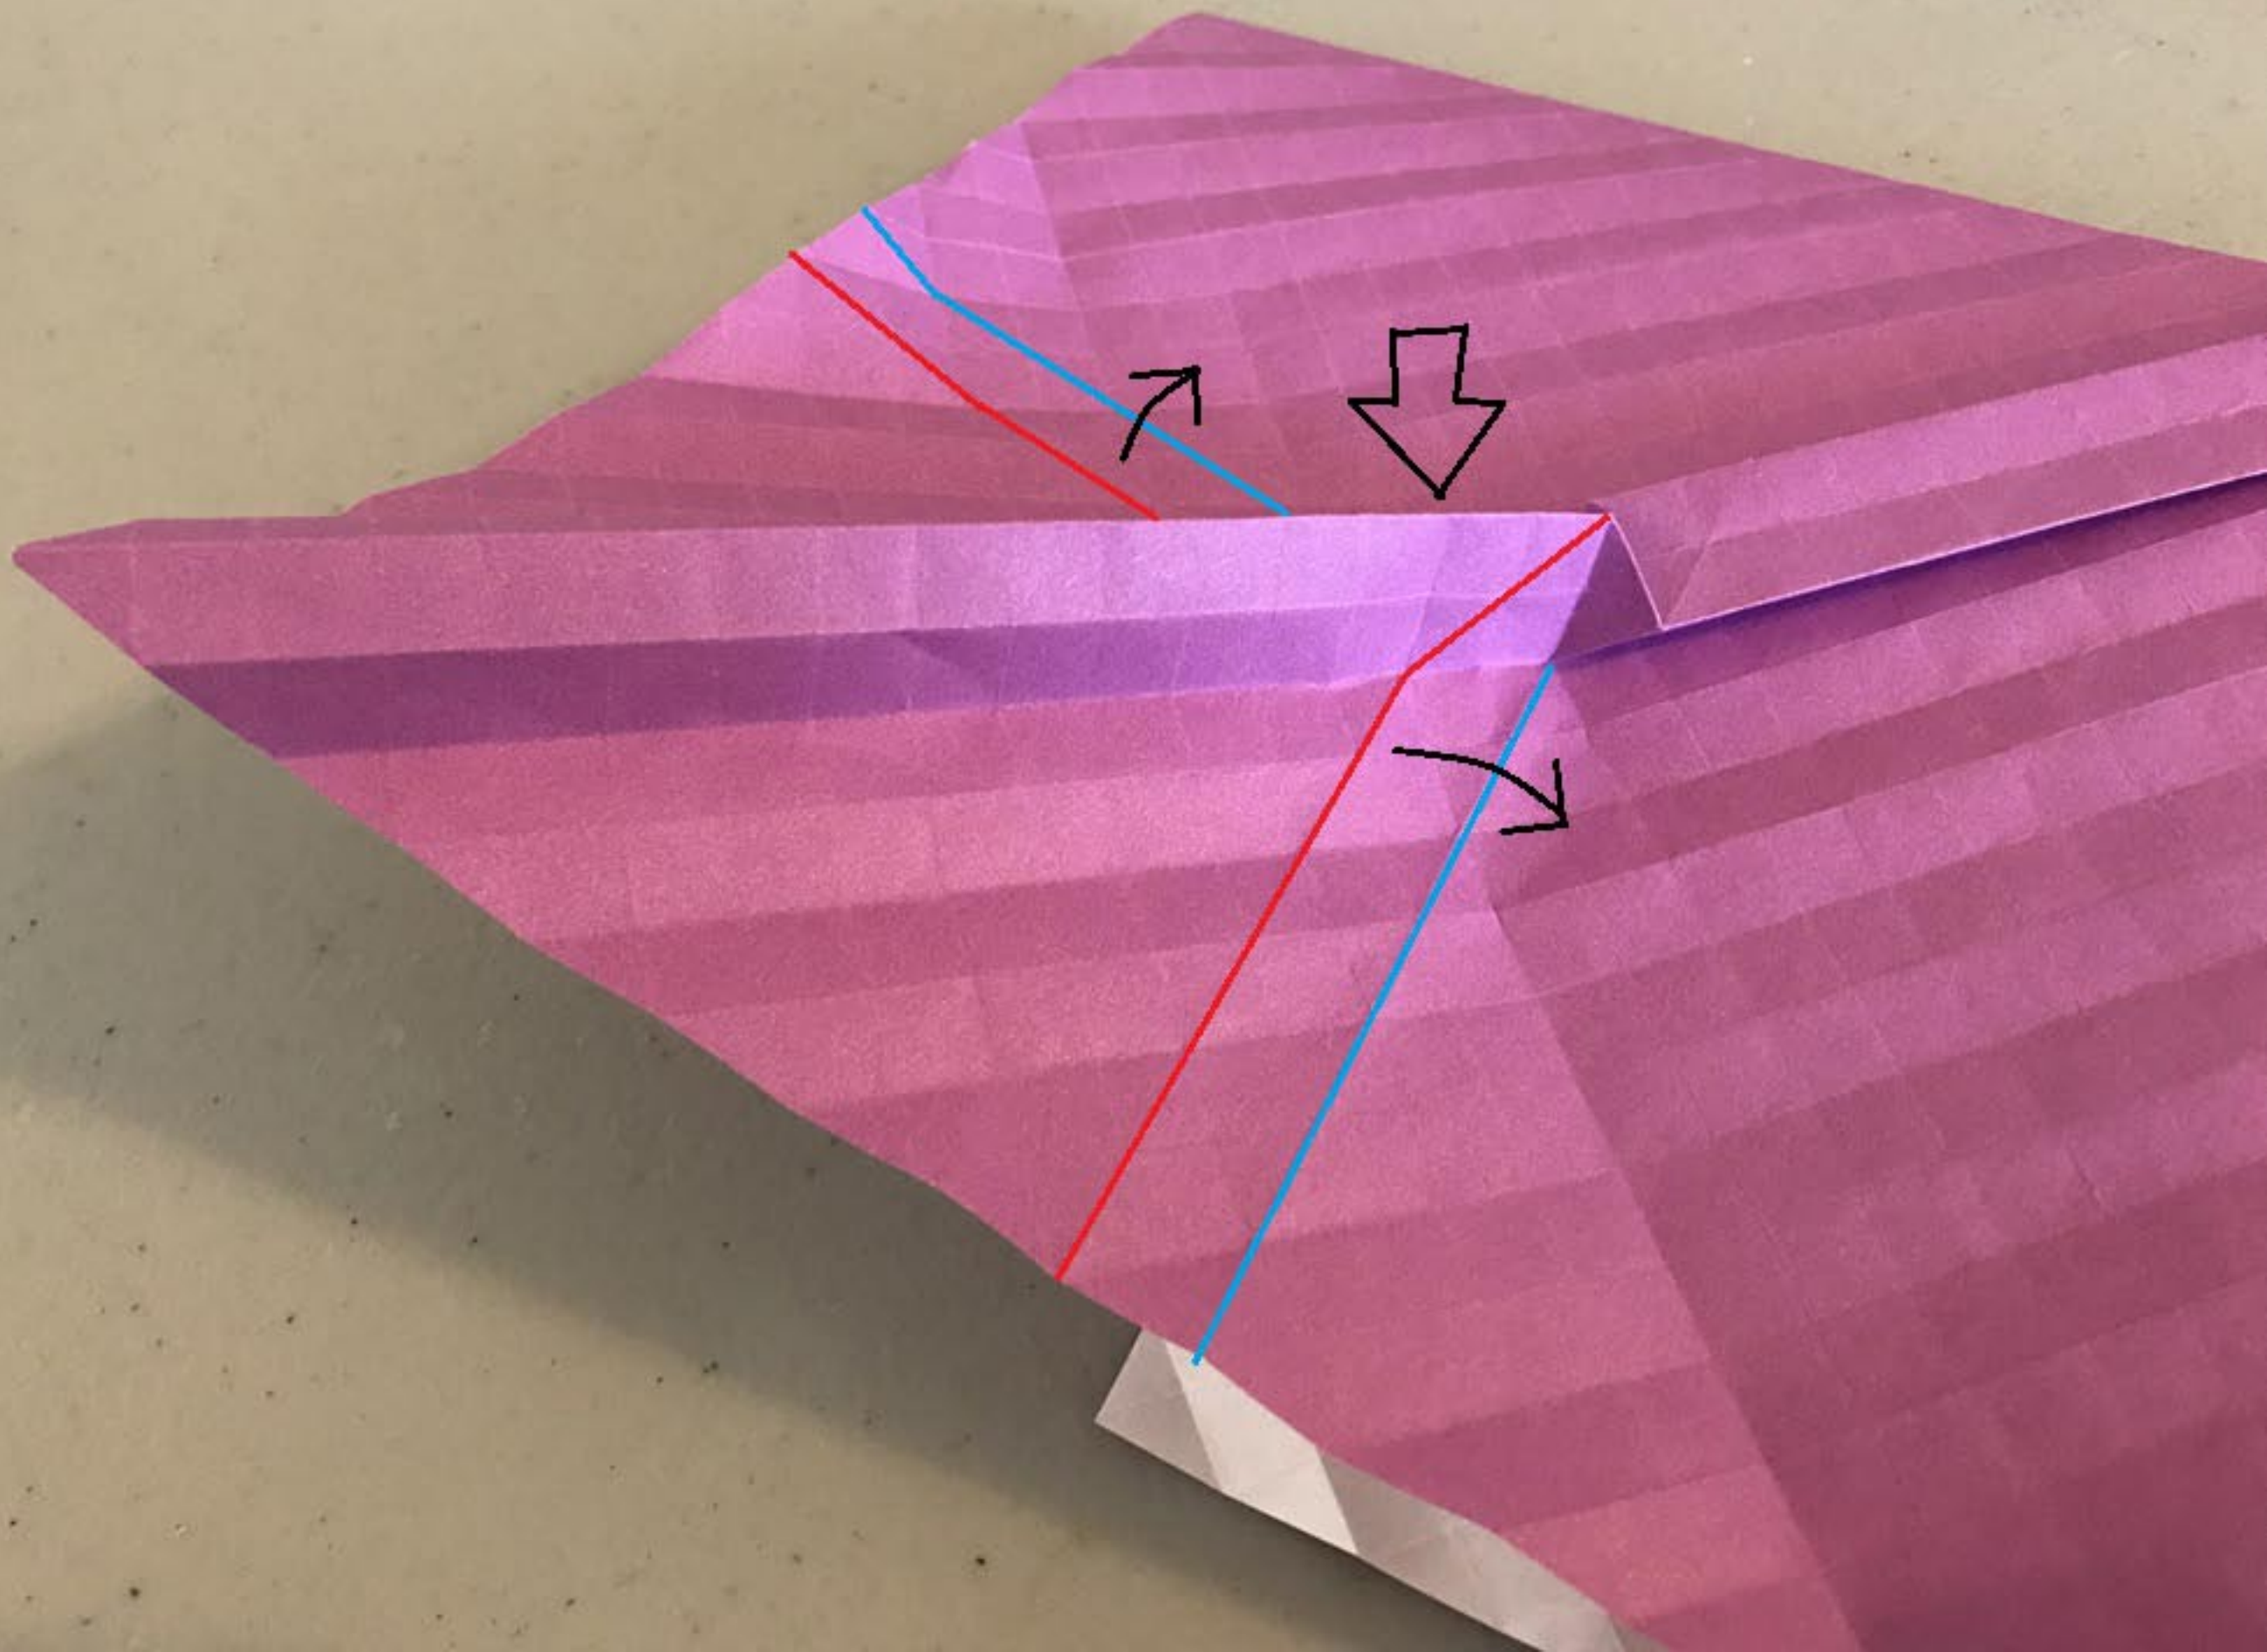

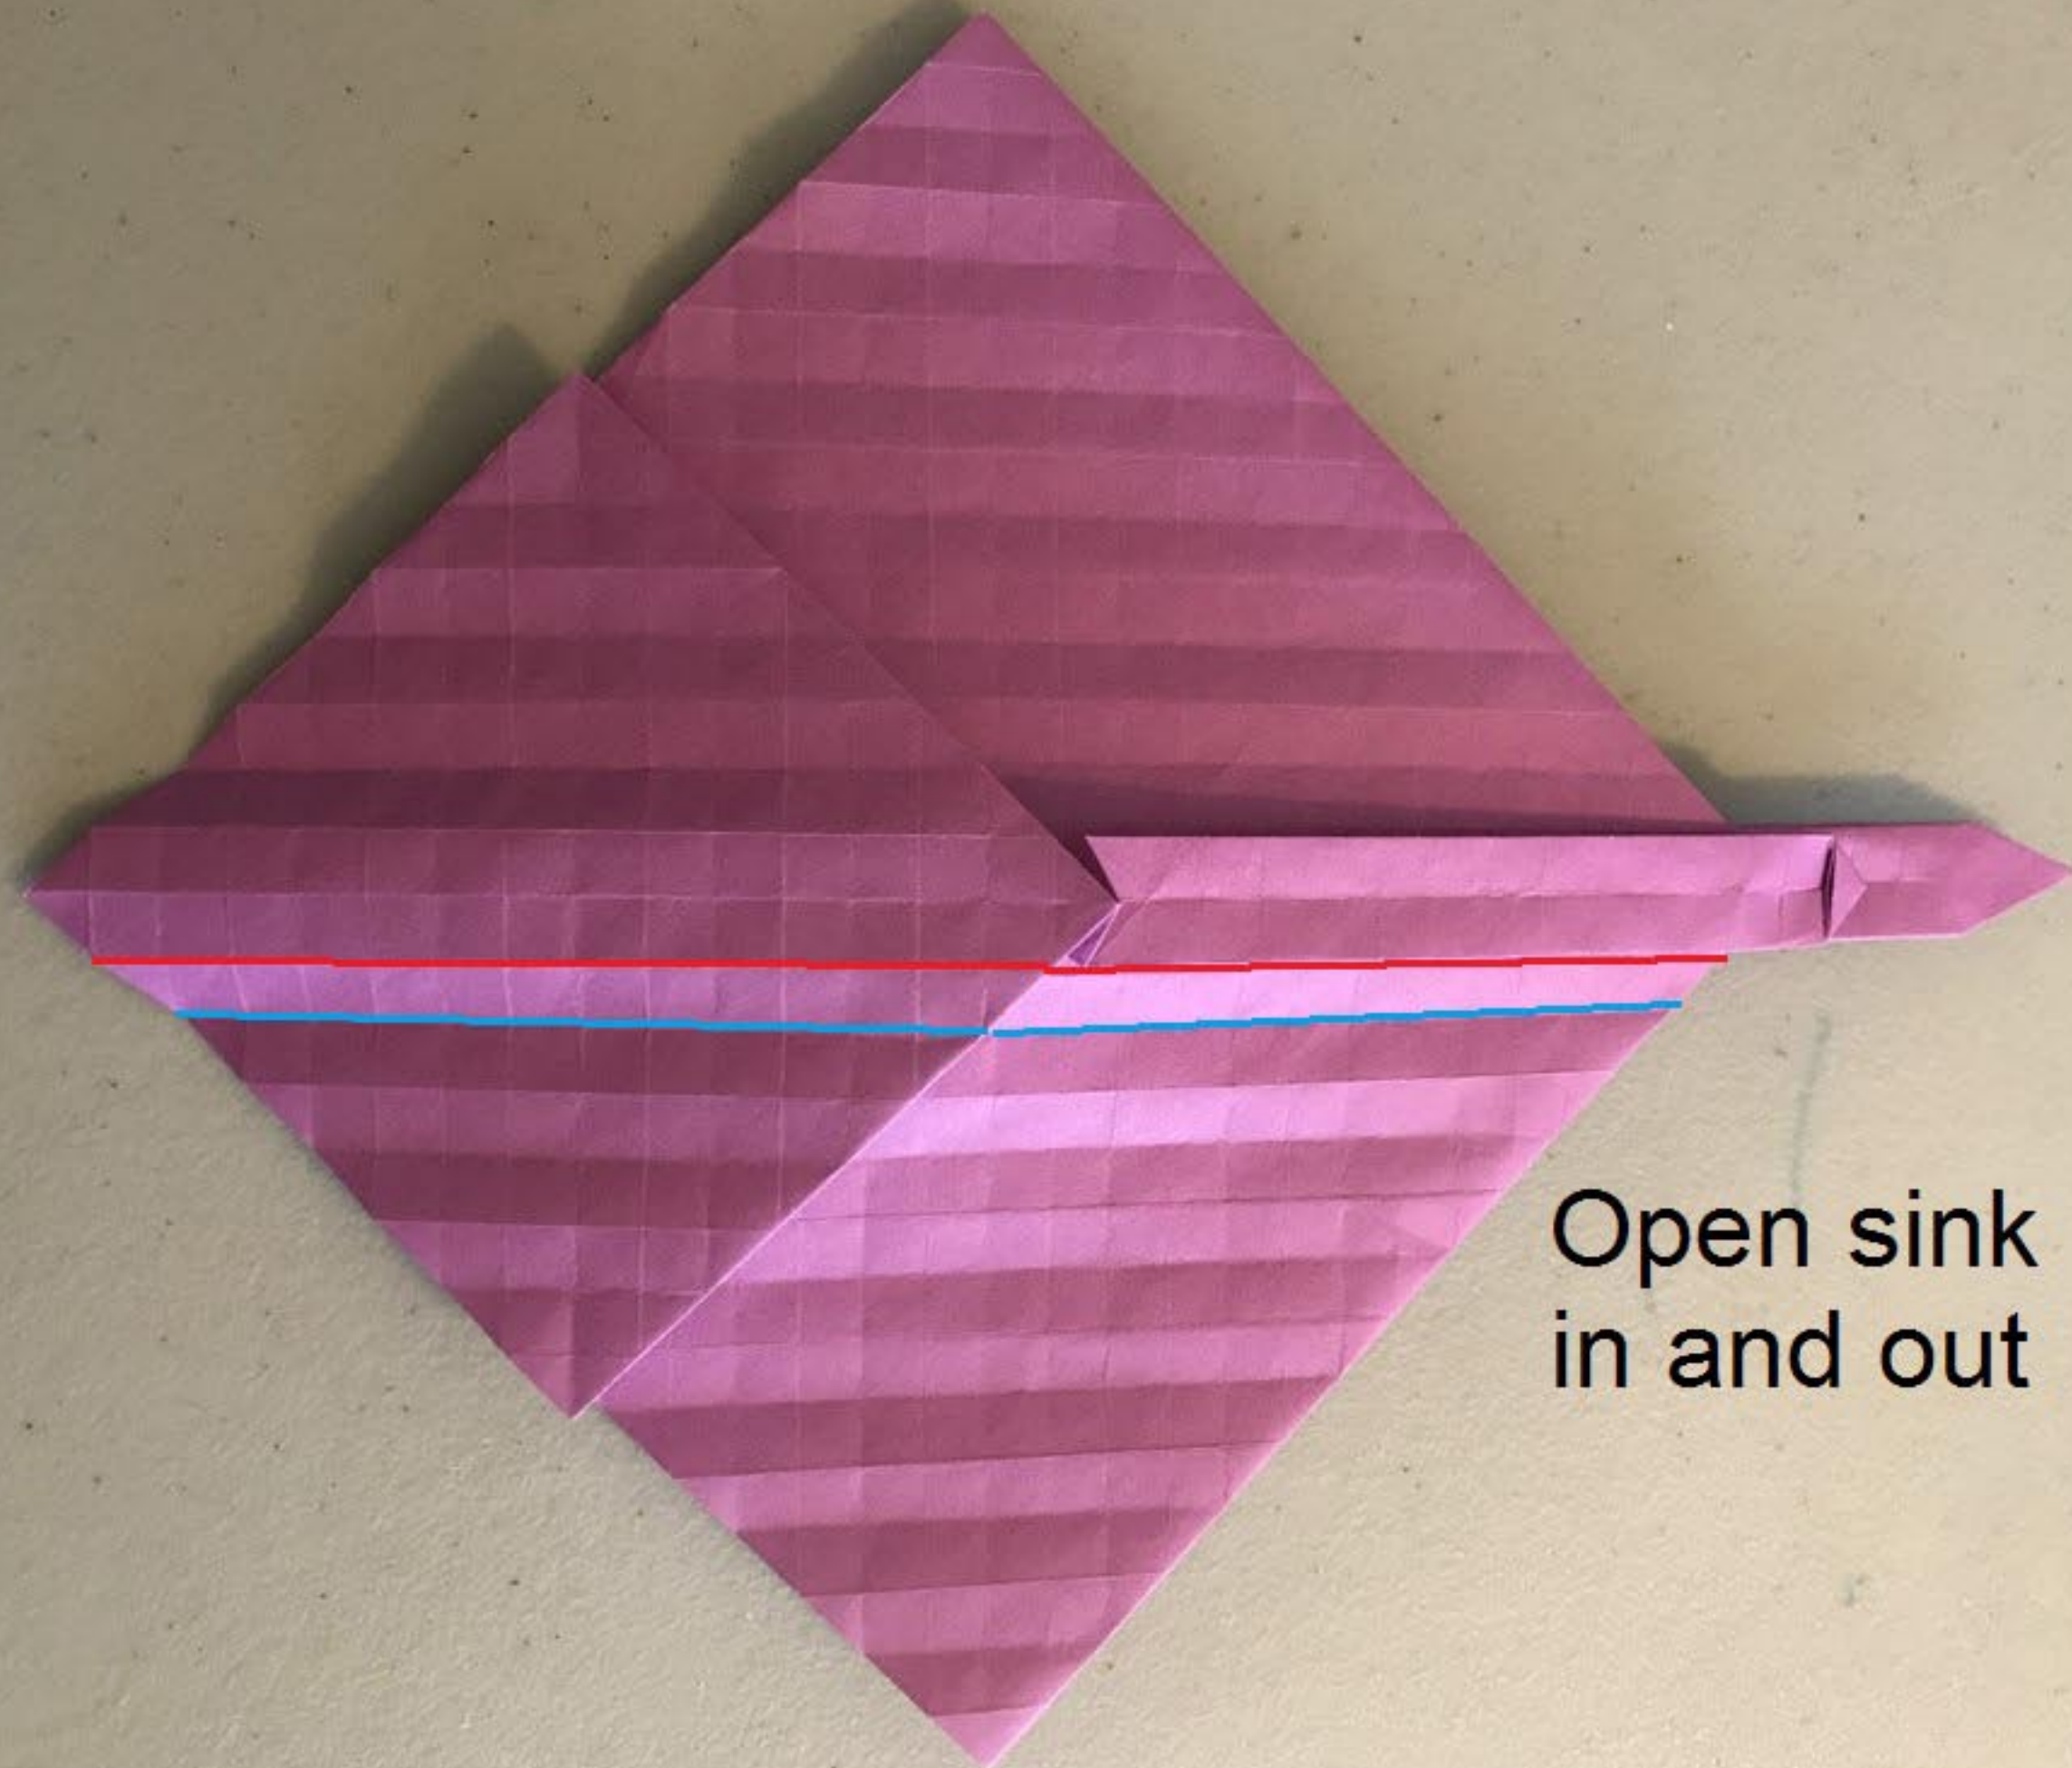

Rotate

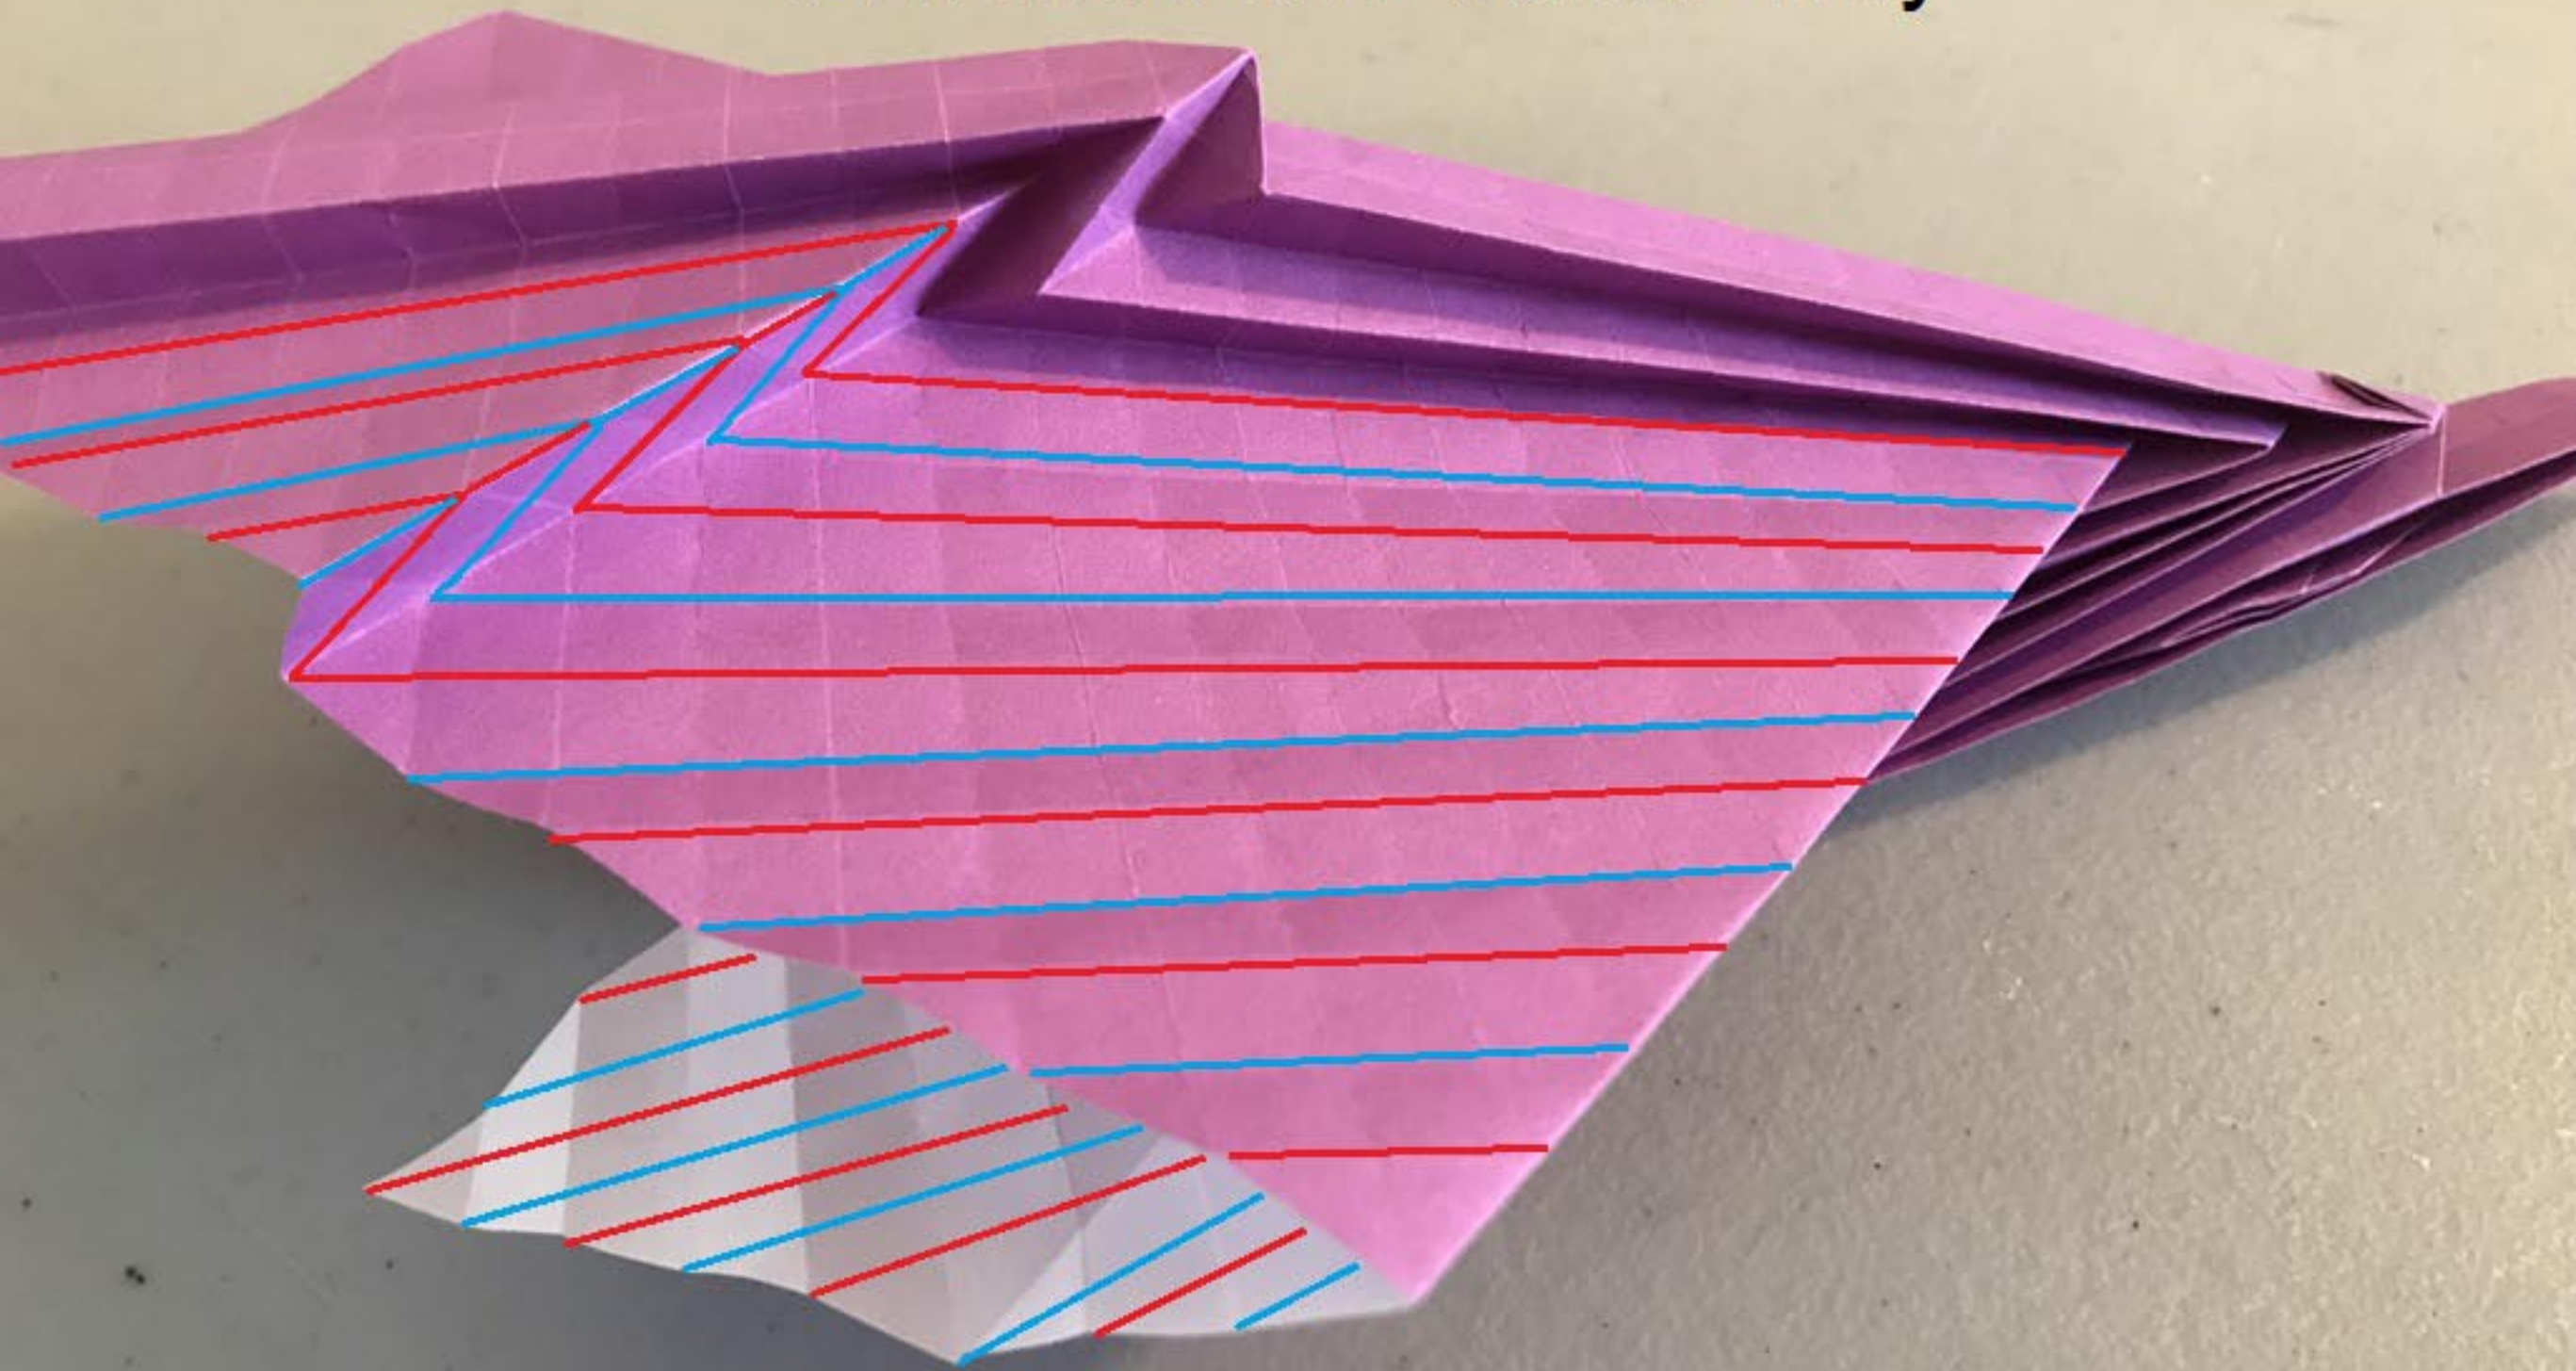

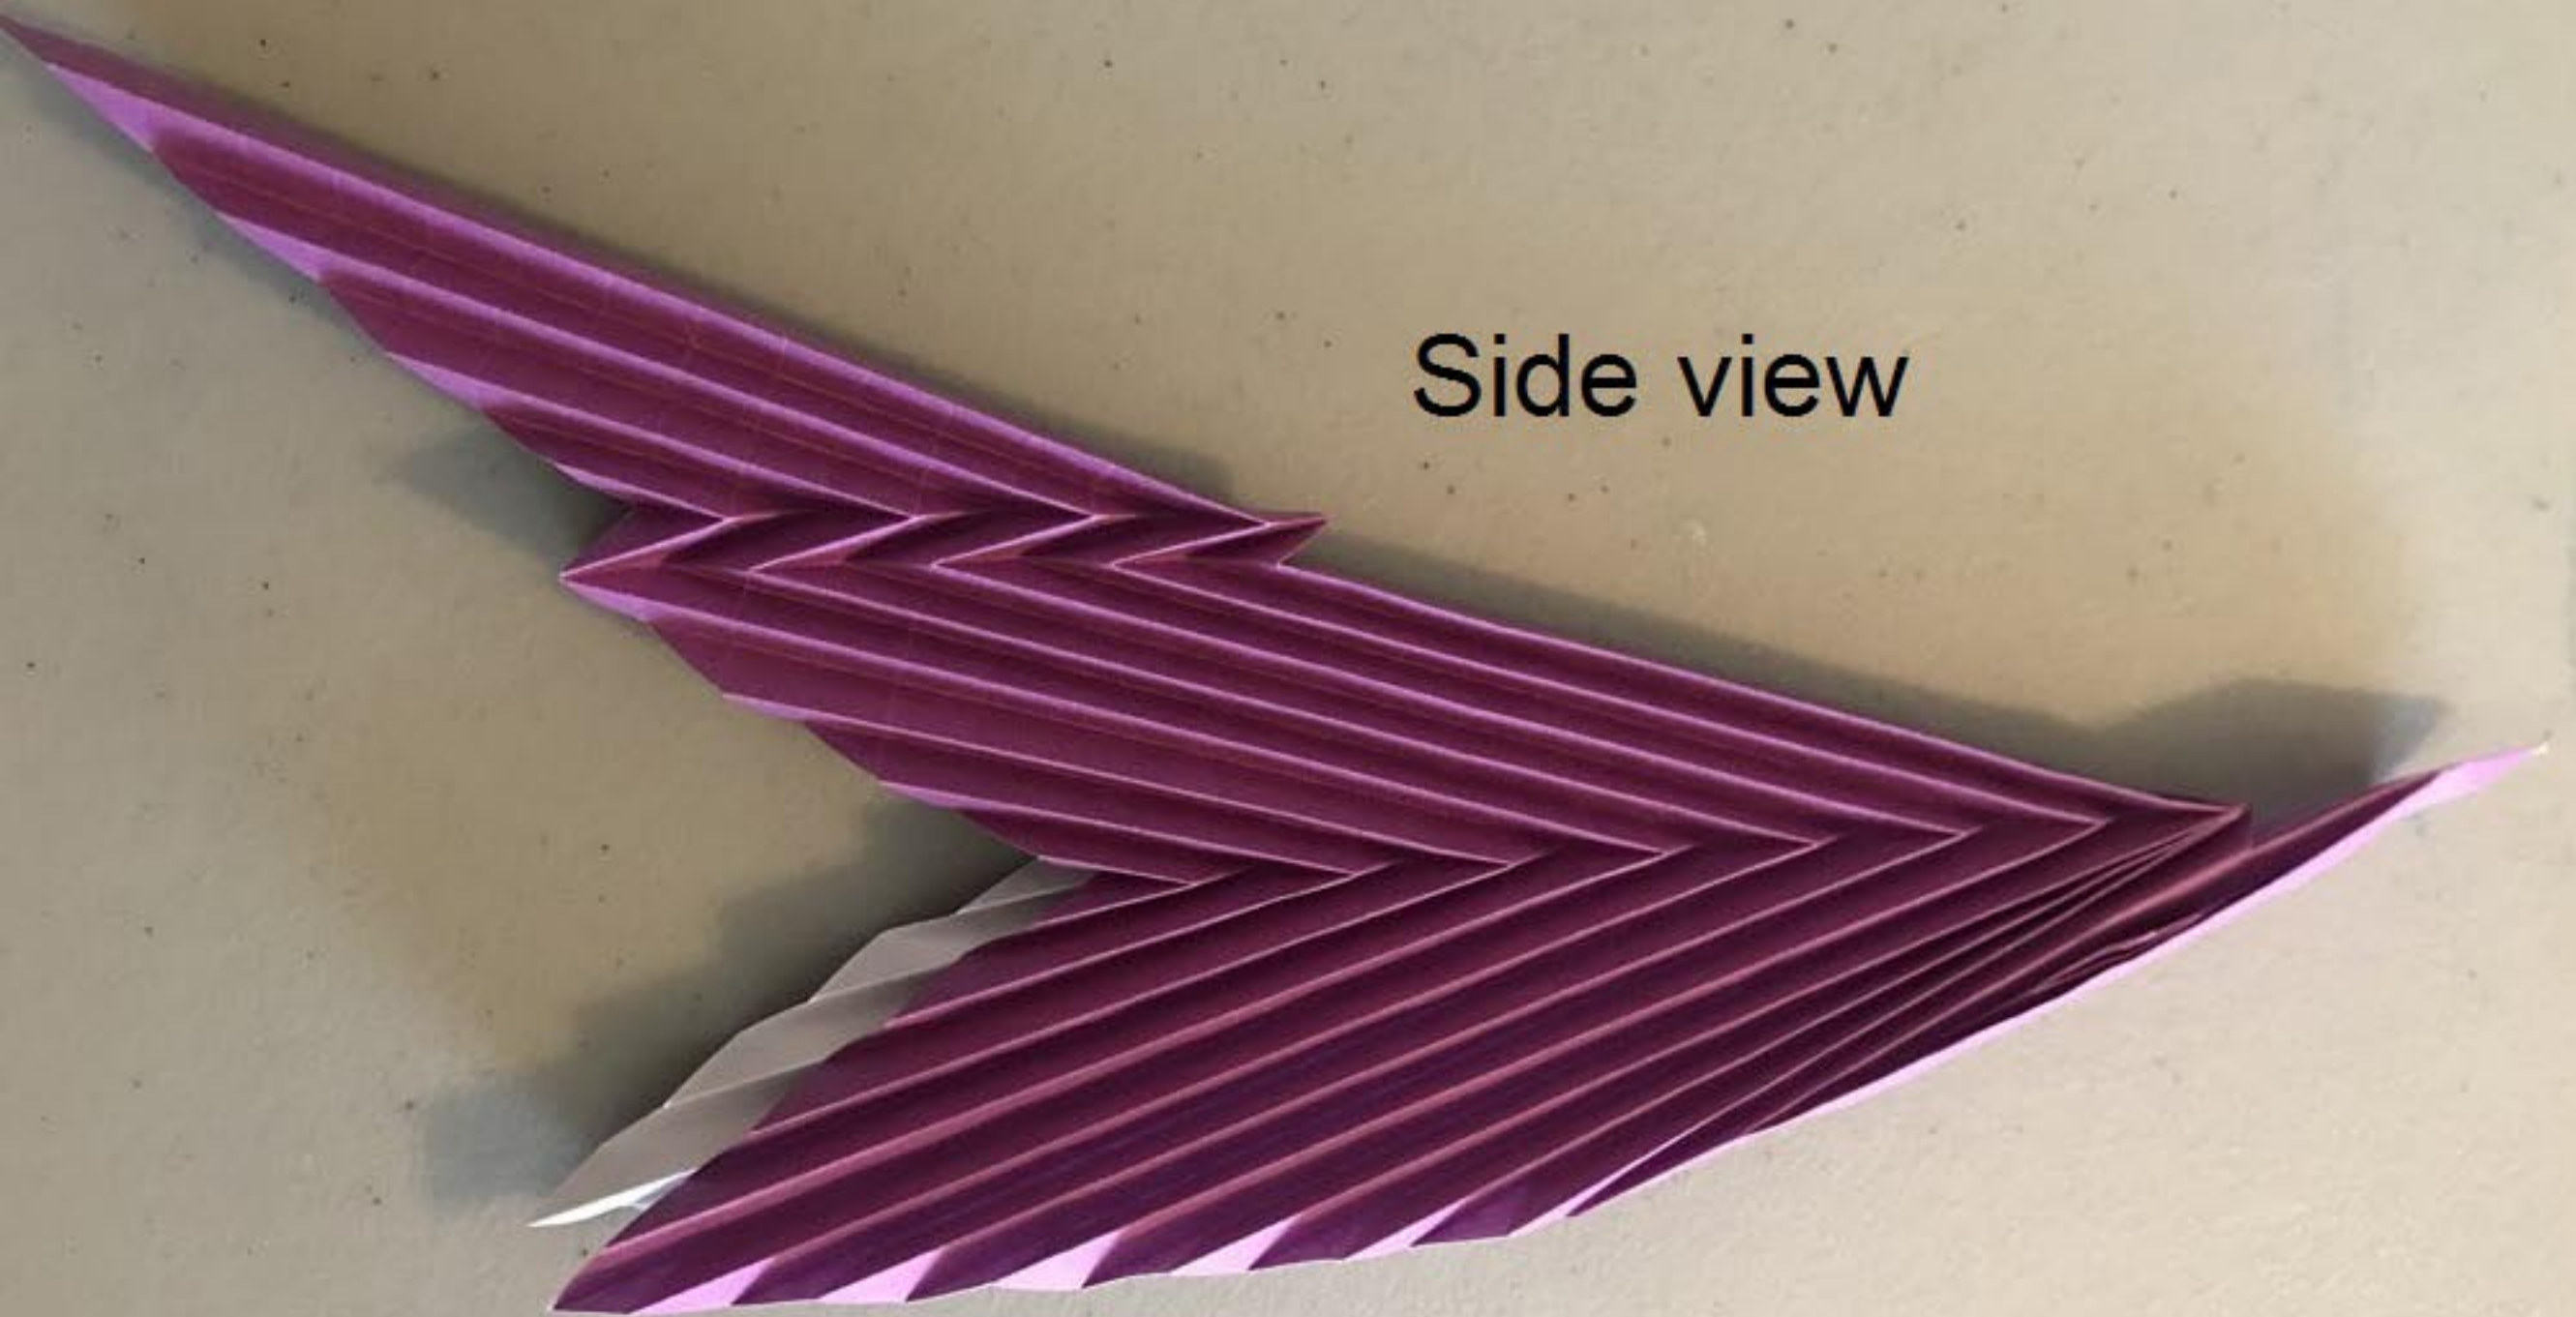

Open sink
in and out

Continue the same way

Side view

A hand is holding a purple paper airplane vertically against a grey background. The airplane is oriented vertically with its nose pointing upwards. The hand is visible on the left side, with the index and middle fingers gripping the body of the plane. The paper has a textured, slightly wrinkled appearance. The background is a plain, light grey surface.

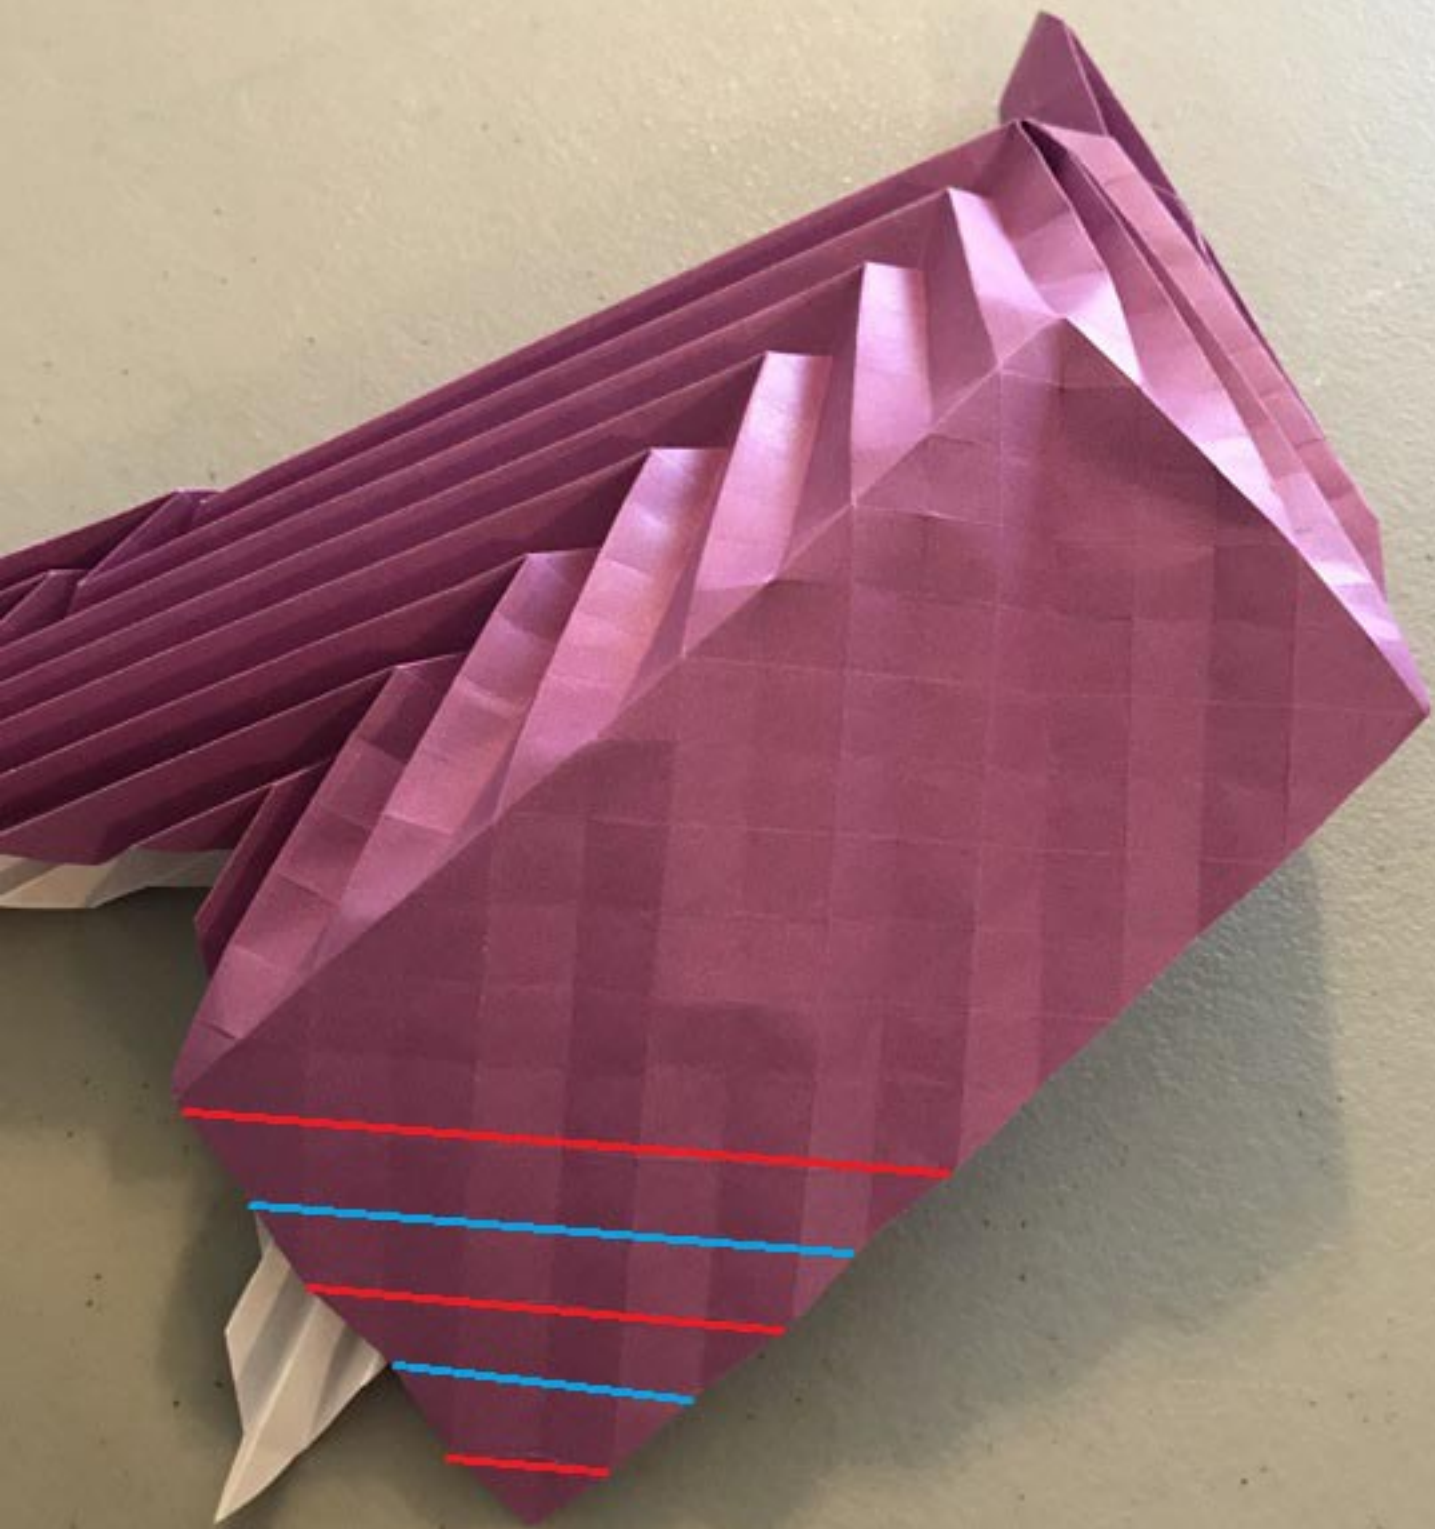

Top view

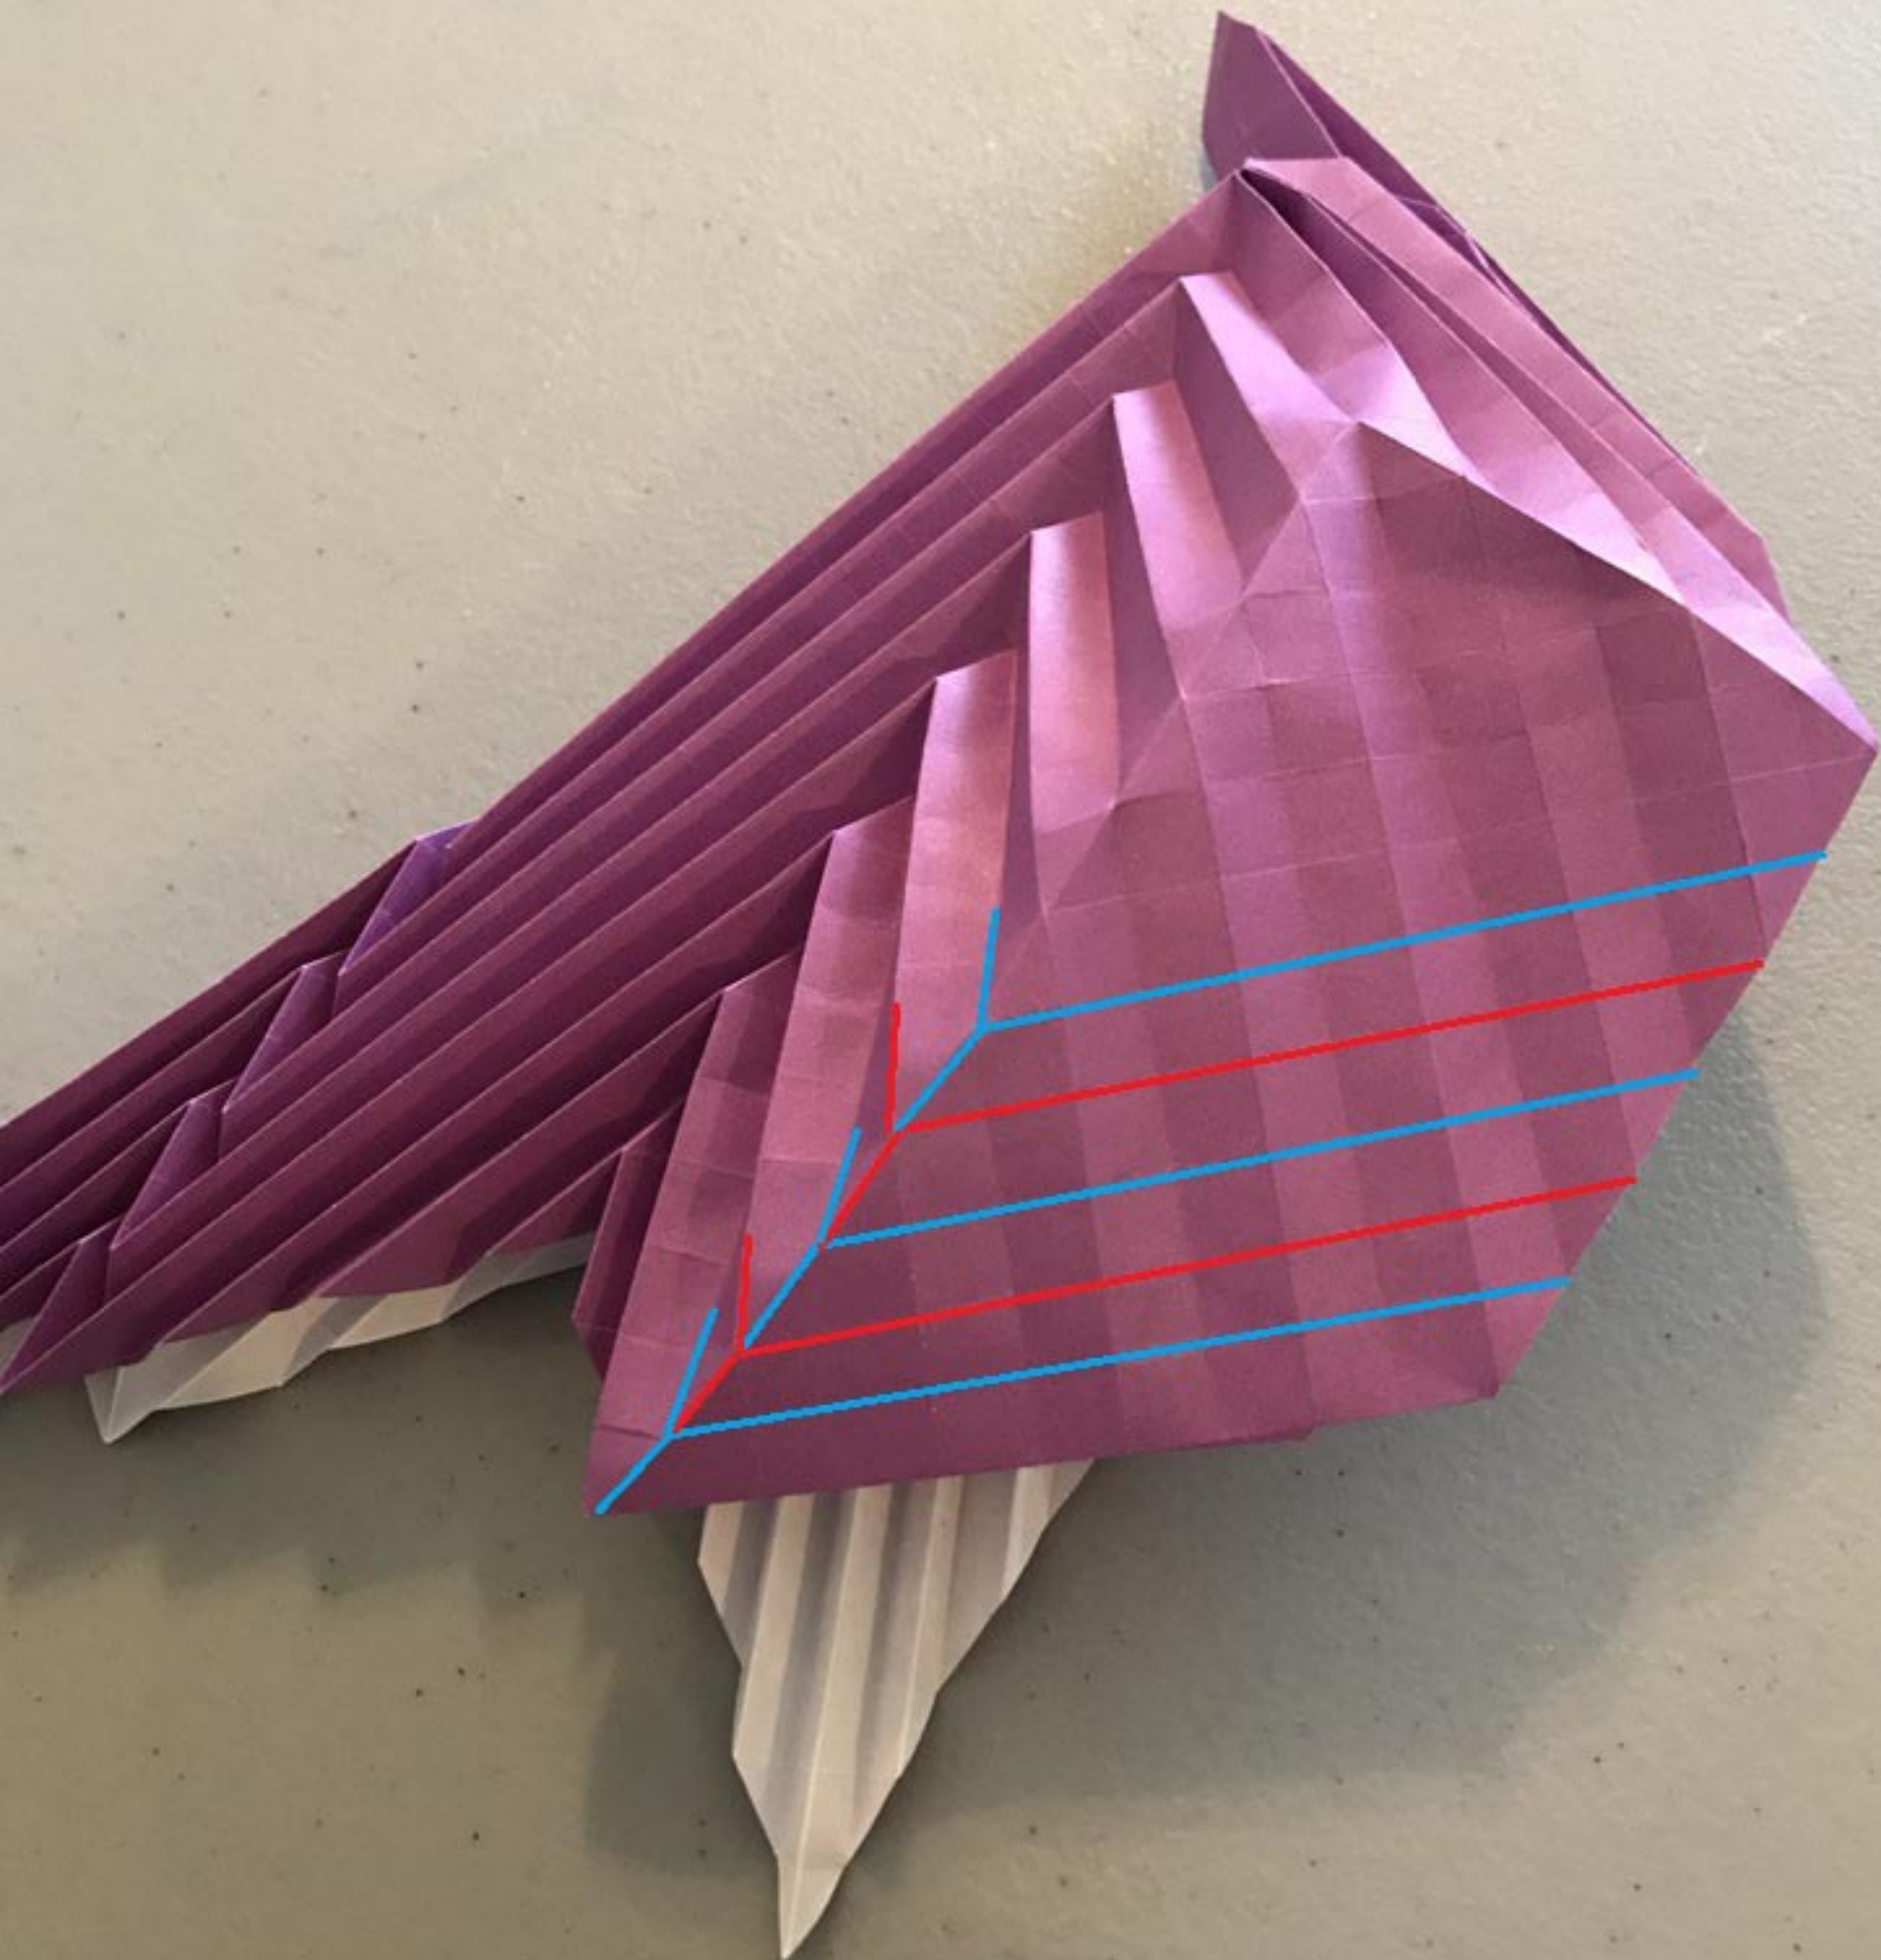

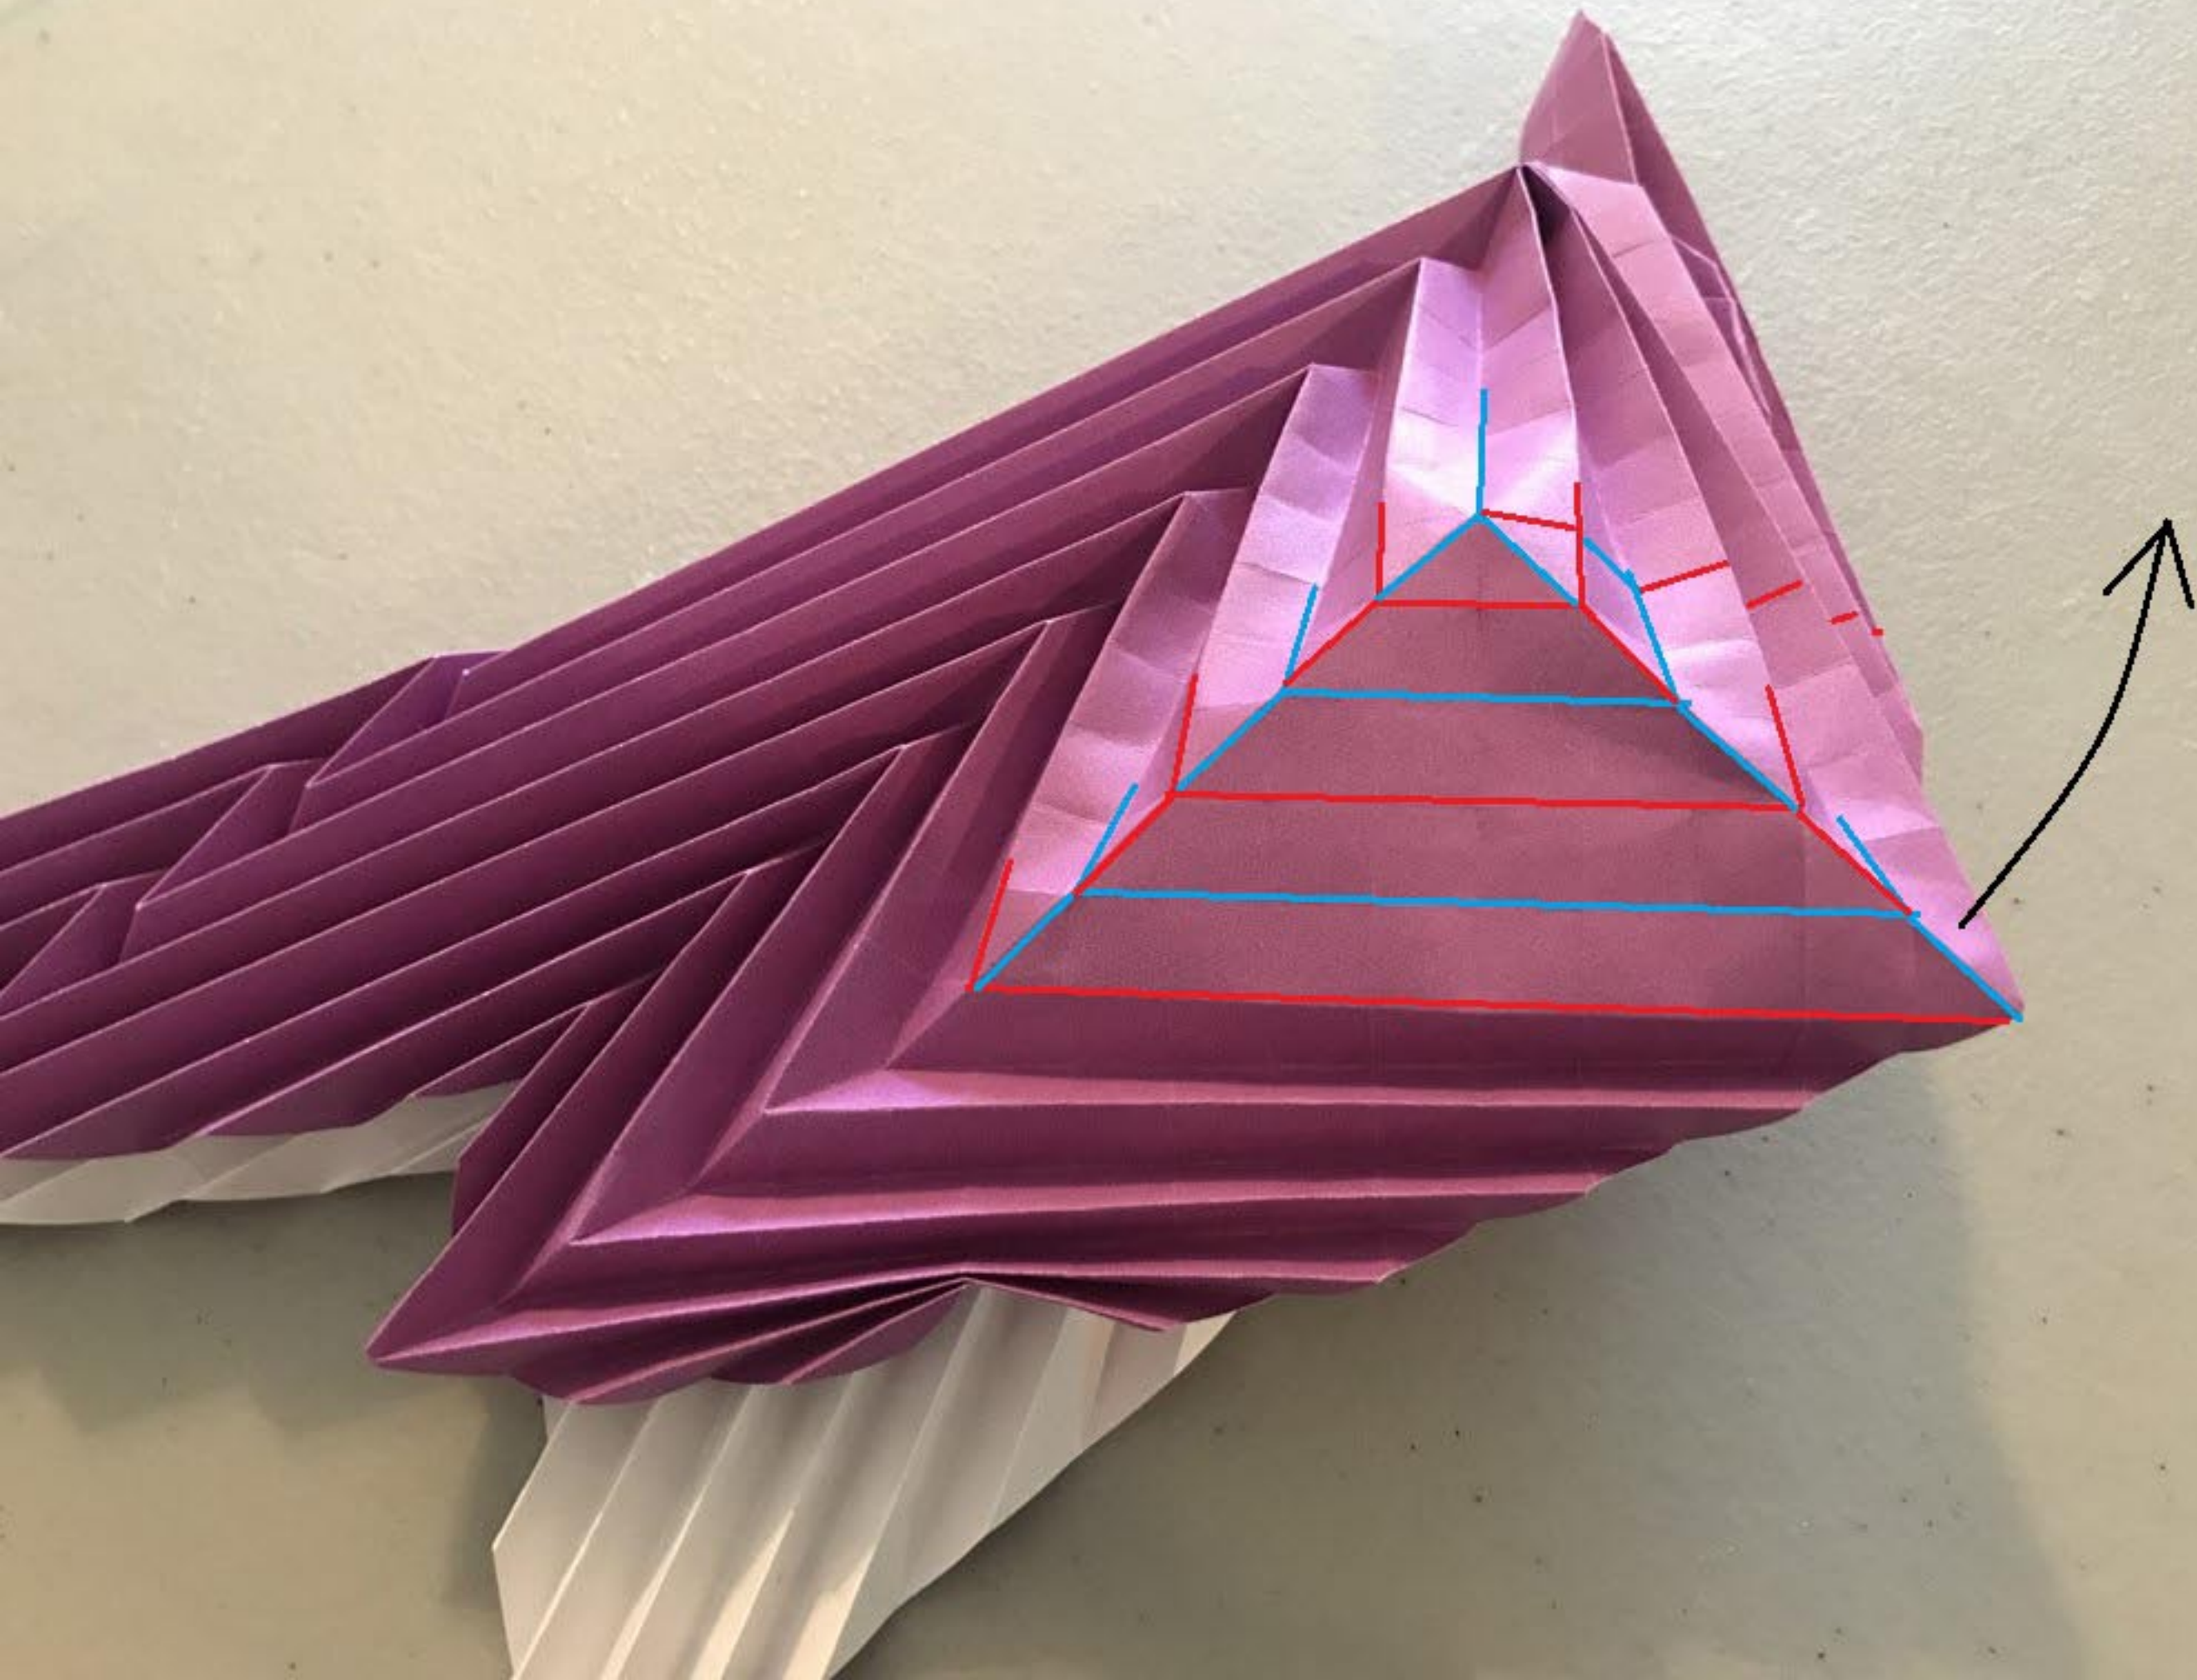

Looking
here next

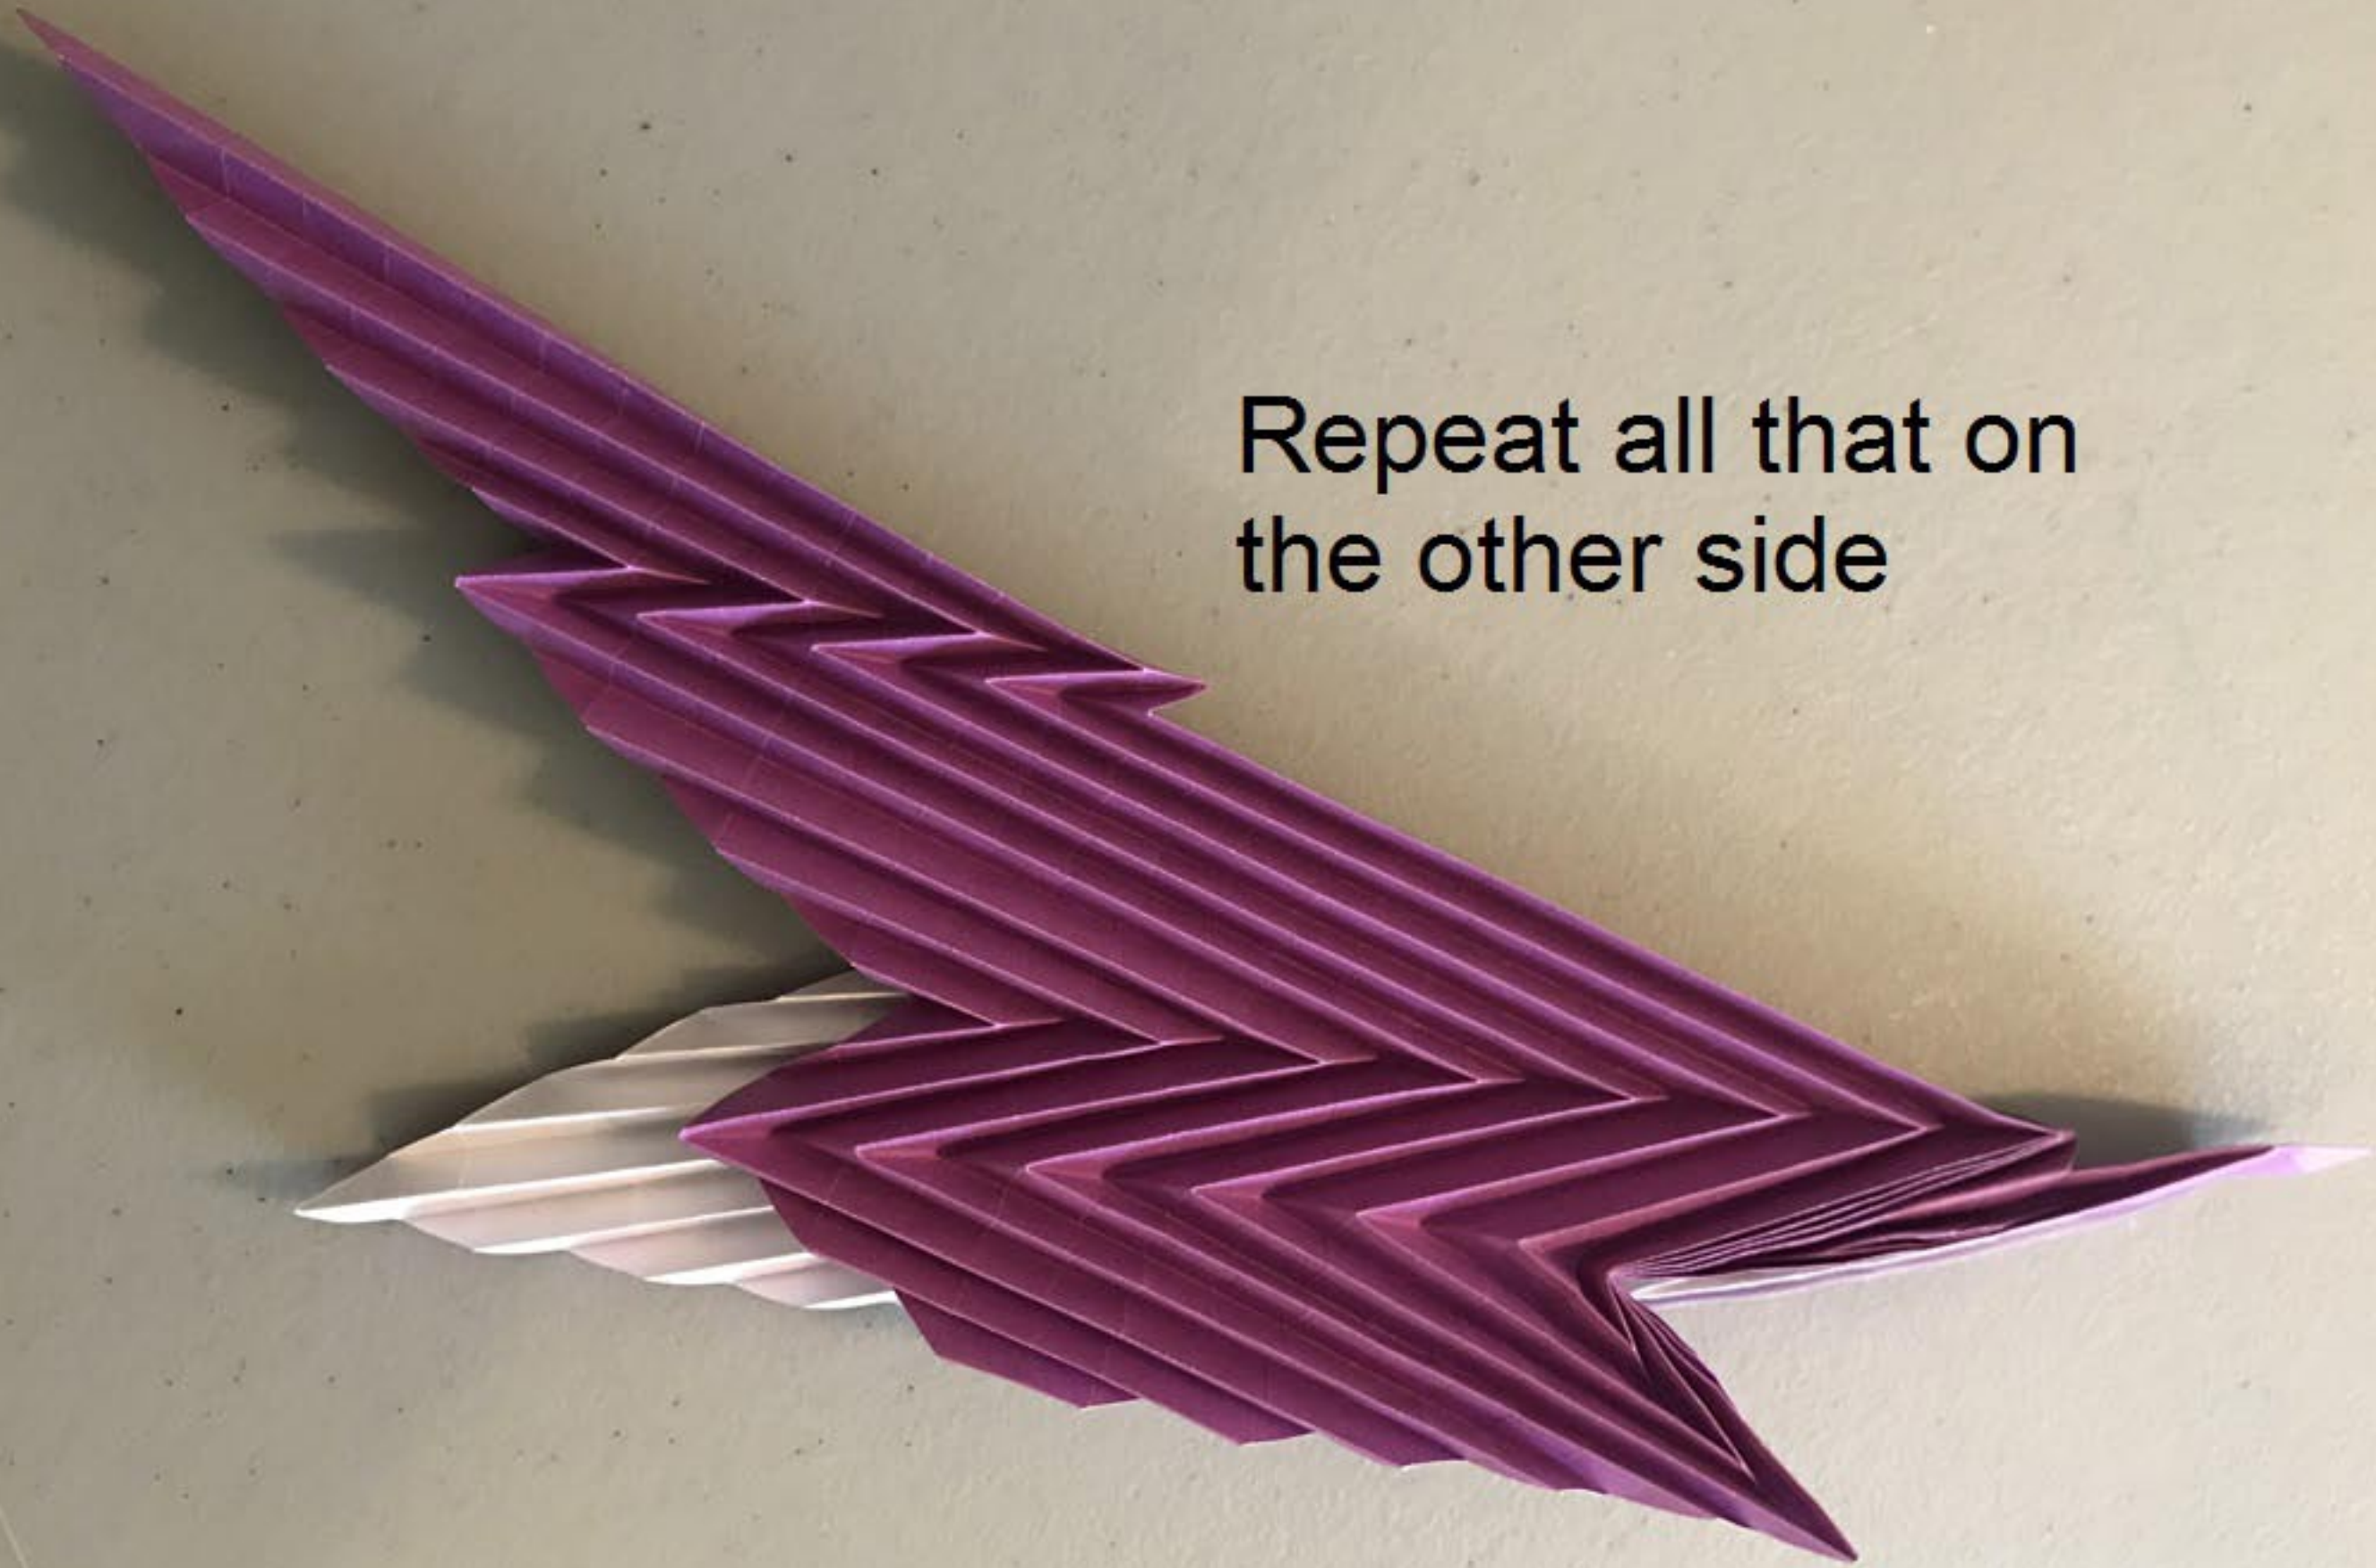

Open this
area up
using
existing
creases

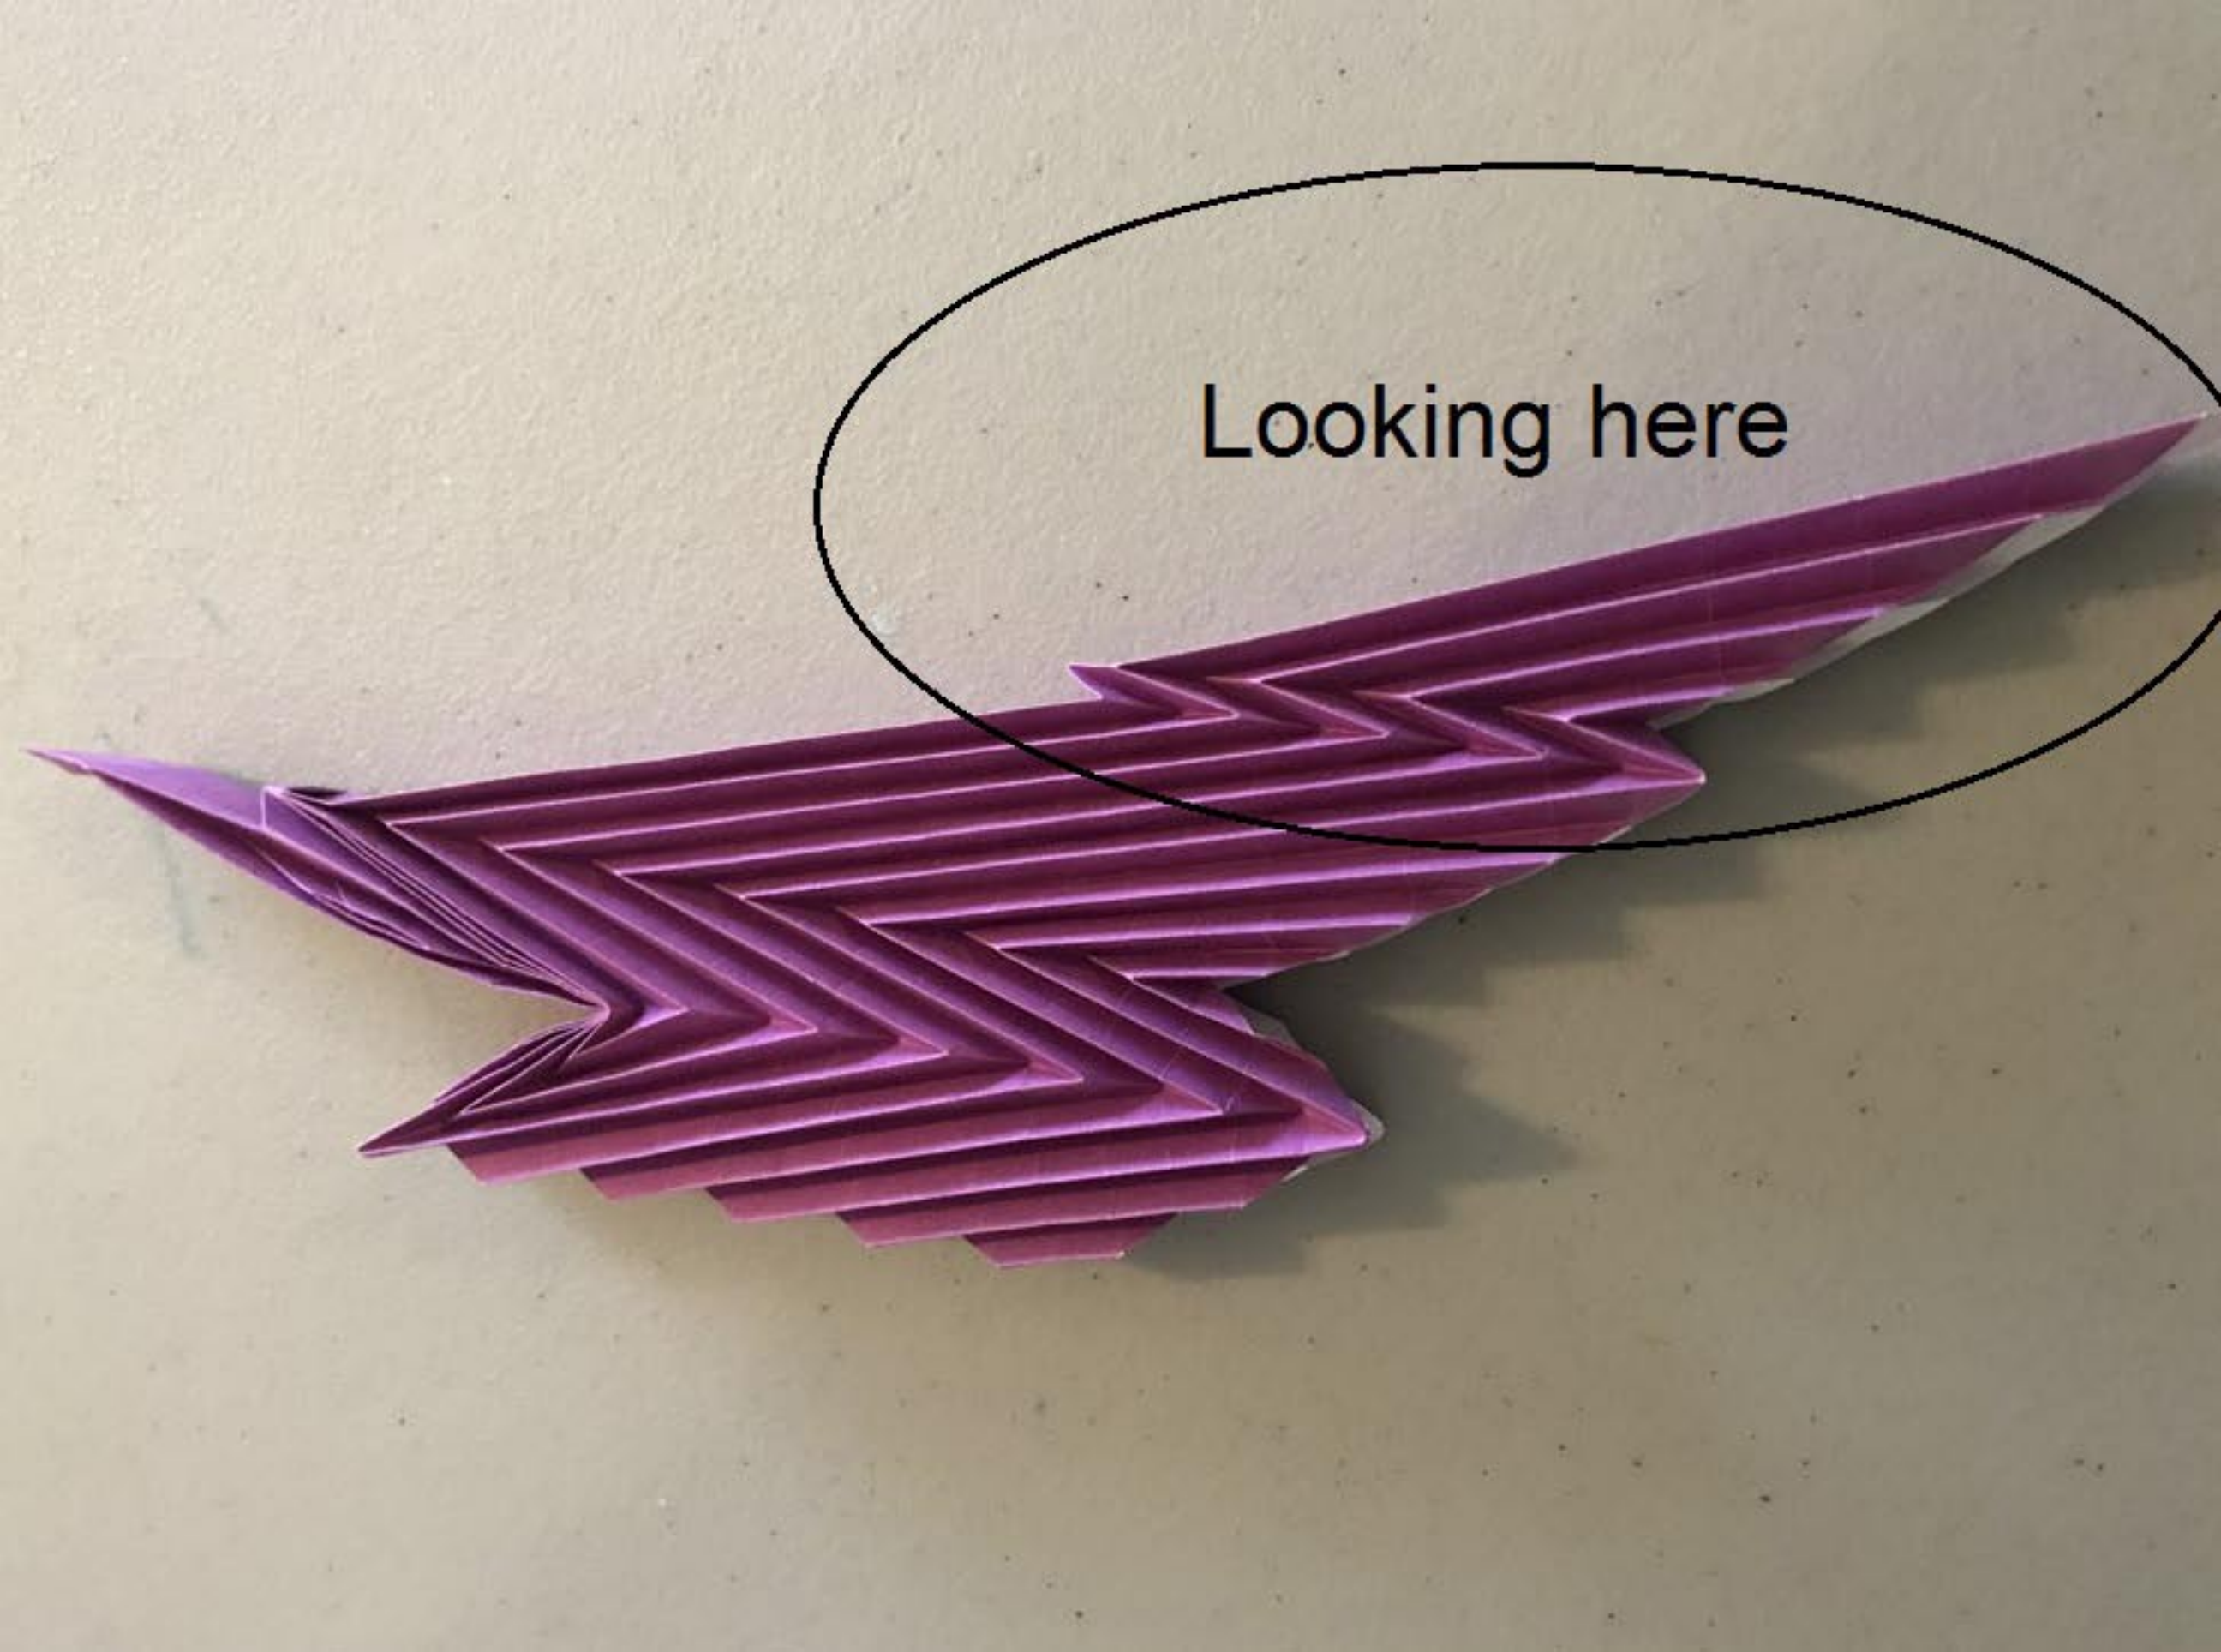

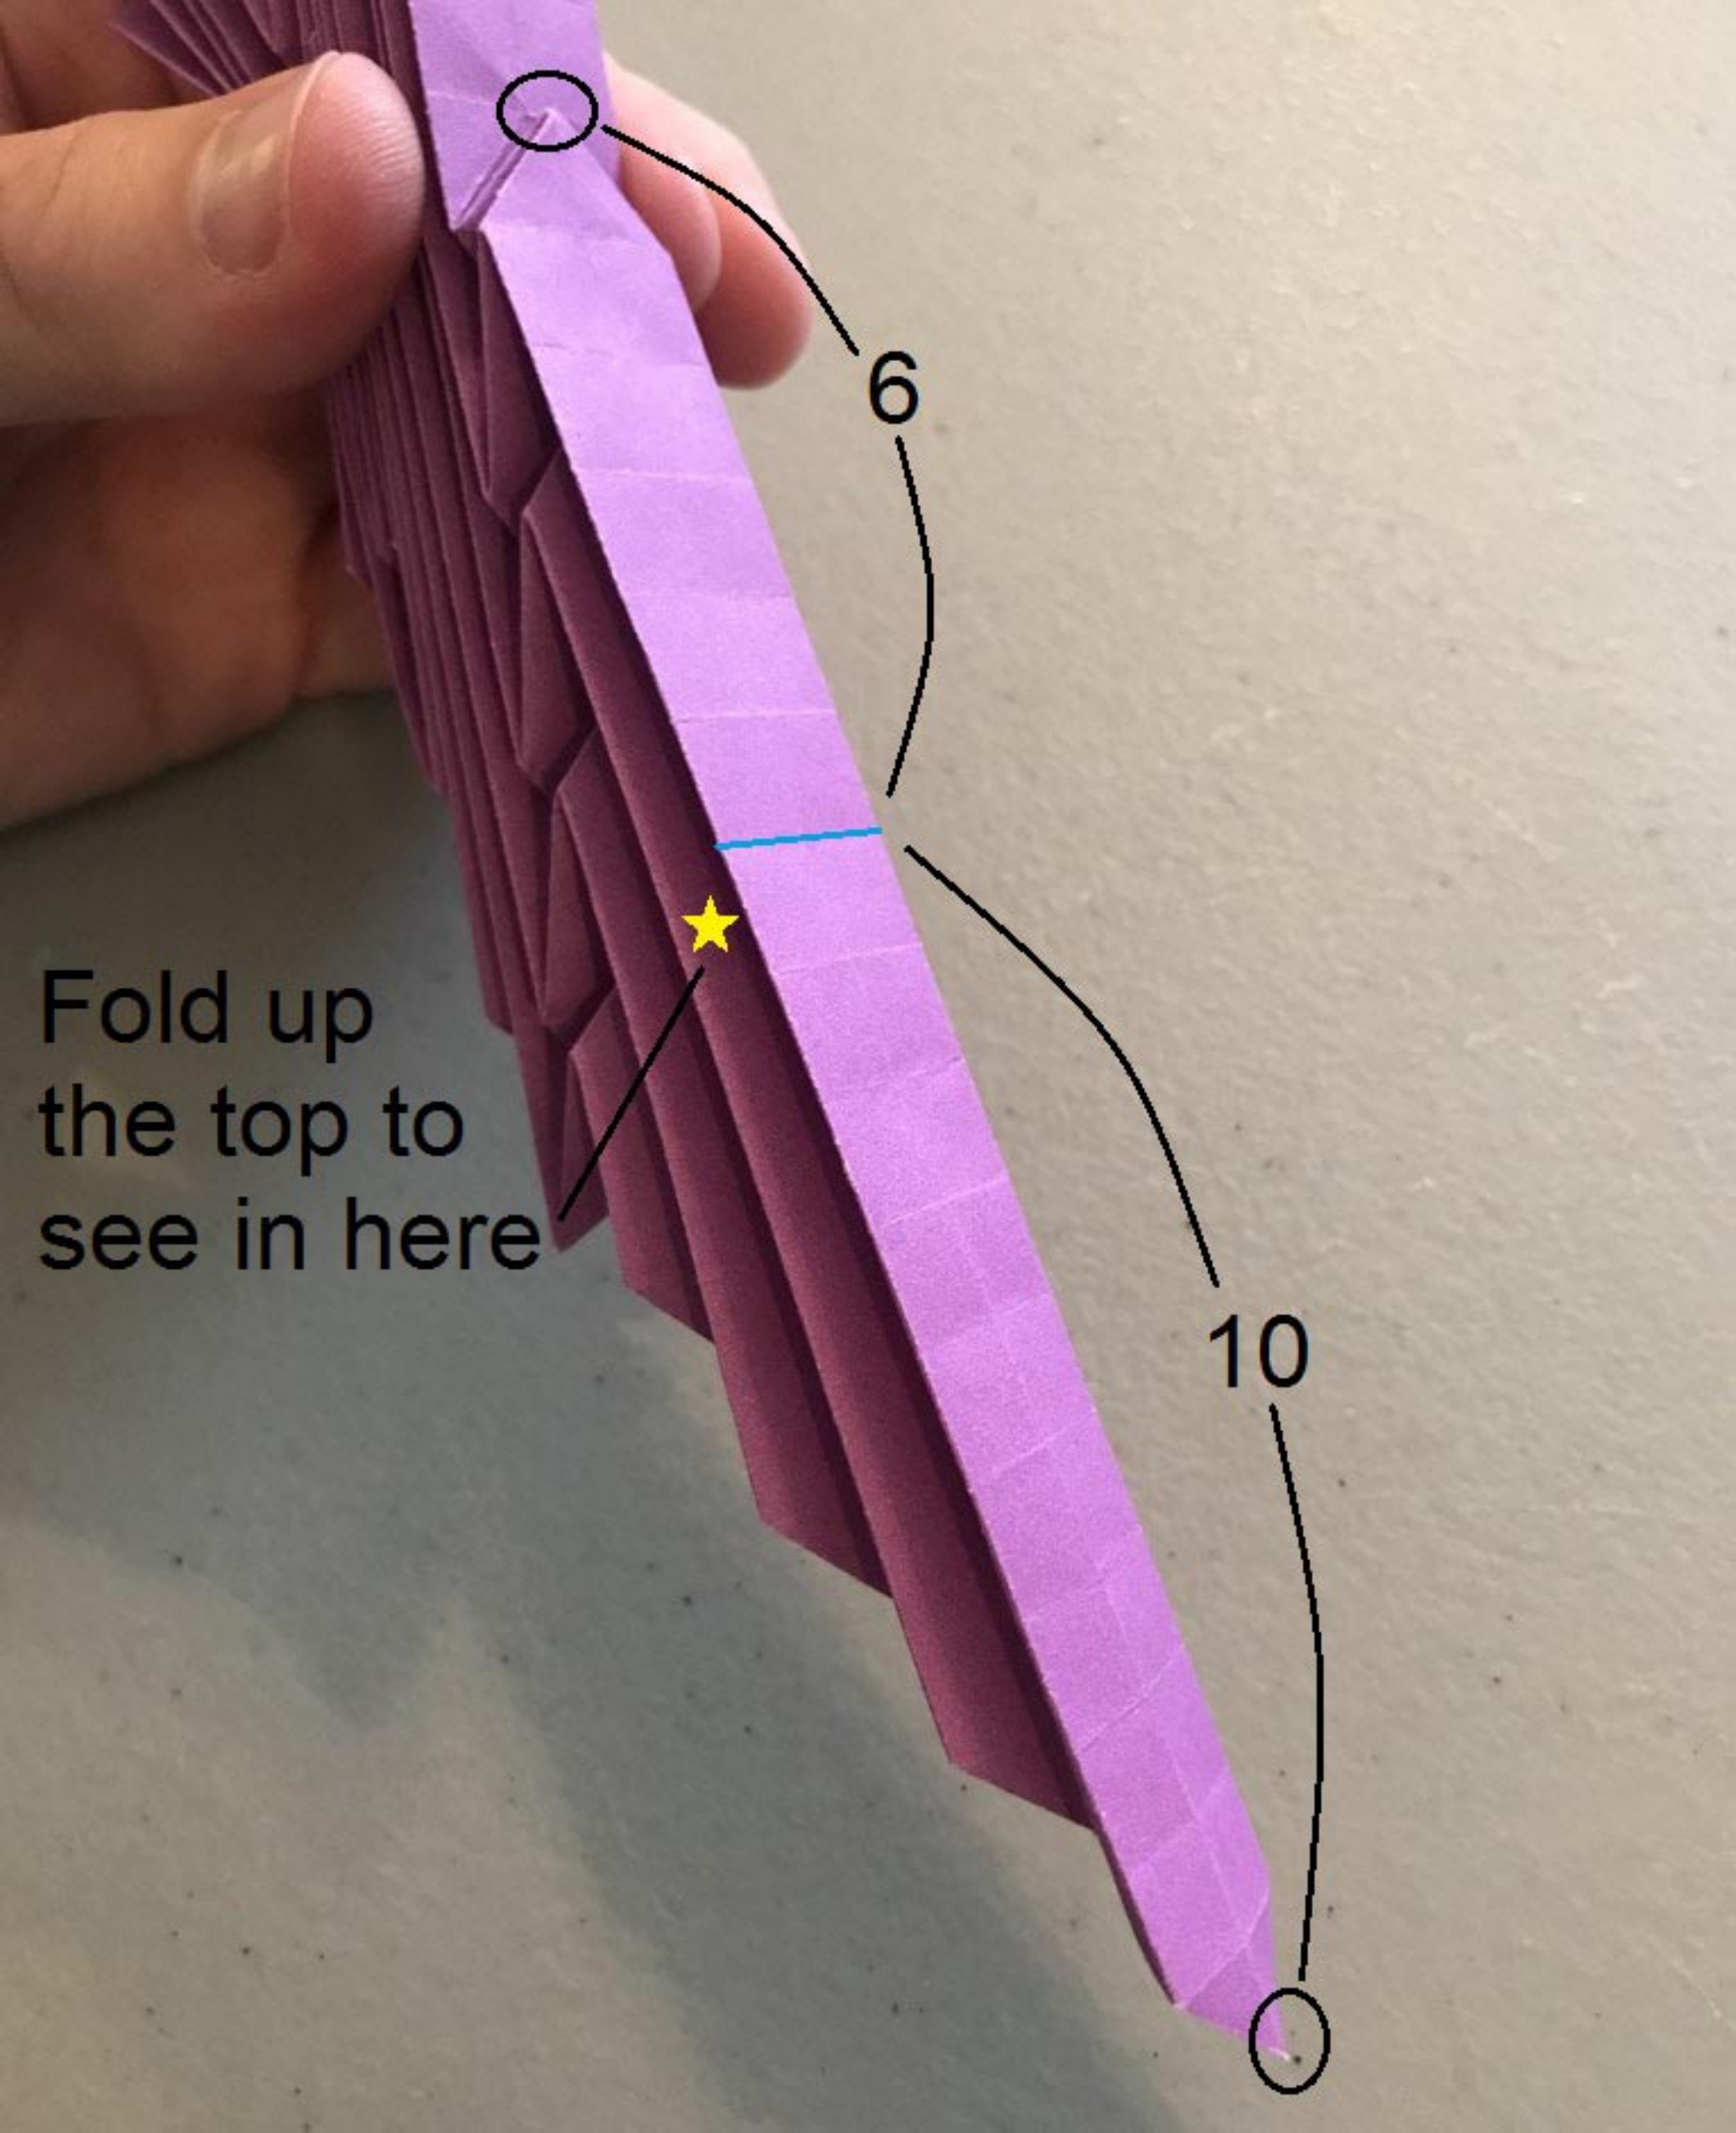

Repeat all that on
the other side

Looking here

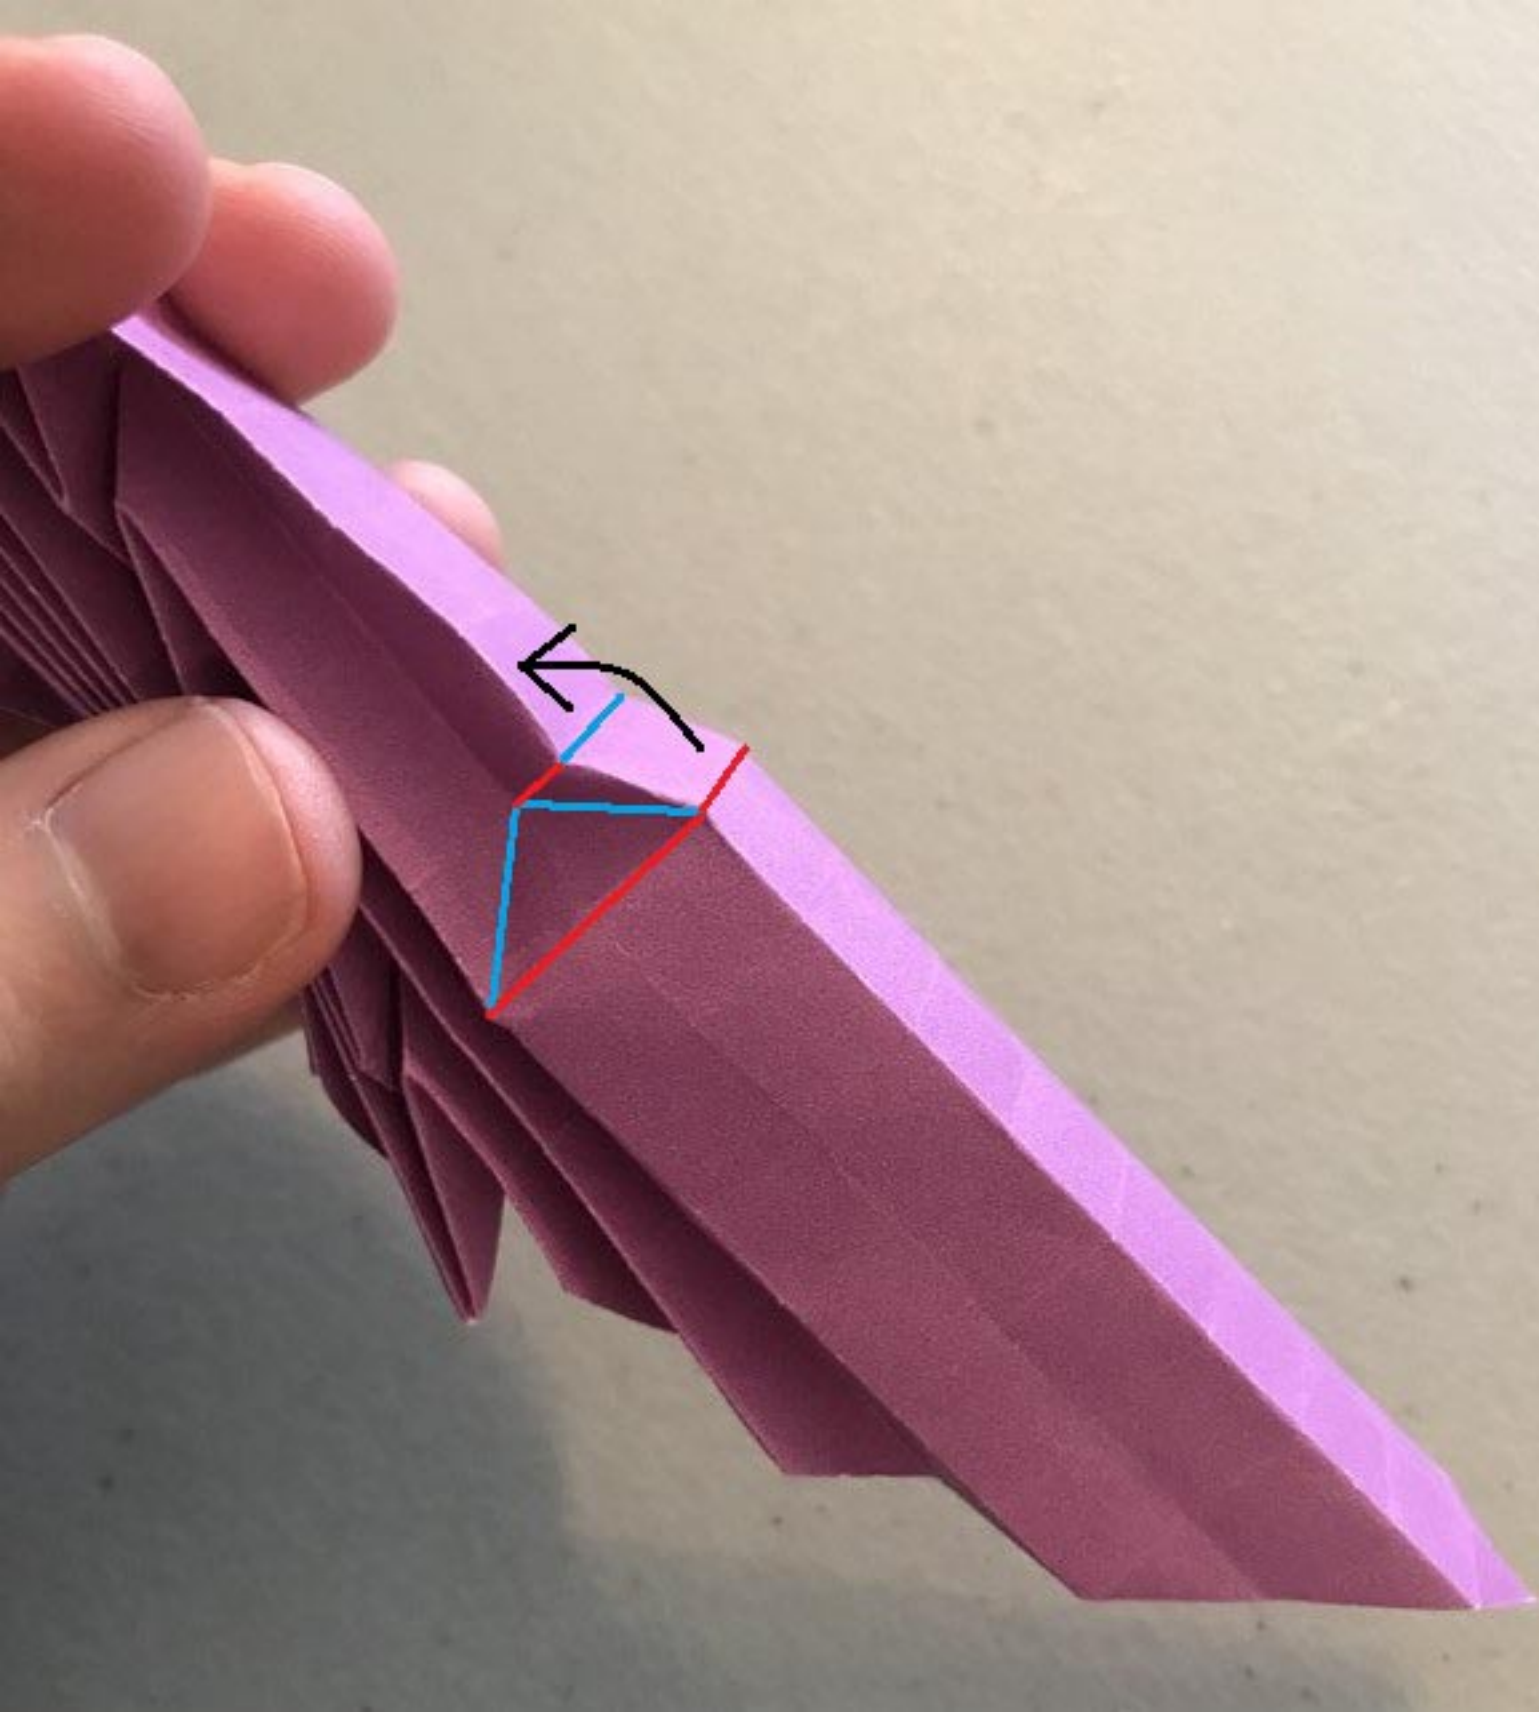

6

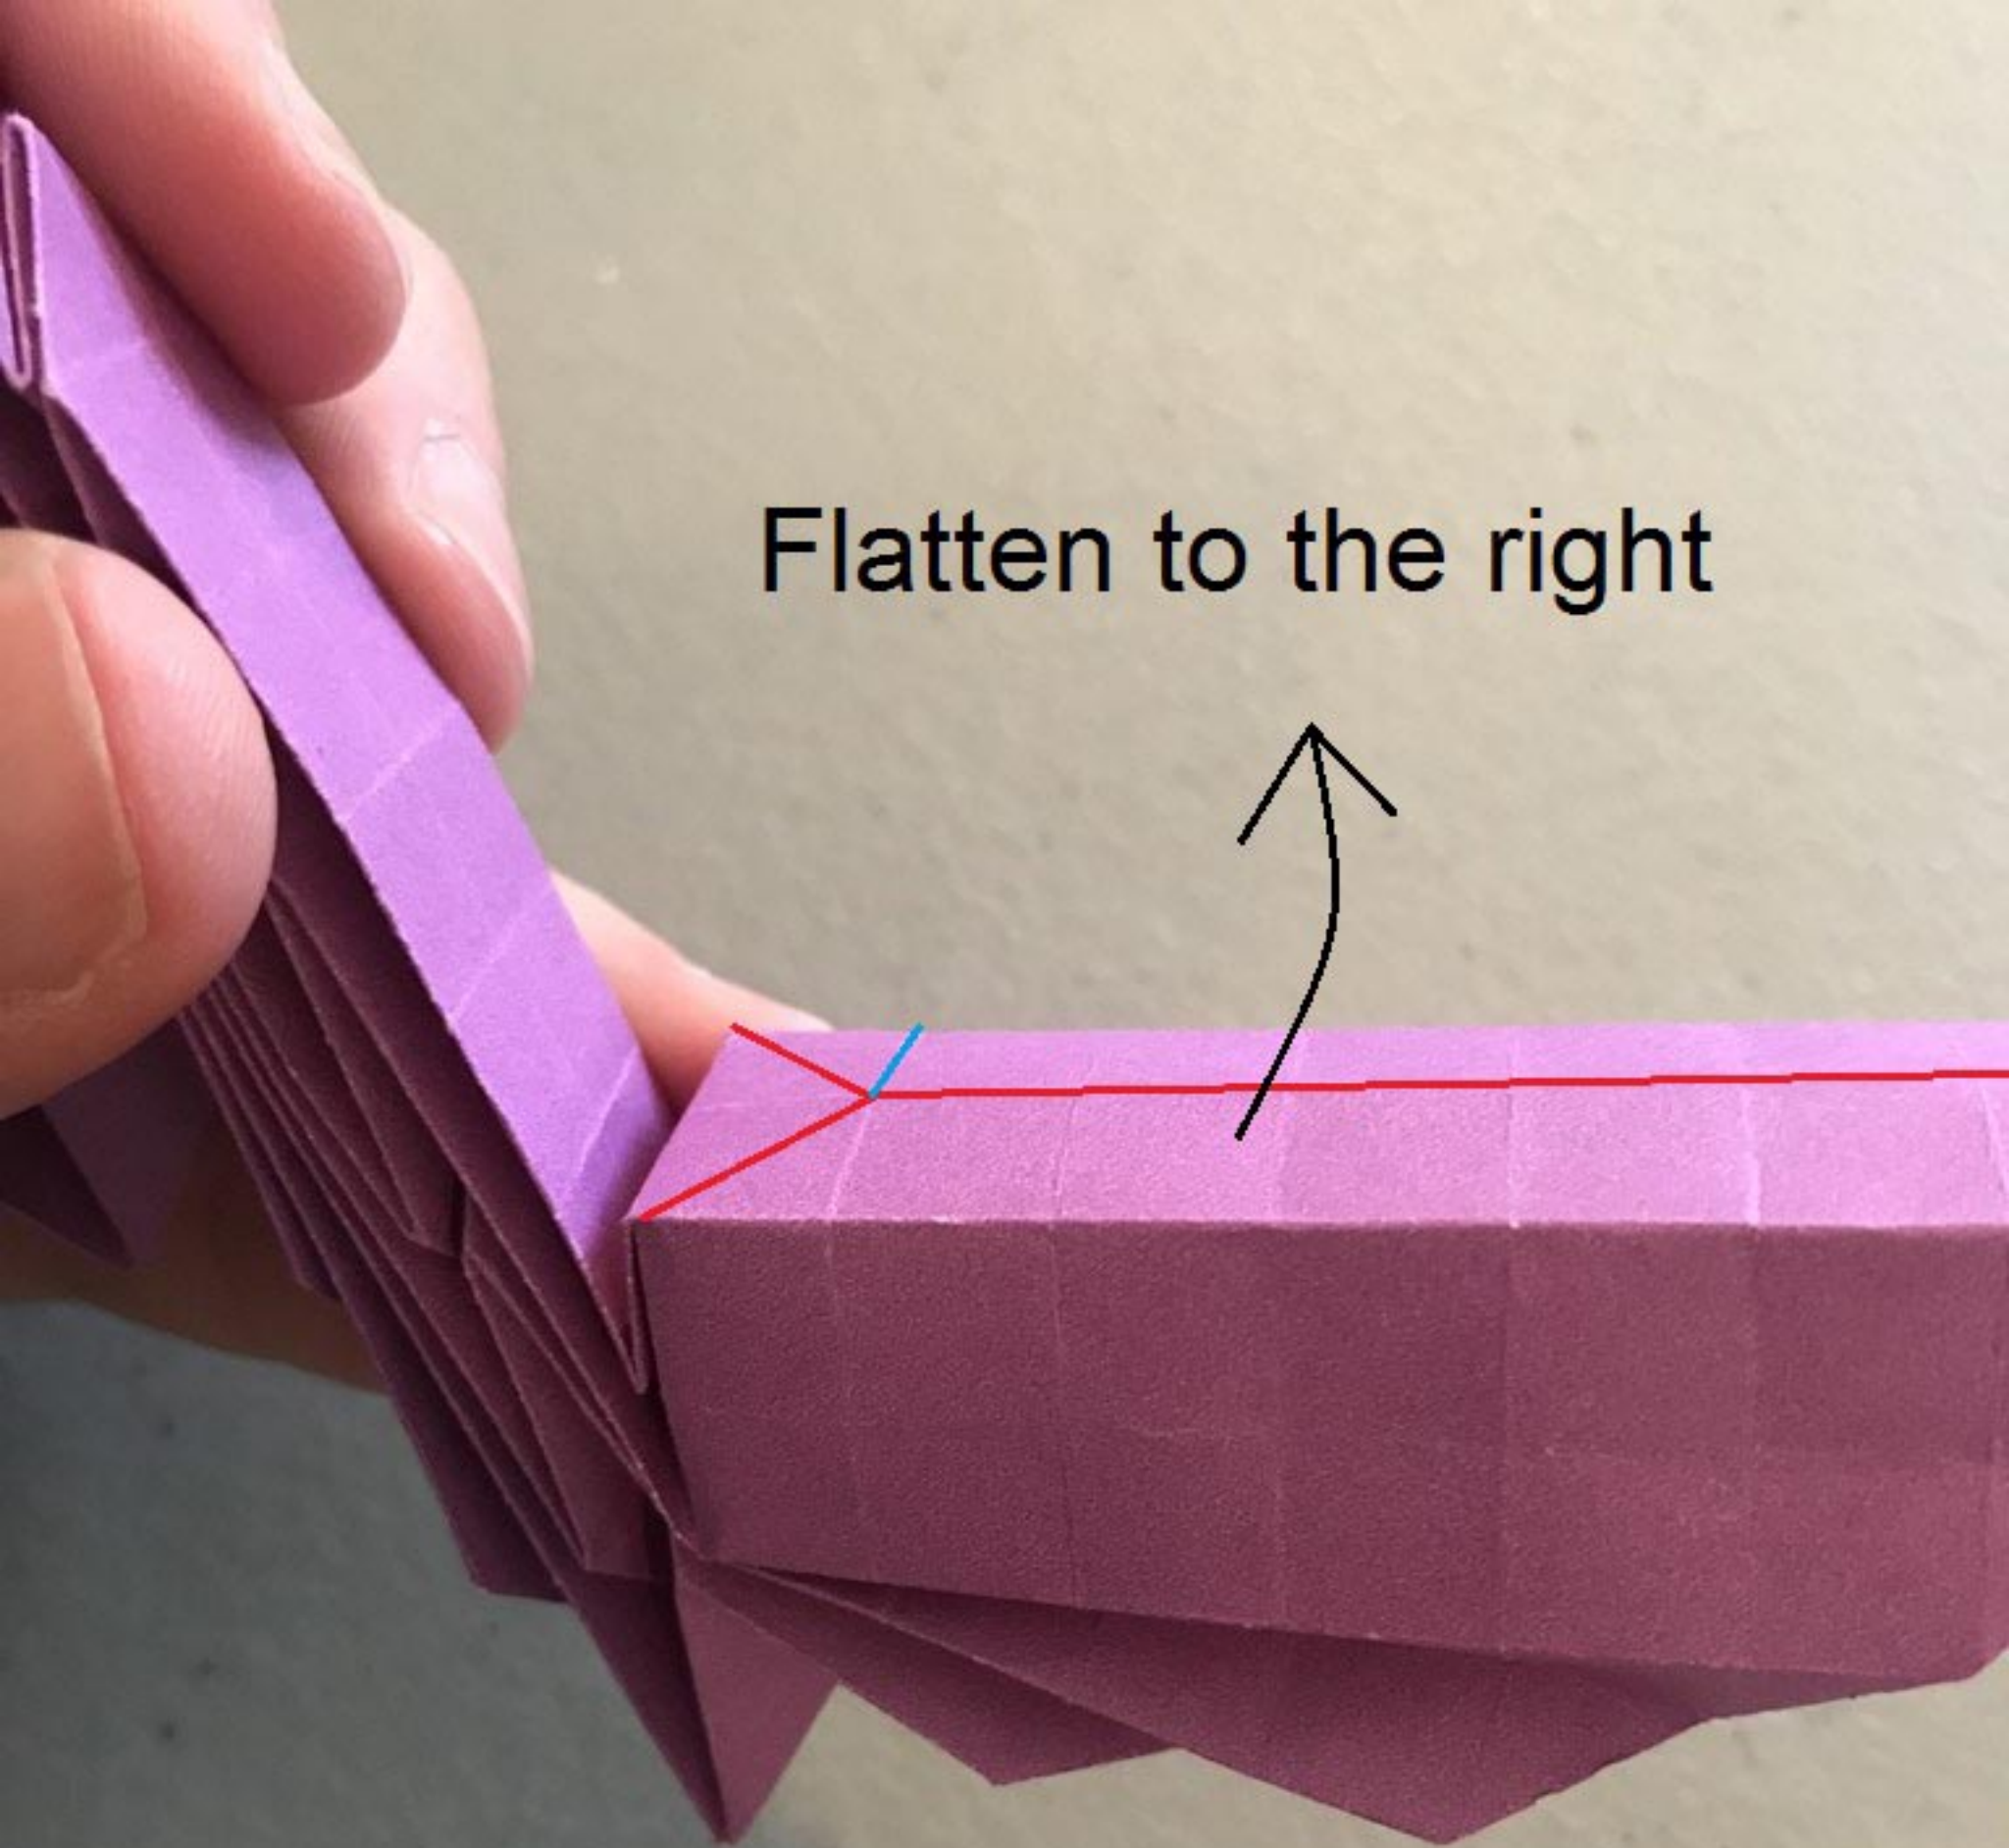

Fold up
the top to
see in here

10

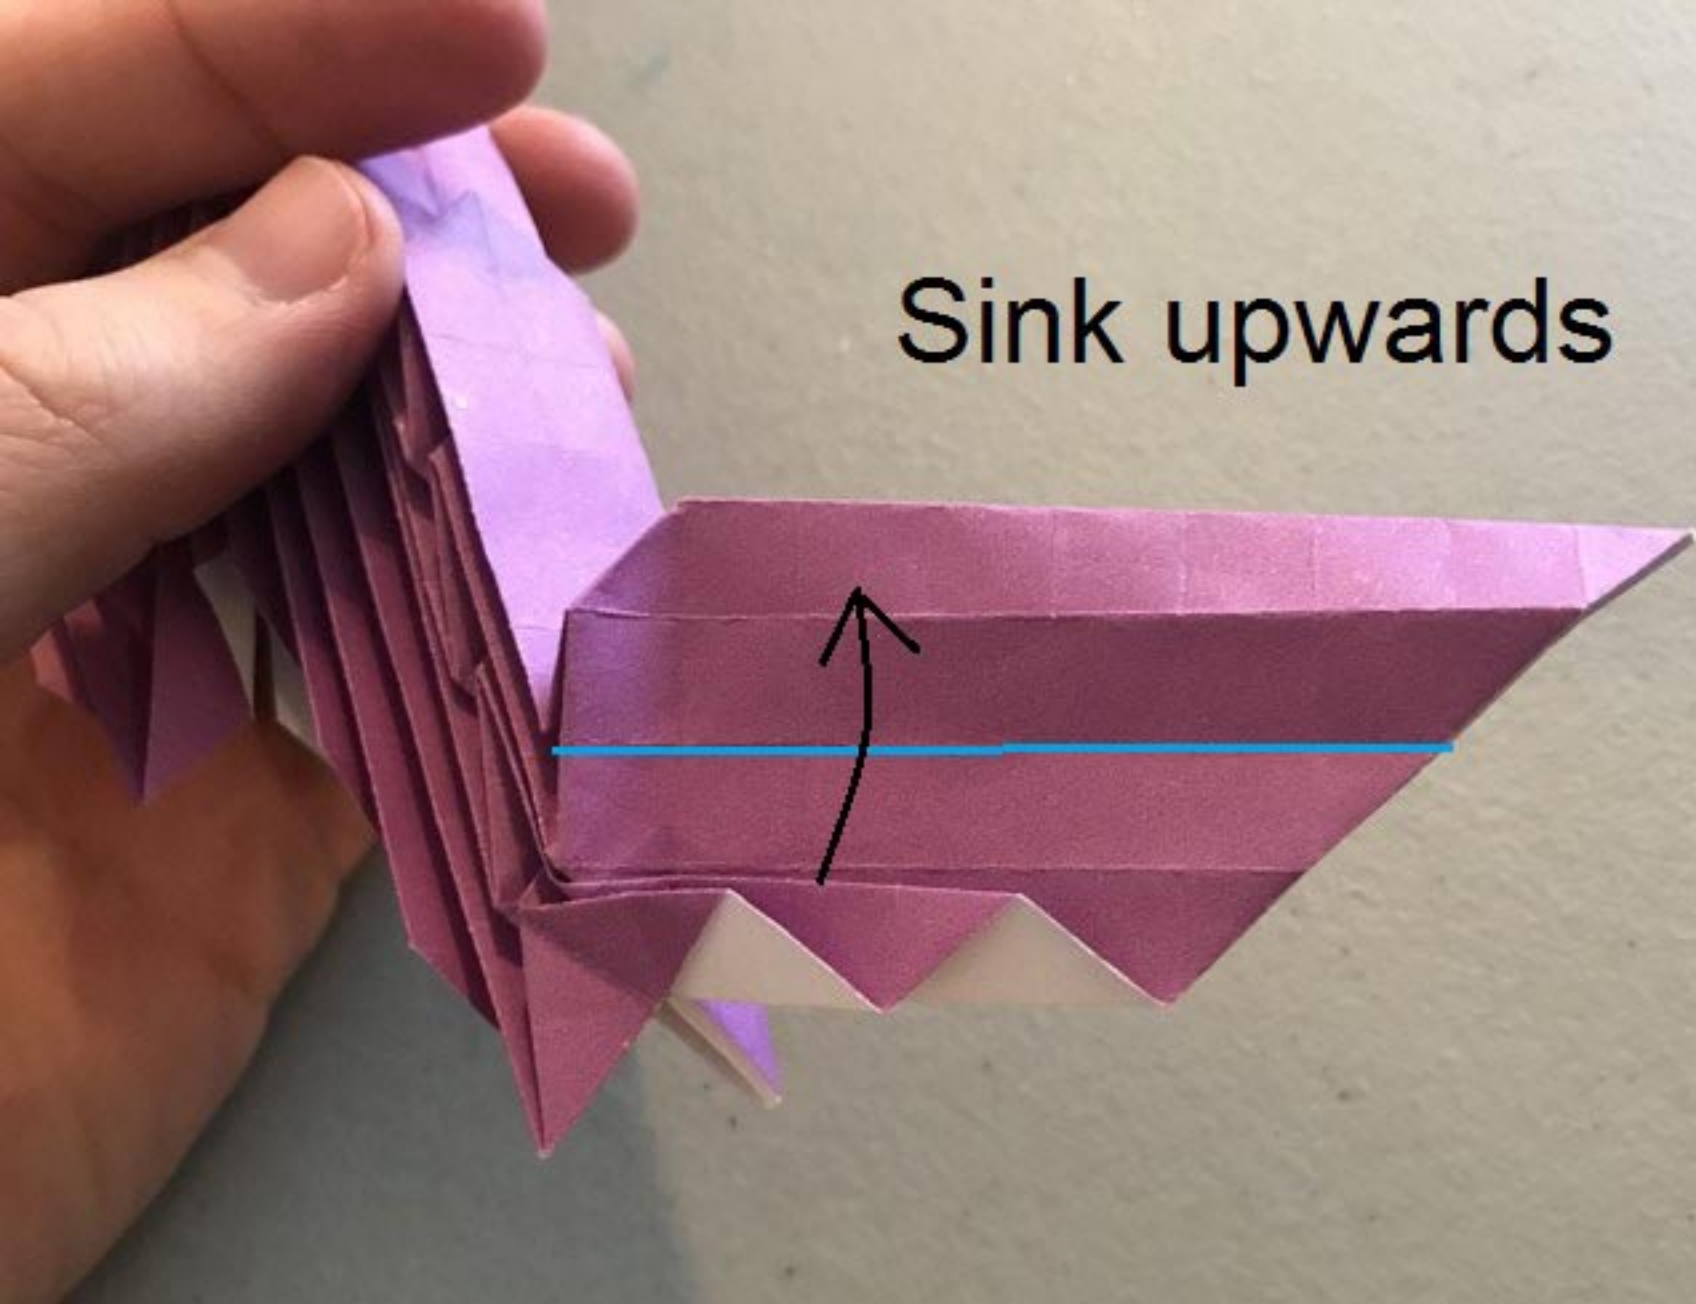

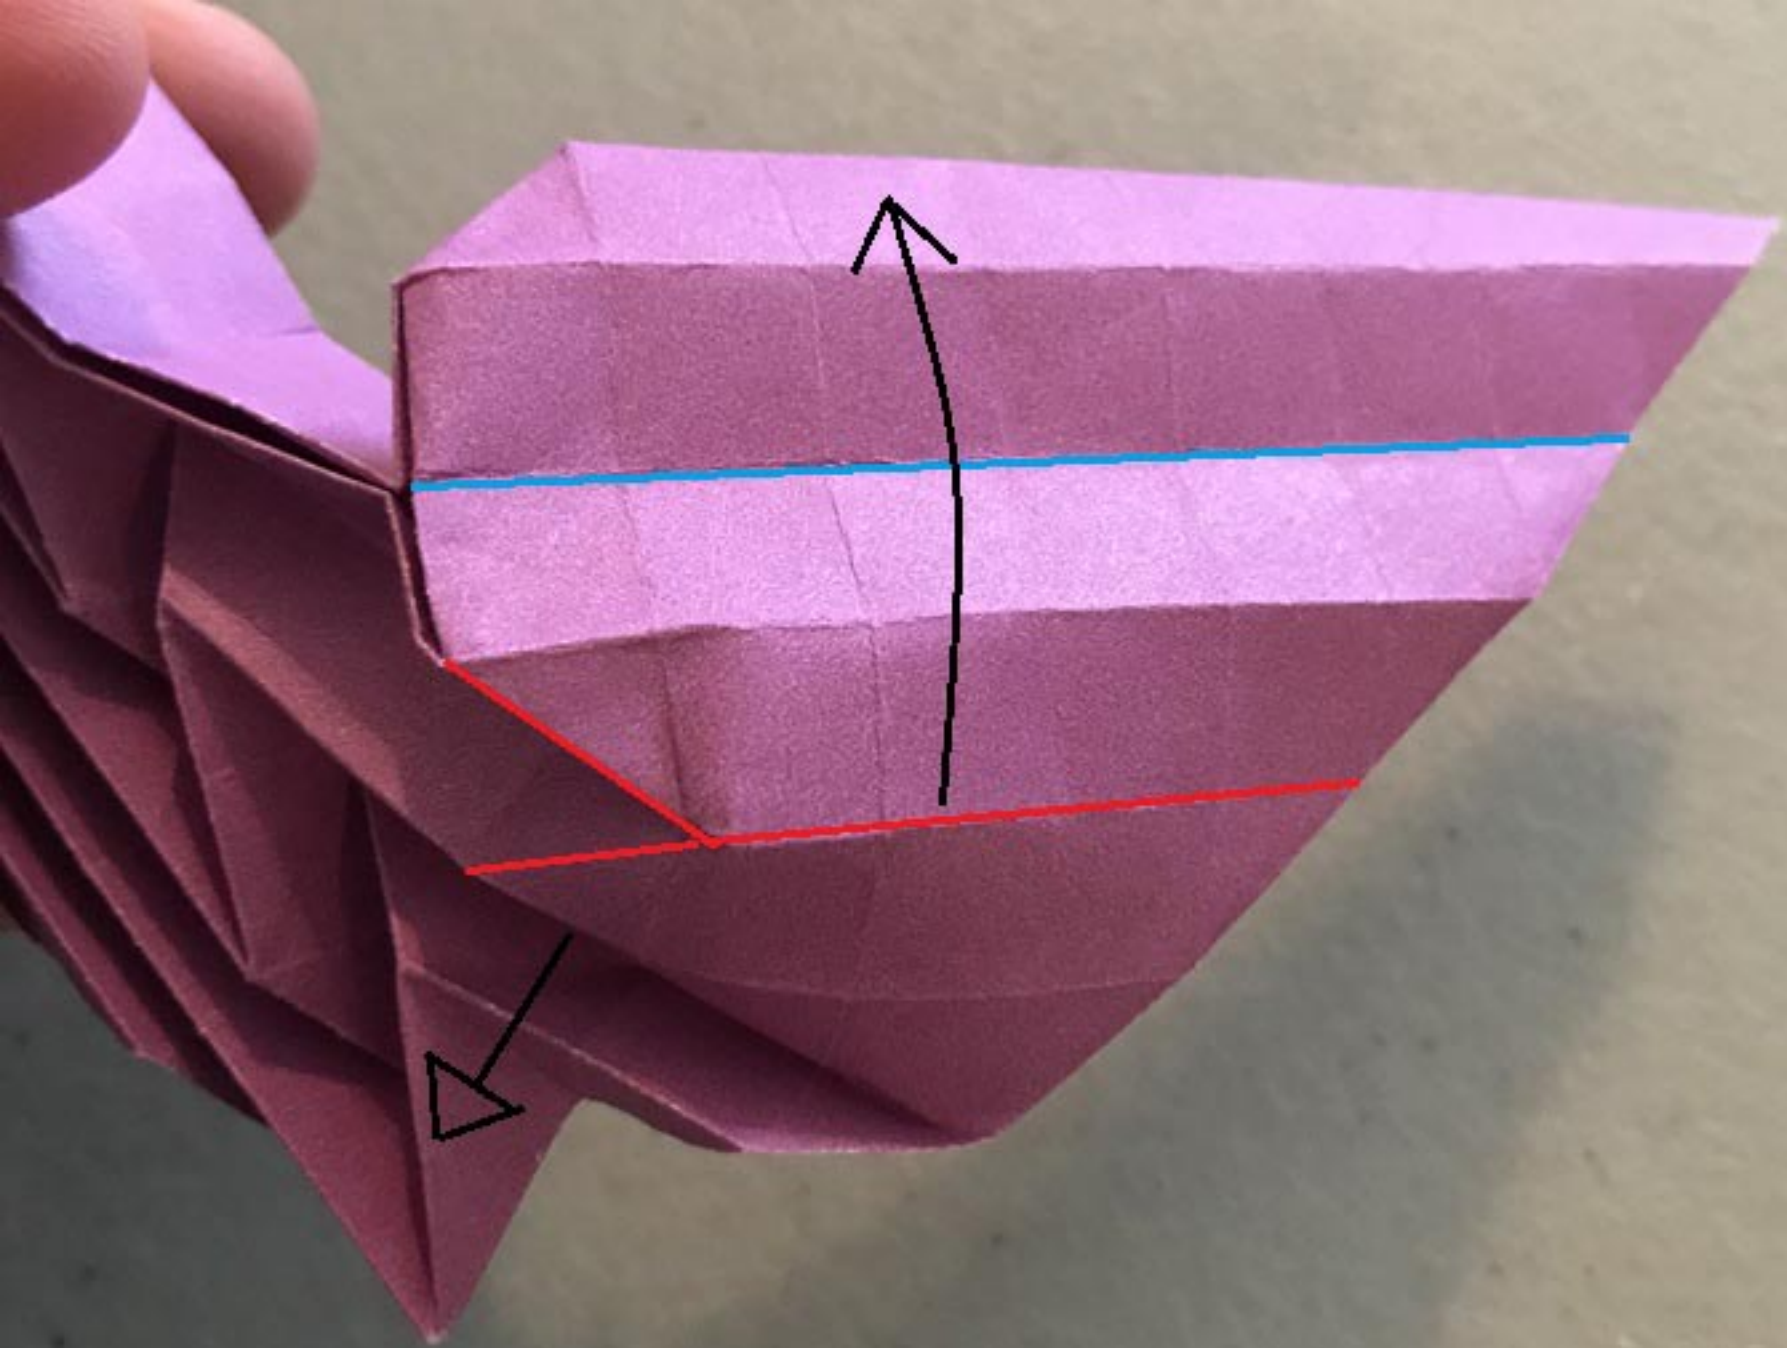

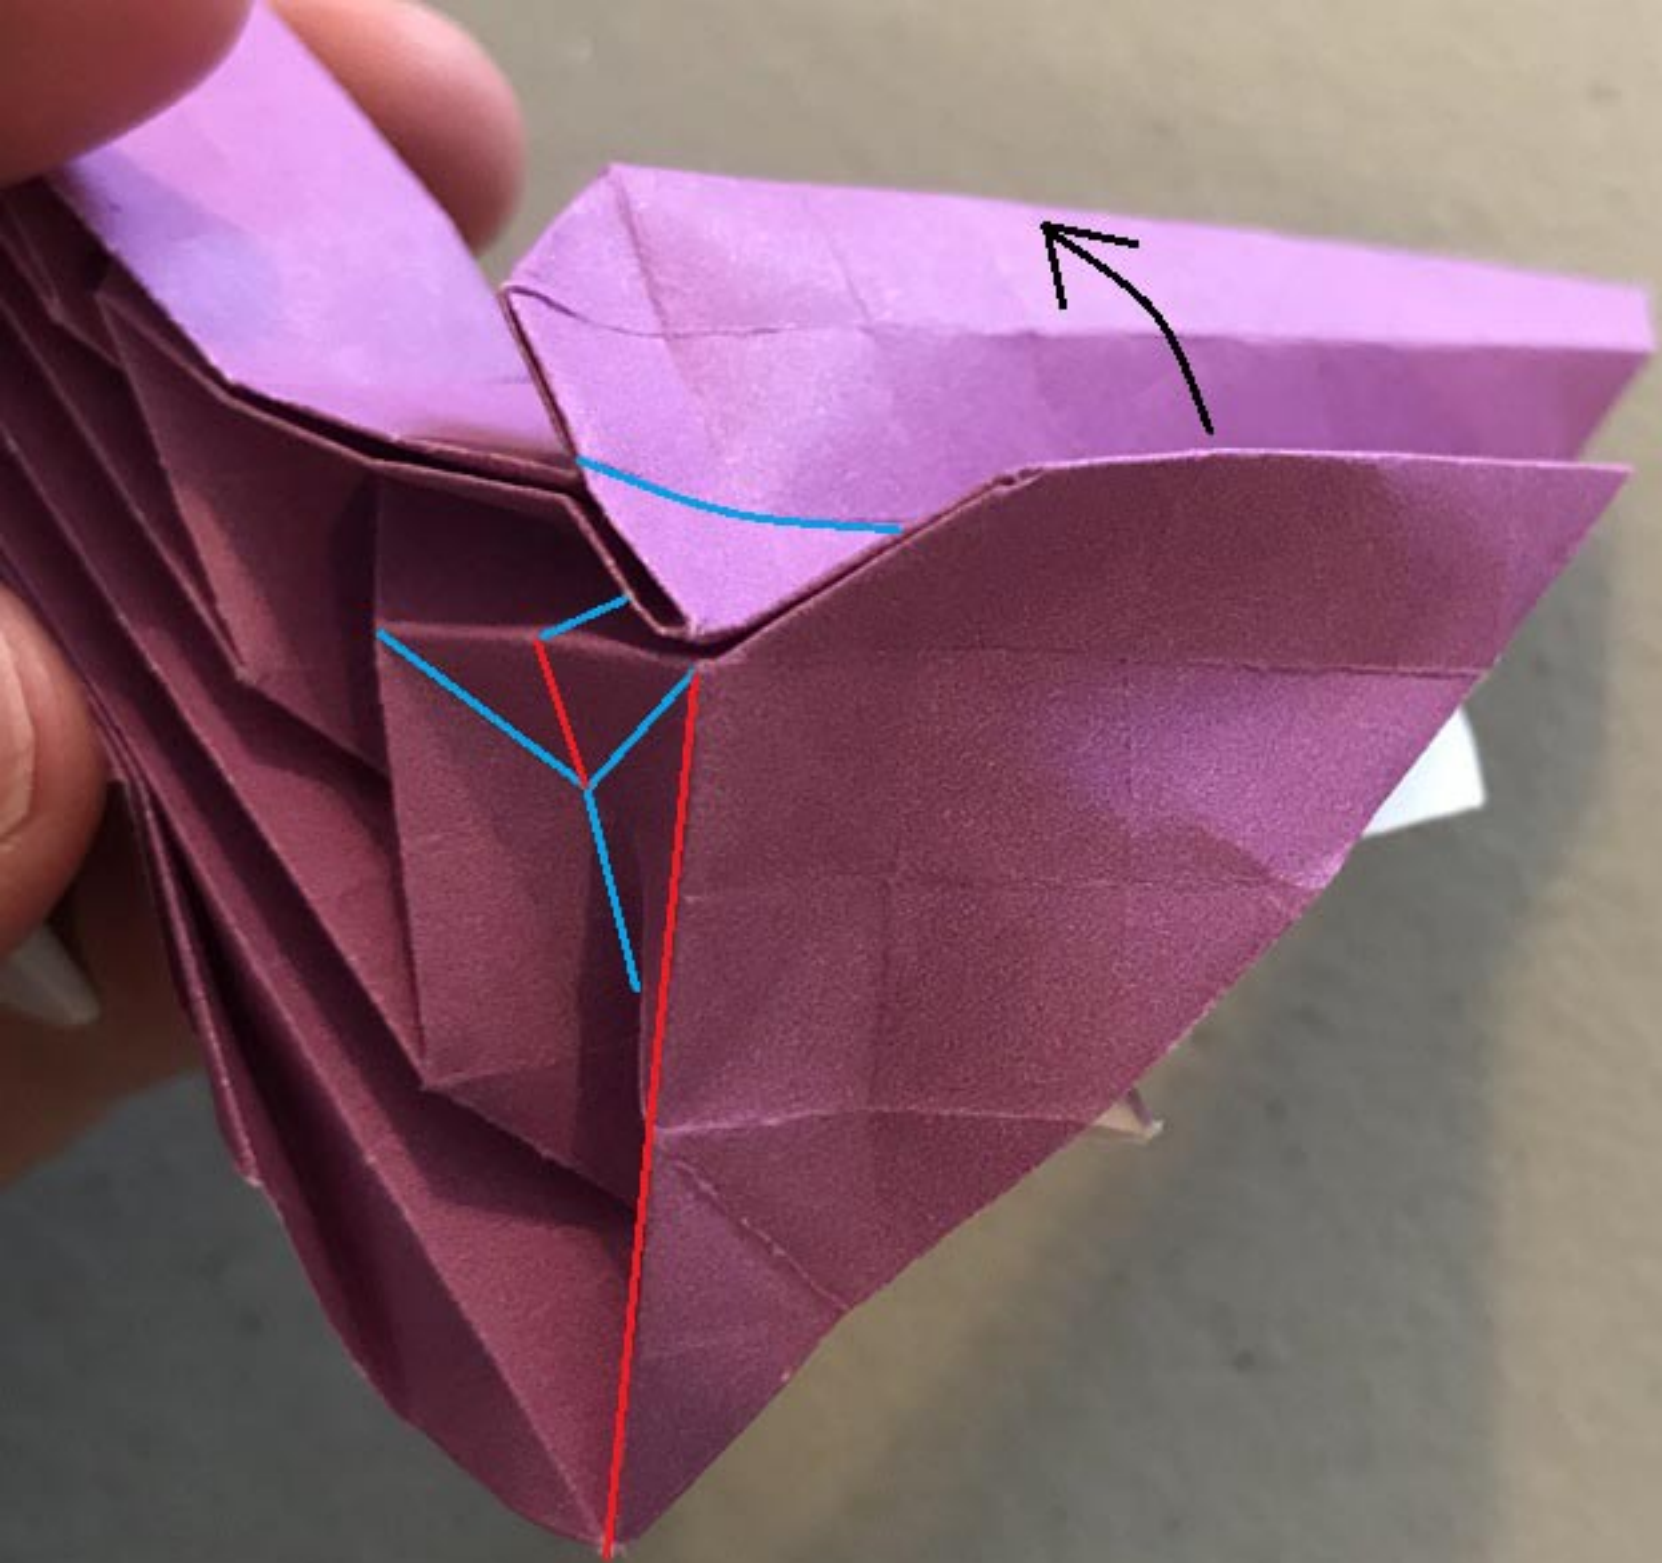

Flatten to the right

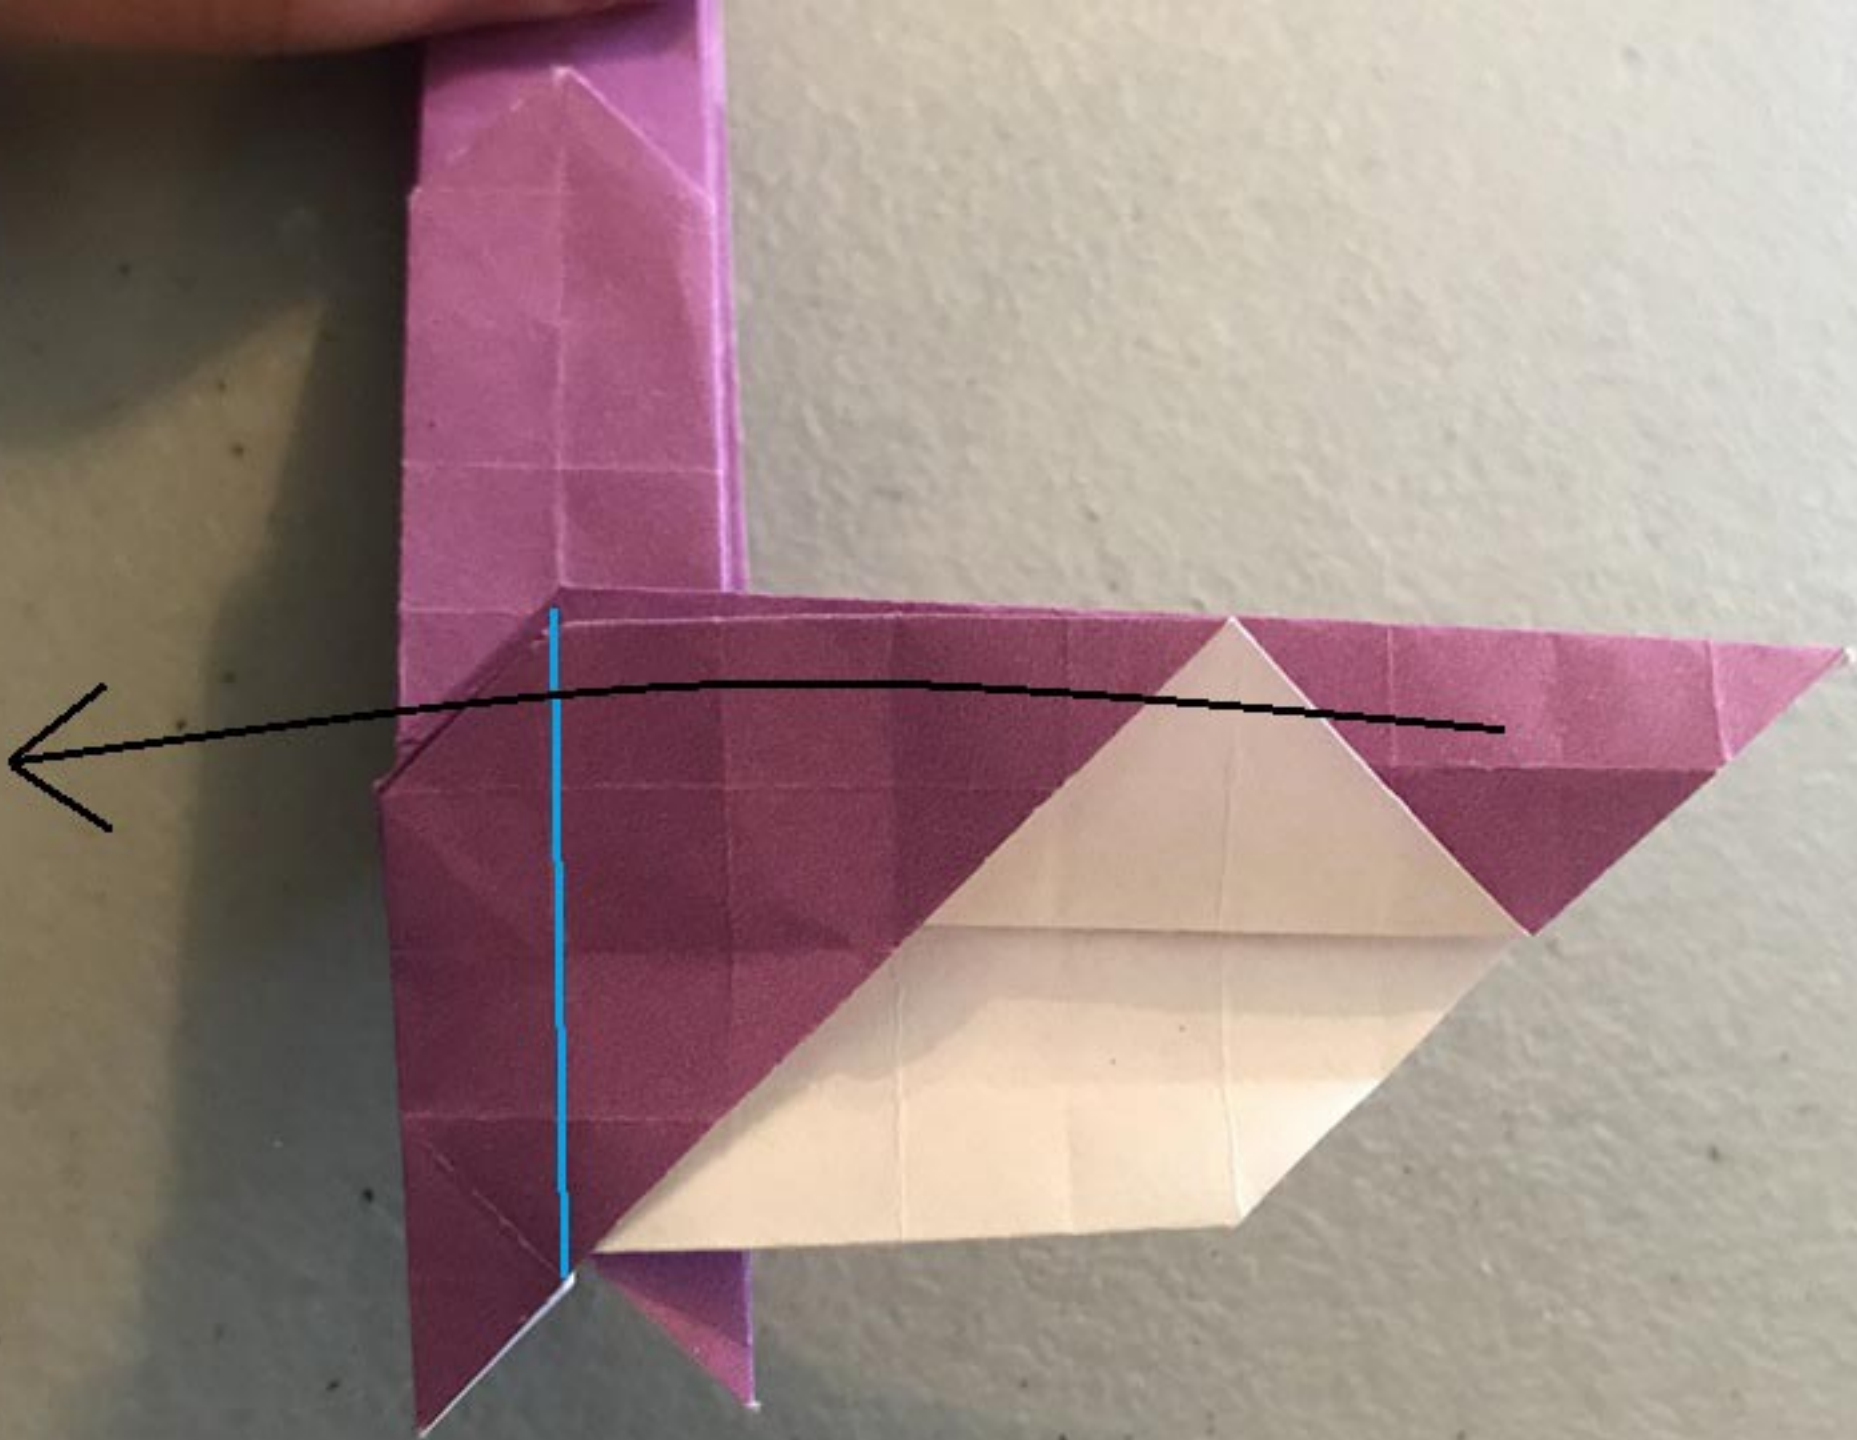

Sink upwards

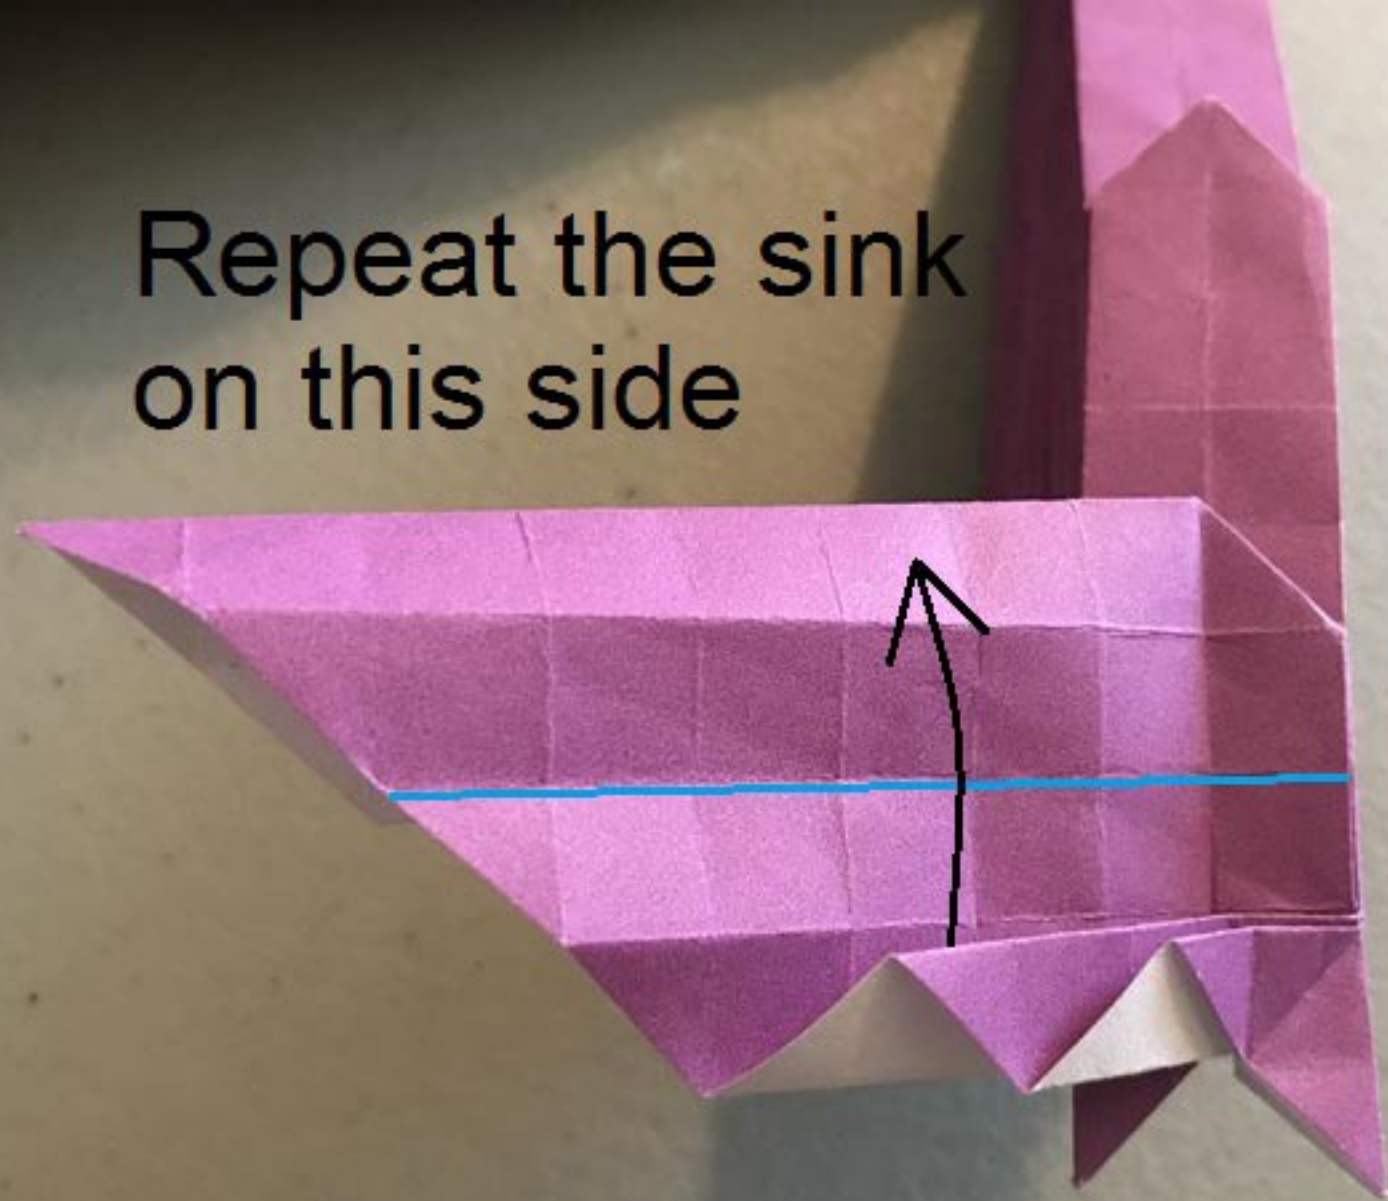

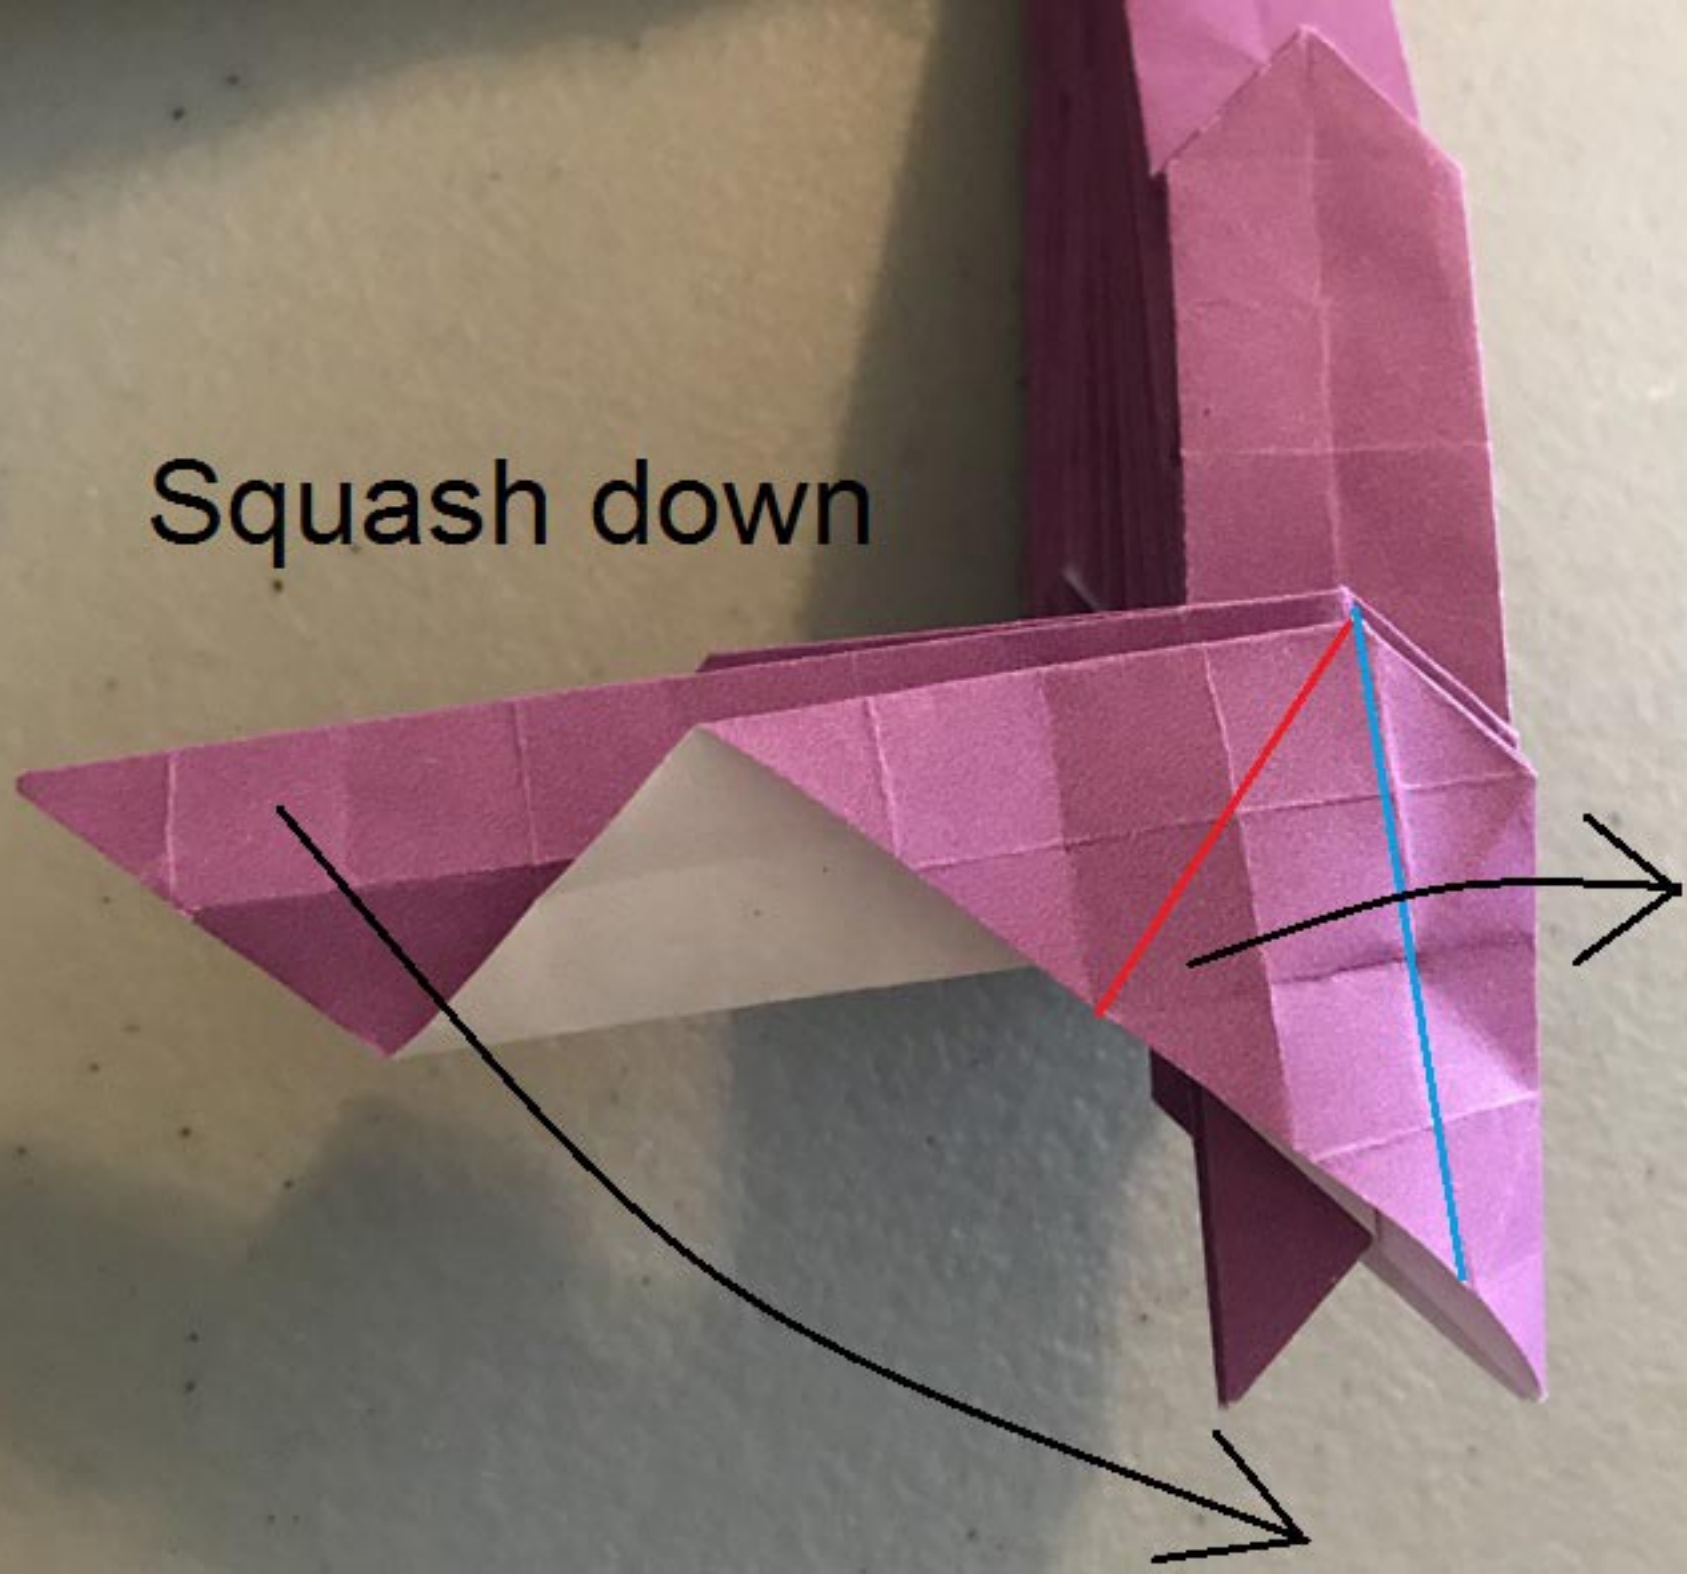

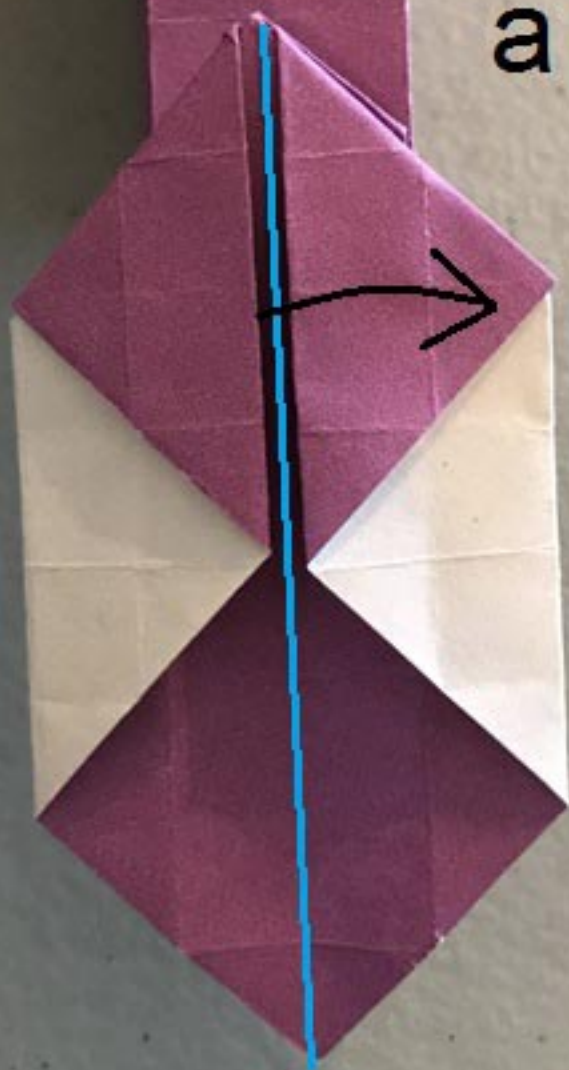

Repeat the sink
on this side

Squash down

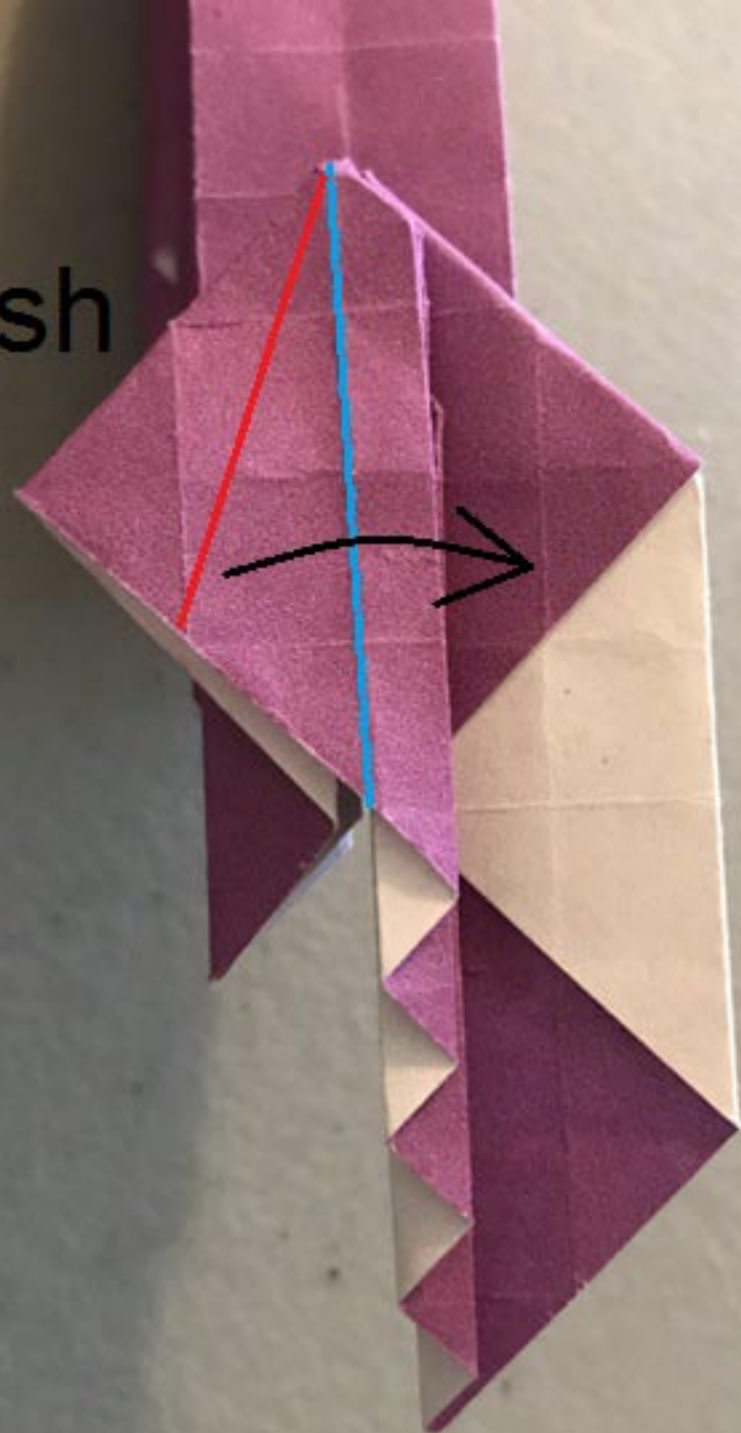

Sink out
a layer

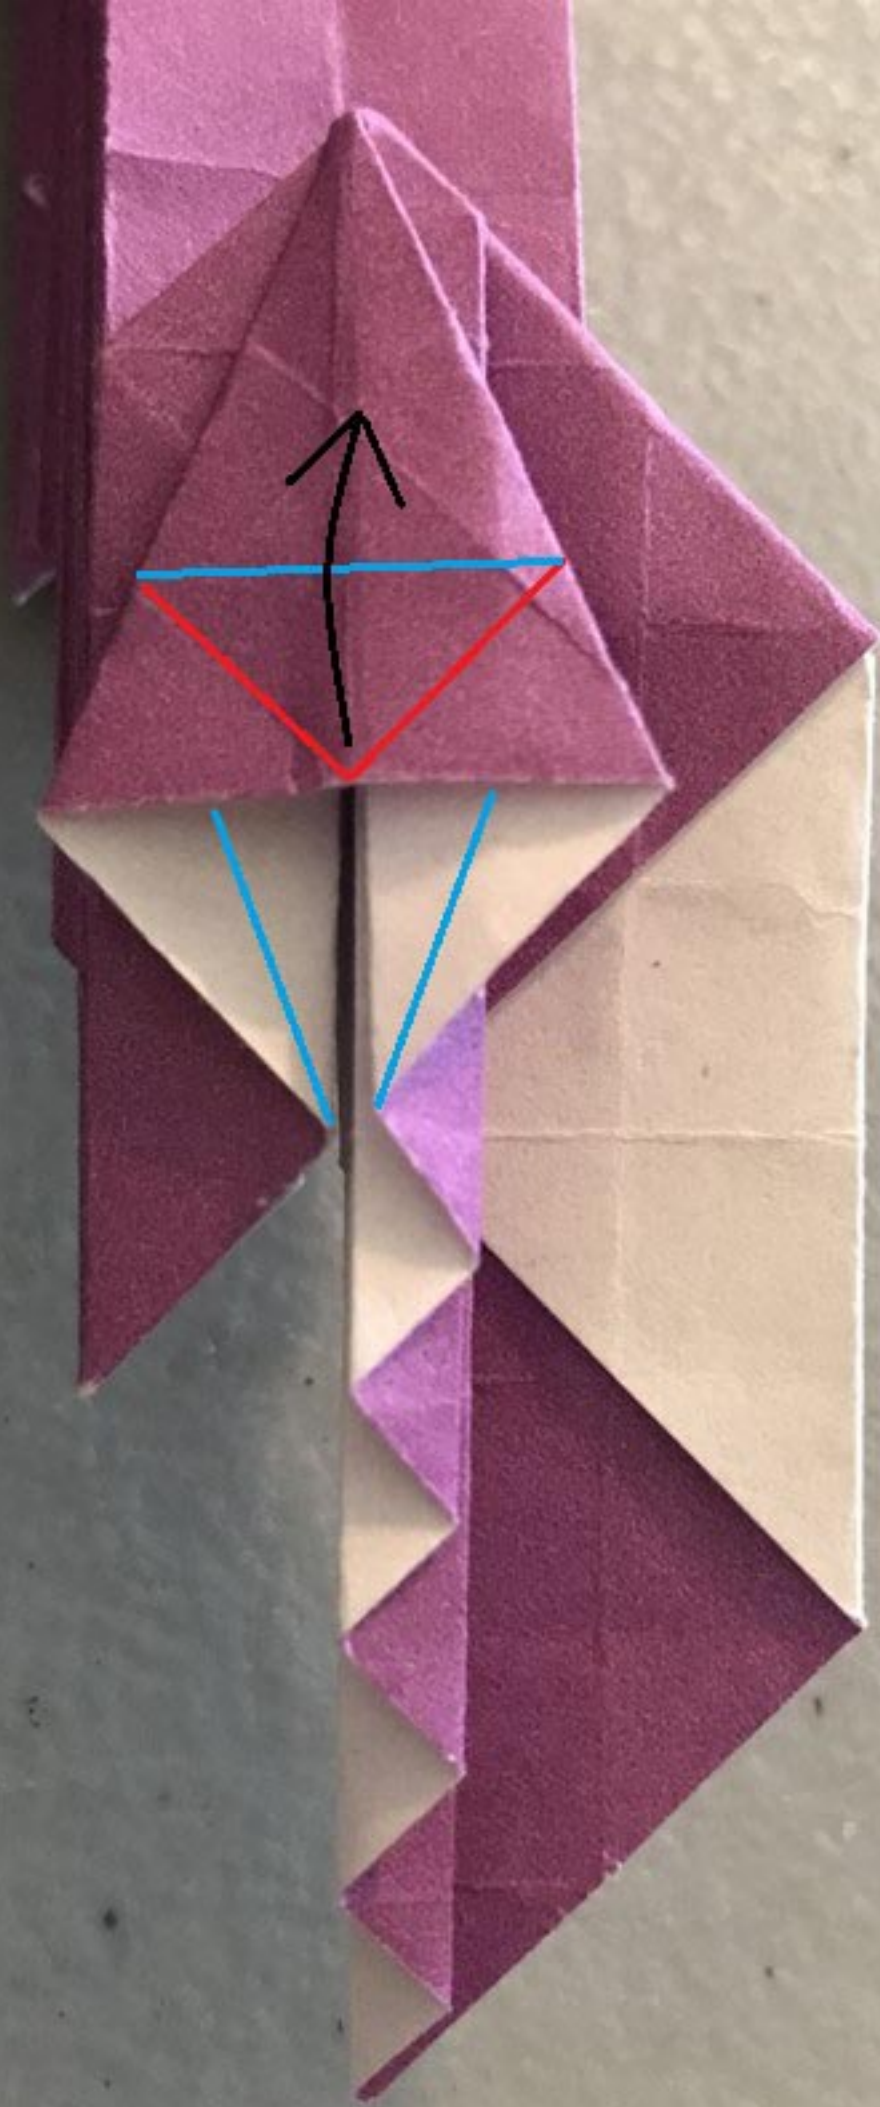

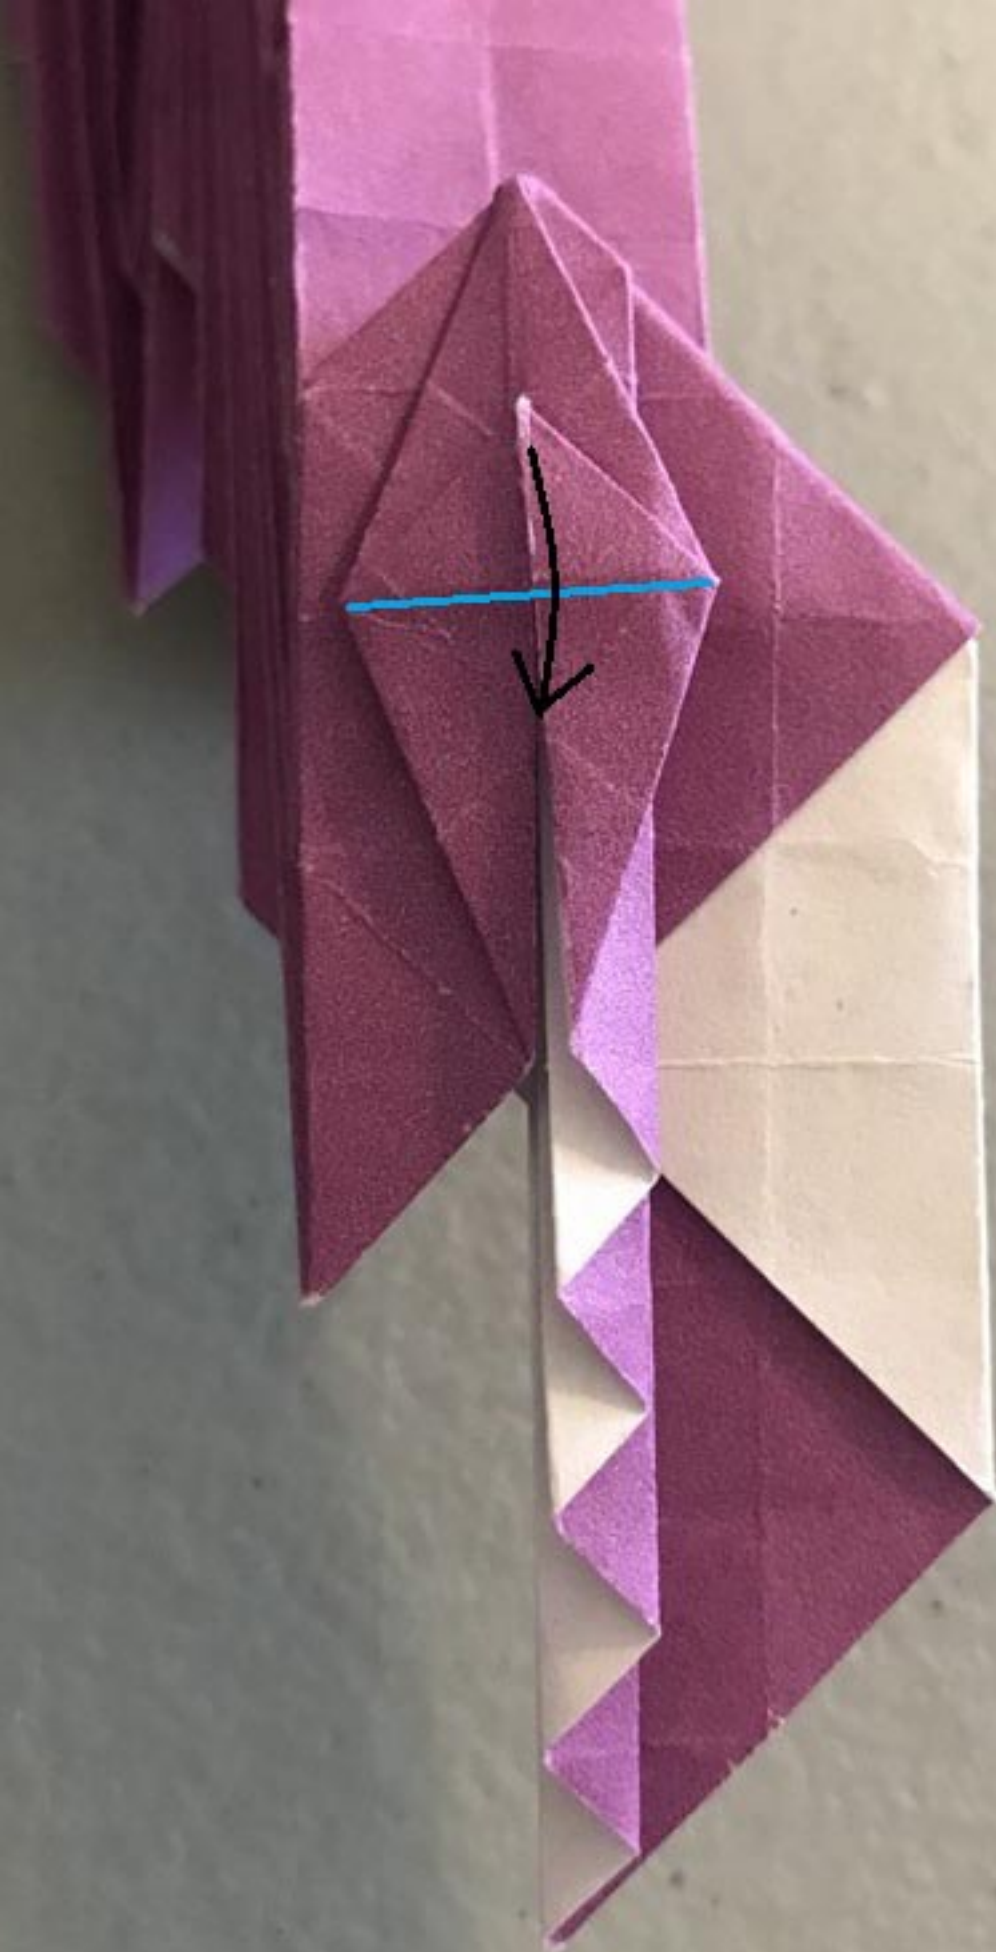

Crease, then
open sink
in 4ths

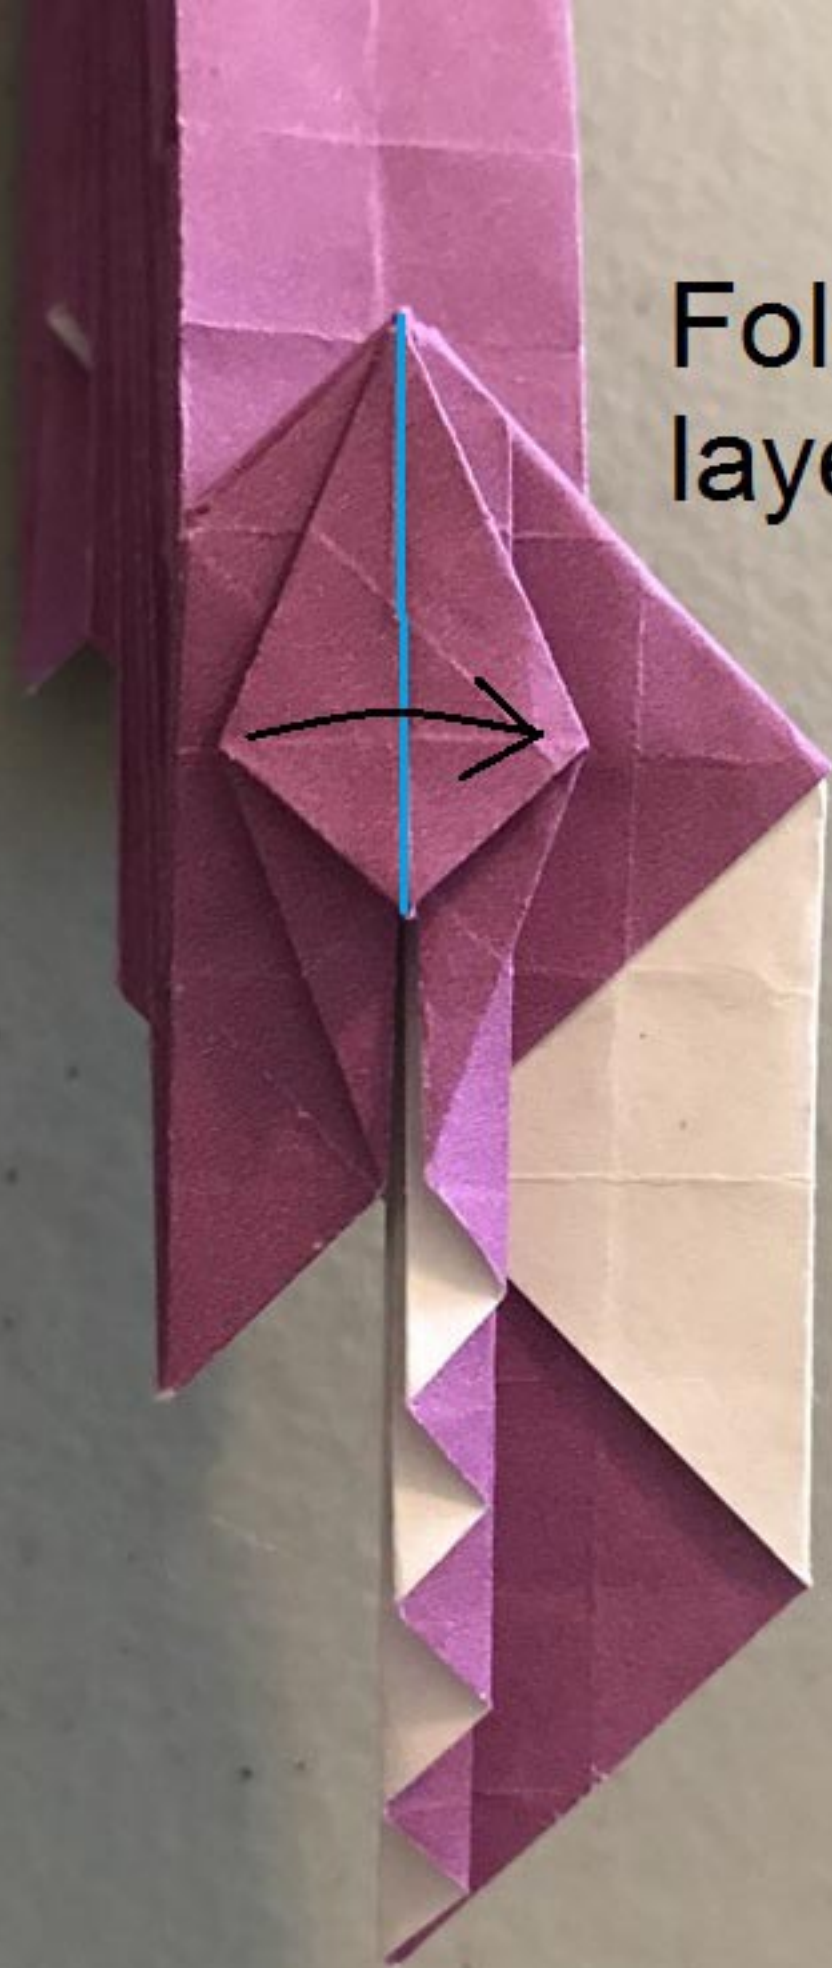

Squash
fold

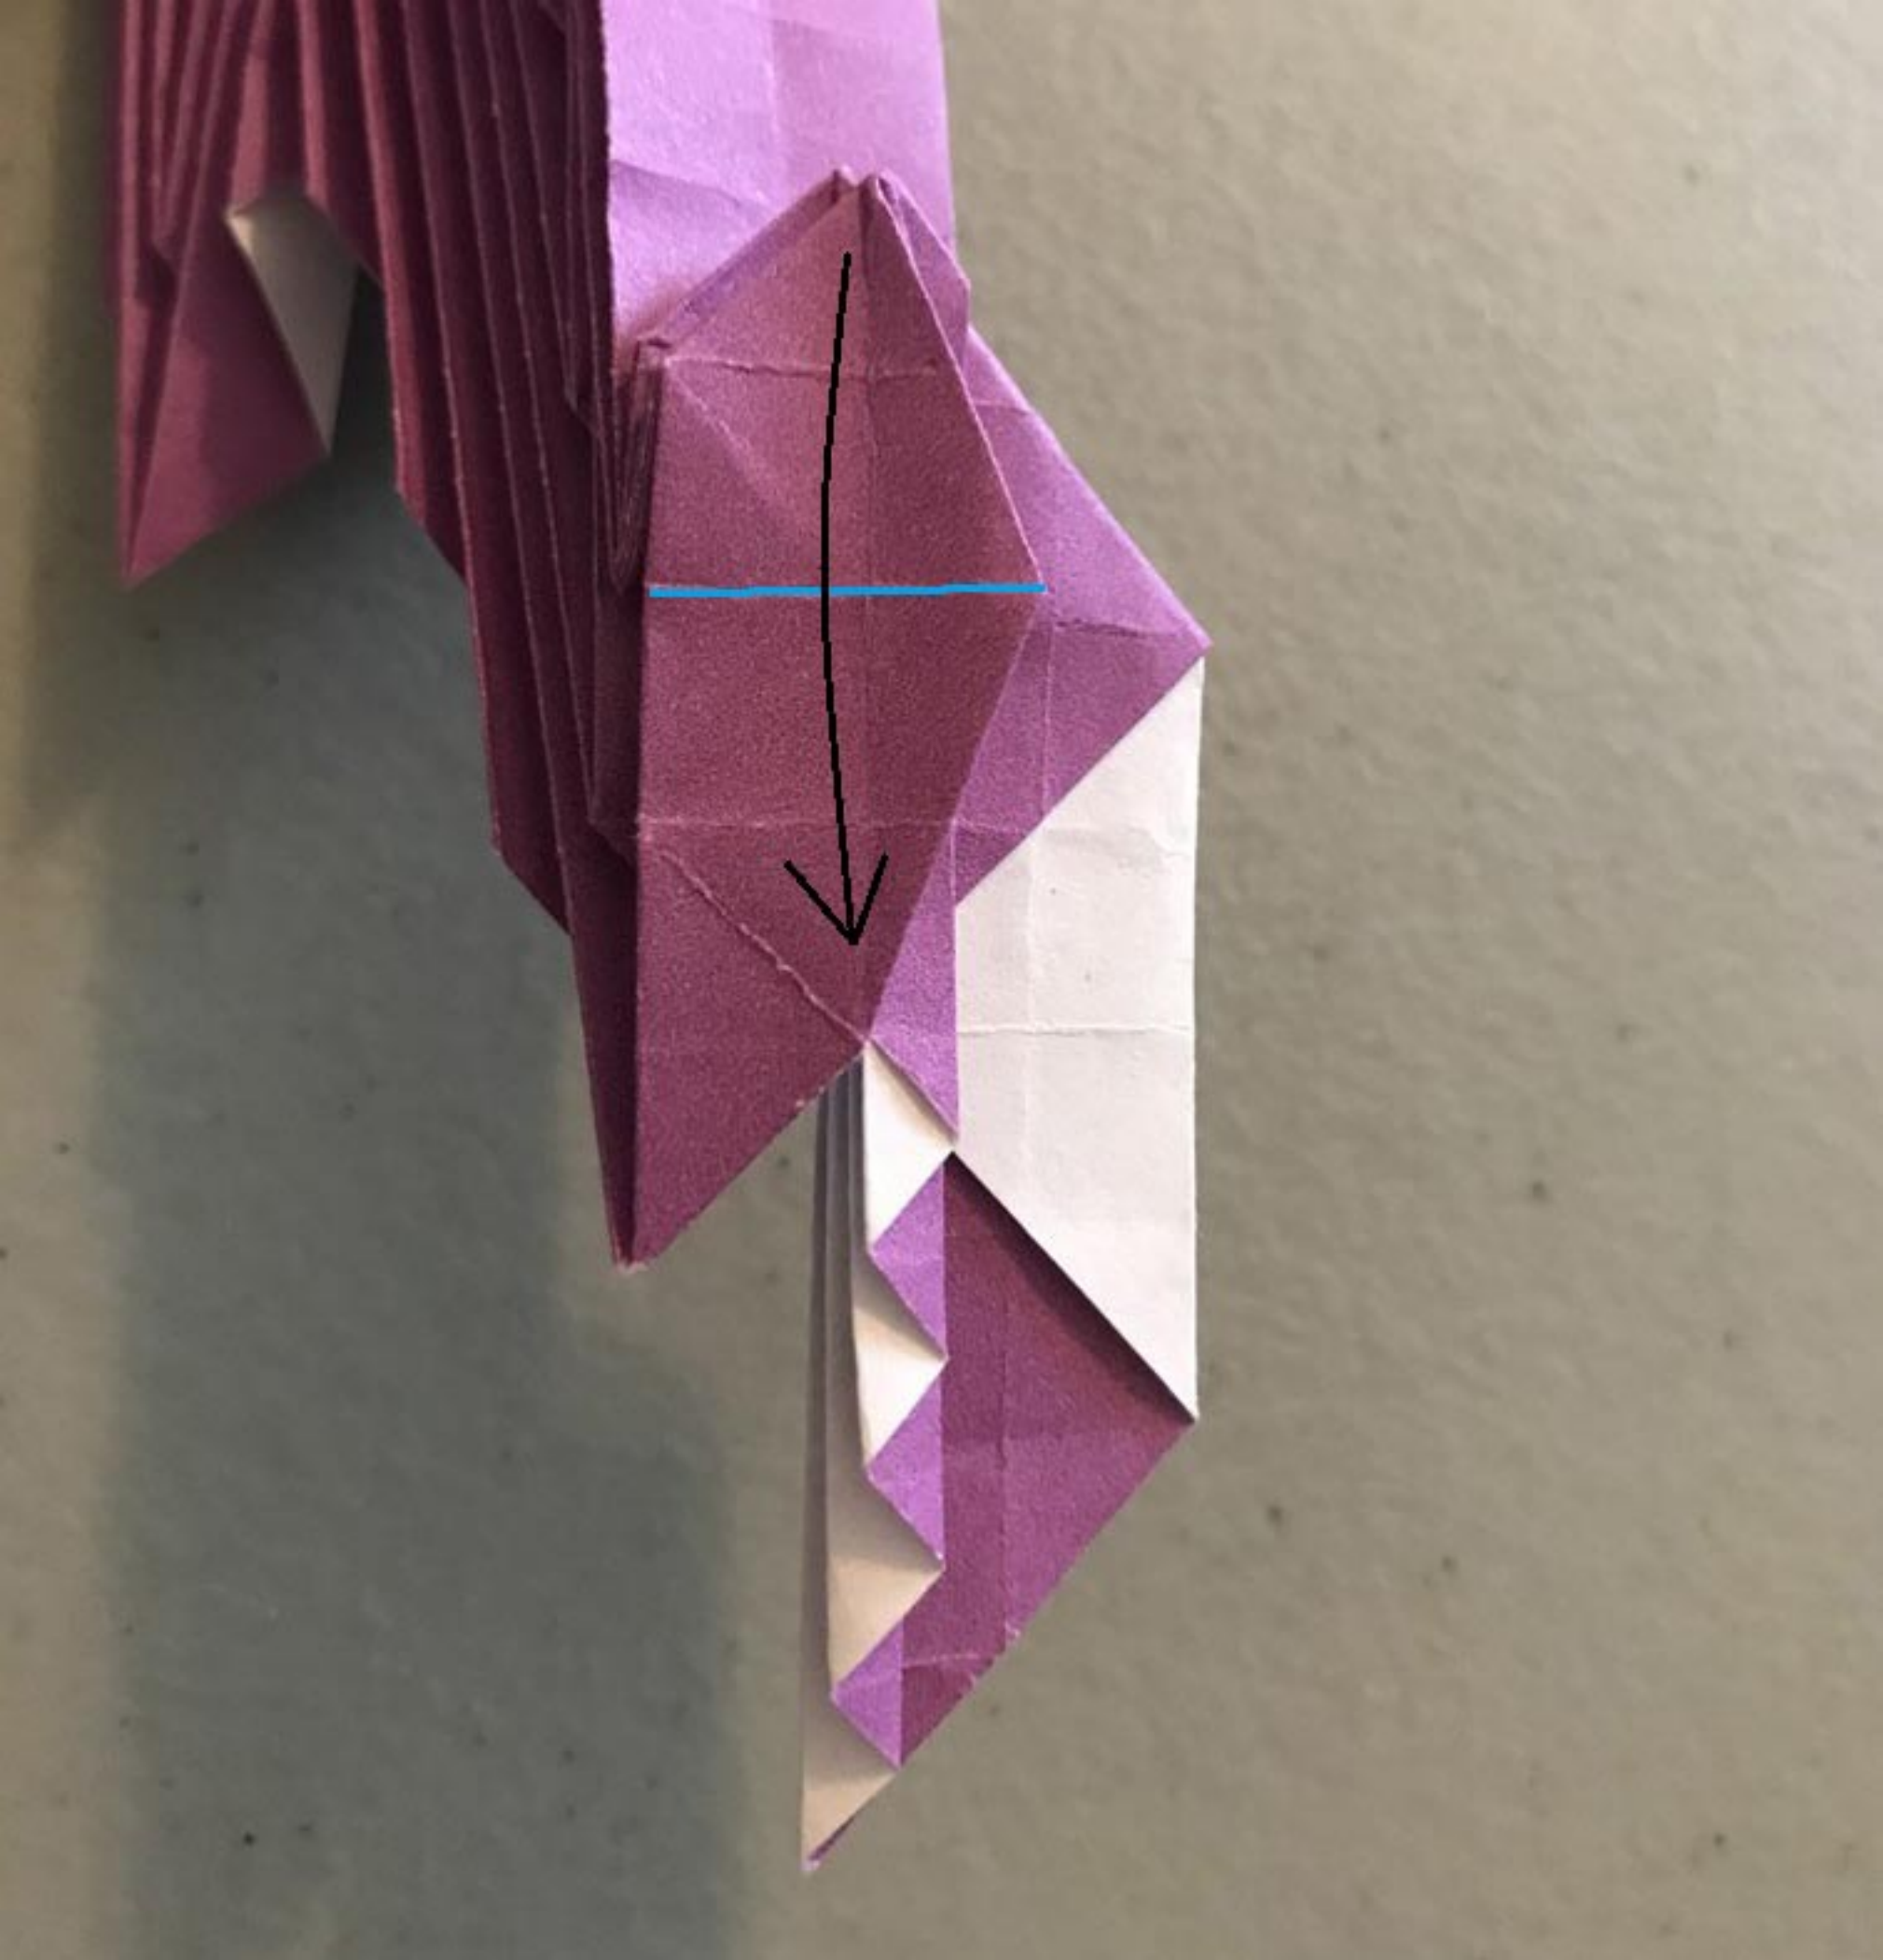

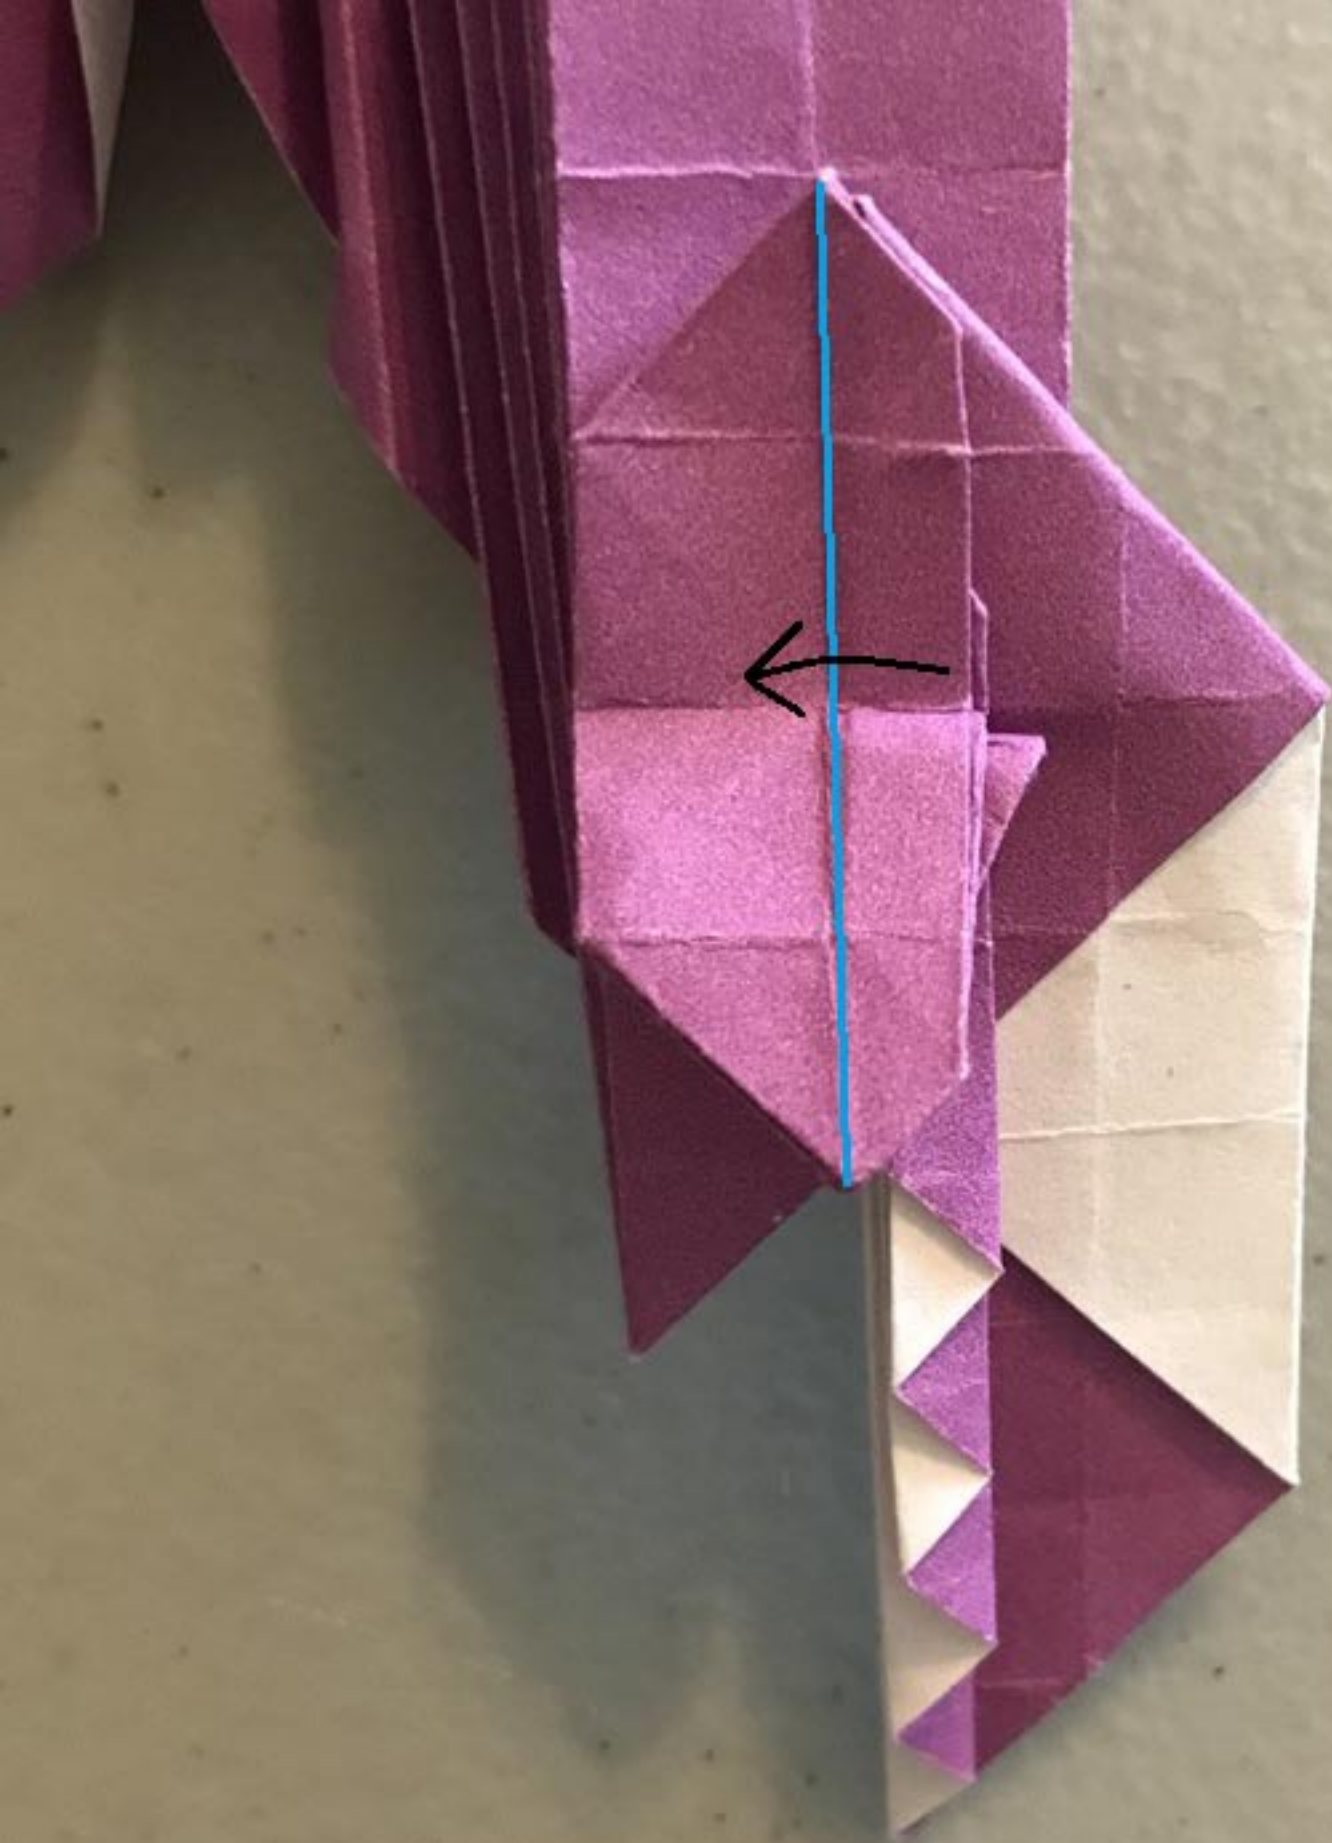

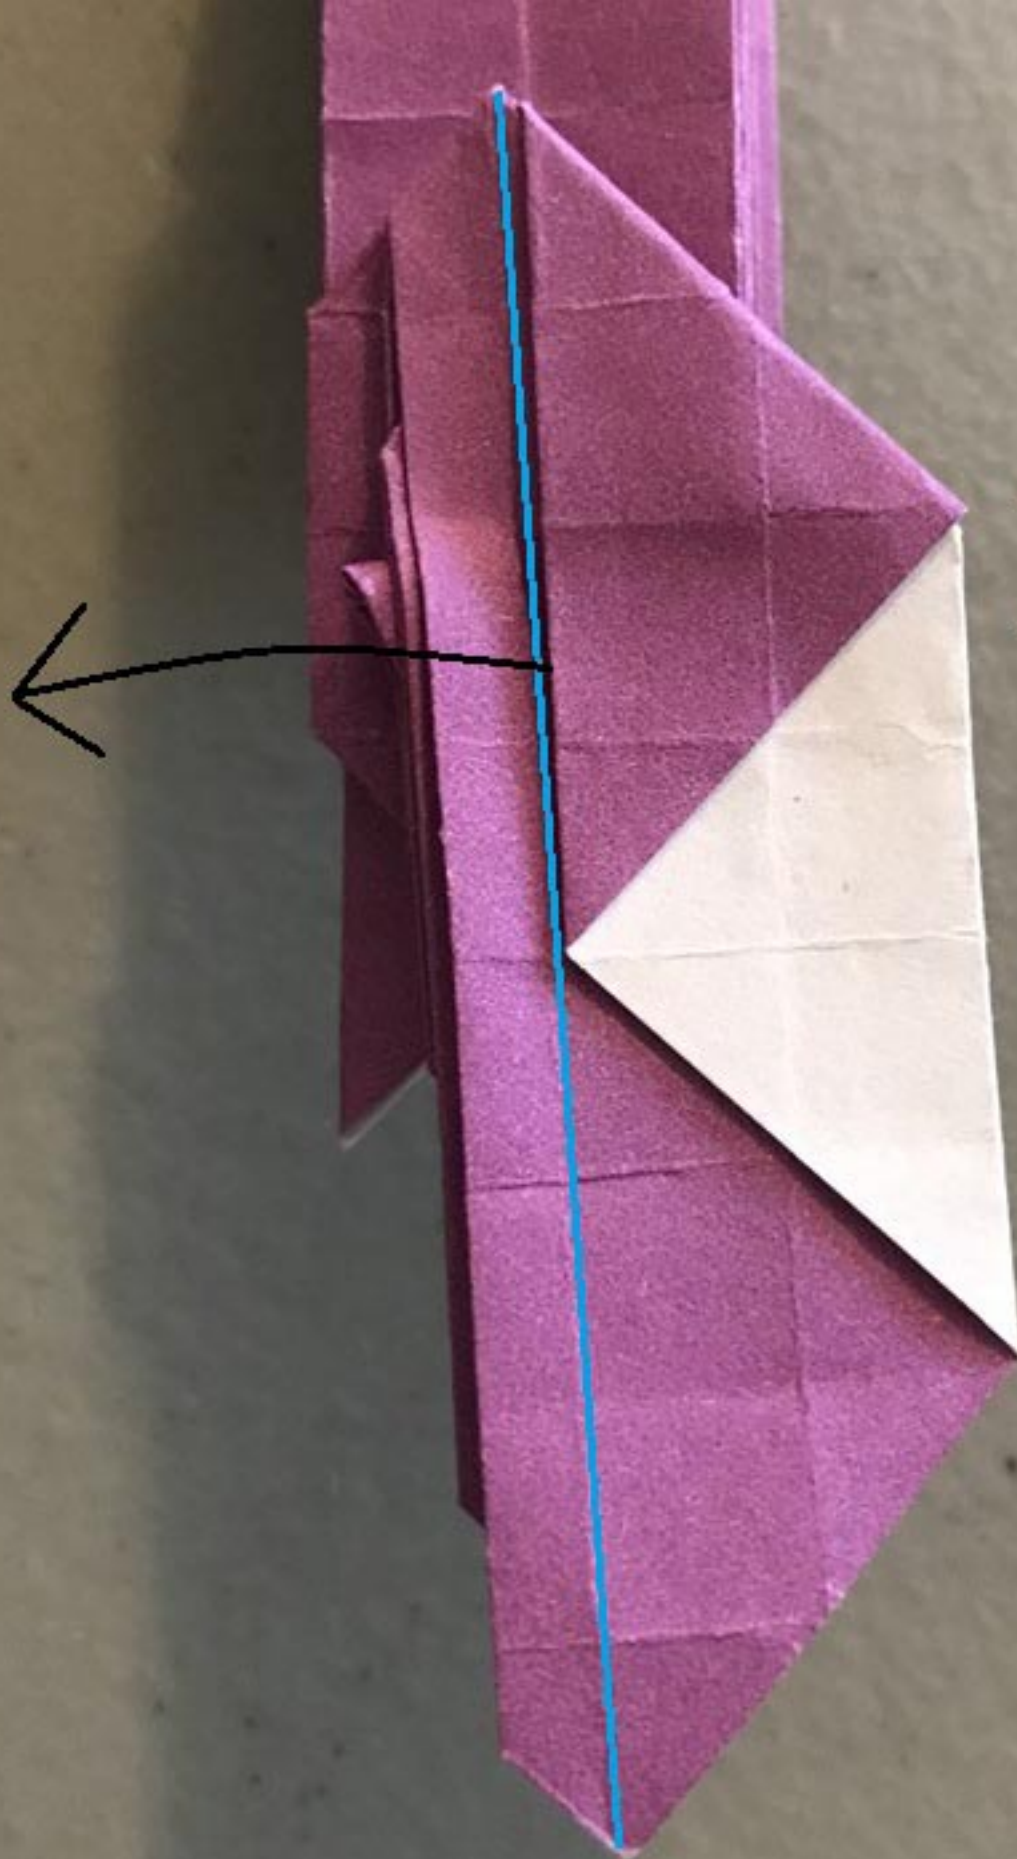

Fold one
layer over

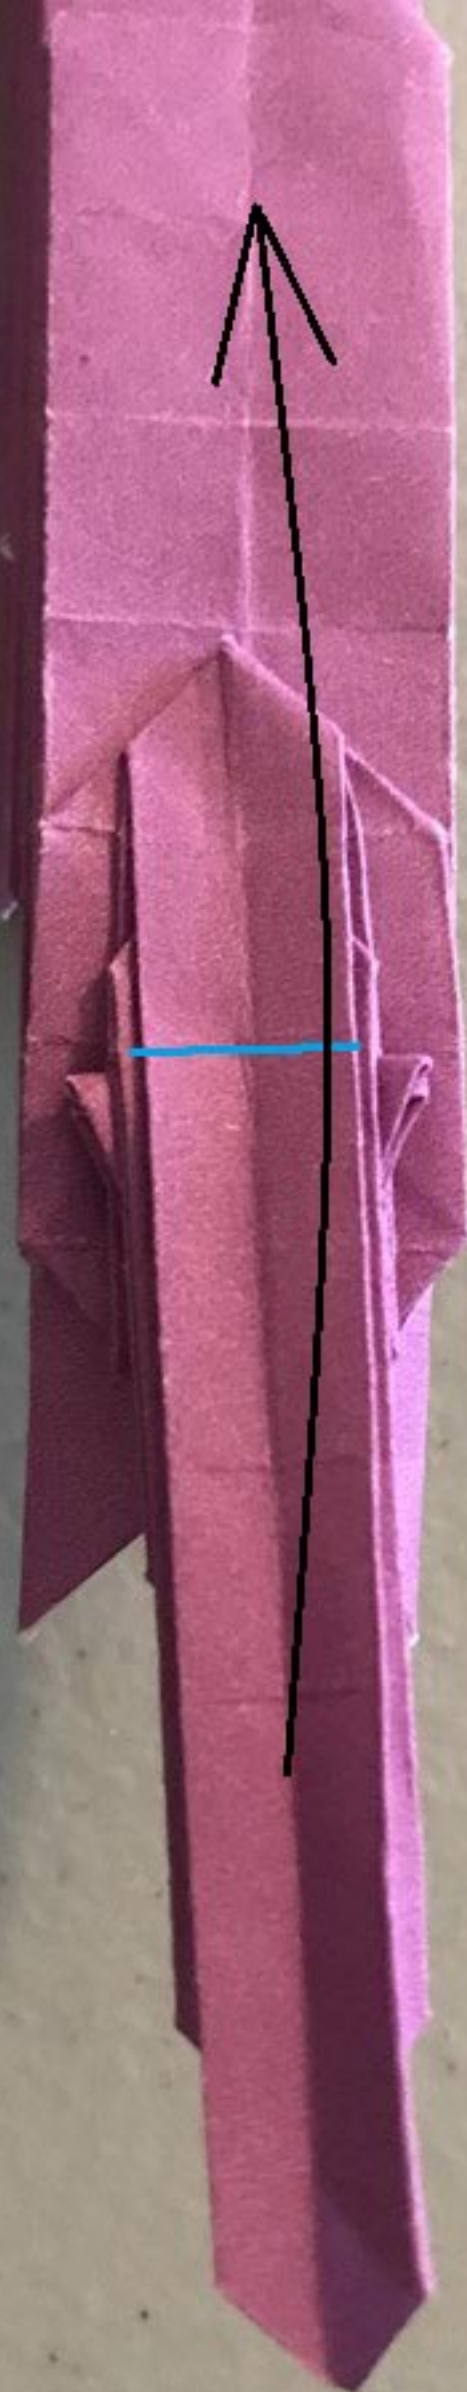

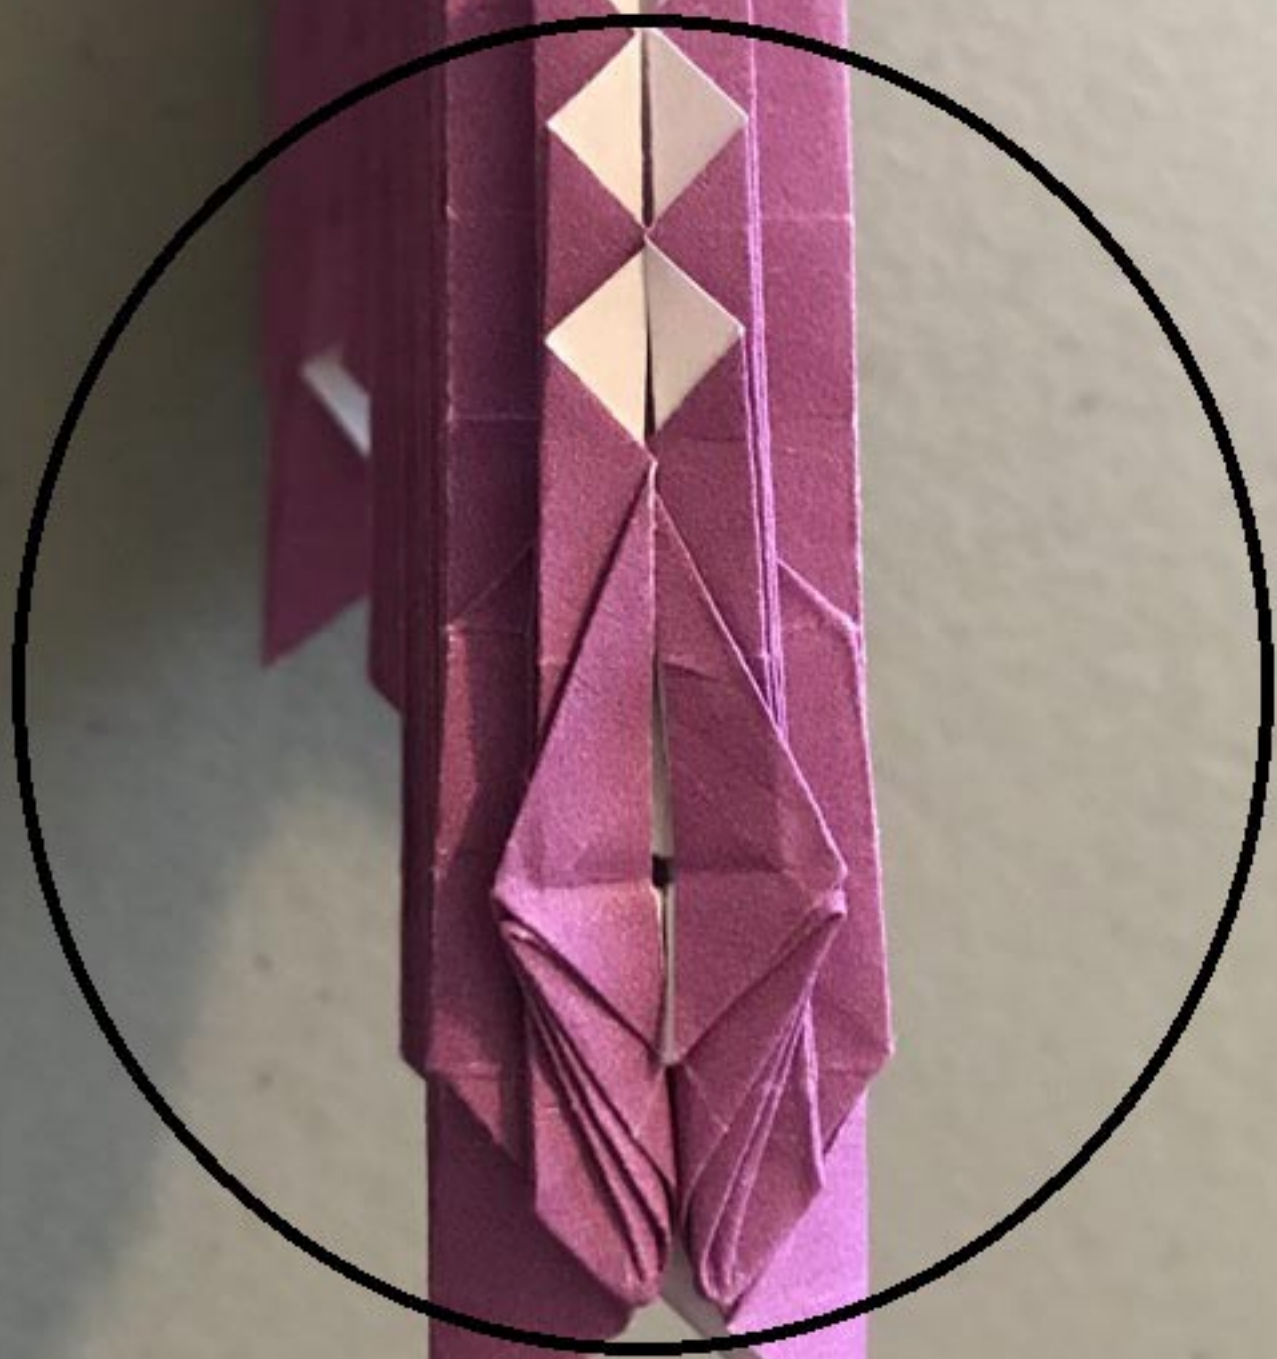

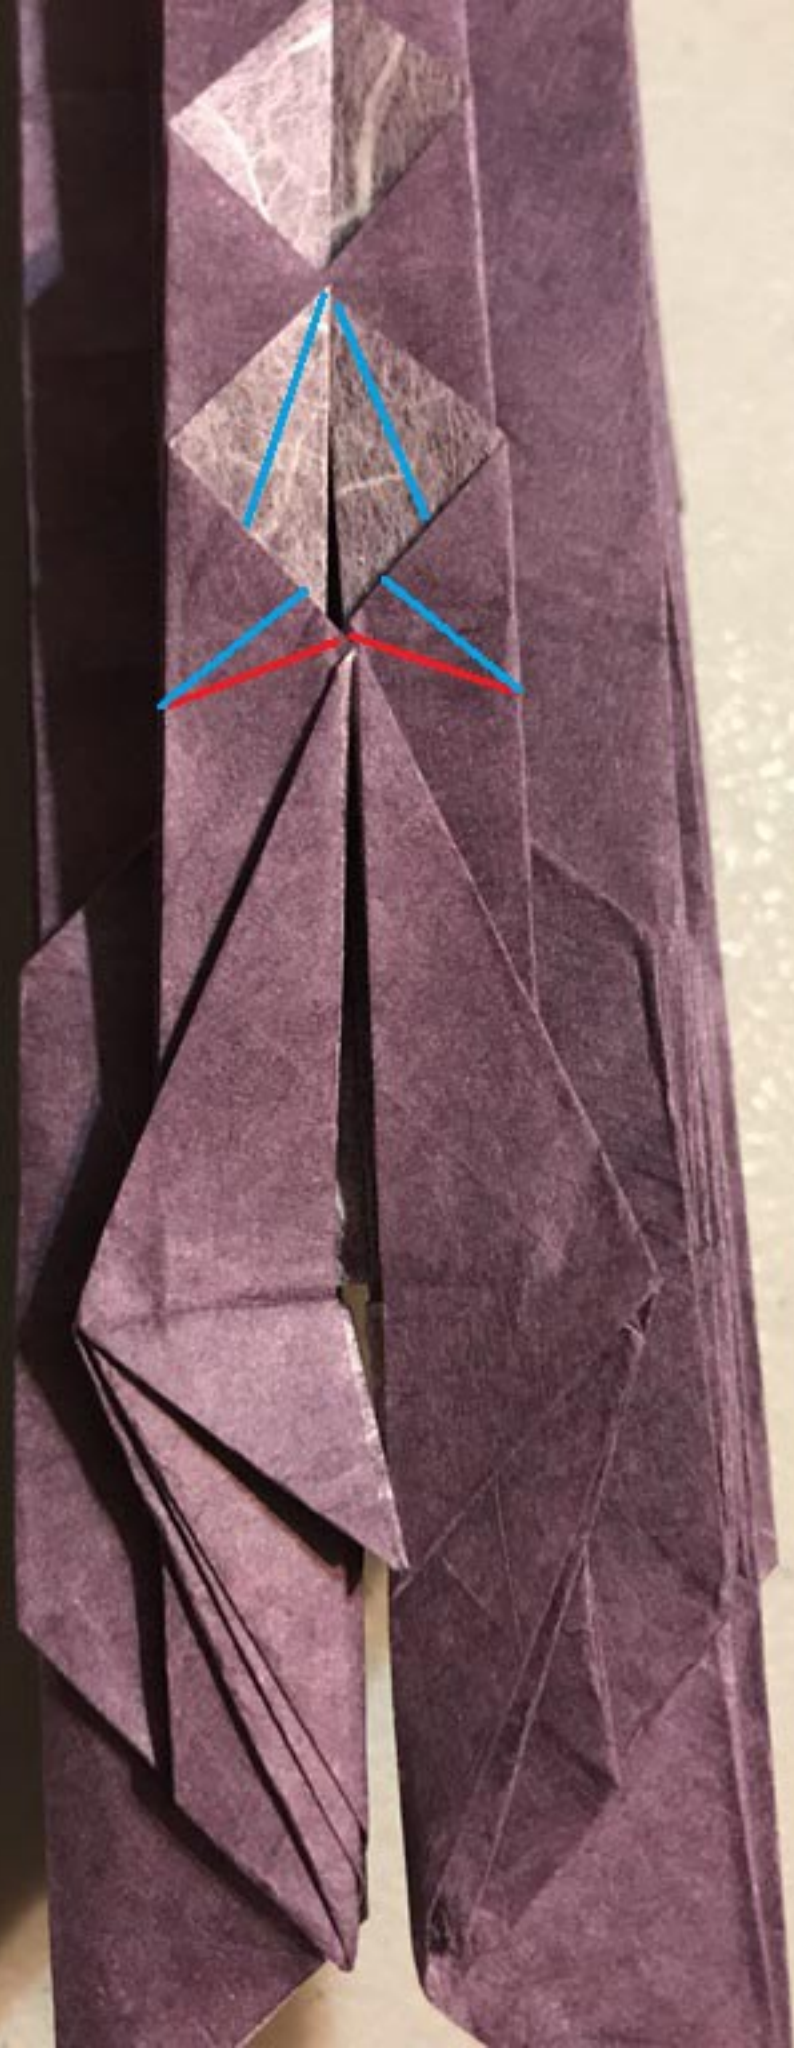

Repeat all
that on
this side

Crease

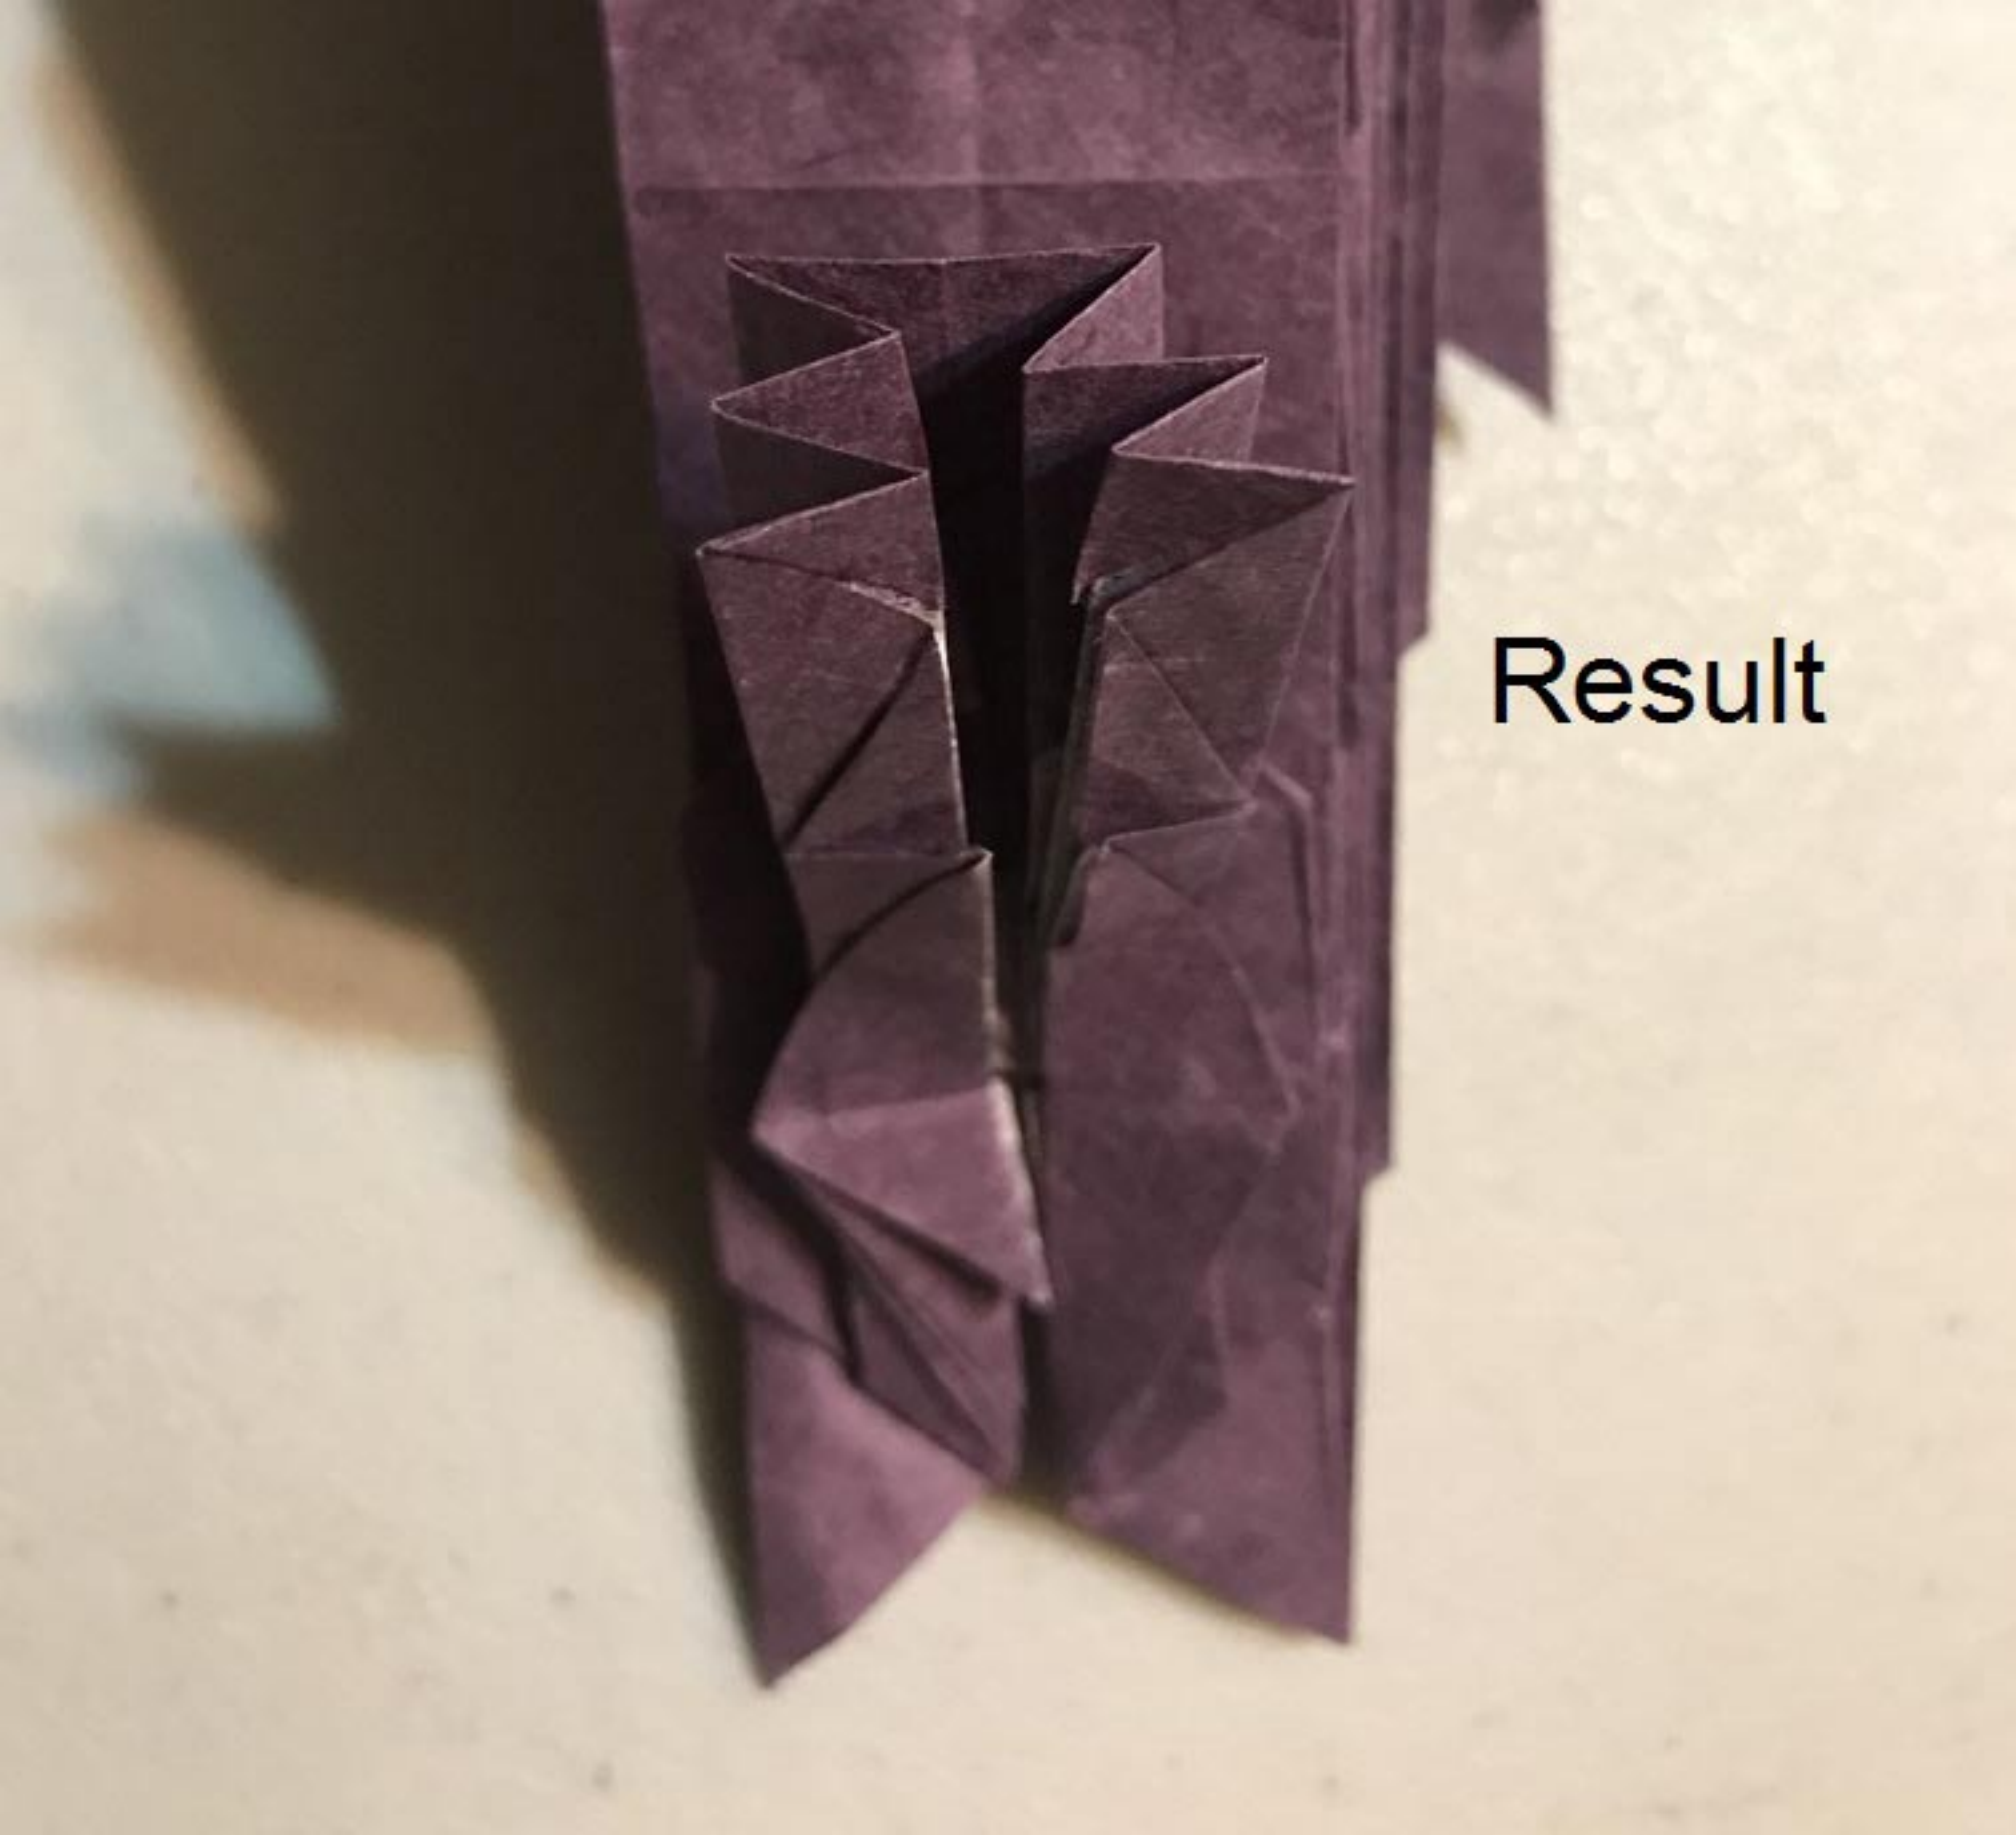

Open up

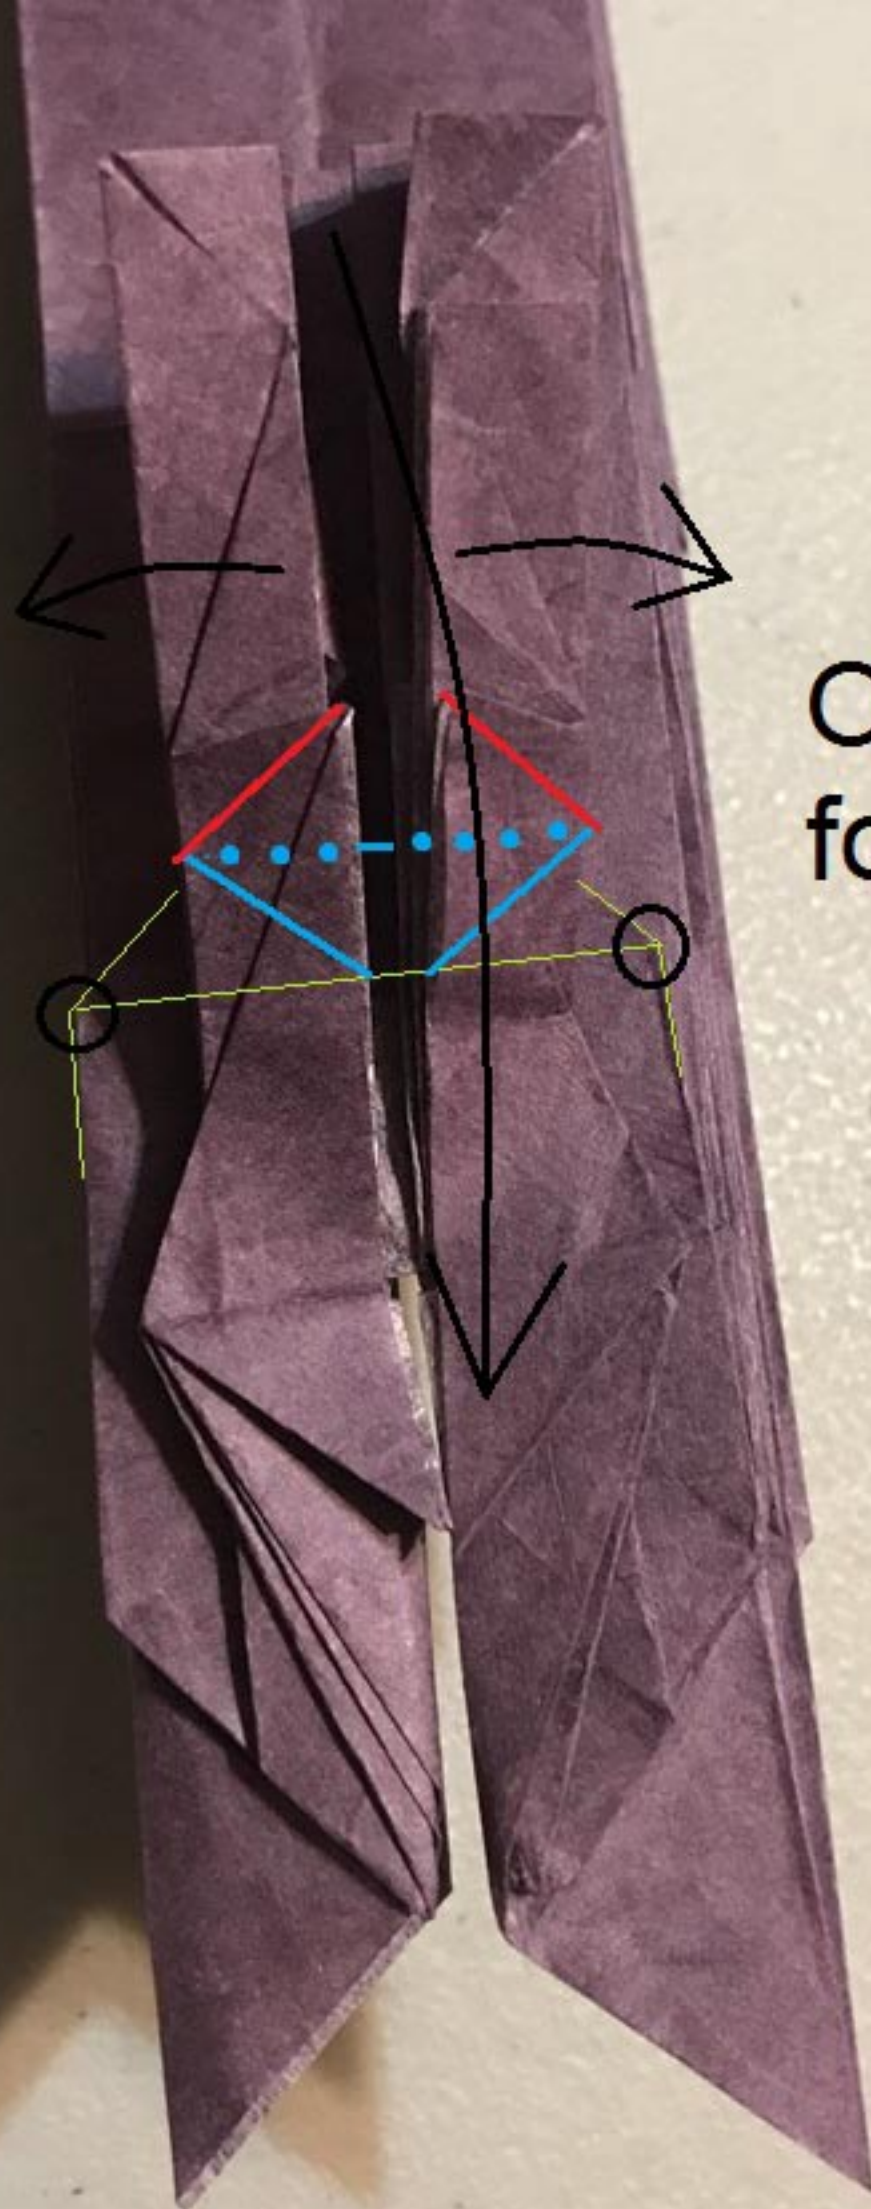

Close up

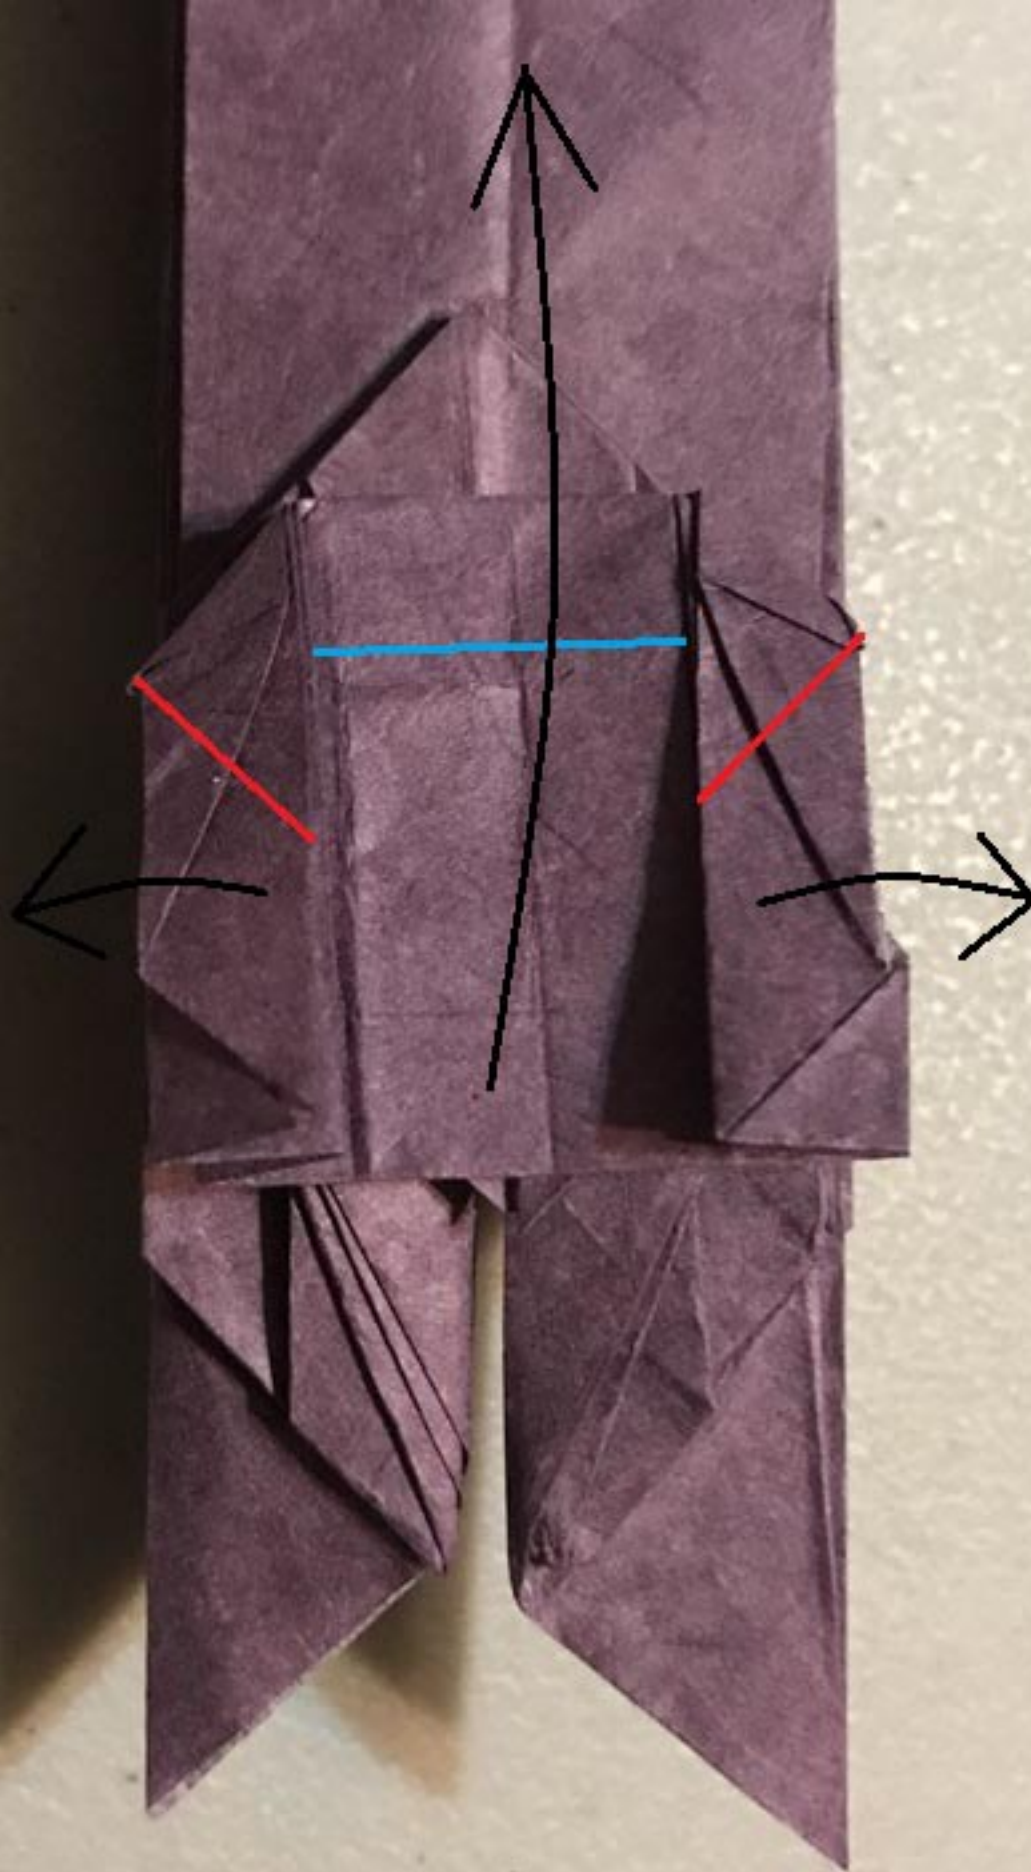

Result

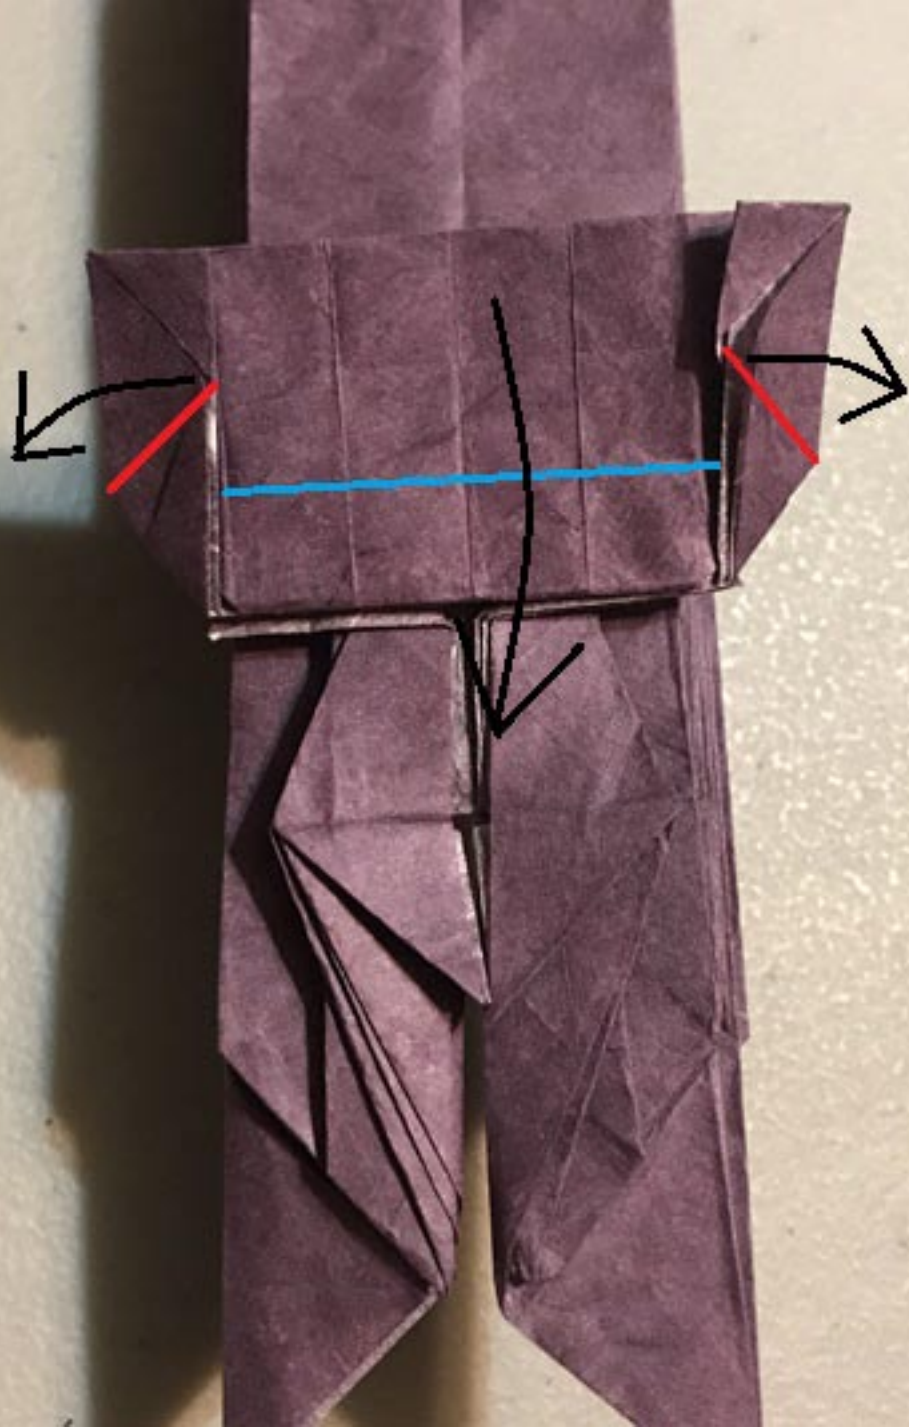

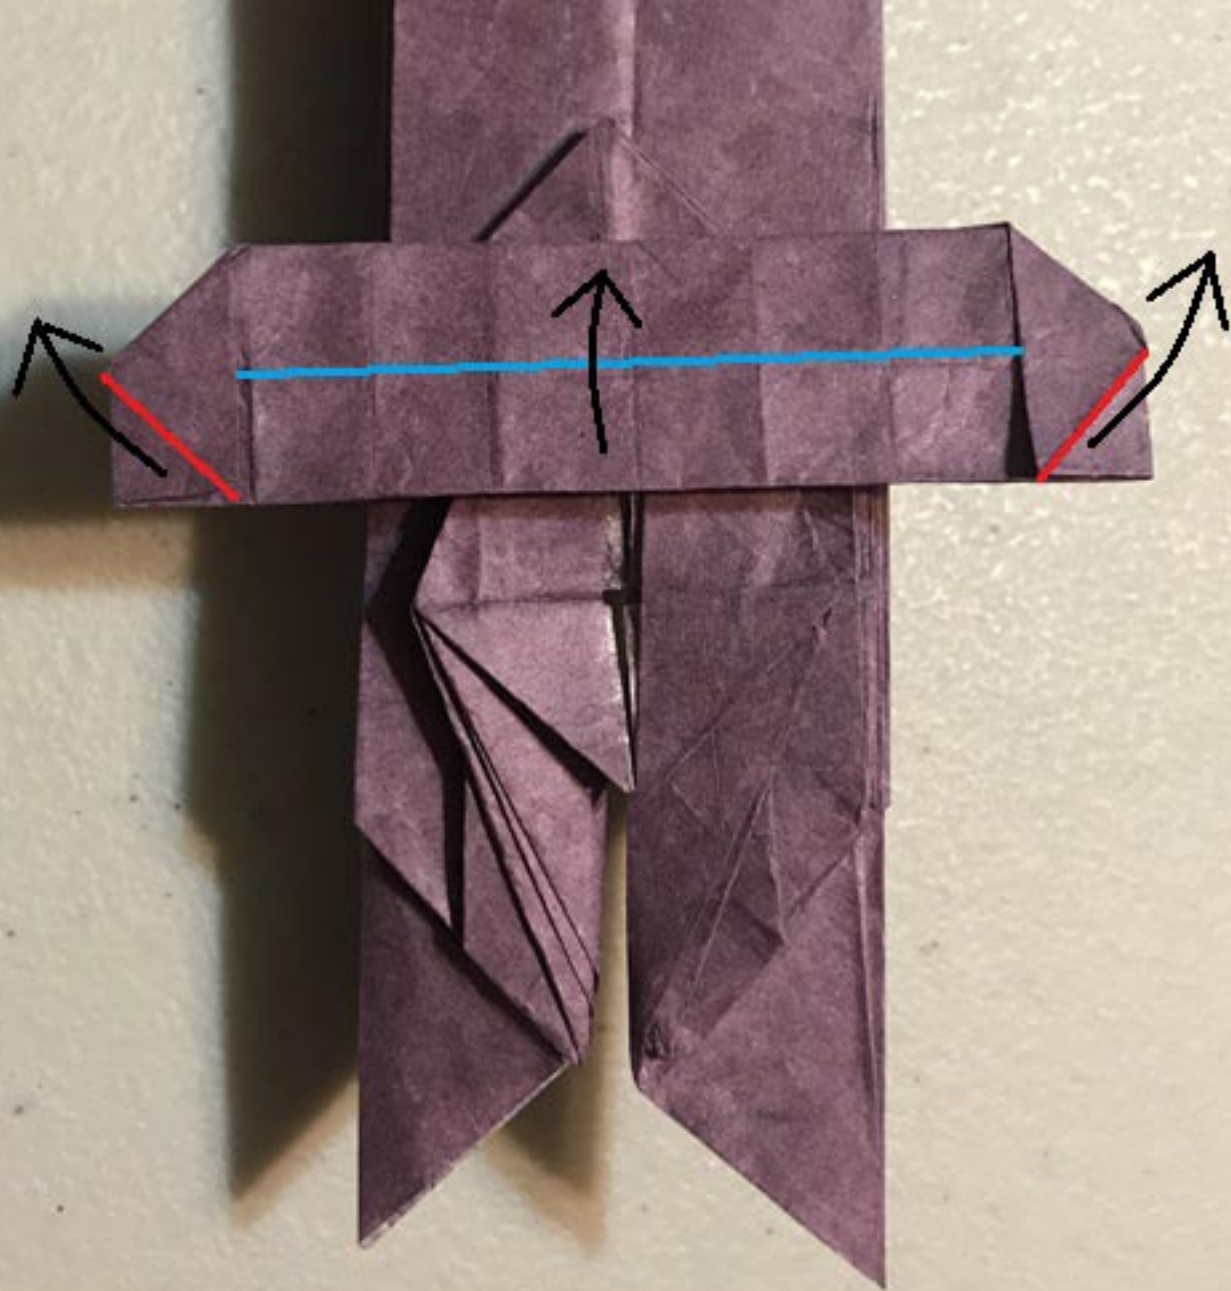

Open and
fold down

Check that you're
folding down at the
right place

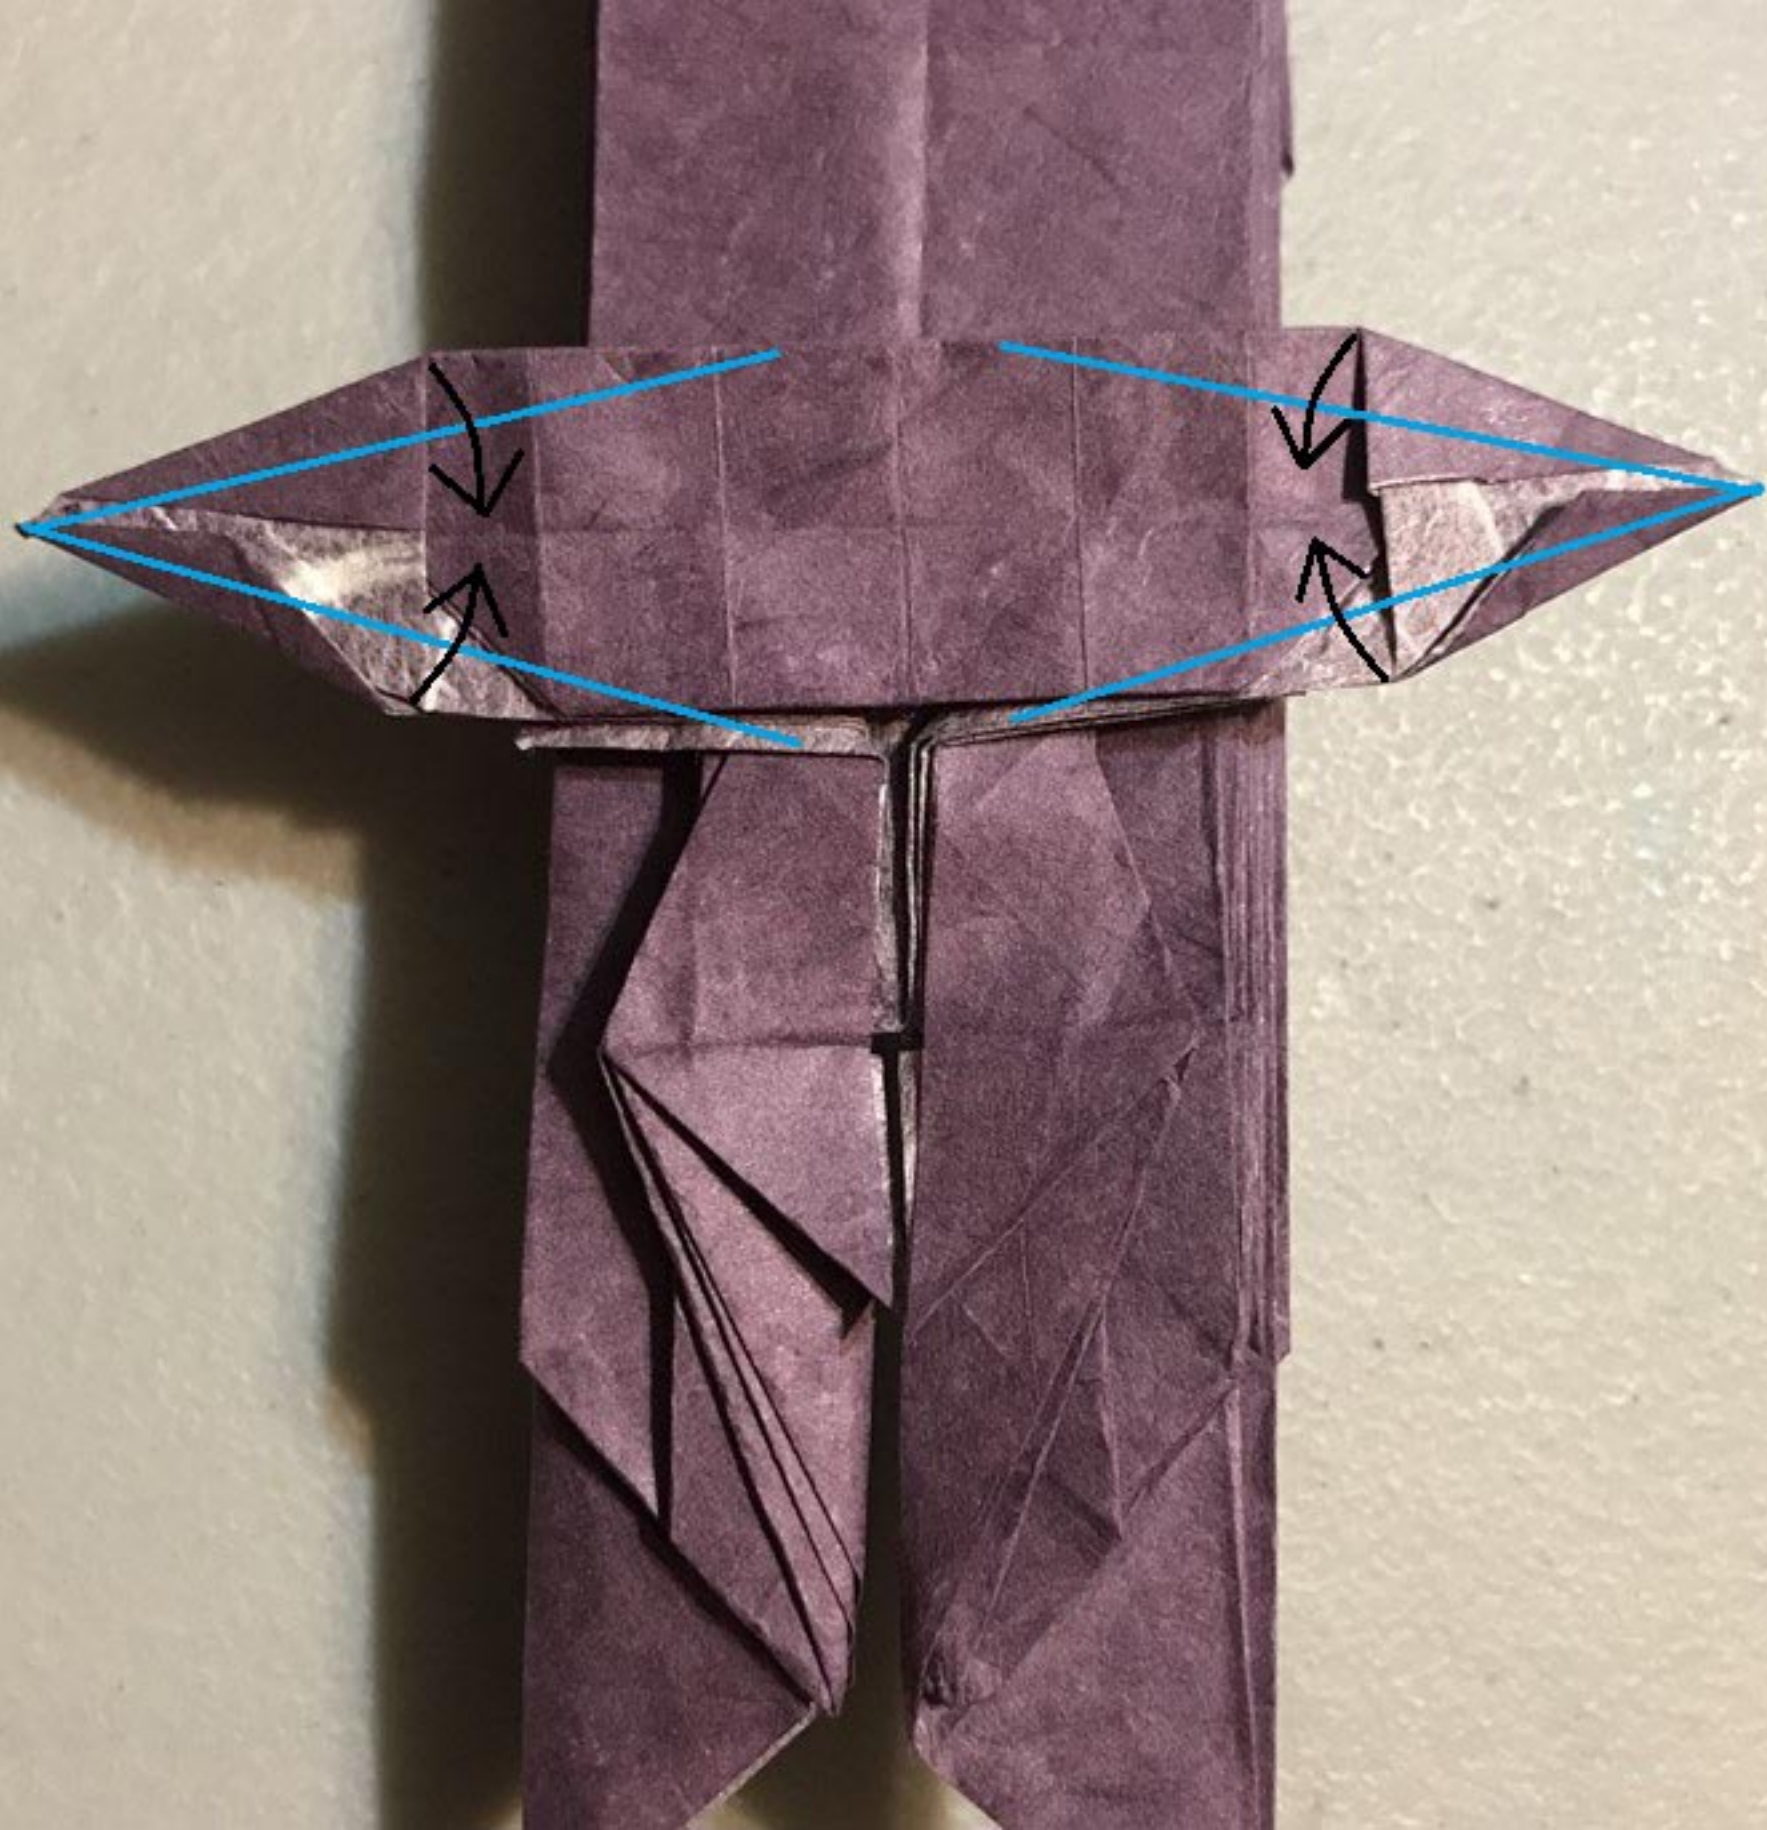

Spread squash upwards

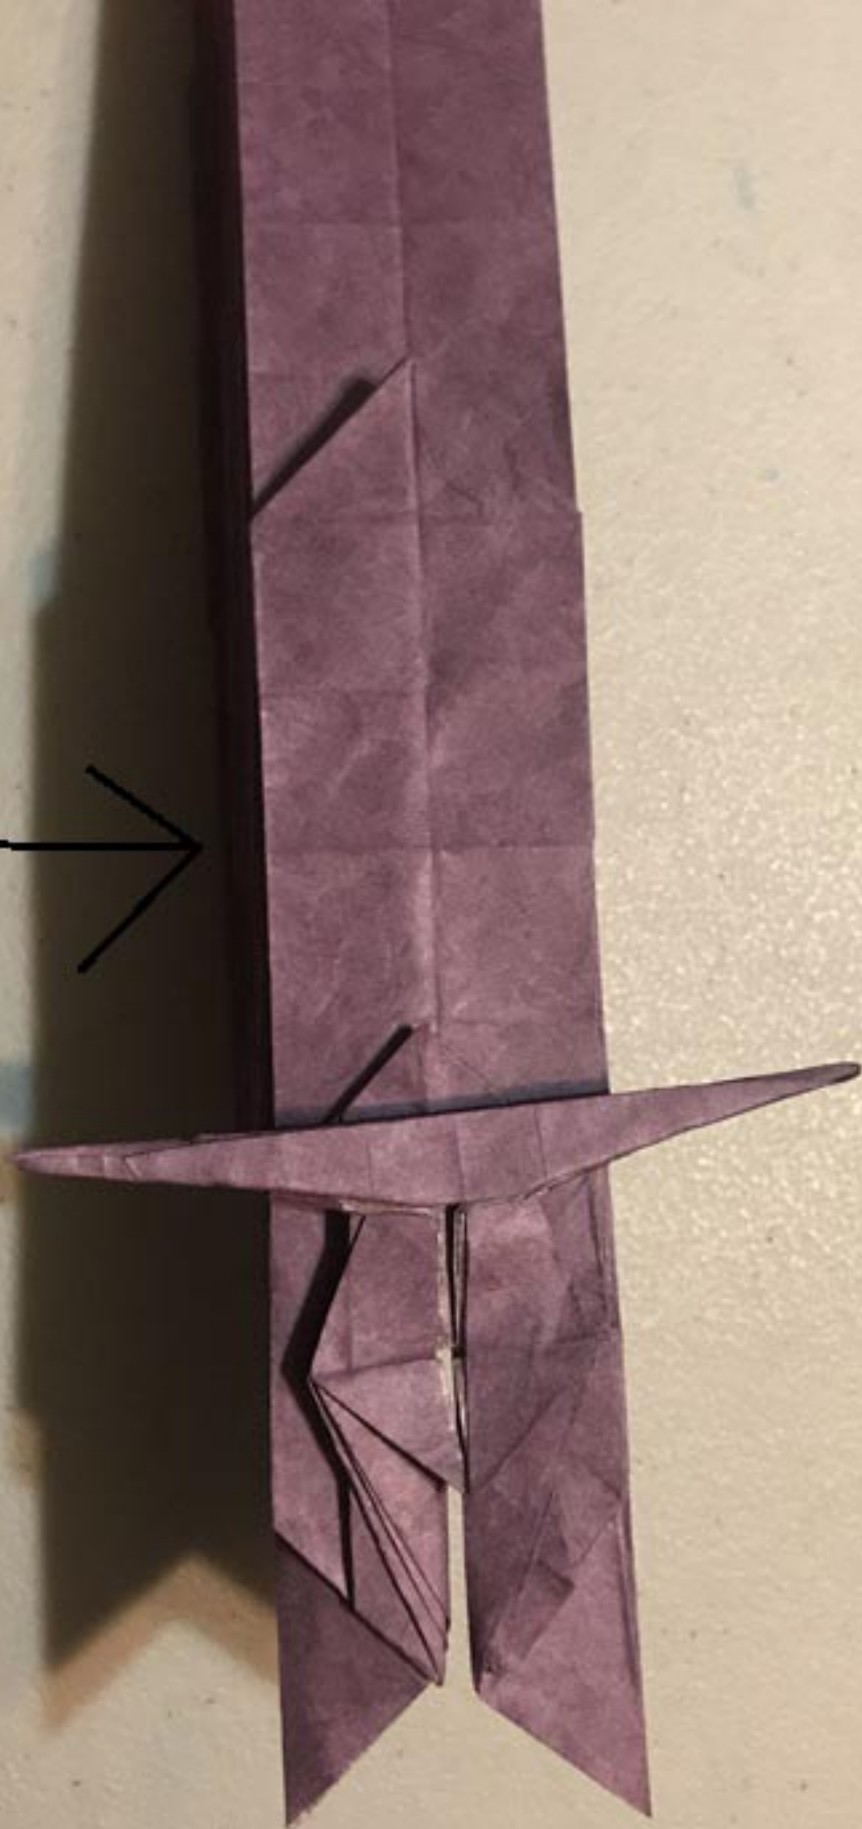

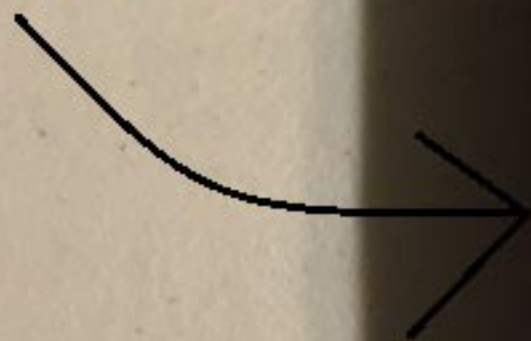

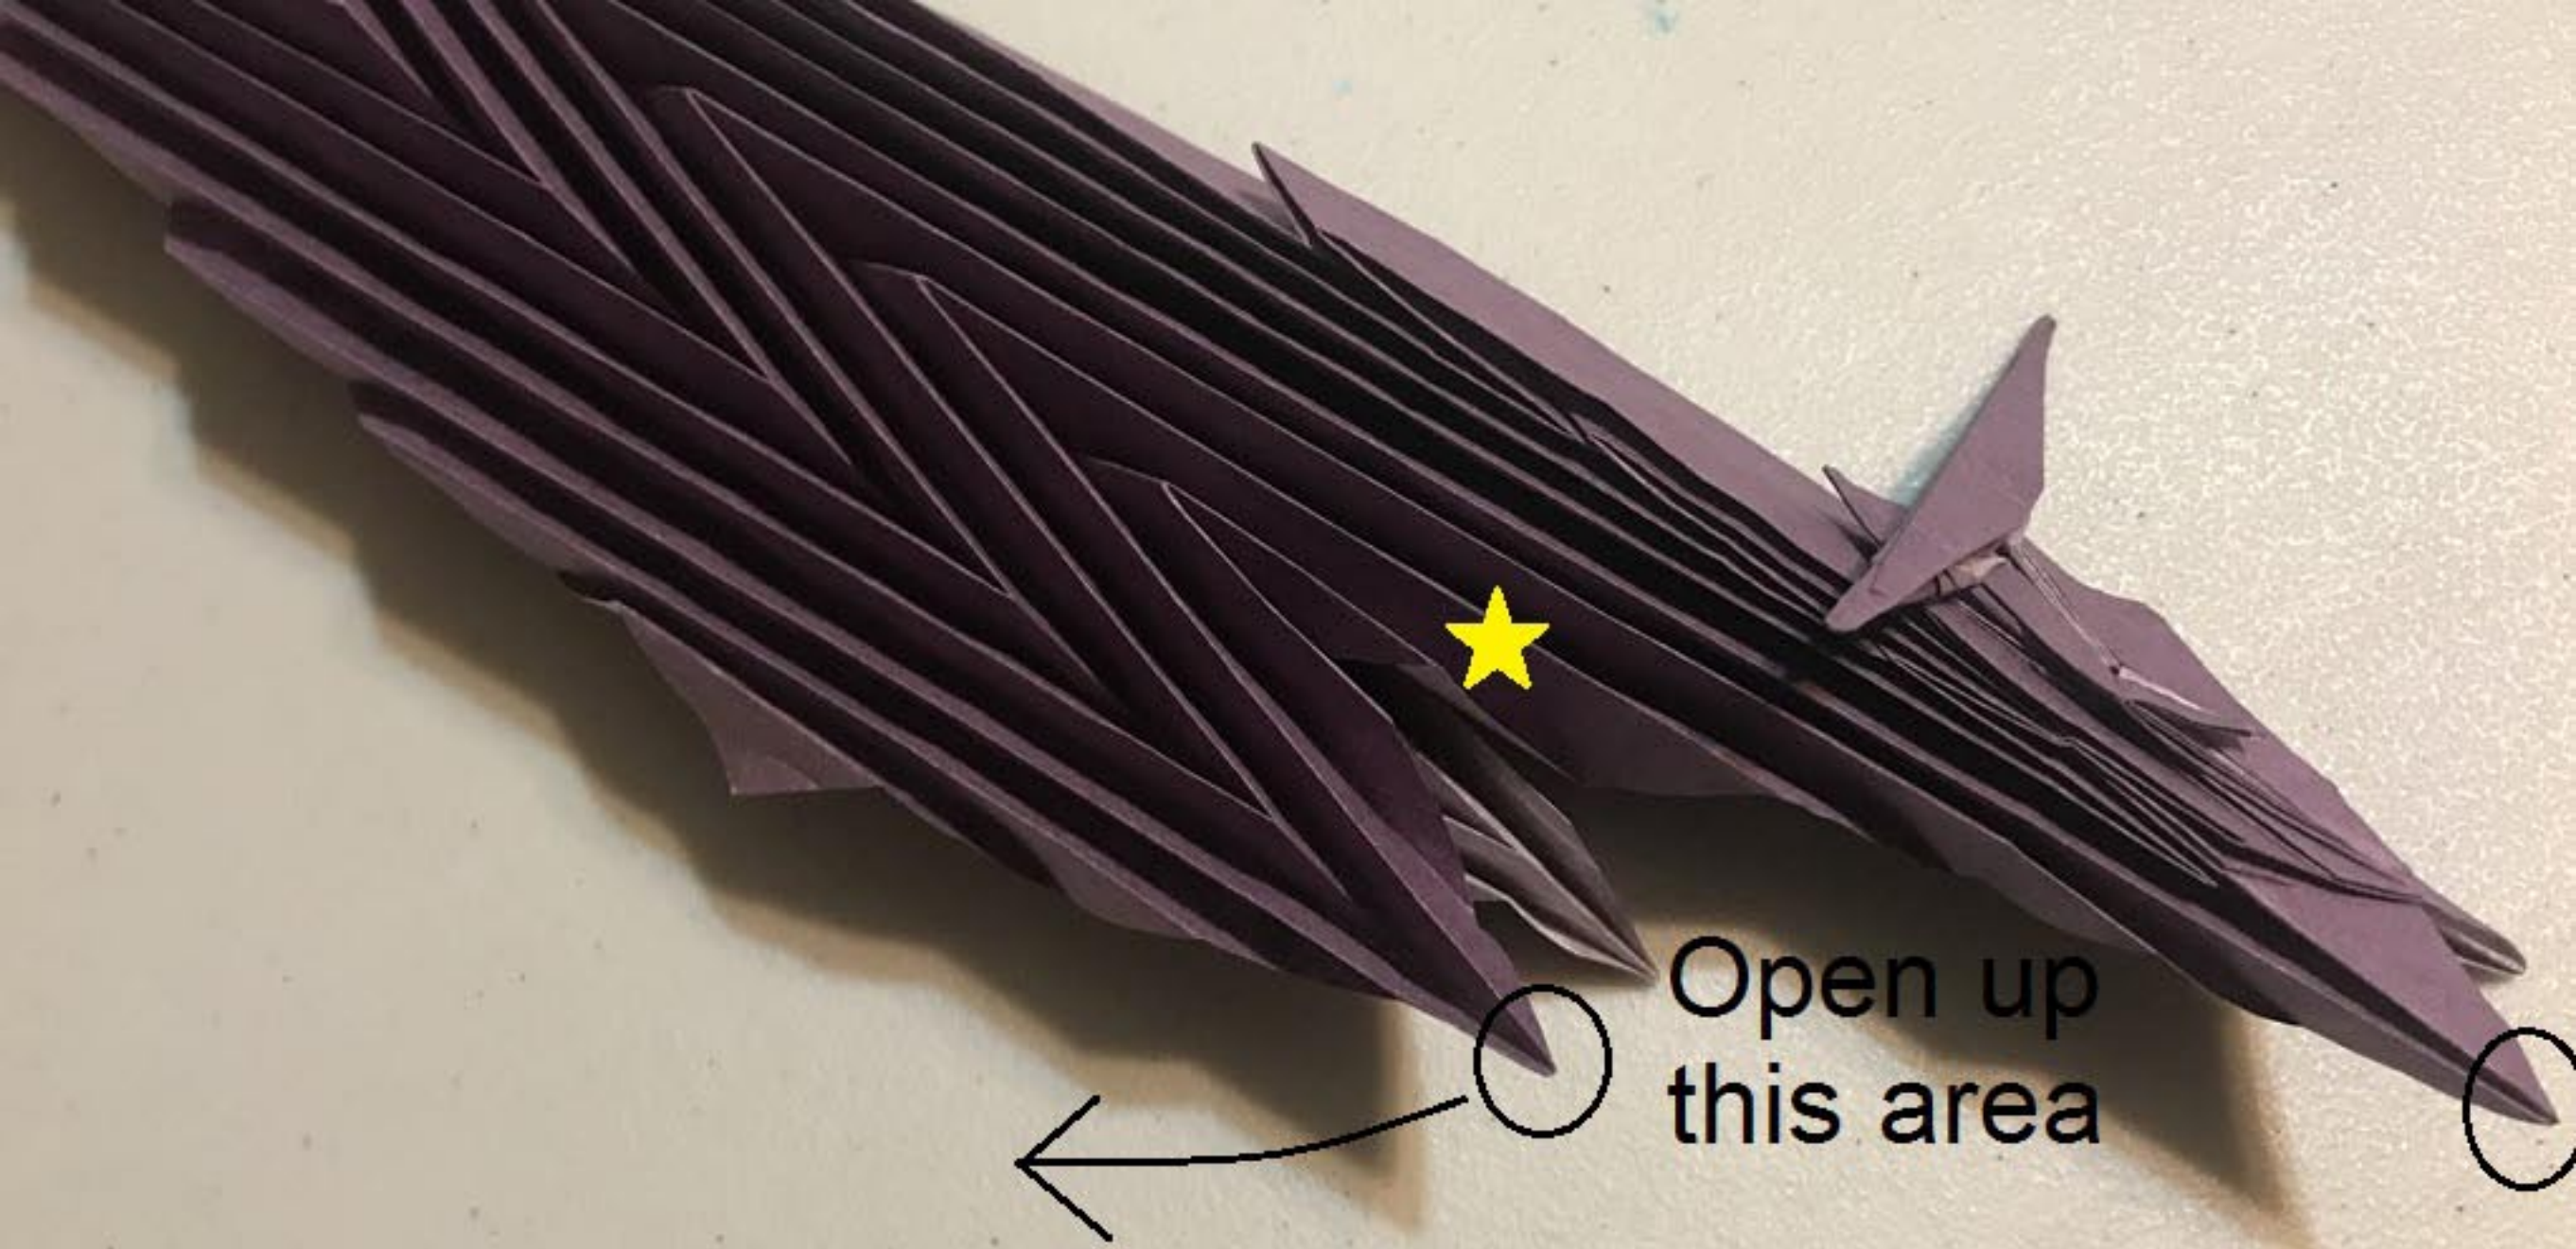

Let's
look
over
here

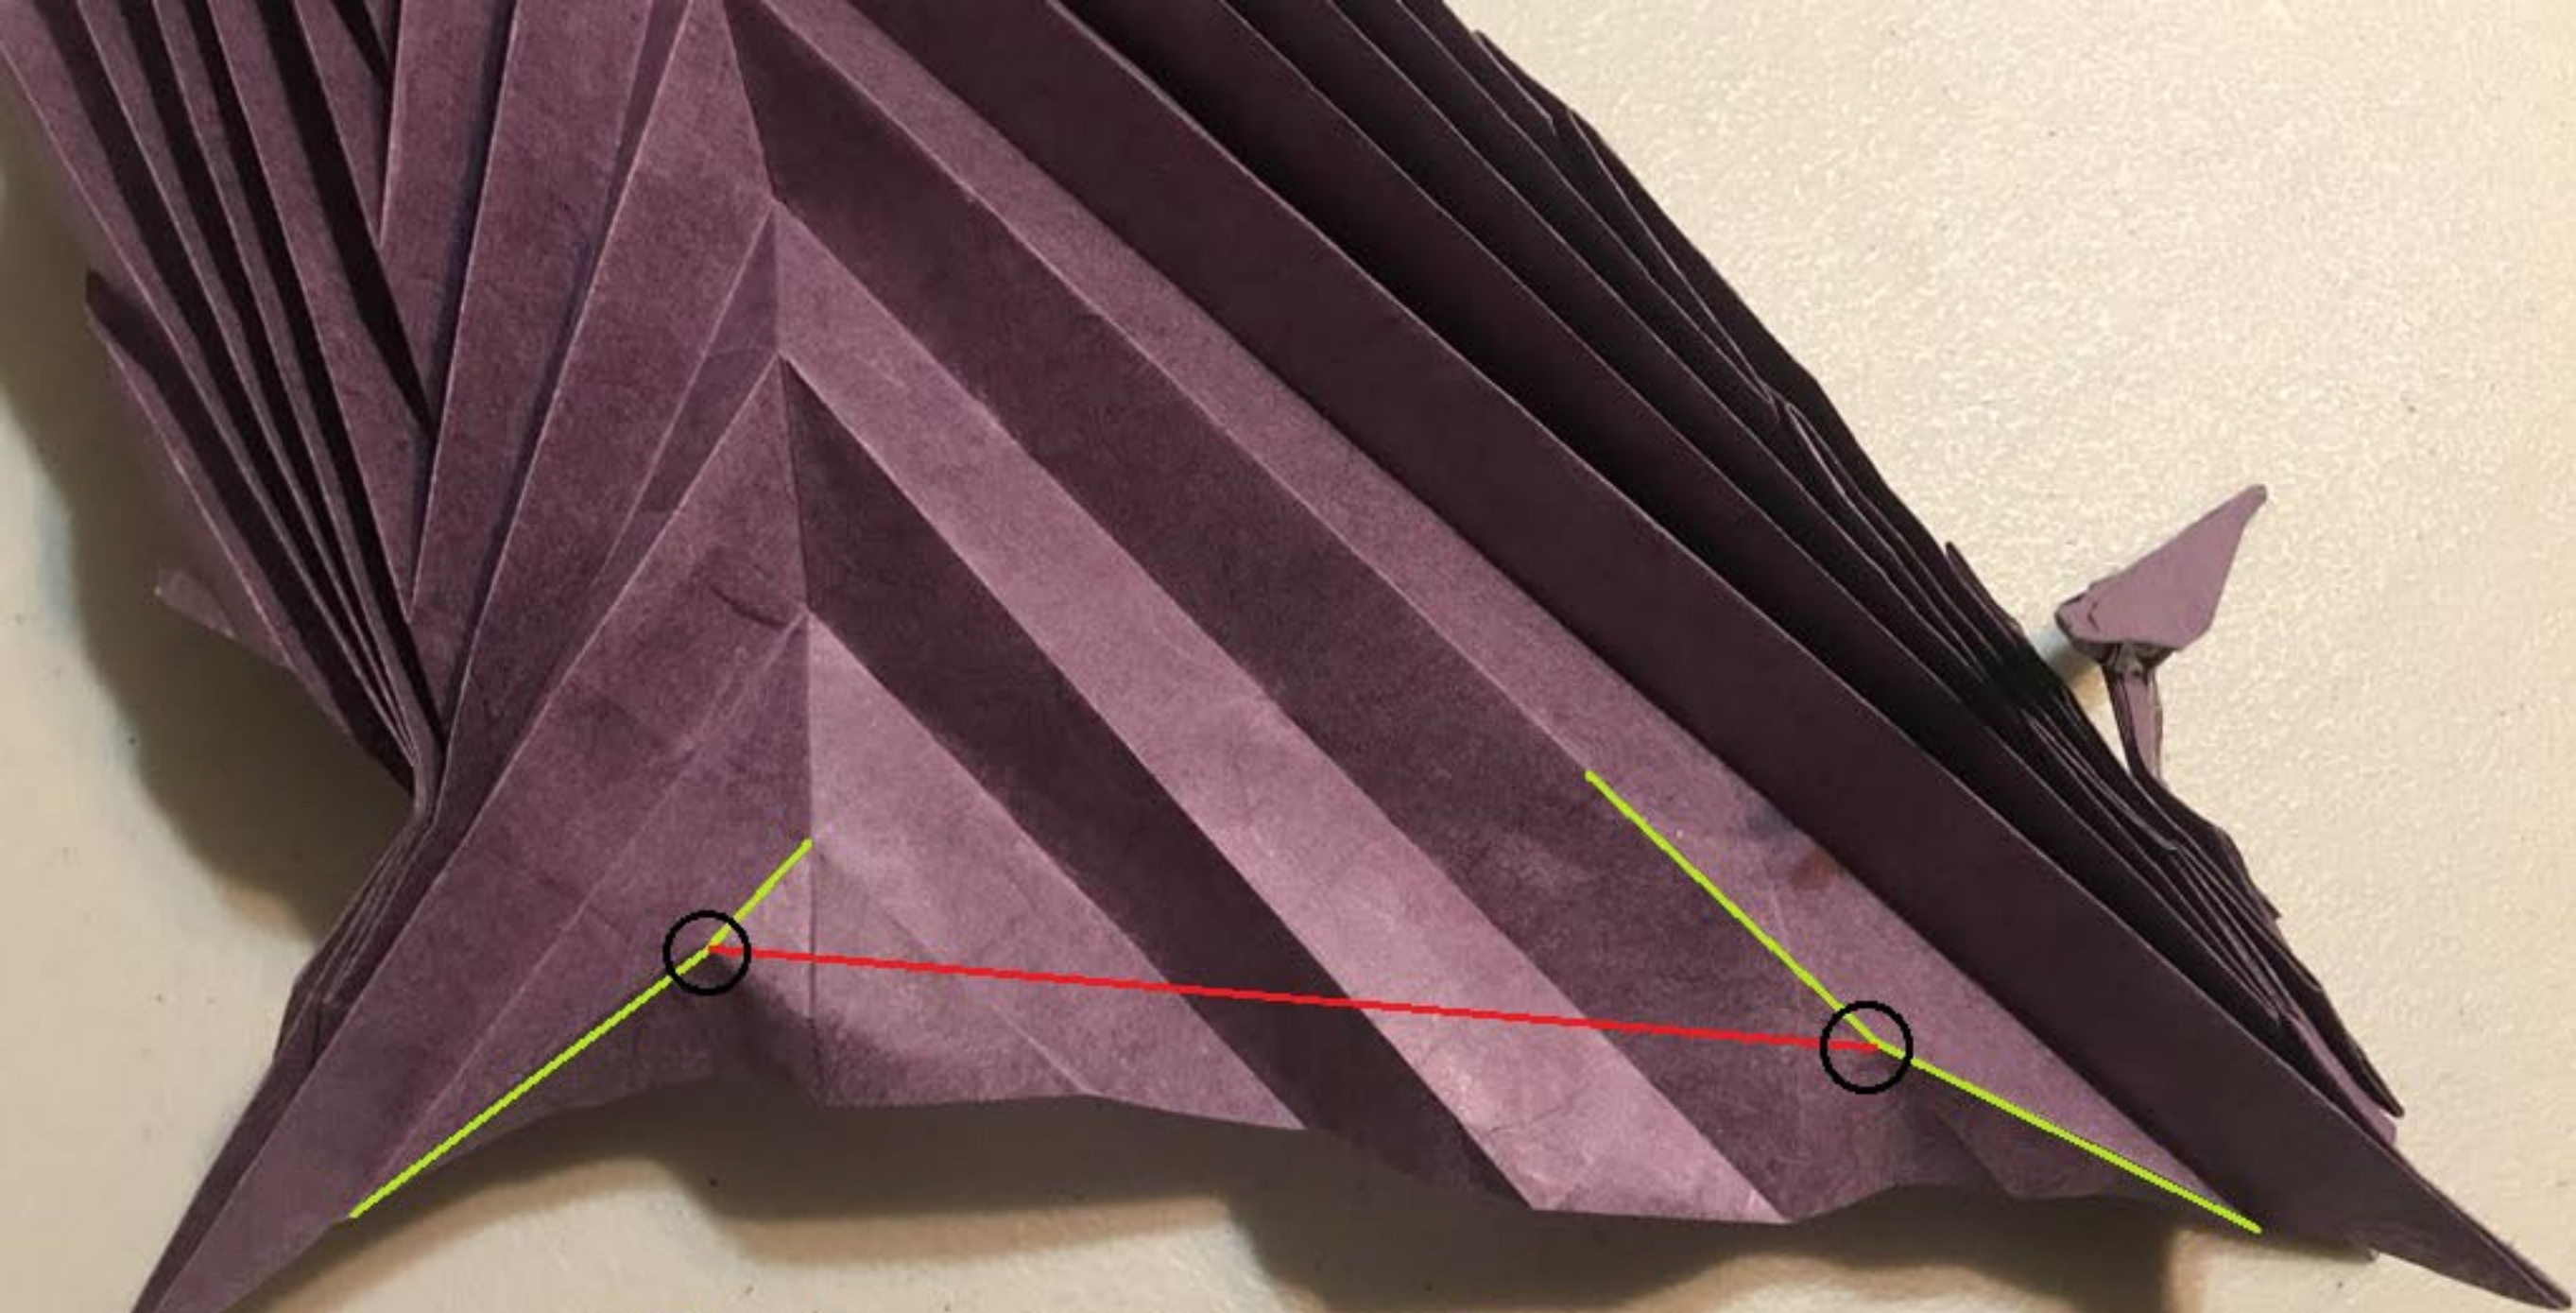

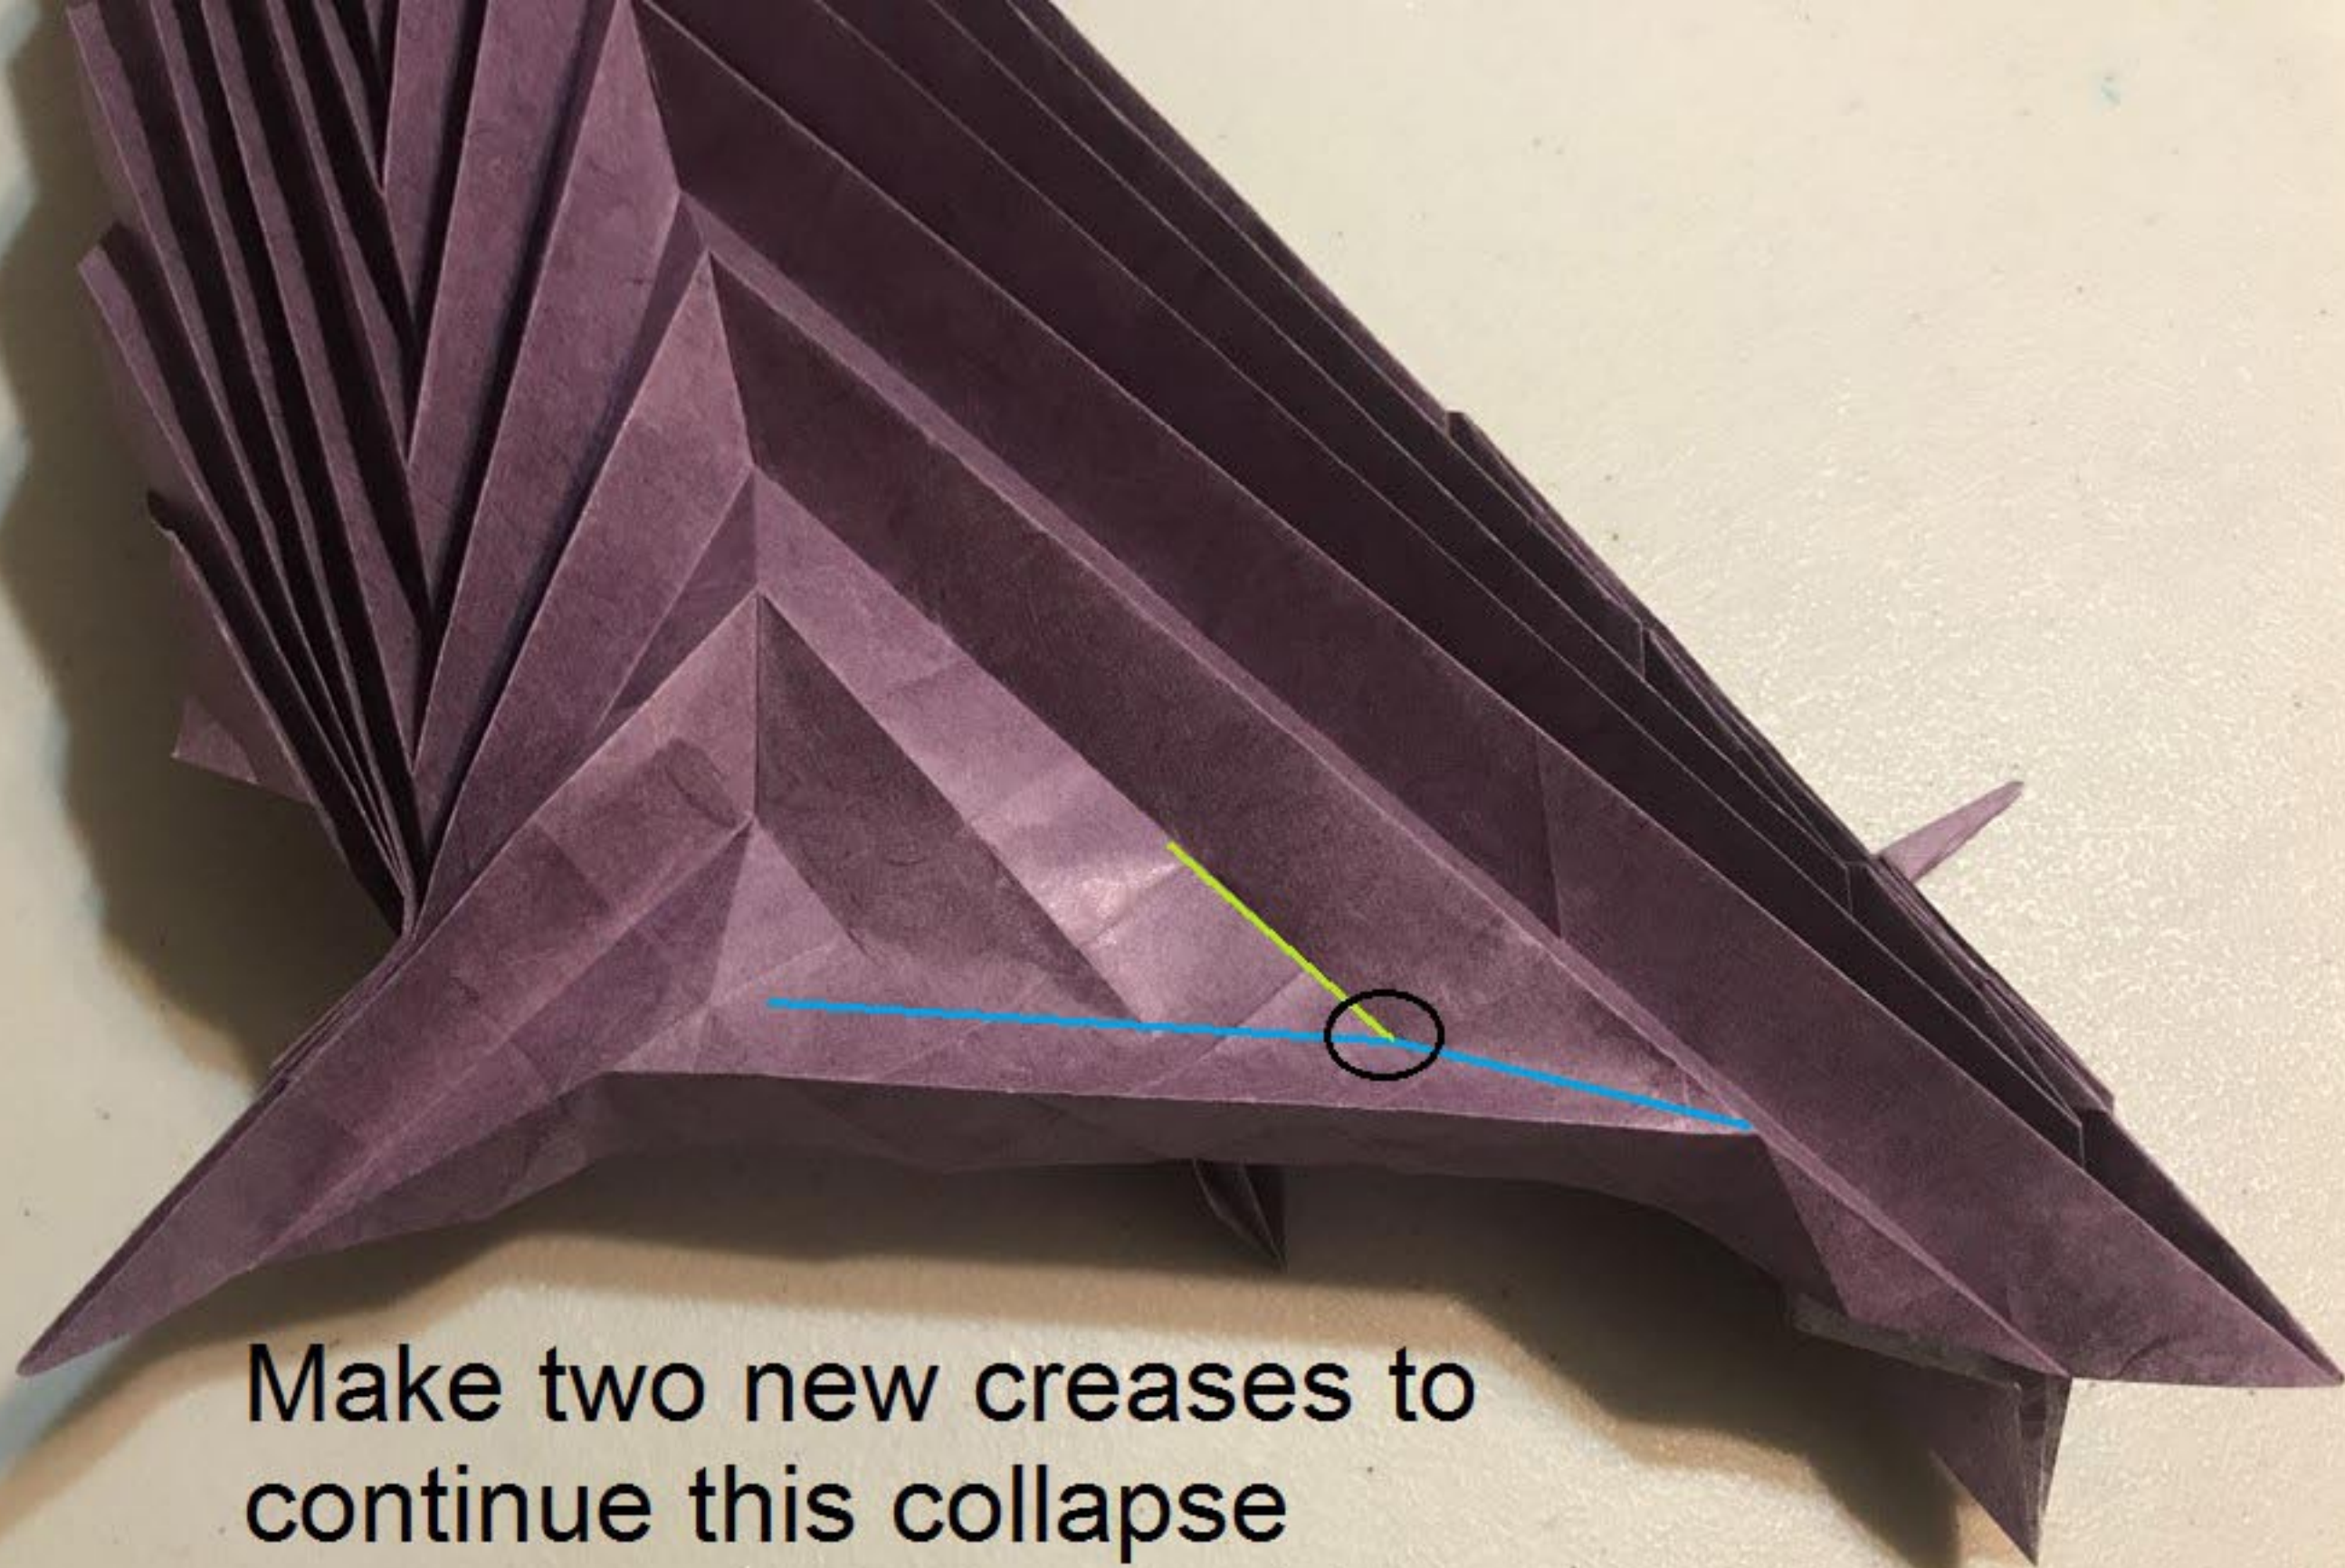

Open up
this area

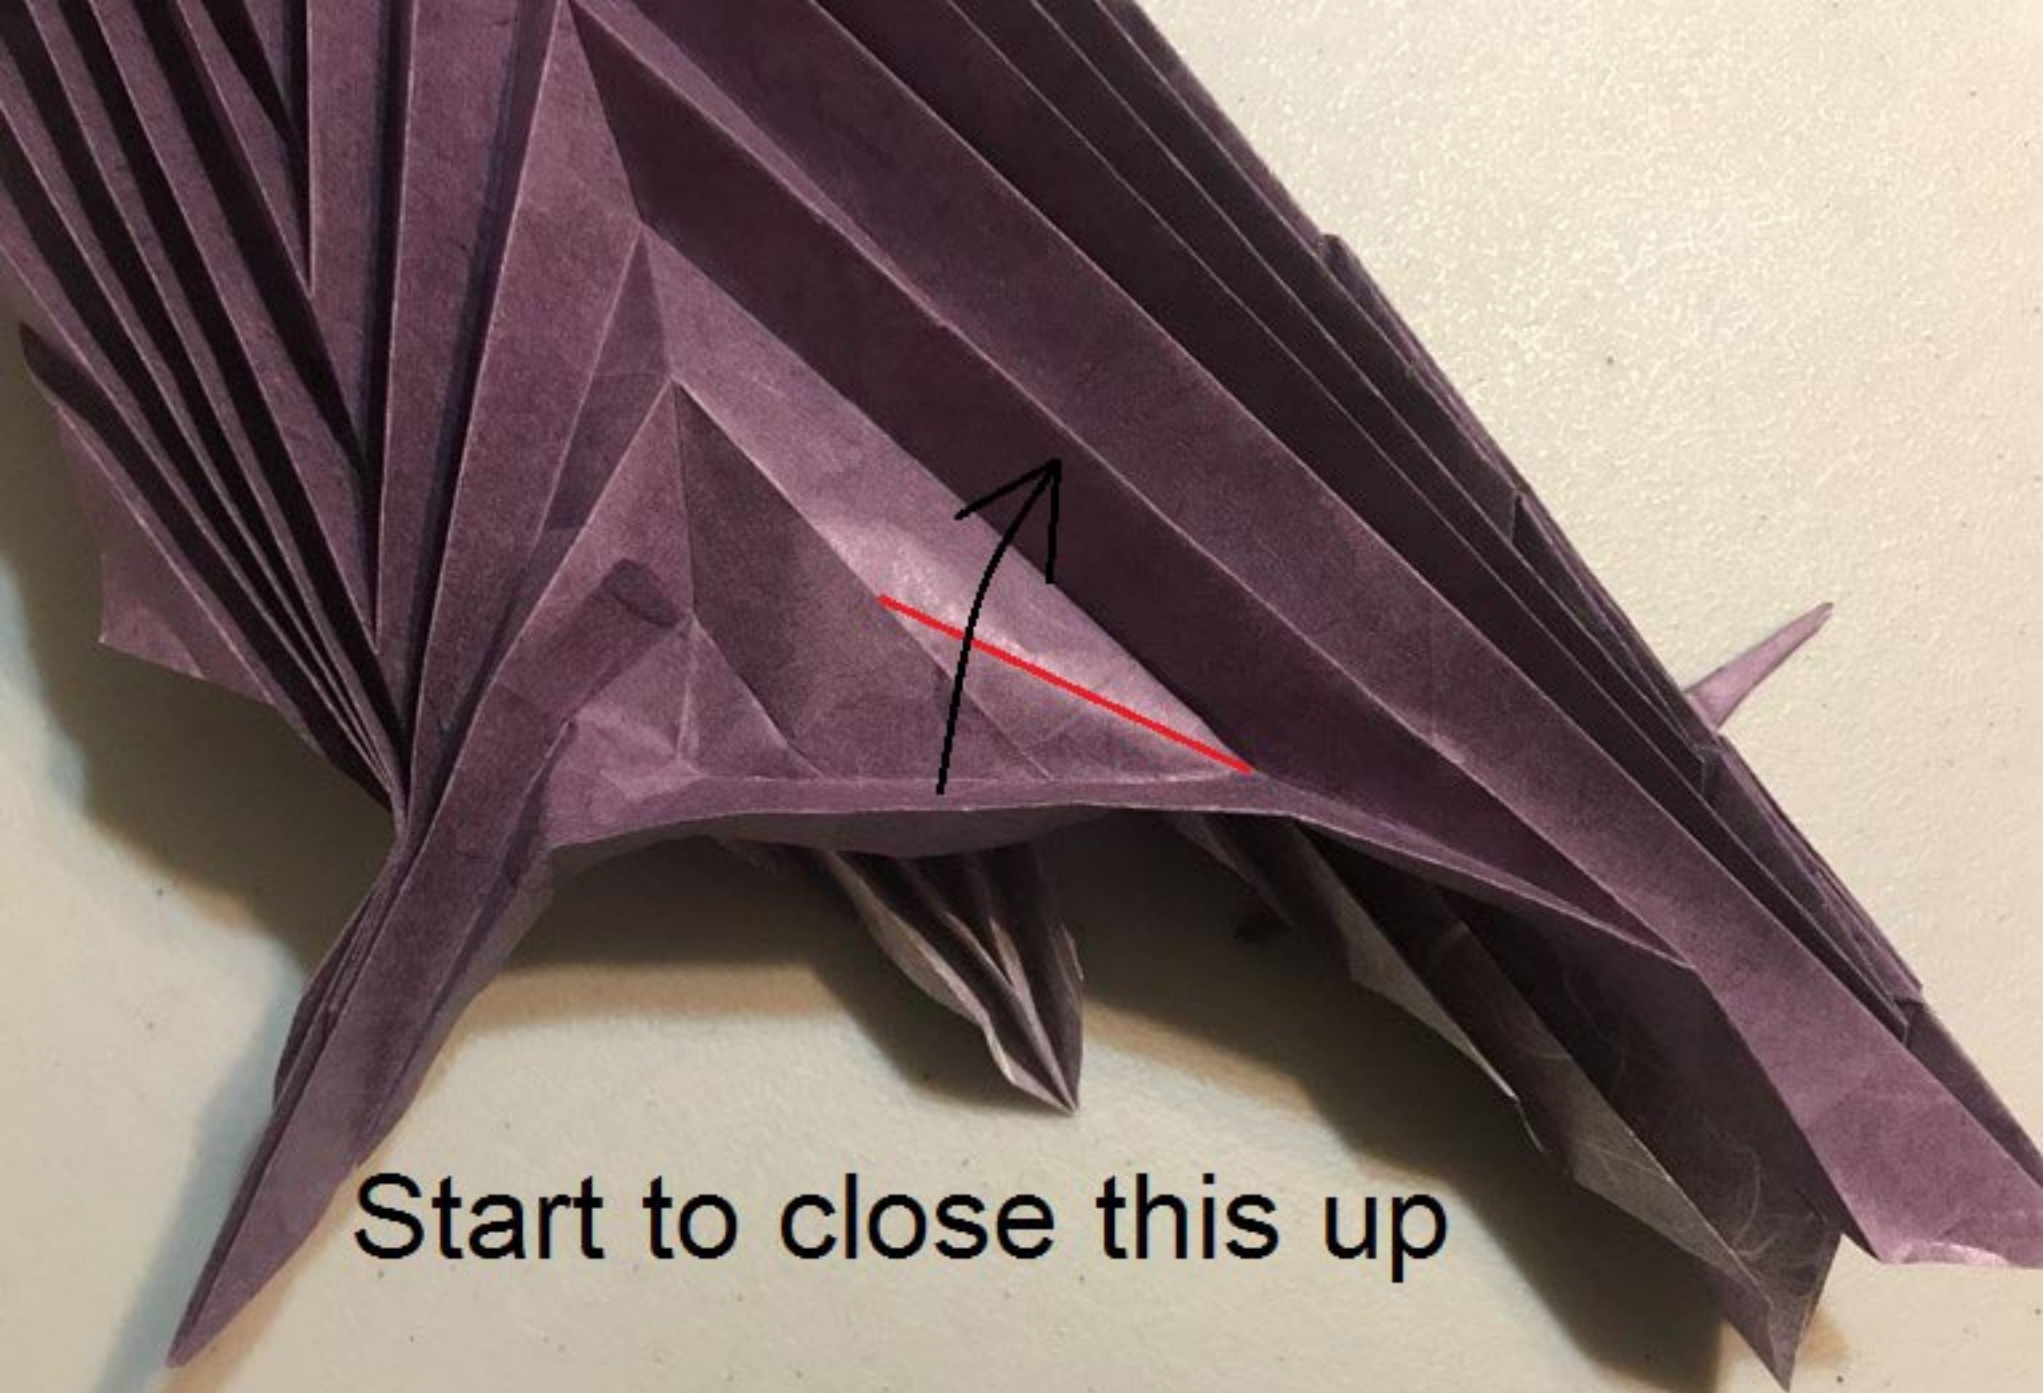

Begin two 22.5° creases

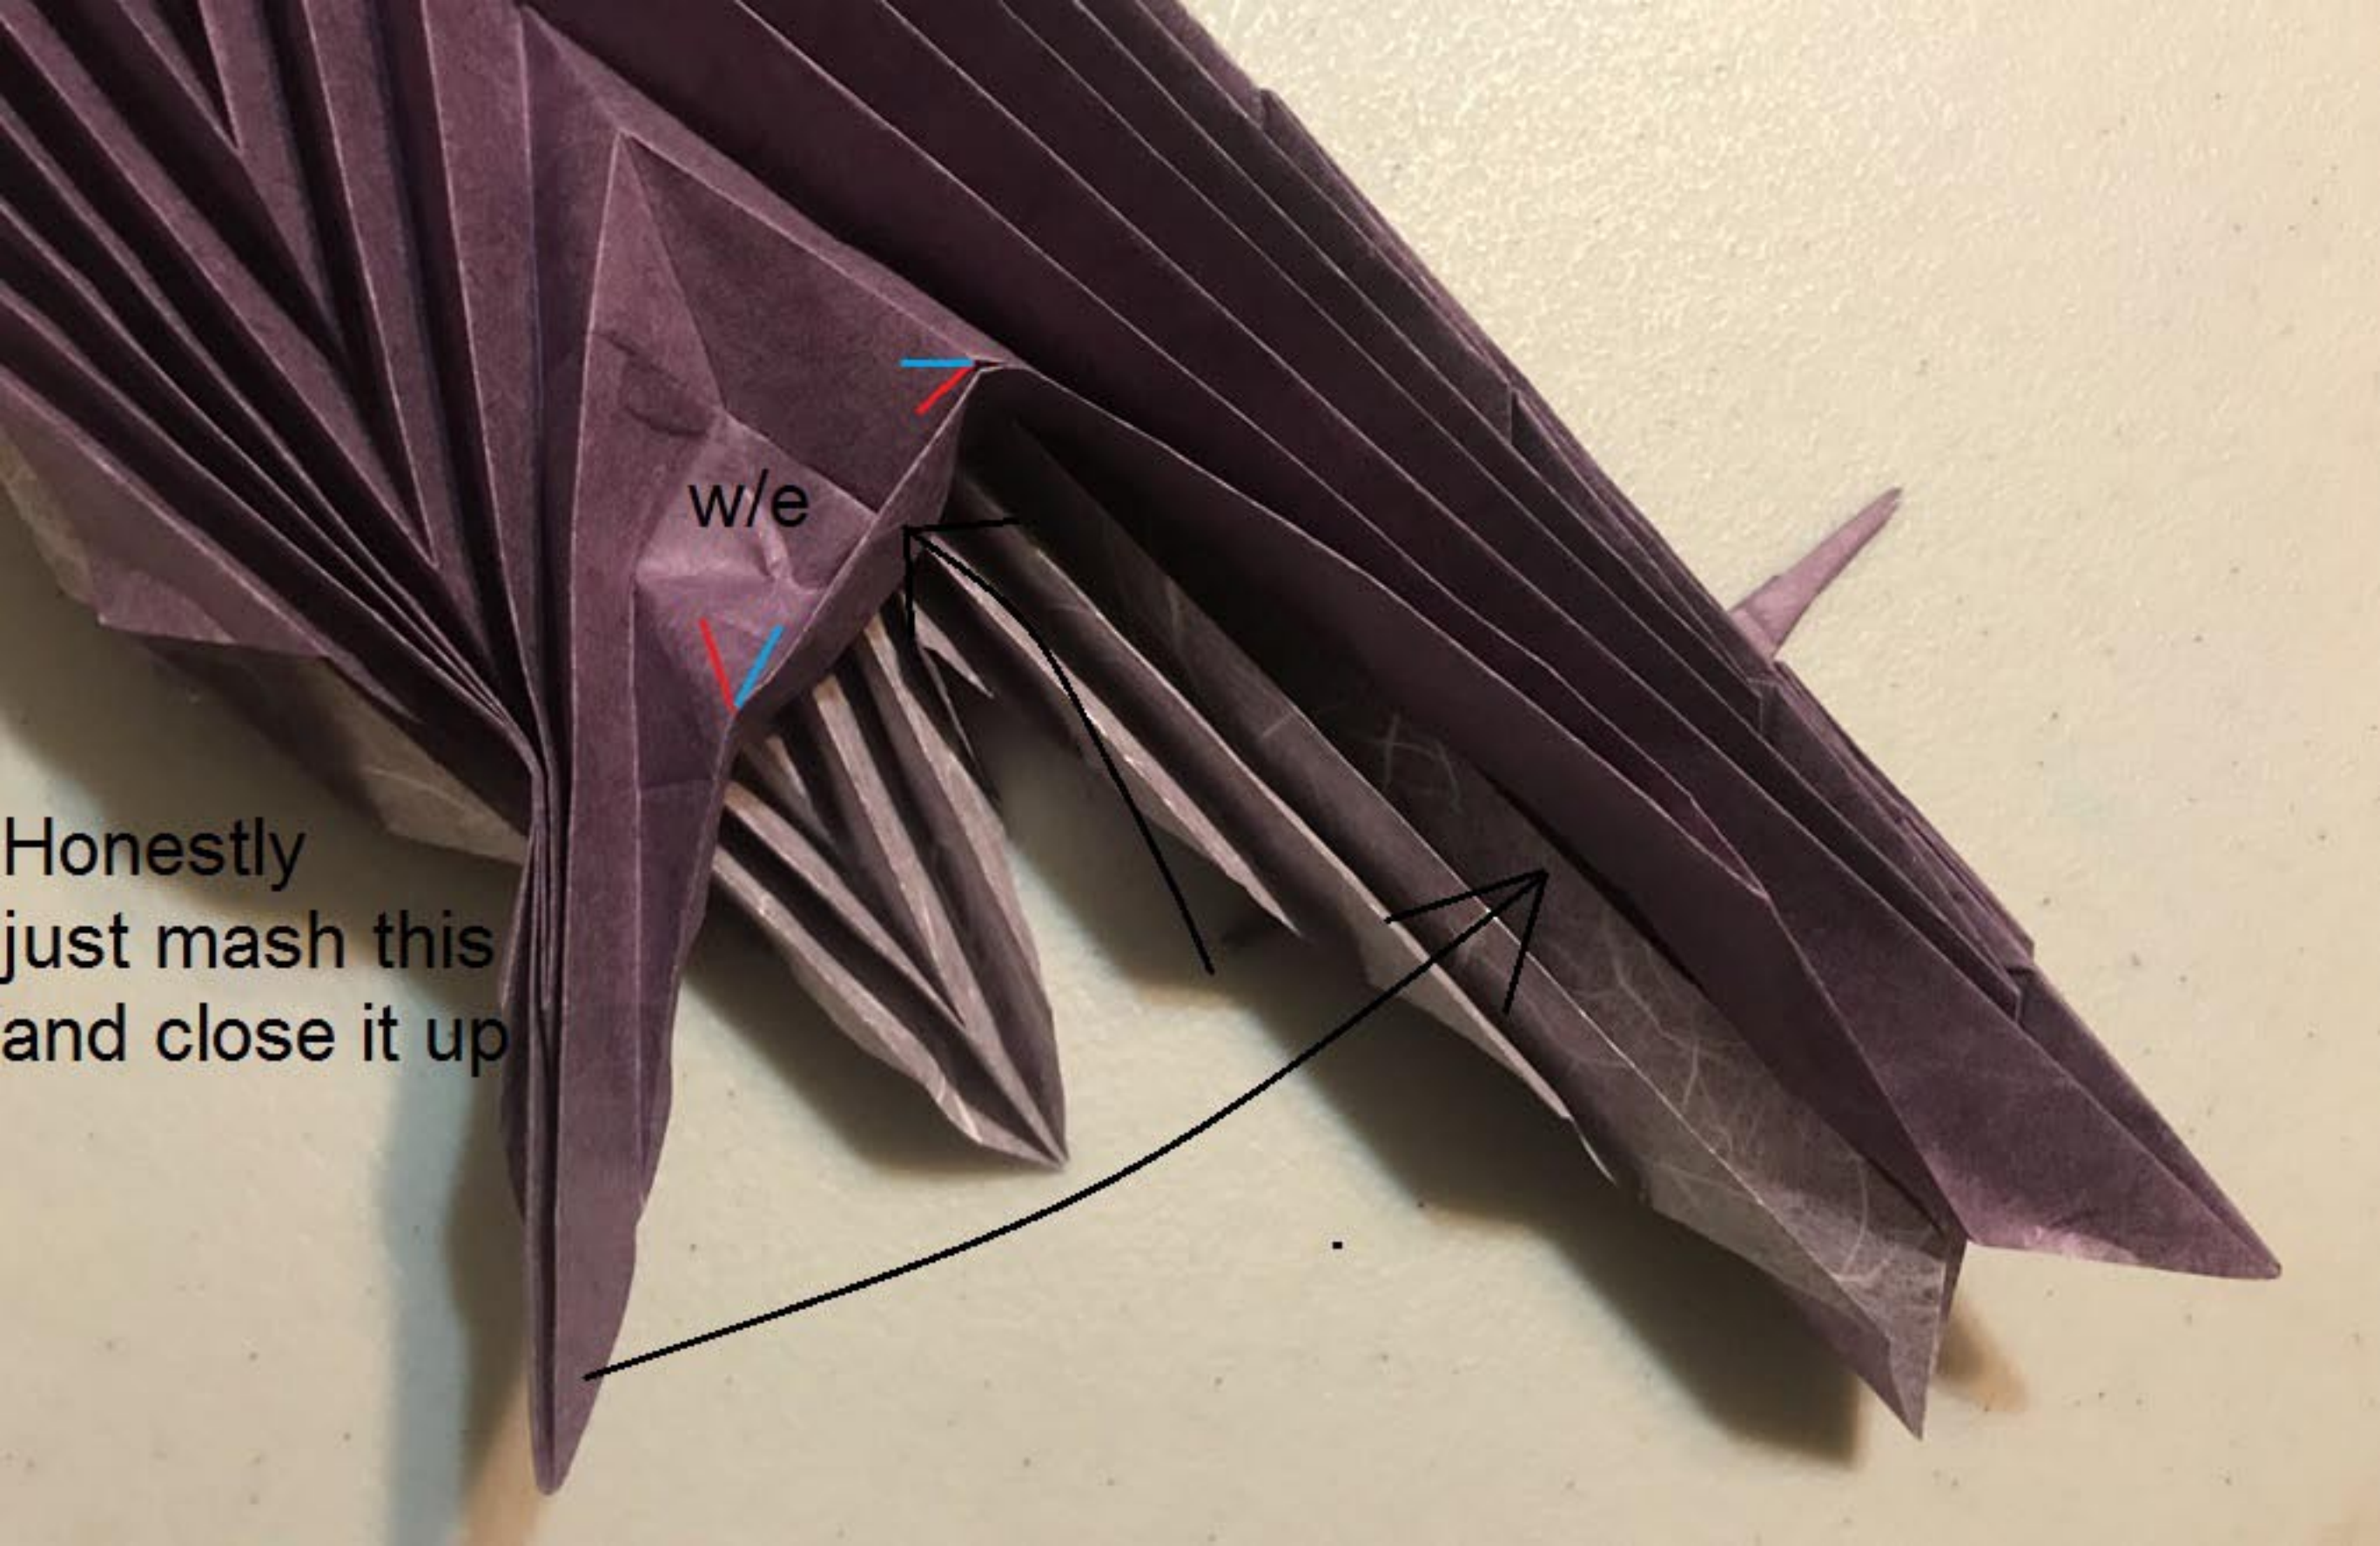

Make a connecting crease

Make two new creases to
continue this collapse

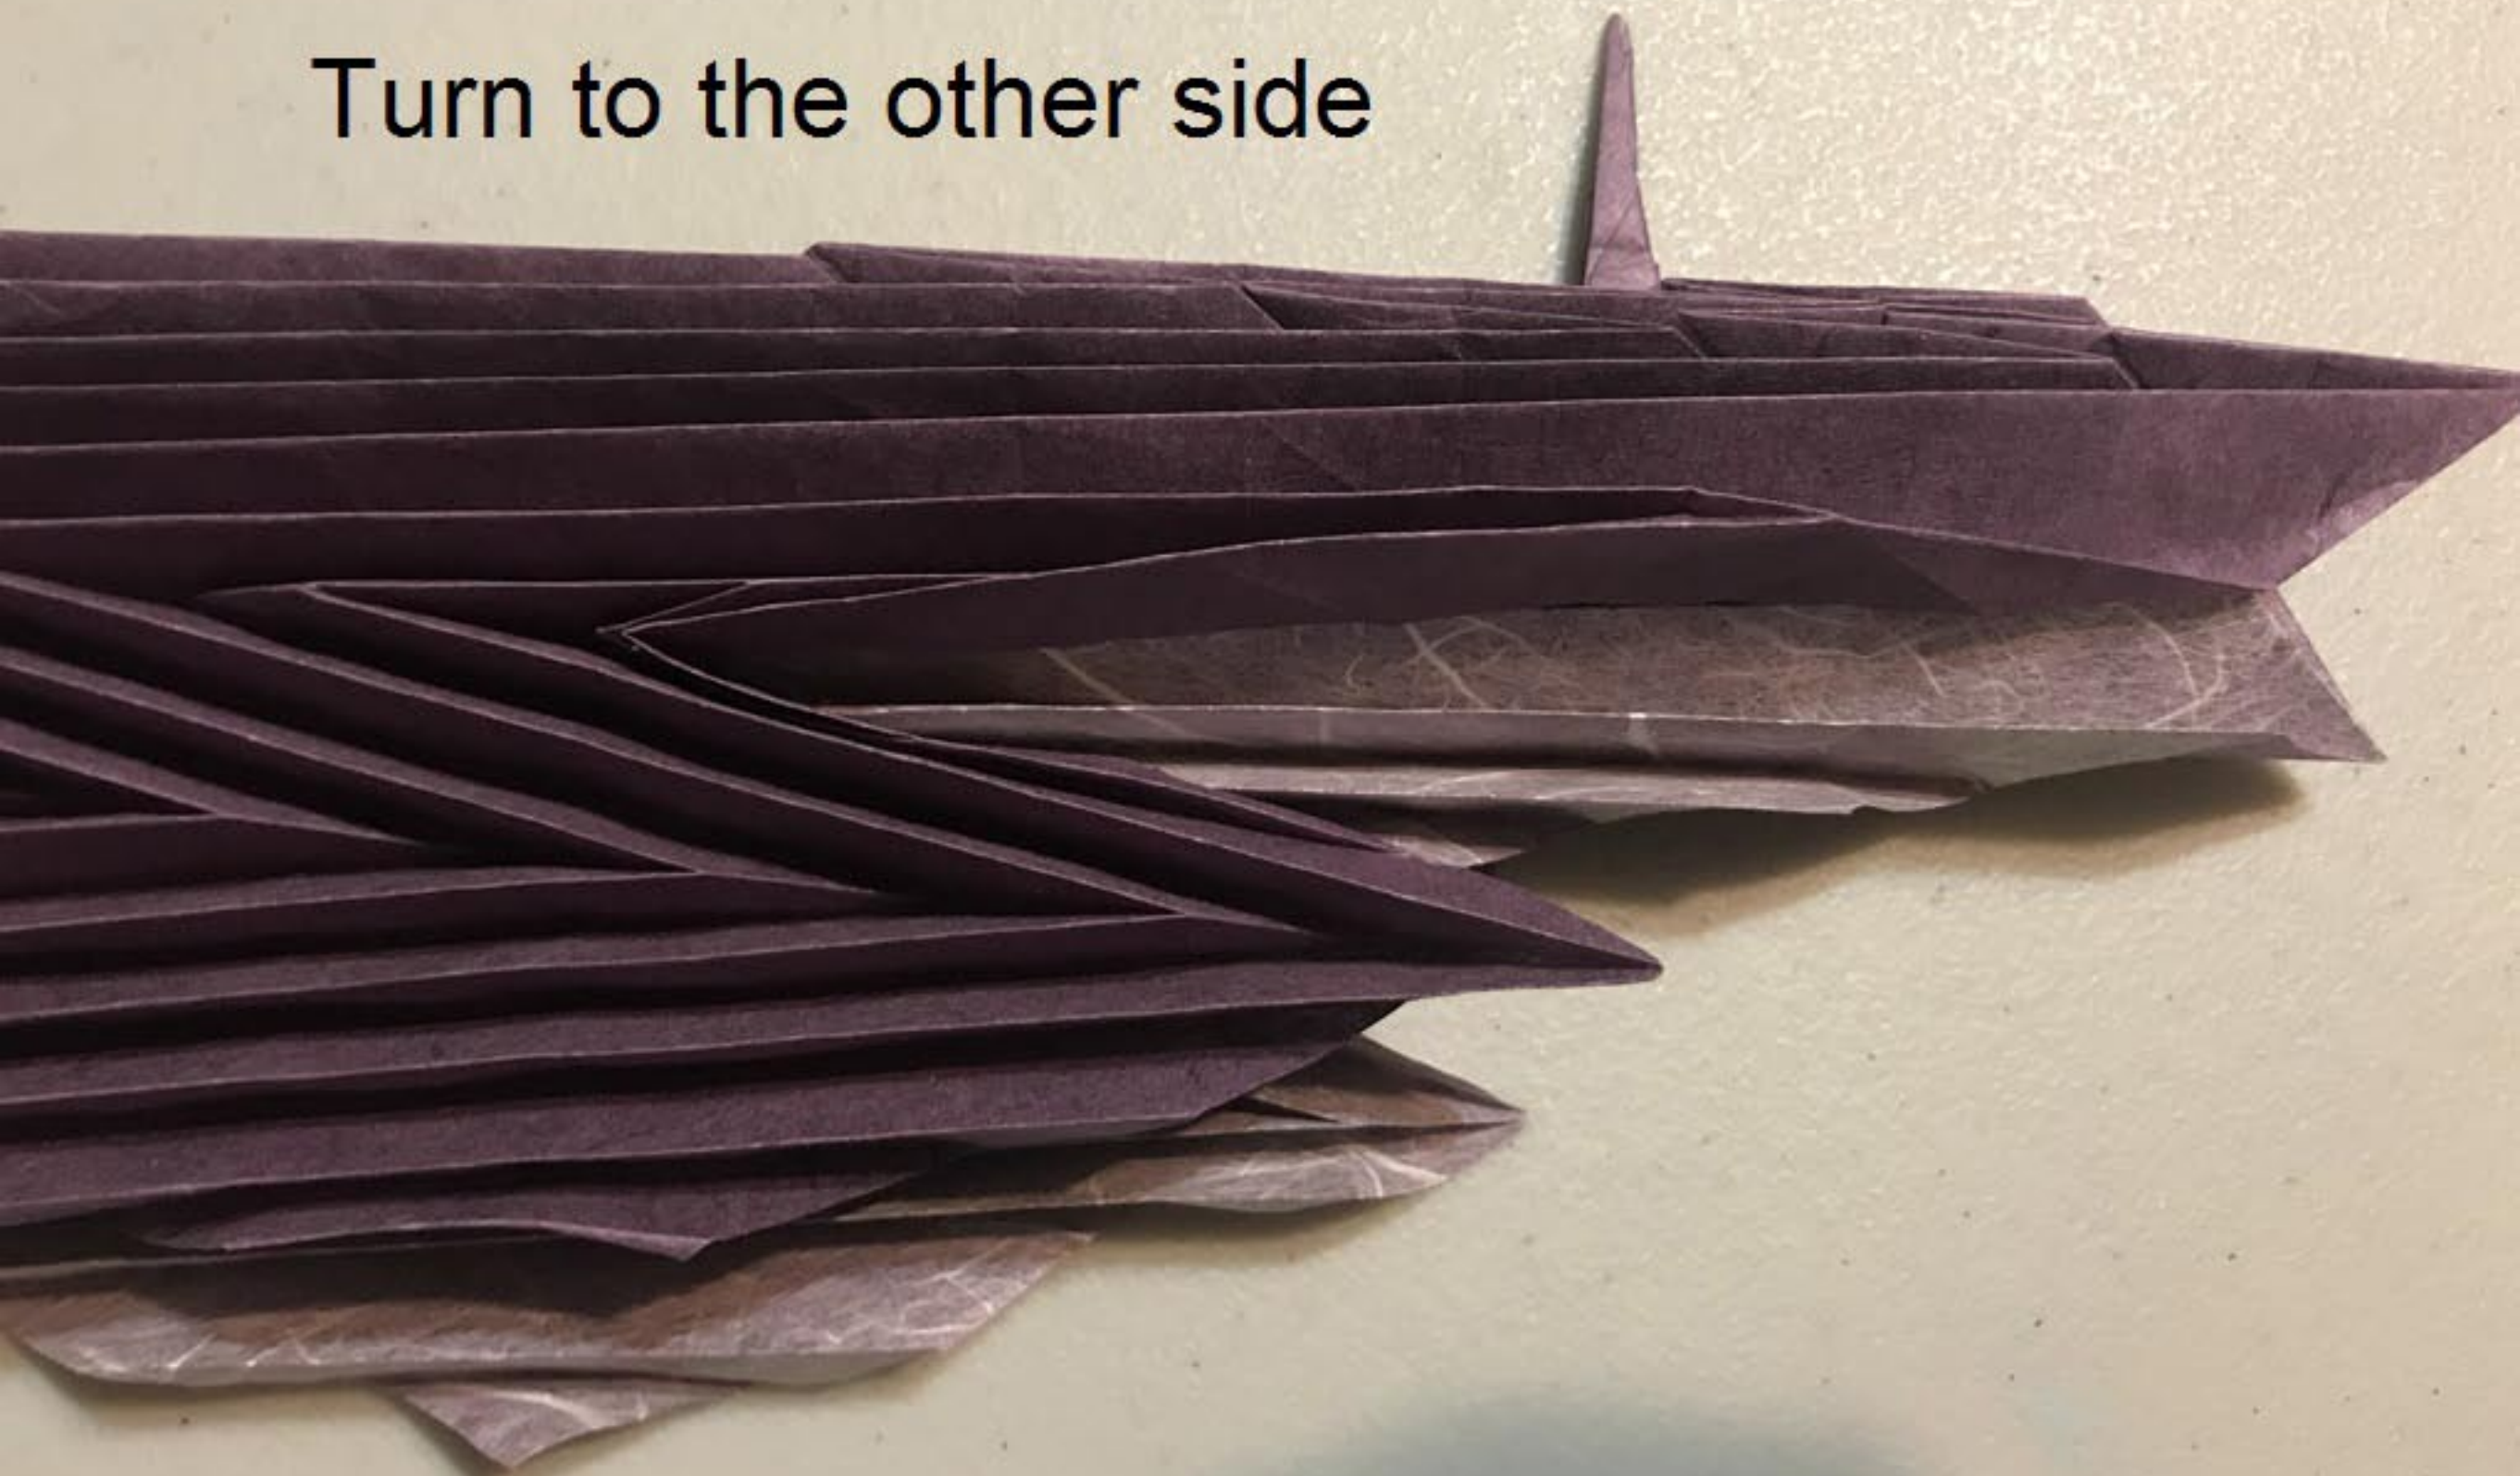

Start to close this up

w/e

Honestly
just mash this
and close it up

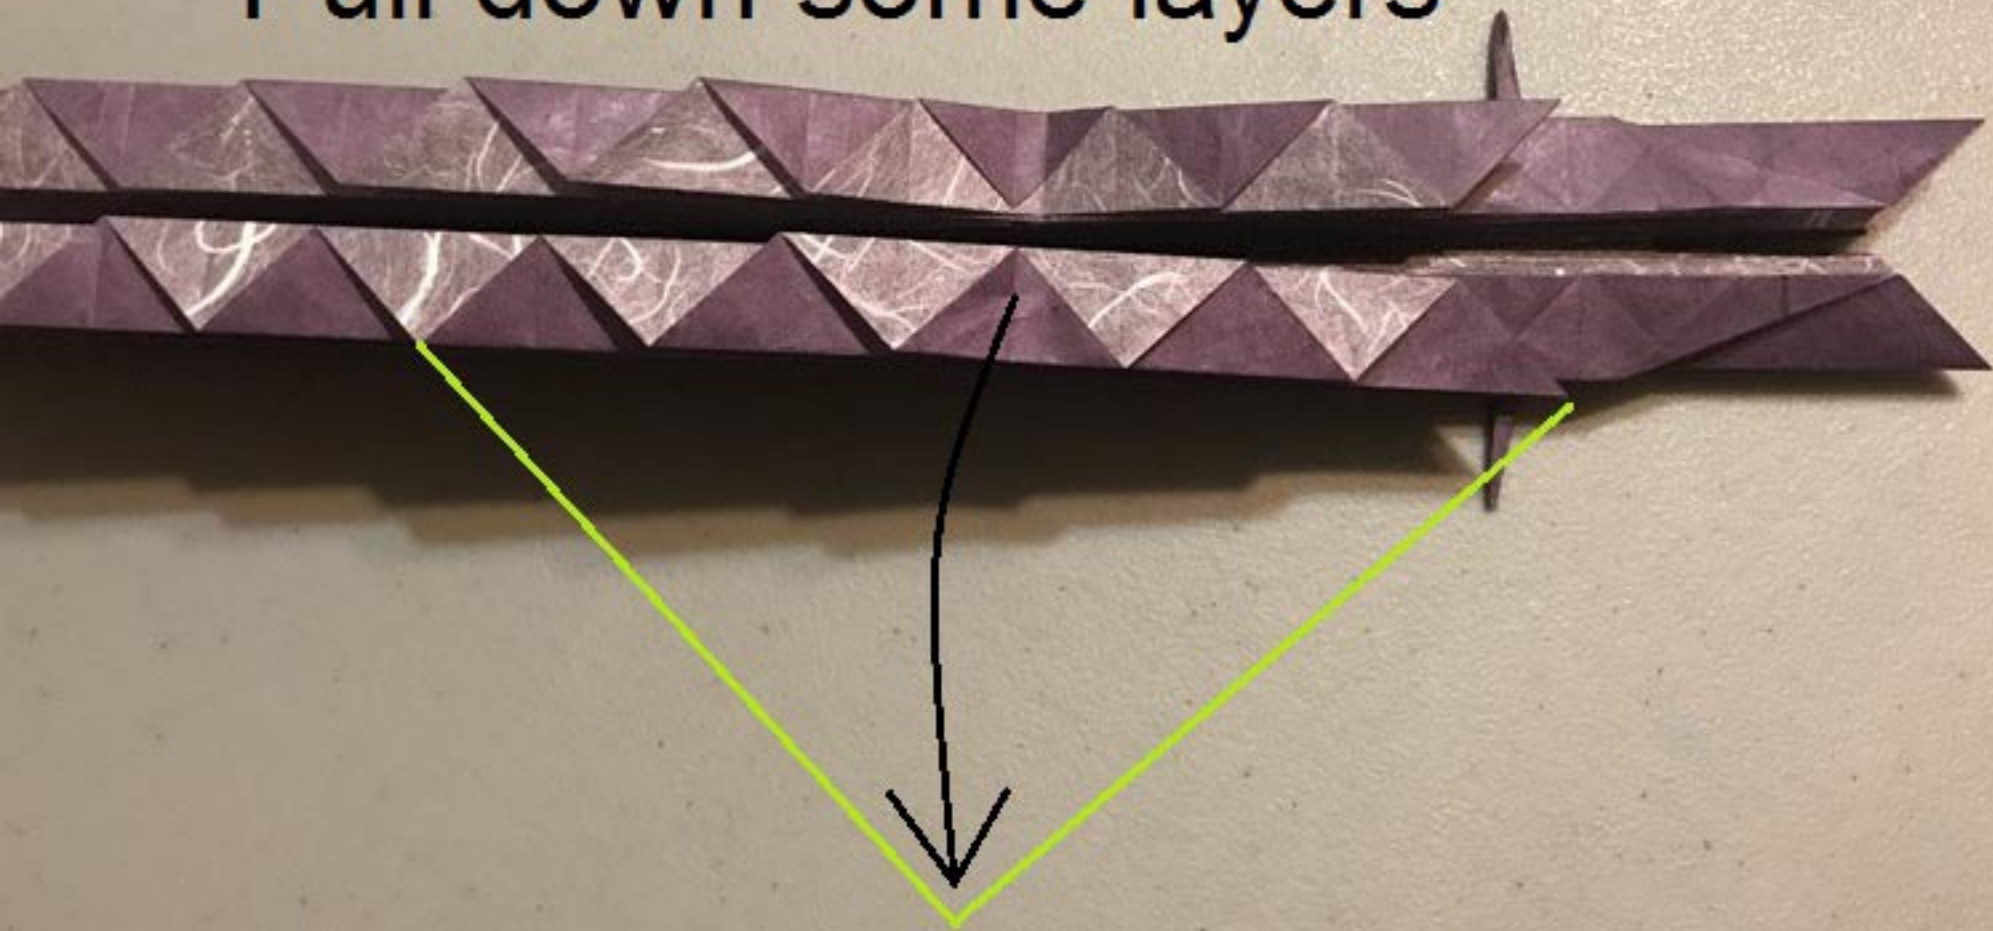

Turn to the other side

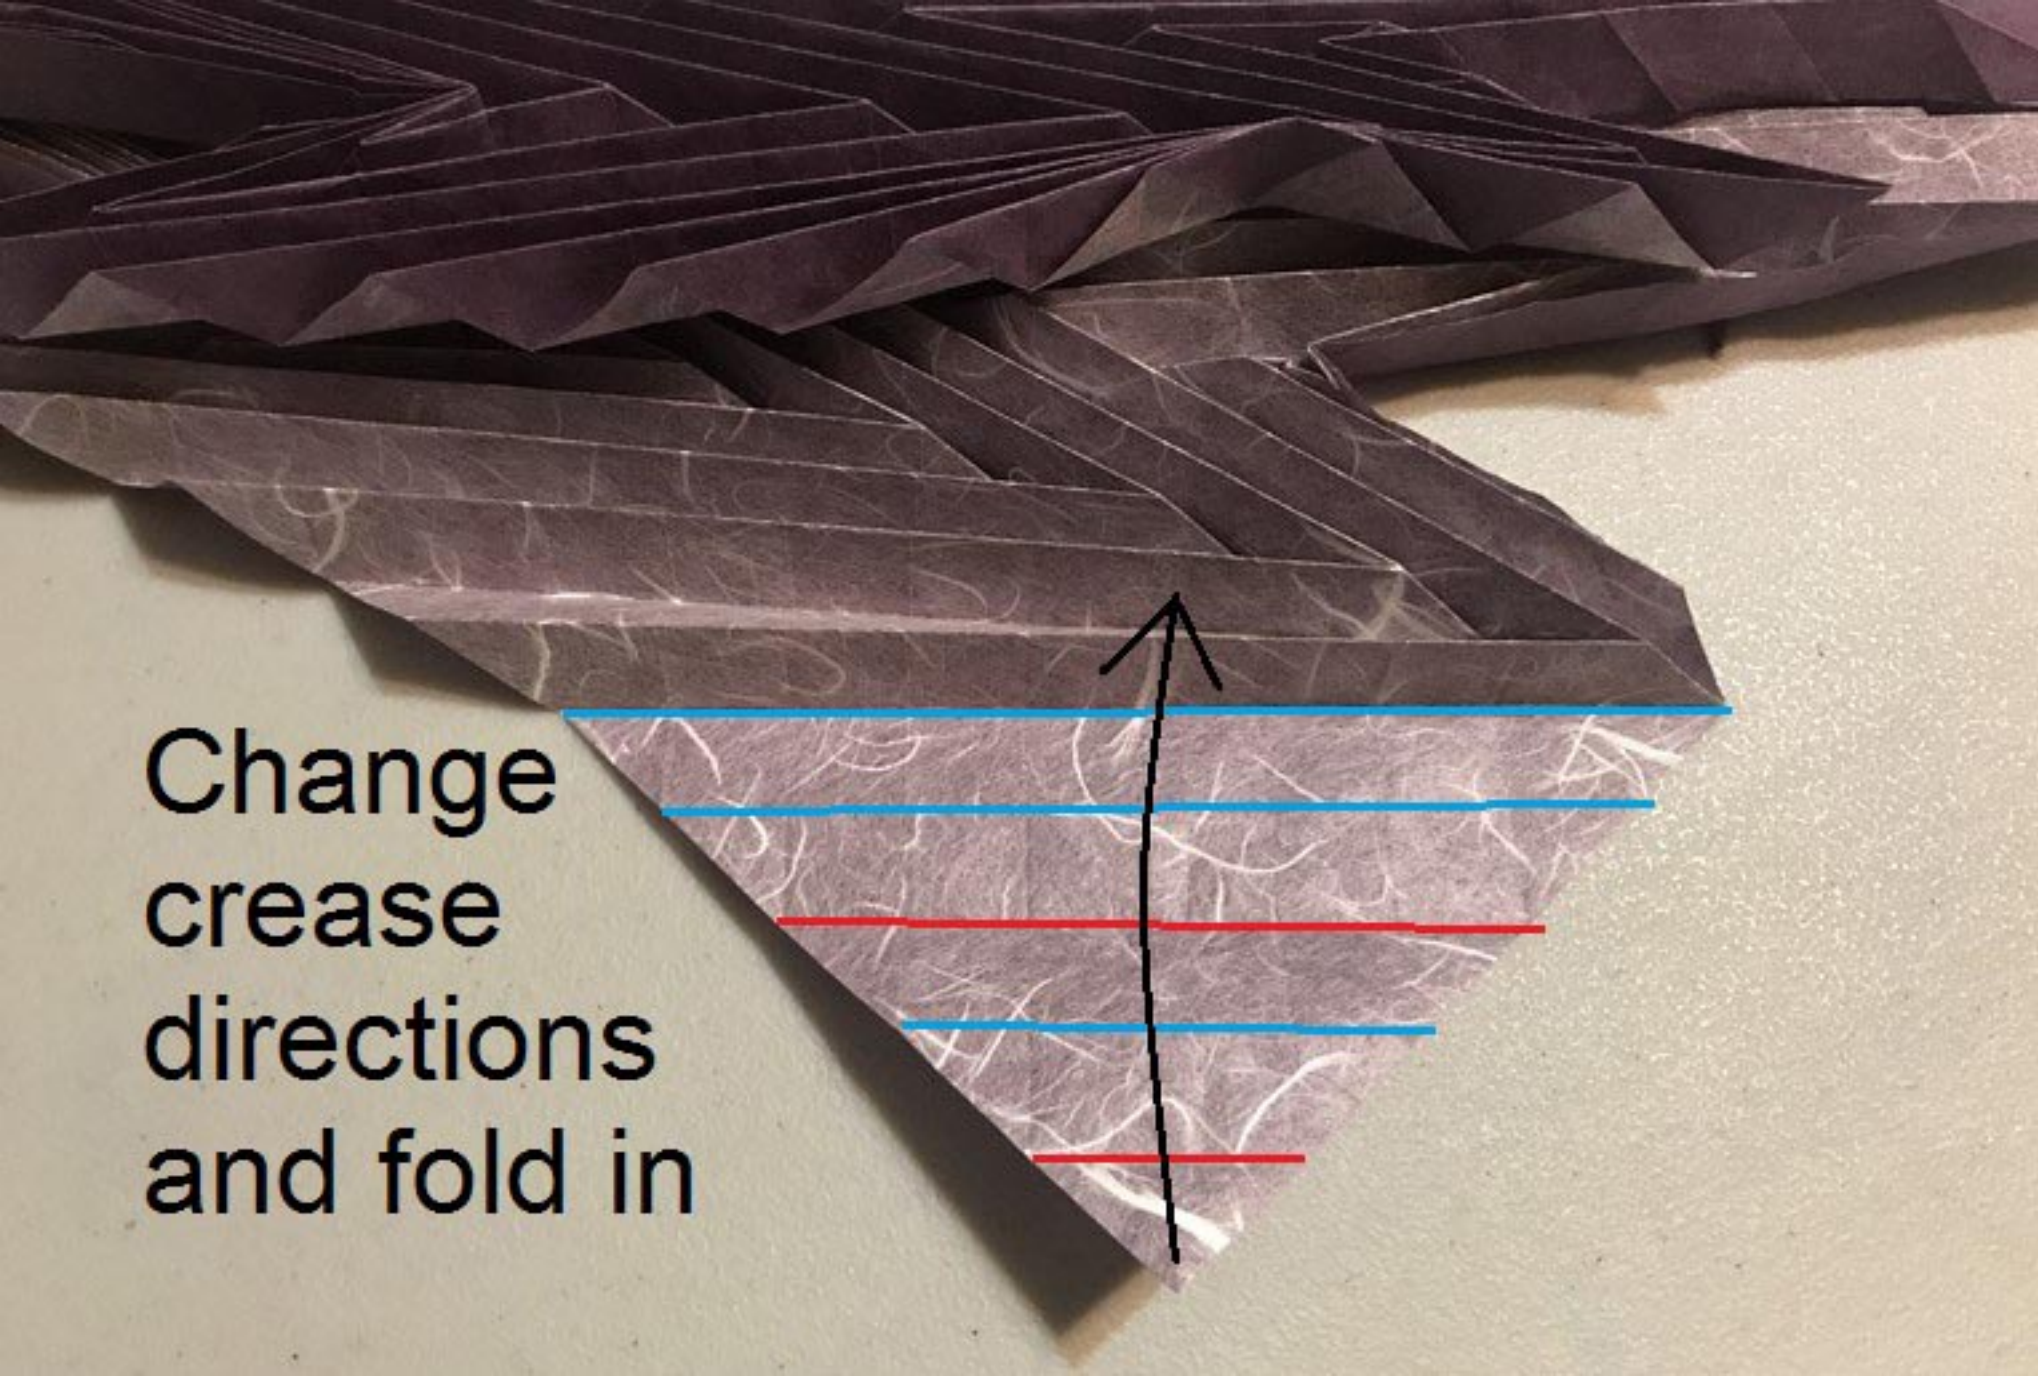

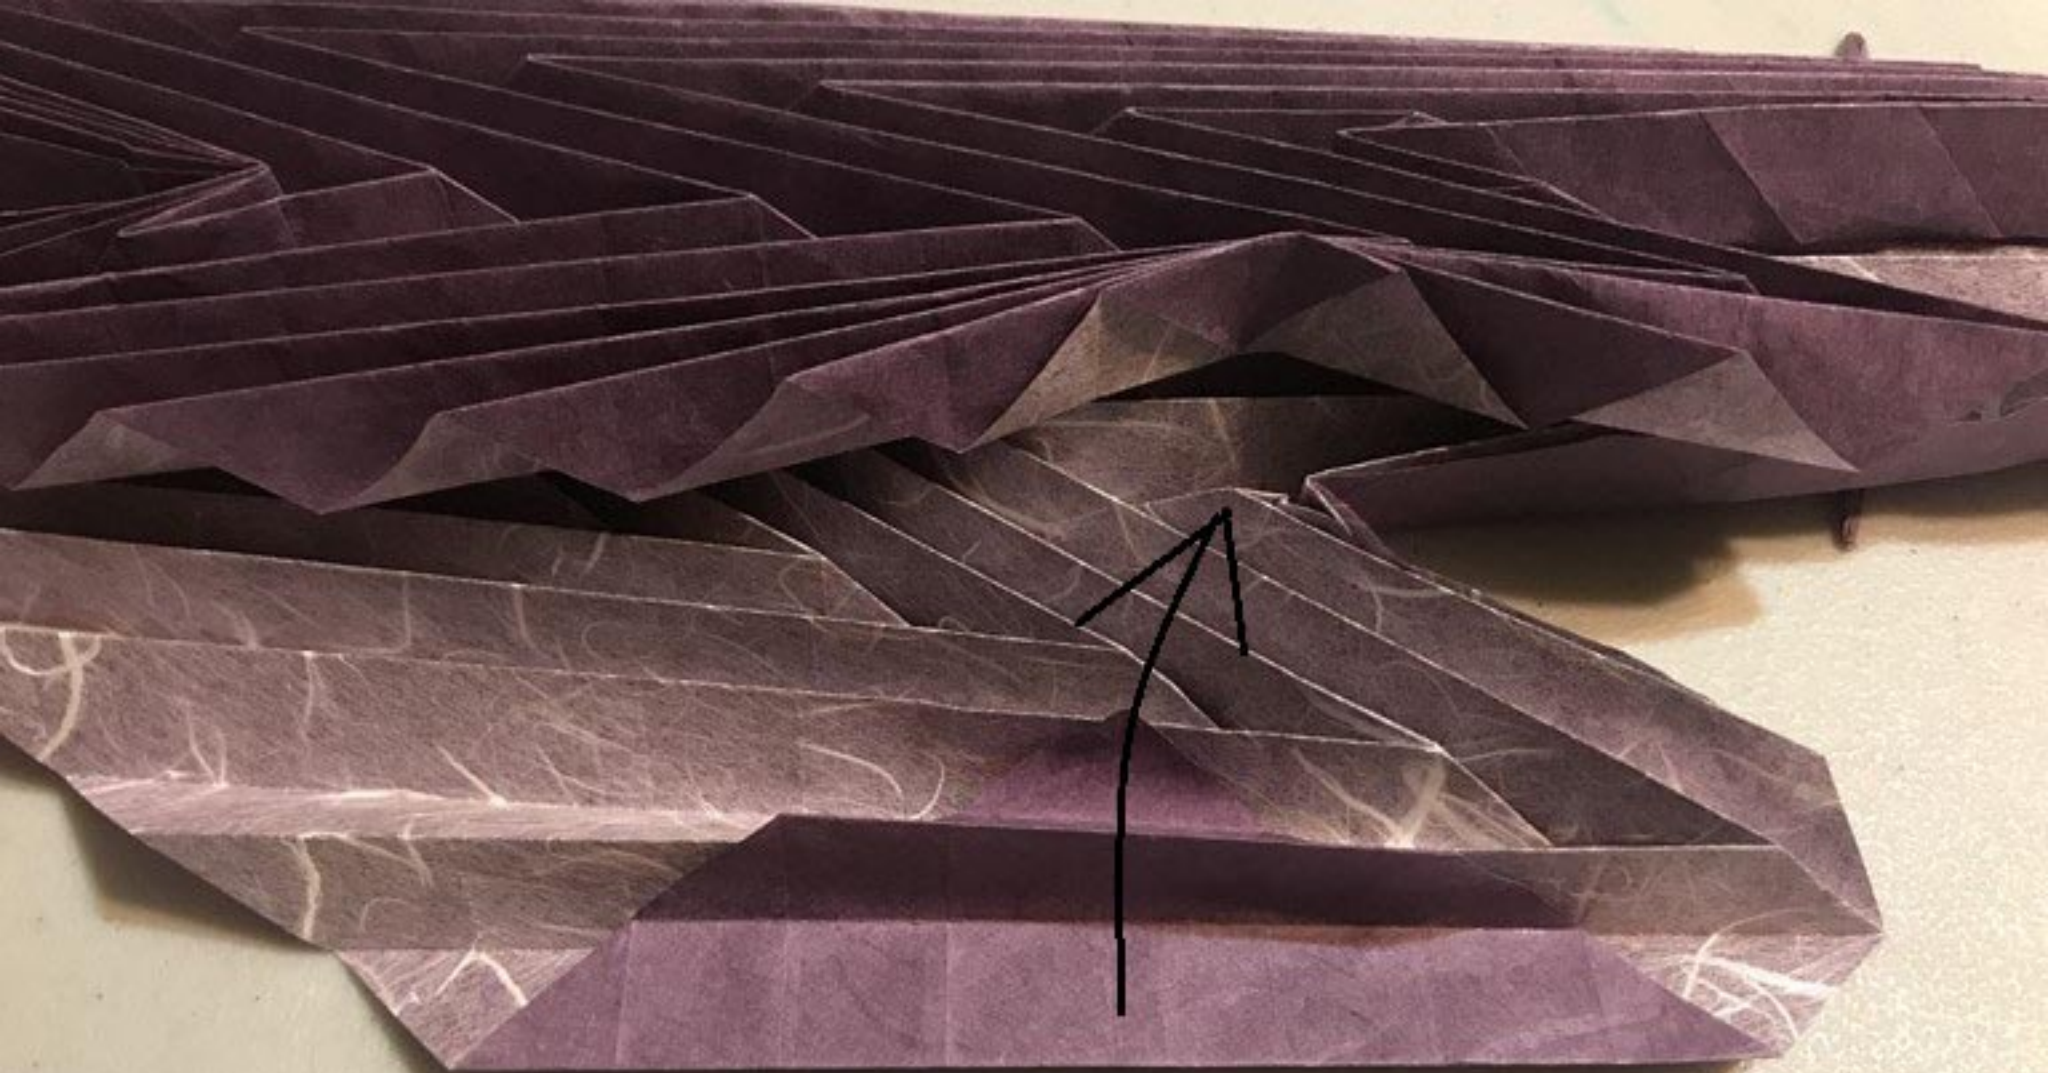

Repeat on this side

Pull down some layers

Change
crease
directions
and fold in

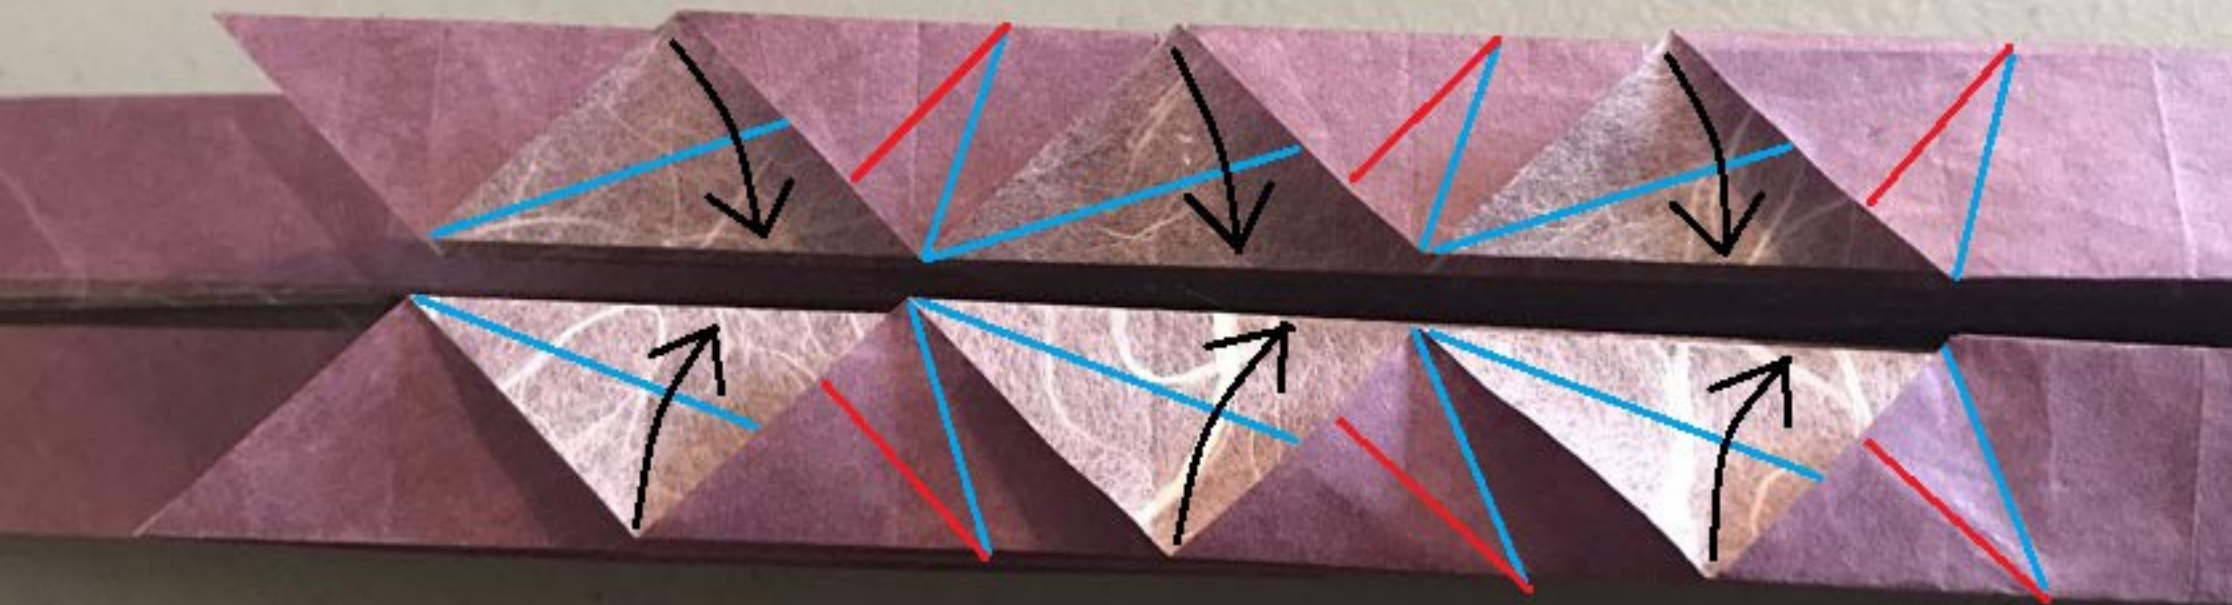

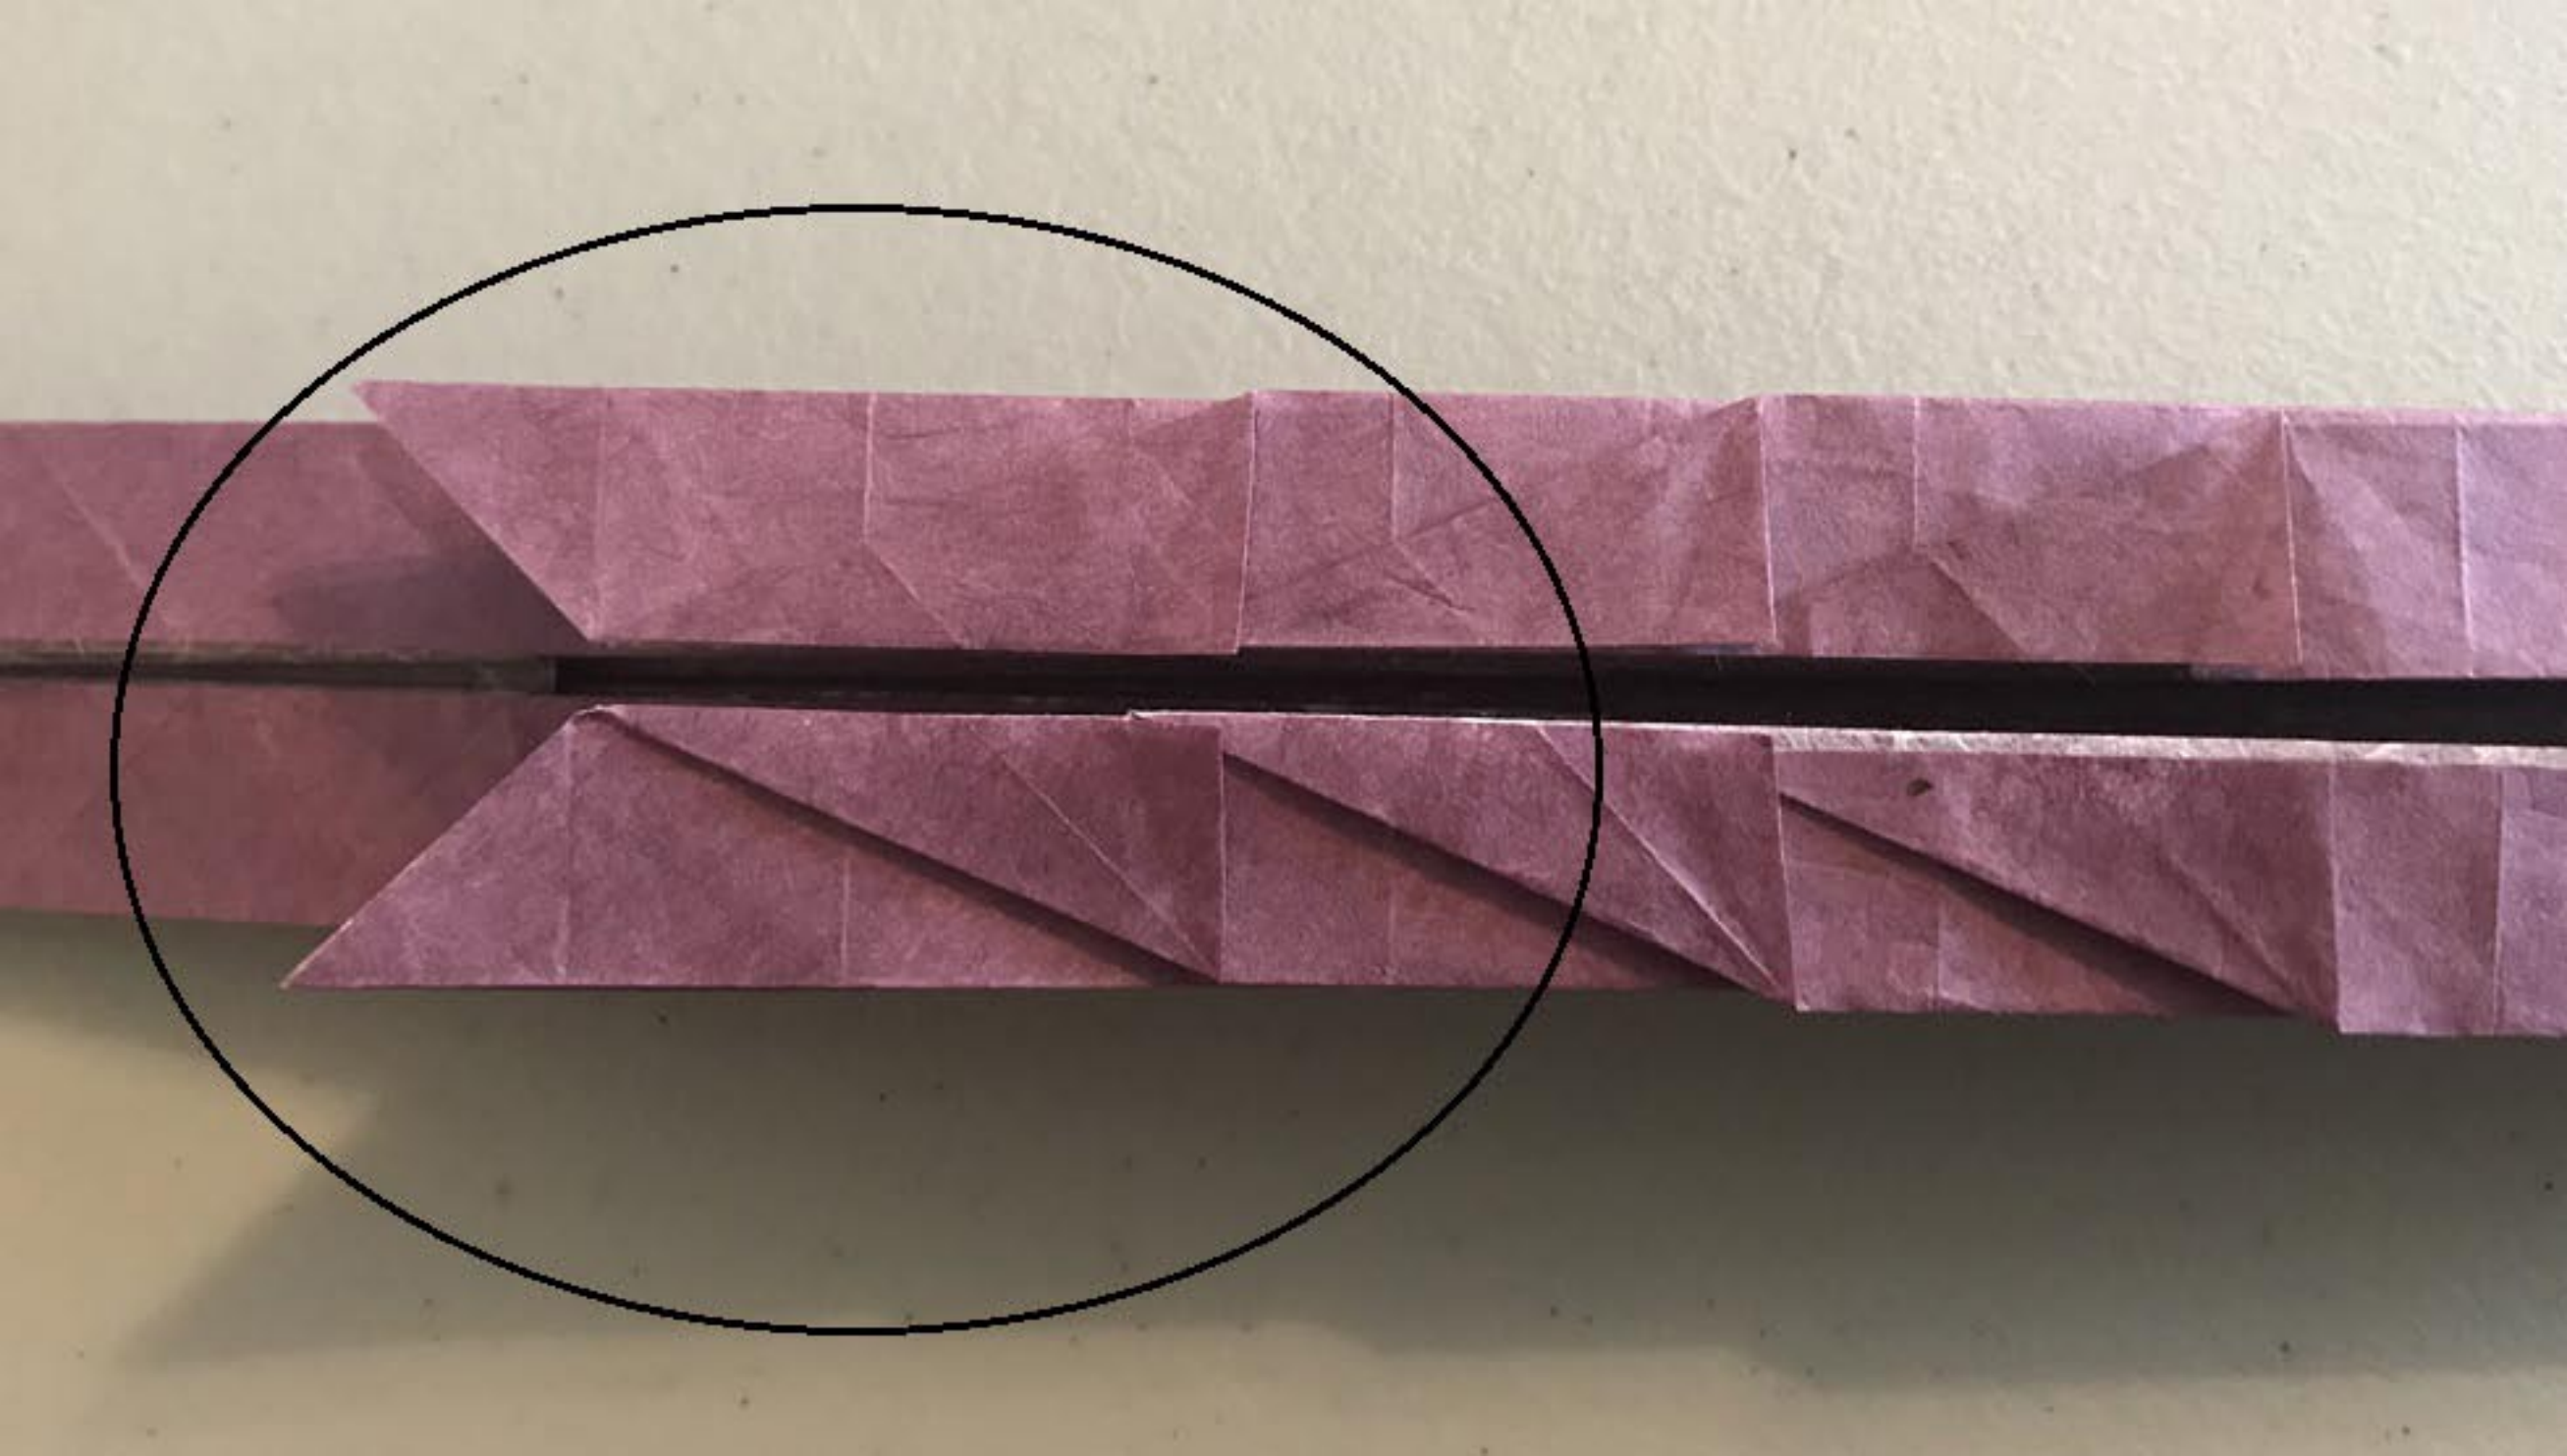

Close up

Repeat on the other
side

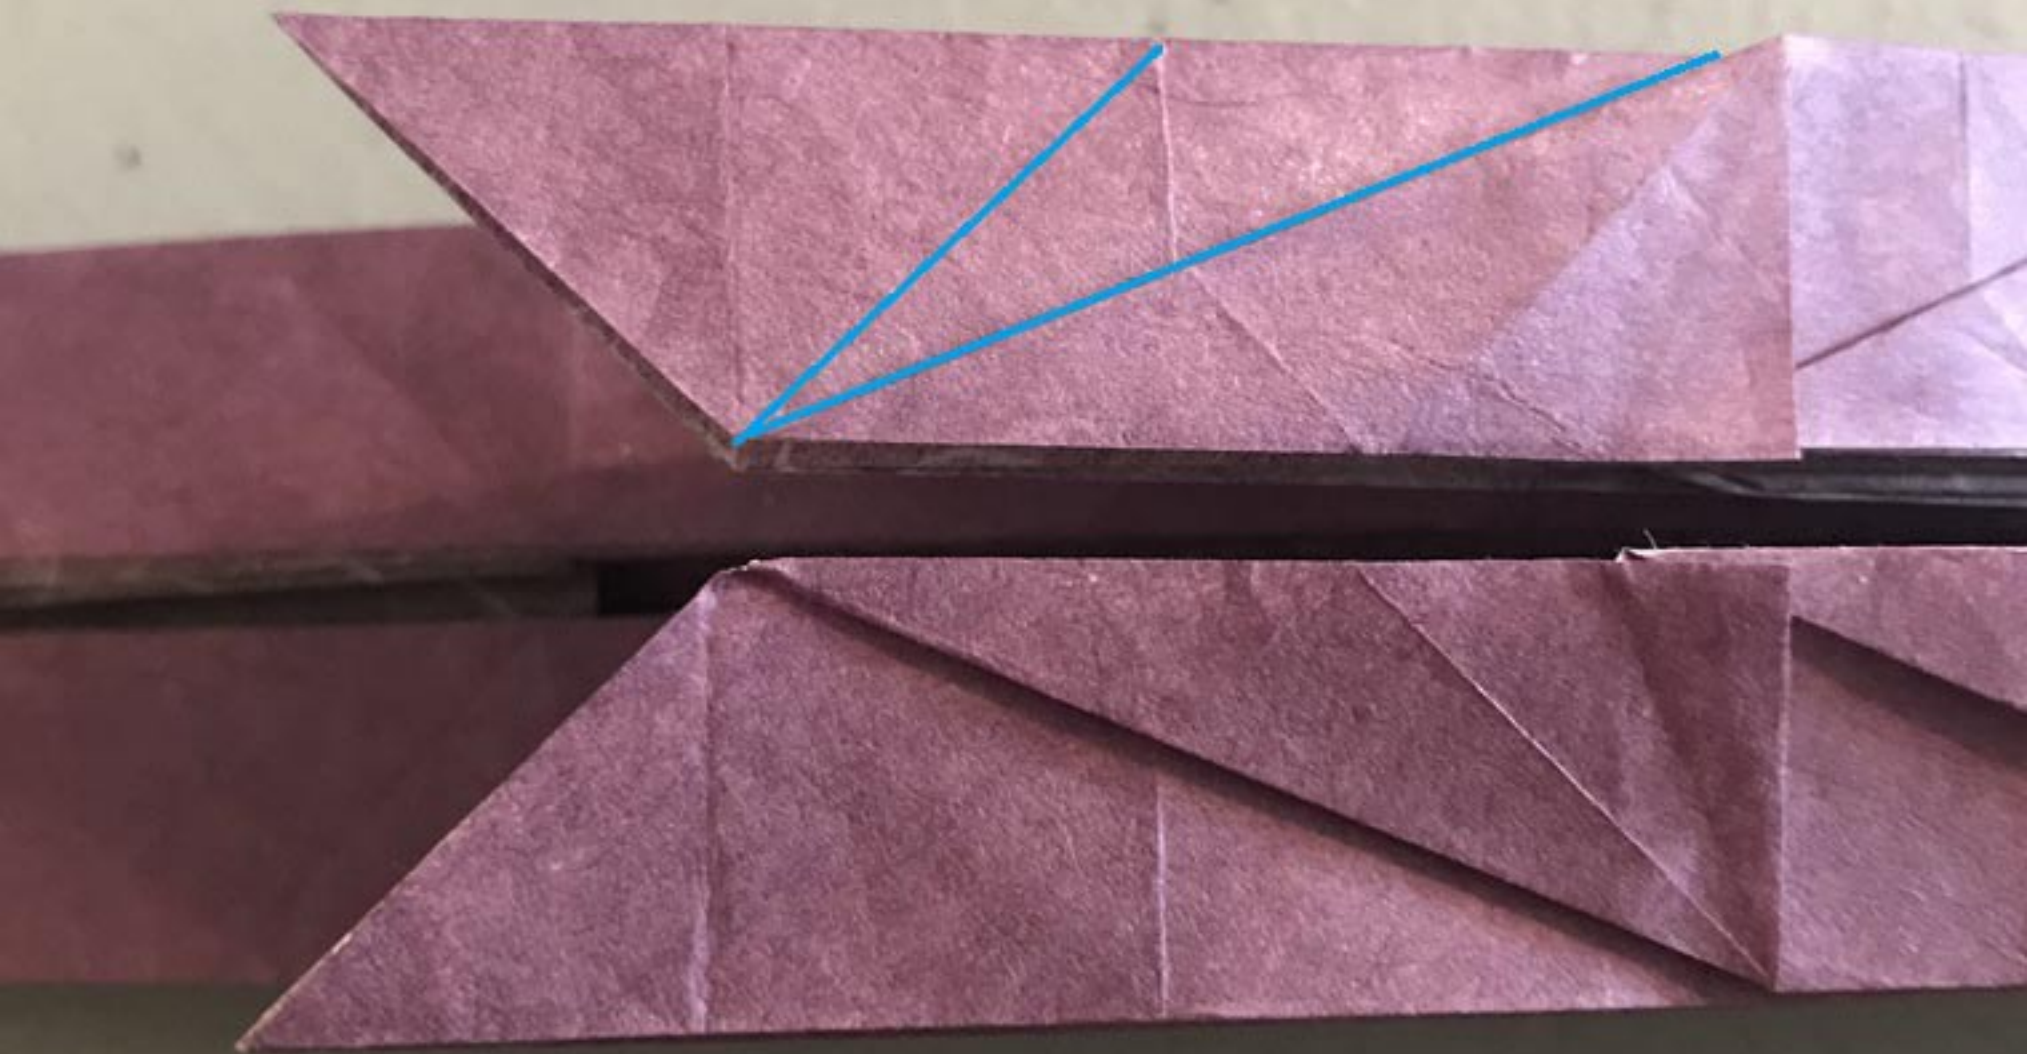

Cover the color change

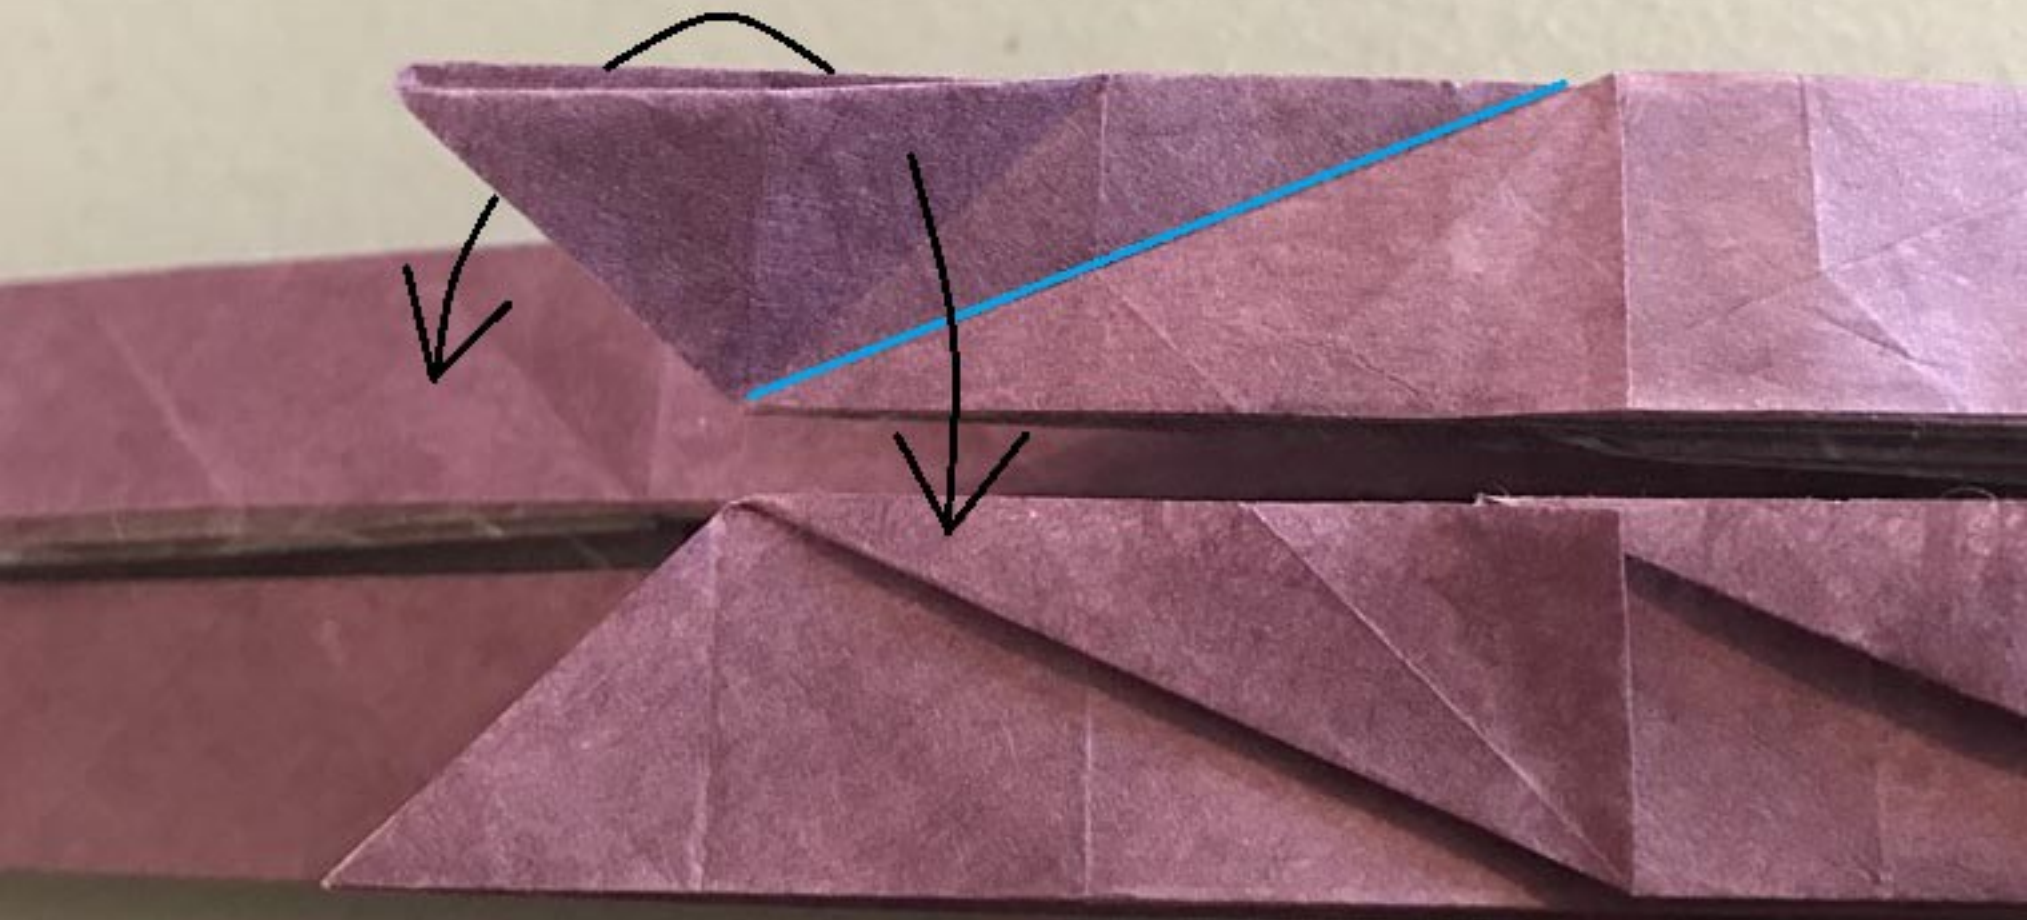

Make creases

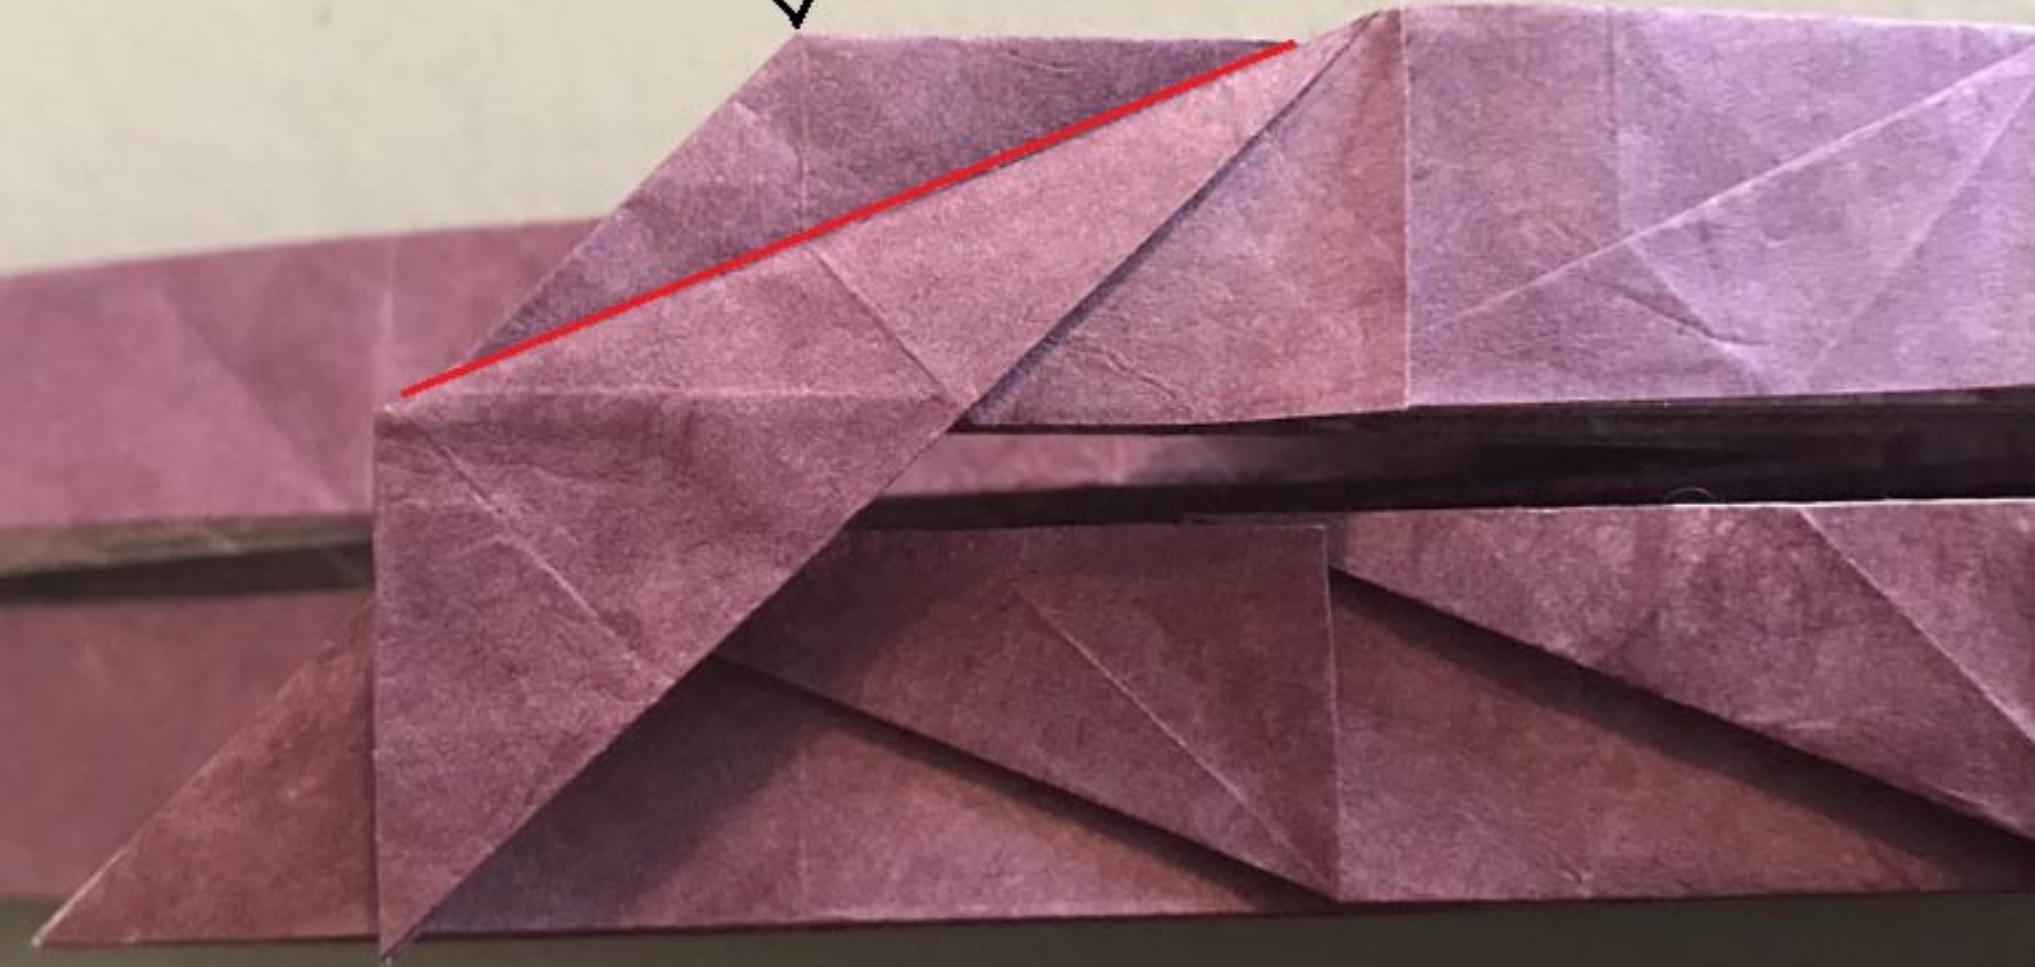

Outside reverse fold

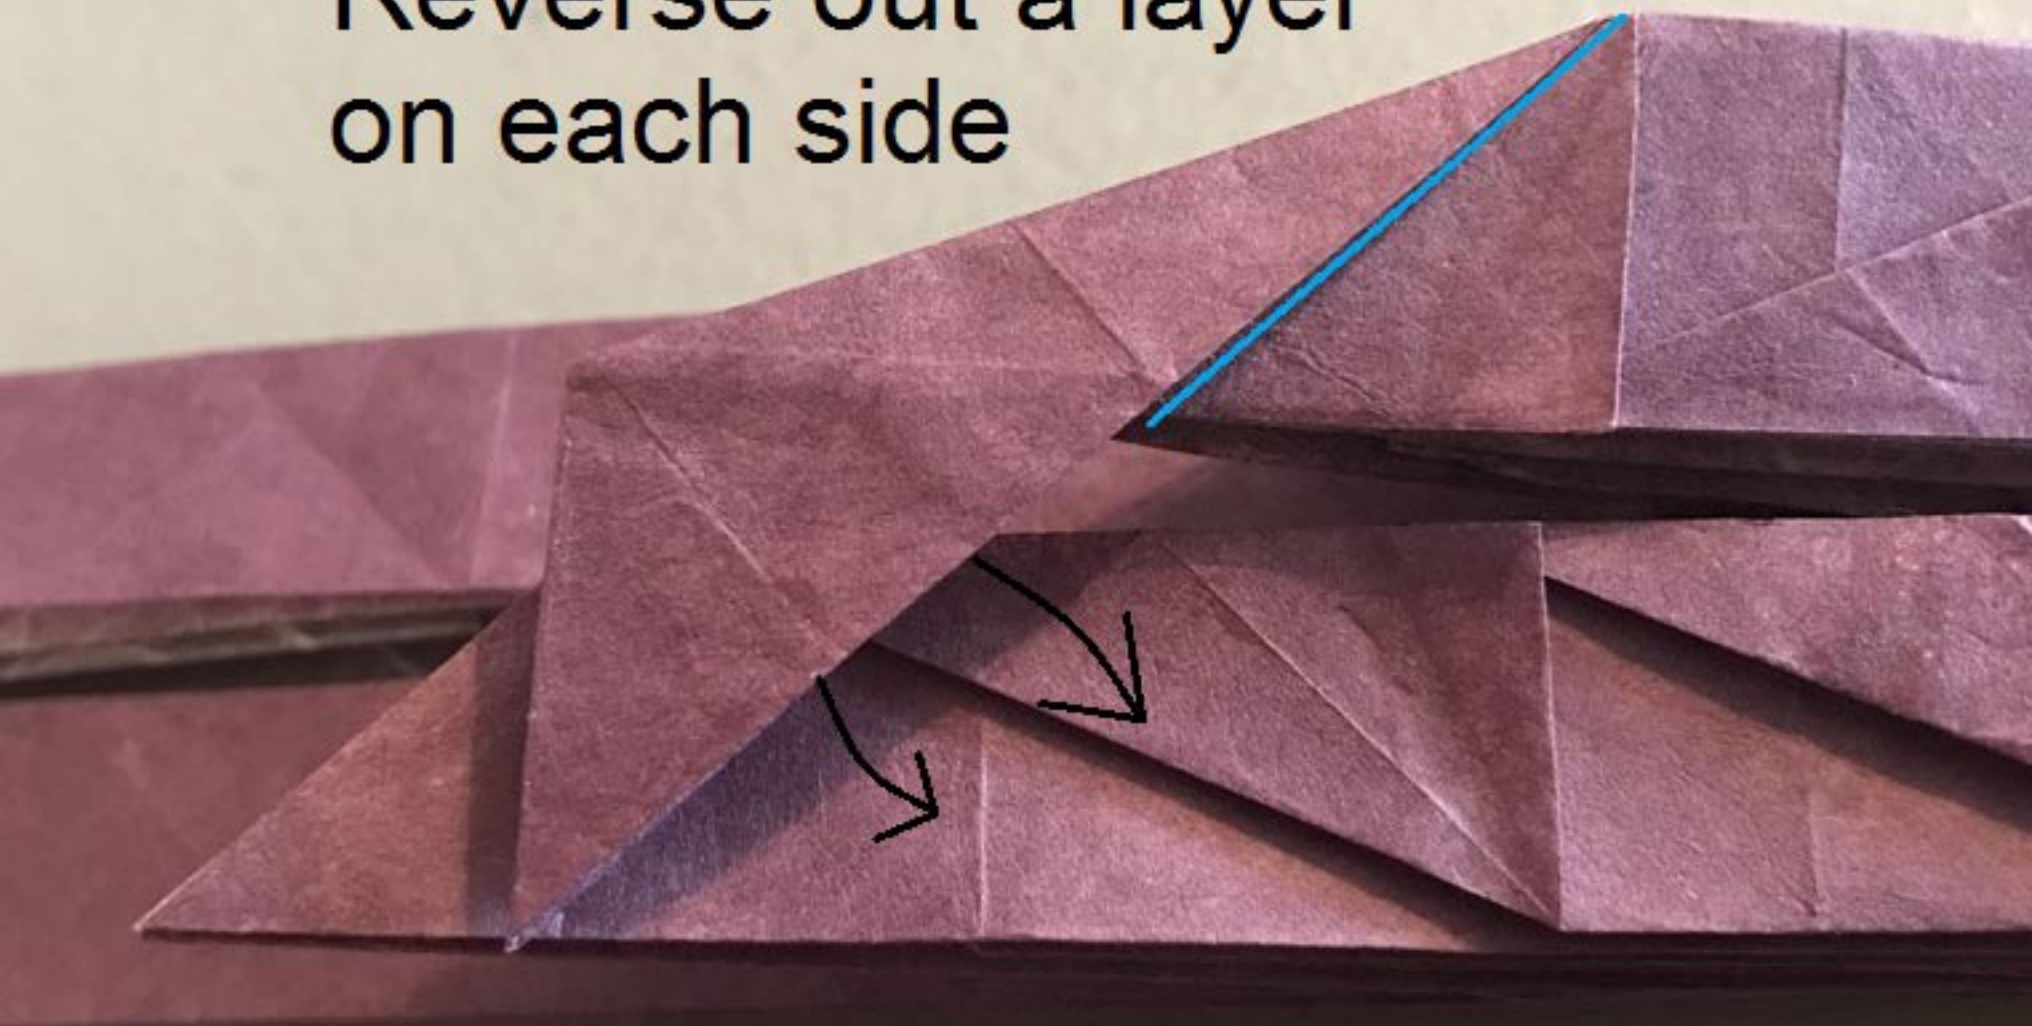

Spread squash

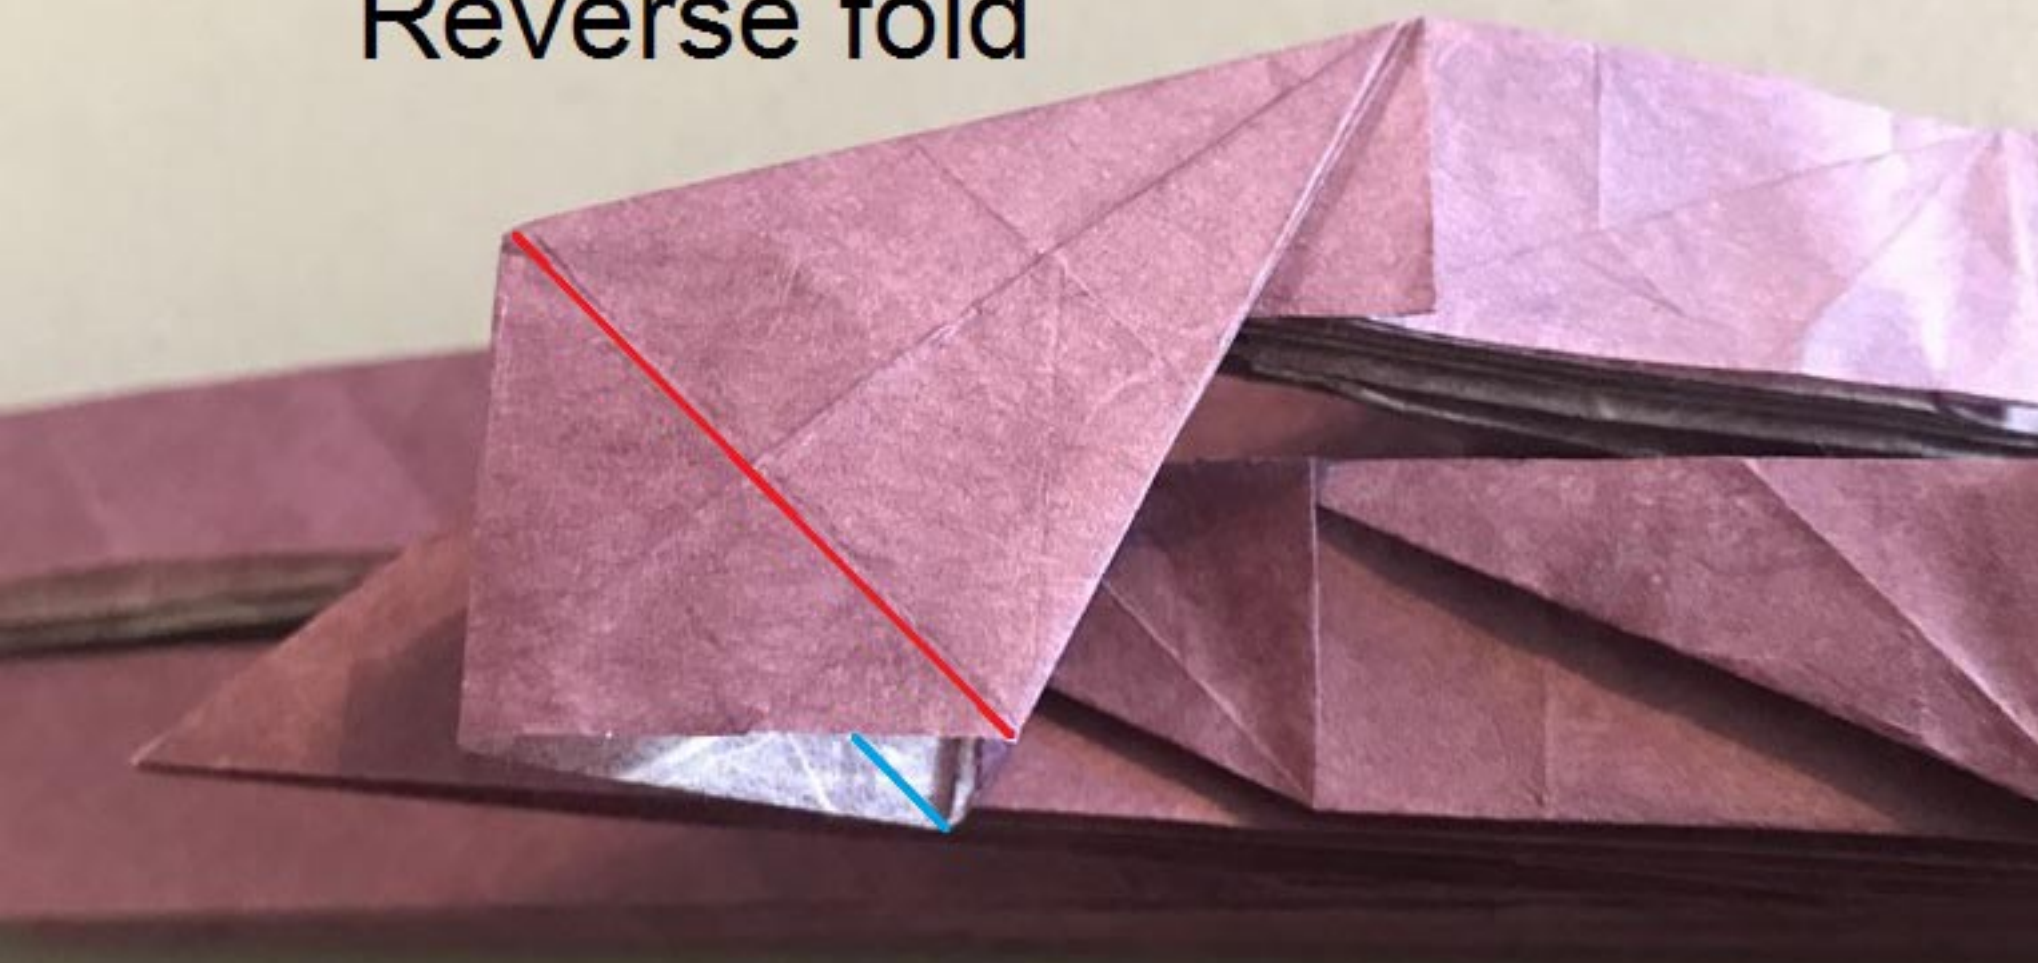

Close up

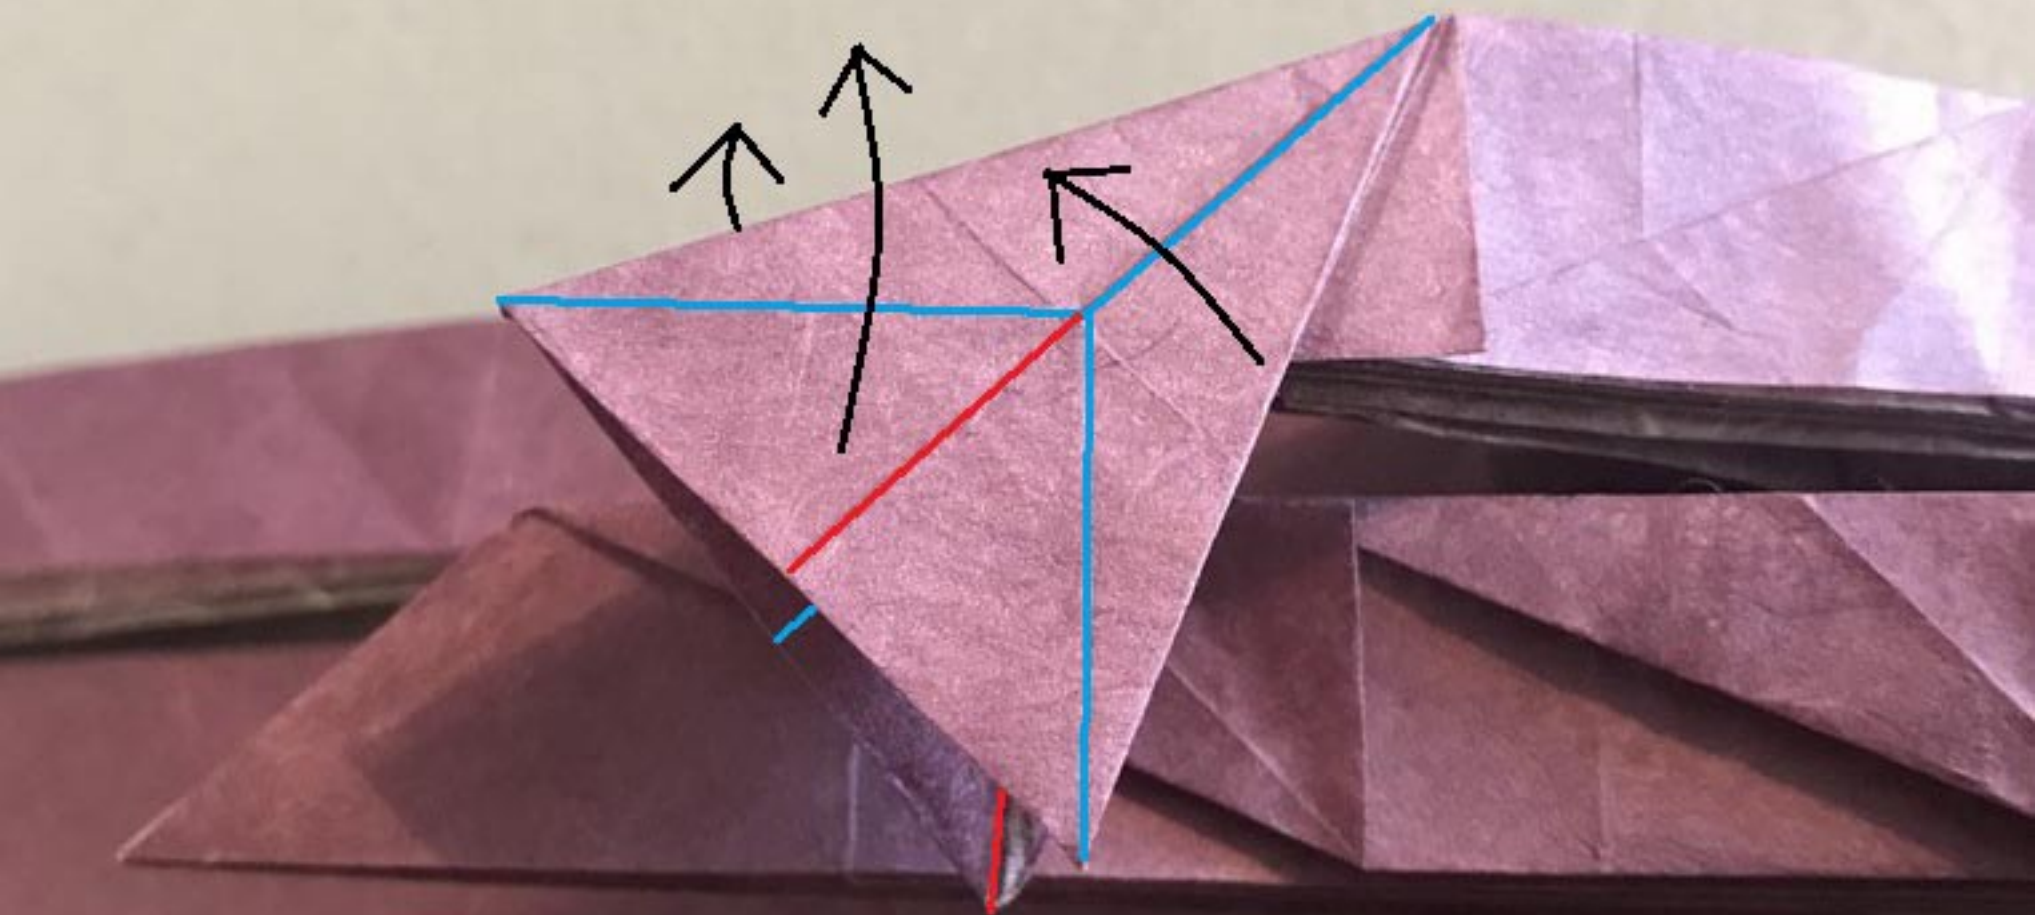

Reverse out a layer
on each side

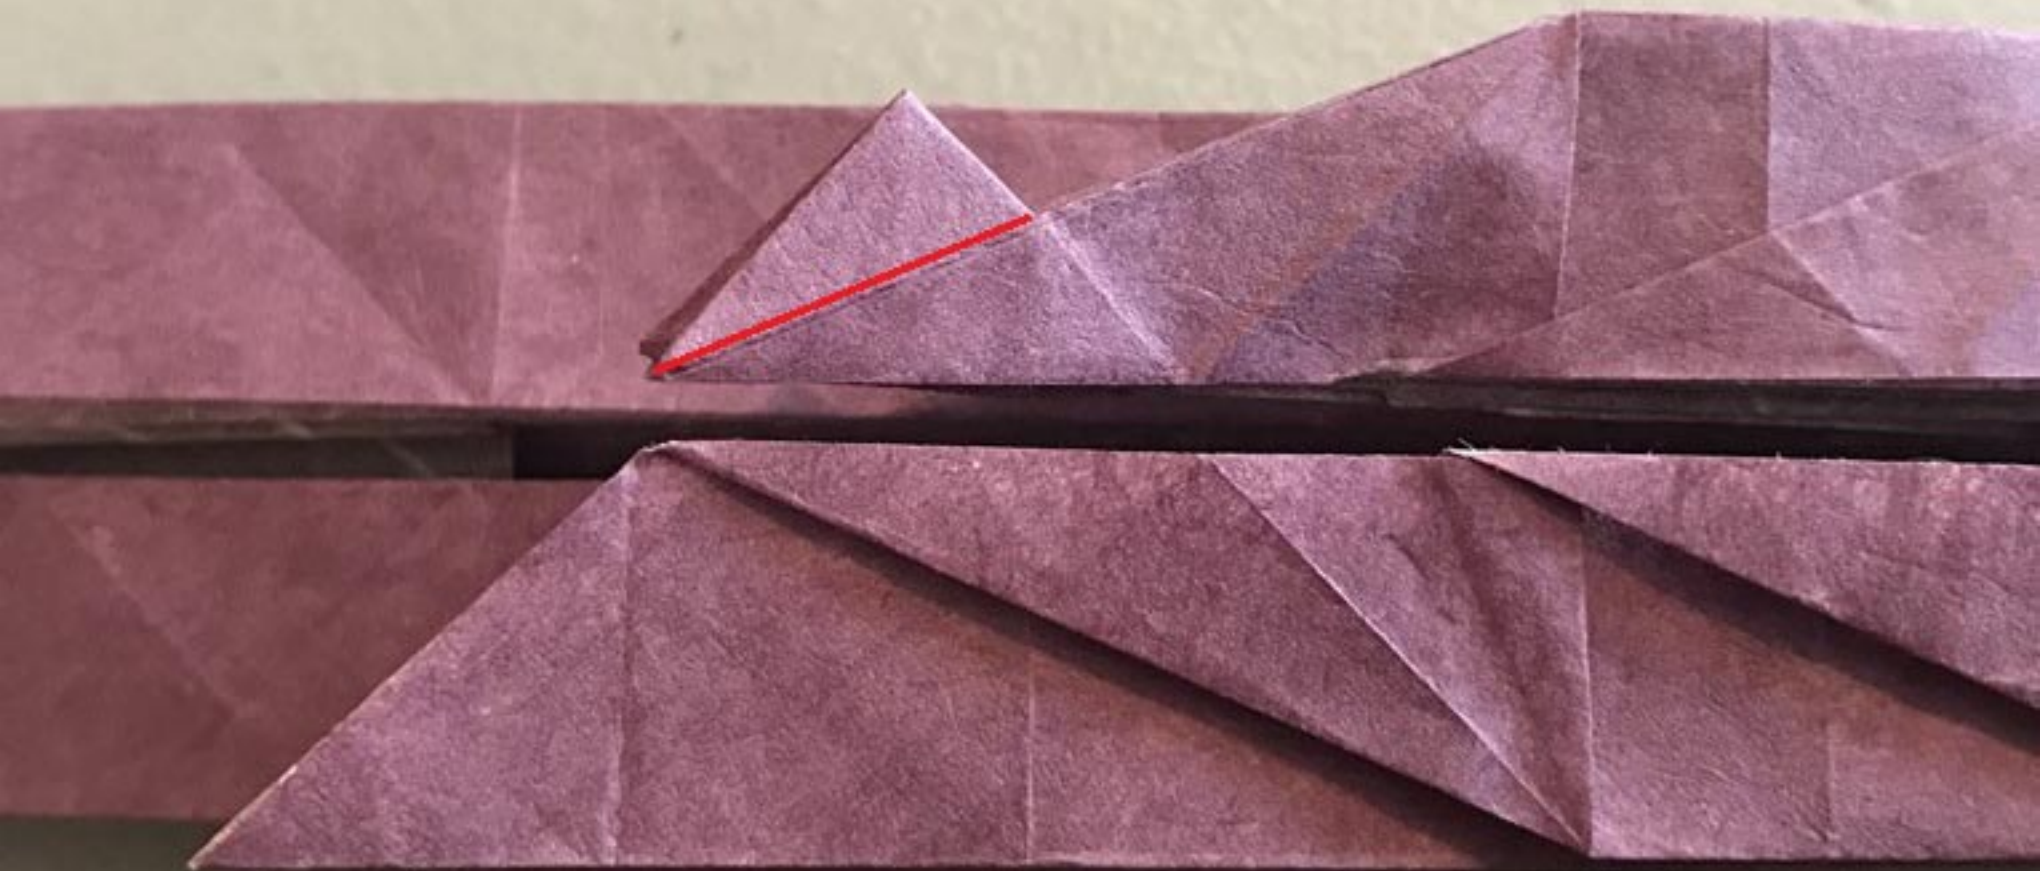

Reverse fold

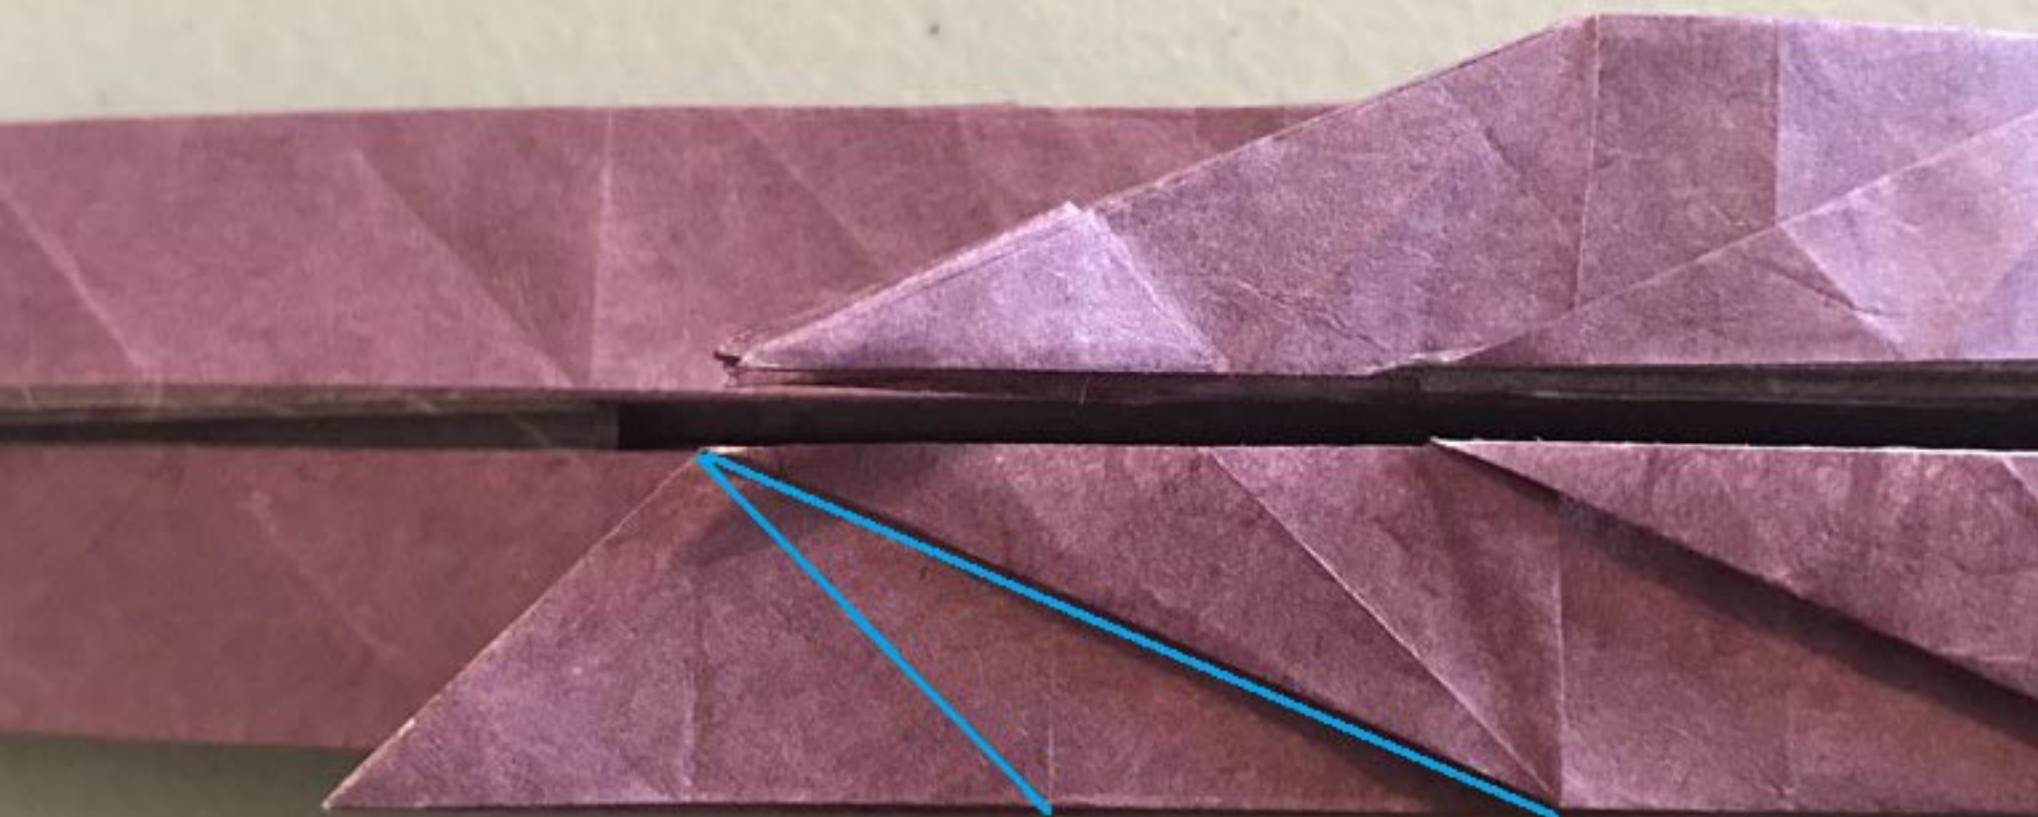

Reverse folds and close up

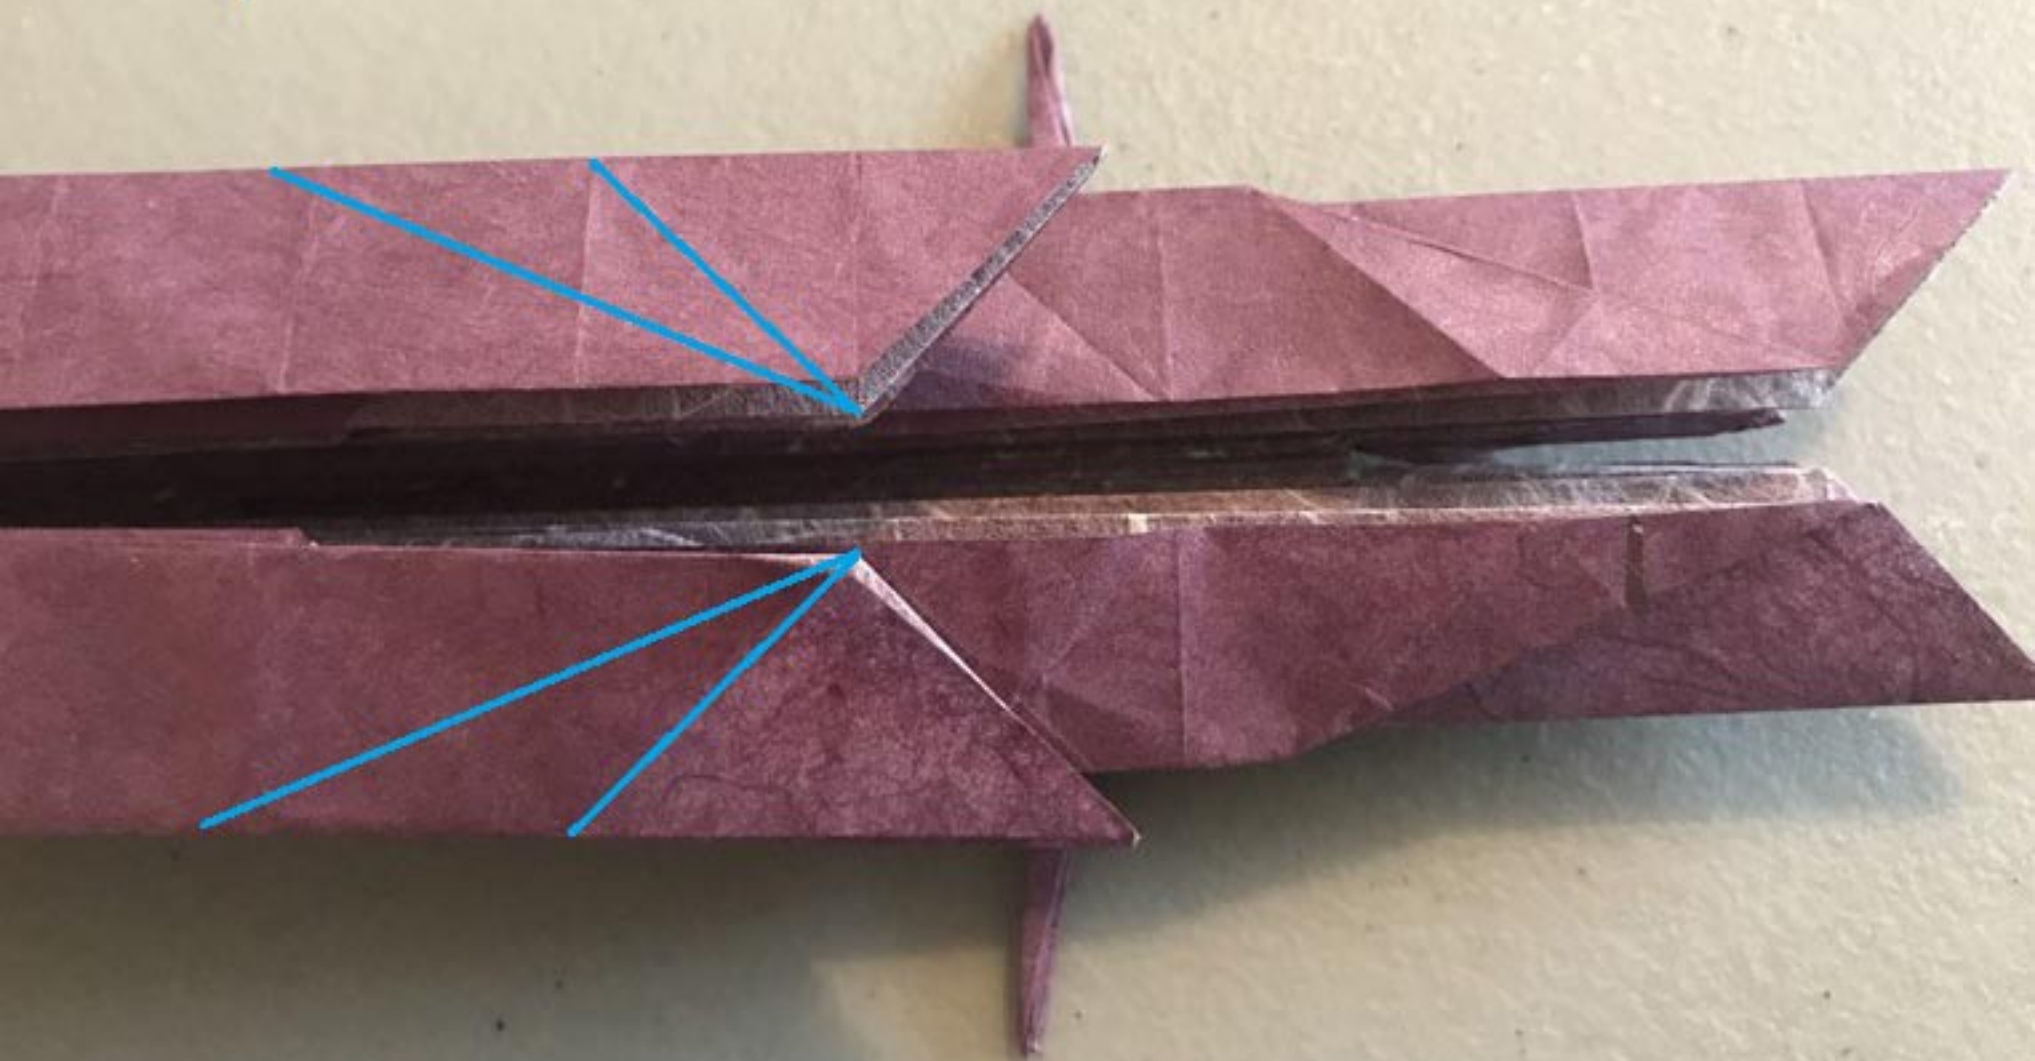

Reverse folds

Repeat on this foot

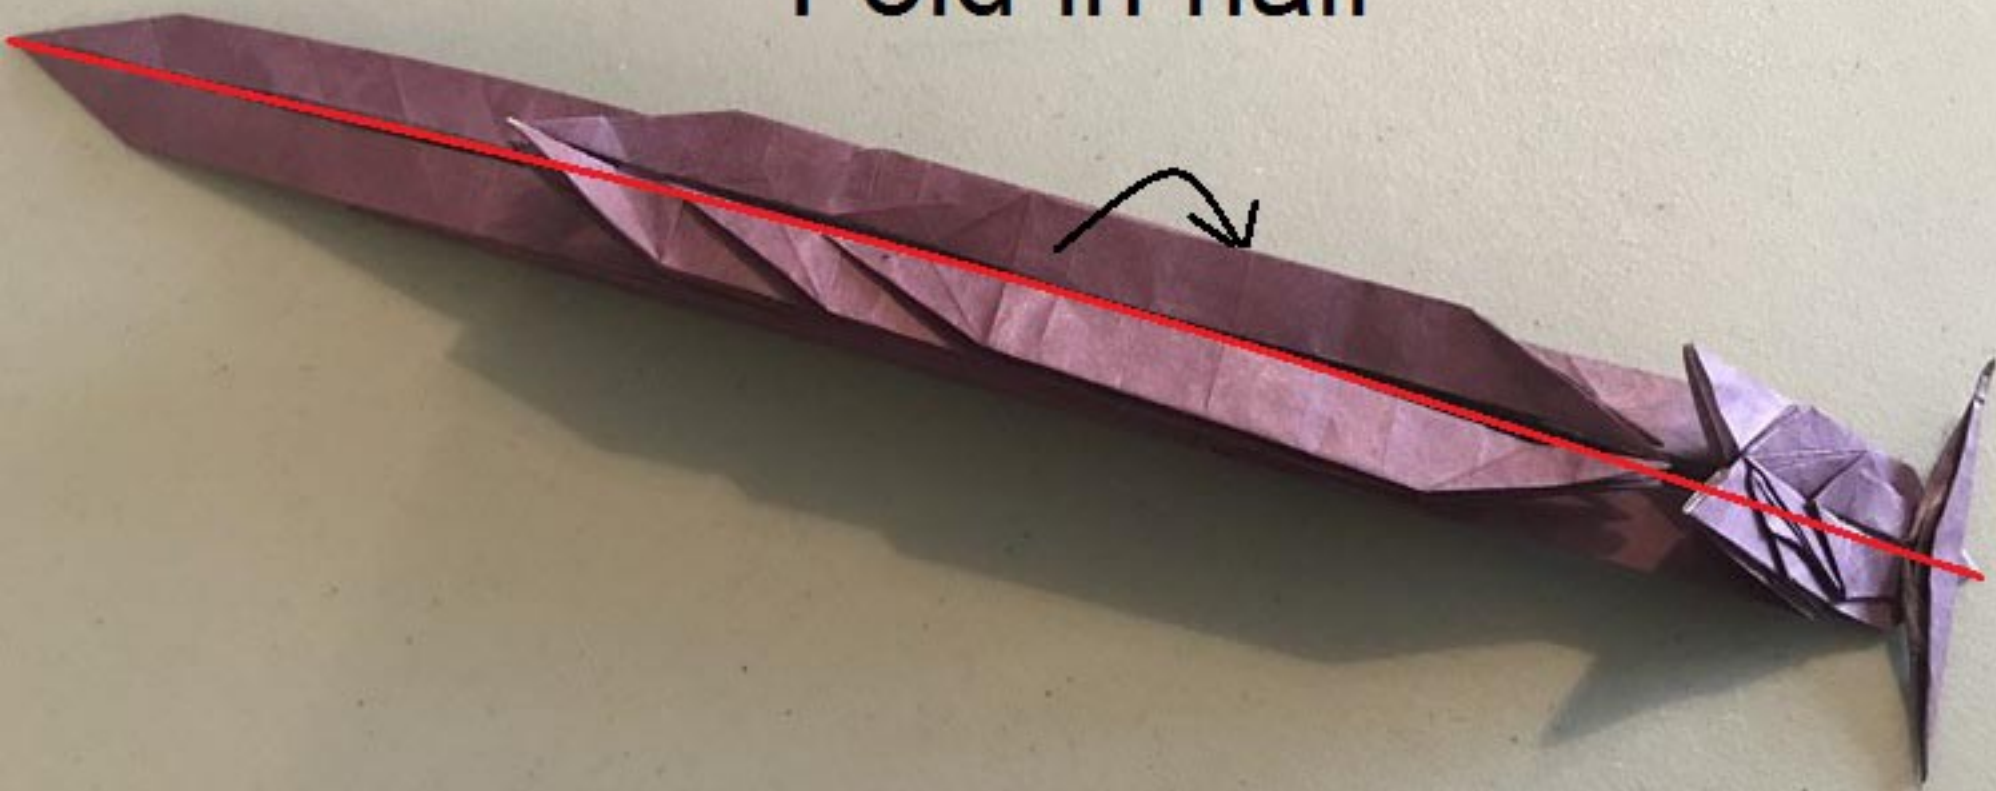

Repeat on the front feet

Result.

Fold in half

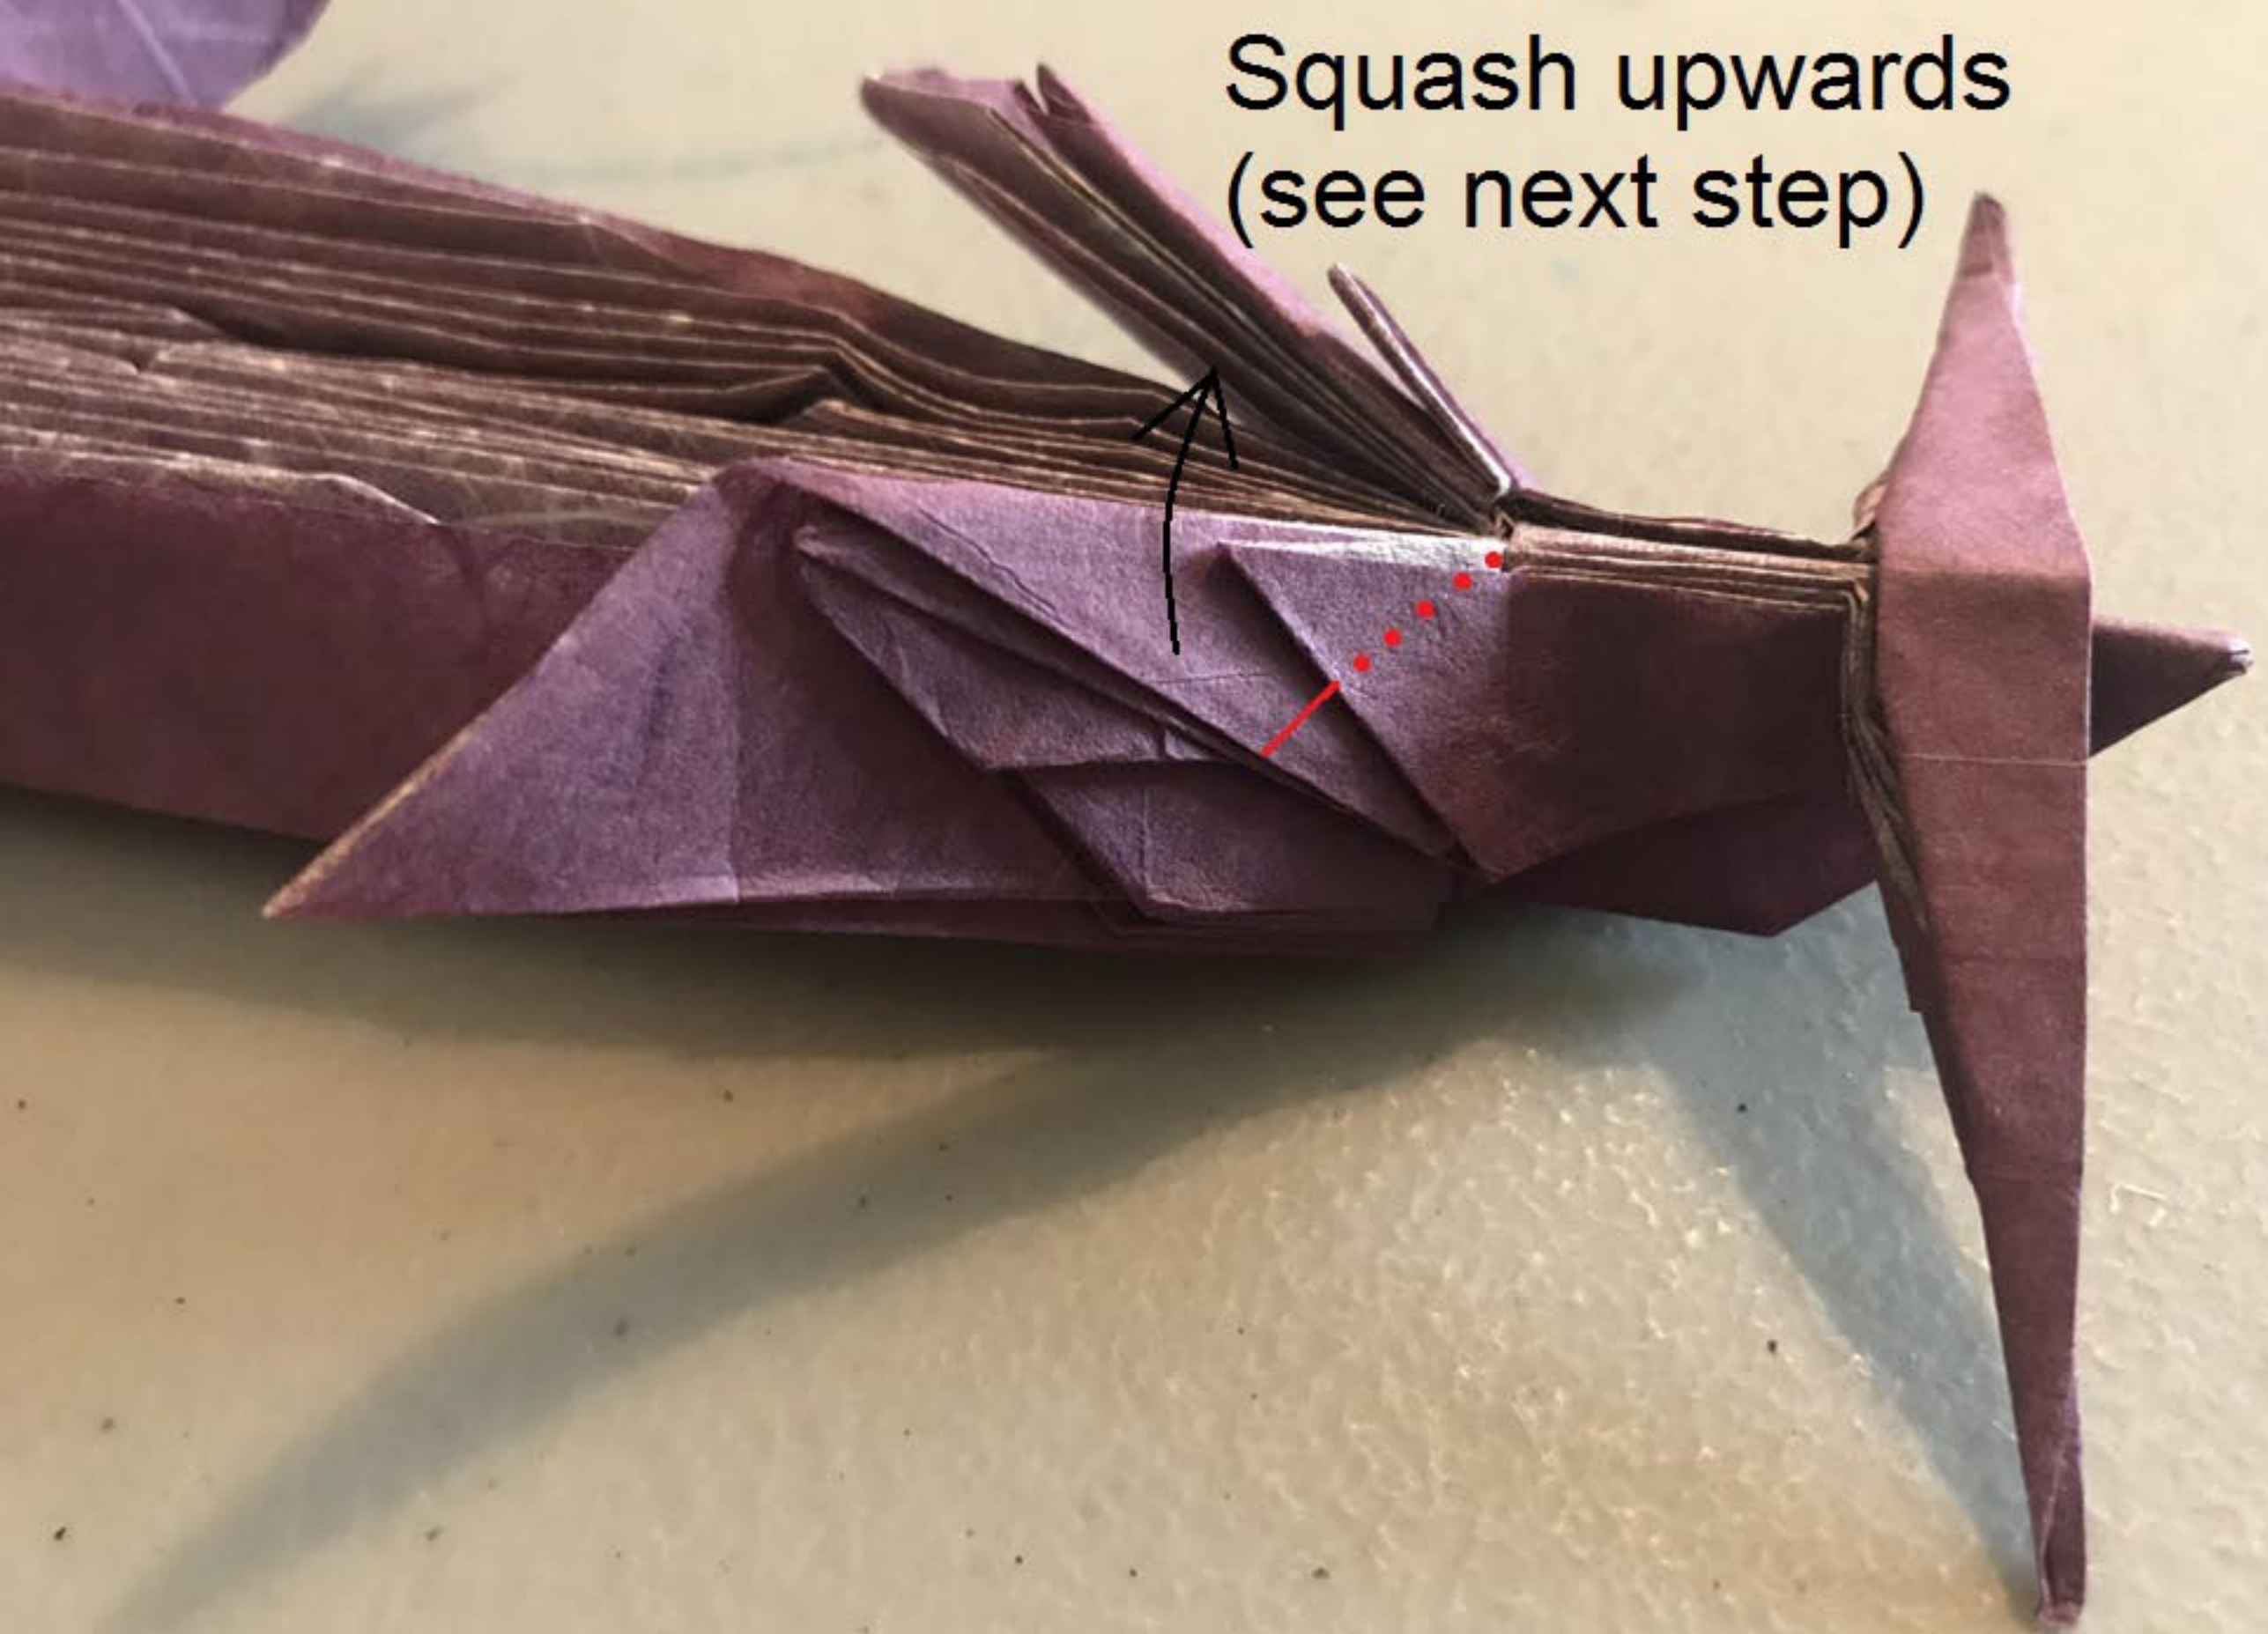

Shape as you'd like.

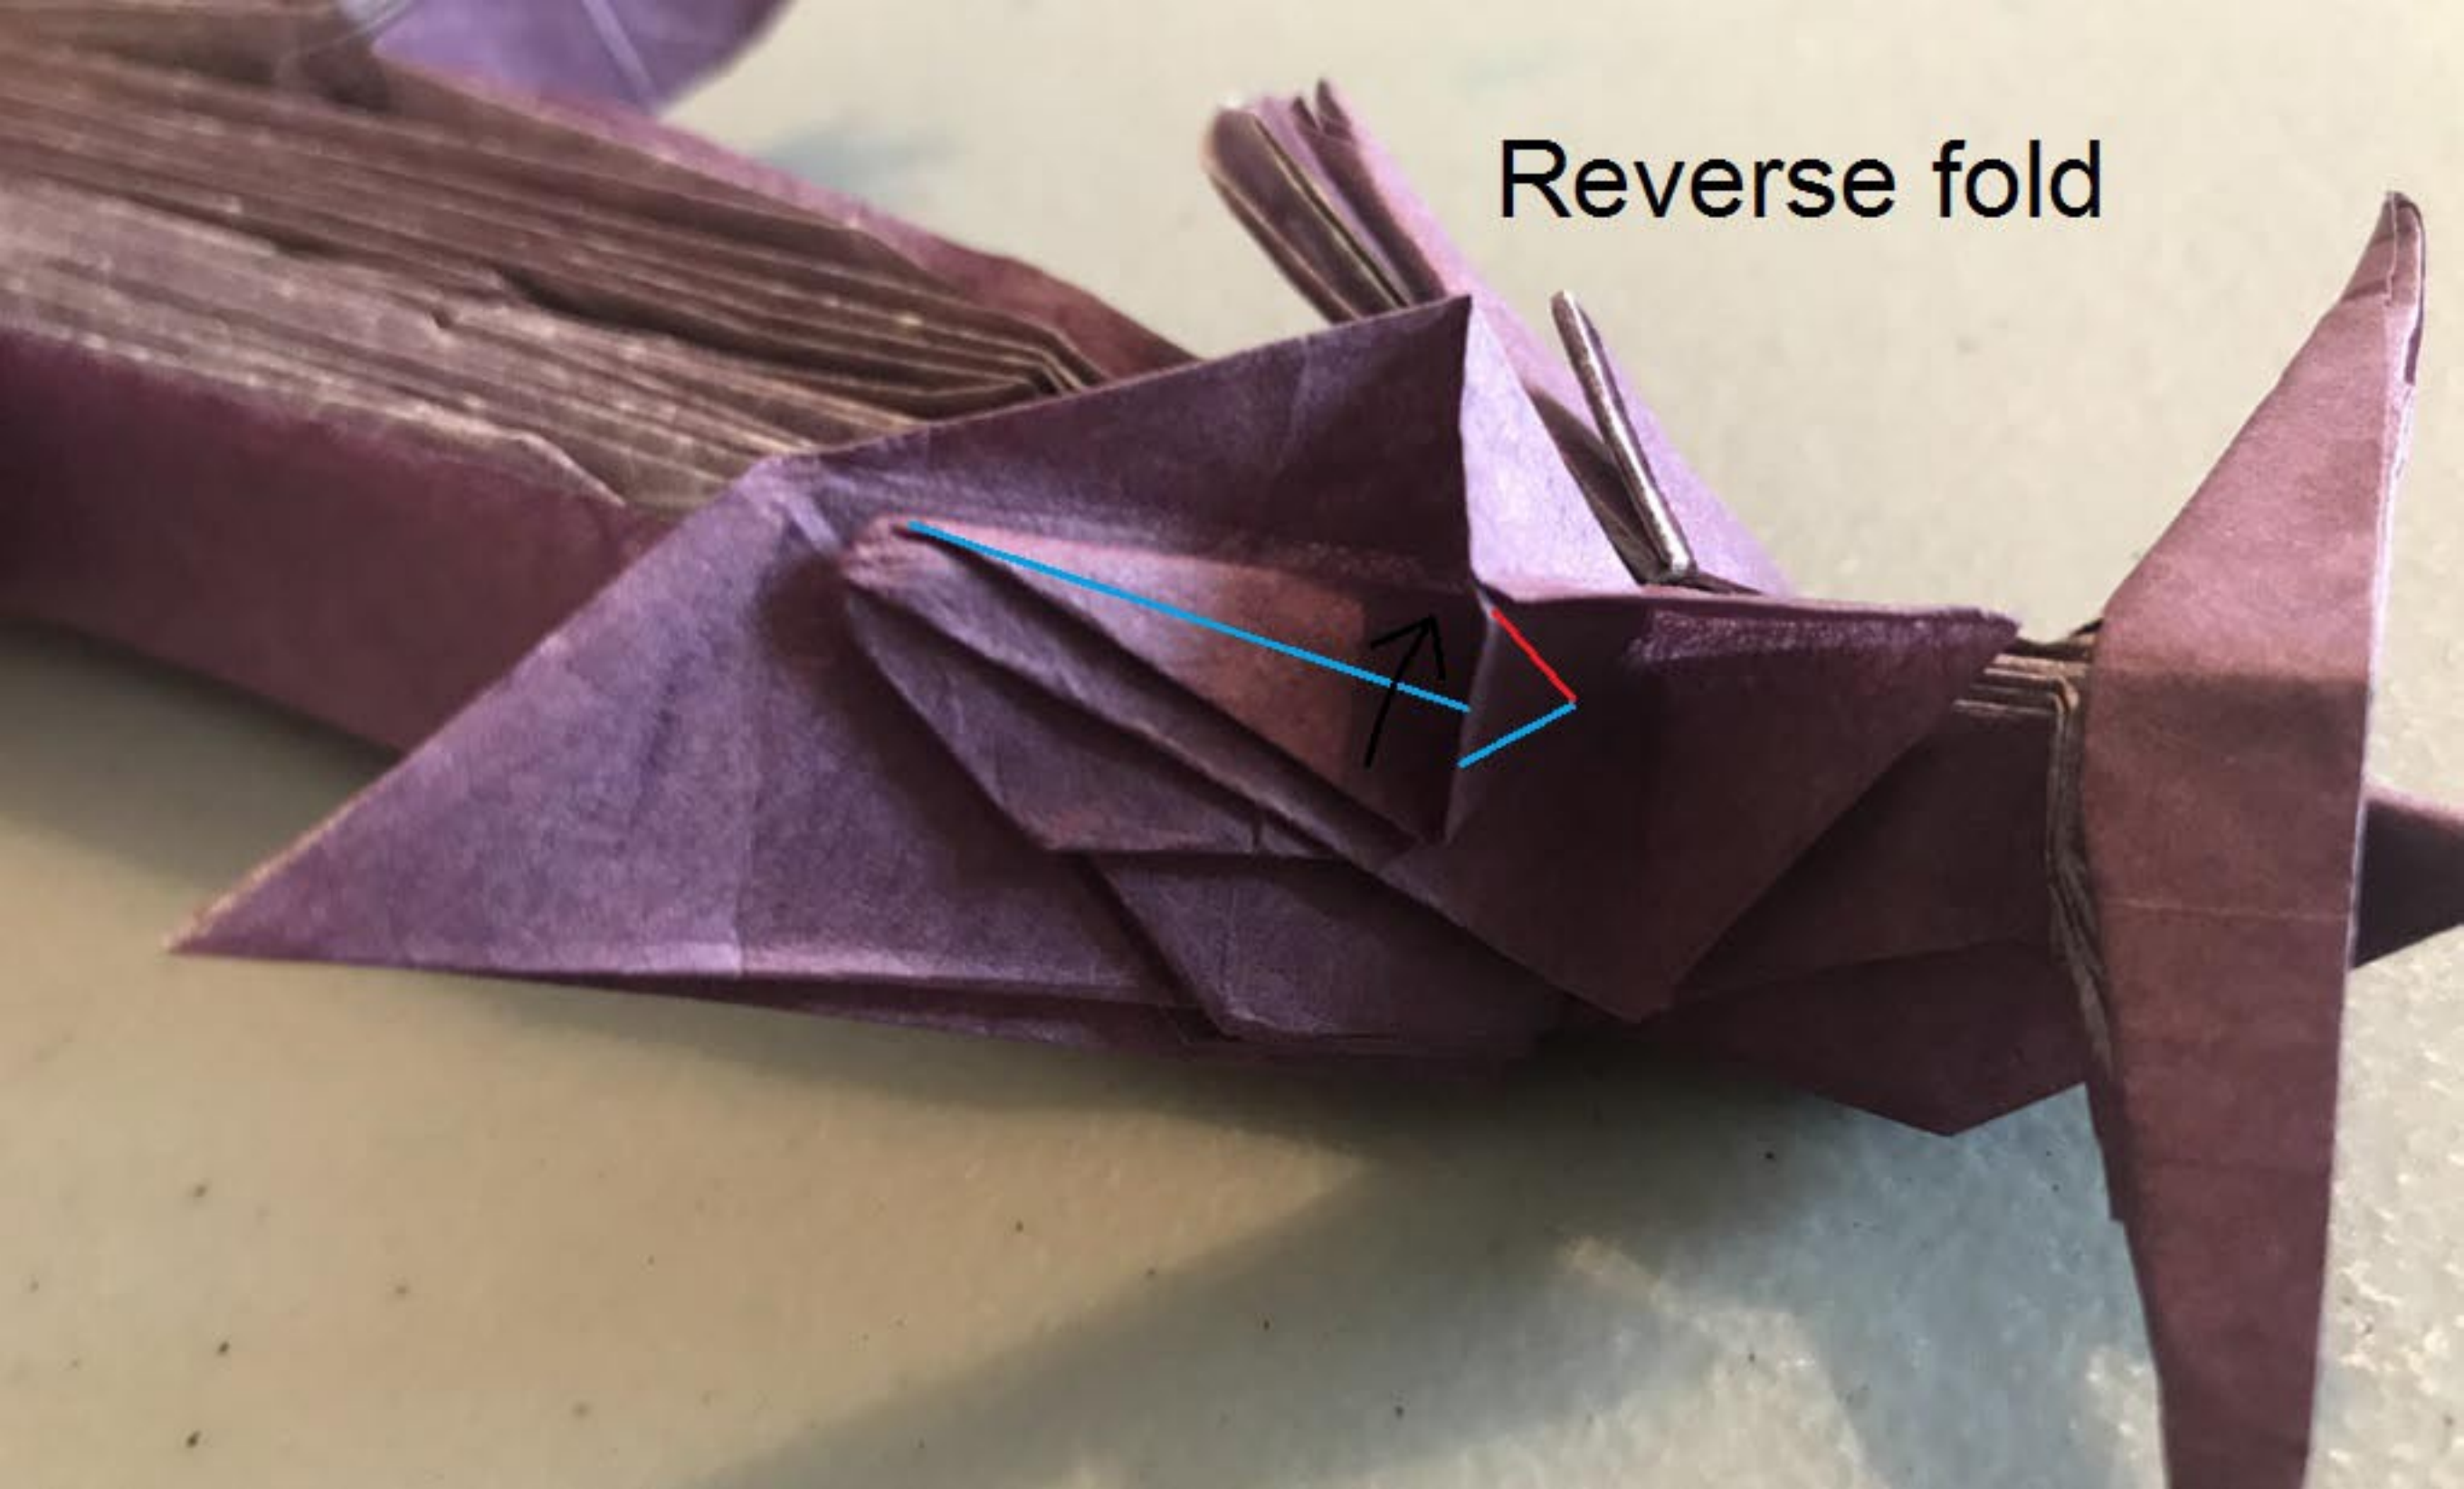

I'll show one way.

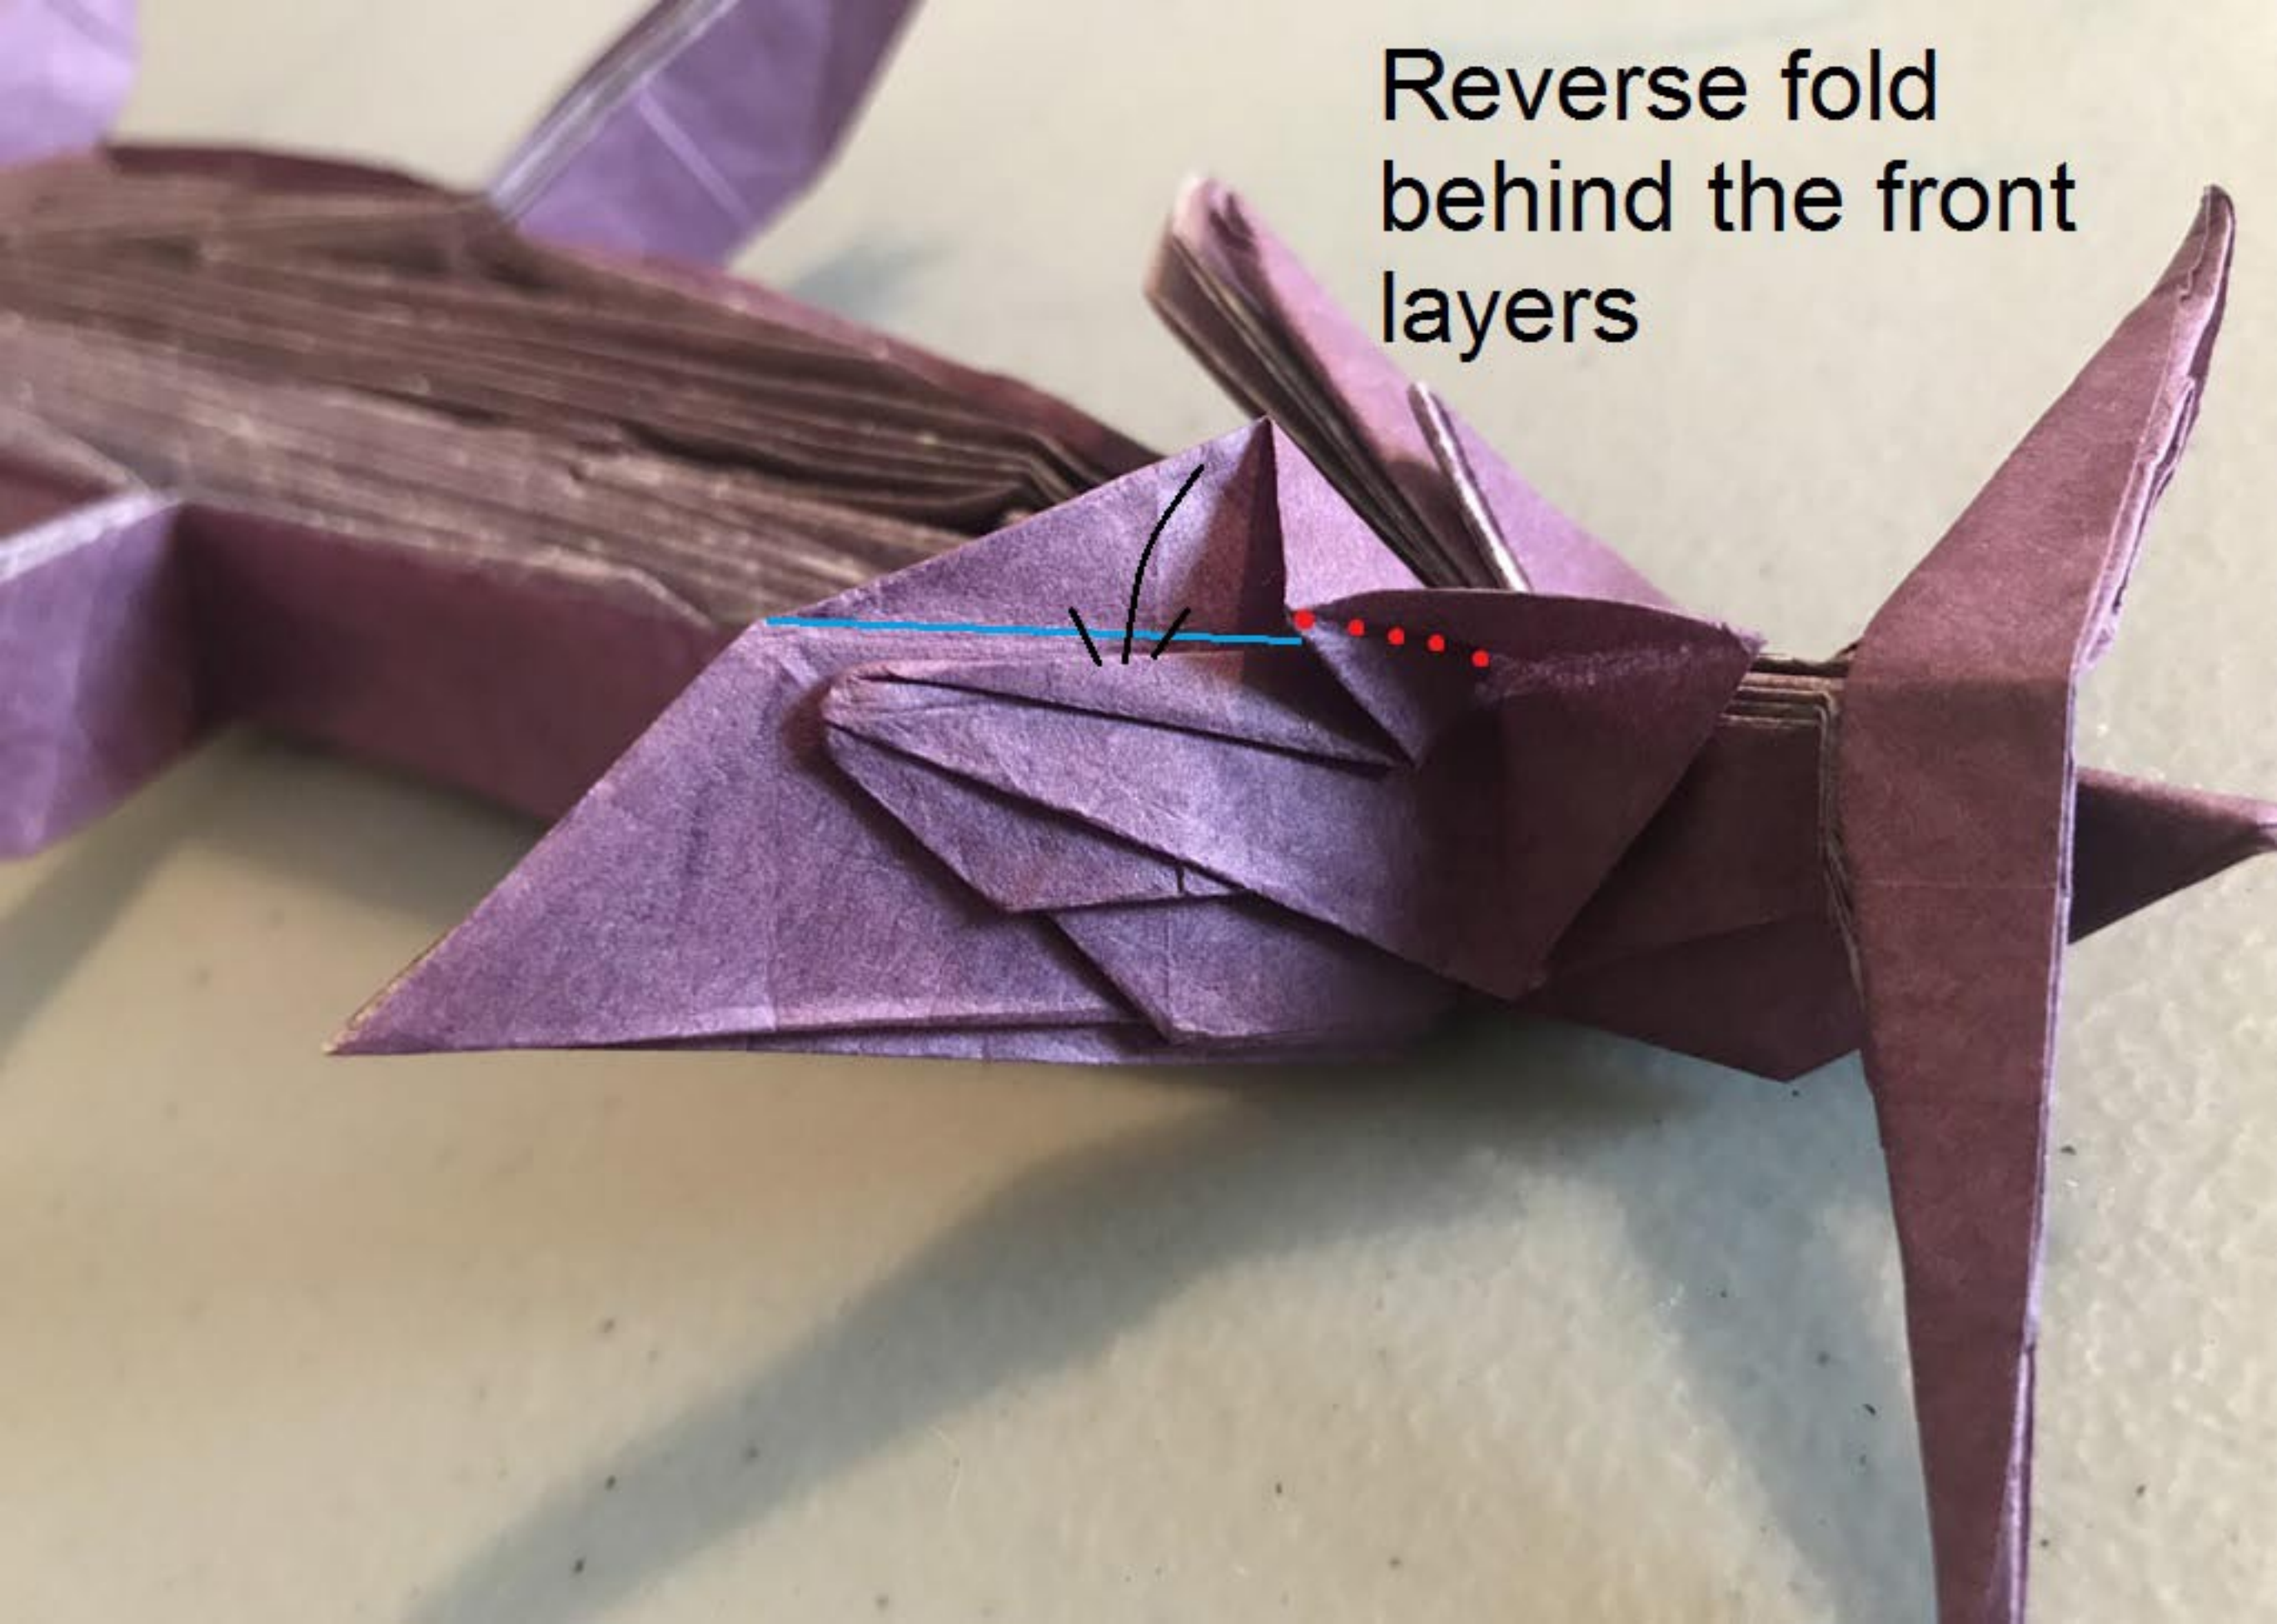

Squash upwards
(see next step)

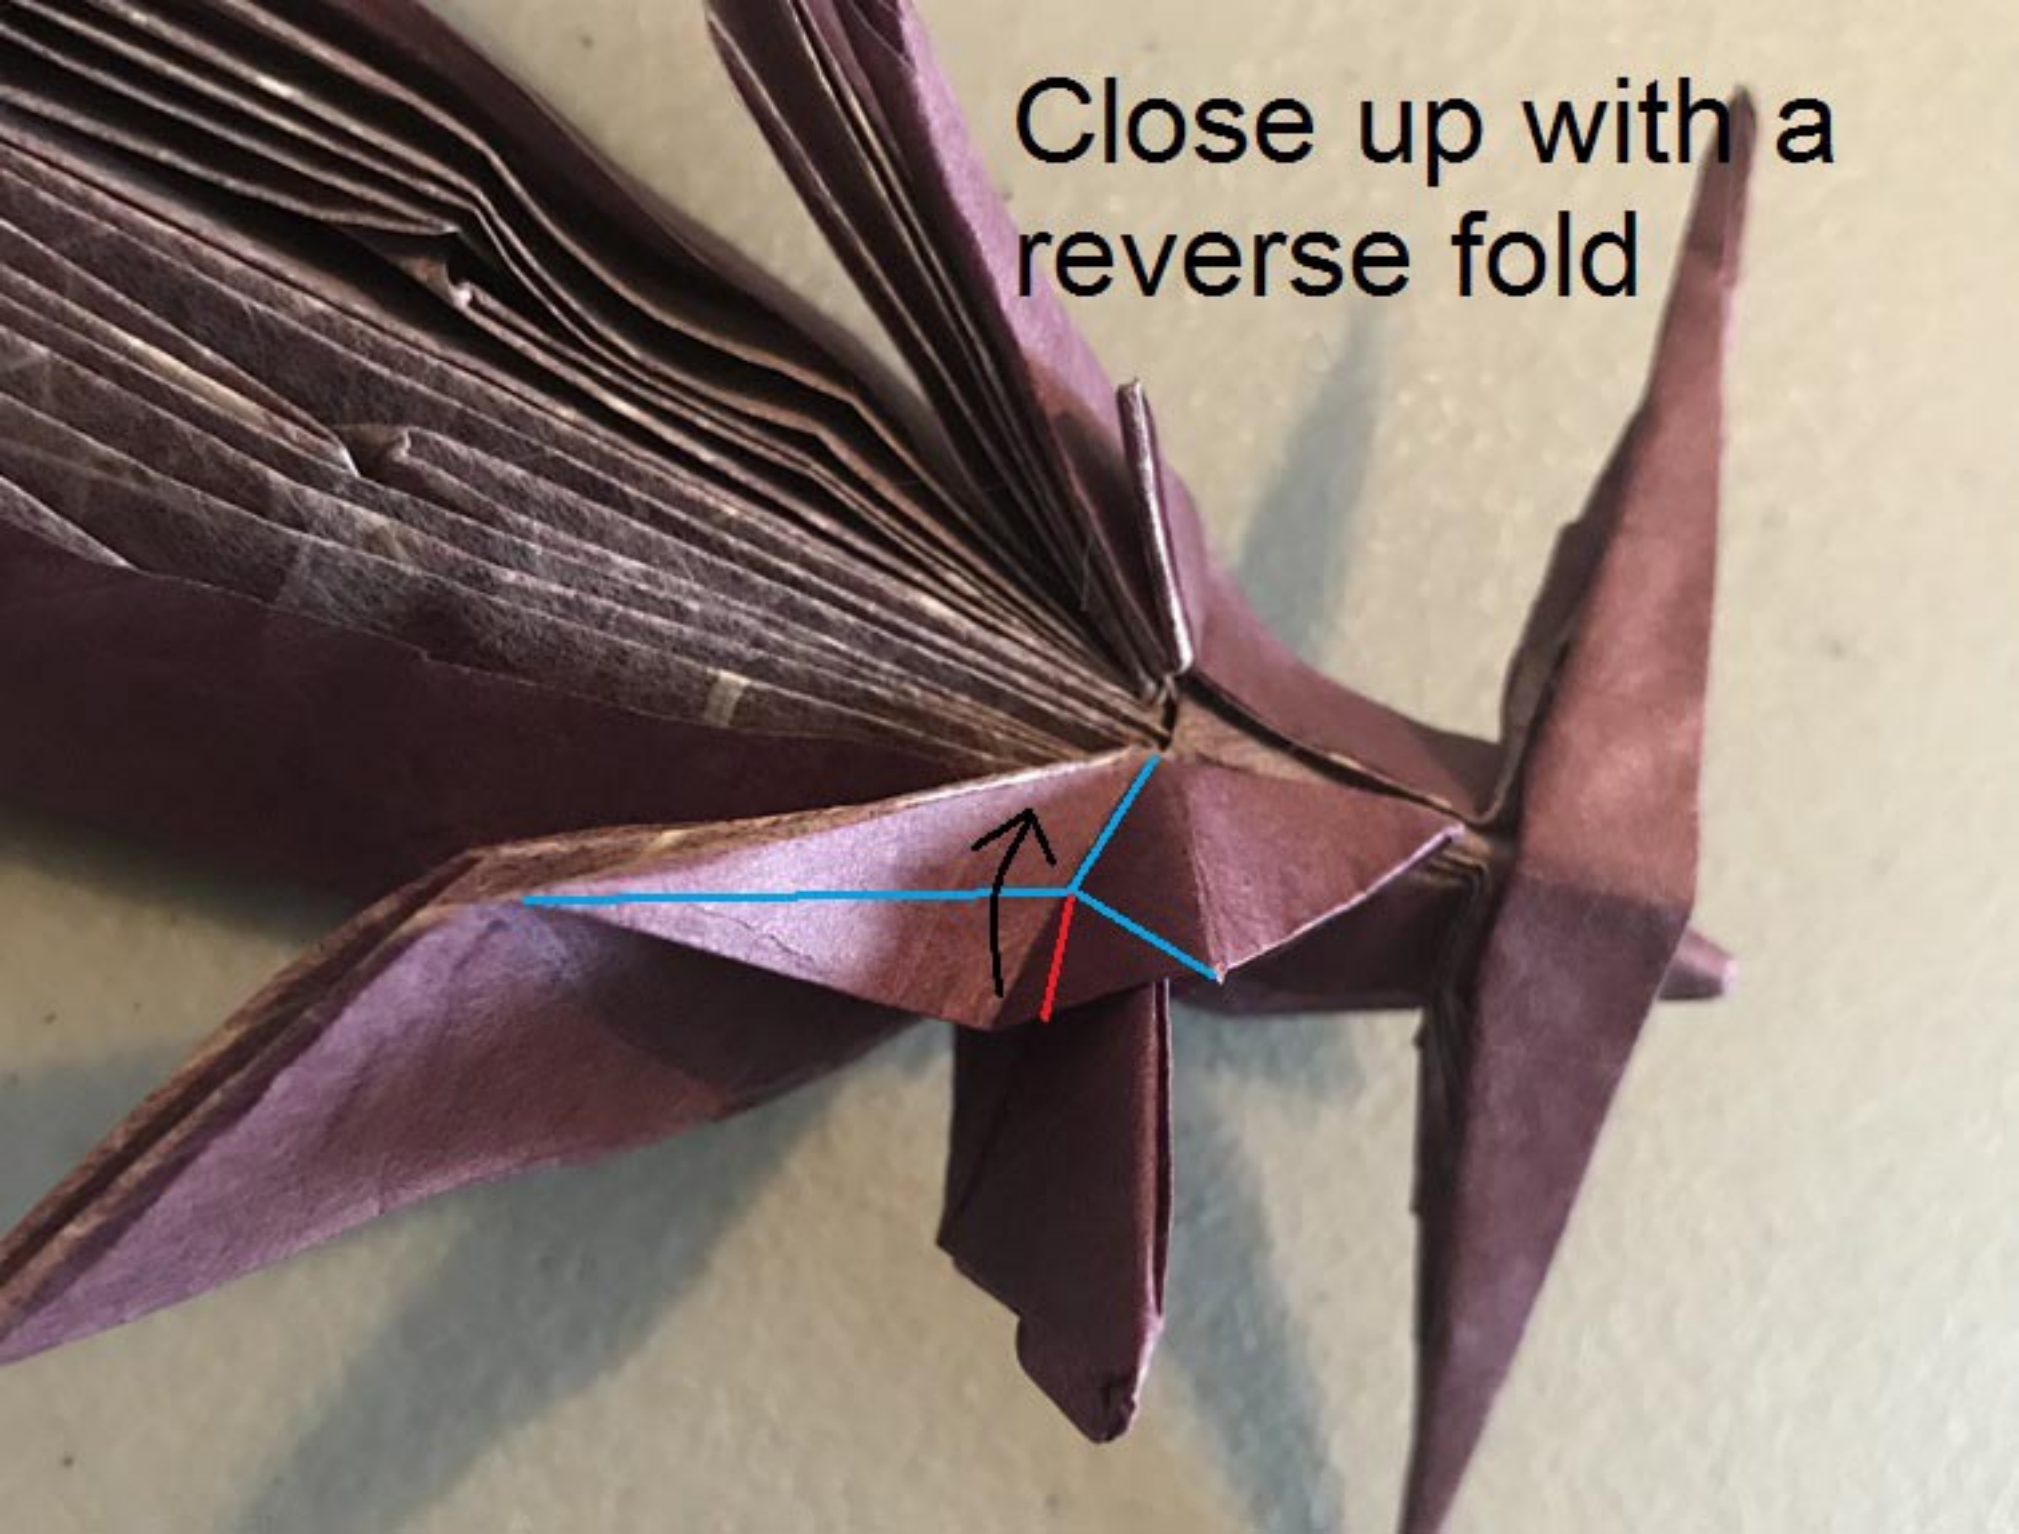

Reverse fold

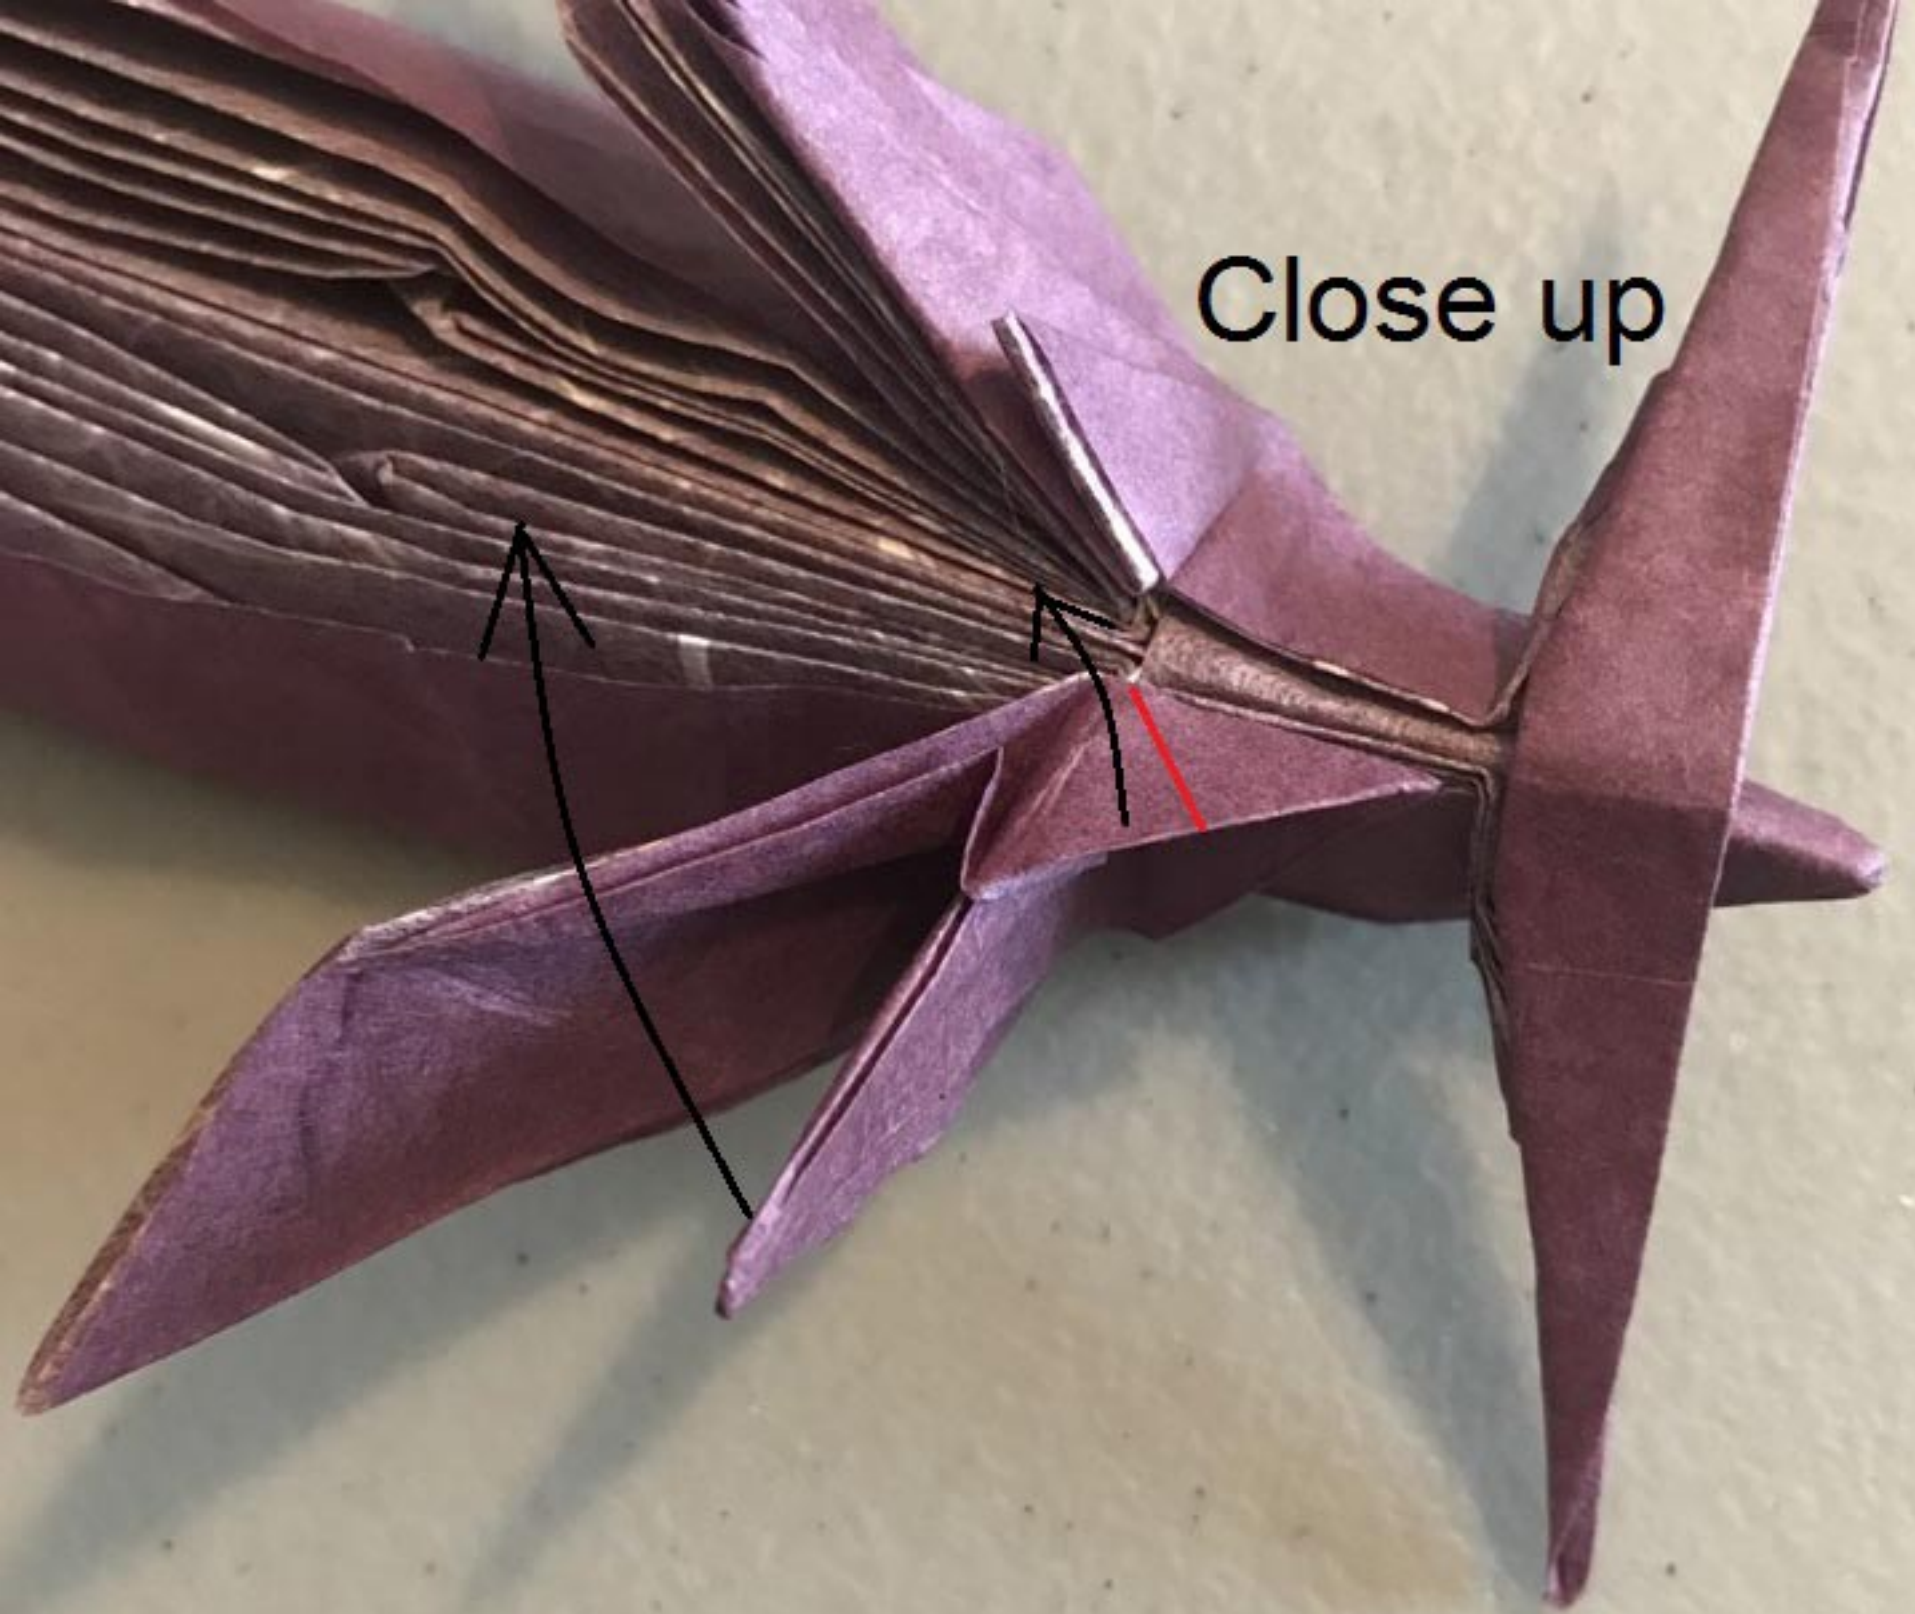

Reverse fold
behind the front
layers

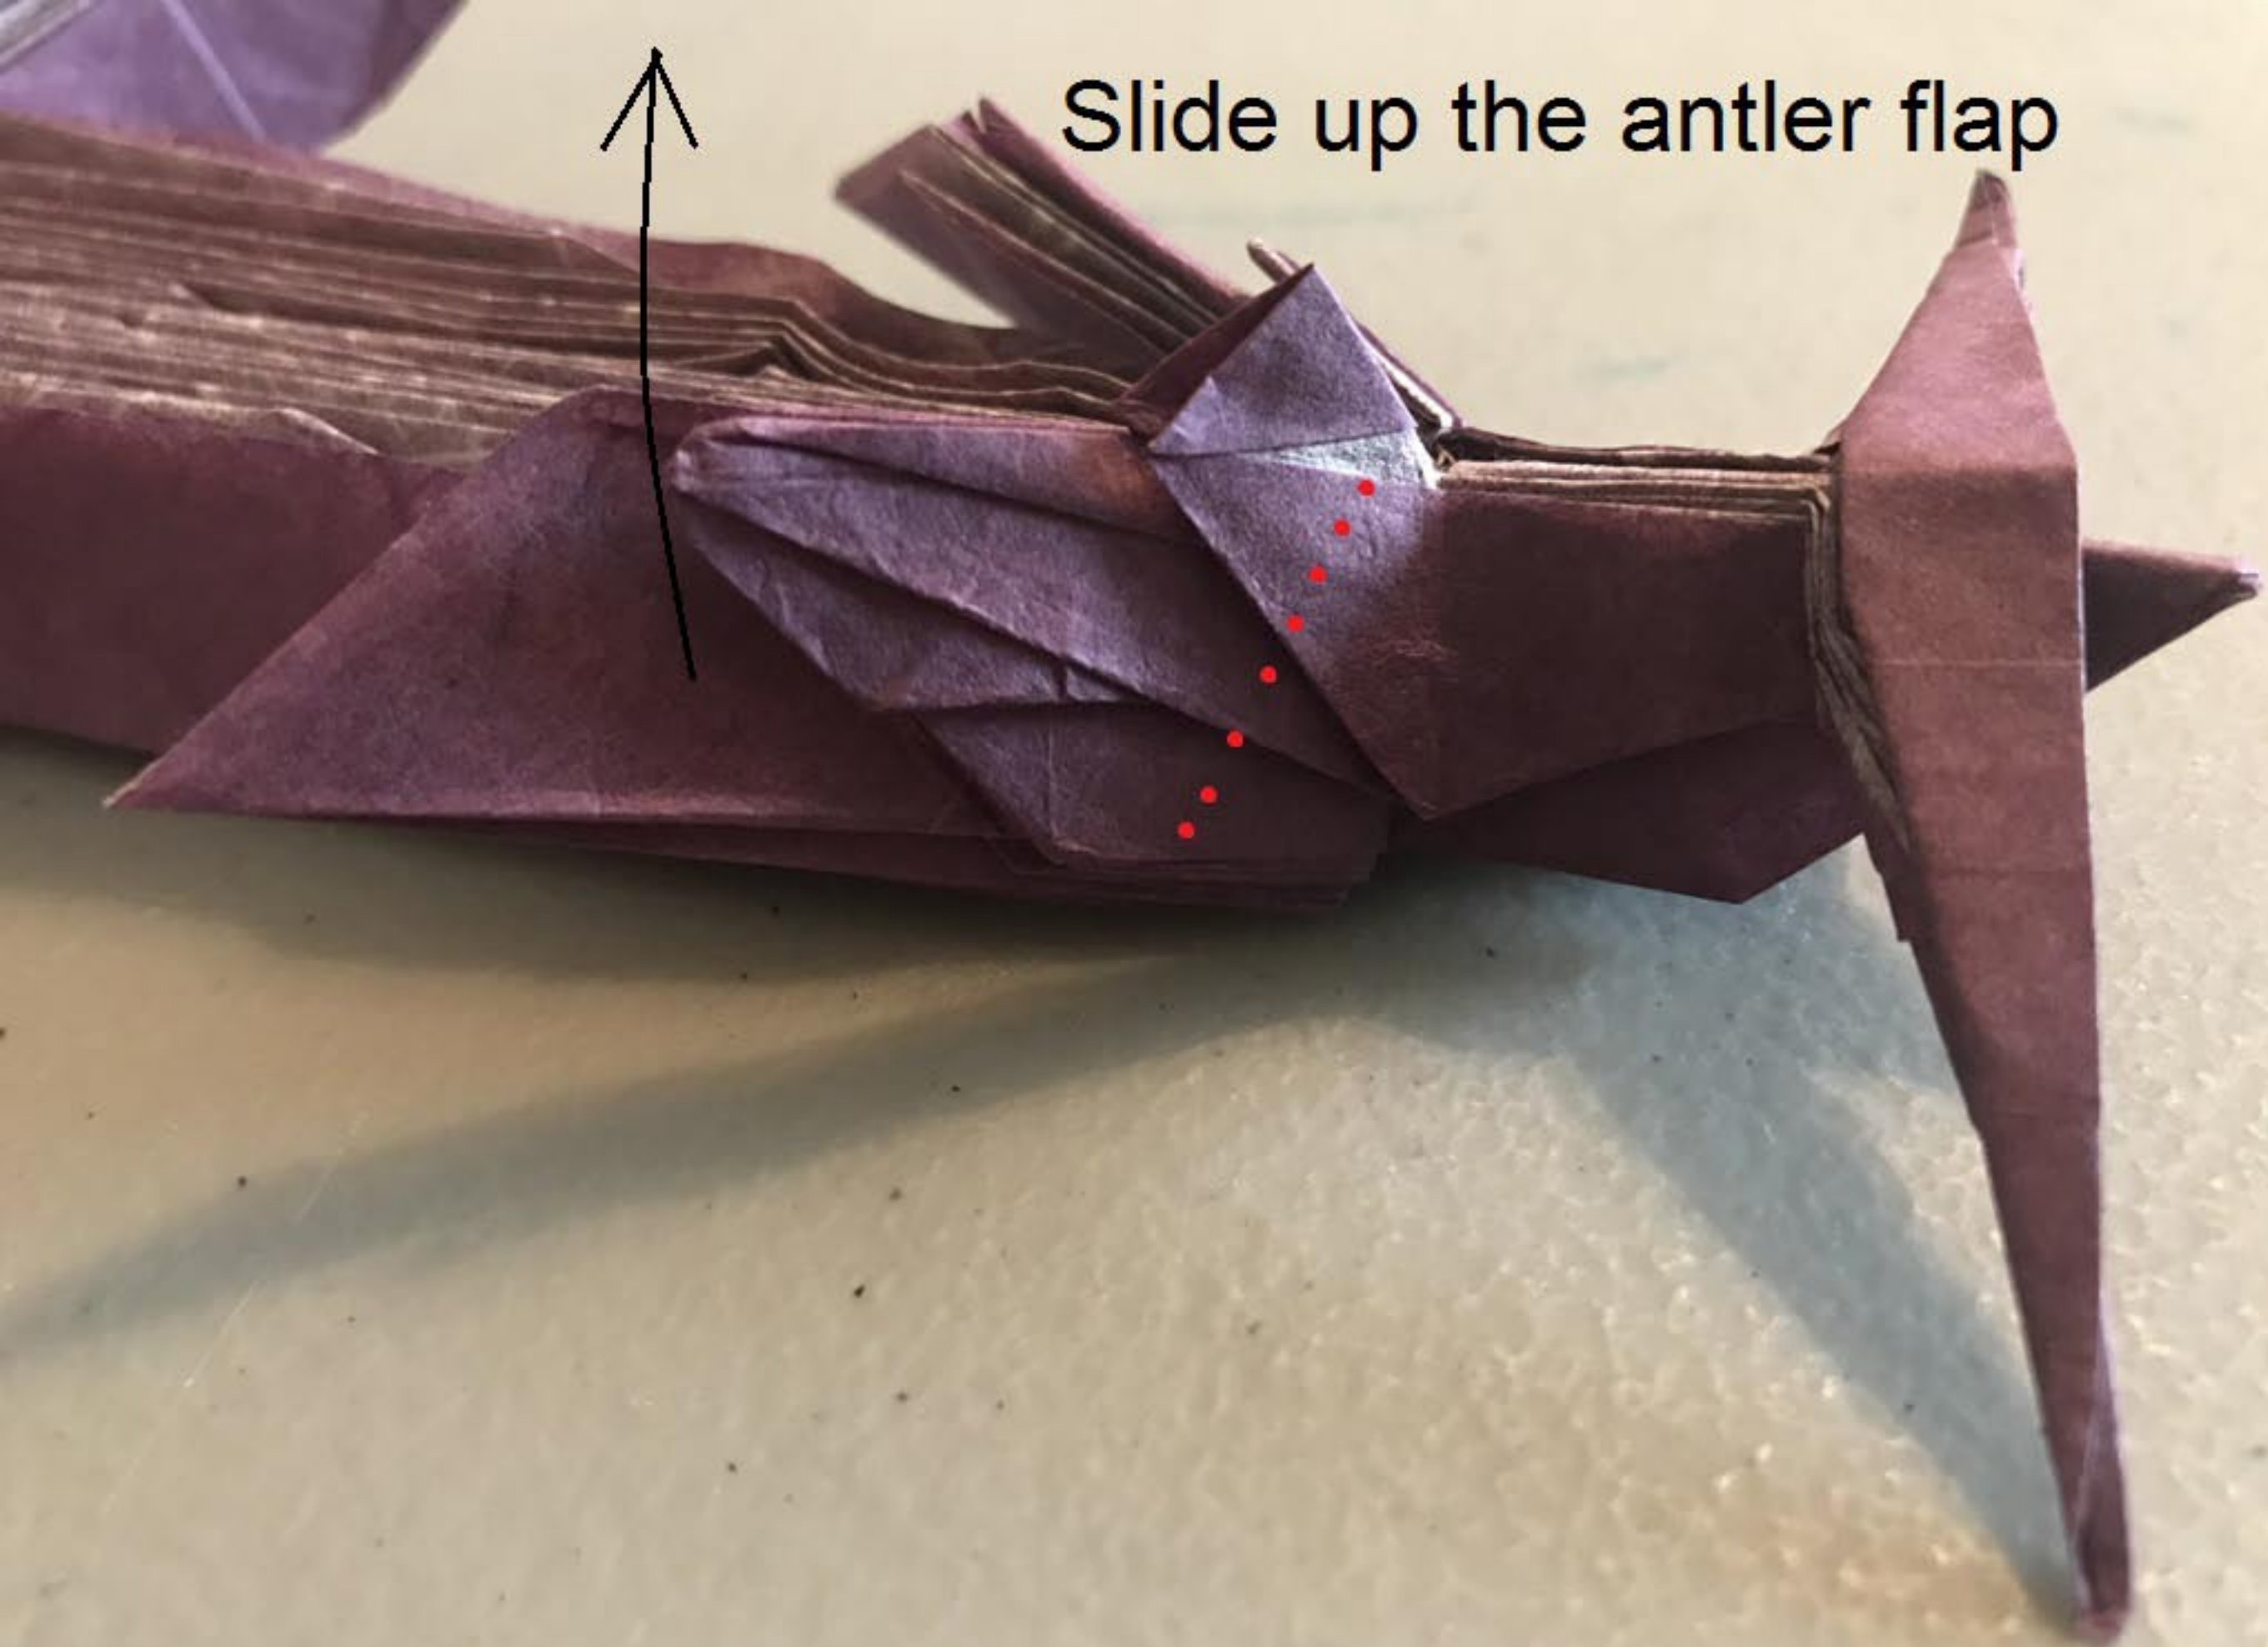

Close up with a
reverse fold

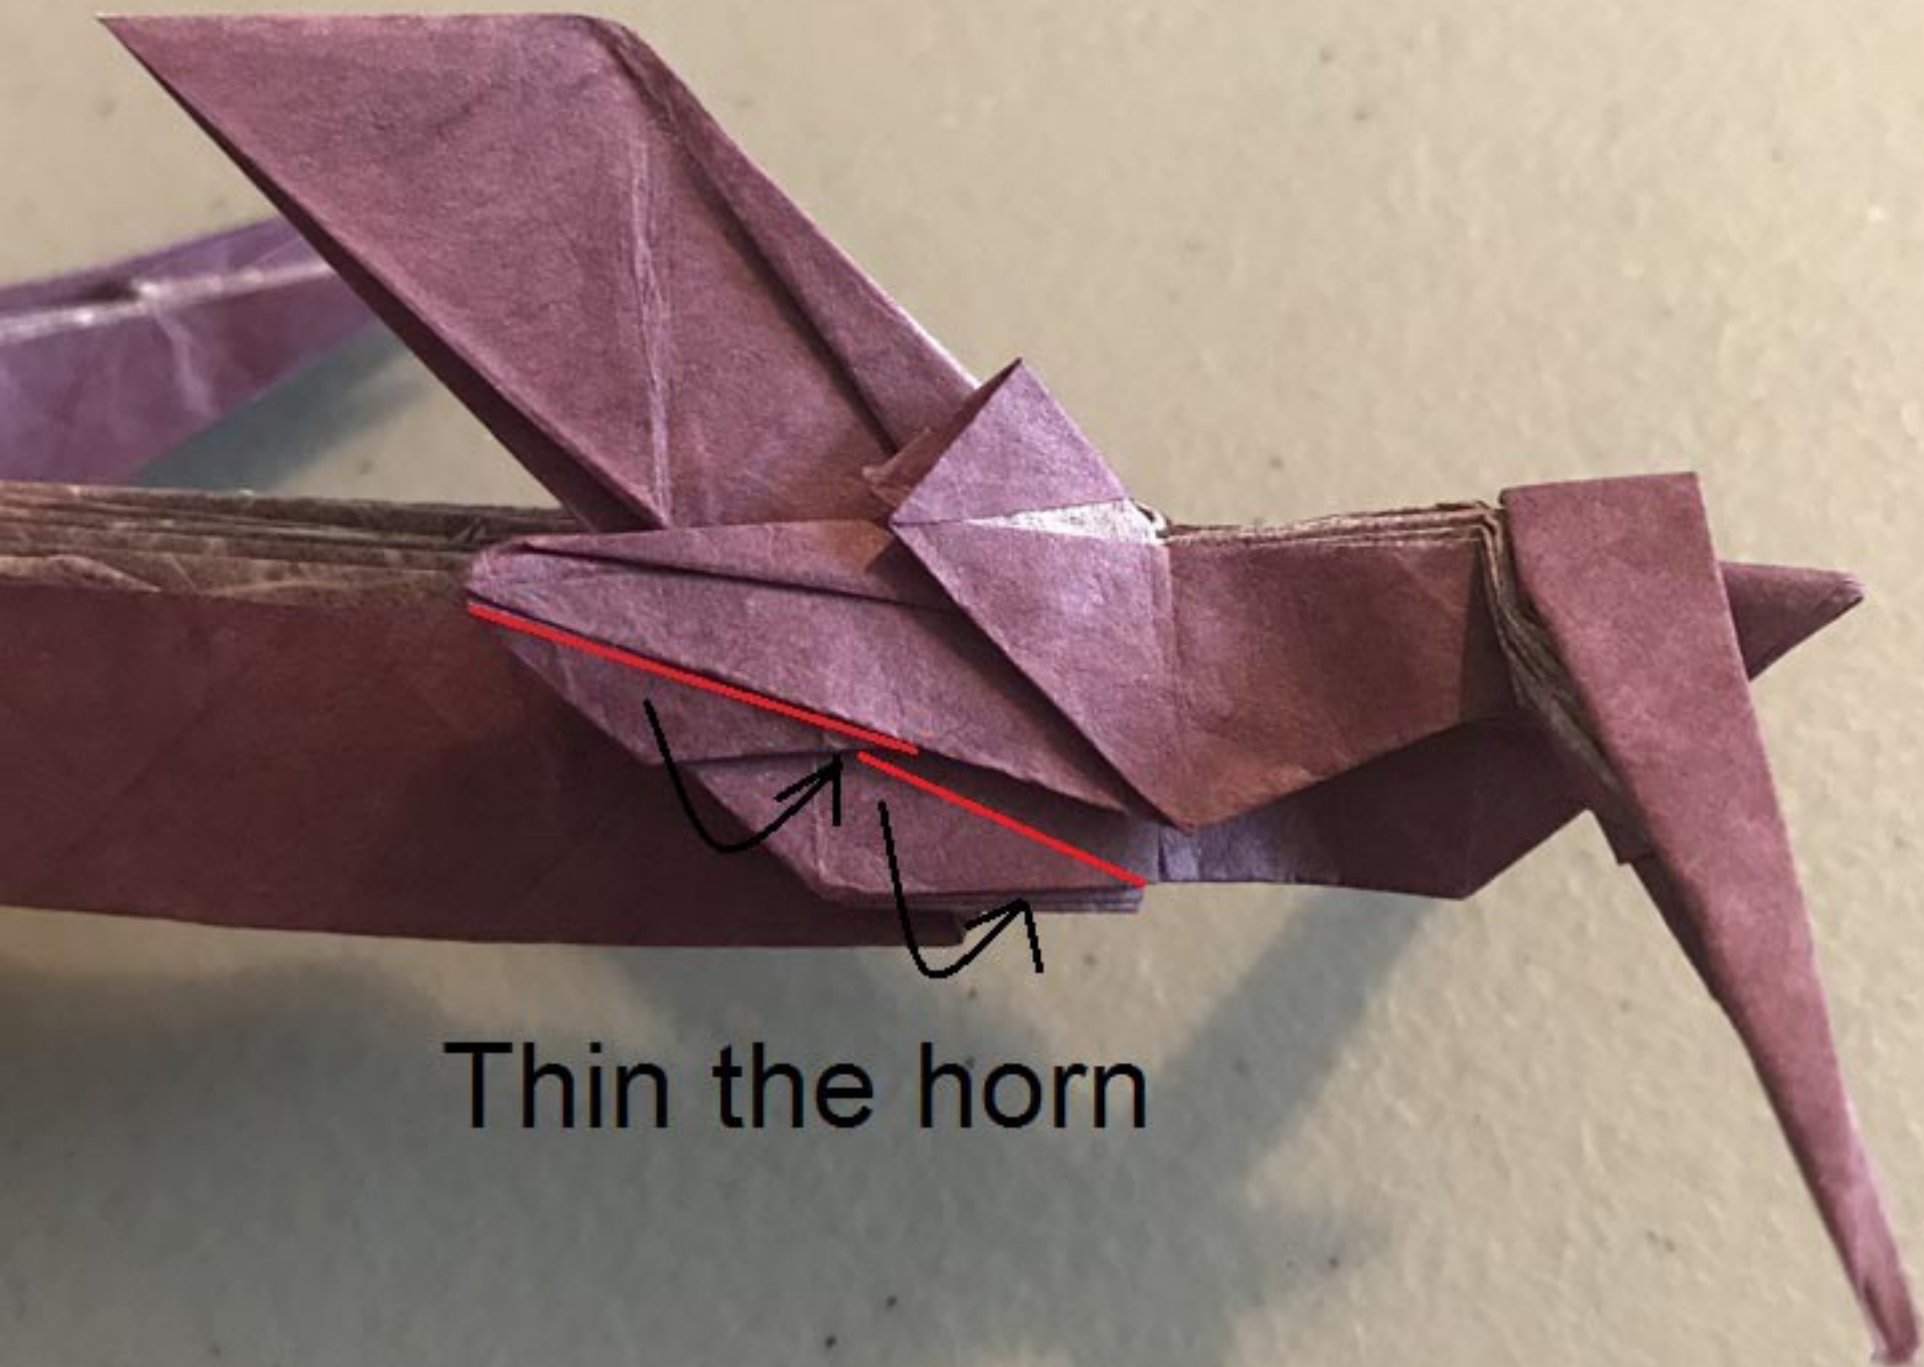

Close up

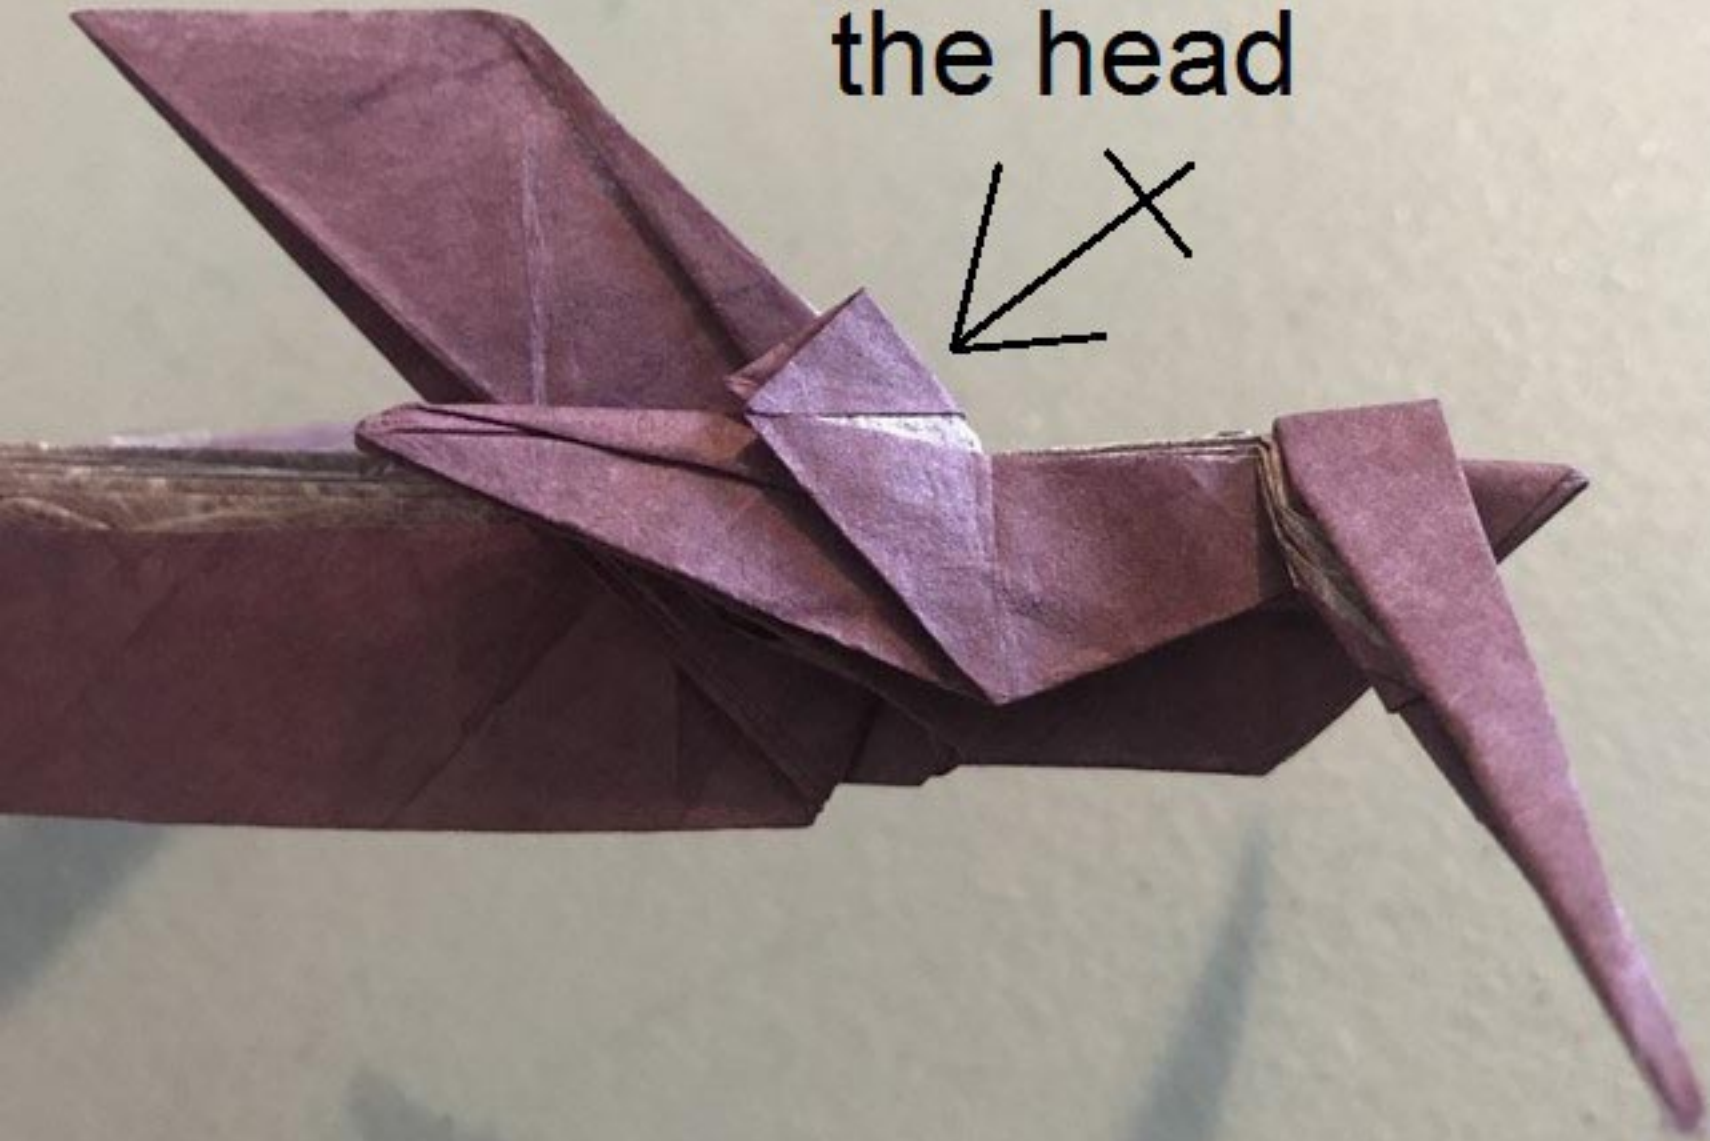

Slide up the antler flap

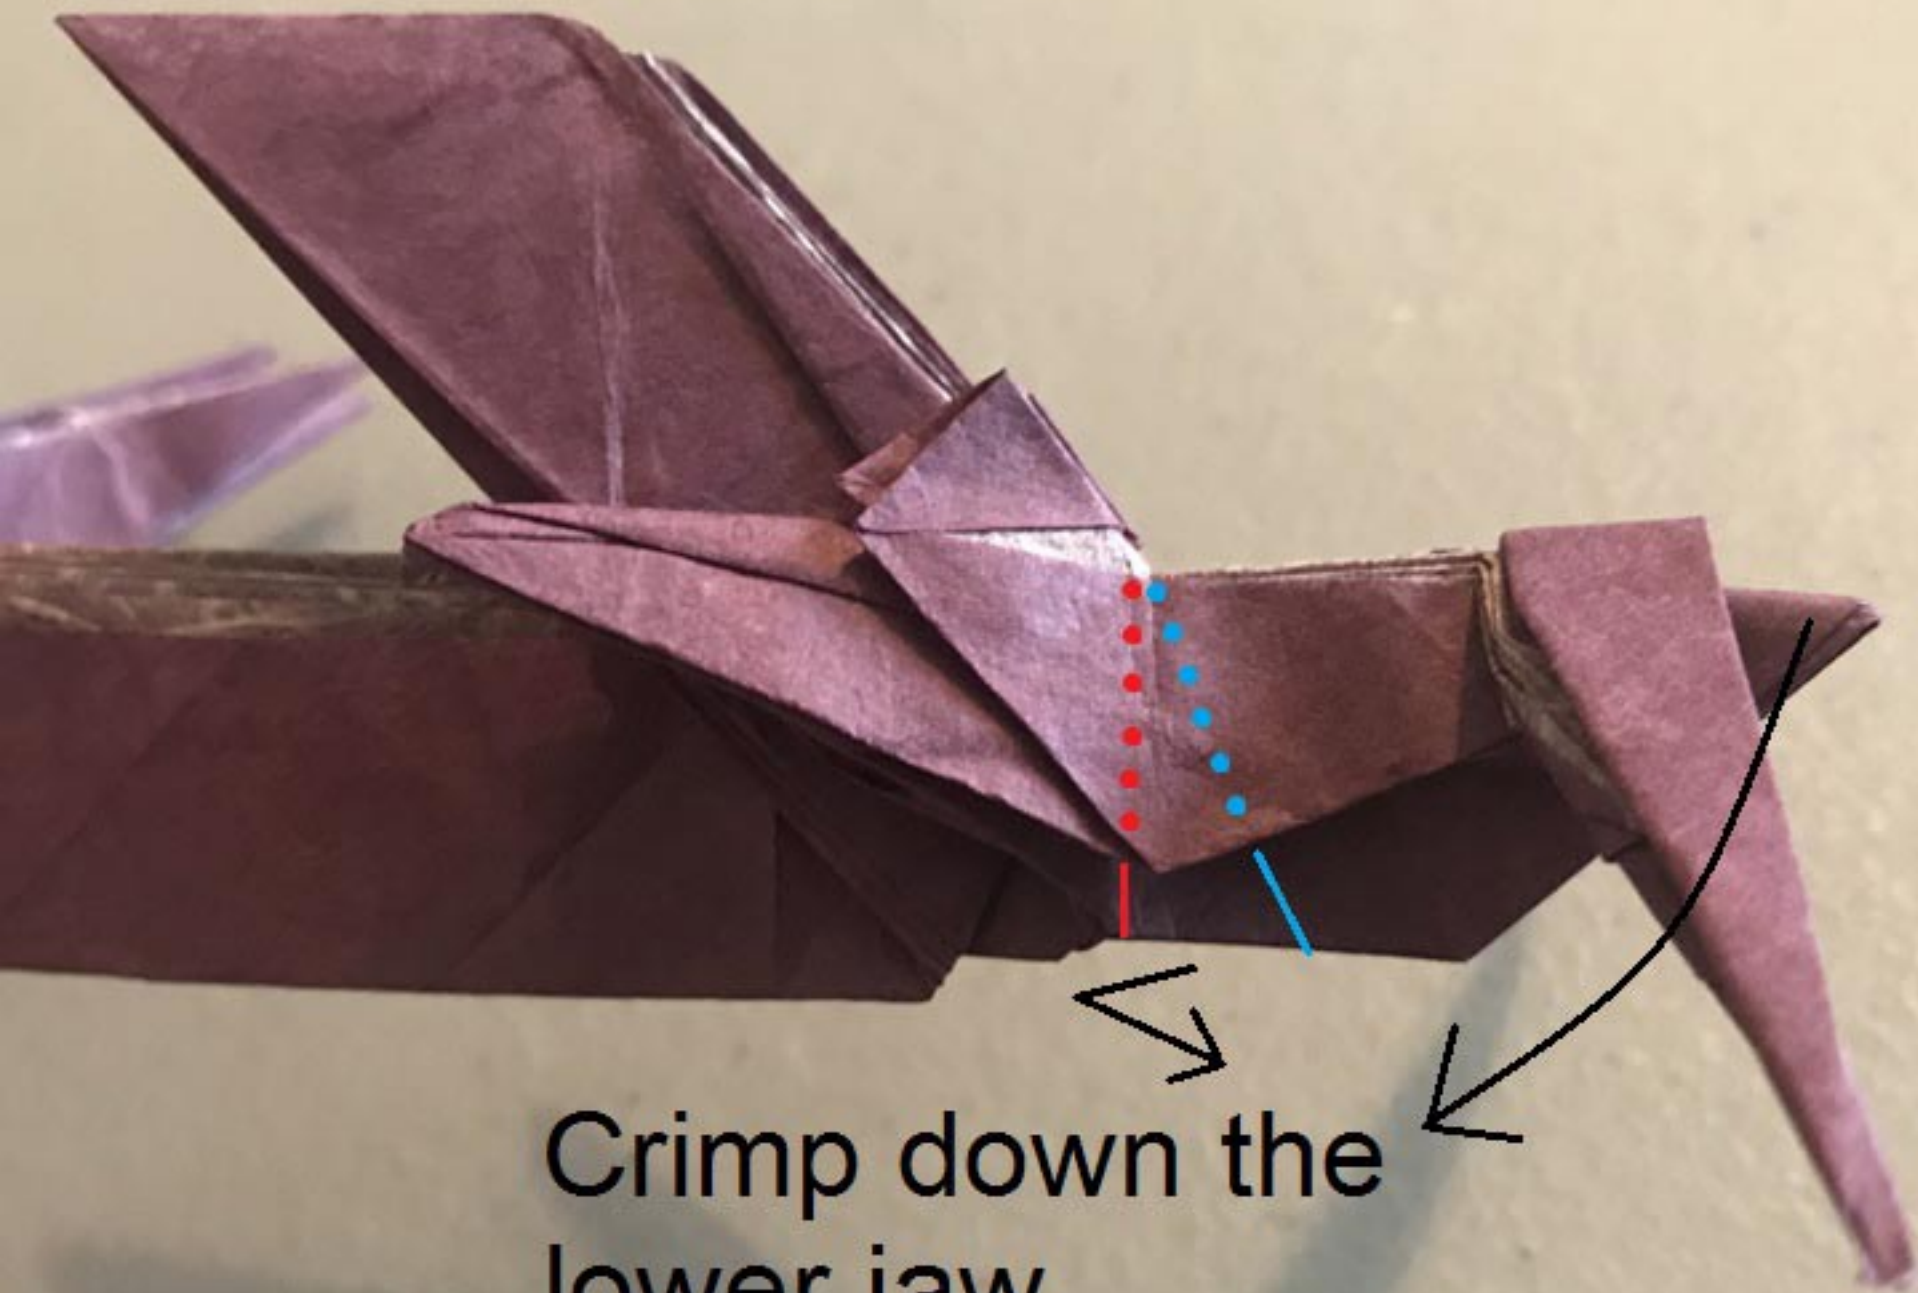

Thin the horn

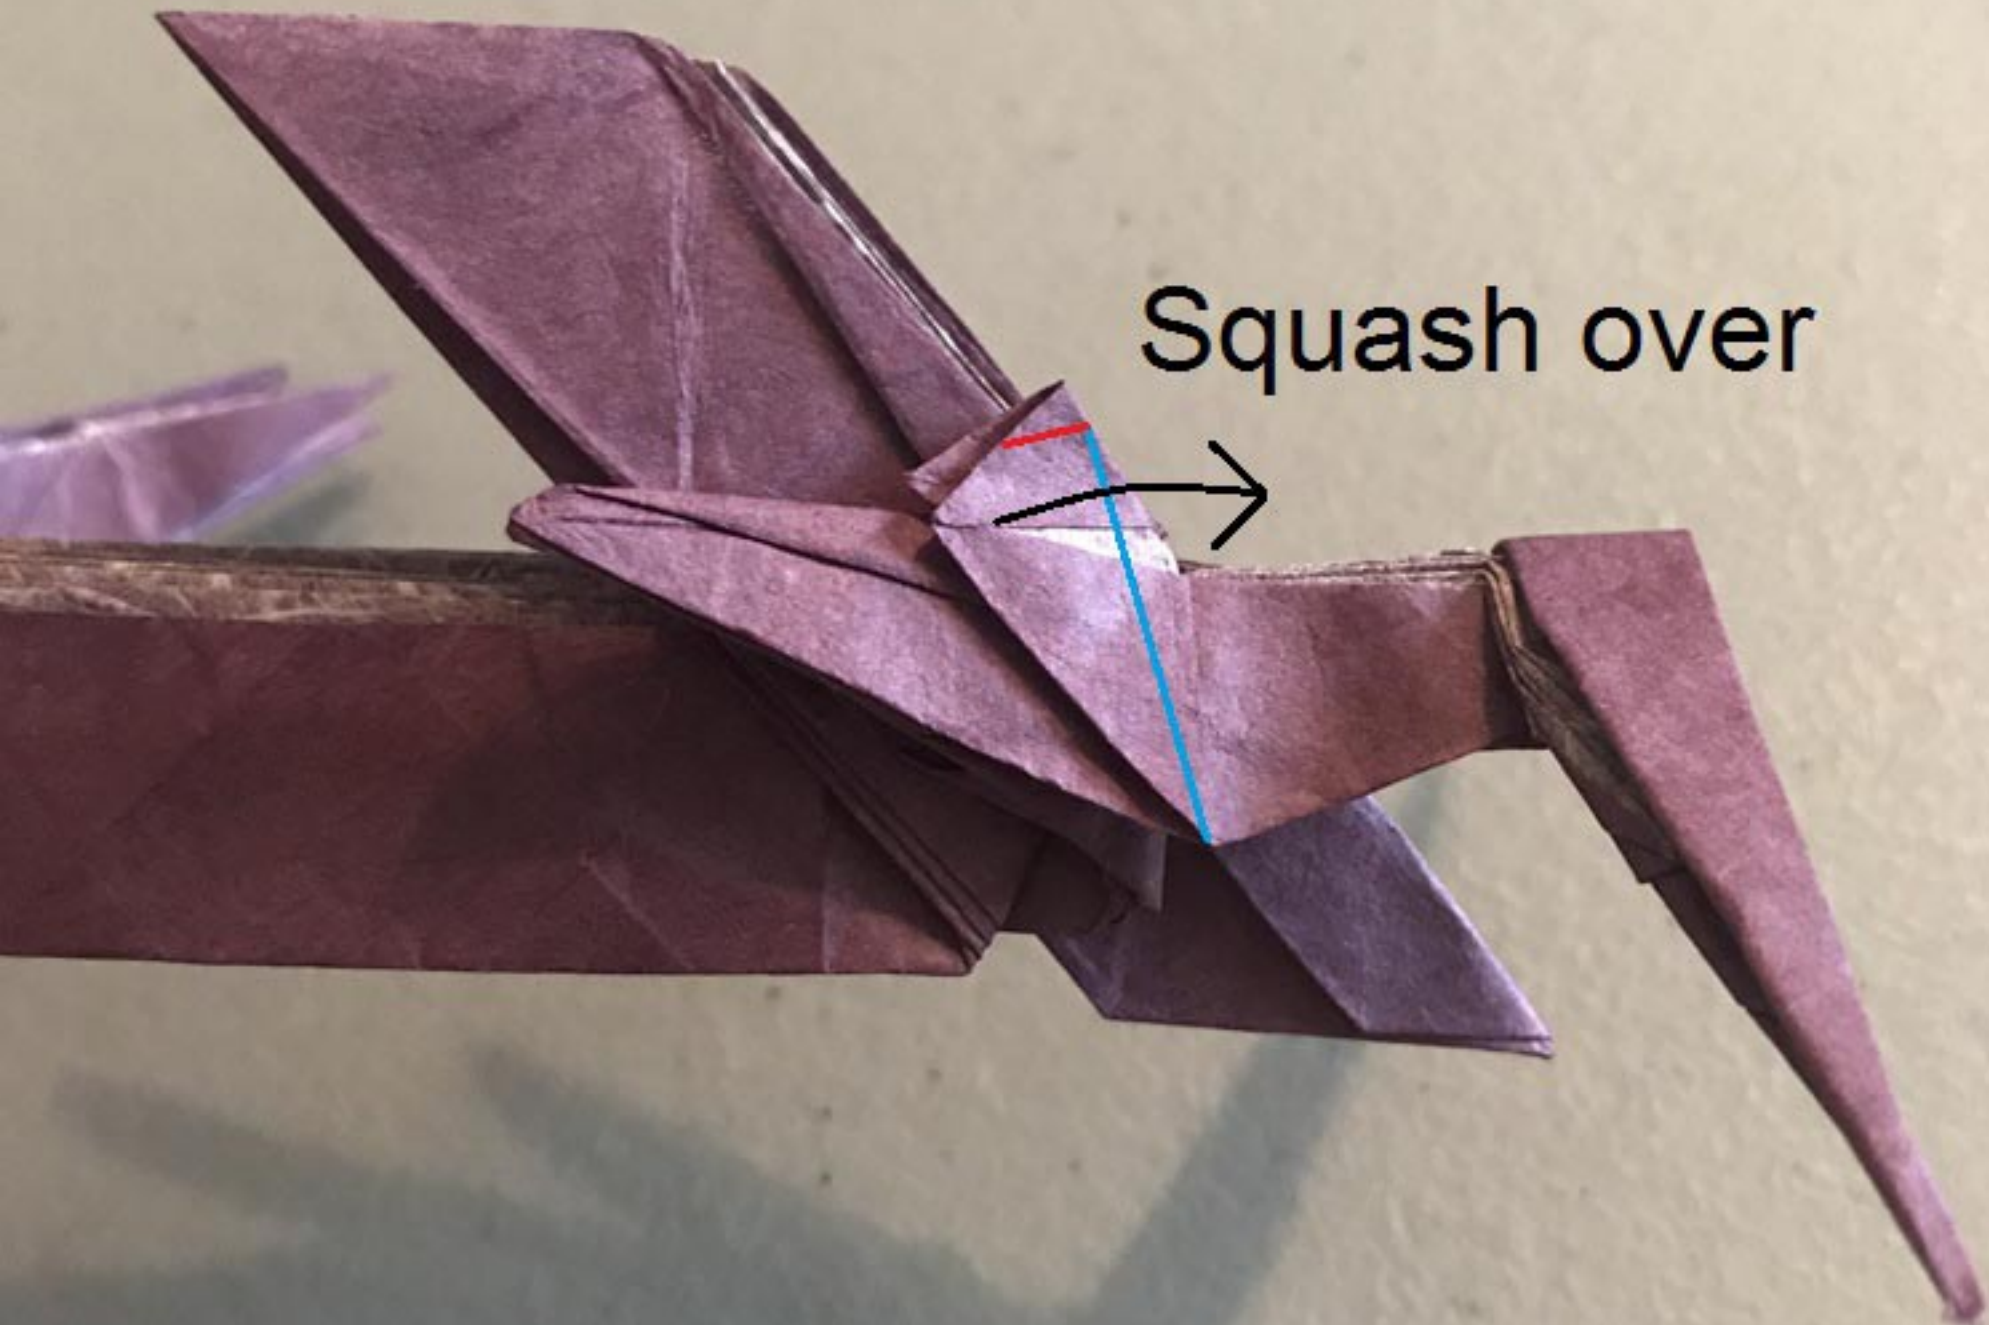

Repeat all that on
the other side of
the head

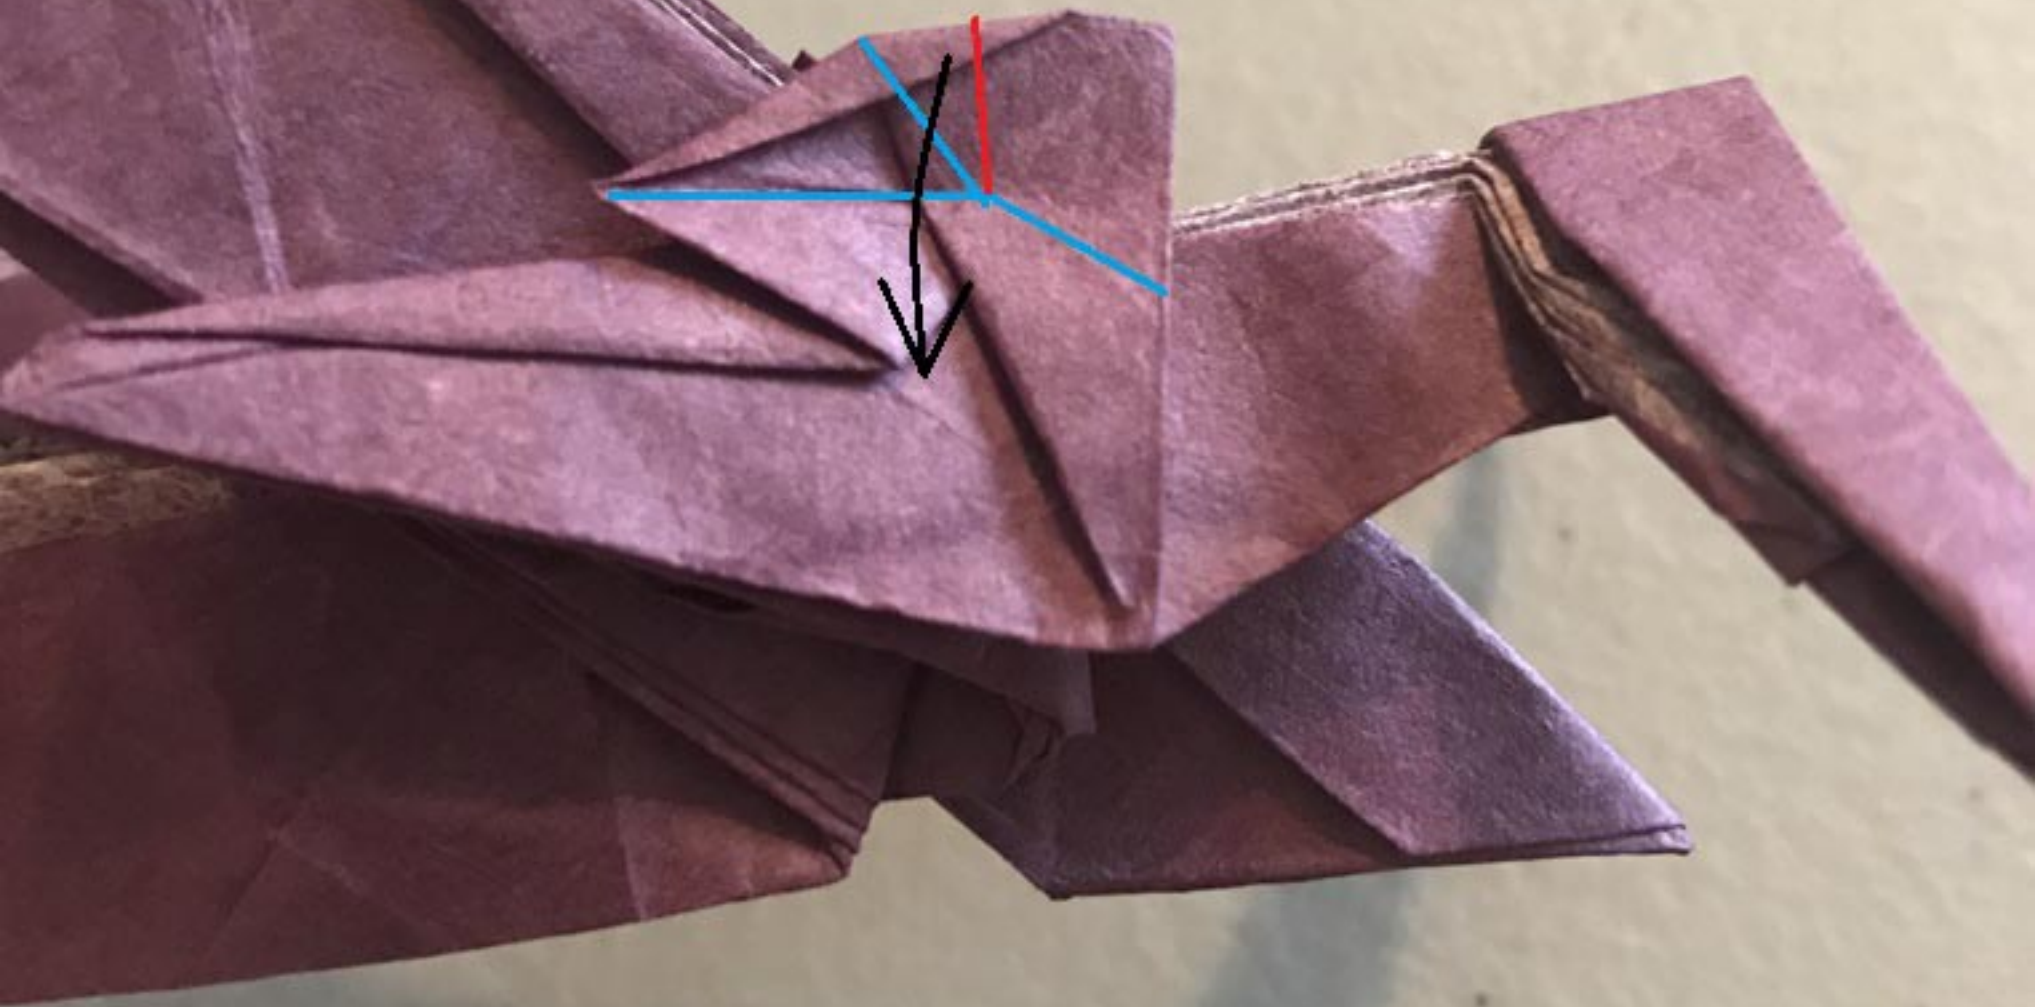

Crimp down the
lower jaw

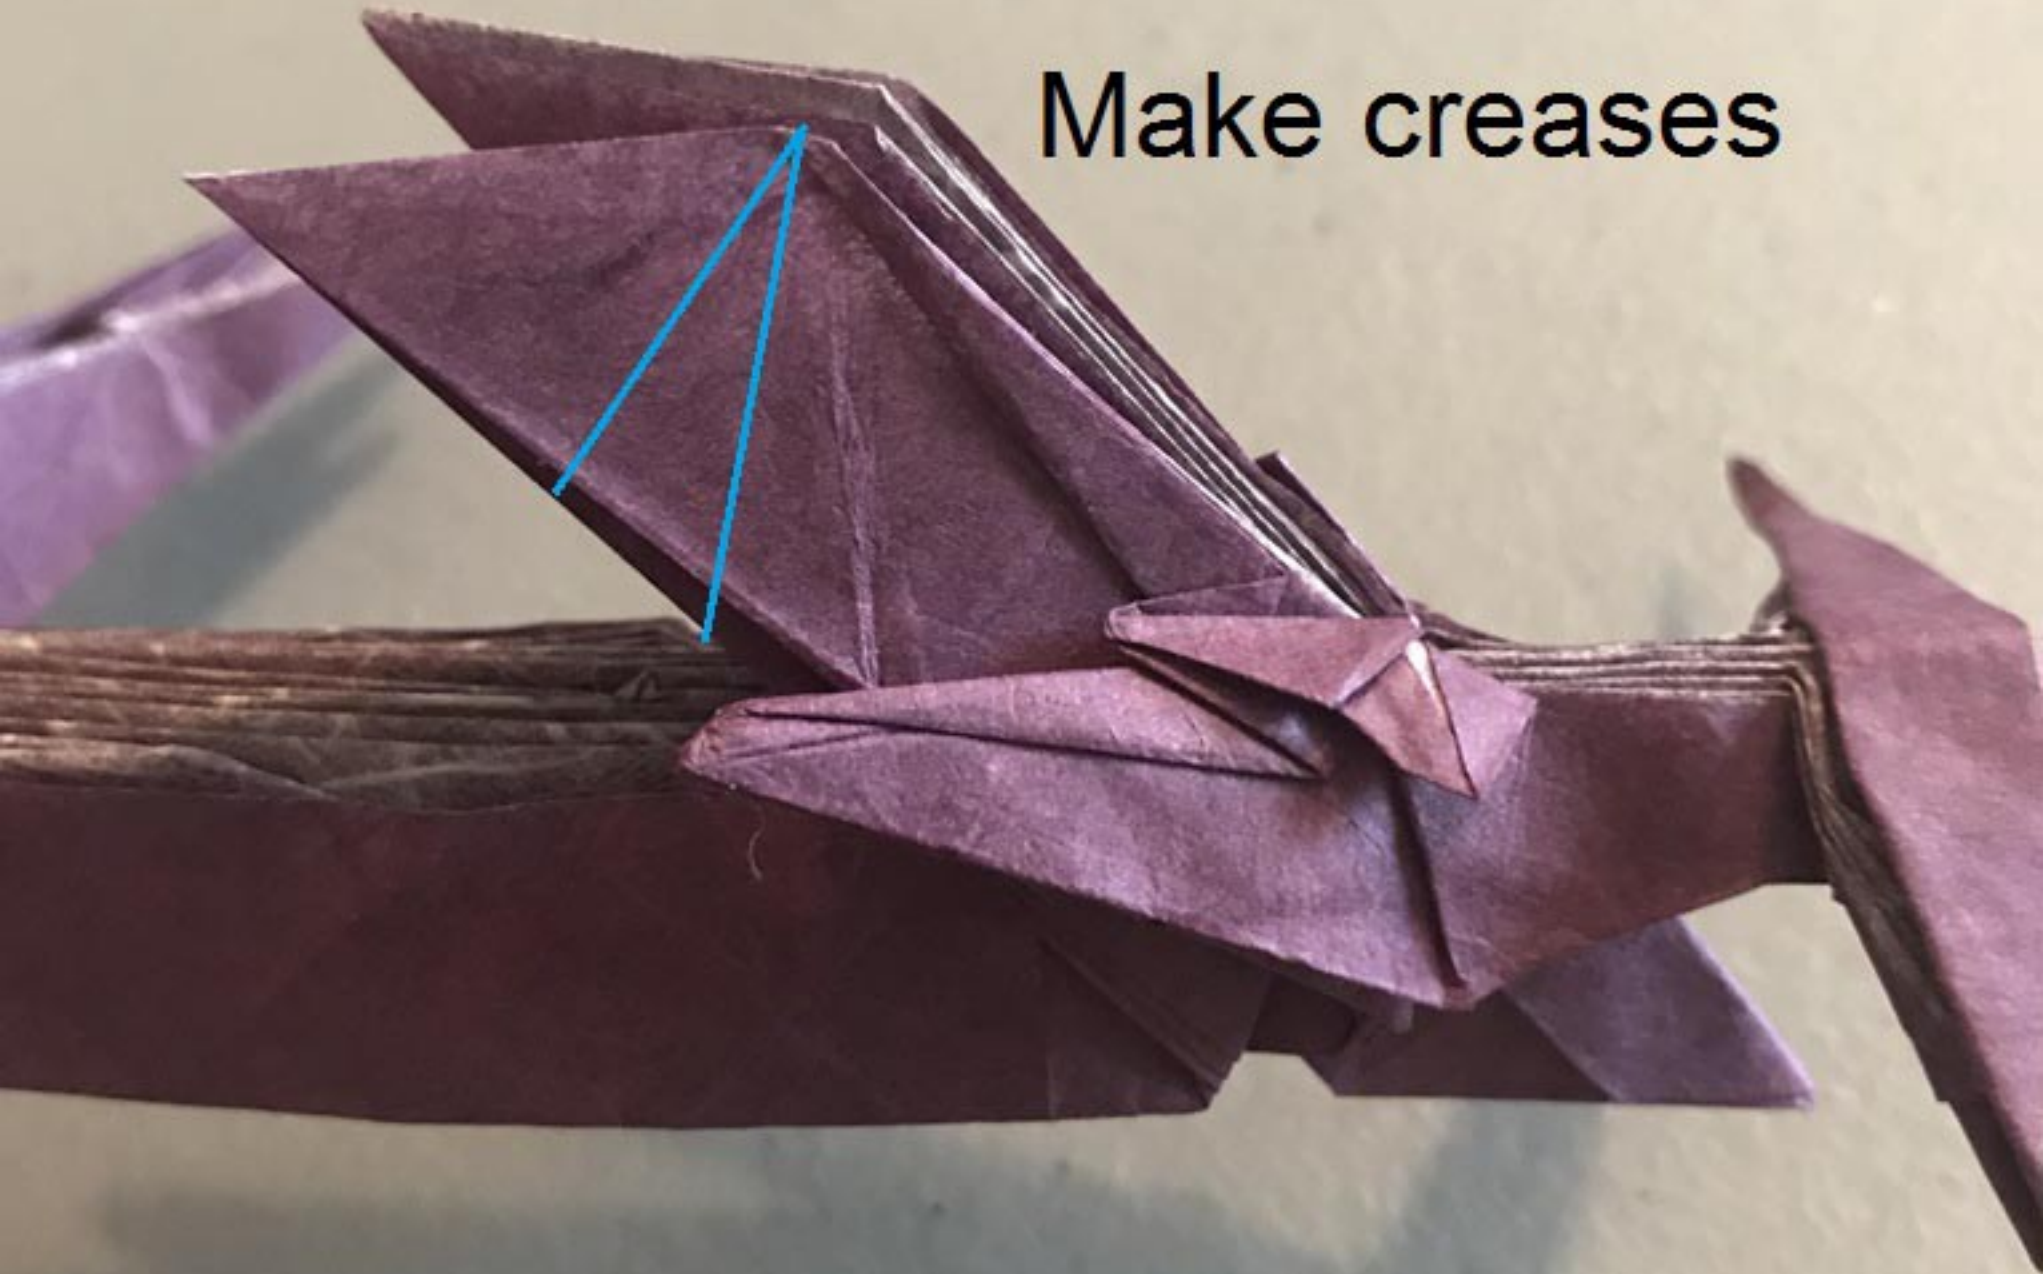

Squash over

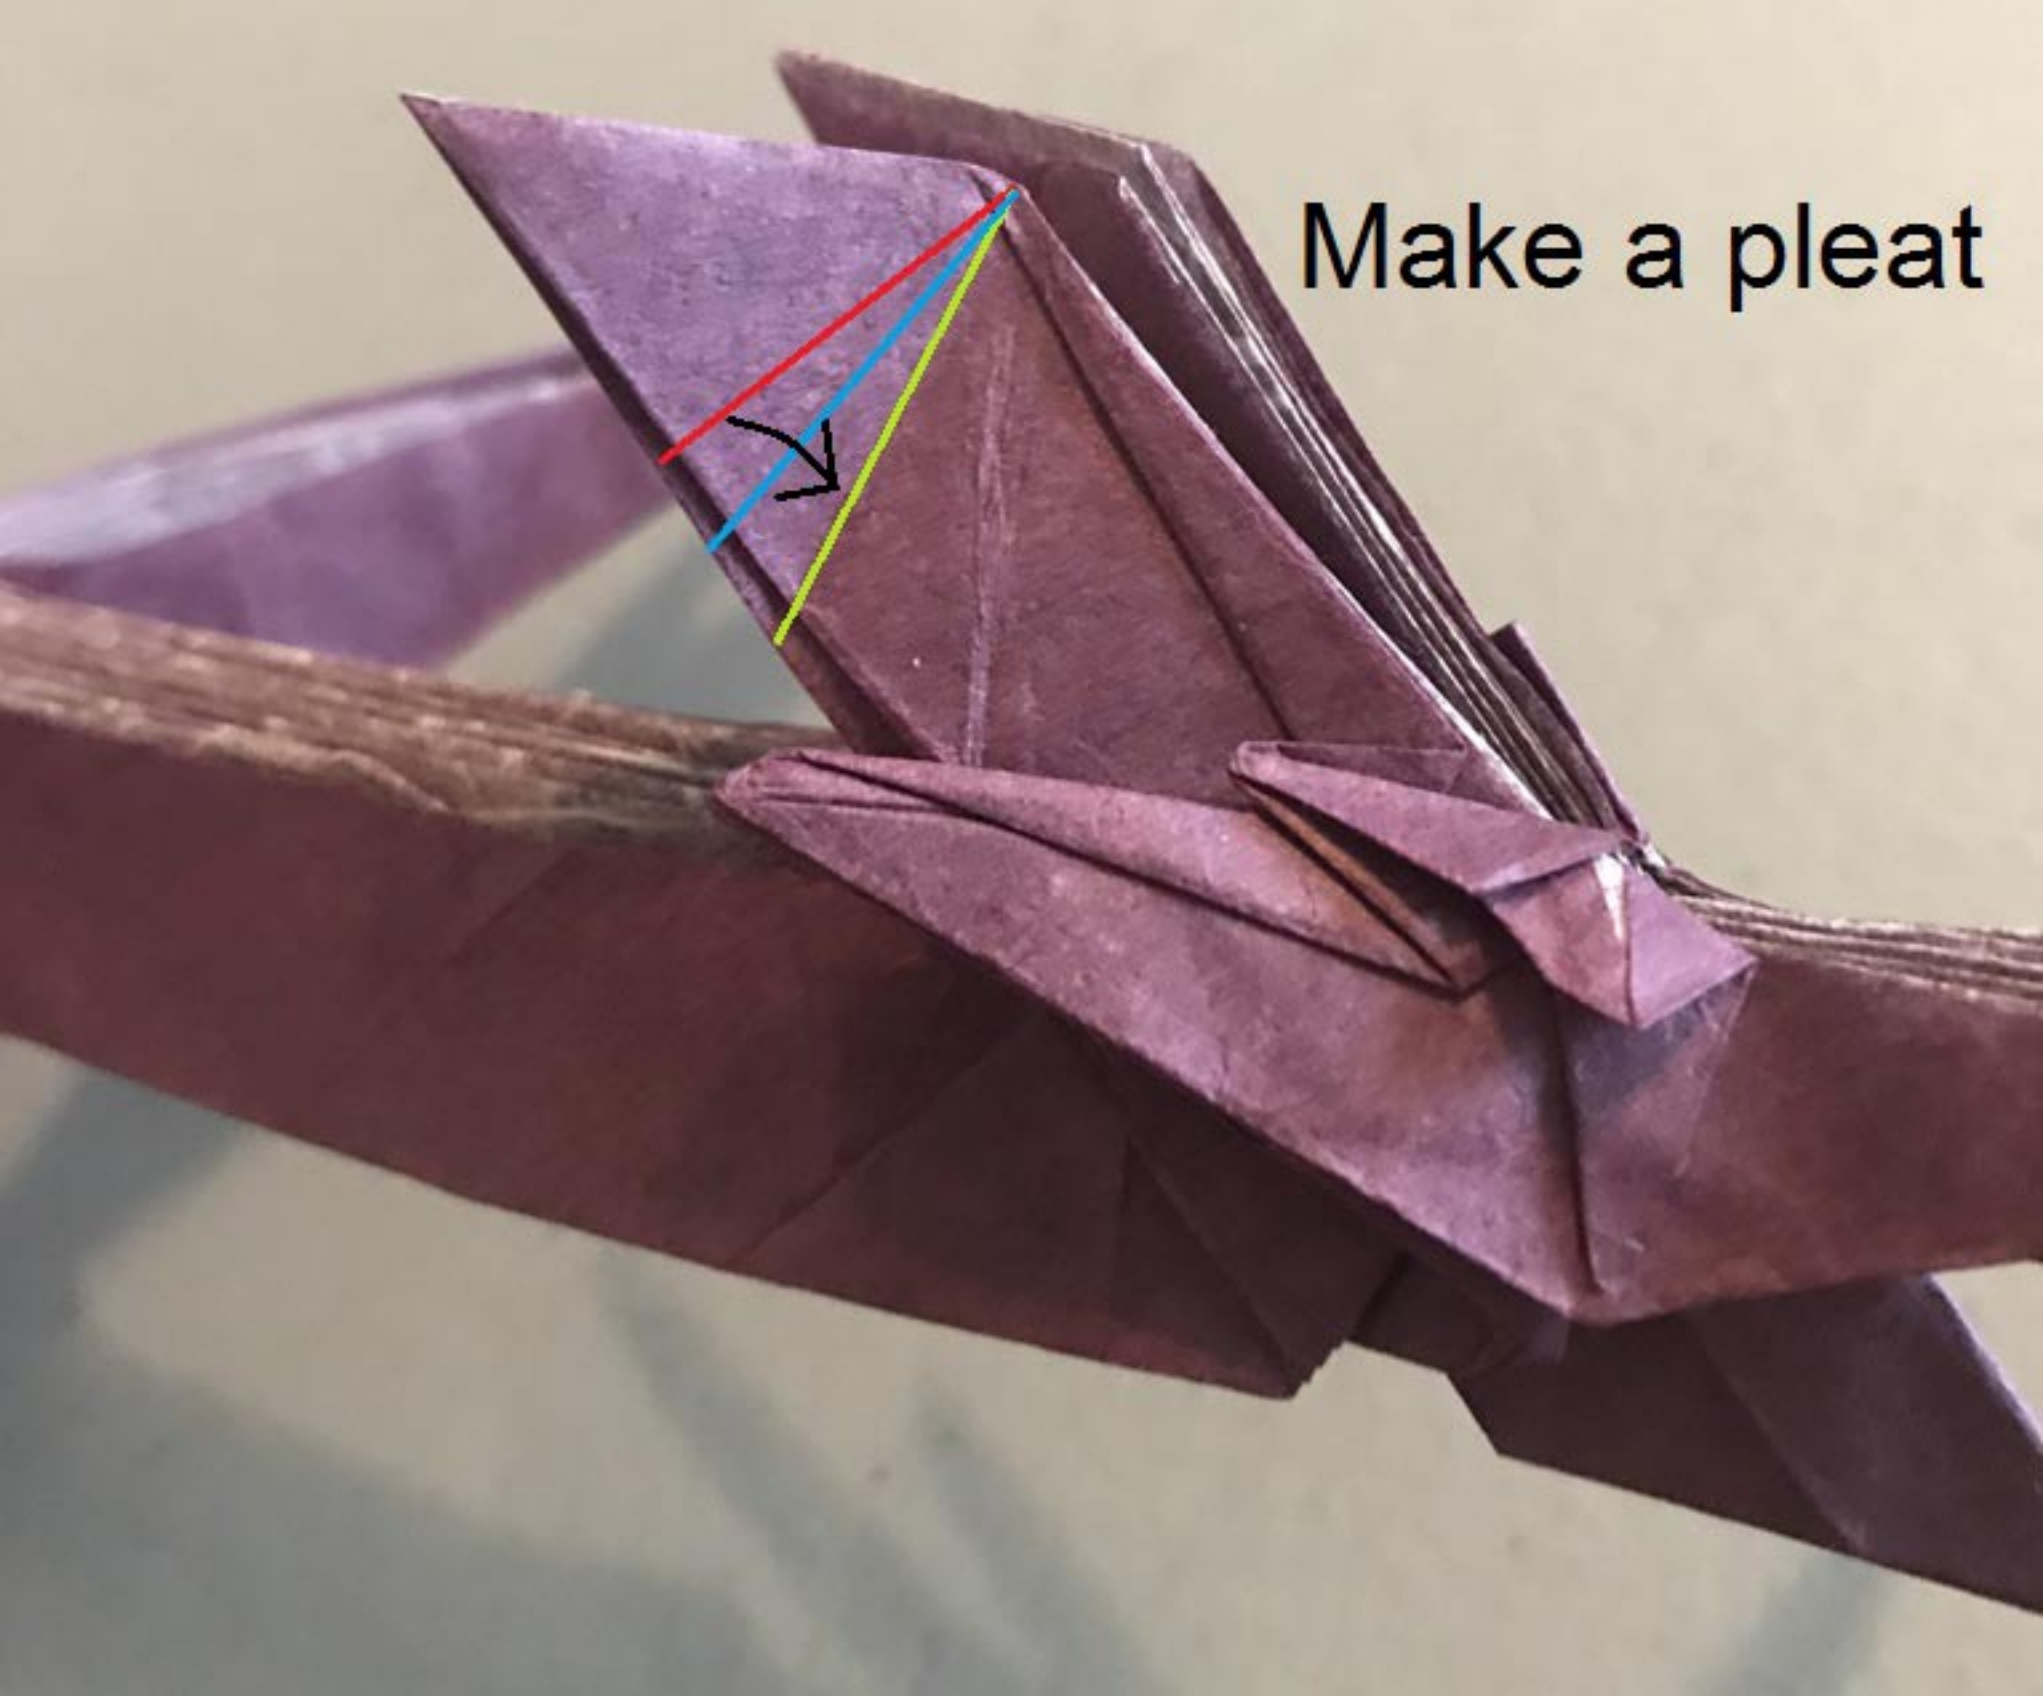

Close up with a
swivel fold

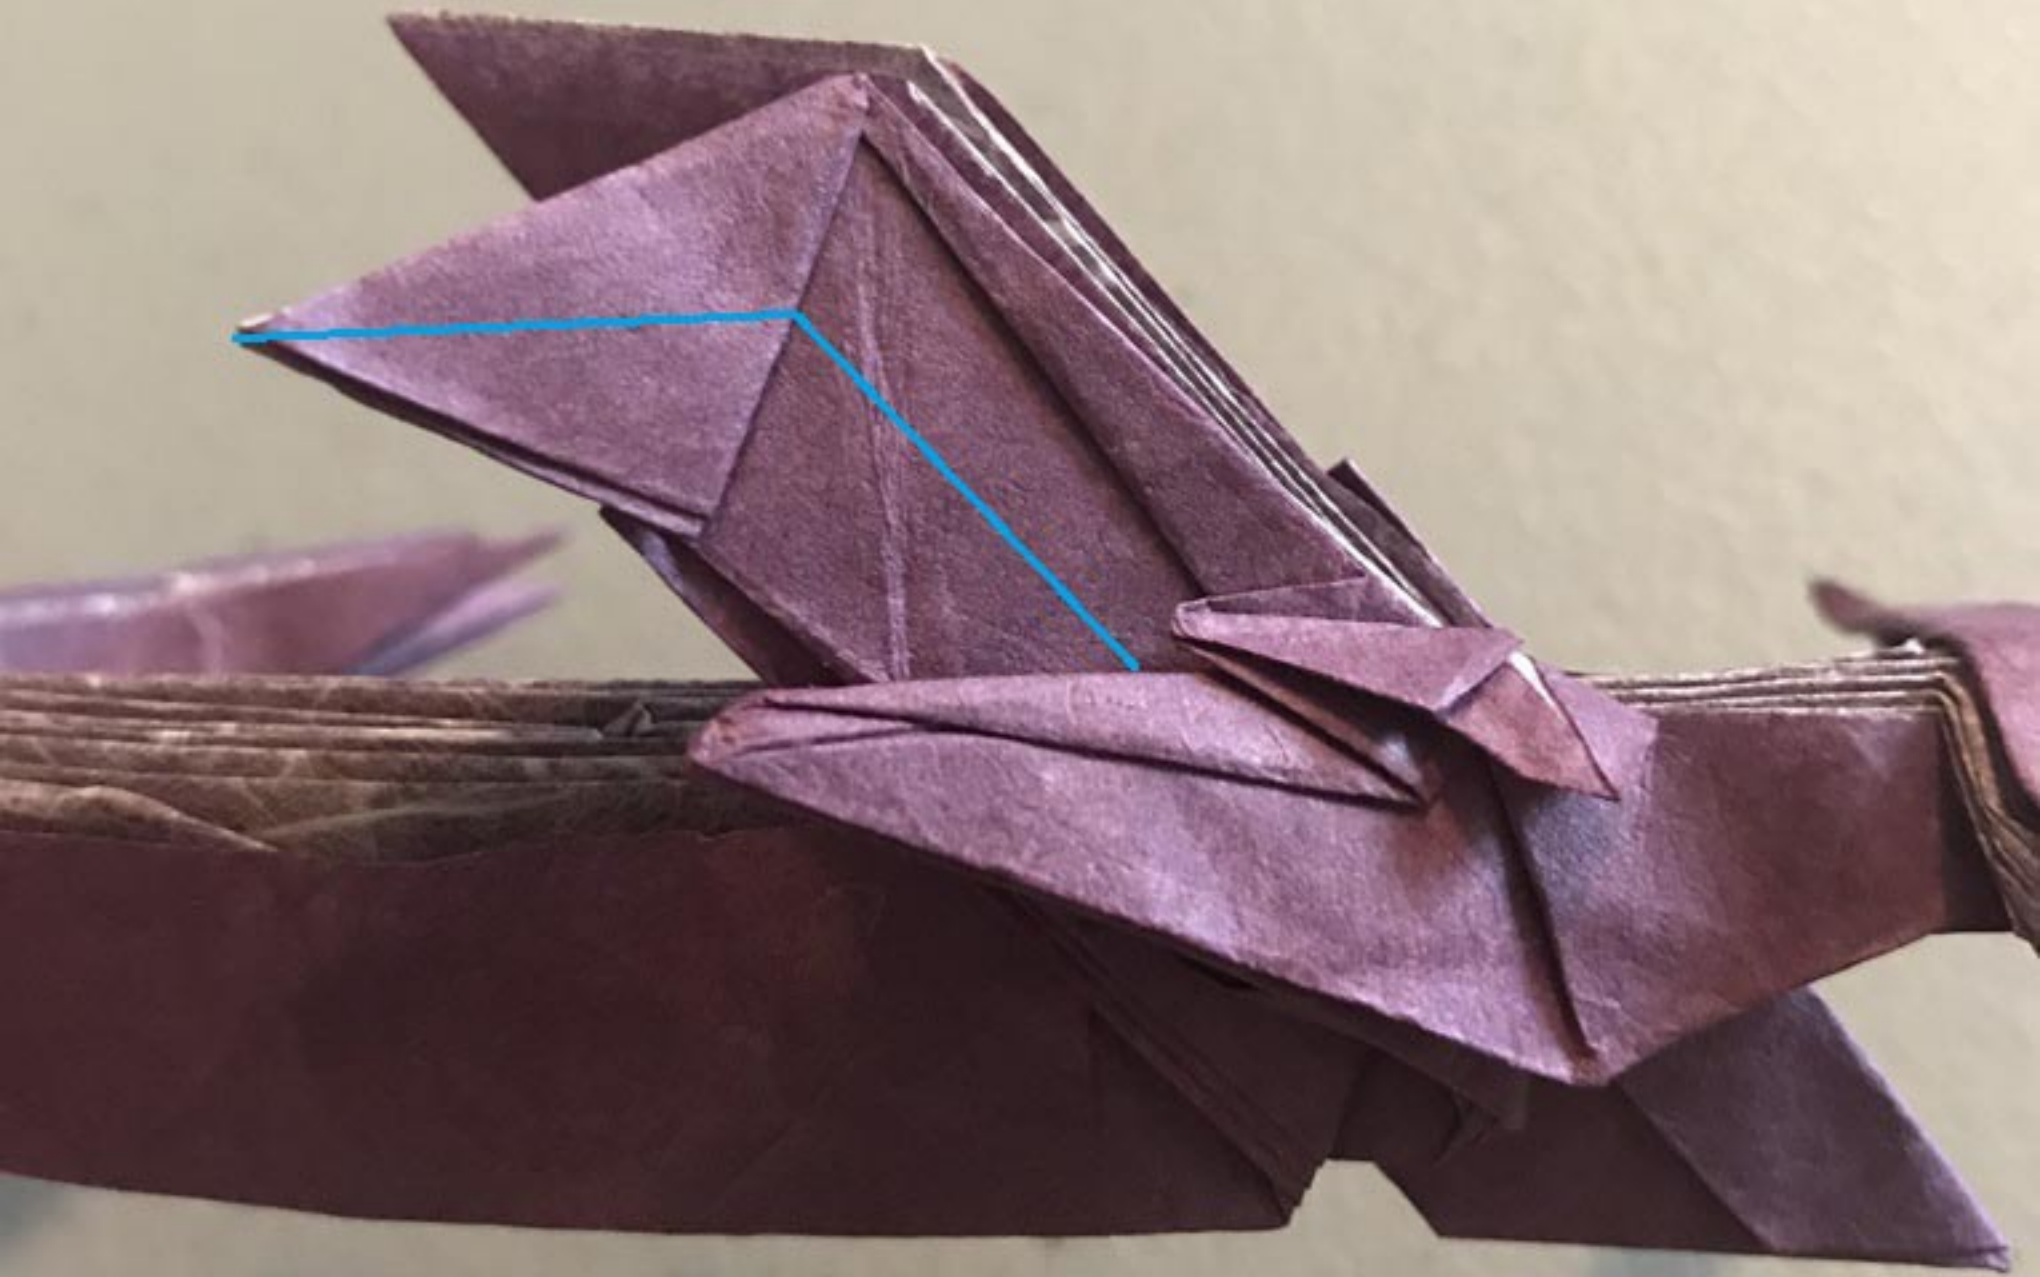

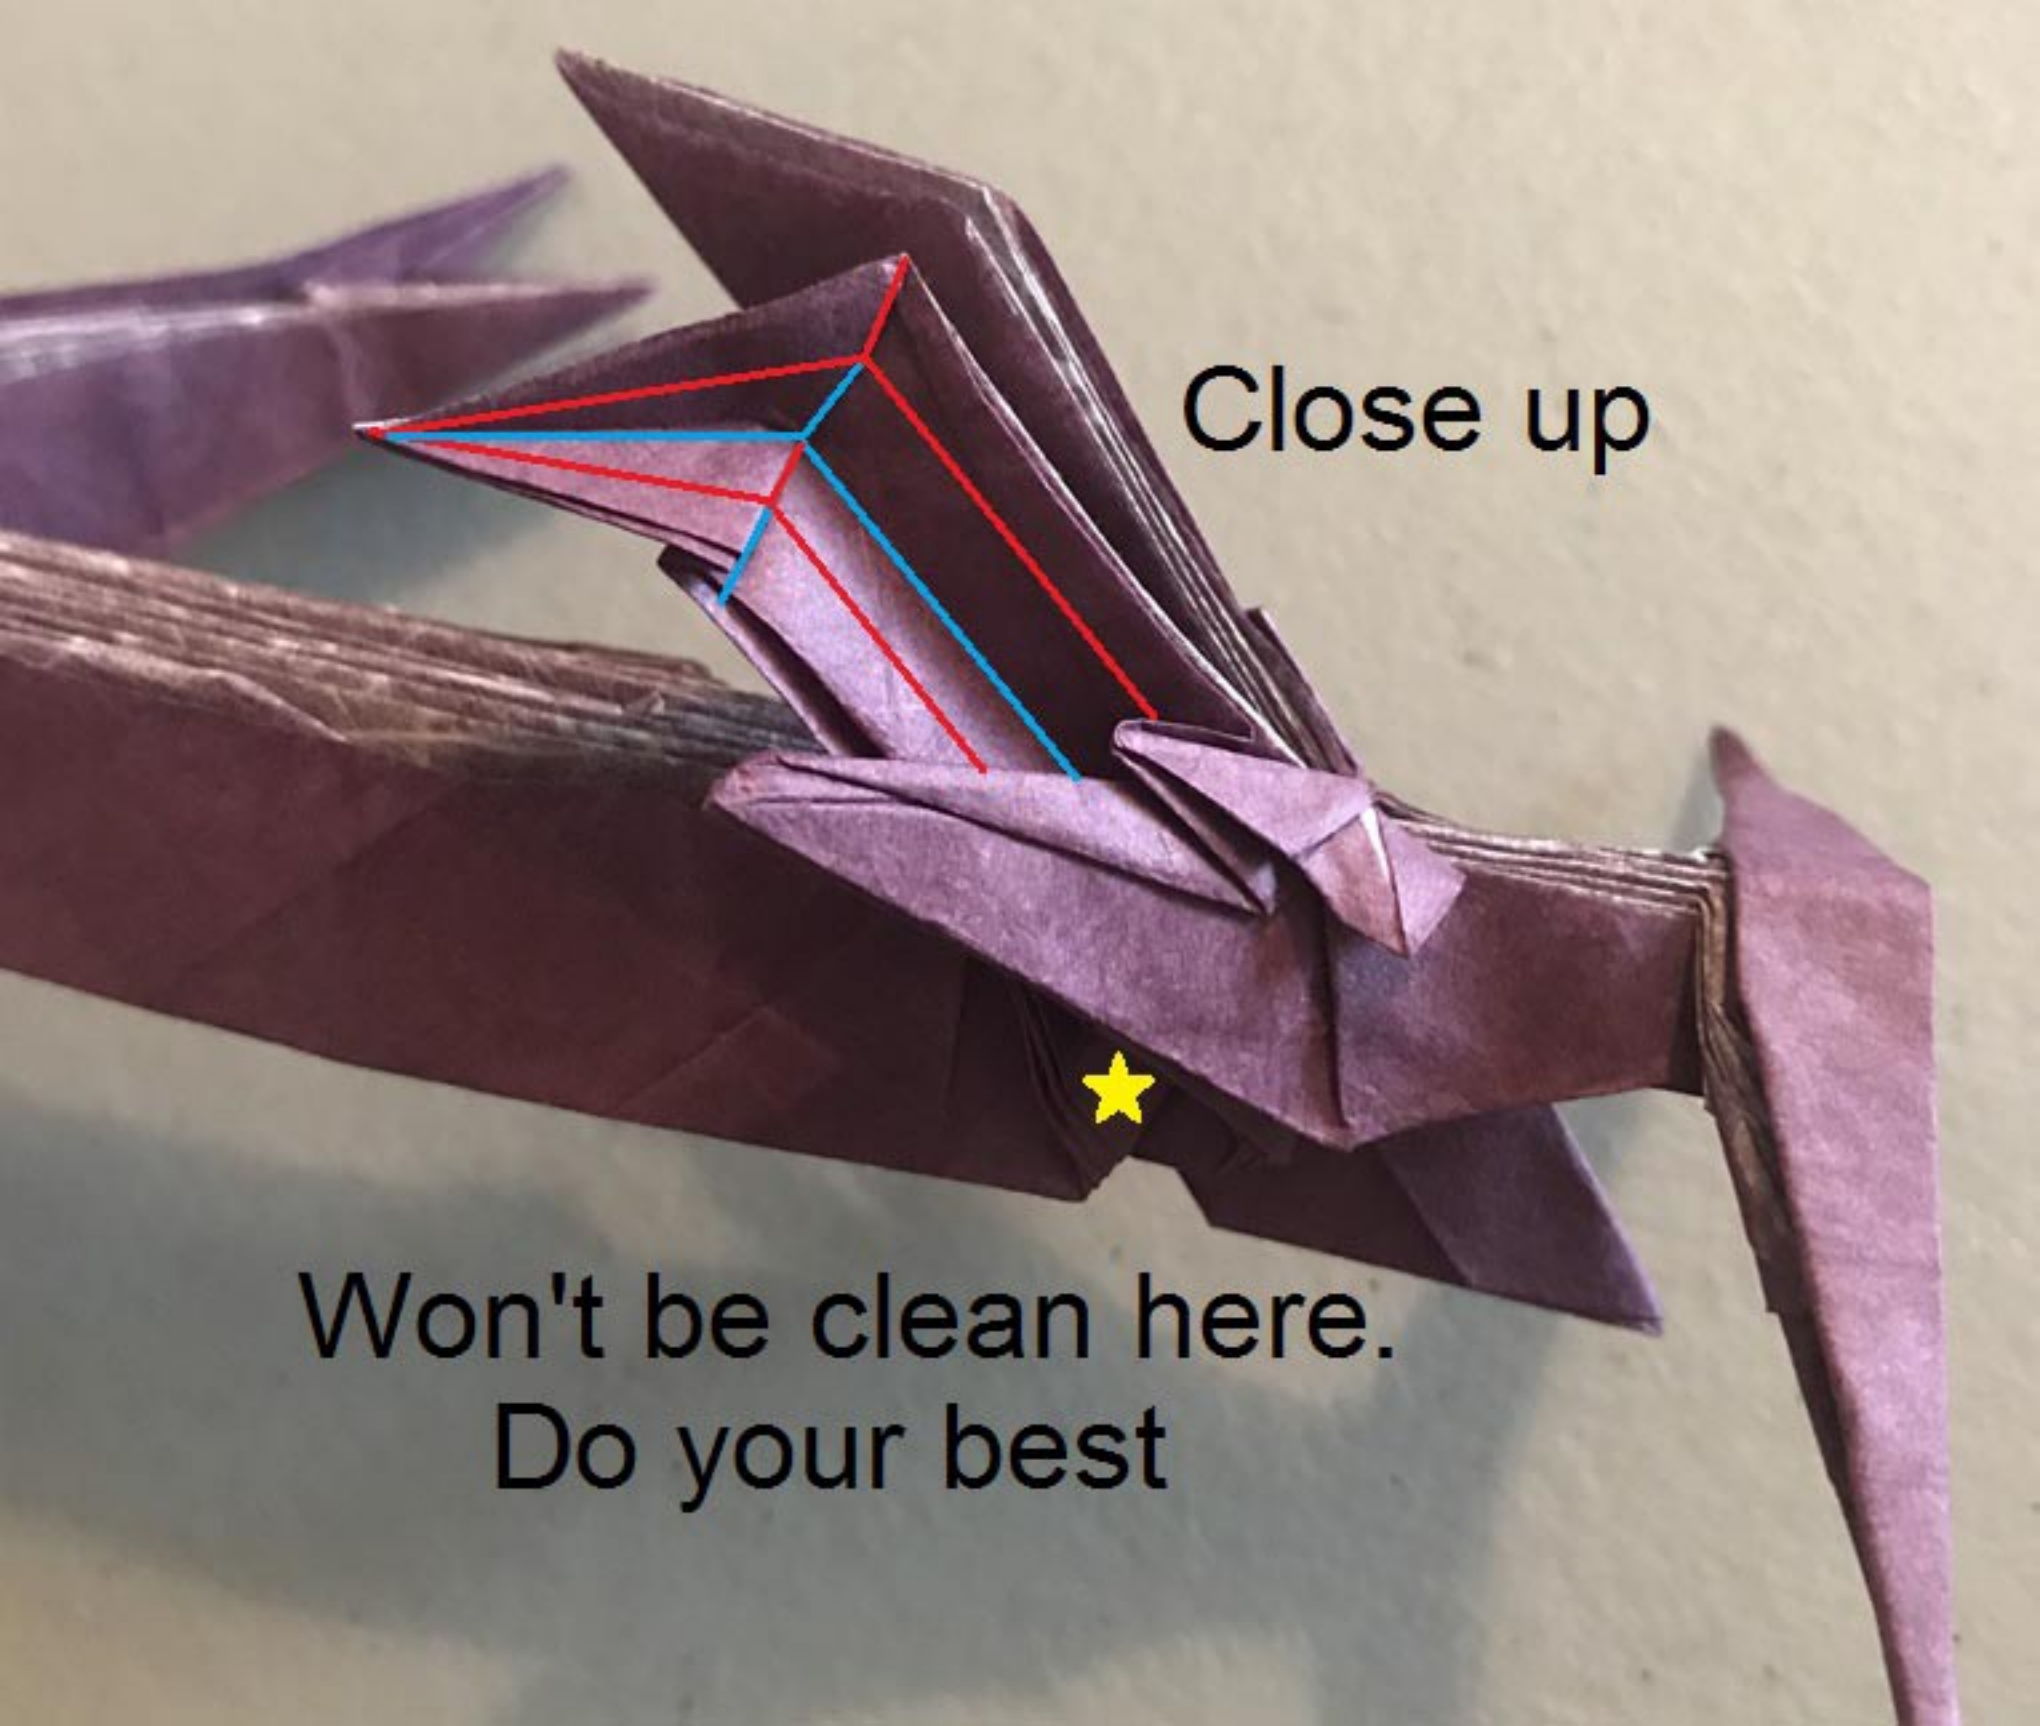

Make creases

Make a pleat

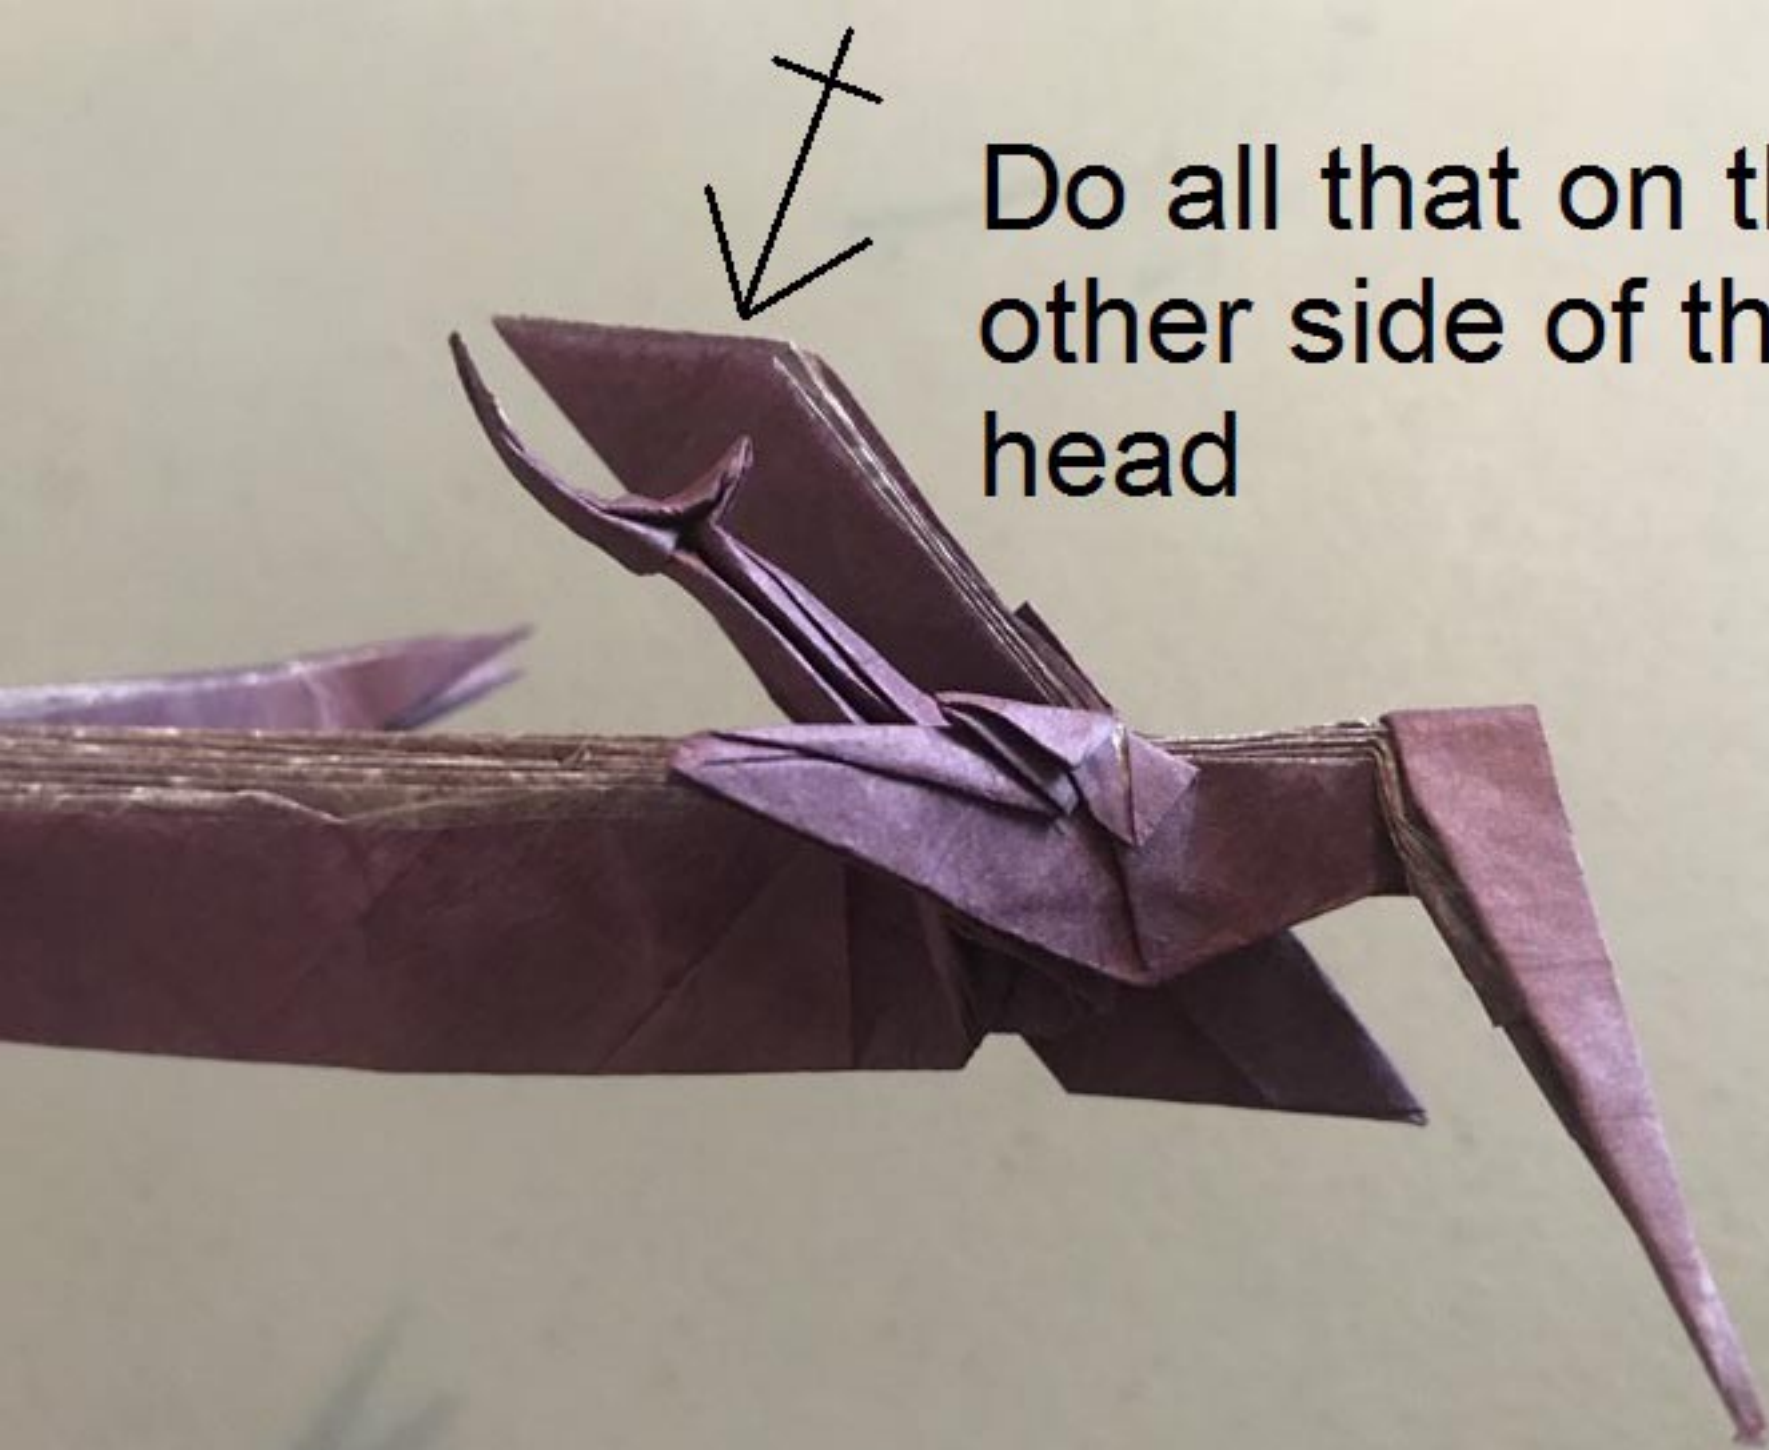

Close up

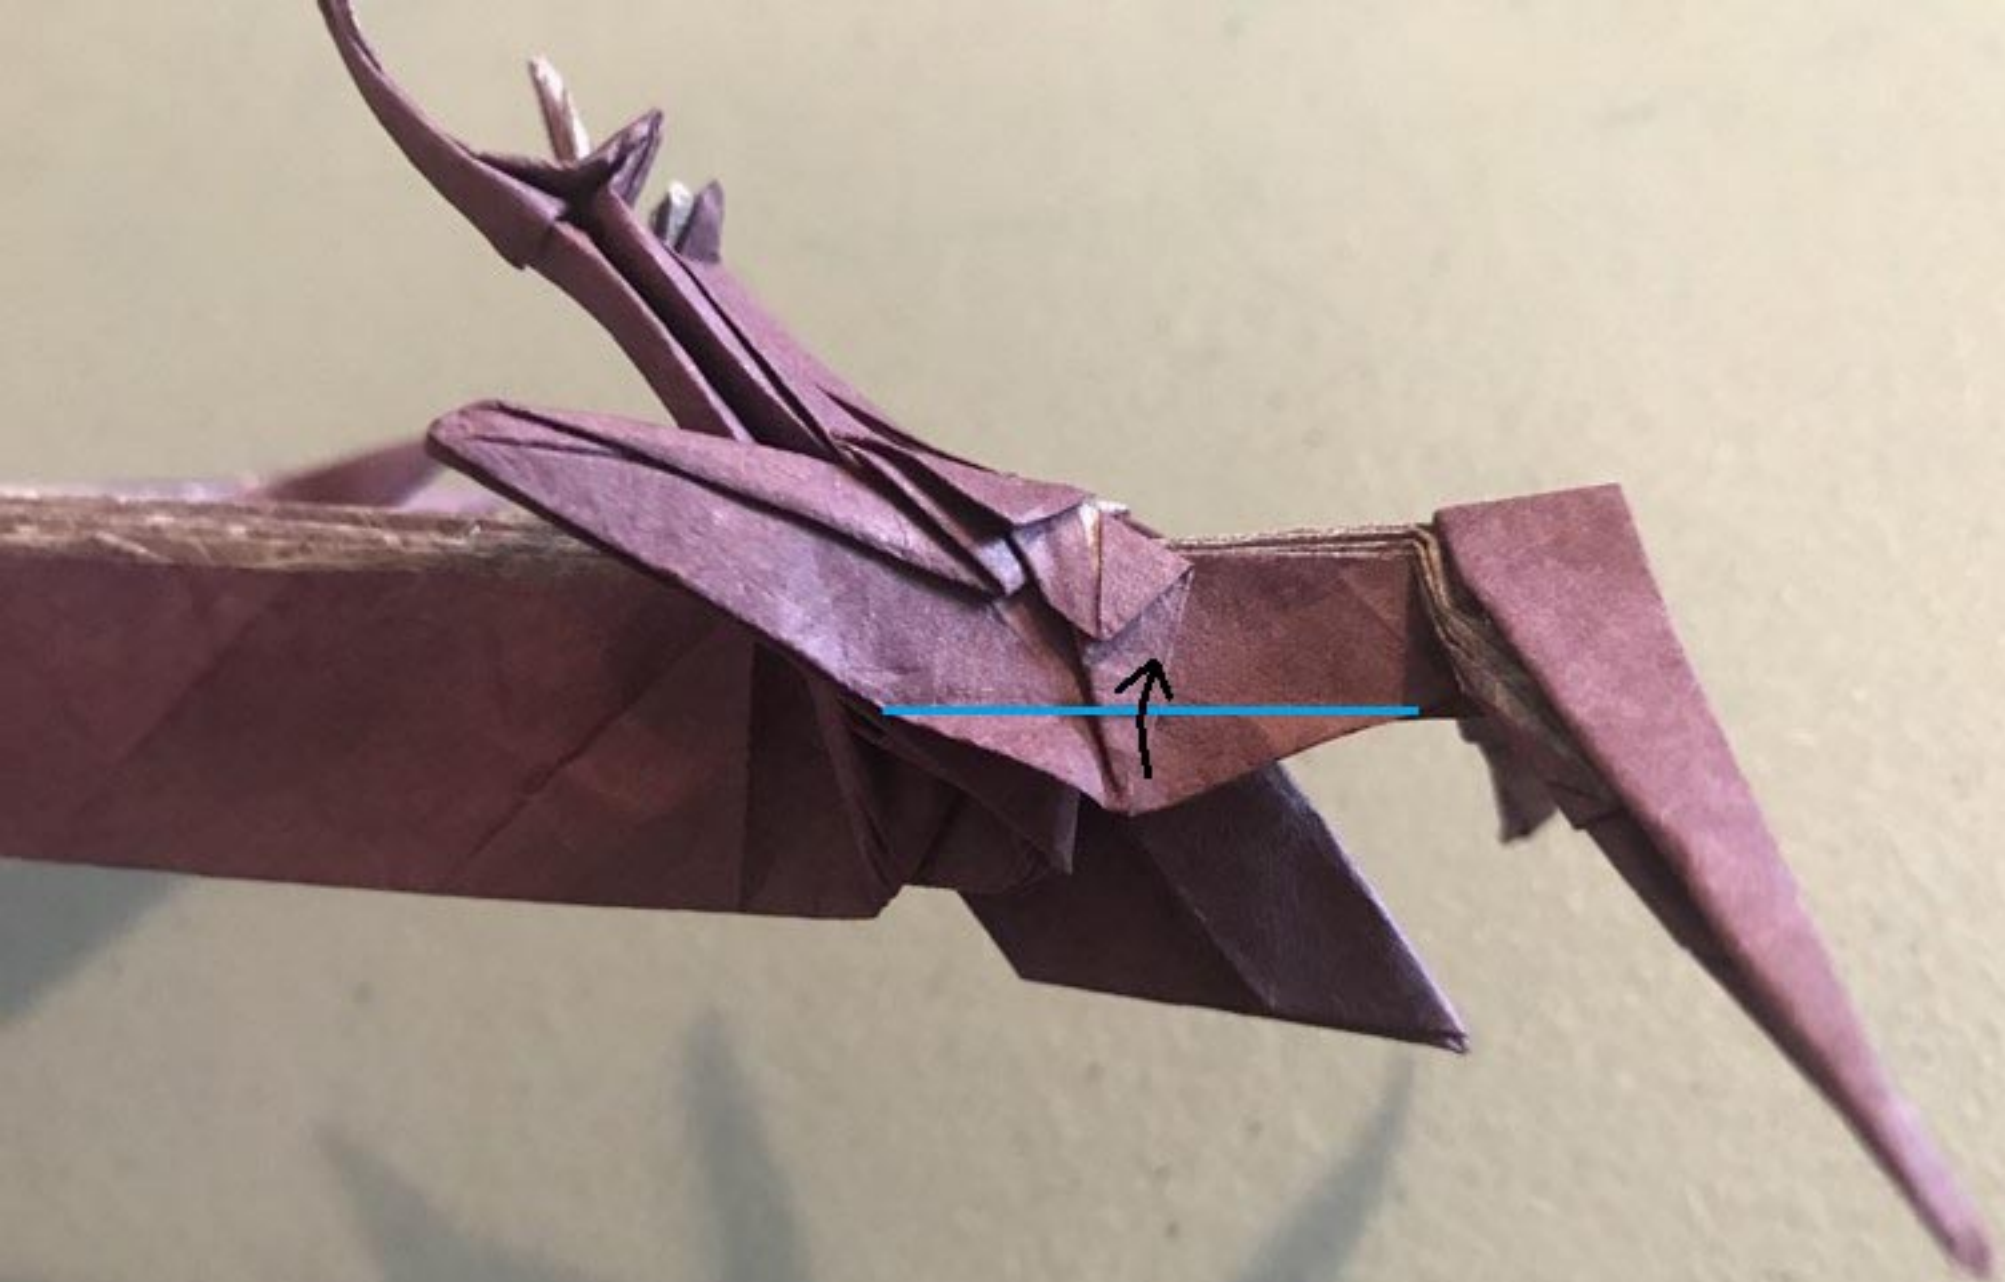

Won't be clean here.
Do your best

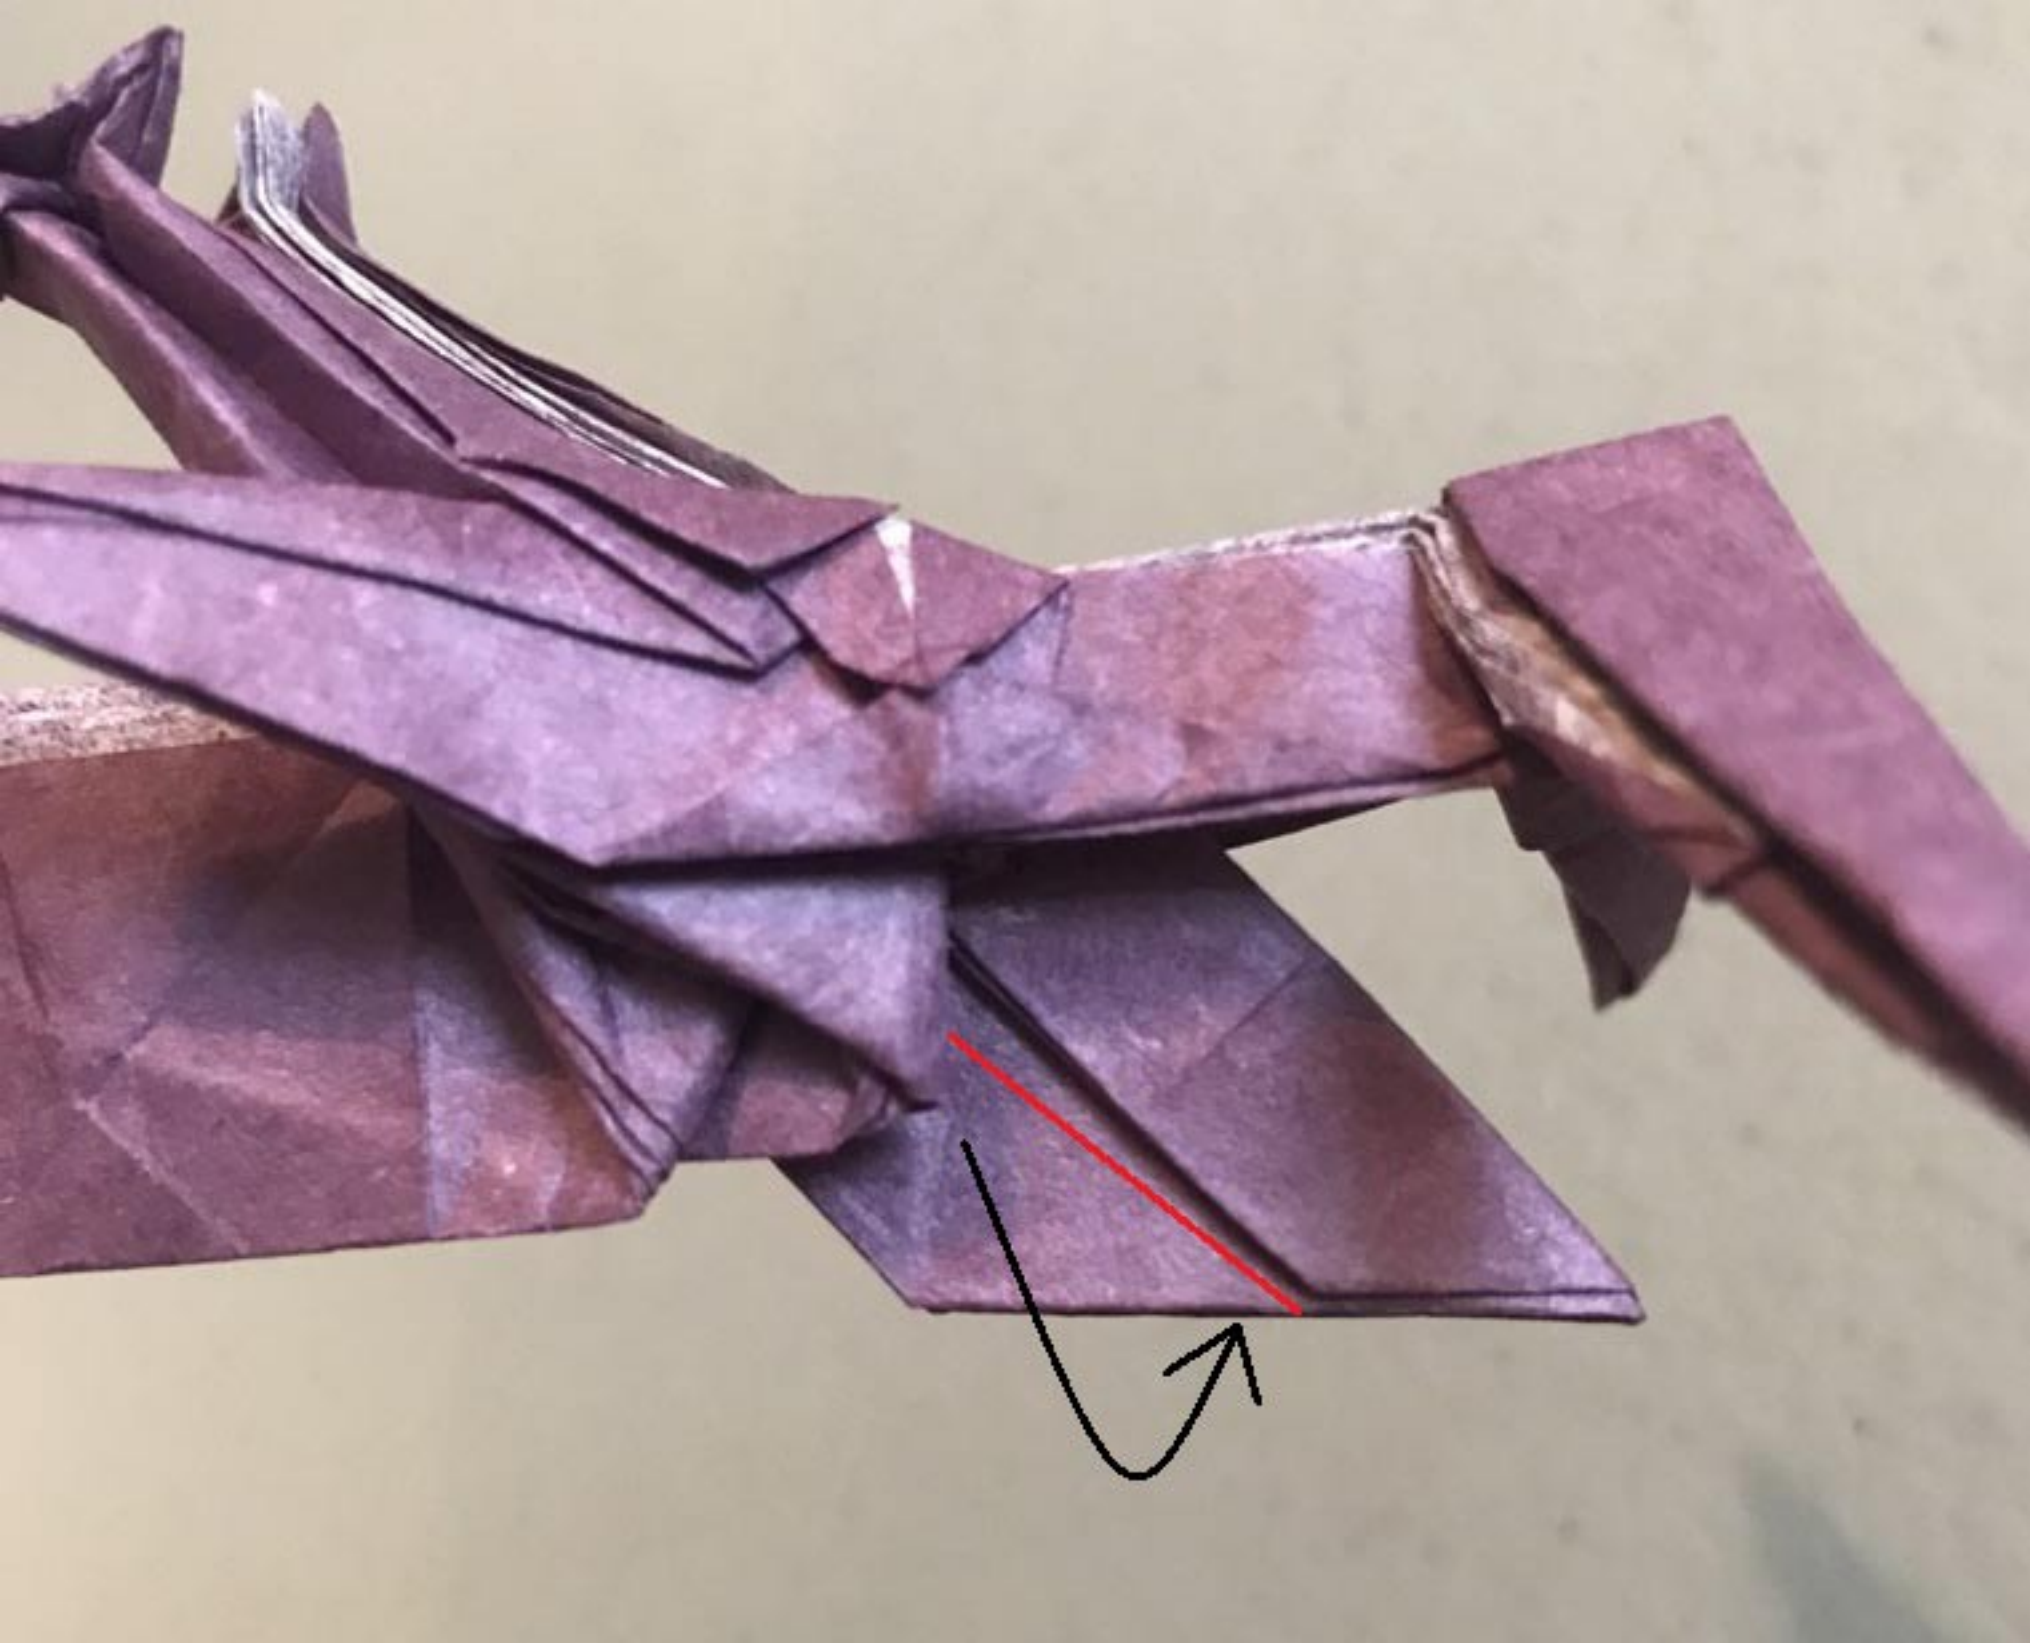

Curve upwards

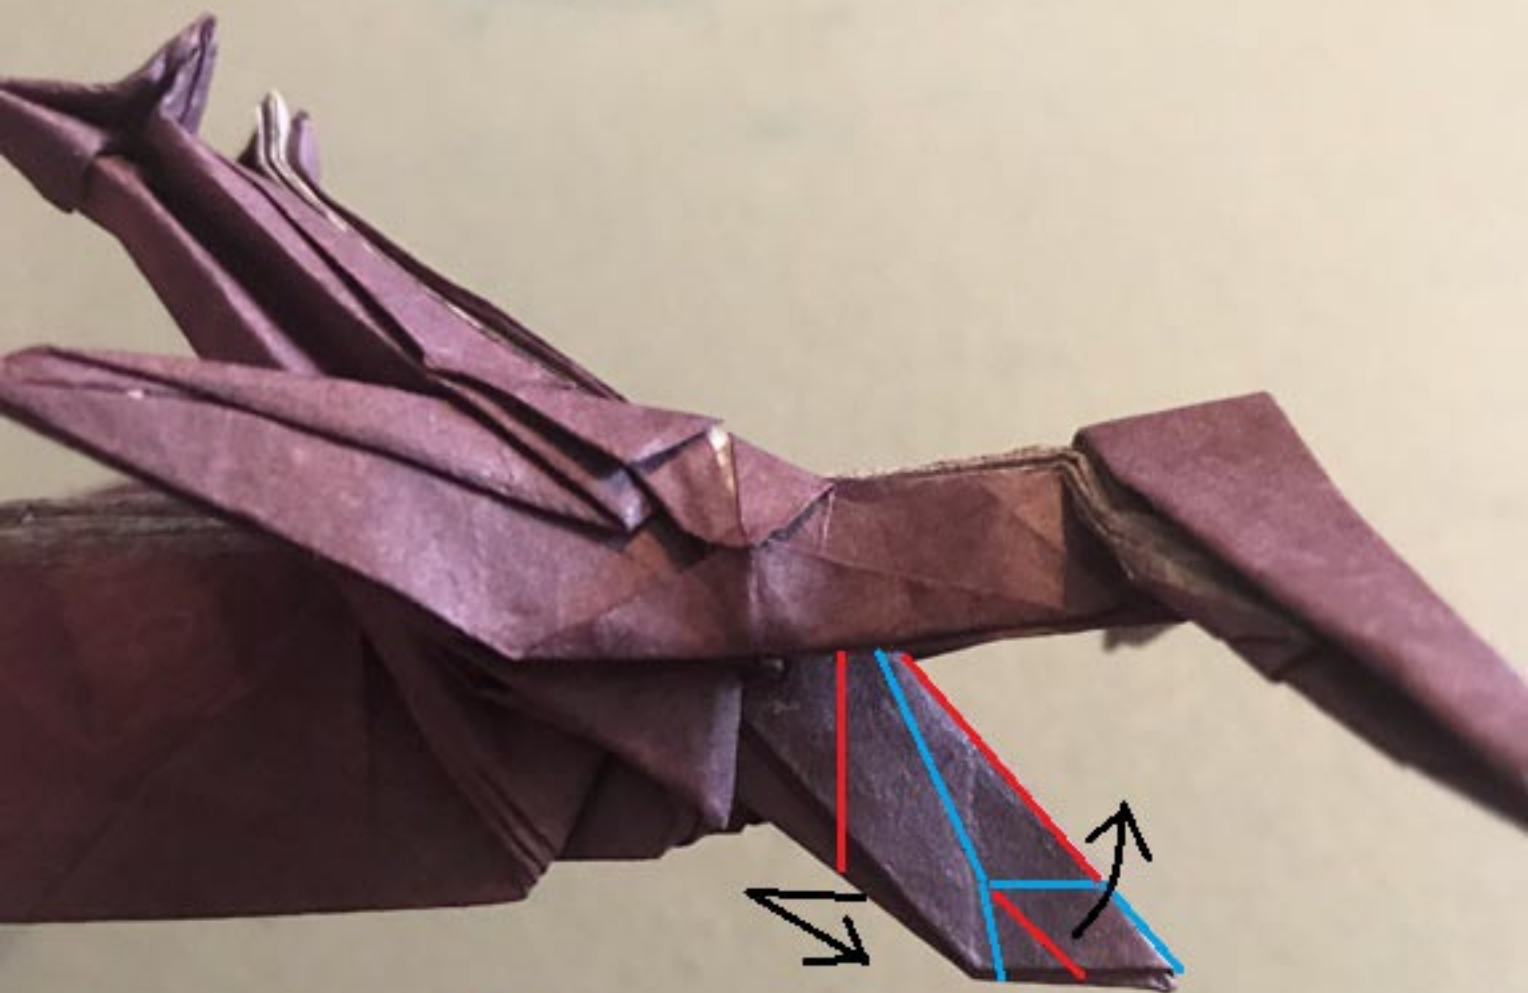

Do all that on the
other side of the
head

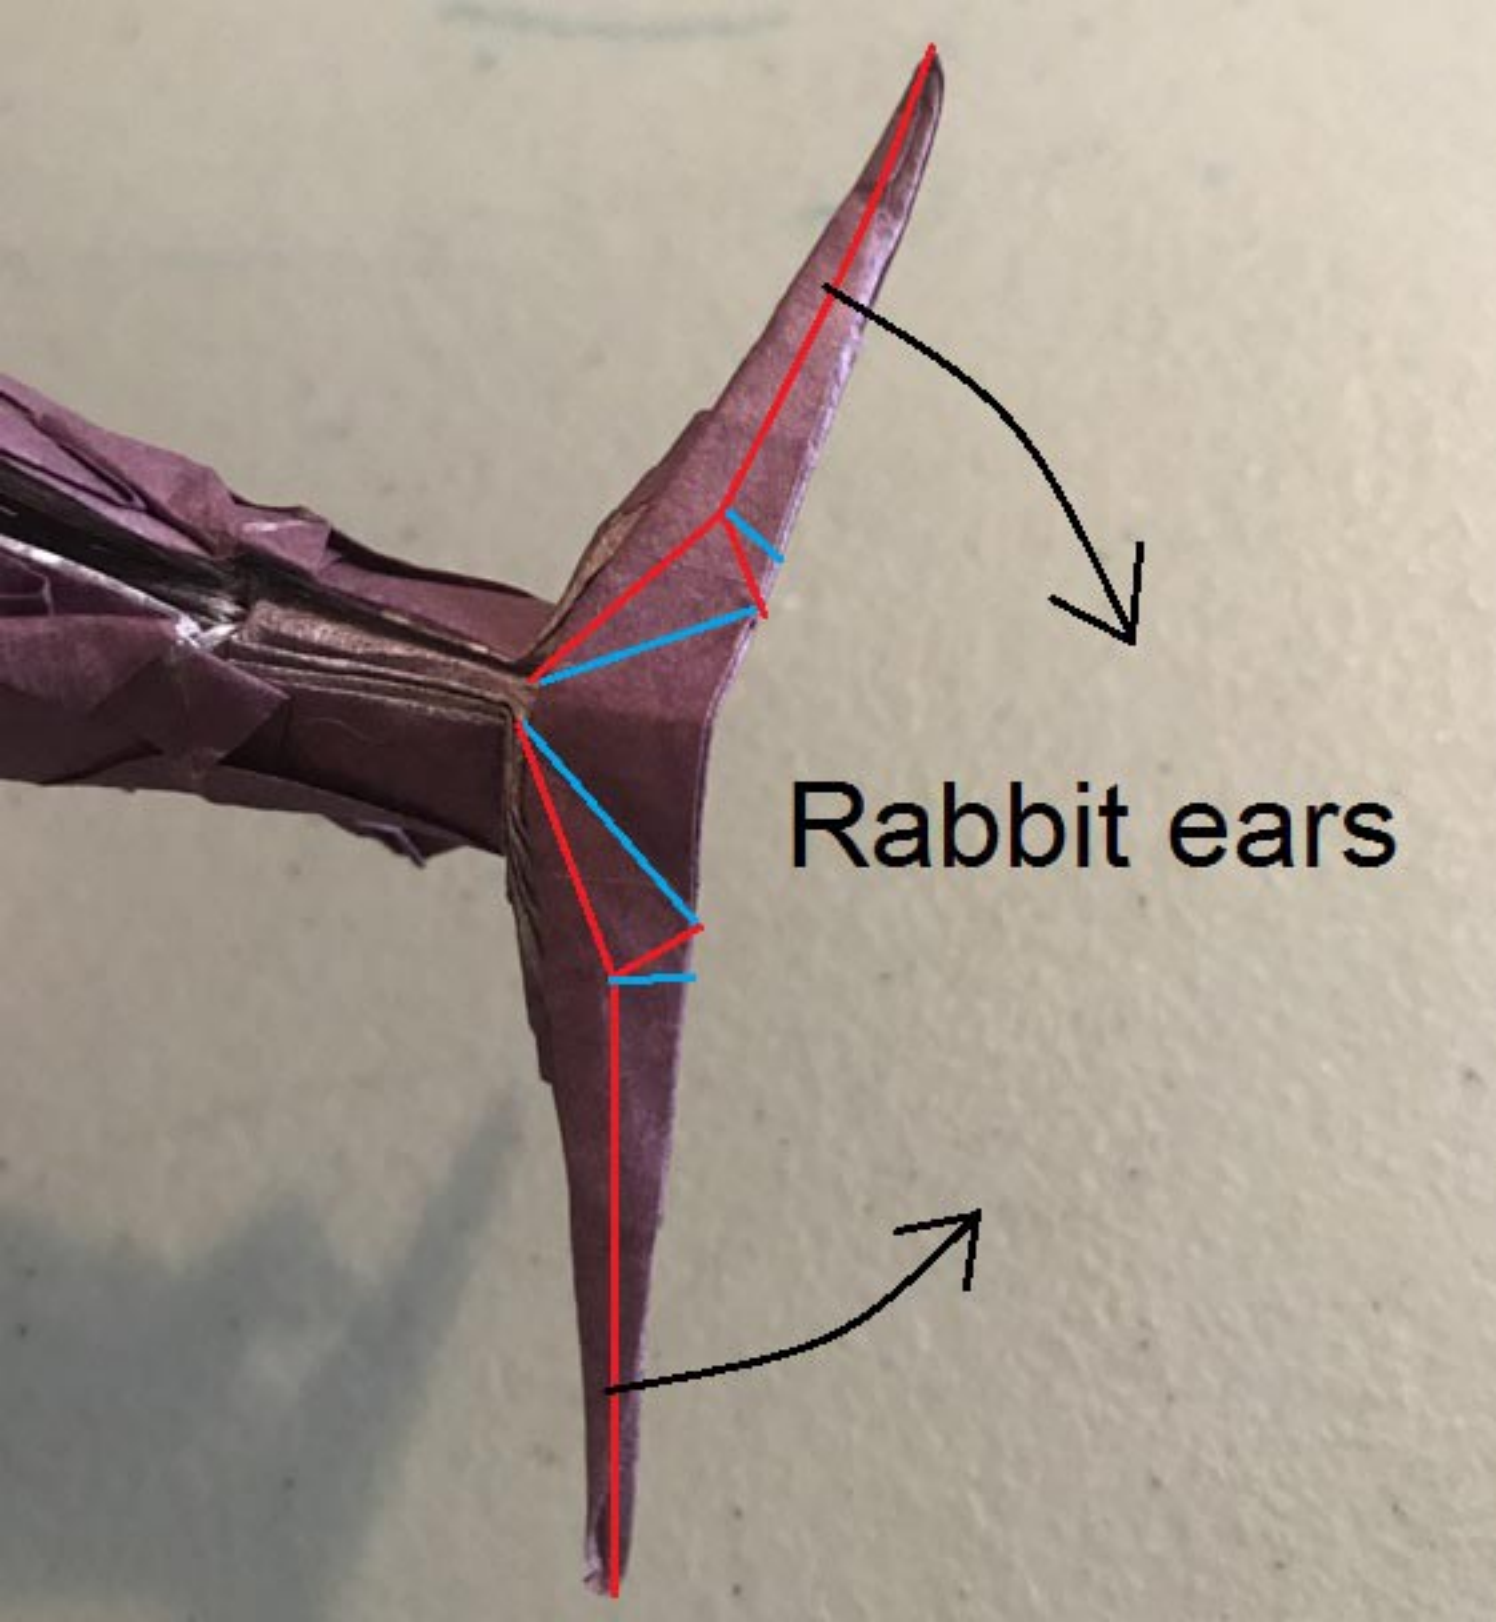

Crimps with an
outside reverse

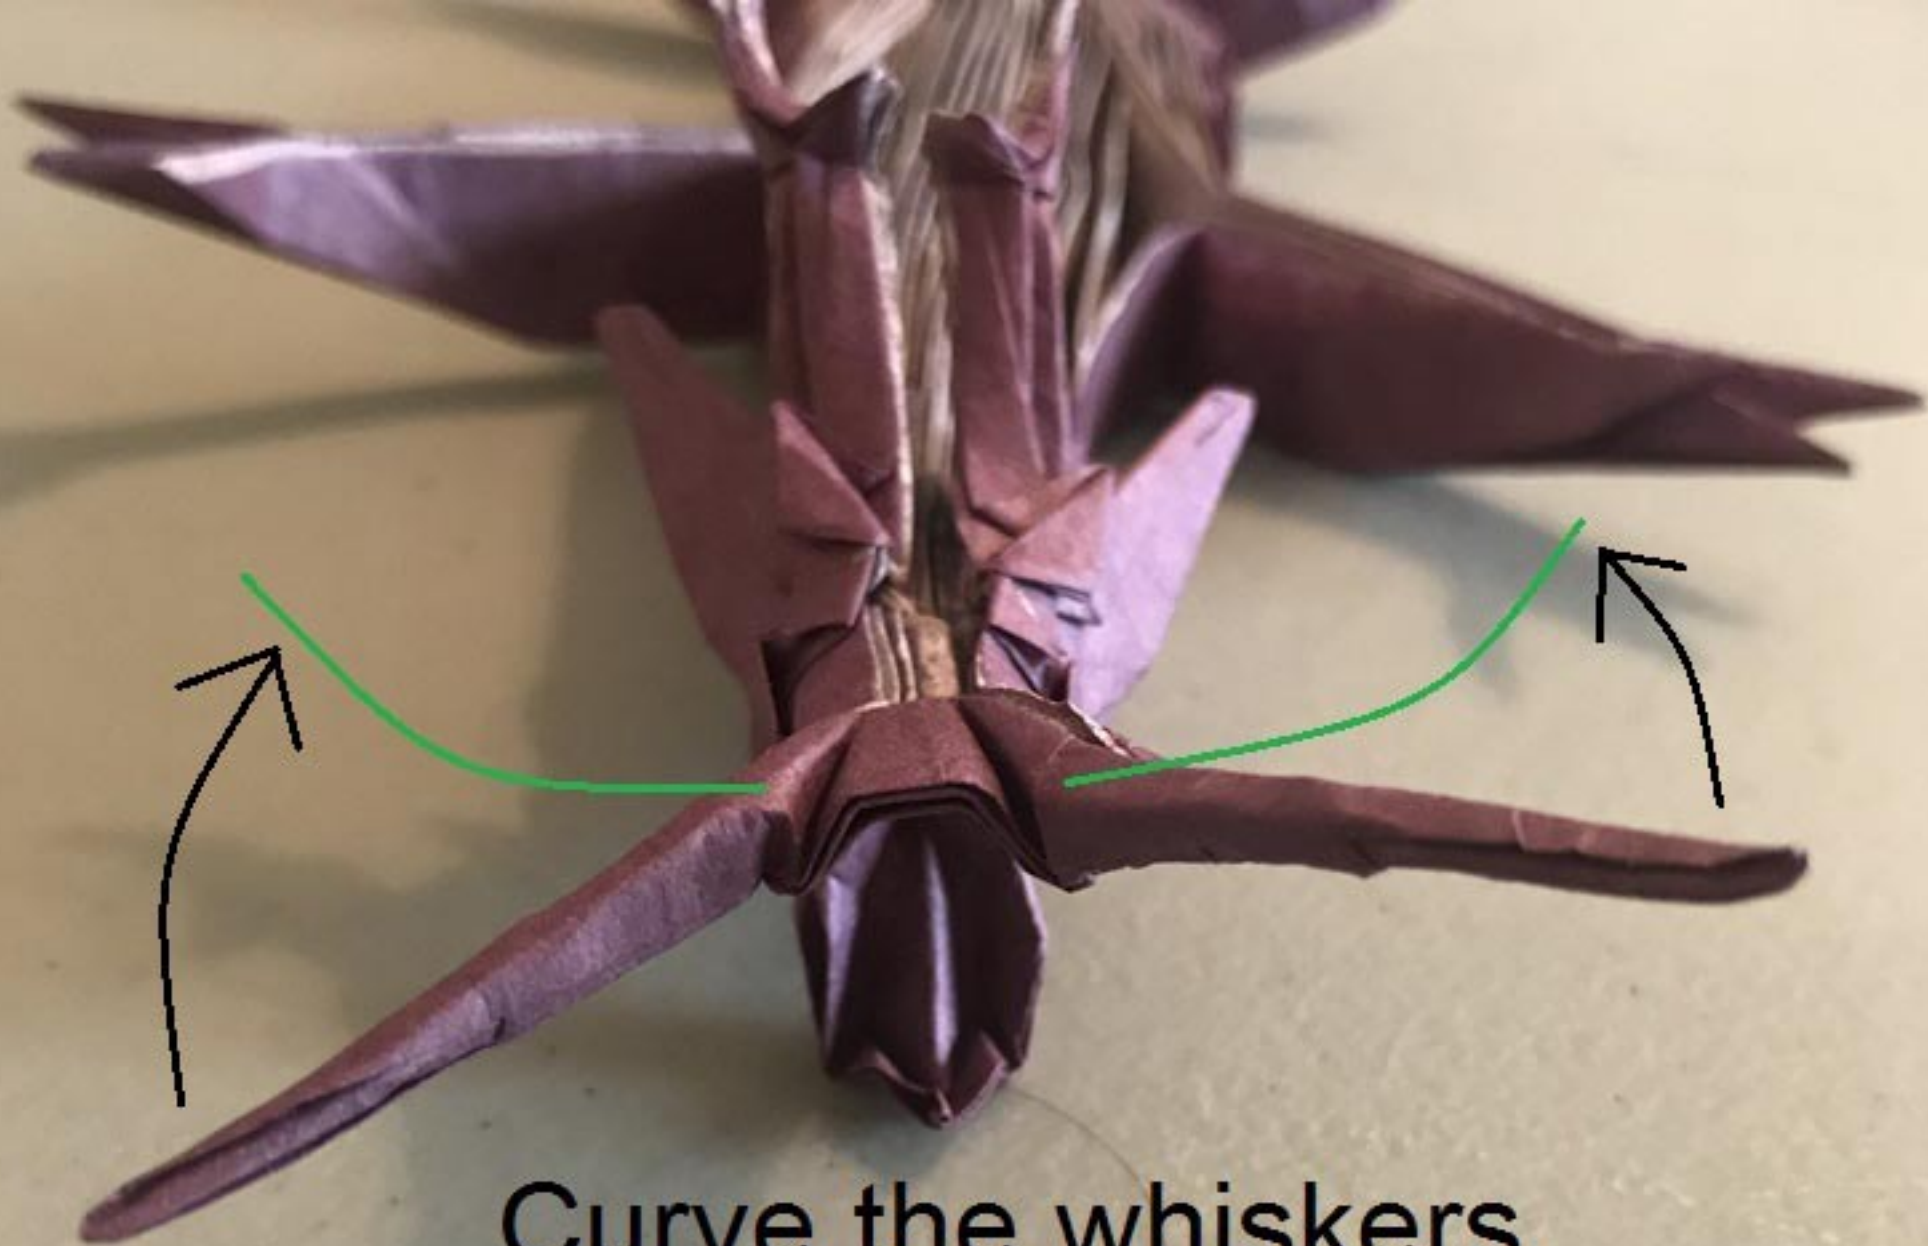

Result

Rabbit ears

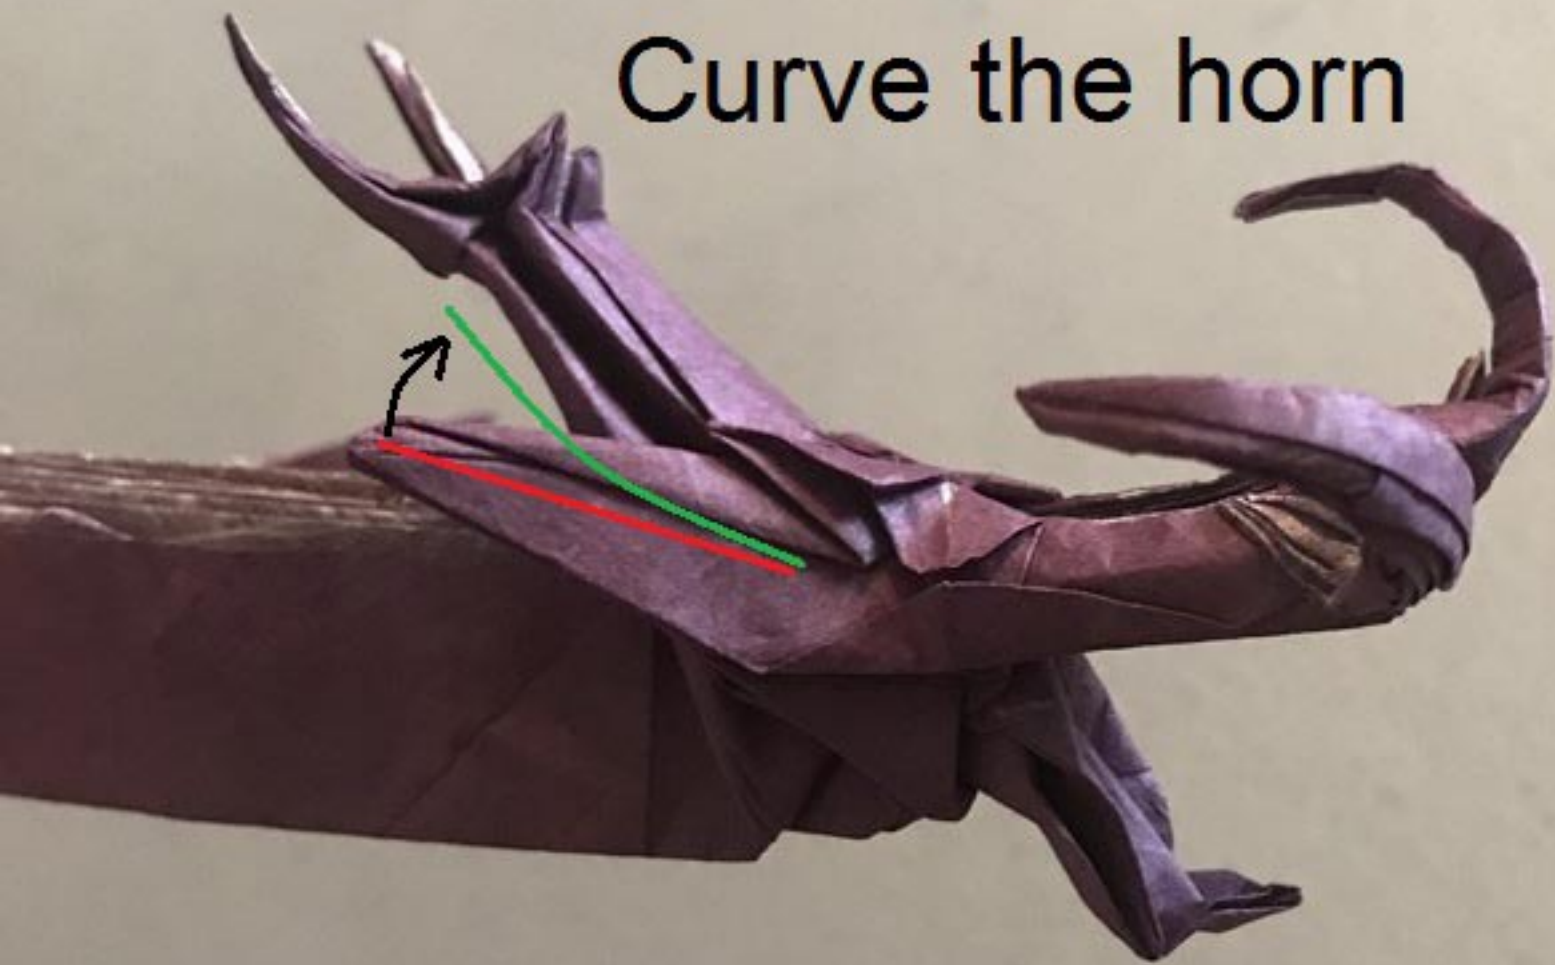

Round the snout

Curve the whiskers

Curve the horn

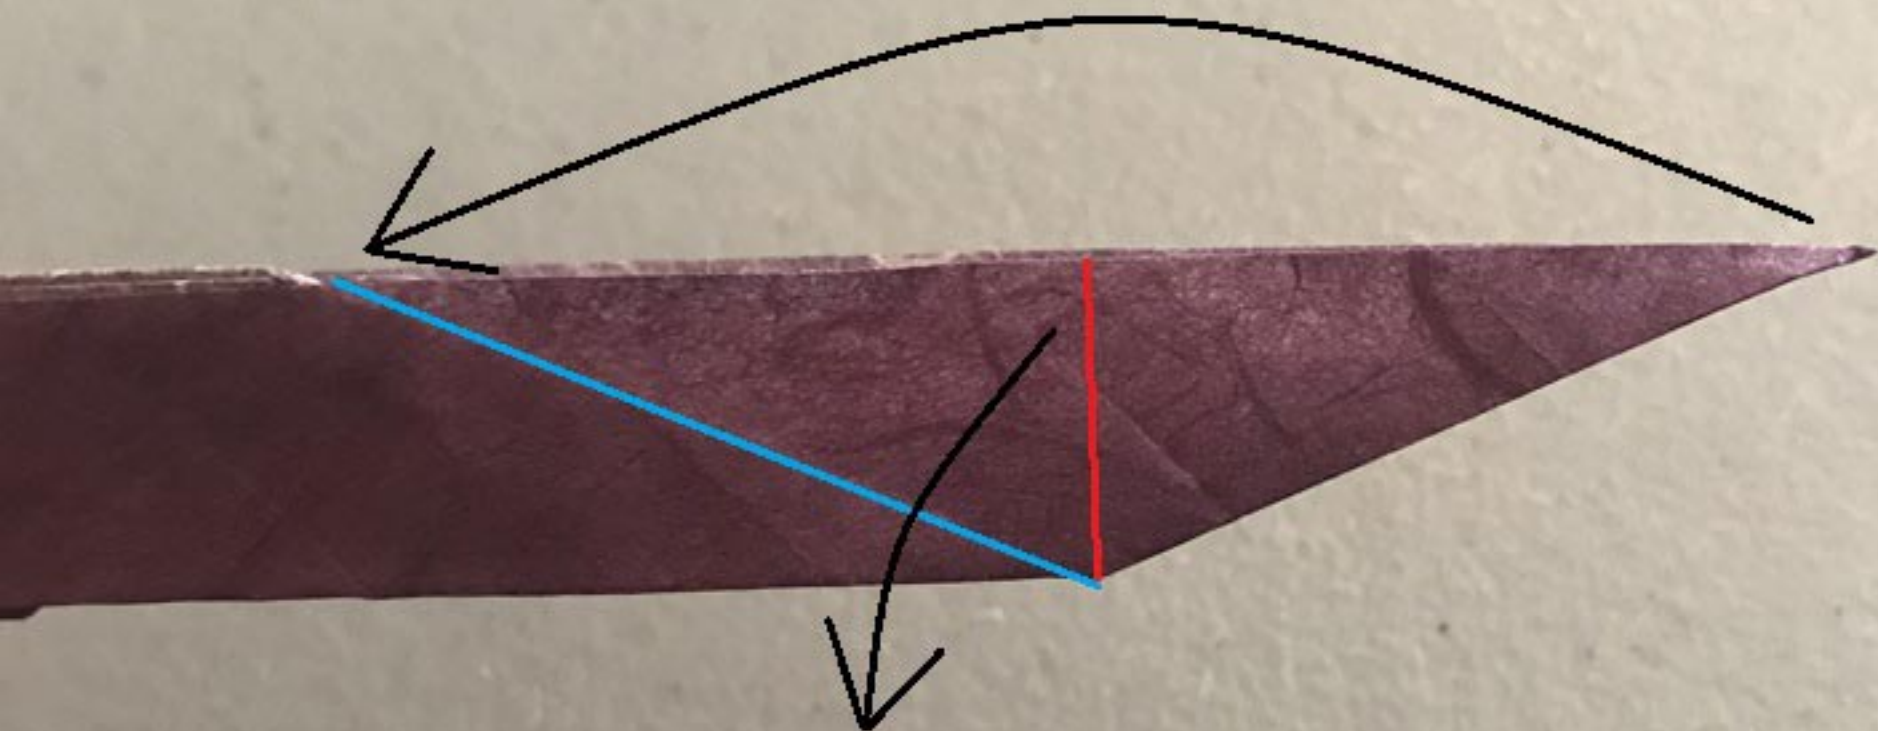

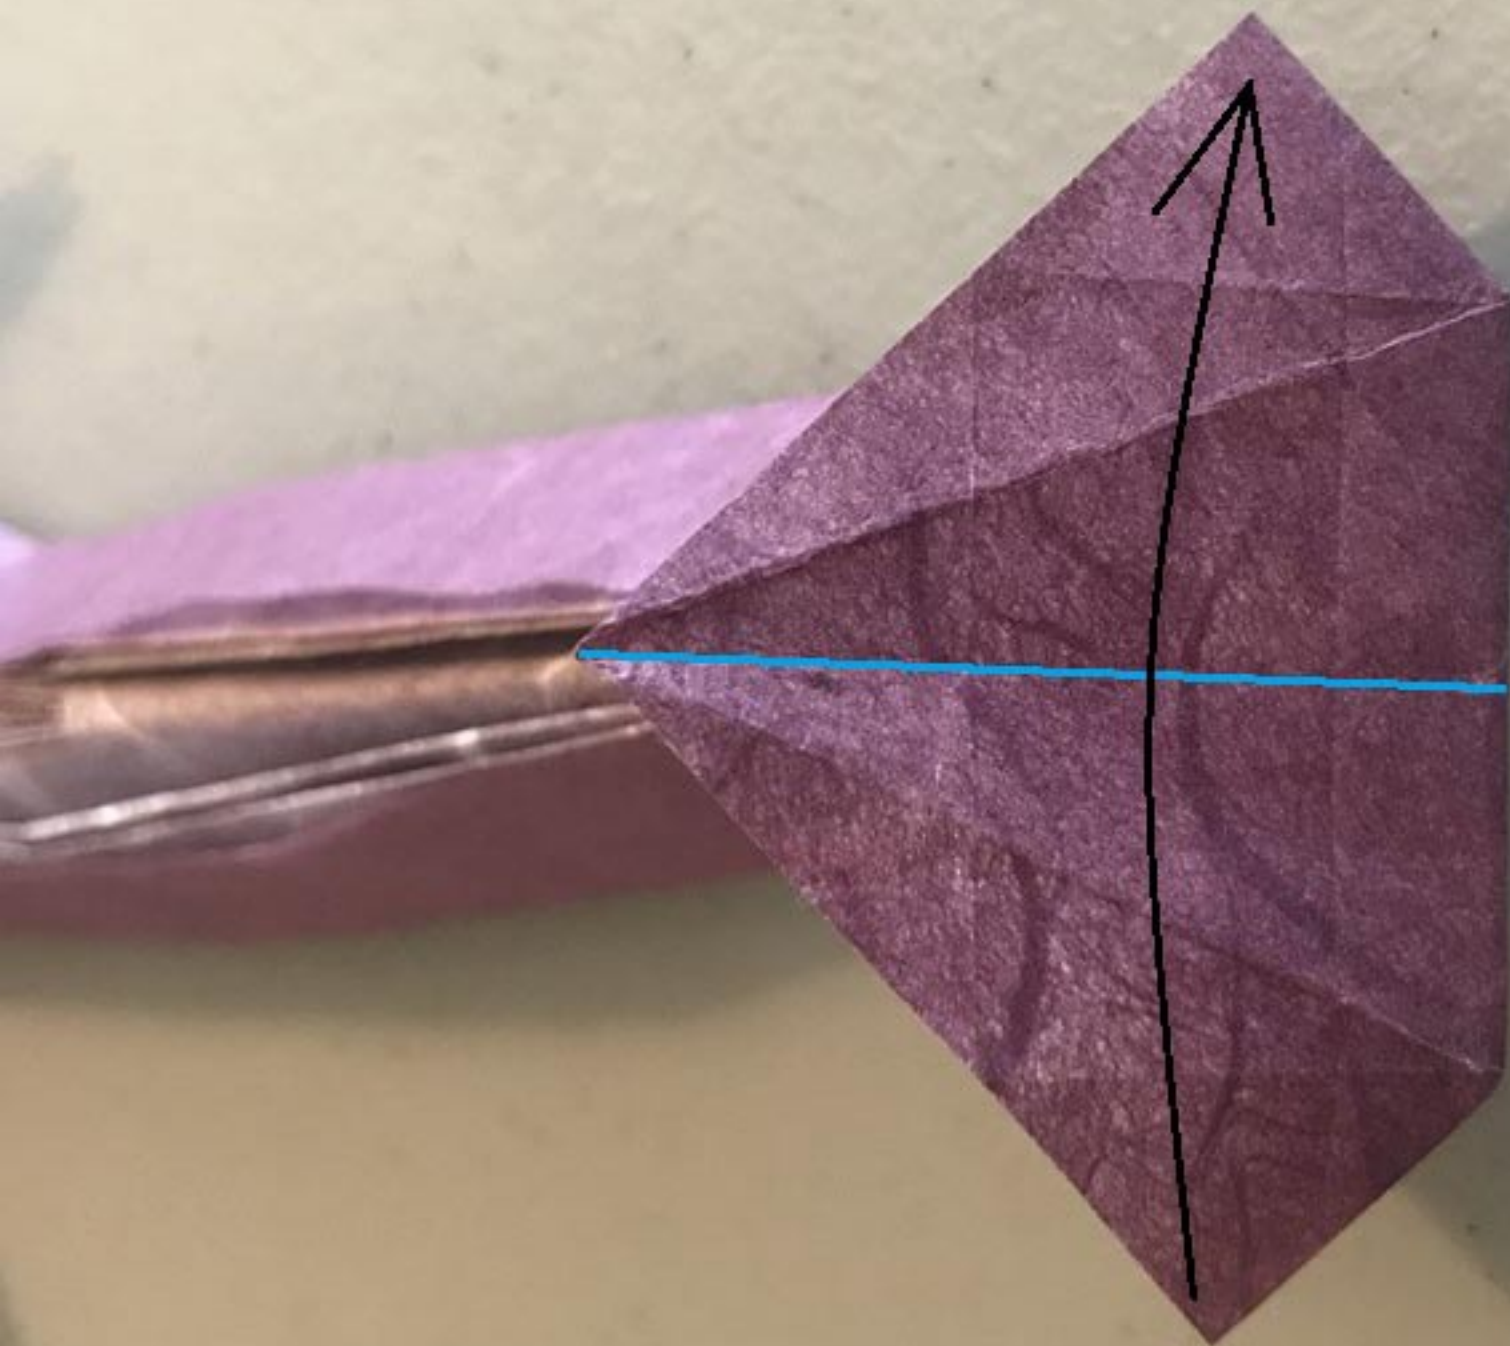

Result

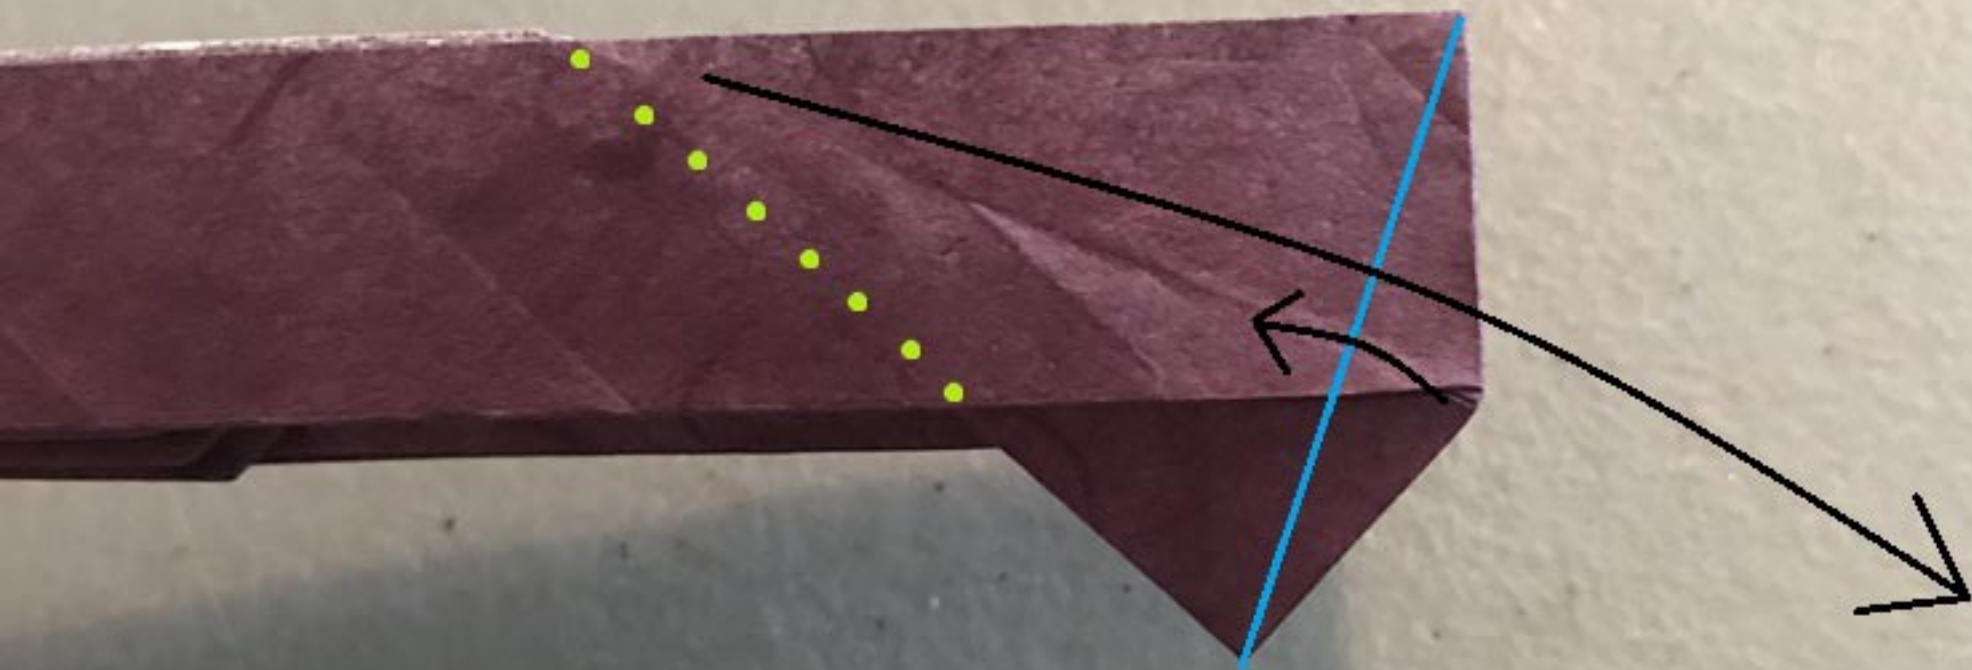

Open up

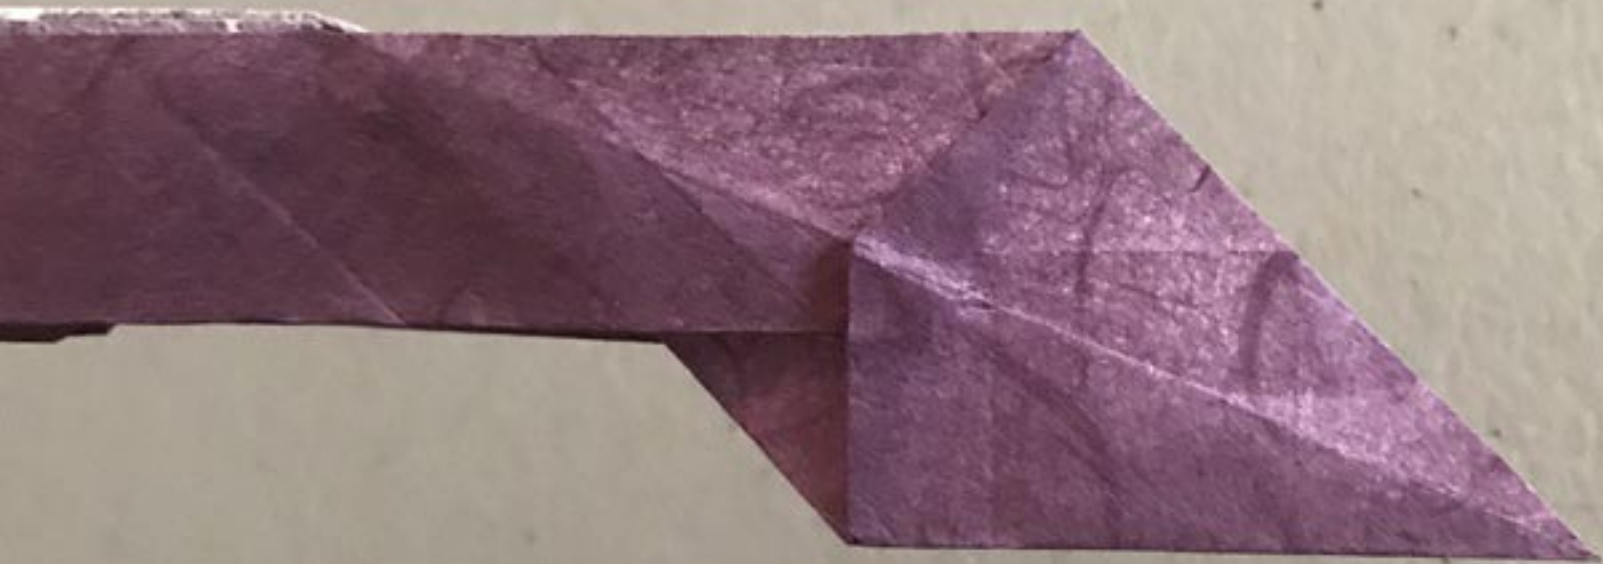

Close up

Bring the center
flap out

Result

Wires, glue,
final shaping
